HONORS GRADUATES

Millersville University students are awarded honors in three categories: Departmental Honors, Honors College and University Honors. To qualify for Departmental Honors, a student must complete a thesis written under the supervision of a faculty member. In order to graduate from the Honors College, a student must not only complete designated honors courses and a thesis, but also maintain an overall grade point average of at least 3.35. Students graduate with University Honors by virtue of their grade point average. Those who earn averages between 3.50 and 3.74 graduate cum laude; those who earn averages between 3.75 and 3.94 graduate magna cum laude; while those who earn averages between 3.95 and 4.0 graduate summa cum laude, the highest earned academic honor the University can bestow.

The Reverend Lewis Merwin Hobbs Medallion/Dr. Dominick ’53 and Mrs. Helen DiNunzio Award

Seniors who are graduating summa cum laude receive this special medallion. The award has been made possible by a gift from Dr. Dominick ’53 and Mrs. Helen DiNunzio.

SENIOR CLASS GIFT REMARKS –
Panashe Zaranyika ’18

There is a tradition of giving at Millersville University. Since 1866, each graduating class has had an opportunity to leave their legacy at the University they call home. For the past few years, a committee of students from this graduating class has met to decide how the Class of 2018 could continue this tradition and leave their mark at Millersville University. It is with great pride and honor that I make this statement on behalf of the Class of 2018:

In appreciation and recognition of our educational experience at Millersville University, the Class of 2018 hereby presents our senior gift.

The Class of 2018 resolves to contribute to the Senior Class Gift Endowment so that the fund will reach threshold. At a fully endowed state, the fund will exist in perpetuity and be used for scholarship support in addition to helping future annual class projects.

Graduates, you can be proud that the Class of 2018 will be remembered for their pride and generosity.

Dr. Anderson, please accept this gift as a token of our sincere gratitude to Millersville University for providing us with a strong educational experience that has prepared us well for our future.
ACADEMIC SYMBOLISM

Academic ceremonies are steeped in centuries-old ritual. The elaborate trappings contribute to the pageantry and dignity of the occasion and convey the continuity of academic tradition from medieval times to the present. Incorporating those traditions here today unites Millersville University with the community of scholars and institutions of higher learning at all times and in all places.

The Academic Procession

The academic procession that begins and ends most academic ceremonies is a descendant of the clerical procession. Millersville's processions, formed in ranks of two, are led by one of the most senior faculty members carrying the University mace, followed by the candidates for degrees, the University faculty, the Council of Trustees and platform party, and the University president and guest speaker. The recession is reversed with the president and the guest speaker leading the trustees and platform party off the stage. The marshals carry staves that were designed by the late Dr. Dominick Fanani, professor of art emeritus, and cast in brass by Mr. Ralph Miller of the Department of Industry and Technology, now known as the Department of Applied Engineering, Safety and Technology. The hollow rods are topped with a mortarboard, representing higher education, and a stylized M for Millersville.

The Mace

The staff carried at the front of the academic procession is called a mace and represents the authority of the University Council of Trustees. Millersville's handsome mace was designed by the late Mr. Henry J. Kauffman, who was a professor of industrial arts emeritus. The long, heavy club is made of wood surmounted by a replica of the Old Main tower in brass.

The University Seal

Most colleges and universities use institutional seals on important documents such as college diplomas. Imprinting the seal in wax to authenticate official documents, of course, is no longer done, but the display of the seal at official ceremonies represents that authority. Millersville University's seal, a gift of the class of 1916, is worn on a gold chain by the University president. It was designed by the late Mr. Robert Hostetter, associate professor of industrial arts emeritus.

Academic Attire

The academic costume has always consisted of three parts: the gown, the hood and the cap. It has traditionally been worn at commencement exercises as a record of the academic achievement of the participants. Its use originated in the Middle Ages, when all undergraduates were required to wear clerical robes similar in style to those of the regular clergy. This type of dress was appropriate since all students were expected to enter the ranks of the clergy. The colors on the robe, the hood and the tassel represent the status and discipline of the wearer. The color of the velvet bands on each hood and robe represents the scholar's field of learning, while the colors of the school awarding the degree are shown in the lining of the hood. Some schools, such as Harvard, use a distinctive color for the entire gown. In this country a color system was adopted in 1893 to identify the academic discipline in which the degree was earned. Some of the most frequently seen hood colors, and the field of learning represented by each, are white, arts and letters; drab, business administration; copper, economics; light blue, education; orange, engineering; lemon, library science; pink, music; apricot, nursing; dark blue, philosophy; sage green, physical education; golden yellow, science; citron, social work; and scarlet, theology.

Cords distinguish those students who have earned Departmental Honors, University Honors, and/or who have graduated from the University's Honors College. Graduates may wear as many cords as they qualify for. The colors, and the academic achievement they represent, are as follows: white, cum laude; silver, magna cum laude; gold, summa cum laude; purple, University Honors College; red, Departmental Honors; and green and blue, study abroad.

The tassels for bachelor's and master's degrees are usually black, while the tassels of the doctorate caps are usually gold. Traditionally, tassels are worn on the right side of the degree candidate's cap; after the degree is granted, the tassel is worn on the left side of the cap.
COMMENCEMENT SPEAKER

John M. Anderson
President, Millersville University

Dr. John M. Anderson has served as the 14th president of Millersville University since April 2013. He will retire in June of this year, after five years in the position.

During his tenure, Anderson has been a strong advocate of community engagement and sustainability, including the opening of MU’s first zero energy building, the Lombardo Welcome Center. Anderson signed the President’s Campus Climate Action Plan in 2015, which committed the University to being carbon neutral by 2040.

Anderson’s strategic plan, Our Bold Path, centered on engaging learners, ensuring long-term success and embracing agility. The plan ushered in a variety of University projects, including the opening of the Intercultural Center for Student Engagement in the Student Memorial Center, which is focused on diversity and inclusion programming; increasing out-of-state and international enrollments; and supporting high-impact learning experiences like study-abroad programs, internships and living-learning communities. Anderson’s other achievements include closing a $10 million structural deficit and introducing three new doctoral programs.

In the Lancaster community, Anderson serves as a trustee on the board of Lancaster General Health. In addition, he serves on the Lancaster County STEM Alliance Advisory Board where he is also a member of the Rational Career Exploration Task Force. Anderson previously served on the Board of Directors for the Economic Development Company of Lancaster County and the SCORE Advisory Board.

Prior to joining Millersville University, Anderson was the 11th president of Alfred State College in Alfred, New York, for six years. Before that, he served as executive vice president and provost at Hartwick College in Oneonta, New York. Anderson has an established and recognized career as a professor and academic leader. His career is supplemented by more than 20 years in a variety of senior-level administrative posts including president, executive vice president, provost, vice president for Academic Affairs, vice president of Institutional Advancement, interim vice president of Student Services and dean of Student Development at a variety of institutions.

Anderson has a Ph.D. in education from Cornell University, an M.A. in physics from SUNY Geneseo, a B.A. in physics from SUNY Brockport, and an A.S. in math and science from Westchester Community College. He also received post-graduate education at Harvard University.

After retiring, Anderson and his wife, Vivien, will move back to New York to be closer to family. The couple has two daughters.
ABOUT THE UNIVERSITY

Millersville University is one of the most highly regarded public universities in its region of the United States. Millersville is home to a faculty of dedicated educators considered among the very best in their disciplines. The University is distinguished by intelligent, hardworking students who embrace the life of the Lancaster area and contribute substantially to its betterment. Graduates are much sought after by employers, and many earn their way into the most rigorous programs offered by the finest graduate schools. Each Millersville class sends well-trained professionals and caring citizens into the communities of the Commonwealth.

Millersville's faculty and staff recognize that every student arrives with energy, intelligence and promise. With access to world-class educational resources, a solid liberal arts foundation and a closely collaborative learning environment, students are taught, mentored and inspired by professors who pay attention to the context of their students’ lives beyond the classroom. Millersville professors work with their students’ individual talents and skills, encouraging in each a passion to know more and a hunger to achieve.

From opening day in 1855, Millersville has demanded the best from its students. At the same time, the faculty, staff and administrators have always found a way to give each and every student a helping hand or the extra push they need to excel. In addition to academic opportunities, Millersville provides a broad-based support system to nourish body and spirit. Experiential learning programs, athletic teams, and diverse clubs and organizations help the community, as well as the students, to strengthen and flourish.

Millersville’s four colleges offer innovative programs taught by leading professors in their fields who produce learning opportunities that are both comprehensive and deep, often beyond the depth available in larger universities or private colleges. The quality of academic programs is directly related to the qualifications of the faculty. Millersville’s faculty is the most highly credentialed faculty in the State System; 98 percent possess the highest degree available in their field. Students are taught by these professors, never by teaching assistants. As a result, students work with intensity and passion, excited by the possibilities of study in a wide range of sub-disciplines. Many dig deeper, joining their professors in collaborative undergraduate research projects. Given these rich educational opportunities, Millersville students are inspired not only to earn a degree, but to make a continuing contribution as scholars in their chosen fields of study.

A Brief History of Millersville

Millersville has the distinction of being Pennsylvania’s first state-owned university, founded in 1855 as a normal school. In the mid-19th century, normal schools were developed throughout the East as a way to train teachers for the country’s fast-growing new public schools. In Lancaster County, James P. Wickersham was in charge of the public schools and was convinced of the need for training programs for teachers. He held his own program, a teacher’s institute, in the little borough of Millersville in a brand-new building that had been constructed as a private academy for children of the area. After its success, he then convinced the town fathers who had built the school to permit it to be used instead as a permanent normal school.

For the next 100 years, Millersville’s purpose was to prepare teachers, and it did so with great success. Its reputation as an institution of excellence was established during the period when it was operating two-year and later four-year programs to prepare the individuals who taught the children of this Commonwealth. It became famous not only for its elementary and secondary teaching programs, but also for its special programs to prepare industrial arts teachers and school librarians.

Over the years, the school’s name changed several times. Wickersham called it the Lancaster County Normal School. In 1859, when it was four years old, the school was officially recognized by the state legislature, and its name became The First Pennsylvania State Normal School. That lengthy title was gradually changed by usage to Millersville State Normal School. It was purchased in 1917 from the original stockholders by the Commonwealth and became a state-owned normal school. Eventually all of the normal schools across the state were purchased and became the State Normal Schools. Their names were changed to the State Teachers Colleges as they were granted college status and allowed to award four-year baccalaureate degrees. Millersville achieved college status in 1927.

In 1959, the name was changed to Millersville State College and soon to follow were a great many new four-year baccalaureate programs in the arts and sciences. Also added were master’s-degree programs,
at first in teacher education and later in many other fields. On July 1, 1983, the college became Millersville University of Pennsylvania, and the 14 state-owned colleges became the State System of Higher Education.

**Millersville University Today**

During Millersville’s evolution from a normal school to a university, its reputation as a good training ground for teachers has not diminished. Teacher certification programs are available across all schools in Special Education, Elementary and Early Childhood Education, a wide selection of Secondary Education programs, Technology and Engineering Education, Art Education and Music Education.

The **College of Education and Human Services** is the home to the following departments: Educational Foundations; Early, Middle and Exceptional Education; Psychology; Wellness and Sport Sciences; and the School of Social Work.

The **College of Science and Technology** is comprised of the following departments: Applied Engineering, Safety and Technology; Biology; Chemistry; Computer Science; Earth Sciences; Geography; Mathematics, Nursing and Physics. Offerings in the health fields include Respiratory Therapy; Medical Technology; Nuclear Medicine Technology; Pre-Athletic Training; Pre-Med; Pre-Optometry; Pre-Pharmacy and Pre-Podiatry.

The **College of Arts, Humanities and Social Sciences** is the home of the liberal arts disciplines in humanities and social sciences, including the departments of Art and Design, Business Administration, Communication and Theatre, Economics, English, Government and Political Affairs, History, Language and Culture Studies, Music, Philosophy and Sociology/Anthropology. The College also offers interdisciplinary programs in African-American Studies, Entrepreneurship, International Studies, Latino Studies and Women and Gender Studies.

The **College of Graduate Studies and Adult Learning** was established in fall 2009 following 50 years of graduate program offerings. Today, Millersville offers more than 50 graduate-degree and certification programs that serve the needs of adult learners in our community and beyond.

**Integrated Studies** is a high-quality, individualized post secondary education course of study for individuals with intellectual disability that leads to social and professional networks, careers and bright futures. Each student receives person-centered planning through the creation of a PATH (Planning Alternative Tomorrows with Hope) to identify their vocational goal and establish an individual plan for employment. Students receive support from trained personnel, including coaches, mentors, faculty and staff. This inclusive initiative is intended to strengthen our academic community and the broader community as well.

The University’s curriculum is continuously studied and adjusted to allow for the development of programs to meet the needs of students. Millersville University’s new major, Multidisciplinary Studies (MDST), is an innovative and flexible program of study that builds on the University’s existing strengths in the liberal arts and sciences. With careful advisement, students are provided an opportunity to tailor studies to better meet their academic strengths and career goals.

In 2015 as part of Millersville University's strategic plan, three doctoral programs were launched. The programs are Doctorate of Education in Educational Leadership (Ed.D.), Doctor of Social Work (D.S.W.) and Doctor of Nursing Practice (D.N.P.).

This fine selection of curriculum offerings, together with the dedicated faculty, comprise the heart of the University. But Millersville’s excellent reputation is also based on its efforts in other areas. It has outstanding athletic, intramural and recreational programs. It offers a wide range of cultural activities both for educational and entertainment purposes. The Winter Visual and Performing Arts Center opened in fall 2012 and houses the Department of Music, state-of-the-art facilities, including performance and recital halls, recording suites, Yamaha Disklavier and the Yamaha Clavinova piano labs. The Ware Center, in downtown Lancaster, is dedicated to innovation, engagement and creativity, and the facility offers space for academic studies as well as elegant performance areas and cultural events programs.

The 250-acre main campus is well-tended, and the park-like area around the campus pond is regarded as a special place by students, where they can sit and enjoy the outdoors and watch the swans Miller and S’Ville. The McNairy Library and Learning Forum, science labs and other classroom facilities are excellent.

All of these factors, together with an attitude of concern for students and their welfare and a commitment to teaching and learning, comprise what is Millersville. There is a good deal of pride at Millersville University—pride that parents and friends of graduates rightfully share.

Dear Graduate,

Today is a milestone moment that will forever resonate as a major life achievement. On behalf of the Millersville University Alumni Association, I congratulate you for your dedication and perseverance that advanced you to this day. As you cross the stage and receive your diploma, you will join the ranks of more than 66,000 Millersville University alumni worldwide. Your class will become the newest members of the Millersville University Alumni Association (MUAA). I’m honored to be the first to welcome you into this prestigious group of Marauders for life.

MUAA was founded in 1861 and strives to keep alumni connected and engaged with their alma mater through communications, events and services. Our website, villealumni.com, and our social media accounts serve as popular community networking platforms for alumni across the globe. Moving forward, you will receive communications from the University and the Alumni Association and have access to benefits and services for MU alumni, including special rates and programs for a variety of insurance and banking products.

In addition to these benefits, we host a variety of engaging events and programs throughout the year, including Homecoming weekend, MU After Work receptions, awards ceremonies, reunions and networking opportunities. We encourage you to come home to MU for University-sponsored activities and events.

We are honored to have our graduates representing Millersville University as proud alumni. Please stay in touch and keep us updated with your contact details and informed about personal and professional developments, including career changes. We often feature these updates in our University magazine, the Millersville Review.

We wish you, and your family and friends celebrating with you, sincere congratulations on your accomplishments. May your future endeavors yield much success!

Best regards,

THE NATIONAL ANTHEM

O say, can you see, by the dawn’s early light,
What so proudly we hail’d at the twilight’s last gleaming?
Whose broad stripes and bright stars, thro’ the perilous fight,
O’er the ramparts we watch’d, were so gallantly streaming?
And the rockets’ red glare, the bombs bursting in air,
Gave proof thro’ the night that our flag was still there.
O say does that star-spangled banner yet wave
O’er the land of the free and the home of the brave?

THE ALMA MATER

Words by Esther E. Lenhardt Class of 1910 and Sanders P. McComsey Class of 1917
Music arranged by Melzer R. Porter

1. Millersville, we sing to thee, Hymns of praise and loyalty.
2. State-ly trees and campus wide, We recall with thoughts of pride,
3. Hon- or, fame and glory bright, We in- her- it thru thy might.

Sons and daugh- ters staunch and bold, Fol- low neath the Black and Gold.
Rip- pling lake and i-vied walls, Mem’ries of thy class- ic halls.
Scho- lar- ship thy first great aim, Proud- ly still up- hold thy name.

Here we fight for truth and right, Shield and buck- ler ev- er bright.
Forth we march to bring thee fame, Spir- its light and hearts a- flame.
Al- ma Ma- ter, we a- dore, Thy great spir- it ev- er more.

Rich in truth we’ll ev- er be, Millersville, we sing to thee.
Hope- ful, faith- ful, earn- est, true, Still thy stand- ards to pur- sue.
Grat- i- tude and rev- rence may, Millersville, be thine for aye.
