Abstract

Note that this section is not indented. Your abstract should contain a concise summary of the key points of your research, so expect to write this section last. It should include your research topic, questions, participants, methods, results, analysis, and conclusions. It should be only one paragraph long, between 150 and 250 words. You may also choose to include a small number of key words, found in a section as listed below.

*Keywords:* APA, style, guideline
Sample Apa Paper

This is the beginning of the actual paper. Here, you should introduce the problem that the paper addresses, and continue through whatever sections your paper will later include.
