Visit Us

The best way to learn about Millersville University and the programs offered through the Department of Applied Engineering, Safety & Technology is to visit with us. This spring we are hosting an Open House Information Session on March 1, 2014, at 10:00am. This session will provide general information about our campus and the admissions process, as well as details about each of our three degree programs:

- **Applied Engineering & Technology Management** (concentrations in: CADD, Construction, Graphics, Manufacturing, Nanofabrication, and Robotics)
- **Occupational Safety & Environmental Health**
- **Technology & Engineering Education**

**Don’t miss out! Register for this open house session today.**

To register for the Applied Engineering, Safety & Technology Open House, please scan the spot to the left, or visit:
