

Millersville University

Department of Applied Engineering, Safety & Technology

DEGREES WITH **HIGH-TECH** POSSIBILITIES

BACHELOR'S DEGREES

Applied Engineering & Tech Management with concentrations in:

- Advanced Manufacturing
- Computer-Aided Design
- Construction Management
- General Technology
- Graphic Communication
- Nanofabrication Manufacturing
- Robotics & Control Systems

Engineering Technology

- Automation & Intelligent Robotics
- Manufacturing
- Packaging

Occupational Safety & Environmental Health

Technology & Engineering Education teacher preparation

ASSOCIATE'S DEGREE

Applied Engineering & Technology

- Advanced Manufacturing
- Computer-Aided Drafting
- Construction Technology
- Control Systems Technology
- Graphic Communication
- Nanofabrication Manufacturing
- Occupation Safety & Enviro Health

MASTER'S DEGREE

M.S. in Technology & Innovation with concentrations in:

- Education
- Enterprise

You

can learn in **18 Hands-On Laboratories**

- Advanced CADD & Rapid Prototyping
- CADD
- Digital Publishing
- Graphics & Multimedia
- Printing & Packaging
- Fire Protection
- Safety Engineering
- Industrial Hygiene
- Ergonomics
- Electronics
- Automation & Robotics
- Energy, Power & Transportation
- Bio-Related Technology
- Innovation
- Ceramics & Polymers
- Materials Testing
- Nonmetallic Materials
- Metallic Materials
