MU Rugby Alumni Make a Run for the Championship

On the first weekend in August, thirty Millersville Rugby Alumni, from 2002 to 2016, competed in The Saranac Lake/Lake Placid Can-Am Rugby Tournament, an annual event which claims to be the largest rugby tournament on the east coast.

The rugby alumni team, playing as The Lost Land Pirates, have been competing in the tournament for the past four years and this year was their best year yet. They won all 3 preliminary games, a semi-final game and earned a spot in the championship.

Although they did not win the championship, the players came away with...
memories and friendships that will last a lifetime, on and off the field.

Cell to Cell

Charles A. Stangler Jr. '04

What if all the cells in your body could talk? What do you think they would say? Cell to Cell dives into the human body and focuses on the tiniest of organisms, namely our cells. In this book we follow Nero, a Neuron as he comes to life and journeys throughout the developing human body. His adventures will take him into places unknown and he will encounter both friend and foe alike. Who better to explain what's happening inside our bodies than a cell? It's their unique perspective that is the true heart of Cell to Cell. Will their inside world be anything like ours on the outside? There's only one way to find out!
