

# Universal Design for Learning:

It's for Everyone in Higher Education

Universal Design for Learning (UDL) is a **research-based** framework for designing curricula that enable all individuals to gain knowledge, skills, and enthusiasm for learning.

Come **explore** how you can incorporate UDL in your curriculum and teaching in order to meet the needs of **all learners** in your classroom.

Discover **successful strategies** for teaching and learning that work in every classroom – large and small – and every content area.

Presented by

## Dr. Ann Keefer

Project Coordinator, Institute for Disabilities  
Professor, Temple University

### Friday, March 9, 2012

Choose one workshop plus  
join us for a delicious lunch discussion, too
