Web: [www.dickinsonlaw.psu.edu](http://www.dickinsonlaw.psu.edu)  
Recruiter: Ashley Carelock  
Email: amc42@dsl.psu.edu

**Overview:**  
Penn State's Dickinson Law is committed to producing practice-ready lawyers equipped with the doctrinal knowledge, practical skills, and extralegal competencies necessary to excel in an increasingly global legal market. The hallmarks of a Dickinson Law education are an innovative curriculum that, from the very first day of law school, relies heavily on experiential learning to prepare our students to practice law, and a welcoming and supportive community. Founded in Carlisle, Pennsylvania, in 1834, the Dickinson School of Law is the oldest law school in Pennsylvania and the fifth oldest in the country. Over the past 180 years, Dickinson Law graduates have included the nation's most distinguished attorneys, judges, government and corporate leaders, and legal educators. Our 1997 merger with Penn State expanded our reputation, network, and joint-degree programs—complementing Dickinson Law's legacy as an innovative leader in experiential education.

To ensure that we can provide hands-on training to our students, Dickinson Law has capped the entering first-year class at 75 students. This intentionally small class size ensures that students receive focused attention from faculty, guarantees ample opportunities to learn by doing in practice settings, and fulfills the law school's promise to best position its students to secure employment in a competitive marketplace.

NOTES:
**Graduate School Tips from Dr. Don Martin, author of Graduate School Road Map:**

1. Take time to do good research – start out with at least 15 to 20 options.
2. Do not rely solely on rankings, prestige or word of mouth when choosing the graduate programs to which you will apply.
3. Prepare to take the GRE, GMAT, LSAT or MCAT. If your first score(s) are not what you want, take the test at least one more time.
4. Remember, just as you are evaluating the kind of service provided to you by the graduate admissions office, your behavior and communication skills are being evaluated by the graduate admissions office.
5. Follow directions during the application process. Not doing so sheds light on how you might respond to policies and procedures as a student
6. Make sure you have considered the financial implications of your decision to pursue graduate study.
7. The most important determinant of your success is not the degree behind your name, but the motivation and initiative you have inside.

Don Martin, Ph.D., is a higher education admissions expert, author, and former admissions dean at Columbia University, Northwestern University, Wheaton College, and University of Chicago Booth School of Business.

For additional tips on the graduate school application process, visit [gradschoolroadmap.com](http://gradschoolroadmap.com).

Dr. Martin will be at Millersville University next spring for a graduate school presentation.
