Chairperson Don Eidam called the meeting to order at 4:08 PM in Chryst 210. All departments were represented except Business Administration, Communication & Theatre, Counseling and Human Development, Developmental Studies, History, Music, Nursing and Special Education.

The minutes of the meeting on April 7 were approved following the emendations.

P. 4407 time should read **noon** to 7:30 for assistance for registrar and page 4405 UPRC should read UCPRC.

**REPORTS**

**Chairperson**

D. Eidam reminded senators that 54 vacancies exist for September elections and asked for nominations. If an individual wants to serve on no more than N committees but is nominated for more than N committees this can be handled but it is not possible to implement choices.

He said that Ms Suskie had visited earlier regarding Middle States Accreditation Process. The chapter groups are being formed. S. Luek is chair of Equity, Fairness, and Inclusiveness. M. Warmkessel and D. Eidam are chairs of Effective Management. Not all the committees have been formed. Some senators may be asked to serve on them. He said that some senators, especially if they are chairs, might be asked to serve as resource persons. T. Kruse is chair of Mission, Goals, Planning, Outcomes and Institutional Effectiveness. Senators may be asked to help out in the year to come. D. Eidam will e-mail senators as he finds out that the Senate is invited to meet with APSCUF with the VP candidates. As soon as D. Eidam finds out he will e-mail senators. The senate is asked to provide three Faculty Senators. He will select the first three that respond by e-mail. He asked senators to keep reading their e-mail.

**Student Senate**

Melissa Dinofia reported that new officers had been elected to the Student Senate. New president is Shelby Linton, a sophomore on the soccer team. Melissa said she will introduce Shelby at the next Faculty Senate meeting. Thomas Baker was elected Vice President. One more office remains to be filled. The turn out for the vote was disappointing with the lowest turn out for a long time. There were only 196 votes for president.

The budget will be presented to the Student Senate on Friday and the appeals process will begin next Thursday when clubs can appeal the decisions.

The Student Senate is holding two referendums, one concerning textbooks and Dynamics. The other referendum involves small stipends for some student leaders. There was some feeling that these payments should not be made.

The plus/minus forum takes place on Wednesday of next week in the Club de Ville and the student conference (mentioned in earlier minutes) takes place this weekend.

D. Eidam complimented Melissa (who is graduating) on her professionalism and demeanor. He said she had been an incredible president and that the Faculty Senate would miss her.
Provost

Provost McNairy said that the end of Spring Semester always involves major activities. The university will be hosting the 21st African-American History Conference, Friday through Sunday. Some of the activities will be on campus; some will be held in Lancaster. The annual Holocaust Conference is scheduled for Sunday and Provost McNairy invited senators to attend these events.

The administration has received a request from the Graduate Students Association to reconsider the decision requiring graduate students participating in Commencement to take part in either the May or December ceremonies. The consensus of the Senate was that graduate students may not graduate early; they must complete their degrees. The administration has suggested that the Graduate Dean meet with the Association to discuss the situation and that if graduate students wish to pursue the matter it should be brought to the Faculty Senate for discussion.

Graduate Student Organization President

The GSO President said that there is to be a meeting with Dr. Labriola and Dr. Downey on April 30 from 4:00 PM - 5:00 PM in SMC Room 50. A memo has been drafted and this will be distributed through inter-office mail. She requested faculty to announce the meeting to their classes and to post it on notice boards.

R. Sykes asked if the students were aware that once the requirements had been met the ceremony was only a ceremony, not the conferral of the degree.

The president said that summer graduates did not feel that coming back in December or the following May was an appropriate closure for what they had earned. Some would be travelling; some might be involved in Ph.D. programs and travelling back to receive their degree did not feel right to them.

Nominations for officers (1998-99) were to be hosted Wednesday evening, April. The current president will remain in office. She hopes to report the outcome at the Faculty Senate summer meeting.

University Theme Committee
J. Piperberg reported that three suggestions for themes for 2001-2002 had been received. These were Bio Diversity (Dr. Yocum), Unity through Diversity (Dr. Smith-Wade-El) and A World of Culture in Our Own Backyard (Dr. Byrne). The committee recommended that the theme for 2001-2002 should be **A World of Culture in Our Own Backyard**. This theme refers to the fact that there are 73 ethnic groups in Lancaster County.

The Senate approved the Piperberg/Margolis motion that A World of Culture in Our Own Backyard led by J. Byrne be designated the theme for 2001-2002.

B. Stengel and P. Hill representing the 1998-99 Academic Theme Committee attended the meeting. They presented a letter written to Dr. McNairy requesting support and financial assistance for the kick-off to the '98-'99 *Millersville University: A Community of Learners* theme activities. Tentative plans include an open-air program and picnic to cap off a day-long series of events and/or departmental "open houses."

The letter includes a request that classes be cancelled to permit attendance by all faculty and students.

After some discussion, the senate decided to list the issue on the agenda for the next meeting for discussion. (See attachment)

**General Education Review Committee**

C. Stameshkin said the committee had been working on Outcomes Assessment and at the next meeting will present objectives and rationale for senators to take back to departments. The assumption is that the matter will not be discussed until next fall.

D. Eidam pointed out that the first meeting in the fall will be the elections meeting and suggested that Outcomes Assessments be considered at the second meeting in the fall.

**Announcement**

D. Eidam announced that Dr. & Mrs. Lynch now have a son, Christopher Joseph.

**Date of Summer Meeting: June 16**

The meeting adjourned at 4:30 PM.

Respectfully submitted,

Jane Alden, Secretary
1. A Piperberg/Margolis motion that the University Theme for 2001-2002 should be A World of Culture in Our Own Backyard, led by Dr. Jamie Byrne, was approved by the Senate.
January 30, 1998

Dr. Francine McNairy  
Provost  
Millersville University

Dear Fran,

We write on behalf of the '98-'99 Academic Theme Committee to request your administrative support and financial assistance as we plan a true all-campus Convocation as the kick-off to the '98-'99 theme activities. As you know, the theme for next academic year is "Millersville University: A Community of Learners."

We are tentatively planning an open air program and picnic to be held either in/near the stadium or in the Gordinier quad. The event will begin late afternoon (4:15 PM?) and conclude at approximately 6:25 PM, and will cap off a day-long series of events and/or departmental "open houses."

The all-campus program will be designed as a kind of academic "pep rally," incorporating successful MU alumni as well as campus "notables." It will be completed with a picnic supper organized along the lines of the "Dinner for 500," that is, groups of faculty, students and staff will participate in semi-structured conversation around the SSHE priority for a focus on learning.

We are working with Rich Yednock to determine how we can accommodate and feed a large number of persons at a reasonable price, but no clear figures are presently available. We ask that you work with us to fund this event, perhaps by utilizing the funds allotted to the President’s garden supper, the present Faculty Convocation, and the new student picnic. We also ask that you make it possible for all students and faculty to attend this event by cancelling classes from 4:00 PM to 6:30 PM.

Thank you for your consideration of this request. We look forward to meeting with you to discuss this further.

Sincerely,

Barbara Stengel  
Pat Hill

for the '98-'99 Academic Theme Committee
Millersville University: A Community of Learners

In recent decades, theorists have confirmed what we know by experience: human learning is an interactive and communal process. Conversely, the construction of community requires thinking and acting in concert, i.e. learning about and with one another. During the 1998-99 academic year, Millersville University joins the State System of Higher Education in looking at learning as the university's reason for being. In a sense, this theme simply highlights the regular work of the university. We look at the university not as a community unto itself, but in interaction with other communities. We look at learning not as a purely academic affair, but also in its social and practical dimensions. We celebrate our connections with each other and with the communities beyond the campus. We celebrate as well the diversity that makes learning and growth both possible and imperative. We seek to make conscious what we are about as a "community of learners."
