C.H.O.I.C.E. Community

Housing and Residential Programs is excited to announce a new community called Choosing Healthy Options: an Intentional Community Experience or C.H.O.I.C.E. This substance-free community, which will be located on the 2nd and 3rd floors of Burrowes Residence Hall, will begin the fall 2013 semester, and was created due in no small part of the students request for such a community. While all of the residence halls are “dry”, a few students will still drink, and their behaviors can disrupt the quality of lives of others. Students that have made a choice to abstain from the use of alcohol and other drugs, as well as tobacco, or those who are in recovery may find this environment very conducive to their academic goals. There are a large number of on-campus students who choose to abstain from illegal and irresponsible use of substances. This CHOICE community will be a supportive environment that participates in enjoyable activities that complement the academic rigor our students experience throughout the year. Interesting in this environment? Here are the easy steps:
