3. Wait for further instructions through MU Alert, via the web, or Reverse 911.

**ACTIVE SHOOTER INSTRUCTIONS**

 Reacting to an active shooter will be dictated by the specific circumstances of the encounter. An active shooter is NOT a hostage taker. Decide to survive.

**What You Should Do**

1. If you can safely exit the area, and you have not been told to go to an emergency lockdown, empty your hands and run from the area with your hands open and visible.

2. If you cannot do #1, proceed to a room that can be locked, get on the floor, do not bunch together with other people, stay out of sight of the door. If the room cannot be locked, pile desks or other heavy furniture in front of the door.

3. Call 872-3911, or from a campus phone 3911, or if the line is busy, dial 911. Tell the dispatcher what is taking place, and inform him/her of your exact location. DO NOT ASSUME somebody has already called the police.

4. Officers responding to your location will use a procedure called Rapid Deployment which is designed to stop the shooting as quickly as possible. Officers will NOT stop to render first aid or to evacuate the building. If you know where the shooter is located, tell the officers.

5. When the incident is over police will not generally let you leave the area until all witnesses are identified and questioned.
