

Mission Statement

The Office of Judicial Affairs will supplement both the mission of Millersville University and the Division of Student Affairs & Enrollment Management by emphasizing learning through all student interactions. While we recognize that holistic development involves a comprehensive approach to student engagement the Office of Judicial Affairs will proactively inform students about the policies that govern the Millersville University community. A major role of this office will be guiding students toward a greater sense of personal responsibility and more mature and acceptable community standards. Structured around the principle of accountability, the Office of Judicial Affairs will challenge students to take responsibility for their behavior when inconsistent with the expectations of the Code of Conduct.
