Immediately following an incident:

- If you are concerned about your safety, dial 911.
- Visit the Sexual and Dating Violence website at: www.millersville.edu/sexualviolence to learn about your reporting options.
- Seek medical attention as soon as possible, even if you do not have visible injuries. It is important for victim survivors of sexual assault to preserve medical evidence by not eating, drinking, smoking, combing hair, showering, urinating, defecating, or douching as these behaviors can damage evidence. If you do change your clothes, put all clothing you were wearing at the time of the attack in a paper, not plastic, bag. Lancaster General Hospital is the closest facility that provides the Sexual Assault Forensic Examination: 717-544-7000. For additional information on medical evidence collection: www.rainn.org/after-sexual-assault. Health Services on campus does not provide this examination but can provide a gynecological exam, contraception, HIV tests and sexually transmitted infection (STI) tests: 717-871-5250. If a student files a police report, all standard post-assault medical care will be free of charge. CONFIDENTIAL RESOURCE
