

# MAKE A DIFFERENCE

At Millersville University, everyone has a role to play in advancing campus sustainability. From Decision Makers to Play Makers to Change Makers, the role that each of us plays helps create a campus culture that values sustainability.

## What role will you play to advance sustainability?

### Decision Maker

Decision makers understand the power of their decisions and know that taking simple steps to reduce environmental impacts can make a big difference when we're all on board.

### Play Maker

Play makers seek out opportunities to make progress. They are all about getting things done and know that the right action at just the right time can make all the difference.

### Change Maker

Change makers know that words and actions have exponential potential when shared with friends. They investigate ways to do things better, share their knowledge and organize friends to create change.

	DECISION MAKER	PLAY MAKER	CHANGE MAKER
	Choose to walk, ride a bike or take the trolley while on campus.	Walk, ride a bike or take public transportation to campus.	Organize a carpool using Commuter Services of PA's RideMatch program.
	Decide to recycle and compost.	Collect waste for Millersville's TerraCycle program.	Educate friends on recycling do's and don'ts.
	Remember to shut off the lights.	Unplug or turn off your computer, chargers and other devices when not in use.	Advocate for using daylight.
	Choose to not let water run wastefully.	Run the washing machine and dishwasher only when full.	Promote drinking tap water from reusable water bottles.
	Opt to skip printing on paper if it's not needed.	Use reusable bags for food shopping.	Investigate cradle-to-cradle design principles.
	Take only the food you'll eat to cut down on food waste.	Join Millersville's 'Ville-age Garden.	Coordinate a Community Supported Agriculture (CSA) purchase.
