

MILLERSVILLE

UNIVERSITY

FACT BOOK

2001-2002

Office of Institutional Research

November, 2001

Members of the Millersville University Community,

This is the fifth fact book published by the Office of Institutional Research for Millersville University. While it has been designed to meet a wide variety of information needs, its primary focus is on academic assessment and planning.

Once again, the Millersville University Fact Book is being published via the World Wide Web. By using this media certain types of information can be made available in a more efficient or timely fashion. I wish to acknowledge Janis Bond for her contribution to this document. Her support was invaluable as well as the support of numerous offices across campus. We welcome your comments and suggestions on this document's utility. Thank you.

Joseph E. Revelt

Director of Institutional Research

Institutional Summary

Millersville University, located in scenic Lancaster County, is one of the 14 state-owned institutions of Pennsylvania's State System of Higher Education.

Founded in 1855 as the Lancaster County Normal School, it was the first school of its kind in the Commonwealth. Today, it is a comprehensive public institution with a broader mission: to provide a full range of exemplary undergraduate programs that sustain the liberal arts tradition, at the lowest reasonable cost to its students.

Millersville offers 50 bachelor's and 5 associate degree programs in the arts and sciences, business, and education. All Millersville undergraduate degree programs include a general education component designed to develop student communication skills and critical thinking abilities as well as provide a broad foundation in the liberal arts. The University also offers master's degrees in 24 programs in the arts and sciences and education along with selected certification programs.

The faculty, staff and services reflect the University's concern for student growth and development. The student-to-faculty ratio is 18:1. There are approximately 325 full-time faculty members available to advise and counsel students on academic and career-related matters. Of these faculty 86 percent hold a doctorate or terminal degree.

Millersville enrolls approximately 7,500 students. More than 70 percent are full-time undergraduates; the rest are part-time undergraduates and graduate students. About 58 percent of all undergraduates are women and one in seven is at least 25 years old. Half of Millersville's undergraduates come from southeastern Pennsylvania; most are from either Pennsylvania or contiguous states.

Millersville University is a selective institution admitting two thirds of the approximately 6,000 students who apply each year. About 35 percent of undergraduate students live in University residence halls, with the remainder of the student body commuting from homes and nearby apartments.

The Carnegie Classification of Millersville University is Masters (Comprehensive) I. The Middle States Association of Colleges and Schools accredits Millersville University.

Professional accreditations include the following:

- Accreditation Board for Engineering and Technology, Inc. (ENGR, OSHM)
- American Chemical Society
- American Medical Association, Committee on Allied Health Education and Accreditation (Respiratory Therapist, REST)
- Association of Collegiate Business Schools and Programs (Business, BUAD)
- Computer Science Accreditation Board
- Council on Social Work Education
- International Technology Education Assoc./Council on Technology Teacher Education (Tech Ed.)
- National Association of Industrial Technology (Industry & Technology, ITEC)
- National Association of School Psychologists
- National Association of Schools of Music
- National Council for Accreditation of Teacher Education (Teacher Education, TED)
- National League for Nursing Accrediting Commission (Nursing, NUR)

Mission of University

The primary mission of Millersville University is to promote intellectual development through an exemplary liberal arts-based education. The University is steadfastly committed to the proposition that a thorough, broad-based foundation in the arts and sciences is a necessary condition for the development of the whole person. It resolutely embraces the conviction that all of its degree programs must maintain a strong liberal arts component while preparing students to engage in productive and contributive lives as professionals.

Millersville University resolves to provide a comprehensive range of meritorious baccalaureate programs consistent with student aspirations and faculty wisdom and expertise to all qualified Commonwealth residents at the lowest reasonable cost. Additionally, it will offer graduate programs in those fields where there is both need and corresponding institutional strength.

Millersville University seeks to prepare its students to live in an increasingly diverse, multicultural, and technologically complex society. It will accomplish this by offering a curriculum that is rich and multifaceted, by serving as a model of a pluralistic community, and by providing leadership in this regard to the greater community.

While Millersville University recognizes excellence in teaching as its reason for being, it also undertakes to open avenues for personal, social, and cultural growth essential to the development of an educated and productive person, including development of the capacity for leadership and decision-making in order to make the fullest possible contribution to society. It will foster the examination, development, and understanding of personal values and appreciation of the values of others.

The University also accepts its responsibility to provide opportunities for research, artistic and scholarly effort, and other creative endeavors in a manner consistent with its primary mission as a teaching institution. Additionally, the University accepts its responsibility to serve society by acting as an intellectual and cultural resource to the regional community.

To achieve this mission, the Millersville University community pledges itself to academic freedom and encourages imagination and curiosity, unfettered discourse, the exchange of divergent and controversial opinion, multicultural awareness and understanding, within an environment of civility, mutual respect and cooperation.

Approved by the Strategic Planning and Resource Council on February 8, 1993

Approved by the Council of Trustees on April 29, 1993
