

# Star MENTOR Nomination Form

## The Star Mentor of the Year Award

### **Jerri Anne Johnson STAR MENTOR**

**Nominated by: Rocio Torres**

My mentor has always had a very positive attitude towards academics, career goals, and personal life. My mentor has given me the opportunity to explore other cultures by taking me to different restaurants, events, and activities. I am very pleased to have her as my mentor because in her I see the role model that every student wishes to have. In addition to that she is a very good listener. Ms. Johnson is a GREAT mentor because not only does she help me but also my friend even when she is not her mentee. She also understands my dreams and aspirations and does what is needed to make me feel comfortable. For example, she takes me to Mexican restaurants and takes interest in me and in my culture. She knows what my future plans are and always encourages me to "fight" for them.

Thanks to my mentor, I have improved my English skills as well as my personal life and my academic performance. She has taught me to be a more positive person and always tells me that I should never give up for the things that I want in life. Having her as my mentor is like having a friend in which I can count on whenever I need help. Well I mentioned before she not only changed my life but the life of my best friend by giving her advice on her major studies and her life.

My mentor is the BEST mentor ever. Without her my life, my school performance and my aspirations would have disappeared. I strongly believe that Ms. Johnson should be this year's STAR MENTOR.
