

Teaching with Contemporary Art Summer Institute

This 3 credit graduate course (ART 586 Topics: Teach with Contmp Art) explores teaching with contemporary art in K-12 contexts, and specifically, two issues in depth. 1) engaging students in the processes, methods, and materials used by contemporary artists that are often absent from K-12 classrooms such as performance, installations, media arts, etc., and 2) creating ways of discussing the content of contemporary artwork given the dilemmas of content deemed too controversial for K-12 contexts. This class includes trips to galleries and museums. Breakfast and lunch is included each day.
