

SUMMER 2023

MICRO-RESIDENCY

FOR ART EDUCATORS

@ Millersville University

JULY 10-14, 2023

Millersville University's Micro-Residency for Art Educators is a week-long intensive studio experience (and 3 credit graduate course) for art educators. Participants will have 24/7 studio access, participate in daily group critiques, and be inspired by a series of artist talks.

AN ART GETAWAY

Millersville University's Micro-Residency offers you the opportunity to make your studio practice an art getaway! Breakfast and lunch will be included each day. Suite-style lodging on campus is available, which makes it possible for anyone, even those far from campus, to participate for the week. If you are close to campus, you can make use of the housing too! Living in a community of artists away from your responsibilities at home might be the perfect thing to re-start or refuel your studio practice.

THE STUDIO EXPERIENCE

Each participant will have access to Millersville University's studio facilities. The following studios will be available for participants to use: drawing, painting, fine art metals, sculpture, printmaking, computer/design lab, and photography. Participants will draft proposals prior to the residency that outline what they hope to work on and accomplish. Each participant will be assigned to a small group and a studio mentor for the purpose of group and individual critiques.
