The Social Justice minor is designed to provide non-social work majors the opportunity to develop knowledge and understanding about social justice within a person-in-environment context. Social justice is core to all social work practice and the primary goals for the minor in Social Justice are to enhance sensitivity to vulnerable and at-risk populations, provide opportunity for critical review of social policies and the allocation of societal resources, and stimulate interest in advocacy and planned social change. This minor is intended to provide students with the knowledge and skills necessary to advocate from a social, economic, and environmental justice framework.
