

OCCUPATIONAL & SAFETY ENVIRONMENTAL HEALTH

confidence

“During my career I encounter situations where I have to utilize my knowledge in all areas of OSHA. Each time I am able to face the challenge with confidence because of the comprehensive and stringent preparation the OSEH program at MU offers.”

professionalism

“One of the most important things I learned from my OSEH program is how to conduct myself in a professional manner. I learned how to be open to new ideas and points of view on various safety subjects and beyond.”

Monika Buchanan MBA, CSP

Class of 2005

B.S. Occupational Safety & Environmental Health

Granite Services International

North American EHS Director

Tampa, FL

involvement

“ASSE and AIHA helped me understand the benefits of professional networking and projects outside of work. Be active in professional organizations and never underestimate the power of the MU alumni community.”
