

# ROBOTICS & CONTROL SYSTEMS TECHNOLOGY

**Jordan Drexel**

Class of 2015

B.S. Applied Engineering & Technology Management  
Robotics & Control Systems Technology

Armstrong World Industries

Electrical Engineer

Macon, GA

## challenge

“My classes challenged me to become a quick and effective learner, and the hands-on experiences gave me an edge over traditionally prepared engineers.”

## teamwork

“The clubs and labs helped me to learn how to participate as a team member, and that has carried forward into my career as I effectively interact with people with different experiences and backgrounds.”

## involvement

“Get involved early: you will build your character and skills as you work with other students and your professors. Millersville wants you to succeed.”
