

TECHNOLOGY & ENGINEERING EDUCATION

Cara Hersey

Class of 2001

Mechanicsburg Area School District
Mechanicsburg High School

learn

“Don't wish your life away, live life in the moment. Be at college because you want to learn something, otherwise save yourself some time and money and wait until you're ready.”

motivation

“The professors at Millersville encouraged me to keep motivated, with the department being close-knit, it felt more like a family.”

time

“Spend your time wisely. Time management is critical. I miss free time; you don't realize how much of it you have until you graduate and get a full-time job.”
