

NCAA Banned Drugs and Medical Exceptions Policy Guidelines Regarding Medical Reporting for Student-Athletes with Attention Deficit Hyperactivity Disorder (ADHD) Taking Prescribed Stimulants

General considerations. Student-athletes diagnosed with ADHD in childhood should provide records of the ADHD assessment and history of treatment. Student-athletes treated since childhood with ADHD stimulant medication but who do not have records of childhood ADHD assessment, or who are initiating treatment as an adult, must undergo a comprehensive evaluation to establish a diagnosis of ADHD. There are currently no formal guidelines or standards of care for the evaluation and management of adult ADHD. The diagnosis is based on a clinical evaluation. ADHD is a neurobiological disorder that should be assessed by an experienced clinician and managed by a physician to improve the functioning and quality of life of an individual.

Student-Athlete Document Responsibility. The student-athlete's documentation from the prescribing physician to the athletics departments/ sports medicine staff should contain a minimum of the following information to help ensure that ADHD has been diagnosed and is being managed appropriately (see Attachment for physician letter criteria):

- a) Description of the evaluation process which identifies the assessment tools and procedures.
- b) Statement of the Diagnosis, including when it was confirmed.
- c) History of ADHD treatment (previous/ongoing).
- d) Statement that a non-banned ADHD alternative has been **considered** if a stimulant is currently prescribed.
- e) Statement regarding follow-up and monitoring visits.

Documentation can be dropped off at the Millersville University athletic training room or faxed to 717-871-2449

Attention Deficit Hyperactivity Disorder (ADHD) Guideline Attachment
Criteria for letter from prescribing Physician to provide documentation to the Athletics Department/Sports Medicine staff regarding assessment of student-athletes taking prescribed stimulants for Attention Deficit Hyperactivity Disorder (ADHD), in support of an NCAA Medical Exception request for the use of a banned substance.

The following must be included in supporting documentation:

- Student-athlete name.
- Student-athlete date of birth.
- Date of clinical evaluation.
- Clinical evaluation components including:
 - Summary of comprehensive clinical evaluation (referencing DSM-IV criteria) – attach supporting documentation.
 - ADHD Rating Scale(s) (e.g., Connors, ASRS, CAARS) scores and report summary – attach supporting documentation.
 - Blood pressure and pulse readings and comments.
 - Note that alternative non-banned medications have been considered, and comments.
 - Diagnosis.
 - Medication(s) and dosage.
 - Follow-up orders.

Additional ADHD evaluation components if available:

- Report ADHD symptoms by other significant individual(s).
- Psychological testing results.
- Physical exam date and results.
- Laboratory/testing results.
- Summary of previous ADHD diagnosis.
- Other comments.

Documentation from prescribing physician must also include the following:

- Physician name (Printed)
- Office address and contact information.
- Specialty.
- Physician signature and date.
