

My faculty advisor was in my option area or major.

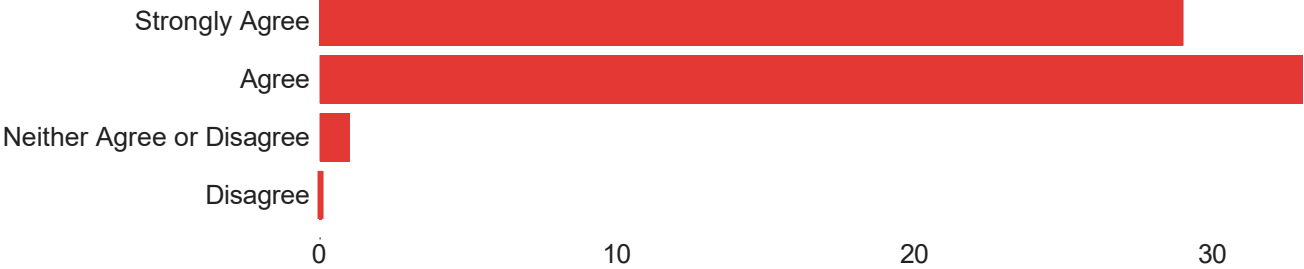

The program helped me develop my appreciation for lifelong learning and its importance to my professional career advancement.

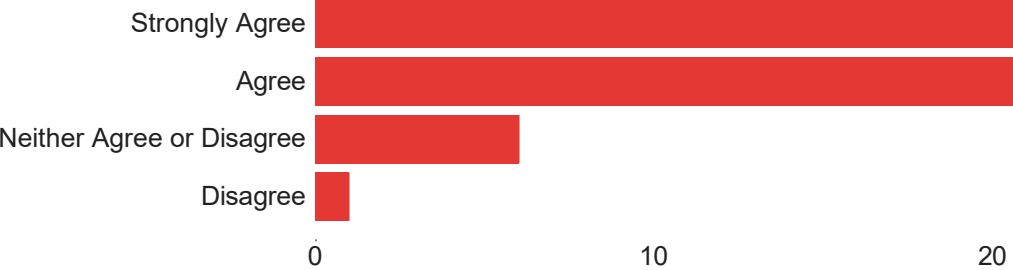

The program helped me develop my appreciation for lifelong learning and its importance to my professional career advancement.

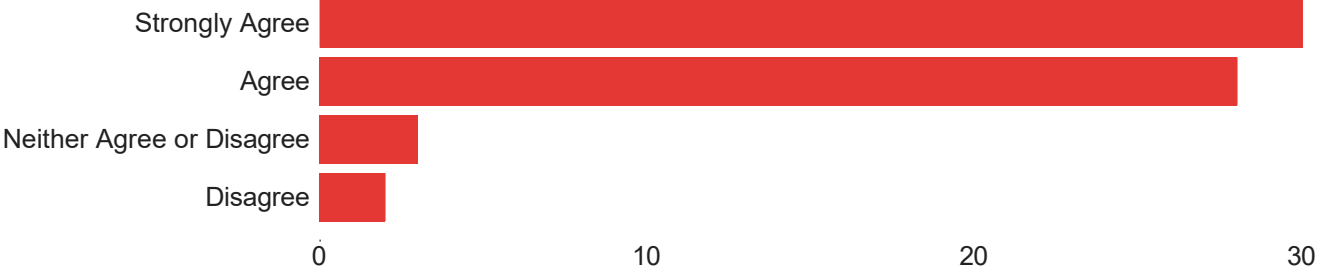

I understand basic economics and the challenges managers face in an increasingly competitive market.

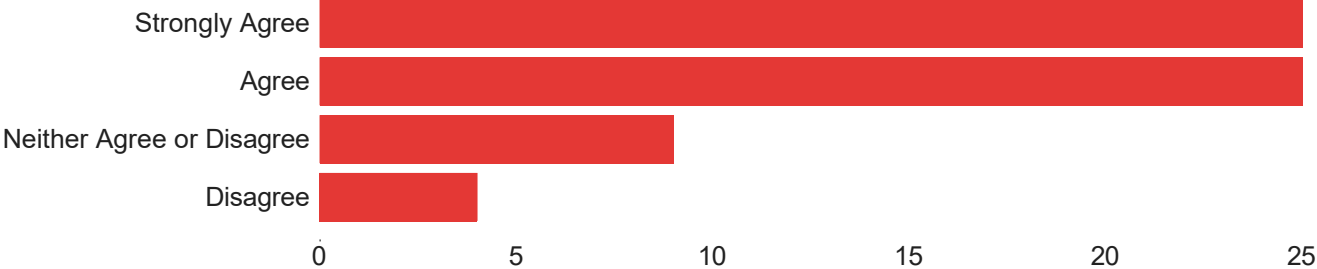

I understand the issues of globalization and the challenges managers face in an increasingly competitive market.

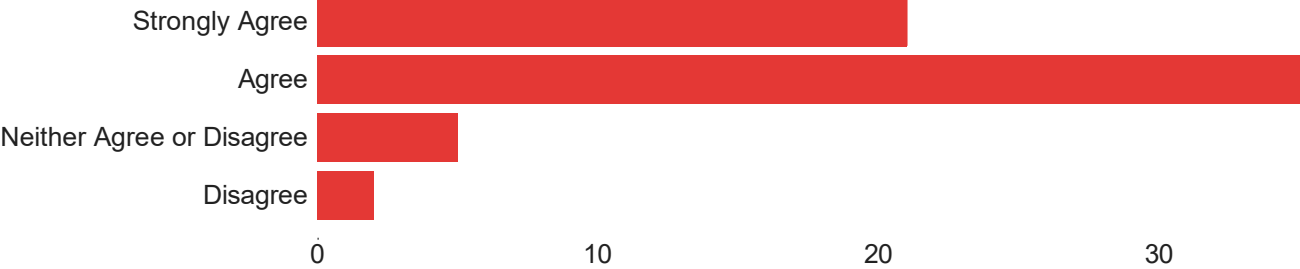

I developed my decision-making skills and learned quantitative as well as qualitative methods of problem solving.

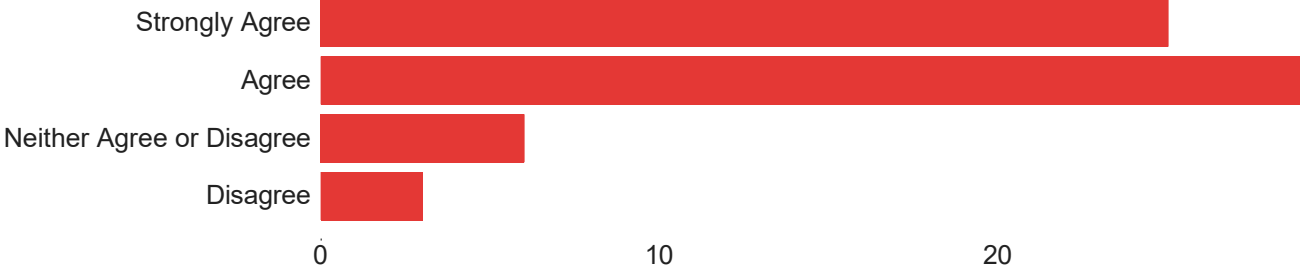

I developed my ability to choose among various courses of action under risk and uncertainty using different perspectives.

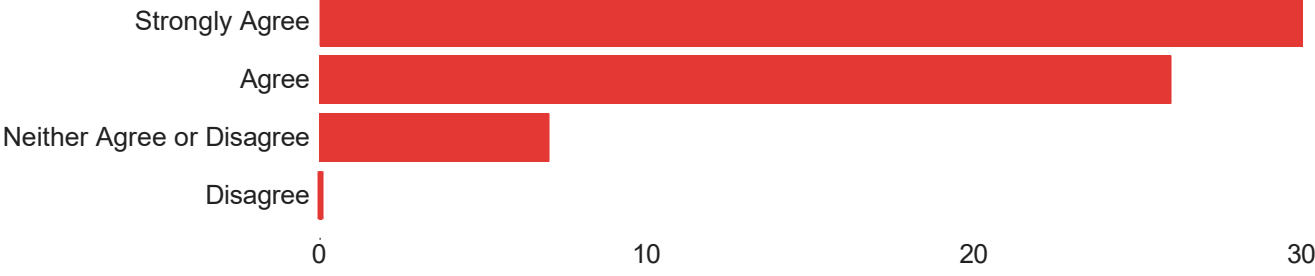

I learned to develop and deliver a persuasive written presentation.

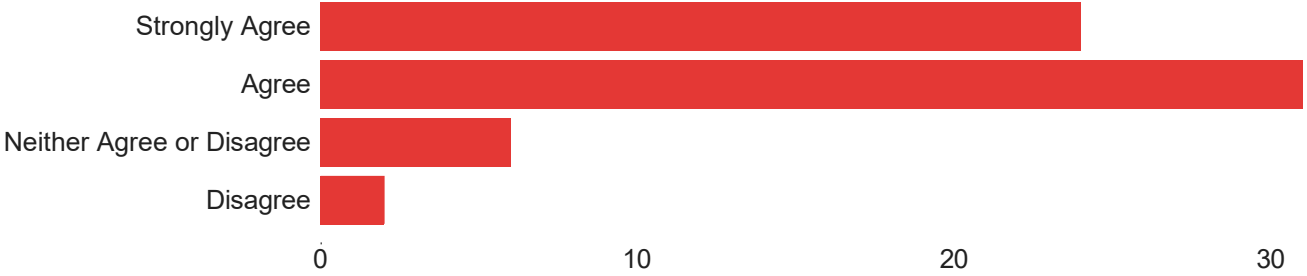

I learned to develop and deliver a persuasive oral presentation.

I am able to communicate using information technology

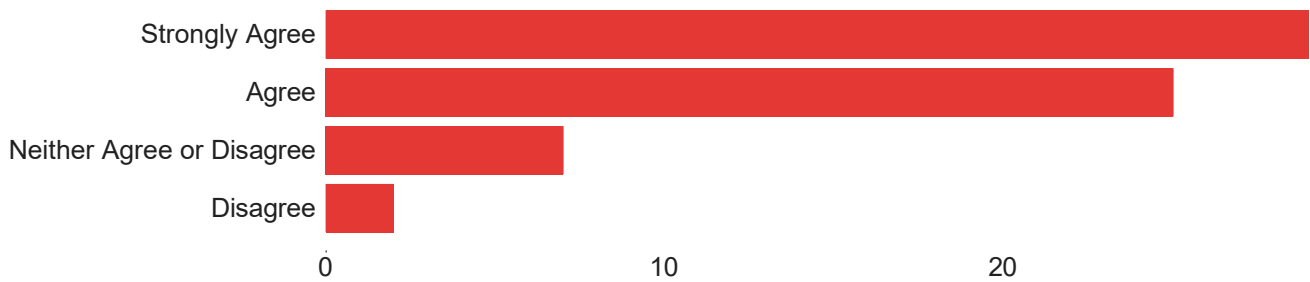

My interpersonal and collaborative skills have improved (showing empathy, treating others with respect, promoting solidarity and trust).

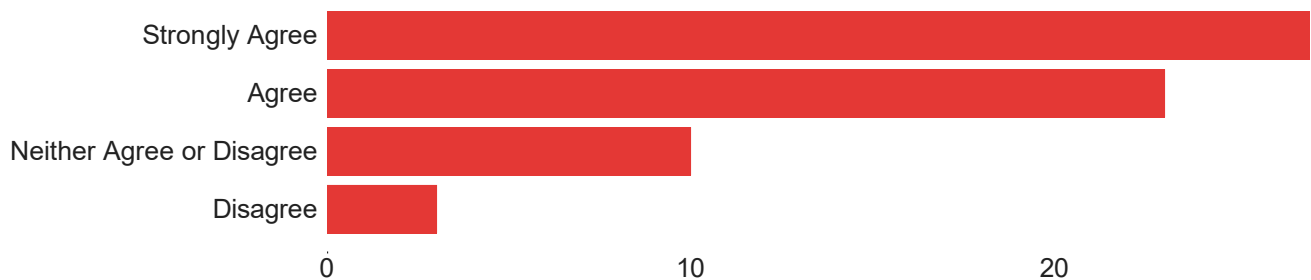

I learned to plan, organize, prioritize and coordinate tasks and work in a team context.

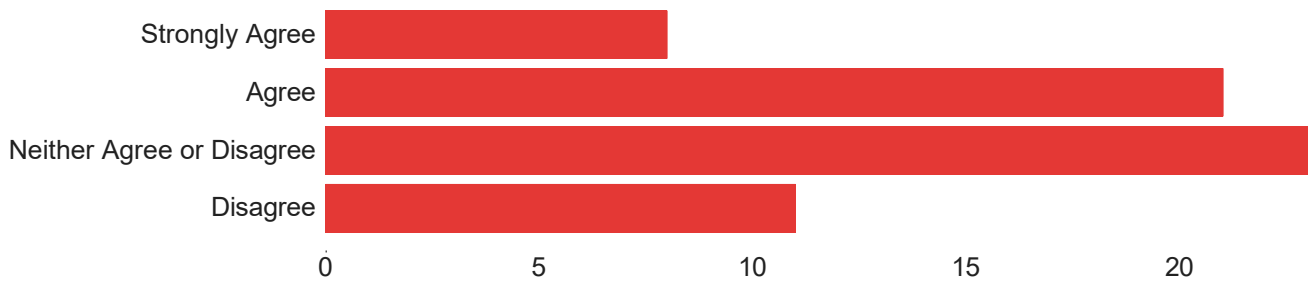

I developed my leadership skills (ability to foster a vision, clarify objectives, and energize and inspire others).

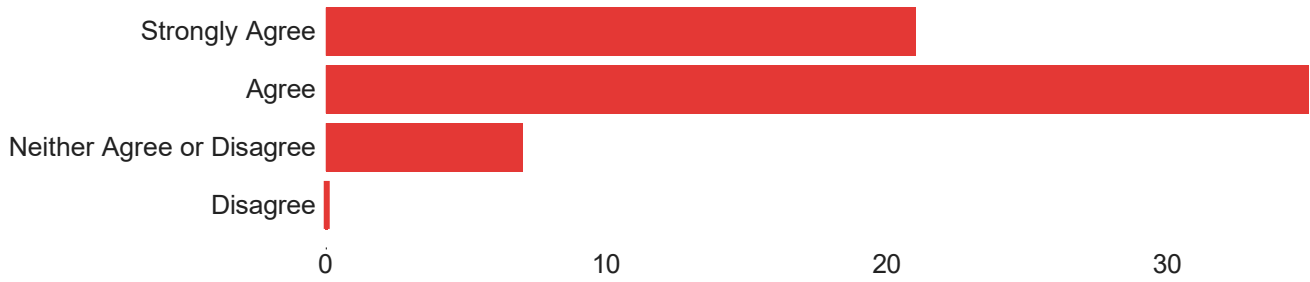

I am prepared with the necessary skills to be successful in my field.

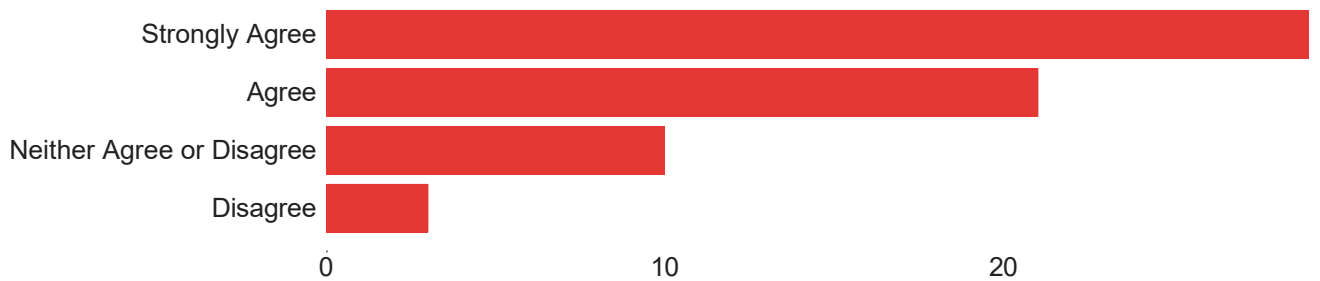

The program helped me to appreciate the importance of volunteerism and community service.

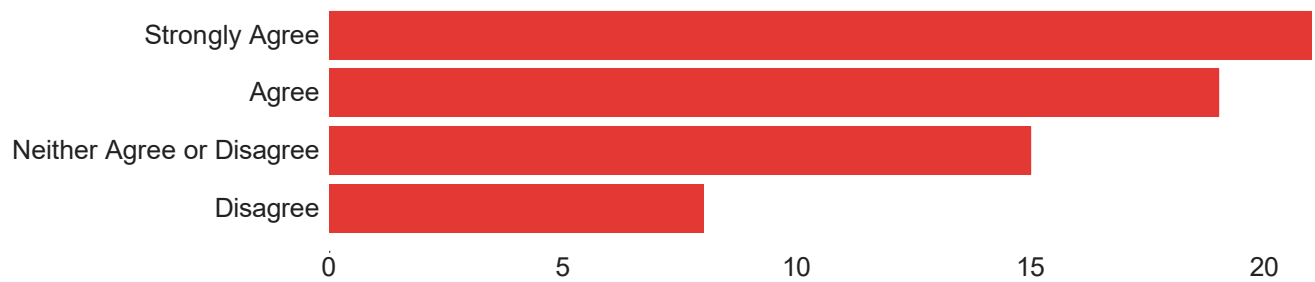

I am able to assess ethical dimensions and the community impact in decision-making.

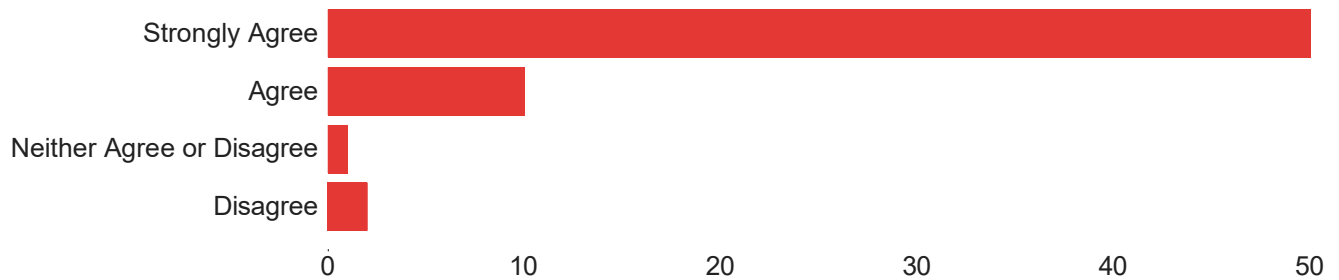

I was able to see my advisor and got help to understand the curriculum and choose my courses.

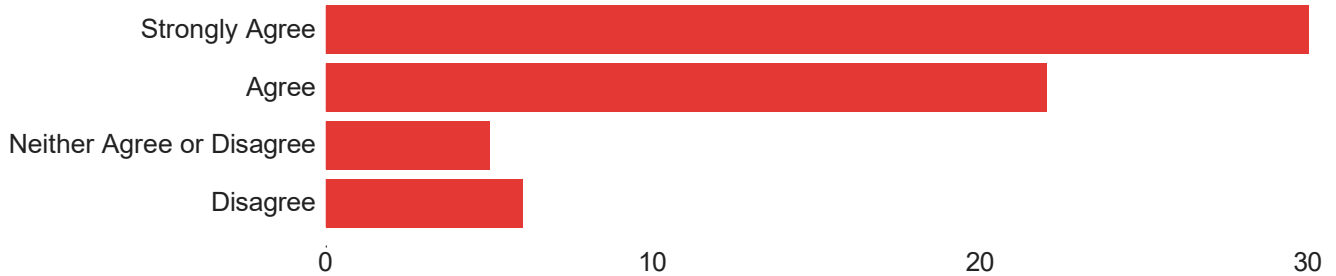

Whenever I needed career advice, my advisor provided useful input.

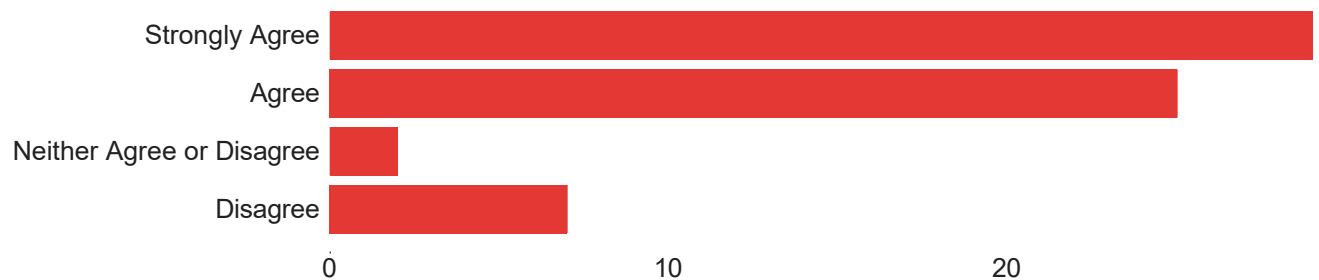

I used the Degree Audit and/or the curriculum sheets to understand the requirements and plan my courses.

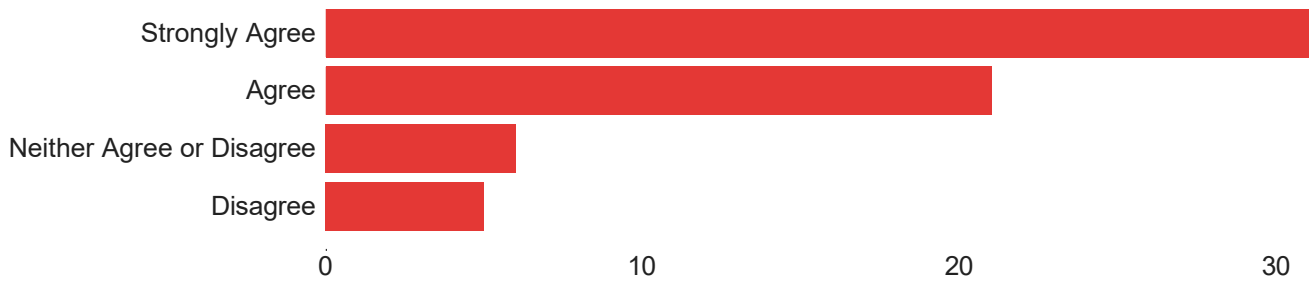

Overall, I have positive course scheduling experiences.

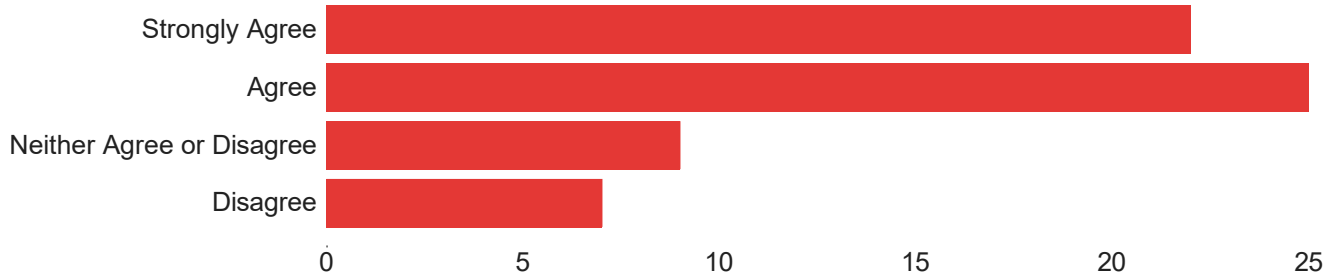

I was able to register for my Business core courses as planned.

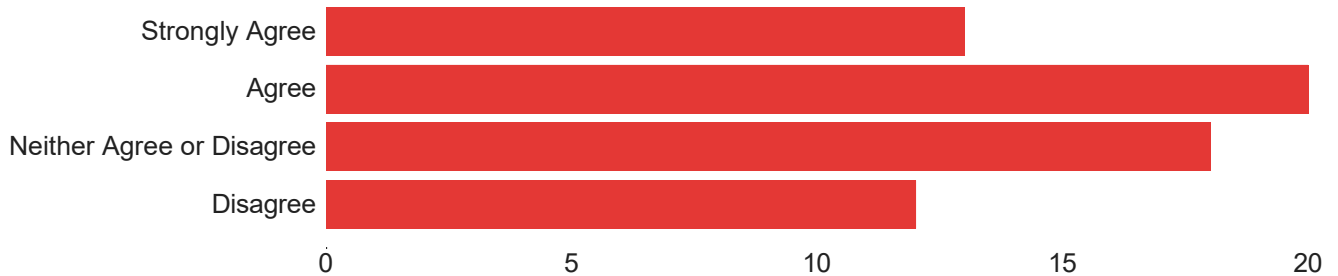

I was able to register for my upper-level degree/option courses as planned.

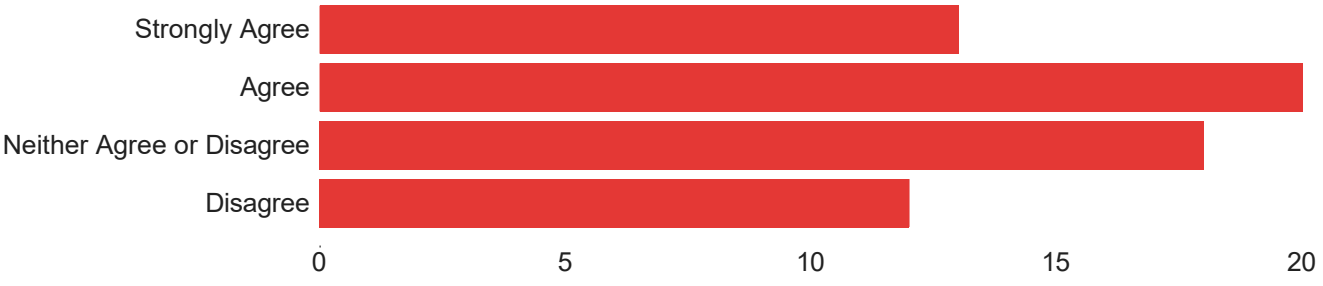

There were adequate electives to complete my degree/option.

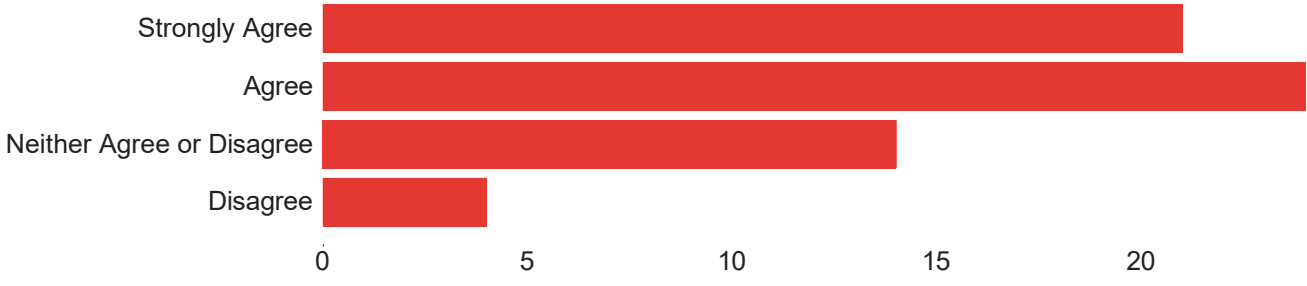

There were opportunities to interact with my professors on different projects (field trips, attending professional meetings, joint research, etc.)

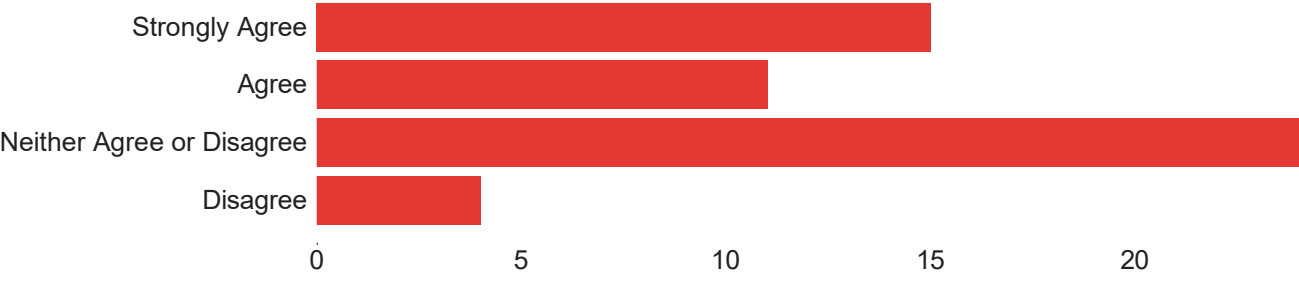

There were opportunities to interact with my professors on different projects (field trips, attending professional meetings, joint research, etc.)

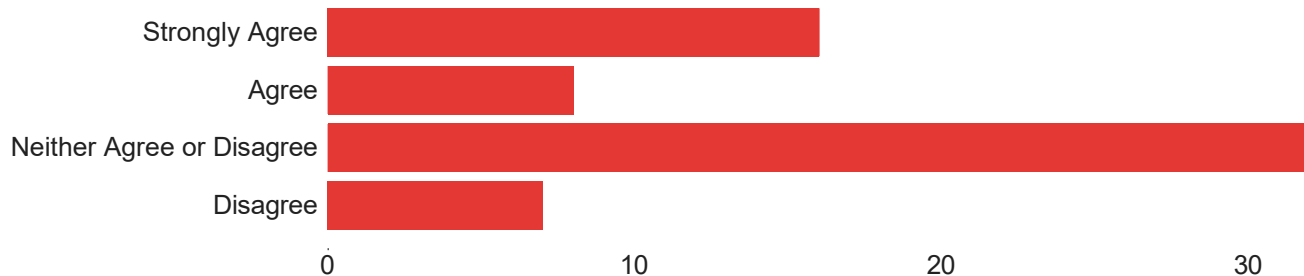

My interactions with professors enhanced my educational experience.

If you participated in a student organization: My participation in the student organization helped me develop my skills and knowledge in my field.

If you participated in a student organization: I had the opportunity to play a leadership role in my student organization.

The two most significant things that I learned are:

The two most significant things that I learned are:

Hard work and learning how to operate a firm's accounting information system is far more important than anything else.

The specific role of accountants and their responsibilities and understanding how operations within a business are executed appropriately.

Two most significant things that I learned are how to analyze company's using different quantitative and qualitative methods, and how to understand the economy on both a micro and macro level.

Overall business knowledge, how to communicate effectively

Two of the most significant things that I learned in the business program is many different types of marketing strategies and how economics plays a big role in business.

The two skills that I developed the most are:

The two skills that I developed the most are:

Excel and communication

Organization and critical thinking

Leadership, teamwork, and critical thinking/problem-solving skills.

Interpersonal skills, work ethic

Two of the skills that I developed the most in the business program was the ability to do complex team projects in various settings and being able to do business presentations.

The two skills that I need to improve most are:

The two skills that I need to improve most are:

Analytical and commitment to learning stuff I am not interested in.

Time management and confidence in knowledge

Two skills I could still improve on are presentation and interview skills.

Staying organized, balancing work

Two of the skills that I need to improve the most were finance and accounting skills. These skills are something that I need to improve because math is not my strongest skill.
