

## Want more information about Campus Life's Virtual Lead MU student leadership development conference?

The registration form: <https://getinvolved.millersville.edu/submitter/form/start/430463> Here's all the info you see when you click on the registration form....

The Virtual Lead MU student leadership conference will be held on **Sunday, September 13, 2020** from **10:00am-5:45pm!** You will get to pick and choose which sessions you attend, and you don't have to attend every breakout session, unless you want to. :)

This conference is required for the President & Vice President of every club and organization. If either the President or VP cannot come, then you can send another officer in their place. If one officer can't come, then you can send two emerging leaders in their place. Last year we invited up to two additional members of your organization to attend so that they too can develop their leadership skills. **Due to moving the conference online, we are inviting all student organization members to attend!**

We have a very exciting day planned for you so that you can grow your leadership skills and keep enhancing our student organizations! We will talk about student organization engagement for the fall semester, and there will be a keynote speaker. In addition, we have several different breakout sessions for you to choose from according to what additional training or leadership development you feel you need. We are working hard to make sure this is an exciting day filled with COVID-19 applicable student org material! Leading during a global pandemic is challenging, so we're hoping to provide you with some resources and tools to make this time a little less scary.

Please remember that by attending, you can represent more than one organization. List all organizations you are representing below.

Although online registration will remain open throughout the conference for attendance purposes, **we are encouraging everyone to register by Wednesday, September 9.** Registration will remain open in case we have folks joining us last minute.

**\*\*Day of login information will be emailed to all registrants on Wednesday, September 9th, as the conference will be password protected.\*\***

Here is the tentative schedule for the day:

**10:00-10:30am Welcome & Morning Kickoff**

**10:35-11:20am Education Block #1** (4 Breakout Sessions for you to choose from)
