Colleges

## College of Arts, Humanities and Social Sciences

### Overview

The **College of Arts, Humanities and Social Sciences** is known for its broad range of majors and interdisciplinary programs. We invite you to explore these exciting possibilities! Our faculty pride themselves on high quality teaching and deep commitment to student success. AHSS' programs are built on a strong foundation of liberal arts education, which we believe prepares our students for a wide variety of successful career paths.

We offer a transformative curriculum that enables our graduates to reason effectively, write clearly, speak persuasively, think critically and ethically, express themselves creatively, work collaboratively and have a broad perspective on diverse cultures and contexts. Many of our programs offer unique opportunities for hands-on learning in our state-of-the-art facilities, for example, art studios, music recording facilities, performance spaces, TV studio, language labs and others. All of our programs incorporate numerous opportunities for internships with regional companies, research with faculty, service learning projects, participation in professional conferences and competitions, and study abroad. Our graduates leave equipped with a wide array of transferrable skills as well as breadth and depth of knowledge that will allow them to adapt and evolve as life-long learners.

# The Lombardo College of Business

## Overview

The **Lombardo College of Business** is nationally accredited by the Association of Collegiate Business Schools and Programs. We offer Bachelor of Science (B.S.) degrees in accounting, finance, information technology, management marketing, and business administration with concentrations in general business, international business. The curriculum is designed to provide study in the subjects required for employment in any business or organization. Our B.S. in Business Administration is offered in-person and online formats. The College's program has a diverse faculty with extensive academic training and business experience.

The curriculum also provides excellent preparation for graduate and professional studies leading to degrees such as the M.B.A., M.S., Ph.D. and the J.D. Accounting students have available all the necessary coursework to sit for either the CPA or CMA, CIA, or the CFE examination.

Internships are an integral part of our program and commonly link students with local industry. Minor study can also be incorporated. Studies in disciplines outside business are required to help develop the well-rounded and liberally educated person employers seek.

Admission into the Bachelor of Science program from other departments of the University is always possible. Those interested should apply to the appropriate chairperson. Transfers from other institutions should check with the Office of Admissions. The department offers minors in general business, accounting, finance, information technology management and marketing. Please see the appropriate chairperson for an application. Students who are interested in online degree options should contact the Office of Online Programs.

Colleges

# College of Education and Human Services

## Overview

The **College of Education and Human Services** inspires students to fulfill their dreams of becoming teachers, school leaders, psychologists, coaches, social workers and more.

Together we partner with students to provide them with the knowledge and skills needed to become strong, independent professionals in their fields.

Since 1855, when Millersville University became Pennsylvania's first Normal School, our education programs have been at the forefront in the region. Education and educator preparation have certainly evolved since then, so we have integrated 21st century approaches to teaching and learning into our early childhood, middle level, secondary and special education programs.

Our psychology faculty take undergraduate students on a journey through human behavior. We also prepare graduate students for careers in clinical psychology, school psychology and school counseling.

If you have a commitment to greatness and are interested in sports journalism, sports management, athletic training or coaching, Wellness and Sports Sciences is the place for you.

Our School of Social Work offers bachelor's, master's and doctoral programs to begin or continue your career to be a positive agent of social change.

In the classroom, in the community and abroad, together we will achieve the remarkable. Your passion will be guided by some of the nation's top professors leading to a 95 percent employment rate. We invite you to visit our campus, meet our faculty and students, and become a Millersville Marauder.

### Colleges

## College of Science and Technology

### Overview

In the **College of Science and Technology** excellence in teaching and learning is our highest priority.

Our departments have a long history of providing students with the depth and breadth of education needed for success in contemporary fields of science and technology. Several important points you should know about our College faculty are:

- We are experienced educators, with approximately 98 percent of the full-time faculty in the College holding doctoral degrees.
- We are active scholars who conduct research and bring our passion and knowledge into the classroom.
- We embrace the use of high-impact educational practices in the curriculum to help facilitate your education and the development of skills necessary for you to be an independent, life-long learner. Various forms of experiential learning can be found throughout the curriculum, from faculty-mentored research and internship experiences to the opportunity for students to communicate their work to members of the public as well as to the professionals within their respective disciplines.

At Millersville, we encourage our students to work TOGETHER to be STRONG, capable learners!

As you research the science and technology programs at Millersville University through our website, be sure to read the brief highlights of our departments, our student research and internship experiences, student club opportunities, as well as alumni accomplishments. After your virtual online tour, we invite you to visit our campus in person, to meet our faculty and students, see our modern facilities, and learn more about our exceptional programs.

### SCIENCE AND TECHNOLOGY FACILITIES

The Millersville University Argires Science Complex includes the 88,000-square-foot Caputo Hall (constructed in 1999), the 55,000-square-foot Roddy Hall (renovated in 2001), Brossman Hall and Nichols House. The complex includes 42 teaching laboratories, 39 individual student research laboratories, specialized support laboratories, 11 classrooms, four lecture halls, a student study lounge, a student café and lounge, seminar and conference rooms, and faculty offices. Classrooms are all outfitted with multimedia technology. The Department of Computer Science has two computer teaching laboratories: the human-computer interaction laboratory and the graphics, virtual reality and haptics laboratory. This is one of the finest science facilities in the region; it houses programs in biology, chemistry, computer science, earth sciences, physics and nursing.

Wickersham Hall, home of the Department of Mathematics, houses departmental and faculty offices, as well as a mathematics computer laboratory with 36 networked PCs, each loaded with an array of mathematical software, including the Mathematica computer algebra system and the Minitab and SAS statistical software packages. Wickersham also has student study areas, a conference room, dedicated space for mathematics tutoring and eight classrooms. It was completely renovated in 2006.

Facilities for the Department of Geography, housed in McComsey Hall, include the Environmental Geography Lab and the Geo-Graphics Lab. The Environmental Geography Lab was recently completed and is the primary classroom for staging laboratory and field exercises in a variety of environmental and physical geography courses. Additionally, the facility is utilized by faculty and students as they conduct independent research projects. The Geo-Graphics Lab is the teaching classroom for GIS-based courses.

The Geo-Graphics Lab is also the common study and workspace for students in all geography courses and for scheduled group tutoring. The Geo-Graphics Lab houses approximately 20 PC work stations, a large-format plotter, and color and B&W printers. Instruction in all GIS-based courses utilizes the latest software, ArcGIS and ArcGIS Pro.

Osburn Hall is a 70,000-square-foot facility designed exclusively to house programs offered by the Department of Applied Engineering, Safety & Technology at Millersville. Osburn Hall provides laboratories, classrooms, offices, research areas and other spaces that support programs in applied engineering, engineering technologies, occupational safety and environmental health, technology and engineering education, and integrative STEM education.

The lower level of Osburn Hall includes an electronics lab; an energy, power & transportation lab; and an automation and robotics lab. The main floor includes our production laboratories (manufacturing & construction), along with an innovation lab, an integrative STEM laboratory for studying technology & engineering education at the elementary level, an administrative office complex, and a 60 seat multipurpose room. The upper level of Osburn hall is dedicated to graphic communications and packaging, drafting and design, and occupational safety and environmental health (OSEH). It includes an advanced CADD lab with a rapid prototyping area, an additional CADD lab, a desktop publishing laboratory, a graphics lab a CNC packaging lab, and a series of laboratories associated with the OSEH program, including fire science, confined space, safety engineering and industrial hygiene.

Millersville University has an extensive inventory of modern instrumentation that students use in classroom work and for independent study and research. Included are four large environmental chambers, autoclaves, optical microscopes, an atomic force microscope, an optical polarizing microscope, a scanning electron microscope, several types of spectrophotometers (FT infrared, visible-ultraviolet, 400 MHz FT nuclear magnetic resonance, and atomic adsorption), a gas chromatograph/mass spectrometer, a Raman spectrometer, a scintillation counter, phase contrast microscopes, optical bench components, a vibration-isolating table for holography and optical interferometry, a cryogenics unit, an excimer laser, an X-ray spectrometer, a cosmic ray muon detector, electrophoresis equipment, thermocyclers, ultramicrotomes, high-speed and tabletop centrifuges and microfuges, laminar flow hoods, CO2 incubators for tissue culture, ultralow freezers, an ultracentrifuge, several gas chromatographs, an electrochemical oxygen analyzer, an auto-analyzer, a high-vacuum system, equipment for microwave behavior study, and hardware/software for data capture. Field equipment includes dissolved oxygen probes, flow meters, a backpack electroshocker, PIT tagging equipment, active infrared monitors, a fluorometer, digital cameras, video cameras, turbidity meters, a microbalance and extensive air-sampling equipment. Additional science facilities include botanical glasshouses, a limnological research pond, the Keever ecological study area, several microcomputer-based laboratories, photographic darkrooms, and cold rooms. There are museum reference collections of mammals, birds, fishes, insects and other invertebrates, and modern animal-care facilities, including special aquatic "wet" rooms for maintenance of animals and research. There is an extensive botanical collection.

Millersville University meteorology has assembled a suite of instruments and associated equipment in support of boundary layer (BL) and atmospheric chemistry research and education. The BL component of this facility, referred to as the Millersville University Atmospheric Boundary Layer (MABL) facility, is mobile and has been deployed for several field projects from Philadelphia to California. MABL consists of the following: Rawinsonde and Tethered Balloon Sounding systems; Scintec MFAS Acoustic Sodar with radio acoustic sounder; Sigma Space micropulse LiDAR with cross-polarization; a 10-meter flux tower; trace gas analyzers and particle-scattering instruments; and trailer. Millersville also has its own Weather Research and Forecasting (WRF) Modeling System that is used for operational forecasting and in support of the observational studies and throughputs over 100 Gb per day of satellite, radar, model, upper air, and surface data and data products. Millersville meteorology supports a modern weather center, complete with an electronic map wall and streaming video production.

The geology program has a license for RockWorks software. Geophysical equipment includes a proton precession magnetometer, an Earth resistivity meter and a stacking seismograph with multiple geophones. The program has a sand-tank groundwater flow model and GMS-MODFLOW numerical groundwater modeling. The program also maintains a broadband seismograph that is part of the Lamont-Doherty Earth Observatory's Cooperative Seismic Network. The Earth Surfaces Processes Laboratory maintains equipment needed for preparing rock and soil samples for chemical and mineralogical analyses. A full suite of field water-sampling equipment is available for studies involving the chemistry and sediment of surface water. This includes handheld pH and conductivity meters. A total surveying station is available for topographic studies requiring accurate determination of elevation and distance, such as is used in hydrologic and geophysical studies and for LiDAR-derived elevation validation.

The ocean science and coastal studies program maintains a dedicated remote sensing laboratory equipped with ENVI/IDL software and state-of-the-art LiDAR processing hardware and software, including Terrasolid, LP360, Global Mapper, LasTools and Microstation. The program also maintains two CTDs, including a Seabird SBE 25 equipped with LiCor light sensors, a

backscattering sensor, a YSI oxygen sensor, a fluorometer, an acoustic current meter and a newly acquired portable weather station. Millersville University is a senior full member of the Chincoteague Bay Field Station (CBFS) at the Marine Science Center at Wallops Island, Virginia, with full access to facilities, including two monitor boats, the R.V. Flatfish and R.V. Mollusk. Both are approximately 45 feet in length and are used primarily in the tidal creeks and backbay areas for trawling and sampling. The R.V. Phillip N. Parker is a 47-foot. crew vessel used mostly for cruises beyond the inlet and up to 25 miles offshore. CBFS also maintains a fleet of kayaks that allow access to cypress swamps, shallow tidal creeks and flats, and other areas where our motorized vessels cannot go.

The department also maintains two rotating tables to conduct experiments in geophysical fluid dynamics for teaching and research, a hydrogen-alpha solar telescope, a National Acid Deposition Program sampling site off campus, and a Geo-Graphics Lab running ARCView, ARCGIS (3-D Analyst, Spatial Analyst, Geostatistical) and Watershed Modeling System.

### Colleges

## University College

### Overview

**University College** is comprised of offices and departments whose missions are committed to inclusive student success, engagement, and achievement, agency in student learning, and ongoing professional and personal development for sustained academic excellence.

[View all programs within University College](#)

### VISION STATEMENT

The University College is committed to inclusive student success, engagement, and achievement, agency in student learning, and ongoing professional and personal development for sustained academic excellence.

### MISSION

University College embraces MU's EPPIIC values in support of student academic, personal, and professional journeys to program completion and graduation by:

1. Advocating and supporting holistic needs to foster a sense of belonging, connectedness, awareness of opportunity, and equity in opportunity within the college and beyond. [COMPASSION]\*
2. Empowering self-efficacy and agency to advance student outcomes. [INTEGRITY]
3. Offering high impact experiences and access to high quality resources to facilitate critical thinking and the discovery of knowledge. [EXPLORATION]
4. Providing individualized academic planning. [PROFESSIONALISM]
5. Delivering best practice guidance in career advising, career planning, and career-building experiences. [PROFESSIONALISM]
6. Fostering a safe, inclusive, and culturally responsive environment where all individual views, backgrounds, abilities, and identities are respected and valued. [INCLUSION]

7. Promoting participatory citizenship, leadership, mentorship, community-engaged scholarship, and service. [PUBLIC MISSION]

\*Mapping to [EPPIIC values](#)

Offices and resources of the University College are centrally located in the McNairy Library with additional college departments located in Lyle Hall and the houses along George Street.

Our entire team is here to champion your achievement, foster opportunities, and promote work/life balance for sustained success. Connect with our resources early and often!

## About MU

### An Introduction to Millersville University

Millersville University of Pennsylvania, located in scenic Lancaster County, is one of the state-owned institutions of higher education that make up Pennsylvania's State System of Higher Education.

Millersville University does not discriminate on the basis of race, color, religion, national origin, ancestry, sex, age, or disability in admission or access to, or treatment or employment in, its programs and activities. This includes Title VI of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, and the Americans with Disabilities Act of 1990.

For questions or concerns about Millersville University's discrimination policy, contact the [Human Resource department](#).

## HISTORY

In the early 1850s, a group of private citizens in Lancaster County decided to sponsor a three-month summer school program that would provide more education for local pupils than what was then available in public schools. The immediate success of that initial program prompted its sponsors to propose that a permanent academy be established. The decision eventually led to the founding of what is now Millersville University.

The academy began in 1854 with the construction of a three-story building containing a small auditorium, two classrooms and housing for 50 students, located on seven-and-one-half acres at the corner of West Frederick and George streets in Millersville. In 1855, just as the building was nearing completion, the trustees saw an opportunity to promote the new school by offering its free use to J.P. Wickersham, the superintendent of Lancaster County Schools, who was searching for a place to hold a three-month teachers' institute. Wickersham opened his Lancaster County Normal Institute on April 17, 1855, with 147 students each paying \$34 for room, board and tuition for the three-month term. Before the term was over, both Wickersham and the academy trustees agreed that the school should become a permanent normal school.

The Lancaster County Normal School, the first school of its kind in the state, opened on November 5, 1855, in Millersville with approximately 100 students. The original academy building, soon known as "Old Main," was expanded and enlarged over the years and served the college in many capacities until it was razed in 1970. The University's 11-story Francine G. McNairy Library

and Learning Forum at Ganser Hall now stands on that site. Two years after the school's opening, the Normal School Law of Pennsylvania was enacted. It divided the state into 12 normal school districts, with Lancaster, York and Lebanon counties forming the second district. The law also established certain minimum requirements for facilities and curricula. The state legislature, however, enacted no funds for the development of the schools. The trustees at Millersville raised \$20,000 from gifts and subscriptions of stock, at \$25 a share, to finance the expansion necessary to meet the requirements of the law.

On December 2, 1859, Millersville was approved as the first State Normal School. When the school passed completely under the control of the state in 1917, all shares were redeemed at the par value of \$25, ending 62 years of private control.

In 1927, Millersville became a State Teacher's College and was empowered to grant the Bachelor of Science in Education degree. In 1959, the College's name was changed to Millersville State College and a master's program in education was added. In 1962, the College was authorized to grant the Bachelor of Arts degree. In 1982, the Pennsylvania Legislature passed Senate Bill 506, creating the State System of Higher Education, effective July 1, 1983. On that date, Millersville State College became Millersville University of Pennsylvania.

In 1988, Millersville began offering courses at several sites in the city of Lancaster. Both credit courses and continuing education opportunities were provided to serve the educational needs of Lancaster city residents, area businesses and nontraditional students. In 2011, a downtown Lancaster campus opened at the Ware Center. In 2012, the Winter Visual and Performing Arts Center was opened to provide a creative hub for students, faculty and the surrounding community in music, art and theatre. In fall 2014, graduate programs began at the PASSHE Center City Philadelphia location. Also in 2014, Millersville University initiated its first doctoral programs, a Doctor of Education in Educational Leadership and a Doctor of Social Work. Millersville University offered its first fully-online undergraduate completion program in fall 2015 in RN to BSN.

Today, Millersville is proud of its beautiful, well-maintained 250-acre campus abounding with reminders of a long history. The bell from Old Main has been carefully preserved and hung in a dramatic tower. The original library, a lovely brick building built around the turn of the century with turrets, stained glass windows and extensive oak woodwork, has been carefully restored and is now Biemesderfer Center, "the centerpiece of the campus," which overlooks a scenic pond with two resident swans.

## MISSION

The mission and vision statements of Millersville University were adopted as part of the university's strategic plan. The university mission affirms that we are a community dedicated to high quality education at exceptional value. Our vision states that we will inspire learners to change the world. As a community we are dedicated to our **EPPIIC Values**: Exploration, Public Mission, Professionalism, Integrity, Inclusion, and Compassion.

## CURRICULUM AND PROGRAMS

Millersville University offers a wide array of undergraduate degree programs in art, business, education, humanities, social sciences, mathematics and sciences, most of which offer many options and choices to students. All Millersville undergraduate degree programs include a general education component designed to develop student communication skills and critical-thinking abilities, as well as provide a broad foundation in the liberal arts, humanities, fine arts, and natural and social sciences.

Millersville also offers three doctoral programs and a range of master's degree programs in art, education, humanities, social sciences, mathematics and sciences, as well as selected certification programs.

A number of special educational opportunities are provided, including honors programs, independent study, internships, study at other institutions and abroad, student-designed majors and academic remediation.

Millersville University's faculty, staff and services reflect the University's concern for student growth and development. There are approximately 300 full-time faculty members available to advise and counsel students on academic and career-related matters. There are also counseling, career planning and placement, and tutorial services, as well as services for nontraditional students. A wide range of cocurricular and extracurricular activities and cultural events are offered.

## ACCREDITATION

Millersville University is accredited by the:

- Middle States Commission on Higher Education  
1007 North Orange Street  
4th Floor, MB #166  
Wilmington, DE 198014th Floor
- the Pennsylvania Department of Education;
- and is approved by the American Association of University Women.

The applied engineering and technology management program is accredited by the:

- Association of Technology, Management, and Applied Engineering (ATMAE)  
8865 Norwin Ave STE 27  
North Huntingdon, PA 15642

The art and design programs are accredited by the:

- National Association of Schools of Art and Design (NASAD)  
11250 Roger Bacon Drive, Suite 21  
Reston, VA 20190-5248.

The business administration program is accredited by the:

- Accreditation Council for Business Schools & Programs (ACBSP)  
11520 West 119th Street  
Overland Park, KS 66213.

The Center for Counseling and Human Development is accredited by the:

- International Association of Counseling Services (IACS)  
101 S. Whiting Street, Suite 211  
Alexandria, VA 22304.

The chemistry programs are recognized by the:

- American Chemical Society (ACS)  
1155 16th Street NW  
Washington, D.C. 20036.

The computer science program is accredited by the:

- Computing Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET)  
415 N. Charles Street  
Baltimore, MD 21201.

The music programs are accredited by the:

- National Association of Schools of Music (NASM)  
11250 Roger Bacon Drive, Suite 21  
Reston, VA 20190-5248.

The nursing programs are accredited by the:

- Commission on Collegiate Nursing Education (CCNE)  
655 K Street, NW, Suite 750  
Washington, D.C. 20001.

The occupational safety and environmental health program is accredited by the:

- Applied and Natural Sciences Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET)  
415 N. Charles Street  
Baltimore, MD 21201.

The respiratory therapy program is accredited by the:

- Commission on Accreditation for Respiratory Care (CoARC)  
264 Precision Blvd.  
Telford, TN 37690.

The school psychology certification program is in full compliance with the:

- National Association of School Psychologists (NASP)  
4340 East West Highway, Suite 402  
Bethesda, MD 20814.

The social work programs are accredited by the:

- Council on Social Work Education (CSWE)  
333 John Carlyle Street, Suite 400  
Alexandria, VA 22314.

Teacher education programs are accredited by the:

- Council for the Accreditation of Educator Preparation (CAEP)  
1140 19th Street, NW, Suite 400  
Washington, D.C. 20036
- Millersville University is a member of the:
  - American Association of Colleges for Teacher Education (AACTE)  
1602 L Street, NW, Suite 601  
Washington, DC 20036.

The technology education program is in full compliance with the:

- International Technology and Engineering Educators Association (ITEEA)  
1908 Association Drive, Suite C  
Reston, VA 20191

## THE CARNEGIE FOUNDATION COMMUNITY ENGAGEMENT CLASSIFICATION

In 2010, Millersville University of Pennsylvania was one of 121 U.S. colleges and universities to earn the inaugural Community Engagement Classification from the Carnegie Foundation for the Advancement of Teaching. Millersville University was reaffirmed to retain the Carnegie Community Engagement Classification in 2020 and currently stands as one of only 243 institutions in the country that hold the elective classification. The Community Engagement Classification recognizes collaboration between institutions of higher education and their larger communities (local, regional/state, national, global) for the mutually beneficial exchange of knowledge and resources in a context of partnership and reciprocity.

The foundation, through the work of the Carnegie Commission on Higher Education, developed the first typology of American colleges and universities in 1970 as a research tool to describe and represent the diversity of U.S. higher education. The Carnegie Classification of Institutions of Higher Education continues to be used for a wide range of purposes by academic researchers, institutional personnel, policymakers and others.

The application process for the Community Engagement Classification is administered by the New England Resource Center for Higher Education (NERCHE). All information about the Community Engagement Classification and the list of classified institutions can be found on the NERCHE website at [www.nerche.org](http://www.nerche.org). Millersville's classification as a Community Engagement institution is valid until 2026.

## THE STUDENT BODY

Millersville University enrolls approximately 7,200 students. Approximately 68 percent are full-time undergraduates; the rest are part-time undergraduates and graduate students. About 61 percent of undergraduates are women, and one in 10 is at least 25 years old. About 86 percent of Millersville's undergraduates come from southeastern Pennsylvania.

Millersville University admits about 85% of more than 78,000 students who apply each year. Millersville students are above national norms in SAT scores, high school grades and class rank, and in years spent studying college preparatory subjects such as English, mathematics, foreign languages, science and social studies. Approximately 75 percent of the first-year class has combined Evidence-Based Reading and Writing and Math SAT scores over 1000, and approximately 67 percent graduated in the top half of their high school class.

Over 2,100 students live in University residence halls, with the remainder of the student body commuting from homes and nearby apartments.

## RIGHT TO KNOW

**A member of Pennsylvania's State System of Higher Education.**

All requests to Millersville University of Pennsylvania under the Right-to-Know Law must be submitted in writing to:

## Admissions

### Admission to Millersville University

#### UNDERGRADUATE ADMISSION

Students may be admitted to Millersville University to work toward an undergraduate degree or to take college-level courses for self-enrichment or career development. Students already holding a bachelor's degree may wish to pursue a second undergraduate degree. For more information on any of Millersville's undergraduate admission programs, contact the Office of Admissions in the Lombardo Welcome Center at 717-871-4625, or visit the Millersville website at [www.millersville.edu](http://www.millersville.edu).

#### GENERAL ADMISSION POLICIES FOR ALL APPLICANTS TO UNDERGRADUATE DEGREE PROGRAMS

##### QUALIFYING FOR ADMISSION

To be considered for admission to Millersville University, one must be a graduate of an approved secondary school or hold a General Educational Development (GED) high school equivalency diploma. Traditional students applying directly from high school must have completed a college preparatory curriculum. Generally, the student's academic program should include four units of academic English; three units or more of academic mathematics, minimally including algebra I, algebra II and geometry; three units or more of academic science, including two or more units of laboratory science, biology and chemistry with lab and any other inquiry-based lab or technical science; and three or more units of academic social science coursework. Foreign language coursework at the secondary level is recommended but not required for admission consideration.

Millersville University is test-optional for applicants seeking admissions for 2024 and 2025. Any home-schooled applicant wishing to be considered for admission to Millersville University should be a graduate of an approved home school association program. A GED issued by the Pennsylvania Department of Education is preferred if the student has not completed an approved program of study.

Admission to Millersville University is granted without regard to race, color, religion, sex, national origin, ancestry, age, handicap, marital status or lifestyle. Applications from qualified out-of-state students are welcomed; requirements for Pennsylvania resident status appear under the Expenses and Financial Aid section of this catalog.

All courses are taught in English, and students are expected to have demonstrated English language proficiency.

## **HOW TO APPLY**

Prospective students are encouraged to apply electronically by following the undergraduate application instructions on the Millersville University website at [www.millersville.edu/apply](http://www.millersville.edu/apply). For an application file to be considered complete, the following must also be submitted:

1. An official high school transcript.
2. SAT or ACT score reports (standardized test scores are not required).
3. Personal statement.

Reference letters are recommended, but not required. These may be very valuable for a candidate with borderline academic qualifications if they help establish other exceptional qualities.

## **DEADLINES FOR APPLICATIONS**

Millersville has a rolling admissions policy and usually notifies applicants of a decision within a month after completed forms and supporting credentials are received. High school students are encouraged to submit applications as early in their senior year as possible. Applicants may apply for admission to begin coursework in the fall, spring or summer semester. Those applying too late for the admission date of their preference will have their application considered for the next available admission date.

## **ACCEPTING AN OFFER OF ADMISSION**

Applicants admitted to the fall semester at Millersville must pay a nonrefundable advance matriculation deposit no later than May 1, or 15 days after the date of the admission letter, whichever is later. Students admitted to University residence halls must also pay an advance housing deposit. These deposits are explained in the Expenses and Financial Aid section of this catalog.

Students must enroll in the semester for which they are admitted. Students who do not enroll must submit a written request for the deposit to be applied to the next semester. This request must be submitted prior to the first day of classes in the term for which admission was offered. Failure to enroll and/or submit the written request will result in withdrawal of the admission offer and forfeiture of the deposit.

## **PART-TIME STUDENTS**

Full- and part-time degree-seeking applicants must meet the same admission requirements.

# **SPECIAL ADMISSIONS PROGRAMS FOR DEGREE SEEKING APPLICANTS**

## **STUDENT ACCESS AND SUPPORT SERVICES**

Millersville University provides diverse, dynamic, meaningful experiences to inspire learners to grow both intellectually and personally to enable them to contribute positively to local and global communities. The Office of Student Access and Support Services (SASS) is a home base for students and families that provides individual support through academic and personal coaching with a holistic approach.

For more information, see the section under [Services for Students](#).

## **INTERNATIONAL ADMISSIONS**

In addition to completing general admission requirements, international applicants must submit a copy of their passport, proof of financial support and proof of English language proficiency if the applicant is from a non-majority English-speaking country. For regular admission (not through the English Language Institute), students must score a minimum of “70” on the TOEFL IBT or “6.0” on the IELTS. If the applicant takes and submits SAT scores that meet the University’s general admission standards, then the student does **not** also need to submit TOEFL/IELTS scores.

International transfer applicants with academic credentials from within the U.S. need to fulfill the general transfer admission criteria in addition to the documents previously mentioned for international applicants. If a transfer student completes the equivalent of Millersville's English Composition 110 course with a "C" or better, they do not need to submit TOEFL/IELTS scores. Students transferring from a foreign higher education institution need to submit official transcripts with certified English translations (if applicable).

### **CONDITIONAL ADMISSION**

International applicants who do not meet the minimum English language requirement may be conditionally admitted to Millersville University through the English Language Institute (ELI). Upon arrival to campus, the ELI will administer a placement test to students to determine in which of the six levels they will begin their coursework.

## **TRANSFER APPLICANTS**

Students who have completed a minimum of 12 transferable credits of coursework at another regionally accredited institution with an overall academic average of 2.0 or higher may be considered for admission as a transfer student. Applicants must submit an official college transcript from each institution previously attended. Transfer applicants with fewer than 12 transferable credits or less than 2.0 GPA must also submit a high school transcript.

### **HARRISBURG AREA COMMUNITY COLLEGE (HACC)/READING AREA COMMUNITY COLLEGE (RACC) AND MILLERSVILLE UNIVERSITY DUAL-ADMISSIONS PROGRAMS**

These are dual-advisement programs designed to assist students who begin their studies at the community college and earn an associate degree prior to transferring to Millersville University. Partnership community college students can enter into an intended agreement for eventual transfer by submitting an intention form to the dual-admissions program (on the MU Admissions website). The Millersville University Admissions Office receives the student's community college transcript at the completion of each semester and can receive specialized guidance, advisement and credit evaluations. Early in their final semester at HACC or RACC (prior to earning an associate degree), students will formally apply to Millersville for the semester. Additional program guidelines and benefits can be found on the MU Admissions website.

### **TRANSFER CREDITS**

Evaluation of transfer credits from other institutions is done by the Registrar's office after a student is officially admitted to the University. A preliminary credit evaluation is included with the admission letter sent to most students. In general, transfer credit is awarded for college-level courses in fields of study offered at Millersville that were completed with a grade of C- or higher through a regionally accredited institution. For institutions with other grading scales, courses in which the applicant has earned a grade above the lowest passing grade are accepted.

To earn a Millersville degree, transfer students are required to complete a minimum of 30 semester hours through Millersville, including 50 percent of their major department requirements (excluding student teaching).

Students who have been awarded transfer credit for a particular course, and subsequently complete the same course at Millersville, forfeit the transfer credit.

Transfer credits are not used in computing Millersville GPAs.

Military personnel and veteran applicants who do not meet standard transfer admissions criteria can be admitted on full-time probationary status.

## **PROGRAM ADMISSION REQUIREMENTS**

### **MATHEMATICS**

1. All undergraduate students must demonstrate minimum levels of proficiency in mathematics.
  1. All entering undergraduate students are required to take part in the mathematics placement process.
  2. The mathematics department determines the test(s) and the criteria for course placement.
2. Students placed in a developmental mathematics course are required to enroll in that course. Such students must demonstrate proficiency by satisfactorily completing the course with a grade of C- or above prior to taking any mathematics course at the 100 level or higher.

3. Students who must take developmental mathematics earn course credits, and the grade is counted in the cumulative grade point average, but developmental course credit cannot be counted towards fulfillment of the general education or graduation requirements for the baccalaureate or associate degree.

## MUSIC MAJORS

Applicants for the B.S. in Music Industry, the B.A. in Music and the B.S.Ed. in Music Education, including transfer applicants and certification students, are required to audition with a solo performance and to take a musical proficiency test. Information about the audition procedure and dates may be obtained from the music department website or by calling 717-871-4701.

## NURSING MAJORS

The Bachelor of Science in Nursing (B.S.N.) degree program is designed for registered nurses who are graduates of accredited diploma or associate degree nursing programs. Admission requirements to Millersville's nursing program are:

1. Evidence of scholarship as shown by an official transcript from an accredited diploma school of nursing or an accredited associate degree in nursing program.
2. Licensure as a registered nurse in the state of residence and/or clinical practice. RN candidates for licensure will be admitted pending successful completion of state licensure requirements.

The Dual Admission in Nursing Program, in conjunction with Harrisburg Area Community College, provides the opportunity for the student to apply for dual admission to the University as well as the community college. This dual admission enhances student learning by providing access to an array of academic services in support of attaining the bachelor's degree in nursing. Formal admission to the major in nursing at Millersville University occurs upon graduation from Harrisburg Area Community College.

## CHEMISTRY

1. All undergraduate students who want to pursue [CHEM111 Introductory Chemistry 1](#) Introductory Chemistry 1 or above must demonstrate minimum levels of proficiency in chemistry.
  1. All entering biology, chemistry, earth sciences and physics undergraduate students are required to take part in the chemistry placement process. Students pursuing majors in other disciplines may also need to participate; please consult your academic advisor.
  2. The chemistry department determines the test(s) and the criteria for course placement.
2. Students placed in the preliminary chemistry course ([CHEM110 Fundamentals of Chemistry](#) Fundamentals of Chemistry) are required to enroll in that course prior to taking [CHEM111 Introductory Chemistry 1](#) Introductory Chemistry 1. Such students must demonstrate proficiency by satisfactorily completing the course with a grade of C- or above prior to taking [CHEM111 Introductory Chemistry 1](#) Introductory Chemistry 1.
3. Students who must take [CHEM110 Fundamentals of Chemistry](#) Fundamentals of Chemistry earn course credits, and the grade is counted in the cumulative grade point average, but these course credits may only be counted as elective credits needed to fulfill the 120-credit minimum required for graduation. These credits may not be counted within the major requirements set forth for degrees in chemistry or other disciplines.

## READMISSION OF FORMER STUDENTS

Former students in good academic standing at the time of their official withdrawal may apply for readmission at any time. Those who were dismissed for academic reasons must interrupt their enrollment for at least one semester. (Refer to the Academic Standards section.) Those who subsequently attended another institution must have an official transcript forwarded by that institution to the Millersville University admissions office.

Reentering students are subject to the curriculum and graduation requirements in effect at the time of their readmission, with the exception of those students who reenter within one year of their official withdrawal or dismissal. These students have the option of continuing under the curriculum and graduation requirements in effect for them at the time of their withdrawal or dismissal.

## OTHER RESTRICTED PROGRAMS

Millersville occasionally places more stringent admissions requirements on certain degree programs. Students interested in certain programs may be admitted to the University but denied admission to a specific program. Once studies at Millersville are successfully under way, students may formally request to transfer into other majors if they meet minimum departmental standards and if space is available.

## **ACADEMIC AMNESTY**

Former Millersville University students applying for readmission following a minimum absence of five years since the end of their last semester are eligible to petition for academic amnesty if their cumulative grade point average (CGPA) was below 2.0 at departure. The petition must be in the form of a letter of appeal to the Academic Standards Committee, sent in care of the registrar's office.

In order to be eligible to petition for academic amnesty, the former student must complete an application for readmission to undergraduate degree status. If academic amnesty is granted, the calculation of the CGPA is restarted with the new matriculation semester.

Under academic amnesty, all previous coursework and grades remain on the permanent record but are not included in the calculation of the Millersville University CGPA after amnesty is granted. Students may use courses taken in the pre-amnesty period to fulfill general education requirements if a grade of C- or higher was earned in the course.

## **SECOND BACCALAUREATE DEGREE STUDENTS**

Anyone with a bachelor's degree from a regionally accredited college or university may apply to earn a second bachelor's degree. All second-degree students must declare a major at the time they apply for admission.

## **NON-DEGREE STUDENTS APPLYING FOR DEGREE-SEEKING STATUS**

Individuals who are high school graduates or hold a General Education Development (GED) certificate may choose this alternative entry into a degree program without taking the SAT or ACT test. These students should first apply to the University as nondegree students. Upon completing 12 credits in at least two subject areas with an average of 2.0 or higher, they may then apply for degree-seeking status.

## **ADULT AND NON-TRADITIONAL STUDENTS**

Millersville University serves adult and non-traditional students who wish to pursue academic interests while also fulfilling work and/or family responsibilities. Courses and programs enable students to reach educational goals by attending college on a full-time or part-time basis. Most adult students participate in evening, off-campus, online and weekend classes. However, some courses may have additional sections available during the day and can be taken if a student is interested.

Applicants who meet all criteria for admission will be admitted with the same full privileges as other degree-seeking students. Students who are missing prerequisites may be accepted into a program but will need to successfully complete prerequisite courses in order to remain enrolled in the program and retained at the University. A minimum cumulative GPA of 2.0 is required to remain at the University. Some programs may have more stringent requirements based on accreditation standards. New students may begin the admissions process in the spring, fall or summer semester.

If you have taken courses at another college or university, official college transcripts are required from all colleges previously attended. This enables us to create an effective and efficient plan to help you attain your degree.

Opportunities also exist for the adult who did not demonstrate strong academic interests in high school. The only required admission credential is a diploma and official transcript from an approved secondary school, a Commonwealth Secondary School Diploma or a General Education Development (GED) certificate.

Students who are granted admission will be assigned an academic advisor in their major field. Students who do not meet the academic requirements for a specific major may be admitted as an undeclared student and assigned an undeclared advisor. The undeclared advisor will assist students to create a plan so they may reapply for admission to a specific major. Adult students are urged to meet with advisors well before the beginning of the semester to determine course selections. For additional information on off-campus, evening, weekend and online offerings and programs, contact the CGSAL at [adultlearning@millersville.edu](mailto:adultlearning@millersville.edu), or at 717-871-7171.

## **SPECIAL ADMISSION STUDENTS**

### **POST-BACCALAUREATE TEACHING CERTIFICATION STUDENTS**

Anyone with a bachelor's degree may apply for courses leading to initial or additional teaching certification as a full-time or part-time student. For teaching certification requirements, contact the certification office, Stayer Hall, Room 120. To apply for admission, contact the CGSAL, Lyle Hall.

## **PASSHE VISITING STUDENTS**

The purpose of the PASSHE Visiting Student program is to facilitate undergraduate student enrollment at institutions of Pennsylvania's State System of Higher Education and to enable students to take advantage of courses available across the System, without loss of institutional residency, eligibility of honors or athletics, or credits toward graduation at the home institution.

See the Special Academic Opportunities section of this catalog.

## **TRANSIENT STUDENTS FROM OTHER COLLEGES**

Students in good academic standing who are on leave from a degree program at another college may apply to Millersville as part-time transient students.

## **STUDENTS FROM FRANKLIN & MARSHALL COLLEGE AND LANCASTER THEOLOGICAL SEMINARY**

Millersville University has reciprocal agreements with these two institutions. Franklin & Marshall College may, upon appropriate authorization, send students to Millersville for courses not offered at Franklin & Marshall, without a tuition charge from Millersville. Similarly authorized full-time graduate students from Lancaster Theological Seminary may enroll in undergraduate and graduate-level courses at Millersville without a tuition charge by Millersville.

Millersville students may also take advantage of these agreements and enroll for courses at these institutions. See the Special Academic Opportunities section for more information.

## **HIGH SCHOOL STUDENTS (DUAL ENROLLMENT)**

Qualified high school juniors and seniors may take credit-bearing courses at Millersville while pursuing their high school diplomas. Applicants must submit an official high school transcript. They must also complete a special high school student application form. This form, along with approved dual-enrollment courses, can be found on the admissions website. Participation in the program does not guarantee later admission as a degree-seeking student. Homeschooled students pursuing a Pennsylvania Homeschoolers Association diploma or other regionally recognized homeschooling certifying program are also encouraged to apply, submitting officially certified transcripts.

## **VETERANS**

Millersville University meets all criteria for approval of Veterans Education under the provisions of Title 38, United States Code, Section 1775 (a)(1). DANTES and USAFI courses are considered for transfer credit in accordance with the recommendations of the Commission of Accreditation for Service Experiences of the American Council on Education.

The Veterans Benefits and Transition Act of 2018 (applicable to students who receive benefits under the Chapter 31 Veteran Readiness & Employment and/or Chapter 33 Post 9/11 GI Bill®) states that students who are entitled to education assistance will not impose any penalty. A penalty includes the assessment of late fees and denial of access to classes, libraries or other institutional facilities. The University may not require individuals to borrow additional funds to cover a balance to the University that is caused by a delayed payment from the VA under Chapter 31 or Chapter 33.

The statute allows Millersville University to require Chapter 31 Veteran Readiness & Employment and Chapter 33 Post 9/11 GI Bill® students to take the following additional actions:

- Submit a Certificate of Eligibility (COE) for entitlement to educational assistance no later than the first day of a course of education.
- Submit a written request to use such entitlement (VA enrollment certification form).
- Provide additional information necessary to the proper certification of enrollment by the educational institution.

Under section 3679 of Title 38, Millersville University is authorized to require additional payment or impose a fee for the amount that is the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement.

"GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill>."

Veterans, reservists, VA Readiness & Employment participants and eligible dependents with questions about educational benefits should contact the university School Certifying Official in the Financial Aid Office at [fa.mail@millersville.edu](mailto:fa.mail@millersville.edu) or 717-871-5478. The Veteran Resource Center is available to provide support resources and can be reached at 717-871-4343.

## **AUDITING COURSES**

An individual who is not concerned with earning credit may audit a course upon approval of the course's instructor. An auditing student attends classes and participates in class discussions but does not take examinations, write papers or fulfill other requirements generally associated with earning credit. The student's transcript does not record a grade but notes that the course was audited. Standard tuition and fees are charged. Ordinarily no more than one course may be audited per semester.

Students enrolled in a degree program may also request audit privileges. See the Special Academic Opportunities section of this catalog.

## **CONTINUING EDUCATION**

Continuing education students experience the best of Millersville University one class at a time. Choose from hundreds of undergraduate and graduate courses that can be taken as not-for-credit. Enjoy vibrant discourse with your fellow classmates and the guidance of the University's renowned faculty. Many classes meet online or at night. Enrollment is limited to space available after the drop/add period for matriculated (degree-seeking) students. For more information on how to enroll for noncredit as a nondegree student, contact the CGSAL, Lyle Hall, 717-871-4723.

## **ADVANCED STANDING**

### **ADVANCED PLACEMENT EXAMINATIONS (AP)**

Credit is granted to students earning scores of 3 or higher on AP examinations. The number of credits awarded depends on the academic major, AP subject area and departmental recommendation. Contact your high school guidance office for information on taking an AP examination. Students must be admitted to undergraduate, degree-seeking status and be currently enrolled to be eligible for an AP credit award. A score report from the College Board must be sent to Millersville University. Visit [www.millersville.edu/apcores](http://www.millersville.edu/apcores) for more information regarding score reports.

### **COLLEGE-LEVEL EXAMINATION PROGRAM (CLEP)**

CLEP is a program of the College Board that includes both general and subject examinations. Six credits are awarded for scores of 50 or above on each of the CLEP general examinations: College Composition (with or without essay); Humanities; College Mathematics; Natural Sciences; and Social Sciences and History.

Three to six credits are awarded to students who earn a score of 50 or above on the CLEP subject examinations. Contact the registrar's office at [www.millersville.edu/registrar](http://www.millersville.edu/registrar) regarding credit awards.

### **CHALLENGING COURSES BY EXAMINATION**

Students who feel they have already mastered the material in a Millersville course may "challenge the course by examination," taking a test on the course content instead of enrolling for the course itself. Students may challenge most courses in which they have not received a grade, and which have not been waived because of demonstrated competency or advanced placement. Because of content and structure, some courses may not be challenged by examination.

Contact the registrar's office, Lyle Hall, for instructions, fee information and approval forms. The examination is given at the convenience of the instructor. The grade earned is entered on the student's record and calculated into the GPA whether or not a passing grade is earned. Standard tuition and fees are charged.

In some instances, department chairpersons may approve the use of a CLEP subject examination to challenge a course by examination. See the preceding section on CLEP for more information.

### **INTERNATIONAL BACCALAUREATE (IB) PROGRAM**

Millersville University recognizes the value of the rigorous IB Program and considers it seriously when evaluating the credentials of admission applicants. For students entering with the IB Diploma or Certificate, credit may be awarded for a score of five or higher on examinations in higher level (HL) IB courses. Such credit is generally awarded on a course-by-course basis as recommended by the appropriate Millersville University department. The University does not give credit for standard level (SL) examinations. Credit awarded for IB higher level examinations may be used to satisfy general education requirements, major or minor requirements, or electives in the same manner as Advanced Placement (AP). Students will not receive duplicate credit for IB examinations, AP examinations, CLEP examinations or any other college courses taken before or after enrolling at Millersville University. In the event of overlapping course content, credit will be given for only one course. International Baccalaureate

transcripts should be submitted to the Office of Admissions, Millersville University, P.O. Box 1002, Millersville, PA 17551-0302. Students can request transcripts through their high school IB coordinator within the first year after high school graduation. Thereafter, transcripts can be requested from the International Baccalaureate Program, North America, 475 Riverside Drive, 16th Floor, New York, NY 10115, (212) 696-4464. [ibna@ibo.org](mailto:ibna@ibo.org).

---

## GRADUATE ADMISSIONS

### Admission Policy

Admission to a graduate program is granted without regard to race, color, national origin, gender, ancestry, age, handicap, marital status, lifestyle or religious creed. Admission decisions are based on the applicant's academic abilities and professional disposition reflected in a record sufficiently strong to support confidence that the applicant can participate effectively in the graduate community.

### Admission to a Master's Degree Program

*(See the appropriate Academic Program section for additional criteria.)*

Admission decisions are based upon a combination of factors that may include grade-point average; official recommendations from those able to critically assess an applicant's ability to succeed in a graduate program; a written statement of goals; standardized test scores; academic preparation for work in the proposed field; the applicant's interests as matched with those of faculty; and, where appropriate, a successful interview.

### Regular Admission

To be eligible for regular admission, an applicant must have earned a bachelor's degree from a regionally accredited four-year college or university in the United States or equivalent from a similar institution abroad. The applicant must demonstrate the ability to successfully complete a master's degree and must have achieved at least a 2.75 undergraduate grade-point average in all coursework attempted (unless otherwise specified by the academic program).

### Conditional Admission

Applicants who do not meet the minimum admission requirements, but who show promise of success in a graduate program, will be considered for conditional admission. Applicants admitted on conditional status will have conditions clearly stipulated in an offer of admission letter.

Upon satisfying the conditions—and with the favorable recommendation of the department and with the graduate dean's concurrence—the student will be fully admitted and allowed to continue toward degree candidacy. If the student is unable to achieve a 3.0 grade-point average, he/she will be dismissed from the program.

### Application Procedure

Prospective students may apply electronically by visiting the [Graduate Studies website](#). For an application to be considered complete, the following must also be submitted:

1. A nonrefundable application fee of \$40 payable at the time of submission of the electronic application (*application fee may be paid by check, American Express, Visa, MasterCard or Discover through the electronic application portal*).
2. Official copies of all transfer and undergraduate transcripts and official transcripts of any previous graduate work (*it is not necessary to send Millersville University transcripts*).
3. Three official recommendation forms submitted by professors or others capable of assessing the applicant's potential for success in a graduate program. Academic or supervisory/professional recommenders are preferred.
4. A written statement of academic and professional goals.
5. If required, an official score report for the Miller Analogies Test (MAT), the Graduate Record Examination (GRE), the Graduate Management Admissions Test (GMAT) or the Oral Proficiency Interview (OPI) and Writing Proficiency Test (WPT). See the *Admissions Testing* section for testing requirements by program.

6. Pennsylvania Public School Code requires updated background checks for employees and all persons who come into direct contact with children. All students, including M.Ed., supervisory, nondegree and post-baccalaureate candidates, must submit TB test and current criminal background clearances defined as being within one year of the issue date and extending through the duration of the field placement for any class requiring field experience.
7. Any additional information required by the specific department. Applicants should refer to the appropriate *Academic Programs* section of this catalog for additional individual program admission requirements.

## Application Timelines

Master's degrees in School Counseling, School Psychology and Clinical Psychology have application deadlines as follows:

- January 15 for admission beginning fall.
- April 15 for admission beginning fall (on a space-available basis) for those who have missed the January 15 deadline.
- October 1 for admission beginning spring.

Master's degrees and Post Baccalaurate Certification in Family Nurse Practice have application deadlines as follows:

- January 15 for admission beginning fall.
- September 15 for admission beginning spring (fall start is on campus of Millersville University; spring start is at Central Penn College).

Master's degrees in Family Nurse Educator has a rolling admission process.

Master of Social Work degree program accepts applications for summer start only; the deadlines are as follows:

- November 30 for early decision.
- February 1 for full consideration applications.

All other graduate programs take applications on a rolling basis (i.e., no official deadline). However, applicants should use the stated deadlines above as a target. Applications take approximately four to six weeks for processing, so late applications may be considered for the following semester. Applicants admitted late on the rolling cycle may miss early course registration and not get their preferred courses in their first semester.

Admission to a master's degree program is contingent on the recommendation of the department in which the student proposes to study. After reviewing the application and supporting materials, the department may recommend regular or probational admission to a degree program. If the department recommends probational admission, the conditions shall be clearly stipulated. In either case, the applicant will be notified of admission status by Graduate Studies.

## Admissions Testing

Applicants for some degree programs are required to submit official score reports from an appropriate standardized test. Please note that scores for any test should not be more than five years old at the time of application. Minimum score requirements can be found in the *Academic Programs* section for specific programs. Test requirements by program are as follows:

ACADEMIC PROGRAM	TEST REQUIREMENT
Art Education (M.Ed.)	None
Assessment, Curriculum and Teaching (M.Ed.)	GRE or MAT (only if GPA is lower than 2.8)
Early Childhood Education (M.Ed.)	None
Emergency Management (M.S.)	GRE or MAT (only if GPA is lower than 2.8)
English (M.A. and M.Ed.)	None
Gifted Education (M.Ed.)	GRE or MAT (only if GPA is lower than 3.0)
History (M.A.)	GRE (only if GPA is lower than 2.85)
Integrated Scientific Applications (M.S.)	GRE, MAT or GMAT (only if cumulative GPA is lower than 3.0)
Language and Literacy Education (M.Ed.)	GRE or MAT (only if GPA is lower than 3.0)
Languages and Cultures (M.A.)	ACTFL Spanish, German, French (OPI and WPT)
Leadership for Teaching and Learning (M.Ed.)	GRE or MAT
Mathematics (M.Ed.)	None
Nursing (MSN)	None
Psychology (M.S.) School, Clinical	GRE (only if GPA is lower than 3.0)
School Counseling (M.Ed.)	GRE (only if GPA is lower than 3.0)
Social Work (M.S.W.)	GRE or MAT (only if cumulative GPA from all credits is lower than 2.8)
Special Education (M.Ed.)	GRE or MAT
Sport Management (M.Ed.)	GRE, MAT or GMAT (only if GPA is lower than 3.0)
Technology and Innovation (M.S.)	GRE or MAT (only if GPA is lower than 3.0)

The test score is one of several criteria considered in the admissions process. The score alone is not a basis for denying admission. In cases where the score falls below a departmentally established level, an applicant may be asked to repeat the test.

Applicants are encouraged to become familiar with test formats prior to sitting for the examination. Further information can be obtained in the reference section of McNairy Library.

Applicants possessing a master's degree from a regionally accredited institution do not need to submit standardized admission test scores from the MAT, GRE or GMAT. They must submit an official master's degree transcript in addition to the official baccalaureate degree transcript. Note: A master's equivalency does not suffice for a master's degree.

## Application to a Graduate Certificate or Certification Program

Applicants interested in a graduate-level certificate or certification program should consult the appropriate Academic Programs section for admission requirements that pertain to a specific program. Certification applicants must submit the Graduate Program Admissions Application and applicable supporting documents. See *Application Procedure* section.

## Application as a Nondegree Graduate Student

Applicants should seek admission to the nondegree category if they are:

1. undecided about a graduate area of specialization;
2. not interested in a master's degree program;
3. seeking to earn Instructional II teaching certification;
4. interested in a graduate-level workshop, course or seminar; or
5. completing work for transfer to another institution (transient).

Applicants for nondegree studies must have completed a baccalaureate degree from a regionally accredited four-year college or university.

*Admission as a nondegree student does not include admission to degree or certification programs.* Nondegree students may apply for admission to a degree or graduate-level certification program after having accumulated graduate credits; however, no more than nine graduate credits, in nondegree status, may be transferred to a degree or graduate-level certification program, subject to

departmental approval. Courses for transfer from nondegree status into a program must have received a satisfactory grade, and except in the most extenuating circumstances, no transfer credit will be allowed for work completed more than five years prior to admission to a degree or graduate-level certification program. It is imperative that applicants consult with the graduate program coordinator from their intended discipline to understand what courses are available to nondegree students.

A nondegree student is permitted to register for any graduate or undergraduate course not restricted by the department.

## Application as a Transient Student

Those students desiring to take graduate work for transfer to another institution must, at the time of admission, present a statement from the proper official of the school accepting the work in transfer, indicating their satisfactory graduate student status. Transients must also complete the application for admission as a nondegree student. Further, it is the responsibility of transient students to request, in writing, that a transcript of completed work be forwarded to the appropriate institution.

## Application as an International Student

Millersville University welcomes applications from prospective international students. In addition to satisfying general admissions requirements as stated on the Graduate Program Admissions Application, international applicants must demonstrate proficiency in the Test of English as a Foreign Language (TOEFL). TOEFL score requirements are 500 on the paper-based test, 183 on the computer-based test or 60-80 on the Internet-based test. The TOEFL is administered nationally. In lieu of the TOEFL, English language proficiency may be demonstrated by earning a score of “6” or higher on the International English Language Testing System (IELTS) exam.

Applicants possessing a baccalaureate degree earned at a non-U.S. institution must have official academic credentials sent to a recognized credential evaluation service for a course-by-course evaluation. One such service is World Education Services, Inc., at [www.WES.org](http://www.WES.org). The WES ICAP (International Credential Advantage Package) is a service that allows applicants to store their verified academic transcripts with WES and have them delivered to Millersville University together with the credential evaluation report. Applicants who use the WES ICAP service do not need to submit an official transcript to Millersville University from the non-U.S. institution. The WES ICAP service verifies and authenticates the academic transcripts and delivers the transcripts and credential evaluation to Millersville University directly.

Applicants not using the WES ICAP service must submit to Millersville University an official academic transcript in their native language (with English translation) in a sealed envelope from the non-U.S. institution.

International applicants must also complete a financial disclosure form, also known as the Source of Funds.

Because of Pennsylvania teacher certification requirements, international applicants may not be admitted to the following programs: gifted education, language and literacy education, special education and early childhood education.

## Semester Hours

Specific departmental requirements and the student's undergraduate preparation will determine the maximum number of hours for a master's degree; the *minimum* number of semester hours required are as follows:

1. 30 hours of approved graduate work beyond a bachelor's degree, including a thesis or research project; or
2. 33-60 hours of departmentally approved graduate work of an extended course sequence.

Students should consult with their advisor and discuss the specific program requirements in the *Academic Programs* section to ascertain the semester hours required in a particular degree program.

## Residency Requirement

Students must complete a minimum of two-thirds of their graduate degree or certification program at Millersville University in order to meet residency requirements.

## Student Status

To be considered full-time, graduate students must be registered for at least 6 credits by the end of the drop/add period. This is effective May 8, 2023.

## Time Limit

Work for the degree may be pursued over several years, which need not be in succession but must be concluded within a five-year (master's) or seven-year (doctoral) period. The five-year period begins the semester a student is accepted into a degree program. A reevaluation of coursework taken prior to admission to a degree program and an extension of time, usually an additional year, beyond this five- or seven-year limit may be granted at the request of the student and upon the recommendation of the advisor and graduate program coordinator.

## Second Master's Degree

Students interested in earning a second master's degree at Millersville in the same field must meet all course requirements for the second degree and complete no fewer than 24 semester hours of approved coursework beyond the requirements for the initial degree.

## Athletics

### Intercollegiate Athletics

Intercollegiate athletics has a rich history as part of the fabric of Millersville University. The Department of Athletics sponsors 19 intercollegiate sports competing in the Pennsylvania State Athletic Conference and NCAA Division II. Marauders excel in both competition and in academics with Millersville's teams winning 57 PSAC Championships and two NCAA Championships. Nine Millersville athletes have also won individual NCAA Championships. The more than 450 student-athletes annually produce a GPA over 3.0 and in 2022-23, more than 200 Marauders were named PSAC Scholar-Athletes. A staff of 60+ coaches and administrators provide a championship experience, supporting student-athletes with mentoring, academic support, and career development. Student-athletes have access to the Morgan Academic Center in Lehigh Hall. The health and wellness of the student-athletes are supported by five full-time athletic trainers and a strength and conditioning coach. Millersville's student-athletes train in the Carpenter-Trout Strength Center.

For additional information, please visit [www.millersvilleathletics.com](http://www.millersvilleathletics.com)

## Administration

### University Administration

#### PRESIDENT'S CABINET

- President of the University, Daniel A. Wubah, Ph.D.
- Provost and Senior Vice President for Academic Affairs, Gail Gasparich, Ph.D.
- Vice President for Advancement, Mr. Victor E. Ramos
- Vice President for Finance and Administration/CFO, Nafez Alyan, Ph.D.
- Vice President for Student Affairs, Mary Beth E. Williams, Ph.D.
- Vice President for University Relations and Strategic Initiatives, Victor S. DeSantis, Ph.D.
- Interim Chief Technology Officer for Information Technology, Mr. Josh Hartranft
- Chief Diversity and Inclusion Officer, Mr. Carlos Wiley

---

#### DEANS COUNCIL

- Provost and Senior Vice President for Academic Affairs, Gail Gasparich, Ph.D.
- Dean, College of Education and Human Services, Lara Willox, Ph.D.
- Dean, College of Science and Technology, Marc A. Harris, Ph.D.
- Dean, Lombardo College of Business, Marc Tomljanovich, Ph.D.
- Dean, College of Arts, Humanities and Social Sciences, Ieva Zake, Ph.D.
- Dean of University College & Associate Provost for Student Success, Dr. Rachel Finley-Bowman, Ph.D.
- Associate VP for Grants Sponsored Programs & Research, Mr. Jeffry B. Porter

- Associate Vice President and Dean of Admissions, Enrollment Management, Douglas Zander, Ed.D.
- Assistant Vice President for Institutional Assessment and Planning, Carole E. Runge, D.M.
- Assistant Vice President for International Services and Global Engagement, Dan Kumala, Ph.D.
- Assistant to the Provost, Ms. Kathy Nazarens

---

## ACADEMIC DEPARTMENT CHAIRS

### College of Arts, Humanities and Social Sciences

- Art & Design - Prof. Shauna L. Frischkorn, Chair
- Communication & Theatre - Dr. Lowery Woodall III, Chair
- Criminology, Sociology and Anthropology - Dr. Marlene S. Arnold, Chair
- Economics - Dr. Kenneth W. Smith, Chair
- English and World Languages - Dr. Justin Mando, Chair | Dr. Emily Baldys, Asst. Chair
- Government, Policy & Law - Dr. Richard A. Glenn, Chair
- History - Dr. Robyn Davis, Chair
- Music - Dr. Micheál B. Houlihan, Chair | Dr. Christy Banks, Asst. Chair
- Philosophy - Dr. Jen Miller, Chair
- African-American Studies Minor - Dr. Onek Adyanga, Coordinator
- Entrepreneurship Minor and ELC - Prof. Dain Estes, Coordinator
- International Studies Minor - Dr. Nivedita Bagchi, Coordinator
- Latino/a Studies Minor - Dr. Kimberly A. Mahaffy, Coordinator
- Women's and Gender Studies Minor - Dr. R. Jill Craven, Coordinator

### The Lombardo College of Business

- Accounting & Finance - Dr. Eric Blazer, Chair
- Management & Marketing - Dr. David J. DiRusso, Chair

### College of Education and Human Services

- Early, Middle & Elementary Education - Dr. Jennifer Shettel, Chair
- Educational Foundations - Dr. Tiffany E. Wright, Chair
- Psychology - Dr. Debra S. Vredenburg-Rudy, Chair | Dr. Elizabeth Thyrum, Asst. Chair
- Social Work - Dr. Karen M. Rice, Chair
- Special Education - Dr. Janet Bertoni
- Wellness & Sport Sciences - Dr. Daniel J. Keefer, Chair

### College of Science and Technology

- Applied Engineering, Safety & Technology - Dr. Jack Ogutu, Chair
- Biology - Dr. Ryan L. Wagner, Chair | Dr. Laura Weise Cross, Asst. Chair
- Chemistry - Dr. Daniel Albert, Chair
- Computer Science - Dr. Stephanie M. Schwartz, Chair
- Earth Sciences - Dr. Lynn Marquez, Chair
- Geography - Dr. Jessica J. Kelly, Chair
- Mathematics - Dr. Tyrone Washington, Chair | Dr. Kevin S. Robinson, Asst. Chair
- Nursing - Dr. Kelly A. Kuhns, Chair
- Physics - Dr. Sean P. Hendrick, Chair

## Governing Boards

### Overview of Governing Boards

Millersville University is a constituent member of the Pennsylvania State System of Higher Education. As a PASSHE institution Millersville is governed by the Commonwealth of Pennsylvania as well as a local Council of Trustees.

#### COMMONWEALTH OF PENNSYLVANIA

Josh Shapiro

*Governor*

#### PENNSYLVANIA STATE SYSTEM OF HIGHER EDUCATION

Chancellor Daniel Greenstein

#### PASSHE BOARD OF GOVERNORS

- Cynthia D. Shapira, Chair
- David M. Maser
- Samuel H. Smith
- Sen. David Argall
- Robert W. Bogle
- Rep. Tim Briggs
- William "Bill" Gindlesperger
- Abigail Hancox
- Darreck Harshberger
- Akbar Hossain
- Daniel A. Klingerman
- Marian D. Moskowitz
- Dr. Khalid N. Mumin
- Rep. Brad Rose
- Sen. Judith L. Schwank
- Josh Shapiro
- Dr. Kate Shaw
- Larry C. Skinner
- Skylar Walder
- Neil R. Weaver
- Janet L. Yeomans

#### MILLERSVILLE UNIVERSITY OF PENNSYLVANIA COUNCIL OF TRUSTEES

- Mr. Michael G. Warfel '84, *Chairman*
- Dr. Richard L. Frerichs '64/'69M, *Vice Chairman*
- Thomas J. Baker '02
- Mr. Brandon W. Danz '03
- Saul W. Fink, Ph.D. '85
- Rep. Jordan A. Harris '06
- Mr. Rick Rodgers
- Ms. Kathryn R. Ross
- Dr. Amber M. Sessoms '06/'08M
- Ms. Holly L. Trego '98
- Daniel A. Wubah, Ph.D., President, *ex officio*

# University Calendar

## 2024-2025

### FALL TERM 2024

DATE	EVENT
FRI AUG 23	Orientation for new students admitted for Fall 2024 begins
SUN AUG 25	Orientation for new students admitted for Fall 2024 ends
MON AUG 26	Fall classes begin
MON SEP 02	Holiday (no classes)
FRI OCT 04	Parent and Family Weekend
SAT OCT 05	Parent and Family Weekend
FRI OCT 11	Fall recess begins after last class
WED OCT 16	Fall recess ends at 7:00 a.m.
FRI OCT TBD	Homecoming Weekend
SAT OCT TBD	Homecoming Weekend
TUE NOV 26	Thanksgiving recess begins after last class
MON DEC 02	Thanksgiving recess ends at 7:00 a.m.
MON DEC 09	Last day of classes
TUE DEC 10 Through FRI DEC 13	Evaluation period (special class schedule)
SAT DEC 14	Commencement; End of Fall Term

### WINTER TERM 2025 (5 WEEKS)

DATE	EVENT
MON DEC 16	Winter classes begin
SUN JAN 19	Winter classes end after last final examination
MON JAN 20	Holiday (no classes)

### SPRING TERM 2025

DATE	EVENT
TUE JAN 21	Spring classes begin
MON MAR 10	Spring recess begins at 7:00 a.m.
MON MAR 17	Spring recess ends at 7:00 a.m.
MON MAY 05	Last day of classes
TUE MAY 06 Through FRI MAY 09	Evaluation period (special class schedule)
SAT MAY 10	Spring Commencement; End of Spring Term

## SUMMER TERM 2025 (14 WEEKS WITH 3 START DATES; SEE WEB SCHEDULE FOR SPECIFIC COURSE DATES)

DATE	EVENT
MON MAY 12	First summer start date
MON MAY 26	Holiday (no classes)
FRI JUN 06	First summer classes end date
MON JUN 09	Second summer start date
THU JUN 19	Holiday (no classes)
FRI JUL 04	Holiday (no classes)
FRI JUL 11	Second summer classes end date
MON JUL 14	Third summer start date
FRI AUG 15	Third summer classes end date

## FALL TERM 2025

DATE	EVENT
MON AUG 25	Fall classes begin

[About MU](#)

## Policies

### UNIVERSITY ACADEMIC POLICIES

#### GRADING POLICIES

Each instructor establishes his or her own grading policy based on classroom participation, homework, unannounced quizzes, etc., and states it clearly and in writing at the beginning of the course. Sufficient measures are built into each course structure to evaluate student achievement.

Final examinations normally do not count as more than one-third of any student's final grade. Instructors may excuse any student with superior achievement (a grade higher than A-) from taking a final exam.

#### GRADES AND GRADE POINT SYSTEM

The grade point average (GPA) is a comprehensive evaluation of a student's academic standing. The grades and terms used to describe achievement are reported at the end of each semester as:

GRADE	DESCRIPTION	GRADE POINT VALUE
A	Excellent	4.0
A-		3.7
B+		3.3
B	Good	3.0
B-		2.7
C+		2.3
C	Acceptable	2.0
C-		1.7
D+		1.3
D	Poor	1.0
D-		0.7
F	Fail	1
I	Incomplete	1
P	Pass	1
S	Satisfactory	1
U	Unsatisfactory	1
W	Withdrew	1
M	Military Withdrawal	1
AU	Audit	1
X	Proficiency in Progress	1
Z	No Adequate Evaluation for Grading	0.0

1 - Not considered in computing GPA.

University policy accepts D- as minimum earned credit. There are certain general education and department major competency requirements that are satisfied only by a higher minimum grade. If a student earns less than this higher minimum grade in such a course, the credits will count toward earned credits but might not count toward completion of general education and department major requirements.

The semester GPA is the number of grade points earned in Millersville courses in a semester, divided by the number of credits in that semester for which grades calculated in the GPA were earned. Grade points for each course are calculated by multiplying the grade point value by the number of credits for the course.

The cumulative GPA (CGPA) is the total number of grade points earned in Millersville courses divided by the number of Millersville GPA credits. Credits from audited courses, subsequently repeated courses, advanced standing programs such as AP and CLEP, and transfer credits are not included in the CGPA.

The Millersville grade point average (GPA) is rounded to two decimal places.

#### **SCHEDULE ADJUSTMENT: DROP/ADD**

For fall and spring terms, students may drop or add courses online from the early-registration period until 11:59 p.m. EST, the eighth calendar day of the term, excluding holidays. Prior to the first day of classes, faculty signatures are not required to drop or add a course unless faculty permission is specifically required.

During the summer and winter sessions and for courses which have start and/or end dates outside of the regular semester length, the registrar will determine equivalent dates for no grade, W grade and regular grade periods. Refer to the registrar's website for details.

Courses that are dropped during the drop/add period will not be entered on the student's record.

It is the student's responsibility to make official changes to his/her schedule. There is no automatic drop policy for nonattendance.

## **WITHDREW (W)**

The notation made on a student's record about a withdrawn course depends on when the student withdraws. Students who "drop" or withdraw by the end of the drop/add period have all references to that course deleted from their records. Students will be permitted to withdraw from a course and receive a grade of W up until the end of the 10th week of the semester. The W grade does not carry any quality points and will not be calculated in the student's GPA. There will be no limit on the number of courses from which the student may withdraw. A student who withdraws from their last course is required to submit a form withdrawing them from the University or taking a leave of absence. See [Leaving Millersville University](#) for more information. After the 10th week of the semester and through the last day of classes, students who withdraw will receive an earned, non-W grade, which will be determined by the instructor, consistent with University policy.

The official date of withdrawal will be determined by the student's last date of attendance in any registered course. Deadlines for withdrawal are strictly enforced. It is the student's responsibility to obtain all required signatures (both the course instructors and advisors) in time to meet the deadline.

Failure to withdraw from a course properly may result in additional tuition fees as well as a failing grade. Financial aid may also be affected.

See the sections on Credit Load Policies and Tuition for more information.

During summer and winter sessions, the registrar sets equivalent deadlines for withdrawing from a course without a grade or with a W grade.

## **WITHDRAWAL FROM A COURSE**

A student may withdraw from a course, provided they conferred with both the course instructor and their advisor and have filed a course withdrawal form, which is available at the registrar's office.

Failure to withdraw from a course properly may result in additional tuition fees as well as a failing grade. For example, a student who does not attend a class but only submits a withdrawal form during the second week of class may be subject to additional tuition for that two-week period.

Withdrawal periods will be determined by the registrar's office and be prorated for summer, winter and out-of-term courses. To withdraw from a course, access the withdraw form in MAX, on the web in the [Student Forms Center](#), or contact the registrar's office, Lyle Hall.

## **MILITARY WITHDRAWAL (M)**

A grade of M may be assigned when a student or spouse must withdraw due to military obligation (called to active duty) and is unable to complete their courses. M grades are not applicable to students who withdraw from the University to complete basic military training. M grades are not used in the computation of cumulative grade point average.

## **INCOMPLETE POLICY**

An incomplete (I) grade is used to denote coursework that is unfinished due to circumstances beyond a student's control, such as personal illness, accident or death in the family. It is a privilege granted by the instructor because of circumstances, not a right to be expected by the student. A student may request that the course instructor assign an incomplete grade. The instructor may assign an incomplete (I) grade only if the student is passing the course and can complete the remaining requirements without attending additional classes. If class attendance is required to complete course requirements, the instructor must issue a final grade.

An incomplete grade issued to a student on academic probation will not prevent or delay academic action for dismissal. A student's cumulative grade point average will be calculated based on all completed coursework.

A student is encouraged to complete the required work as soon as possible. The deadline for making up an incomplete is at the end of the 10th week of the subsequent regular semester (fall or spring); however, an instructor may establish an earlier deadline. At the deadline, one of the following actions will occur:

- The instructor submits a final grade on the change-of-grade form.
- The instructor recommends an extension.
- The grade of "I" converts to an F.

A faculty member may petition the school dean for a retroactive administrative withdrawal (W) from a course in which an incomplete grade cannot be resolved due to extraordinary circumstances (e.g., disability or death of the student or faculty). If the petition is approved, the dean will notify the registrar to record an administrative withdrawal for the course.

Students will not graduate with unresolved incomplete grades. Degree candidates are notified of the outstanding degree requirements. The degree is not conferred until all requirements have been met.

### **PASS/FAIL COURSES (P, F)**

In order to stimulate and/or satisfy intellectual curiosity, students are encouraged to engage in challenging study on an elective basis. The pass/fail option provides the opportunity for a student to enter a course that he/she might ordinarily avoid. Accordingly:

1. A student may enroll in no more than a total of two courses pass/fail.
2. The student needs to have passed 60 or more credits before electing a course pass/fail.
3. The student must have a minimum GPA of 2.80 or obtain permission of the instructor.
4. The pass/fail option is ordinarily restricted to courses numbered 300 or above. However, a 200-level course may be taken pass/ fail with the prior approval of the instructor.
5. Courses taken to satisfy degree requirements for the major, whether offered by the department of the major or offered by other departments as required-related courses, may not be taken pass/fail.
6. Departments may designate which of their course offerings beyond degree requirements their majors may not take pass/fail.
7. Professional education requirements may not be taken pass/fail.
8. Courses taken to satisfy requirements for the minor may not be taken pass/fail.
9. No course used to satisfy general education requirements may be taken pass/fail, but if students take the same courses for other than general education purposes, they may take them pass/fail.
10. Courses taken on a pass/fail basis will be counted toward the total credit-hour requirement for graduation, but those courses that are passed will not be included in the GPA computation on which academic honors and academic standing are based. Courses failed under the pass/fail option will be included when computing the GPA.
11. The minimum grade a student must earn in order to be awarded a "pass" grade is D-.
12. The option to take a course on a pass/fail basis may be exercised until the end of the add period. Contact the registrar's office, Lyle Hall, for the appropriate form. Having properly registered for a course on a pass/fail basis, a student still has the option to take a letter grade instead of a pass/fail grade, provided that the decision to change is filed with the registrar the week prior to finals week.
13. The pass/fail option is limited to students not on probation at the time of registration.

### **SATISFACTORY AND UNSATISFACTORY (S, U)**

These terms describe achievement in student teaching and other field experiences.

### **AUDIT (AU)**

Auditing a course allows a student to attend classes and participate in discussions without the pressures of taking examinations, writing papers or fulfilling other requirements generally associated with earning credit. An audited course is reported on the student's record with the designation AU. It cannot be used to satisfy graduation requirements, nor is it considered in computing GPAs. Standard tuition and fees apply.

To register to audit a course, contact the registrar's office, Lyle Hall, for information and to obtain a permission form, and submit it by the end of the add period. The audit privilege may not be changed to credit status. Audit privileges are ordinarily limited to one course per semester.

### **PROFICIENCY IN PROGRESS (X)**

This grade reflects progress toward, but not achievement of, proficiency in precollege developmental courses.

### **Z GRADE (Z)**

A grade of Z is treated the same as a grade of F in calculating the student's GPA. The Z grade may not be removed and can only be excluded from the GPA by the student registering for and satisfactorily completing the course. The receipt of a Z grade shall not entitle a student to a refund of fees. This grading procedure is intended to apply only to those students for whom there is no adequate evaluation for the determination of a grade. In cases in which the faculty member does not assign any grade, the registrar may assign the Z grade if the student has officially registered for the course.

### **REPEAT POLICY**

A student, in consultation with the advisor, may repeat a course to improve their GPA, to meet minimum competency requirements or to satisfy graduation requirements. Students only need to repeat a failed course if it is specifically required for graduation. Students may repeat courses for which they have received a grade of C+, C, C-, D+, D, D-, F, W, Z or U.

Courses failed at Millersville must be repeated at Millersville in order to earn course credit and credit toward graduation. Students may not transfer credit for any course taken at another institution that is the equivalent of a course previously taken at Millersville; this policy applies whether the course was passed or failed at Millersville University. Students may repeat courses at Millersville for which they have received transferred credit, but they will forfeit the transfer credit.

Once the course is repeated, the new grade, credits and grade point value replace those earned previously in calculating the cumulative GPA. The earlier grade remains on the student's record even though it is no longer included in the computation of credits or cumulative GPA. In consultation with their advisors, students who find it necessary to repeat a course will be informed of, and expected to use, support services available to them through the Office of Learning Services.

An undergraduate student may not take an undergraduate course of record more than three times. A course of record is defined as a course in which a student receives a grade of A, B, C, D (including + and -), F, U, Z or W. The academic department offering a course may drop a student from a course if the student attempts to take a course more than three times. Undergraduate students will be limited to a maximum total of six repeats during their academic career.

### **GRADE CHANGES**

Students are responsible for reviewing grade reports as soon as they are available and contacting their instructor about any grade in question. Grade changes may be made only by the instructor issuing the grade, with the approval of the department chairperson and the school dean. Please refer to the Other Academic Policies section of the catalog for details.

### **COURSE PREREQUISITES**

Courses may have a series of prerequisites (satisfactory completion of a prior course, minimum GPA or earned credits, placement test scores, etc.). Students who do not meet the stated prerequisite(s) may be removed from a course at the discretion of the professor. The professor will notify the registrar and student by the end of the drop period. The registration system will also remove a course due to the lack of proper prerequisites; review your schedule frequently to check for changes to your schedule.

### **TAKING A LESS ADVANCED COURSE**

Undergraduate students do not receive credit for a less advanced course if they have already demonstrated competency by passing a more advanced course. For example, [MATH100 Survey of Mathematical Ideas](#) and [MATH101 College Algebra](#) may not be taken for credit after [MATH161 Calculus 1](#). Students who wish to review less advanced material may do so on an audit basis.

---

## **UNIVERSITY ACADEMIC HONESTY POLICY**

Students of the University are expected to adhere to Millersville University's values and be honest and forthright in their academic endeavors. To falsify the results of one's research, to steal the words or ideas of another, to cheat on an examination, to allow another person to commit, or assist another in committing an act of academic dishonesty, corrupts the essential process by which knowledge is advanced.

**Actions that Violate the Academic Honesty Policy** - The below lists are for illustration only. They should not be construed as restrictive or as an exhaustive enumeration of the various forms of conduct that constitute violations of the academic honesty policy

### **PLAGIARISM**

Plagiarism is defined as intentionally or unintentionally using ideas, images, words, or data from another source without crediting that source (including online sources). Students are required to accurately acknowledge any ideas, images, words, or data they use from another source by properly citing the source with (1) an in-text citation in the body of the paper and (2) a complete entry in the reference list at the end of the paper. By placing their name on an assignment/paper/project, students certify that, unless properly cited, all work is original. Students will avoid being charged with plagiarism if they properly acknowledge/cite when doing one or all of the following:

1. quoting source's actual words, including words generated by Artificial Intelligence (AI);
2. using another person's ideas, opinions, or theories, including those generated by an AI, even if they are completely paraphrased in their own words;
3. borrowing facts, statistics, or other illustrative materials, including those generated by an AI, unless the information is common knowledge.

These guidelines should be followed for all source types, including books, newspapers, pamphlets, journal articles, websites, AI-generated content, and other online resources. *The above list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various forms of plagiarism that constitute violations of the academic honesty policy.*

### **FABRICATION**

Fabrication is the falsification of research or other findings, or sources. The below list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various forms of fabrication that constitute violations of the academic honesty policy.

1. Citation of information not taken from the source indicated.
2. Listing in a bibliography fabricated sources or sources not actually consulted.
3. Inventing data or other information for research or other academic projects.

### **CHEATING**

Cheating is the act or attempted act of deception by which students try to misrepresent that they have mastered subject matter in an academic project or the attempt to gain an advantage by the use of illegal or illegitimate means. The below list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various forms of cheating that constitute violations of the academic honesty policy.

1. Copying from another student's test or assignment (e.g., paper, project, homework).
2. Allowing another student to copy from their test or assignment.
3. Using the course textbook, or other material such as a notebook, brought to class meetings but unauthorized for use during a test.
4. Collaborating during a test with another person by receiving or providing information without the permission of the instructor.
5. Using or possessing unauthorized materials during a test or assignment (e.g., notes, formula lists, AI chatbots, online test repositories such as Chegg, formulas within calculators or other electronic devices, notes written on student's' clothing or person) that are unauthorized.
6. Unauthorized collaboration with other students on a test or assignment meant to be completed individually.

### **ACADEMIC MISCONDUCT**

Academic misconduct is the violation of University policies by tampering with grades or participating in the distribution of any part of a test before its administration. The below list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various forms of academic misconduct that constitute violations of the academic honesty policy.

1. Stealing, buying, or otherwise obtaining all or part of test or assignment (e.g., paper, project, homework).
2. Selling or giving away all or part of test or assignment, including answers to test.
3. Bribing, or attempting to bribe, any other person to obtain test or assignment, or any information about it.
4. Buying, or otherwise acquiring, another's coursework and submitting it as their own work, whether altered or not.
5. Entering a building, office, computer, or network for the purpose of changing a grade in a grade book, on a test, or another assignment.

6. Changing, altering, or being an accessory to changing and/or altering a grade in a grade book, on a test or assignment on a "Change of Grade" form, or other official academic University record which relates to grades.
7. Entering a building, office, computer, or network for the purpose of obtaining an unadministered test or assignment.
8. Continuing to work on an exam or assignment after the specified allotted time has elapsed.
9. Completing an assignment or taking a test or course for someone else or permitting someone else to do the same in their place.
10. Giving or receiving unauthorized aid in a take-home exam, online exam, or other assignment.
11. Submitting work for a class that was already submitted for another class, when unauthorized, or allowing another student to submit or copy from previously submitted class work.

#### **Actions which may be taken for violations of the Academic Honesty Policy.**

When a faculty member suspects that a violation of the academic honesty policy has occurred, they will meet with students to:

- discuss the alleged act;
- hear any defense students may have;
- discuss any proposed academic sanctions;
- inform students of their rights to appeal faculty-imposed sanctions to the department chair and/or dean of the college

Academic sanctions that may be imposed by the faculty member include:

- verbal reprimands;
- written reprimands;
- requiring the students to redo/resubmit the assignment, test, or project;
- lowering the grade for the assignment, test, or project;
- not accepting the assignment, test, or project which results in a zero on the assessment.

The above list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various sanctions that may be imposed by instructors for violations of the academic honesty policy. Academic sanctions that require a formal charge be filed with the Associate Provost for Academic Administration include:

- any sanction in excess of lowering the grade for or not accepting an assignment, test, or project;
- assigning students a failing grade for the course;
- recommending temporary or permanent suspension from the academic major or University.

Regardless of the level of academic sanction imposed or requested above, faculty members are encouraged to submit a report for each violation of the Academic Honesty Policy to the Associate Provost for Academic Administration. If more than one (1) such report is filed for a student, even in the case of sanctions imposed only by the faculty member, then the Associate Provost for Academic Administration will meet with the student to discuss these occurrences and possibly impose additional academic sanctions.

#### **Confidentiality**

In accordance with the provisions of the Family Educational Rights and Privacy Act of 1974, any information relating to an alleged violation of the University's Student Code of Conduct or to the outcome of a judicial hearing must be treated as strictly confidential by members of the faculty.

[About MU](#)

## **Services For Students**

### **DISABILITY SERVICES**

The Office of Learning Services provides learning support for students with a documented disability. For more information contact the Director of Learning Services: Dr. Sherlynn Bessick, Lyle Hall, 717-871-5554

### **POLICY ON AUXILIARY AIDS**

Millersville University does not discriminate on the basis of disability status in admission or access to its programs and activities. Individuals are encouraged to make the University aware of any permanent or temporary disability. Arrangements will be made to secure auxiliary aids and services, when necessary, to ensure that such students are not denied the benefits of, excluded from participation in, or otherwise subjected to discrimination under programs and/or activities at Millersville University. This policy extends to full-time, part-time and nondegree students, and students enrolled in both credit and noncredit courses.

## STUDENT HOUSING

The University Housing and Conferences Services (UHCS) staff is dedicated to providing a safe and engaging living-learning environment in the residence halls. There are many housing options for you to choose from at the 'Ville. Approximately 2,000 students live in the four residence halls on campus. Rooms are designed "suite style" and include top-rated amenities and safety features. The UHCS staff offers many academic and social engagement opportunities to support you in the key areas of academic performance, self-understanding and community connections.

The Housing Residency Requirement was instituted for the benefit of students. Students who live on campus benefit from the resources that support student success. Additionally, research and experience demonstrate that students who live on campus:

- Develop a greater sense of belonging;
- Find it easier to form friendships;
- Participate more in student organizations;
- Develop stronger connections to faculty;
- Increase their awareness of diversity; and,
- Are more likely to complete a degree within four years.

You'll meet and create relationships with many faculty, staff and students from different backgrounds and cultures, and have the opportunity to learn from them. We attempt to create an environment that is inclusive for all our students on campus. Millersville University believes that an inclusive community is a core value, an essential part of the foundation for the community. Gender-inclusive housing furthers the University's nondiscrimination policy and provides a housing option that may appeal to students who identify as transgender, may be more comfortable living with another sex or gender, or do not wish to prescribe to gender classifications.

**MILLERSVILLE UNIVERSITY RESIDENCY REQUIREMENT:** Students who have not earned 60 credit hours are required to live on campus. On-campus housing is defined as residing in one of the following residence halls: East Village, Shenks Hall, South Village or West Village. Students entered into a housing contract are obligated to the full term of their housing agreement regardless of their credit hours completed and/or class standing, including graduate student status. There are additional terms and conditions which affect this policy.

## UNIVERSITY DINING SERVICES

Millersville operates a comprehensive dining service program for students, faculty, staff, and guests of the University. All students are eligible to participate in the dining program. Students who reside in the University managed residence halls, are required to purchase a Meal Plan. (See Meal Plan – Description and Rates, under Expenses and Financial Aid). All Residence Hall students will automatically be setup with the 19 Ville Plan as a default. Students with 30 credit hours or more will be able to change their meal plan prior to the first day of classes. Off-campus students, including those living in Student Lodging, Millersville, and all commuters may participate in any of our Traditional and Block Meal Plans, which offer exceptional flexibility at various locations throughout the campus. All Dining locations are open to our students and campus community with or without a Meal Plan. University residents and community may dine at the Upper Deck, our "all-you-care-to-eat" dining hall, located in Gordinier Hall. Our retail dining locations are in Gordinier Hall – The Anchor and the Evergreen Café, Student Memorial Center – Galley, Lyle Hall - Cove and Starbucks at the Francine G. McNairy Learning Forum and Library. The Anchor on the first floor of Gordinier Hall features a bakery, showcasing items from our own bake shop, breakfast sandwiches and build-your and grab 'n go and made-to-order selections, fresh fruit and yogurt bar, a convenience store, a creamery, and full range of beverages. Our newest dining opportunity is the popular "Get-Food" app, with pickup available at Starbucks. Descriptions of meal plans and dining hours are available at [www.millersville.edu/dining](http://www.millersville.edu/dining).

For more information, see the section under Expenses and Financial Aid.

## CENTER FOR COUNSELING AND HUMAN DEVELOPMENT

The Center for Counseling and Human Development, located on the third floor of Lyle Hall, is committed to providing quality mental health care to a diverse student body. The Center supports the academic mission of the University by enhancing students' emotional, social, and personal development. Accredited by the International Association of Counseling Services, the Center seeks to engage students in counseling, consultation, and outreach to realize their potential and persist to graduation. Licensed psychologists and counselors help students reach greater self-understanding and enhance their abilities to manage immediate and future concerns. Individual counseling, crisis intervention, educational workshops, group experiences and consultation services are available to all registered Millersville University students. A psychiatrist is also available for medication evaluation and management once a student has been seen by a Center clinician. All services are confidential, professional and at no cost to students.

---

## HEALTH SERVICES

Health Services, located in the Witmer Building, provides medical care to all registered students. They have a professional staff of physicians, nurse practitioner, and registered nurses. There is no charge to be evaluated by a provider for acute illnesses or injuries. Most treatments and over-the-counter medications are free. They have a dispensary in house which has common antibiotics that can be prescribed to the students for a small fee. Services provided include treatment for minor illness and injuries, monitoring and management of chronic health conditions, sexual health, physical examinations, TB testing, and immunizations (including FREE influenza vaccines), in-house laboratory testing, and medical procedures such as EKGs, wound care, and laceration repair. Students who do not need to be seen can obtain over-the-counter medications and supplies from the Self Care Cart, located in the reception area. A health evaluation form which includes medical history, physical exam, and immunization records are required to be submitted by all students. Refer to the Health Services website, [www.millersville.edu/healthservices](http://www.millersville.edu/healthservices) for forms and further information. Appointments are available by calling 717-871-5250.

---

## CENTER FOR HEALTH EDUCATION AND PROMOTION

The Elsie S. Shenk Center for Health Education and Promotion (CHEP), located in the Witmer House, contributes to fulfilling the educational mission of Millersville University by empowering students to make informed decisions and develop lifelong skills that enhance their personal well-being. CHEP contributes to the health, academic success, and retention of students by providing current and relevant information about high-risk behaviors; raising awareness about personal decision making and the impact decisions have on an individual and their community; and engaging students in meaningful opportunities to create a healthy community where all students can achieve their personal and academic goals.

CHEP features a diverse group of trained peer educators who provide lifestyle education programs, awareness events, and outreach on topics including alcohol and other drugs, mental health, sexual responsibility/healthy relationships, stress, and sexual violence. In addition to educational programs, CHEP hosts a wellness fair each fall and spring semesters on campus to connect students with resources and information on health, well-being and wellness. College student health campaigns are designed and implemented based on data collected from Millersville students to promote healthy decision making.

Wellness Coaching is a free service provided through CHEP to students. Wellness Coaching is an individualized process for helping students achieve a higher level of well-being and performance in their academic pursuits as well as life in general when change is desired, yet difficult to achieve. It empowers students to explore health topics of stress, sleep, social support, and substance use. Students can schedule appointments by emailing [wellness.coaching@millersville.edu](mailto:wellness.coaching@millersville.edu).

CHEP has community partnerships with various Lancaster community organizations to provide students with free resources and services. Sexual assault advocacy services are provided by the YWCA Lancaster in the Cumberland House. Relationship violence advocacy services are provided by Domestic Violence Services of Lancaster. Additional information can be found on the website [www.millersville.edu/chep](http://www.millersville.edu/chep)

---

## STUDENT CONDUCT AND COMMUNITY STANDARDS

The Office of Student Conduct and Community Standards (SCCS) fosters student learning and success by balancing individual and community rights, while promoting a safe, student-centered, and inclusive community. The SCCS administers and provides education on the Student Conduct & Community Standards Handbook, advocates for students' rights, and upholds the community standards and values of Millersville University. The office educates students about the expectations of the Millersville University community and assists them in their development. Through the discipline process, the SCCS challenges students to think ethically and critically about their decision making and role within the campus community. The SCCS teaches accountability and responsible citizenship so every student will thrive within Millersville University's diverse and dynamic academic community. SCCS works to ensure all Millersville University students have an exceptional, productive, and challenging educational experience in a safe and civil environment.

---

## STUDENT ACCESS AND SUPPORT SERVICES

Millersville University provides diverse, dynamic, meaningful experiences to inspire learners to grow both intellectually and personally to enable them to contribute positively to local and global communities. The Office of Student Access and Support Services (SASS) is a home base for students and families that provides individual support through academic and personal coaching with a holistic approach.

SASS oversees academic support services for the Milton Hershey School Program, Trio Program, and the PASSHE Gear-Up Program. Our programs use the best practices and essential resources to provide excellent academic support to help students realize their full potential. Our students have the opportunity to benefit from:

- Tutoring Services
- Peer Mentoring
- Common Structured Study Hours
- Intensive Outreach and Interpersonal Support
- Individual and Group Meetings
- Four-year Academic Plan for Success
- Monthly Library Learning Workshops
- Wellness Wednesday and Diversity Workshops
- Midway Motivation Package
- First Gems Organization
- Community Service
- Graduate Assistant Opportunities
- Parent/Student Meeting at McCaskey HS
- Financial Literacy Workshops each semester
- Honor Roll and Dean's List recognition
- Tri-Alpha Honor Society Ceremony

The Milton Hershey partnership exists as a bridge between the high school college counselor and the SASS office. This partnership helps students transition to Millersville University by combining support from both the high school and the college environment. Students are provided an outreach counselor from SASS while continuing to meet with their high school college counselor to ensure student success and scholarship.

The First-Generation program provides support for all first-generation staff, faculty, undergraduate, graduate and alumni at Millersville University. The program encompasses a first-generation yearly celebration, Tri Alpha (first generation honor society), and First Gems of the Ville (student organization).

Our programs encourage students to question, alter, inspect and challenge their experience for the purpose of constructive self-actualization. Incoming first year students will go through a process that allows them to introspect and retool with purpose, key skills and a positive attitude towards scholarship. Students who use our services make the necessary changes to be successful at Millersville University.

---

## CAMPUS LIFE

Millersville University believes that the lifelong benefits of a college education are not derived solely from the classroom. Therefore, one of the University's priorities is to develop the full potential of its students and in doing so enhance the quality of their lives. To achieve this goal, Millersville University offers a wide variety of co-curricular activities, as being involved and engaged in campus life provides students the opportunity to build connections with fellow students, faculty, staff and administrators, and plays a critical role in one's own personal and professional development. The Department of Campus Life champions an inclusive and engaging community on campus through programs and activities that foster social belonging, personal leadership development, and campus pride. Students can find ways to get involved in areas such as: Campus Activities, Fraternity and Sorority Life, Leadership Programs, Mascot Team, Commuter and Off-Campus support and Student Organizations.

With more than 180 student organizations, students at Millersville University can find many opportunities that align with their personal and professional interests. If a student's interests are not represented in an existing organization, a new club may be established by following the procedures set forth by the Student Government Association.

Student organizations are open to all enrolled Millersville University students and divided into several general-interest categories: academic, arts and culture, fraternity and sorority life, identity-based, service and civic engagement, sports and leisure, and spirituality.

The first step to getting involved on campus is to activate your Get Involved account by logging into [getinvolved.millersville.edu](http://getinvolved.millersville.edu) using your Millersville username and password. Once activated, you can browse the listing of student organizations, see current events and programs happening on campus, and stay connected to the campus you now call home.

For questions about getting involved on campus, visit the Department of Campus Life, located in the Student Memorial Center, suite 118, or visit [www.millersville.edu/campuslife/](http://www.millersville.edu/campuslife/).

---

## EDUCATIONAL AND POPULAR PROGRAMMING

A wide range of programming is provided for students by the University Activities Board (UAB). Allocated by the Student Government Association, UAB is a student-run organization divided into committees, with each committee responsible for programming in their specific area (traditions, entertainment, recreation and leisure, late night and travel).

### STUDENT GOVERNMENT ASSOCIATION

To foster an atmosphere of open communication within the University, Millersville offers a number of avenues for student participation in University governance. Consultation with students is an integral step in any major decision. The aim of the Student Government Association is to encourage students to participate in sound governmental procedures and develop innovative and creative University programs.

Students participate in University governance through the Student Government Association and Faculty Senate committees such as the Undergraduate Course and Program Review Committee, and the Academic Policies Committee. As the governmental body of the students, the Student Government Association is an integral component in the governance of the University and works with the faculty, staff, and administration on major University policies. The Student Government Association approves the constitution of every campus organization, delegates responsibility to its constituent groups, recommends the allocation of activity fee funds and makes emergency allocations to recognized University organizations when necessary. These decisions are subject to approval by the University president.

### STUDENT COMMUNICATIONS MEDIA

The Snapper, MUTV 99 and WIXQ-FM are the official student communications media of Millersville University.

The Snapper is the University's student-run newspaper, published weekly during the academic year. For many years the paper has won the highest awards given by major press associations.

MUTV 99, the student-operated campus cable TV station, provides the University with 24/7 programming throughout the school year.

WIXQ-FM, the campus radio station, provides the University and local community with educational programming, news, sports, talk shows and music. The station adheres to all Federal Communications Commission regulations and is student operated.

### FAITH AND SPIRITUALITY

Millersville University has students from many different backgrounds and faith traditions. We offer a welcoming environment for students to practice or explore these faiths in an open-minded setting while promoting appreciation and respect for religious and spiritual diversity.

Student Organizations offer faith and spirituality programs and services, including Athletes Bible Fellowship, Bible Campus Ministries, College Bible Fellowship, Fellowship of Christian Athletes, Hillel, John Newman Association (Roman Catholic), Navigators, Orthodox Christian Fellowship, Reformed University Fellowship, United Campus Ministry, University Christian Fellowship, and Young Life.

The Inter-Faith Council of Ministers is made up of campus ministers who serve the University community by providing faith-based counsel, assisting during times of crisis, and participating in faith and spirituality events throughout campus.

Millersville-area churches welcome students to their services and often sponsor programming specifically for students. Students who do not find a place of worship in Millersville will find many options available in the nearby city of Lancaster. Three synagogues in Lancaster represent the Reform, Conservative and Orthodox branches of Judaism. Seven Muslim mosques are located in the Harrisburg area; a Buddhist association is in Columbia; and a Hindu temple is in New Cumberland.

---

## VETERANS RESOURCE CENTER

Designated a Military Friendly® Bronze Designation campus, Millersville University proudly serves and supports our student veterans and their dependents. The Veterans Resource Center (VRC), located on the north side of campus in the Mercer House, strives to provide the support and assistance necessary for students to achieve academic success while fostering camaraderie and engagement. The VRC is staffed by student veterans who through their shared experiences endeavor to maintain a dynamic, effective welcoming center that is responsive to the needs of our student veteran community.

---

## SERVICES FOR COMMUTERS

Commuting students are an integral part of the University community and are encouraged to take advantage of the many opportunities to get involved on campus. Commuter student support provided by the Department of Campus Life, engages commuter students throughout the academic year through various programs and events. Millersville has over 180 student organizations that meet throughout weekdays and on weekends, which makes it easy for commuters to become engaged during a time that works best for them. A complete listing of student organizations can be found at [getinvolved.millersville.edu](http://getinvolved.millersville.edu). The Club De'Ville, located on the lower level of the Student Memorial Center, is a space designed for students to relax. The lounge area is equipped with comfortable seating, a video gaming area, arcade games and grab-and-go food.

### BUS SERVICE

Millersville University coordinates bus service for students, faculty and staff for traveling throughout the campus and surrounding apartment complexes and a bus route to downtown Lancaster. Schedules are available in the Student Memorial Center, at the Student Information Desk, located just inside the main entrance. The schedule plus additional information can be found at [www.millersville.edu/shuttlebus](http://www.millersville.edu/shuttlebus).

---

## DR. RITA SMITH WADE-EL INTERCULTURAL CENTER

The Dr. Rita Smith Wade-El Intercultural Center, also known as Intercultural Center or ICSE, is a student-centered resource that is dedicated to creating and sustaining a campus culture that aligns with the University's commitment to diversity, equity and inclusion, and its EPPIIC Values. The Intercultural Center aims to provide students with opportunities to explore their multiple identities and learn about the background and experiences of others. Together, the hope is to create a culture of inclusion, equity and a sense of belonging here on campus and beyond.

The Intercultural Center promotes the importance of a sense of belonging and centers marginalized populations/identities in its programming efforts. ICSE engages students in the development of knowledge, awareness and skills around cultural competence, social justice and advocacy for marginalized populations.

ICSE also works to support identity-based/multicultural student organizations. For more information about these organizations and how to get involved, visit [getinvolved.millersville.edu](http://getinvolved.millersville.edu).

The Intercultural Center is located in the Student Memorial Center (SMC), Room 110/111. A resource room with a robust library is available. For more information about programs and services provided by the Intercultural Center, visit [www.millersville.edu/icse](http://www.millersville.edu/icse) and follow @mu\_interculturalcenter on Instagram.

---

## CAMPUS RECREATION

All students are encouraged to participate in Intramural Sports, which are planned and administered with considerable student input. Activities include basketball, flag football, indoor and outdoor soccer, softball, ultimate, volleyball, floor hockey, dodgeball, badminton, tennis, table tennis, field hockey and eSports. The Campus Recreation Department also offers special event programs like Rec the Quad, Iron Chef, NFL and NCAA watch parties. The Intramural Department has a number of student employment options available. Go to [IMLeagues.com](http://IMLeagues.com) for more information.

### CLUB SPORTS

Club sports are student organizations that offer organized, non-varsity competition and recreational activities. Club sports currently active on campus include baseball, basketball, bowling, equestrian, fencing, Division 2 and Division 3 ice hockey, mixed martial arts, men's lacrosse, men's and women's rugby, men's and women's volleyball, MU Dance, running, ultimate frisbee, and women's soccer.

### ROPES COURSE

Millersville University offers an outdoor ropes course experience with over 30 different elements. Activities are designed for team building or adventure-based activities.

### REC CENTER

Facility within the Student Memorial Center that contains:

- Various fitness equipment
- Indoor track
- Three-court field house
- Multi-activities court - The multi-activities court (MAC) is an enclosed court featuring basketball hoops, nets for indoor soccer and roller hockey. The enclosed structure makes it the perfect location to host intramural dodgeball, indoor soccer and floor hockey leagues.
- Two racquetball courts – one of which has been converted into a mixed martial arts room
- Functional training room – unique space full of the latest and greatest functional training equipment, including a sled, plyo boxes, TRX, and more!
- Dance studio
- Meditation and Mindfulness Room

---

## STUDENT MEMORIAL CENTER

The Student Memorial Center (SMC) is often viewed as the living room of Millersville's Campus and fosters community, engagement, and Marauder pride. The SMC has six furnished conference rooms and a large multipurpose room to support engagement and student success on campus and are used for weekly meetings, concerts, lectures, and other special events. Reservations for conference rooms and the multipurpose room can be made online via Ad Astra. The SMC houses the following departments:

- Department of Campus Life
- Dr. Rita Smith Wade-El Intercultural Center
- Student Services Inc. Business Office
- The Galley Food Court
- Ticket Office
- IT Technical Operations
- PSECU Financial Education Center
- SMC Rec Center
- University Store

- Student Affairs Suite

---

## INFORMATION TECHNOLOGY

Information Technology provides a wide variety of services for faculty, staff and students that enhance the processes of research, instruction and learning. These services include training materials relating to software products, maintenance and support for classroom technology, documentation and how-to instructional materials, assistance in statistical analysis of data, and advice on purchasing decisions.

Over a dozen general-purpose and specialized computer laboratories located throughout the campus, and housing more than 475 computers, provide students with convenient access to the University network, email and the internet. These labs are multimedia-capable and may be used by faculty as technology classrooms to enhance students' learning experiences. The labs are available during daytime and evening hours.

Millersville University has a robust, high-speed, campus-wide network that connects all major buildings and residence halls to campus network services and the internet. Every Millersville student automatically gets a myVille account and an email account upon admission to the University. myVille is the student portal to the University's computing and networking systems—the student access point to Millersville University's online services. Residence hall students must have valid myVille accounts to access the internet from their residence hall rooms. This is also true for all students using computers in the various computer labs around campus. Network and internet usage are governed by the Millersville University Policy for Responsible Use of Electronic Resources.

Wireless access to the internet is available throughout the campus.

Assistance for any type of technology question is provided by the Technology Assistance Center (TAC). The TAC, located in the Boyer Building, provides telephone support for hardware and software questions, as well as walk-in support for faculty, staff and students. Visit the Information Technology web page, [www.millersville.edu/infotech](http://www.millersville.edu/infotech), for the TAC's available hours.

For complete details about the Information Technology staff, services provided, equipment in labs and much more, visit the Information Technology web page, [www.millersville.edu/infotech](http://www.millersville.edu/infotech), or phone (717) 871-7777.

---

## STUDENT POLICIES

Students are expected to familiarize themselves with and abide by all student conduct regulations found in this catalog and other University publications, including the Student Code of Conduct, the Living on Campus Handbook and the Student Handbook. Please refer to the Student Handbook for information on student discrimination grievance procedures, sexual-harassment policy, and policy on sales and vendors.

### IDENTIFICATION CARD

Enrolled students are required to have a Millersville University identification card. The card is needed for facility access and for the use of many campus services and activities.

Identification cards may be obtained at the campus I.D. office in the lobby of the Boyer Building. There is no charge for the first card, and the current fee for replacement is posted in the campus I.D. office.

Office hours are Monday through Friday, 8 a.m. to 4 p.m. Extended hours for the beginning of fall and spring semesters are posted at the I.D. office.

### MOTOR VEHICLES

All vehicles parked on the properties of Millersville University must display a valid University-issued parking permit. Permits may be secured at the University Police Parking Division, located at Lebanon House (237 N. George St., rear lower level).

Violations of University parking regulations may result in parking violation tickets and possible disciplinary action, including cancellation of parking privileges, the withholding of grades and the denial of registration privileges. Parking sections of the Pennsylvania Vehicle Code (Title 75) are also enforced on the properties of Millersville University.

The Parking Division will utilize a waiting list in the event resident student parking reaches capacity for students who live in University residence halls. Office hours are Monday through Friday from 8 a.m.-4:30 p.m. Hours are extended at the beginning of the fall and spring semesters and are posted at the University Police Department.

## PRIVACY OF STUDENT RECORDS

The Family Educational Rights and Privacy Act of 1974 was amended in December 2008 by the U.S. Department of Education. It gives students the right to review their academic records, to challenge their contents and to protect their confidentiality. Basic directory information may be disclosed without prior consent of the student. In the event of an alcohol-related incident or a health/safety emergency, parents may be considered appropriate parties to whom a nonconsensual disclosure may be made.

Millersville's policy on the confidentiality of student records is available from the Vice President for Student Affairs and Enrollment Management. Directory information is used to report student achievements in academic, athletic and extracurricular activities through appropriate media. Students may request that such information not be released by filing a written request during the first two weeks of each semester with the Office of the Registrar, Lyle Hall.

Annual notification of the University's policy on confidentiality of student records is also posted on the registrar's website.

Students may file complaints about the contents of their records or alleged wrongful disclosures of information with the Vice President for Student Affairs and Enrollment Management.

## SMOKING

Smoking is prohibited inside all campus buildings.

---

## ACADEMIC HONESTY POLICY

Students of the University are expected to adhere to Millersville University's values and be honest and forthright in their academic endeavors. To falsify the results of one's research, to steal the words or ideas of another, to cheat on an examination, to allow another person to commit, or assist another in committing an act of academic dishonesty, corrupts the essential process by which knowledge is advanced.

### ACTIONS THAT VIOLATE THE ACADEMIC HONESTY POLICY

The below lists are for illustration only. They should not be construed as restrictive or exhaustive enumeration of the various forms of conduct that constitute violation of the academic honesty policy.

#### PLAGIARISM

Plagiarism is defined as intentionally or unintentionally using ideas, images, words, or data from another source without crediting that source (including online sources). Students are required to accurately acknowledge any ideas, images, words, or data they use from another source by properly citing the source with (1) an in-text citation in the body of the paper and (2) a complete entry in the reference list at the end of the paper. By placing their name on an assignment/paper/project, students certify that, unless properly cited, all work is original. Students will avoid being charged with plagiarism if they properly acknowledge/cite when doing one or all of the following:

1. quoting source's actual words, including words generated by Artificial Intelligence (AI);
2. using another person's ideas, opinions, or theories, including those generated by an AI, even if they are completely paraphrased in their own words;
3. borrowing facts, statistics, or other illustrative materials, including those generated by an AI, unless the information is common knowledge.

These guidelines should be followed for all source types, including books, newspapers, pamphlets, journal articles, websites, AI-generated content, and other online resources. *The above list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various forms of plagiarism that constitute violations of the academic honesty policy.*

#### FABRICATION

Fabrication is the falsification of research or other findings, or sources. The below list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various forms of fabrication that constitute violations of the academic honesty policy.

1. Citation of information not taken from the source indicated.
2. Listing in a bibliography sources not actually consulted.
3. Inventing data or other information for research or other academic projects.

## **CHEATING**

Cheating is the act or attempted act of deception by which an individual tries to misrepresent that they have mastered subject matter in an academic project, or the attempt to gain an advantage by the use of illegal or illegitimate means. The below list is for illustration only. It should not be construed as restrictive or exhaustive enumeration of the various forms of conduct that constitute violation of the academic honesty policy.

1. Copying from another student's test or assignment (e.g., paper, project, homework).
2. Allowing another student to copy from their test or assignment.
3. Using the course textbook, or other material such as a notebook, brought to class meetings but unauthorized for use during a test.
4. Collaborating during a test with another person by receiving or providing information without the permission of the instructor.
5. Using or possessing unauthorized materials during a test or assignment (e.g., notes, formula lists, AI chatbots, online test repositories such as Chegg, formulas within calculators or other electronic devices, notes written on student's clothing or person) that are unauthorized.
6. Unauthorized collaboration with other students on a test or assignment meant to be completed individually.

## **ACADEMIC MISCONDUCT**

Academic misconduct is the violation of University policies by tampering with grades or participating in the distribution of any part of a test before its administration. The below list is for illustration only. It should not be construed as restrictive or exhaustive enumeration of the various forms of conduct that constitute violation of the academic honesty policy.

1. Stealing, buying, or otherwise obtaining all or part of test or assignment (e.g., paper, project, homework).
2. Selling or giving away all or part of test or assignment, including answers to test.
3. Bribing, or attempting to bribe, any other person to obtain test or assignment, or any information about it.
4. Buying, or otherwise acquiring, another's coursework and submitting it as their own work, whether altered or not.
5. Entering a building, office, computer, or network for the purpose of changing a grade in a grade book, on a test, or another assignment.
6. Changing, altering, or being an accessory to changing and/or altering a grade in a grade book, on a test or assignment on a "Change of Grade" form, or other official academic University record which relates to grades.
7. Entering a building, office, computer, or network for the purpose of obtaining an unadministered test or assignment.
8. Continuing to work on an exam or assignment after the specified allotted time has elapsed.
9. Completing an assignment or taking a test or course for someone else or permitting someone else to do the same in their place.
10. Giving or receiving unauthorized aid in a take-home exam, online exam, or other assignment.
11. Submitting work for a class that was already submitted for another class, when unauthorized, or allowing another student to submit or copy from previously submitted class work.

## **ACTIONS WHICH MAY BE TAKEN FOR VIOLATION OF THE ACADEMIC HONESTY POLICY**

When a faculty member suspects that a violation of the academic honesty policy has occurred, they will meet with students to:

- discuss the alleged act;
- hear any defense students may have;
- discuss any proposed academic sanctions;
- inform students of their rights to appeal faculty-imposed sanctions to the department chair and/or dean of the college

Academic sanctions that may be imposed by the faculty member include:

- verbal reprimands;
- written reprimands;
- requiring the students to redo/resubmit the assignment, test, or project;
- lowering the grade for the assignment, test, or project;
- not accepting the assignment, test, or project which results in a zero on the assessment.

The above list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various sanctions that may be imposed by instructors for violations of the academic honesty policy. Academic sanctions that require a formal charge be filed with the Associate Provost for Academic Administration include:

- any sanction in excess of lowering the grade for or not accepting an assignment, test, or project;
- assigning students a failing grade for the course;
- recommending temporary or permanent suspension from the academic major or University.

Regardless of the level of academic sanction imposed or requested above, faculty members are encouraged to submit a report for each violation of the Academic Honesty Policy to the Associate Provost for Academic Administration. If more than one (1) such report is filed for a student, even in the case of sanctions imposed only by the faculty member, then the Associate Provost for Academic Administration will meet with the student to discuss these occurrences and possibly impose additional academic sanctions.

**Confidentiality**

In accordance with the provisions of the Family Educational Rights and Privacy Act of 1974, any information relating to an alleged violation of the University's Student Code of Conduct or to the outcome of a judicial hearing must be treated as strictly confidential by members of the faculty.

[About MU](#)

# Expenses & Financial Aid

## Overview of Expenses and Financial Aid

As a state-owned university, Millersville University provides educational opportunities that surpass those available at many more costly institutions.

Students may qualify for a number of scholarship opportunities to explore available scholarships please visit the [Office of Financial Aid's guide to scholarship resources](#).

The table below and other information in this section present the most recent approved costs for the academic year. Tuition and fees are subject to change at any time.

### UNDERGRADUATE COSTS

EXPENSE	RESIDENTS OF PENNSYLVANIA	NONRESIDENTS OF PENNSYLVANIA
Tuition <sup>1</sup>	\$7,716	\$19,290
General Fee <sup>1</sup>	\$2,934	\$2,934
Technology Fee <sup>1</sup>	\$478	\$728
Room & Meals <sup>2</sup>	\$13,750	\$13,750
Estimated Books & Supplies <sup>3</sup>	\$1,000	\$1,000
Estimated Personal Expenses <sup>3</sup>	\$2,600	\$2,600
Estimated Travel Costs <sup>3</sup>	\$800	\$800

<sup>1</sup> Tuition and fee costs are based on full-time enrollment.

<sup>2</sup> Your actual charges may vary based on your room assignment and meal plan.

<sup>3</sup> Costs not billed directly by the University but that a student may incur.

## GRADUATE COSTS

PER CREDIT EXPENSE	RESIDENTS OF PENNSYLVANIA	NONRESIDENTS OF PENNSYLVANIA
Tuition - Graduate Standard	516.00	774.00
Tuition - Doctoral (DNP)	568.00	851.00
Tuition - Doctoral (EDD/DSW)	671.00	1006.00
General Fee	119.25*	119.25*
Technology Fee	28.00	40.00
Doctoral Fee	115.00	115.00

\*The maximum amount of General Fee charged for a graduate level student taking 12 or more credits is \$1,431.00.

## PAYMENT OF TUITION AND FEES

Students enrolling for classes during the early registration period are not required to pay immediately. Electronic semester bills are forwarded four to six weeks before the beginning of each semester. Full payment is due, by the due date on the e-bill.

Student account balances by term are available within the Student Account Manager platform (SAM). Students enrolling after all initial billing dates have passed are expected to make payment immediately upon registration. Students are considered officially enrolled, able to earn credits, receive grades and graduate when all charges are paid in full and they have confirmed attendance. Students who register are responsible to drop any class they do not plan to attend. Failure to drop the class before the semester begins may result in charges and/or grades being posted to your records. Do not rely on the “drop for nonpayment” policy to remove classes.

Information about fees, payments and important billing dates can be found at [www.millersville.edu/osa](http://www.millersville.edu/osa) or at the Office of Student Accounts, Lyle Hall.

## PAYMENT PLAN

Millersville University offers a variety of installment plans to meet the needs of students and families. These installment plans are only available in the Fall and Spring semesters.

Options are presented within the Student Account Manager (SAM) starting on the initial billing day. Plan options change throughout the billing cycle. There is a \$30 enrollment fee charged per term.

Auto-pay is required. A \$25 late fee will be assessed to any account with an unsuccessful installment.

More information regarding payment plans is available at [www.millersville.edu/osa](http://www.millersville.edu/osa) or at the Office of Student Accounts, Lyle Hall.

## TUITION

Tuition charges are set in April by the Board of Governors of Pennsylvania’s State System of Higher Education.

**Tuition for Residents of Pennsylvania.** Full-time in-state undergraduates pay \$322 per credit hour. All undergraduates pay \$322 per credit hour during winter and summer sessions.

**Tuition for Nonresidents of Pennsylvania.** Full-time undergraduates pay \$9,6451 per semester for 12 to 18 credit hours plus \$8,051 per credit hour over 18. Part-time undergraduates enrolled for fewer than 12 credit hours pay \$8,051 per credit hour. All undergraduates pay \$8051 per credit hour during winter and summer sessions.

<sup>1</sup> 2024-2025 rates will change. For up-to-date fee information, please refer to the Office of Student Accounts website at [millersville.edu/osa](http://millersville.edu/osa).

**Tuition for International Students.** International students are charged nonresident tuition and fees, or the costs associated with their program of enrollment. A \$100 International Student Fee is also assessed. Additional information regarding specific programs can be found at [www.millersville.edu/internationalprograms](http://www.millersville.edu/internationalprograms) or at the Office of International Programs and Services, Lyle Hall.

**Residency Status.** In order to qualify for Pennsylvania resident tuition, students must meet State System of Higher Education criteria as summarized below:

1. Continuous residence in Pennsylvania for 12 months prior to registration.

2. U.S. citizenship, formal declaration of intent to become a citizen or admission to the United States on an immigrant visa. A nonimmigrant visa (tourist or student visa) is not proof of intent of residency.
3. Pennsylvania residency by parent(s) or guardian(s) of students who are minors. The age of majority in Pennsylvania for establishing an independent residence for tuition purposes is 22. A minor may, however, prove financial emancipation and independence through clear and convincing evidence.
4. A United States government employee or a member of the armed forces who was residing in Pennsylvania immediately prior to entering the government service and who has continuously maintained Pennsylvania as his or her legal residence is considered a Pennsylvania resident. Others in military service stationed in Pennsylvania are considered Pennsylvania residents.
5. A student receiving a scholarship or grant dependent on residence in a state other than Pennsylvania is not considered a Pennsylvania resident.

A student who changes his or her residence from Pennsylvania to another state must give prompt written notice to the University. The University may reclassify a student if it believes he or she is no longer a Pennsylvania resident. Students may challenge residency classifications by making written petitions to the Office of Student Accounts, Lyle Hall. To obtain the request form, go to the Student Accounts homepage at [www.millersville.edu/osa](http://www.millersville.edu/osa) and click on "Residency."

**Refunds.** Refunds will be made according to current University and State System of Higher Education policies. Students who reduce their credit hour

load after the end of the drop/add period so as to qualify for billing as part-time students shall not be eligible for a refund of the amount billed which exceeds the part-time rate. After the drop/add period, refunds shall be made only for full-semester withdrawal.

After the end of the drop/add period, there will be no partial refunds for full-time students who reduce their credit-hour load below full-time status, or for part-time students who reduce their credit load. After the drop/add period, refunds of tuition and the general fee will only be considered for students who officially withdraw from the University or, in the case of eligible undergraduates, take an official leave of absence.

The technology fee is nonrefundable after the drop/add period, and the refund of tuition and general fee for total withdrawal will be based on the following schedule for the fall and spring semesters.

TIME PERIOD	REFUND
Through "drop/add period"	100%
Second Week	80%
Third Week	60%
Fourth Week	50%
Fifth Week	40%
After fifth week	No refund

**Note:** Refunds for first-time students receiving financial aid under Title IV are made according to Public Law 102-135, Section 484B of the Higher Education Amendments. Financial Aid may be adjusted based on the withdrawal date.

Summer session, second summer session, third summer session and winter session are each considered to be separate terms and are treated as such for refund purposes. See the appropriate session course listing for the applicable refund schedule on the University website, [www.millersville.edu/osa](http://www.millersville.edu/osa). Rates and refund amounts are subject to change.

## GENERAL FEE

The general fee is a mandatory fee used to support a variety of ongoing student services and activities, such as student senate, student organizations, health services and wellness programs, Student Memorial Center debt service, expansion, capital replacement and maintenance.

The fee is charged to all students (full-time and part-time, residential and commuting/off-campus) during all University sessions (including first summer session, second summer session, third summer session and winter session) and at all course locations (including University Center in Harrisburg and other off-campus sites).

The 2024-2025<sup>1</sup> fee was \$1,467 per semester for full-time undergraduate students and \$122.25 per credit hour for part-time undergraduate students.

<sup>1</sup> Rates subject to change for future academic years.

TECHNOLOGY FEE

The technology fee is a mandatory fee collected to support instructional technology.

The 2024-2025<sup>1</sup> fee is \$239 per semester for full-time Pennsylvania residents, and \$364 per semester for full-time nonresidents. Part-time Pennsylvania residents pay \$20 per credit; part-time nonresidents pay \$30 per credit.

<sup>1</sup> Rates subject to change for future academic years.

**Refunds.** The policies and schedule for tuition refunds also apply to the general fee. The technology fee is nonrefundable after the drop/add period.

HOUSING FEES

Millersville has on-campus suite-style residence halls offering a variety of housing options for fall and spring semesters. Please visit our website at [www.millersville.edu/housing](http://www.millersville.edu/housing) for room layouts and dimensions as well as video tours.

2024-2025 ROOM RATES PER SEMESTER

EAST, SOUTH, AND WEST VILLAGES

ROOM	SEMESTER PRICE
Single Sweet	\$4555
Double Suite	\$4040
Full Suite (South Only)	\$4555
Marauder Suite (Pods)	\$4525

SHENKS HALL

ROOM	SEMESTER PRICE
A Suite	\$4466
B Suite - Double	\$4108
B Suite - Single	\$4466
C Suite	\$3894

**Housing Refund Policy.** Housing charges will only be refunded for students who **completely withdraw** from the University and **properly check out** of the residence hall. The housing refund effective date will correspond with the date the student officially checks out of the residence hall. The student must coordinate the official checkout with their respective Residential Area Director (RAD)/Residential Area Coordinator. Refer to Section IX: Residence Hall in the online Living On Campus Guide for more information. The refund tables can be found by going to <https://www.millersville.edu/osa/refund.php>.

MEAL PLAN - DESCRIPTION AND RATES

**Residential Students** - The 2024-2025 housing and meal rate is estimated to be \$6,415 per semester with a Traditional Ville 19 Meal Plan of \$2,375

per semester depending on housing and dining choices. All first-year residential students are required to have a Traditional Ville 19 Meal Plan during each semester (fall semester and spring semester) for an academic year total of approximately \$4,750. Each residential student (first-year, transfer and upper-class) is automatically enrolled in the Traditional Ville 19 Meal Plan. Students with greater than 30 credit hours, including transfer and upper-class students, may change their Traditional Ville 19 Meal Plan to the Traditional Ville 14 (\$2,200), or 150 Block (\$2,035) no later than the Friday prior to the first day of classes each semester. A Traditional weekly Meal Plan is the number of meals per week. The Traditional Ville 19 and 14 Meal Plans begin Monday morning and end Sunday night. Block Meal Plans are the number of meals swipes per semester.

**Commuter Students (non-Millersville University Resident Students)** – All commuter students may sign up for any of the Meal Plans for the fall and spring semesters. Commuter students who are Meal Plan members during the fall semester are not automatically signed up for a spring semester Meal Plan. Commuter students may become a 90, 60, or 45 Block Meal Plan member at any time during the fall or spring semester.

Each of the Traditional and Block Meal Plans include a set amount of Flex Dollars for each semester. Students are responsible for managing their weekly and semester meals and Flex Dollars. The use of a Traditional or Block Meal at our Resident Dining Hall, the Upper Deck or any of our Retail Dining locations is considered a Meal Swipe. A Meal Swipe at the Upper Deck provides access to the “all-you-care-to-eat” dining room. The use of a Traditional or Block Meal Swipe at our on-campus retail locations is limited to a variety of meal items listed on a meal column chart. Any add-ons and/or upgrades may be paid using Flex Dollars. As a reference point for the use of Flex Dollars, there are approximately 15 academic weeks each semester. An average weekly Flex Dollar expenditure is simply calculated by dividing the amount of Flex Dollars affiliate with each respective Meal Plan by 15. Parents and students may add Flex Dollars at any time during the semester via our “Get Funds App”. Flex Dollars roll over from the Fall Semester to the Spring Semester. Commuter students, who choose not to sign up for an additional Meal Plan during the Spring Semester, may use any unused Flex Dollars from the fall semester provided they are enrolled for classes. Any unused Flex Dollars at the end of the Spring Semester are forfeited. The only exception is a student who is enrolled in Summer Session 1 classes, they may use any remaining Flex Dollars. All remaining Flex Dollars after the fourth Friday of Summer Session 1 are then forfeited.

**Summer Session III** – Enrolled students living in Residence Halls are required to have Block Plan for Summer Session III. Students may choose between the 90 Block Plan with \$150 flex dollars or the 60 Block Plan with \$150 flex dollars. Each resident student will automatically be enrolled in the 60 Block Plan. Students may change to the 90 Block no later than the Friday prior to the first day of classes for Summer Session III. Any Flex Dollars left after Summer Session III are rolled over to the Fall semester provided the student is enrolled for classes during the fall semester.

Students living off campus are welcome and invited to become Meal Plan members. All students are welcome to dine at the Upper Deck in Gordinier Hall and all Retail Dining Locations on campus. Off-campus students may sign up for a Meal Plan at any time. Students who sign up prior to the beginning of a semester, who wish to cancel or change their Meal Plan choice must do so by the Friday prior to the first day of classes semester. Students who sign up for a Meal Plan after the first day of classes looking to change or cancel their meal plan choice should reach out to Heather Keck at 717-871-5651.

2024-2025 UNIVERSITY DINING MEAL PLAN RATES SUMMARY

RESIDENT TRADITIONAL PLANS

PLAN	COST
Ville 19 - 19 Meal swipes per week w/ \$100 Flex <sup>1</sup>	\$2,375.00
Ville 14 - 14 Meal swipes per week w/ \$100 Flex <sup>2</sup>	\$2,200.00

<sup>1</sup> 0-29 Credits

<sup>2</sup> 30 Credits or More

RESIDENT BLOCK PLANS

PLAN	COST
150 Block - 150 Meal swipes per semester w/ \$300 Flex	\$2,035.00

COMMUTER PLANS (ACADEMIC YEAR & SUMMER OPTIONS)

PLAN	COST
90 Block - 90 Meal swipes per semester w/ \$175 Flex	1,130.00
60 Block - 60 Meal swipes per semester w/ \$175 Flex	\$850.00
45 Block - 45 Meal swipes per semester w/ \$125 Flex	\$710.00

REFUNDS

A prorated schedule for housing and meal plan fees for students who withdraw from the University is as follows:

DATE	REFUND
Prior to student move-in day	100%
First week	90%
Second week	80%
Third week	70%
Fourth week	60%
Fifth week	50%
After fifth week	No refund

DINING DETAILS

Check out our Dining web page for additional dining details and information at Millersville University. [www.millersville.edu/dining](http://www.millersville.edu/dining)

STUDENTS WITHOUT A MEAL PLAN AND VISITORS

Students who live off campus, faculty, staff, and visitors may dine at the Gordinier Hall Resident Dining Hall and all dining retail locations on campus. Students, faculty, and staff with a Millersville University ID will be charged the following prices at the Upper Deck beginning Monday, August 13, 2024. Breakfast - \$9.35, Lunch - \$12.20 and Dinner - \$15.05. All visiting guests without a University ID will be charged the following prices at the Upper Deck beginning Monday, August 13, 2024, are Breakfast - \$11.10 Lunch - \$14.20 and Dinner - \$17.30. Rates for special events are available through the Dining & Catering Services Office at 717-871-5275. Rates are subject to change.

MARAUDER GOLD

Money deposited into your Marauder Gold account may be used to make purchases at on-campus Dining locations, University services, University Store, and local participating vendors that display the Marauder Gold logo. You may open a Marauder Gold account with a minimum deposit of \$50 with additional deposits of \$25 or more. Marauder Gold deposits may be made using the "GET" App using a credit/debit card (American Express, Discover, MasterCard or Visa). The Office of Student Accounts, Lyle Hall Room 246m accepts payments made via check, cash, or money order. Please notate Marauder Gold on all methods of payment.

OTHER FEES

APPLICATION FEE: UNDERGRADUATE ADMISSIONS

Students who apply and are admitted to the University through the undergraduate admissions office are not charged an application fee.

APPLICATION FEE: GRADUATE ADMISSIONS

Individuals who apply for admission through graduate and professional studies (i.e., Masters, Certification, Endorsement, Certificate, or Doctorate) will pay a graduate application processing fee of \$40 with the submission of each new application. Non-degree applicants do not pay an application fee. Fee waivers may be available upon request.

PAYMENT EXTENTION FEE

Students who do not resolve their account by the due date are subject to a \$100 fee.

LATE-REGISTRATION FEE

Students who register after the start of the semester/session are subject to a \$50 late registration fee, except when permission for late registration has been granted by the registrar.

ORIENTATION FEE

Students admitted for the fall semester are required to pay an orientation fee and are expected to attend the orientation program. The orientation fee amount varies annually and is required regardless of attendance. For more information, please visit [millersville.edu/orientation](http://millersville.edu/orientation).

## **SPECIAL HANDLING FEE**

Anyone who supplies the University with a check or electronic payment that is not honored by the bank on which it is drawn is charged \$35.

## **REPLACEMENT FEE**

The fee for replacement of a Millersville student identification card is \$25.

## **DAMAGE FEE**

Students are responsible for damages, breakages, and loss or delayed return of University property.

## **DEGREE FEE**

Each candidate for a degree must pay \$30 to cover the cost of the diploma. The Commonwealth of Pennsylvania requires a nonrefundable fee for credentials evaluations and processing teaching certification applications.

## **HEALTH SERVICES SUPPLIES FEE**

The cost of any expensive supplies used to treat a patient at Health Services will be charged to the patient.

## **LIBRARY OVERDUE AND ITEMS FEES**

Please contact the library for information at 717-871-7110, or visit the Millersville website, [www.millersville.edu](http://www.millersville.edu).

## **DEPOSITS**

### **ADVANCE MATRICULATION DEPOSIT**

A nonrefundable \$150 deposit is required upon acceptance of the offer of admission. It is applied toward payment of tuition. It is transferable on a one-time basis to a revised admission date upon the approval of the director of admissions.

### **ADVANCE HOUSING DEPOSIT**

Students admitted to University residence halls must pay a deposit of \$200 each year. It may be applied only toward payment of residence hall fees for spring. It is transferable on a one-time basis to a revised admission date upon the approval of the director of admissions.

## **OTHER EXPENSES**

Most students incur additional expenses for books and supplies, personal needs, and traveling to and from home. These are not charged directly by

the University; however, the University provides estimates for the purpose of assisting students in finding aid resources to meet the needs of their additional expenses.

The total cost of attendance for Pennsylvania residents living on campus in the residence halls is estimated at \$28,358, and \$40,182 for non residents

for the 2024-2025 academic year. The total cost of attendance for commuting students living at home with their parents/guardians is estimated at \$22,228, and \$34,052 for nonresidents for the 2024-2025 academic year.

The total cost of attendance for off-campus students who are renting temporary housing in the Millersville/Lancaster area is estimated at \$28,808 and \$39,912 for nonresidents for the 2024-2025 academic year. This amount assumes the student is sharing facilities and rental costs with at least one other person. The cost of attendance is comprised of direct costs (billed by the university) and indirect costs (possible educational expenses you may incur). The cost of attendance is not the amount you will be charged by the Millersville University.

Federal Financial Aid can only be applied to courses that are required towards the completion of the student's degree. To learn more about the Course Program of Study Policy visit: [www.millersville.edu/finaid/maintaining-eligibility/course-program-of-study-cpos.php](http://www.millersville.edu/finaid/maintaining-eligibility/course-program-of-study-cpos.php)

More information regarding estimated expenses can be found on the Financial Aid section of Millersville's website under Calculating Eligibility: <https://www.millersville.edu/finaid/eligibility/calculate.php>

## STUDENT INSURANCE

An accident and sickness insurance plan is available to Millersville University students through the University insurance carrier, Consolidated Health Plan. All questions regarding eligibility, insurance coverage, costs or premium refunds should be directed to the insurance carrier, 800-633-7867.

## FINANCIAL AID

At Millersville University, a range of financial aid resources are available to eligible students, including scholarships, state grants, federal grants, employment programs, federal loans, and private education loans. To access these resources, students must complete the Free Application for Federal Student Aid (FAFSA) annually. The FAFSA opens on October 1st, and we recommend completing it by March 15th to be considered for all types of aid. Pennsylvania residents must submit the FAFSA by May 1st each year to be considered for a PA State Grant.

For more information on scholarship opportunities for prospective and current Millersville students, go to: [www.millersville.edu/finaid/financial-aid-options/scholarships/index.php](http://www.millersville.edu/finaid/financial-aid-options/scholarships/index.php)

## UNIVERSITY SCHOLARSHIPS

A number of scholarships are offered at Millersville, including scholarships based on academic performance, athletic potential and need. For more information on scholarship opportunities for prospective and current Millersville students, go to: [millersville.edu/finaid/financial-aid-options/scholarships/index.php](http://millersville.edu/finaid/financial-aid-options/scholarships/index.php)

## ASSISTANTSHIPS

Graduate assistantships are awarded on a competitive basis for a nine-month period to graduate students admitted into a master's degree program and are renewable for one year. Remuneration for graduate assistants includes a stipend and waiver of tuition only, up to a maximum of 18 graduate credits per calendar year. University fees are not covered. Full-time graduate assistants receive \$6,000/year (\$3,000/semester) and work 300 hours per semester in their assignment. Current assistantship assignments include most of the departments offering graduate degree programs. Other academic and administrative support assignments are available. Graduate assistantship assignments, which are awarded for fall and spring semesters only, vary but may include research, counseling and administrative responsibilities. Interested students should visit the College of Graduate Studies and Adult Learning website at [www.millersville.edu/graduate](http://www.millersville.edu/graduate) for information and access to the application.

## FEDERAL GRANT PROGRAMS

### FEDERAL PELL GRANTS

The Federal Pell Grant is a free resource to support students in their college journey. Eligibility is determined through the FAFSA and the amount awarded is based on the Student Aid Index (SAI) calculated, financial need, and the number of credits you are enrolled. This federally funded grant is automatically awarded to eligible undergraduate students pursuing their first bachelor's degree. For more information, go to: [millersville.edu/grants](http://millersville.edu/grants). To apply, students simply need to complete the FAFSA at <https://studentaid.gov/h/apply-for-aid/fafsa>. If eligible, students will receive notification of the award in their financial aid offer from Millersville.

### FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (FSEOG)

This program is intended to provide additional support to students who have exceptional financial need, which is determined by the FAFSA and the Student Aid Index (SAI) calculated. FSEOG is exclusively for undergraduate students pursuing their first bachelor's degree and enrolled at least half-time (6 credits). FSEOG is automatically awarded to eligible students and award amounts range from \$1,000-\$2,000 per year. For more information, go to: <https://www.millersville.edu/finaid/financial-aid-options/grants/index.php>

## STATE GRANT PROGRAMS

The Pennsylvania Higher Education Assistance Agency (PHEAA) offers state grants, known as the PA State Grant, to assist Pennsylvania residents in need of financial support to attend approved higher education institutions. To apply for a PA State Grant, simply complete the Free Application for Federal Student Aid (FAFSA) by the deadline of May 1st and ensure your application with PHEAA is complete. To complete the FAFSA, go to: <https://studentaid.gov/h/apply-for-aid/fafsa>

Grant award amounts depend on educational expenses and resources. Students must be in a degree-seeking undergraduate program and be enrolled at least half-time (6 Credits) to be eligible. PA State Grants are subject to annual review and may change from year to year. Renewal depends on satisfactory academic standing, continued need for financial assistance and the availability of funds appropriated by the Pennsylvania General Assembly. For more information, go to: <https://www.millersville.edu/finaid/financial-aid-options/grants/index.php>. To ensure your application is complete, go to: [pheaa.org](https://pheaa.org)

## **STUDENT EMPLOYMENT PROGRAMS**

### **FEDERAL WORK-STUDY PROGRAM (FWS)**

Federal Work-Study provides part-time employment opportunities for students who have completed a FAFSA and demonstrate financial need, enabling them to earn money while attending school. Although this program is part of the financial aid package, the funds are not directly applied to a student's bill. Federal Work-Study offers valuable opportunities for eligible students to work on-campus or in off-campus positions, including non-profit organizations or public agencies, with a focus on work in the public interest. Students can earn up to the amount awarded and are typically paid on a biweekly basis, with payment based on the number of hours worked. For more information, go to: [millersville.edu/work-study](https://www.millersville.edu/work-study)

### **MILLERSVILLE UNIVERSITY STUDENT EMPLOYMENT PROGRAM**

At Millersville University, students do not need to be eligible for Federal Work-Study to secure employment opportunities on campus. A variety of positions are available that cater to different skills and interests, providing valuable work experience while accommodating students' schedules. Whether it's working at the library, in a department office, or in a campus facility, there are plenty of options available for students seeking employment to support their academic and personal goals. Wages are earned in the form of a paycheck and are not applied to a student's bill. To search available positions, go to: <https://jobs.millersville.edu/> > Search Jobs > Position Type: Student Worker

## **LOAN PROGRAMS**

### **FEDERAL DIRECT LOANS**

The Federal Direct Student Loan program guarantees loans from the Department of Education to students who complete the Free Application for Federal Student Aid (FAFSA) and maintain at least half-time enrollment (6 credits per semester). Unlike other loan programs, these loans are solely in the student's name, and no credit check or co-signer is required.

The annual loan amount varies based on the student's grade level (number of credits earned) and dependency status, with dependent undergraduate students eligible for a total of \$5,500 to \$7,500 per year, including a potentially subsidized portion of up to \$3,500 to \$5,500. Subsidized loans are awarded based on financial need as determined by the FAFSA, offering the significant benefit of being interest-free while enrolled at least half-time. Any unsubsidized portions accrue interest during enrollment but feature low-fixed interest rates and multiple repayment options. Repayment is not required until six months after the student leaves school (graduates, withdraws, takes a leave of absence, or ceases to be enrolled at least half-time). Federal Direct Student Loans are highly recommended before exploring other loan options.

Eligible students who complete a FAFSA will be automatically offered Federal Direct Student Loans in their financial aid package, however, it's essential for students to actively accept these loans for them to be applied toward their bill. Additionally, first-time borrowers must complete loan Entrance Counseling and a Direct Loan Agreement/Master Promissory Note (MPN) at <https://studentaid.gov/h/apply-for-aid/afsa>.

For more information go to: <https://www.millersville.edu/finaid/financial-aid-options/loans/index.php>

### **FEDERAL DIRECT PARENT PLUS LOANS**

Federal Parent PLUS Loans are available to the parents of dependent undergraduate students to assist with providing additional financial support for their child's education after other federal and state aid sources. These loans are taken out in the parent's name, and the parent is responsible for repayment. For more information, go to: <https://www.millersville.edu/finaid/financial-aid-options/loans/index.php>

### **FEDERAL DIRECT GRADUATE PLUS LOANS**

Designed to cover remaining educational costs beyond other financial aid, Graduate PLUS Loans are available to students pursuing master's or doctoral degrees and should typically only be considered after exploring federal Unsubsidized Loan options. For more information go to: <https://www.millersville.edu/finaid/financial-aid-options/loans/index.php>

## PRIVATE/ALTERNATIVE LOANS

Private/Alternative loans serve as additional financial aid options for students, filling the gap left after federal and state aid. These educational loan programs, provided by private lenders, require approval based on creditworthiness. Typically, if the student is the borrower, a co-signer is needed to secure the loan. Interest rates for private loans are determined by credit history and can be fixed or variable, often higher than federal loan rates. For more information, go to: <https://www.millersville.edu/finaid/financial-aid-options/loans/index.php>

## ADVANCED REFUND REQUEST

An Advanced Refund Request allows students to receive an early payment of their anticipated refund. Students typically receive a refund when their financial aid exceeds their charges. Since financial aid disbursement happens after the add/drop period each semester, students can apply for an advance of up to \$350 to cover educational expenses such as books or other unforeseen costs. Applications open the Wednesday before classes start and can be submitted to the Office of Financial Aid. If there are changes to the financial aid package resulting in a reduced refund, the student must repay the difference within 30 days to the Office of Student Accounts.

## SATISFACTORY ACADEMIC PROGRESS (SAP)

**Satisfactory Academic Progress (SAP)** is a term used to describe the successful completion of coursework toward a degree or certificate. Making progress toward a degree is important for your academic success and a key factor in reducing student debt. Federal and state aid programs have separate SAP standards that students must meet at the end of each academic year to continue receiving funding.

### FEDERAL TITLE IV SAP

This policy applies to all federal Title IV funding such as the Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Subsidized and Unsubsidized Loans, PLUS Loans, Work-Study, some scholarships, external awards, and private loans. Federal SAP has three separate measures and *students must meet all three components* to be considered as making Satisfactory Academic Progress. These components are Cumulative GPA, Completion Rate, and Maximum Timeframe. For example, undergraduate students must meet 67% of all attempted credits, maintain a 2.0 GPA after four semesters at Millersville, and can only receive federal aid up to 150% of their program length. This policy is cumulative and applies to all students and periods of enrollment, regardless of aid being received. For more information on the federal SAP requirements and policy go to: [millersville.edu/fa-sap](http://millersville.edu/fa-sap)

### PA STATE GRANT SAP

The Pennsylvania Higher Education Assistance Agency (PHEAA) has a SAP policy for state aid programs they administer, such as the PA State Grant, Partnerships for Access To Higher Education (PATH) Grant, and the Ready to Succeed Scholarship (RTSS). For PA State Grant purposes, full-time students must successfully complete 24 new credits each year or 12 credits each semester. Part-time students must successfully complete at least 6 new credits each semester. You are required to meet SAP standards for any semester that you receive a PA State Grant – please be aware summer is considered a semester. Remedial credits taken during a semester that you aren't receiving a PA State Grant will not be counted toward progress. For more information on PHEAA SAP go to: [millersville.edu/fa-sap](http://millersville.edu/fa-sap)

Office: McNairy Library Rm: 507  
Phone: 717-871-7609

## COURSE SCHEDULING PREFERENCE FOR VETERAN STUDENTS

Act 46 of 2014 requires public institutions of higher education in Pennsylvania to provide veteran students, as defined in the Act, with preference in course scheduling. Noncompliance may be reported to the Pennsylvania Department of Education by submitting the Higher Education Student Complaint form found at [www.education.state.pa.us](http://www.education.state.pa.us). In accordance with Act 46 of 2014, Millersville University provides early registration priority for enrolled students identified as veterans who meet the following criteria:

1. Has served in the United States Armed Forces, including a reserve component and National Guard, and was discharged or released from service under conditions other than dishonorable;
2. admitted to Millersville University for the current academic year;
3. reside in Pennsylvania while enrolled.

Students who have identified themselves as being veterans, as defined above, will automatically receive their priority registration date and time in their MAX account. Students who believe they are veterans as defined above and who have not yet identified themselves as such should submit a DD214, Joint Services Transcript (JST) or Community College of the Air Force (CCAF) transcript to the registrar's office, Lyle Hall. The Financial Aid Scholarship and Veterans Coordinator will provide to the registrar's office the names of the students meeting these criteria prior to the posted priority registration date. Students who are given course scheduling priority privileges are permitted to enroll in courses two days prior to the regular scheduling timetable as defined by the office of the registrar. Students with questions concerning course scheduling preference for veterans may contact the following individuals: Ms. Giselle Fernandez (717-871-5100), Scholarship & Veterans Coordinator; the registrar's office (717-871-5005).

## MILITARY LEAVE OF ABSENCE

Students who are called to active duty must contact the registrar's office for assistance with arranging a leave of absence and their subsequent return to the University. A copy of the student's military orders must be presented to the registrar. Students who expect to return to class within the current semester to complete their coursework, or who are called to duty after completing a significant part of the course requirements, should contact their faculty regarding missed work. Students who cannot complete the current semester will be granted a leave of absence for military duty and will be allowed to return for the next semester without penalty.

# Undergraduate

## Overview

An undergraduate catalog is published every year by the Millersville University Council of Trustees. This publication is an announcement for the 2023-2024 academic year. The catalog is for informational purposes only and does not constitute a contract. The provisions of this catalog are not intended to create any substantive rights beyond those created by the laws and constitutions of the United States and the Commonwealth of Pennsylvania, and are not intended to create, in and of themselves, any cause of action against Pennsylvania's State System of Higher Education, the Board of Governors, the Chancellor, an individual President or University, or any other officer, agency, agent or employee of Pennsylvania's State System of Higher Education.

Information contained herein was current at time of publication. Courses and programs may be revised; faculty lists and other information are subject to change without notice; course frequency is dependent on faculty availability. Not all courses are necessarily offered each session of each year. Individual departments should be consulted for the most current information.

## A Member of Pennsylvania's State System of Higher Education

Millersville University does not discriminate on the basis of race, color, religion, national origin, ancestry, sex, age, or disability in admission or access to, or treatment or employment in, its programs and activities. This includes Title VI of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, and the Americans with Disabilities Act of 1990.

Coordinators: Services for Students with Disabilities—Dr. Sherlynn Bessick, Director, Office of Learning Services, Lyle Hall, 717-871-5554; Title IX—Mr. Bradley Davis, Interim Title IX Coordinator, Dilworth Building, 717-871-4100— Ms. Diane Copenhaver, Executive Director for Human Resources, Dilworth Building, 717-871-4950.

## State Authorization Reciprocity Agreement (SARA)

Effective January 1, 2017, The Commonwealth of Pennsylvania joined the National Council for State Authorization Reciprocity Agreements (NC-SARA). Millersville University has been approved by the state of Pennsylvania to participate in the National Council for State Authorization Reciprocity Agreements. NC-SARA is a voluntary, regional approach to state oversight of postsecondary distance education. For more information on NC-SARA, please visit [www.nc-sara.org](http://www.nc-sara.org).

In compliance with [34 CFR 668.43\(b\)](#) Code of Federal Regulation and U.S. Department of Education (USDOE) rules, an institution offering distance education must "provide its students or prospective students with contact information for filing complaints with its accreditor and with its State approval or licensing entity and any other relevant State official or agency that would appropriately handle a student's complaint." This process refers to the student's available recourse if the distance education student has exhausted all possible avenues for complaints at the institution related to consumer protection and the issue has not been resolved to the student's satisfaction.

All current, former, and prospective distance education students, regardless of their residency, must first submit any grievances, complaints, or concerns directly to Millersville University in accordance with university policies located in the [Catalog](#). This step must be completed prior to seeking external resolution for an issue. Please note that student complaints about grades or student conduct cannot be addressed through the SARA/distance education complaint process and must be addressed by the university.

A student may appeal to the portal agency of the home state in which the institution is legally domiciled for consumer protection issues. The Pennsylvania Department of Education is the state portal agency and will notify NC-SARA of an appealed complaint in efforts to seek resolution. Complaints can be addressed to the Pennsylvania Department of Education, Higher and Career Education, 333 Market Street, Harrisburg, PA 17126, or via email at [ra-distanceducation@pa.gov](mailto:ra-distanceducation@pa.gov). Students may also file consumer protection complaints with the [Pennsylvania State System of Higher Education](#) or the university's accreditor, the [Middle States Commission on Higher Education](#).

## SAFETY AND SECURITY INFORMATION

For current information about Millersville University campus security, in conformity with the requirements of Pennsylvania Act 1988-73, the College and University Information Act, and the federal Crime Awareness and Campus Security Act of 1990, contact:

University Police  
Millersville University

Undergraduate

## General Education

### The Legacy General Education Program

Consistent with Millersville University's liberal arts-based education, the purpose of general education is to provide breadth of knowledge as a balance and complement to the depth provided by the major. This is necessary for the holistic development of Millersville graduates as responsible citizens in a diverse and technologically complex global community.

Students, working with advisors and taking into consideration prior knowledge and experience, purposefully select courses in the general education curriculum that meld with required courses, cocurricular and extracurricular activities, and courses in the major. The general education program is organized into a structure with three components: Foundations for Lifelong Learning, Critical Thinking Across the Liberal Arts, and Connections and Exploration.

#### Foundations for Lifelong Learning

Students will think, speak and write clearly as demonstrated by:

- the clear presentation of ideas in formal spoken, written and media forms.
- the use of effective communication for ongoing dialogue.
- the ability to find appropriate sources of information, evaluate that information and integrate that information into a final product.
- the use of statistical methods and other techniques of mathematics to analyze and solve problems.

#### Critical Thinking Across the Liberal Arts

Students will demonstrate foundational knowledge of the important ideas and methods of different ways of knowing as follows:

- Courses in the arts and humanities challenge students to examine, analyze and critically evaluate artifacts of the human intellect and imagination to illuminate the complexity of the human experience. Through exposure to multiple voices, insights, objects and other creative works, students explore and interpret questions of meaning, fact and value. Ultimately, this engagement expands knowledge, deepens empathy and encourages collaboration between diverse individuals and communities.
- Courses in the sciences and mathematics develop students' understanding and knowledge of scientific and mathematical reasoning and of strategies for logical problem solving. Students are challenged to recognize that scientific explanations offer falsifiable predictions, that claims must be supported by evidence and logical reasoning, and that

the nature of scientific discovery and knowledge is fluid. Courses emphasize that the scientific meaning of fact, theory and law are not a hierarchy, and give students an appreciation of essential creative aspects of scientific process and discovery.

- Courses in the social sciences focus on the intricate relationship between human behavior and social institutions. Through qualitative and/or quantitative methods of inquiry, students discover and ascertain how human beings behave and are expected to behave, within certain contexts. This interaction allows students to comprehend and articulate the relationship between behavior and context across people, cultures, time and place.

### **Connections and Exploration**

Students will connect important ideas and methods of inquiry from different disciplines as a means of becoming holistic and responsible citizens in a diverse and technologically complex global community. Students will:

- demonstrate civic and social responsibility.
- grow in their engagement with peoples of diverse histories and communities, both inside and outside the United States.
- build the foundation for a lifelong process of understanding, developing and monitoring healthy lifestyle behaviors in all dimensions of wellness, including physical, social, emotional, intellectual, spiritual and environmental wellness.
- gain personal enrichment by developing new interests that can be enjoyed throughout a lifetime.

## **General Education Structure (minimum 48 credits)**

### **FOUNDATIONS FOR LIFELONG LEARNING COMPONENT**

#### **ENGL 110 English Composition (0-3 credits)**

This college-level competency requirement is in addition to the precollege proficiency requirement described earlier. Competence in English composition must be demonstrated in one of the following ways before the junior year:

- Achieving a combined score of 1100 in the verbal portion of the SAT and the SAT II English Writing Test. This is recorded as a waived requirement and does not cover credit hours.
- Achieving a score of 3 or higher in the Advanced Placement (AP) test in English Composition.
- Achieving a satisfactory score in the CLEP subject examination in English Composition.
- Passing the English Composition Competency Examination administered by the English department at the beginning of each fall and spring semester.
- Earning a grade of C- or higher in ENGL 110 English Composition.

#### **COMM 100 Fundamentals of Speech (3 credits)**

College-level competency in speech must be demonstrated in one of the following ways, preferably before the junior year:

- Earning a grade of C- or higher in a competency examination administered by the Communication & Theatre department. To take this examination, register with the Communication & Theatre department by the end of the drop/add period.
- Earning a grade of C- or higher in COMM 100 Fundamentals of Speech.

#### **Approved MATH course (3-4 credits)**

To develop mathematical reasoning ability, at least one approved general education math course must be successfully completed.

#### **Advanced Writing (3 credits)**

A course to further enhance writing skills. Students who successfully complete their English composition requirement will take one of the approved Advanced Writing courses during their junior or senior years. Some departmental honors theses (499) are approved to meet this requirement. Some majors require a specific Advanced Writing course. Students should consult the appropriate curriculum sheet and their academic advisors before choosing a particular Advanced Writing course.

### **CRITICAL THINKING ACROSS THE LIBERAL ARTS COMPONENT (9 courses—minimum 27 credits)**

Three courses (minimum 9 credits) each in Humanities and Fine Arts (G1), Science and Mathematics (G2) and Social Sciences (G3).

In Science and Mathematics, two of the three courses must come from biology, chemistry, earth sciences and/or physics, including one which has a laboratory (L) component.

No more than two courses within each Liberal Arts area may be from a single department. Additionally, at least three courses taken throughout the three Liberal Arts areas must be at the 200 level or above.

Up to six courses required for the major from departments outside the major may be credited toward the Liberal Arts Component, but courses taught by the student's major department may not be credited here.

### **Connections and Exploration Component**

A total of nine credits from the following areas are required to complete the Connections and Exploration Component.

#### **Approved Wellness Course (3 credits)**

The Wellness requirement is designed to assist students in making positive lifestyle changes that reduce their health risks, modify their consumer behavior and enhance their personal well-being and productivity.

#### **Perspectives Course (3 credits)**

A major function of these courses is to apply analytical and critical- thinking abilities in resolving major social, cultural, scientific/ technological and/or aesthetic problems. They are interdisciplinary and/ or multicultural in content and require a high level of educational maturity, knowledge and thinking. Perspectives courses encourage undergraduate students to make independent and responsible value judgments and decisions.

Perspectives courses integrate the knowledge acquired throughout the baccalaureate experience. For example, perspectives courses nurture and extend the basic communications skills developed in the Foundations

for Lifelong Learning Component of general education. Moreover, perspectives courses demonstrate how different areas of knowledge gained in the Critical Thinking Across the Liberal Arts Component of general education are complementary.

The following stipulations apply to perspectives courses:

- Prior to enrolling in a perspectives course, each student must have successfully completed English composition, fundamentals of speech and earned at least 60 credits (junior standing).
- Students must satisfactorily complete one 3-credit perspectives course from a list of approved courses, which may be either in the major department or outside the major department.
- No perspectives course may be counted within the Critical Thinking Across the Liberal Arts Component of general education.
- Students who complete an academic fall or spring semester abroad as part of a baccalaureate degree will be considered to have fulfilled the perspectives requirement. International students studying at Millersville will also be considered to have fulfilled the perspectives requirement. This waiver does not cover credit hours. A student employing this waiver will be required to satisfy three credit hours of general education courses in lieu of the waived three-credit perspectives course. This is in addition to any other Open Elective requirements of the student.

#### **First Year Seminar (3 credits)**

Incoming students will take a First Year Seminar, FYEX 100, which will count as part of a Connections and Exploration Component. First-Year Seminar (FYEX 100) courses are designed to support students' successful transition to university life. These courses use at least one high-impact educational practice to develop and foster skills that will lead to success in college, career, and personal life. Each seminar focuses on a different topic/theme of strong interest to faculty and students.

#### **Student Learning Outcomes**

A student will be able to:

- Demonstrate autonomy and competence in planning for personal and academic goals.
- Identify resources and practice strategies to support personal and academic success.
- Develop effective communication, critical thinking skills and dispositions, and information literacy skills to explore academic content.
- Recognize the value of diverse perspectives as a citizen of the university community.

## **Additional Requirements**

### **Cultural Diversity and Community**

Each student must satisfactorily complete one 3-credit cultural diversity and community course from a list of approved courses. This course may also count toward any additional requirements (major, minor or general education) of the baccalaureate degree.

Cultural Diversity and Community is a requirement of the Connections and Exploration Component of general education. This requirement aligns general education with the University's mission to foster in students an appreciation for cultural diversity. Here, "cultural diversity" refers to the differences among people in terms of beliefs, customs, values, politics and experiences. In essence, culture is a worldview; it is both learned and evolved. The following factors are seen as underlying these differences: age, economics, education, gender, geography, language, nationality, occupation, physical ability, race and ethnicity, religious affiliation and/or sexual orientation, among others. A Cultural Diversity and Community course is more than a mere survey or exposure of the students to different cultures; rather, it teaches students to think critically about the basis for intercultural differences.

### Writing

These courses ensure that undergraduate students have the opportunity to develop competence and confidence in their writing skills. The English 110 competency must be satisfied prior to enrollment in "W" courses. Each student must satisfactorily complete three 3-credit courses from a list of approved courses. These courses may also count toward any additional requirements (major, minor or general education) of the baccalaureate degree.

Undergraduate

## Academic Requirements

### The Baccalaureate Curriculum

Millersville University's baccalaureate-degree programs have four common curricular elements:

1. Proficiency requirements in English composition and mathematics.
2. The general education program, which constitutes about half of the curriculum (48 of the 120 minimum credits required for graduation).
3. The major program, which usually constitutes most of the other half of the curriculum.
4. Electives courses, if needed, to meet the minimum of 120 credits required for graduation. (A few programs require more than 120 credits for graduation.) Students may combine elective and general education courses to complete a minor.

Within each of these components, students have many choices in developing programs of study. They have a challenging and responsible role in planning the substance of their program.

Students are reminded that a full-time semester course load consists of 12 credit hours. However, it is necessary to average at least 15 credit hours each semester in order to graduate in four years (eight semesters).

Final responsibility for each student's program rests with the student. The role of the advisor is just that—to advise. Students are expected to familiarize themselves thoroughly with program requirements for their major described in this catalog, the Curriculum Record Form and the computerized degree audit. This computerized audit report is available to help students monitor progress toward completion of their major, minor and general education requirements.

### Proficiency Requirements

#### Chemistry

1. All undergraduate students who want to pursue CHEM 111 Introductory Chemistry 1 or above must demonstrate minimum levels of proficiency in chemistry.
  1. All entering biology, chemistry, earth sciences and physics undergraduate students are required to take part in the chemistry placement process. Students pursuing majors in other disciplines may also need to participate; please consult your academic advisor.
  2. The chemistry department determines the test(s) and the criteria for course placement.
2. Students placed in the preliminary chemistry course (CHEM 110 Fundamentals of Chemistry) are required to enroll in that course prior to taking CHEM 111 Introductory Chemistry 1. Such students must demonstrate proficiency by satisfactorily completing the course with a grade of C- or above prior to taking CHEM 111 Introductory Chemistry 1.
3. Students who must take CHEM 110 Fundamentals of Chemistry earn course credits, and the grade is counted in the cumulative grade point average, but these course credits may only be counted as elective credits needed to fulfill the 120-credit minimum required for graduation. These credits may not be counted within the major requirements set forth for degrees in chemistry or other disciplines.

## Mathematics

1. All undergraduate students must demonstrate minimum levels of proficiency in mathematics.
  1. All entering undergraduate students are required to take part in the mathematics placement process.
  2. The mathematics department determines the test(s) and the criteria for course placement.
2. Students placed in a developmental mathematics course are required to enroll in that course. Such students must demonstrate proficiency by satisfactorily completing the course with a grade of C- or above prior to taking any mathematics course at the 100 level or higher.
3. Students who must take developmental mathematics earn course credits, and the grade is counted in the cumulative grade point average, but developmental course credit cannot be counted towards fulfillment of the general education or graduation requirements for the baccalaureate or associate degree.

## The Major Program

After general education, the second component of a high-quality university education is an in-depth understanding of an academic discipline. Millersville currently offers 54 major fields of study within its bachelor's-degree programs. Many majors offer options for fulfilling requirements that provide even greater choice in selecting a field of study. Students enrolled in programs that require more than 120 credits may require additional time to complete their studies.

A list of Millersville's major programs and options and the specific course requirements for each is given in the Academic Programs section. In addition, degree audit reports summarizing the status of a student's degree requirements are available on the University website through our Millersville Access System (MAX).

### Declaring or Changing a Major

To declare or change a major or an option within a major, contact the registrar's office, Lyle Hall, for an appropriate form, or online at the Millersville University website, by clicking in the Student Forms Center link. Some departments have specific requirements for admission to their major programs. Students must meet the major program requirements in effect at the time they declare or change their major. Students in undecided major status, with at least 45 credits passed, should refer to the Undecided Major Status section for specific academic requirements.

### Department Evaluation of Majors

Students are subject to the approval of their major department for continuation in their major program. Departments may establish additional requirements for continuation in the major, review student credentials at the end of any semester and deny continuation in the major to any student they feel is not making satisfactory progress. Students who have been denied continuation in the major may appeal to the school dean and then to the Academic Standards Committee for reconsideration.

### Second Majors

In some programs, through careful selection of elective courses, it is possible to complete the requirements for a second major. Upon certification by each major department that requirements have been satisfied, both majors are recorded on the student's records.

### Minors

Students who wish to become proficient in a second discipline may complete the requirements for a minor. Each minor requires a minimum of 18 credits. A GPA of at least 2.0 must be earned in Millersville courses required for the minor. Half of the minor must be completed at Millersville, only one course may count toward both a major and a minor, and no student may minor in his or her major. A list of minor programs and specific course requirements for each are given in the Academic Programs section.

To declare or change a minor, obtain an appropriate form from the registrar's office or through the University website, by clicking on the Student Forms Center link.

## The Associate Degree Curriculum

Millersville's associate-degree programs are career-oriented for students with specific occupational objectives. They consist of 60 to 65 credits of study. The programs normally have three components: communication skills; general knowledge of the natural sciences, social sciences and humanities; and an area of concentration. Approximately half the coursework is in communication skills and general education; the other half is in the area of concentration. For more information, see the Academic Programs section.

## OTHER CURRICULAR POLICIES

### Additional Degree Requirements

To earn an undergraduate degree at Millersville University, a student must meet the following requirements:

1. All curricular and proficiency requirements as described above must be met.
2. A minimum of 120 credits must be completed for a bachelor's degree.
3. A GPA of at least 2.0 must be earned in Millersville courses.
4. A GPA of 3.0 must be earned in Millersville courses to meet entrance and exit requirements for a Bachelor of Science in Education (B.S.Ed.) degree.
5. A GPA of at least 2.0 must be earned in Millersville courses required for the major (area of concentration for associate degrees).
6. A GPA of at least 2.0 must be earned in Millersville courses required for the minor.
7. At least 30 credits (in addition to student teaching) of the last 60 credits must be completed at Millersville. Participation in approved Millersville University exchanges or attendance at programs consistent with Millersville University academic agreements will satisfy this requirement.
8. At least half of the major requirements must be completed at Millersville.
9. At least half of the minor requirements must be completed at Millersville.
10. Students who graduate with a B.S.Ed. degree or complete an approved program of post-baccalaureate studies for teaching certification must be admitted to Advanced Professional Studies. They must also meet the Pennsylvania state requirements and other Pennsylvania certification requirements, such as passing the required Praxis exams, to qualify for Pennsylvania teacher certification.
11. An Application for Degree form should be submitted before the end of the third week of the term in which the student expects to graduate. The University confers degrees six times annually: at the conclusion of the fall semester, winter session, spring semester, first summer session, second summer session and third summer session. Application forms are available from the registrar's office, Lyle Hall, or [www.millersville.edu/commencement](http://www.millersville.edu/commencement).

### Admission to Advanced Professional Studies and Certification (Education Majors)

All students enrolled in teacher preparation programs must be admitted to Advanced Professional Studies and meet Pennsylvania state requirements and University requirements prior to being enrolled in their initial Advanced Professional Studies course. Students must meet additional Pennsylvania state requirements in order to be certified. A listing of Advanced Professional Studies courses and requirements is available in the Office of Field Services and on the Certification Office website.

### Earning More Than One Degree

Students who wish to complete the course requirements for two different degrees (e.g., B.A. and B.S.Ed.) simultaneously must complete at least 30 credits beyond the minimum of 120 credits needed for the first bachelor's degree earned. Students who complete fewer than 30 credits beyond the first degree but complete requirements in more than one major will choose the degree to be awarded. All majors completed will be recognized in academic records, including transcripts.

A student may earn a second associate or bachelor's degree at a later time by meeting the following requirements:

1. A minimum of 30 additional credits must be completed at Millersville at the undergraduate level following the award of the first degree. These credits must be in the major and required related fields.
2. All requirements for the major of the second degree must be satisfied.
3. Coursework completed as part of the first degree program may be used to satisfy the related coursework requirement in the second degree.
4. Coursework completed as part of the first degree program may be used to satisfy up to half of the second degree's major. If a course required in the second degree's major was completed as part of the first degree, it may not be repeated.
5. Teacher certification credits may not be counted toward a second degree.
6. When there is overlap in the majors of the first and second degrees, the 50-percent limitation in requirement 4 above and the limited course offerings in some departments may preclude the pursuit of a second degree.

# University Honors College

## Overview of University Honors College

Millersville University offers a number of programs to help exceptionally talented students develop their potential. Students who complete the program earn special recognition.

The University Honors College challenges talented students while encouraging them to develop their intellectual potential. The program introduces students to the main currents of world thought and culture, and develops writing, research and analytical skills. Enrollments in honors classes are limited to facilitate student-faculty interaction. Students who successfully complete the program are awarded the University Honors baccalaureate at graduation.

Invitations to the program are extended to entering first year students who have combined SAT scores of 1200 or above and are in the top 10 percent of their high school class. Other interested first year students and currently enrolled students with cumulative grade point averages (CGPAs) of at least 3.35 are encouraged to apply for admission to the director of the University Honors College.

To remain in good standing in the Honors College, students must maintain a GPA of at least 3.20. University Honors College students who achieve a final overall GPA of 3.8 or higher will graduate from the University Honors College "With Distinction."

To receive the University Honors baccalaureate, students must:

1. Earn a cumulative GPA of at least 3.20 and 3.35 in honors coursework.
2. Earn a minimum of 25 honors credits and fulfill the Honors College curricular requirements. Honors credit is awarded only for those honors courses in which a B- or higher is earned.
3. Students must complete and successfully defend an honors thesis.
4. With proper approval, an Honors College student may enroll in up to two courses (maximum of six or eight credits, depending on the major) in their department major and earn honors credit. Only courses at the 200 level or above will be considered appropriate. Students must have already earned a minimum of 12 credit hours with honors designation.

For more information, visit the [Honors College website](#) and contact the director.

## HONORS COURSES

Honors courses offer special academic challenges and opportunities for intellectual inquiry. These courses require a measure of independent reading, thinking and questioning. Students are expected to assume a greater portion of the responsibility for learning. Course requirements include activities to develop writing, research and analytical skills.

Honors courses are open to students in the University Honors College, students with a cumulative GPA of at least 3.35 and other students with permission from the instructor. A grade of B- or higher must be earned to qualify for the honors designation on the student's record.

Undergraduate

## Graduation Requirements

### Overview of Graduation Requirements

#### The General Education Program

Consistent with Millersville University's liberal arts-based education, the purpose of general education is to provide breadth of knowledge as a balance and complement to the depth provided by the major. This is necessary for the holistic development of Millersville graduates as responsible citizens in a diverse and technologically complex global community. Students, working with advisors and taking into consideration prior knowledge and experience, purposefully select courses in the general education curriculum that meld with required courses, cocurricular and extracurricular activities, and courses in the major to achieve the following objectives:

#### Foundations for Lifelong Learning

Students will think, speak and write clearly. This is evidenced by: a. the clear presentation of ideas in formal spoken, written and media forms. b. the use of effective communication for ongoing dialogue. c. the ability to find appropriate sources of information, evaluate that information and integrate that information into a final product. d. the use of statistical methods and other techniques of mathematics to analyze and solve problems.

### **Critical Thinking Across the Liberal Arts**

Students will demonstrate foundational knowledge of the important ideas and methods of different ways of knowing as follows:

1. Courses in the arts and humanities challenge students to examine, analyze and critically evaluate artifacts of the human intellect and imagination to illuminate the complexity of the human experience. Through exposure to multiple voices, insights, objects and other creative works, students explore and interpret questions of meaning, fact and value. Ultimately, this engagement expands knowledge, deepens empathy and encourages collaboration between diverse individuals and communities.
2. Courses in the sciences and mathematics develop students' understanding and knowledge of scientific and mathematical reasoning and of strategies for logical problem solving. Students are challenged to recognize that scientific explanations offer falsifiable predictions, that claims must be supported by evidence and logical reasoning, and that the nature of scientific discovery and knowledge is fluid. Courses emphasize that the scientific meaning of fact, theory and law are not a hierarchy, and give students an appreciation of essential creative aspects of scientific process and discovery.
3. Courses in the social sciences focus on the intricate relationship between human behavior and social institutions. Through qualitative and/or quantitative methods of inquiry, students discover and ascertain how human beings behave and are expected to behave, within certain contexts. This interaction allows students to comprehend and articulate the relationship between behavior and context across people, cultures, time and place.

### **Connections and Exploration**

Students will connect important ideas and methods of inquiry from different disciplines as a means of becoming holistic and responsible citizens in a diverse and technologically complex global community. Students will:

1. demonstrate civic and social responsibility.
2. grow in their engagement with peoples of diverse histories and communities, both inside and outside the United States.
3. build the foundation for a lifelong process of understanding, developing and monitoring healthy lifestyle behaviors in all dimensions of wellness, including physical, social, emotional, intellectual, spiritual and environmental wellness.
4. gain personal enrichment by developing new interests that can be enjoyed throughout a lifetime.

To meet these objectives, the general education program is organized into a structure with three components: Foundations for Lifelong Learning, Critical Thinking Across the Liberal Arts, and Connections and Exploration.

## **General Education Structure (minimum 48 credits)**

### **Foundations for Lifelong Learning Component**

#### **ENGL 110 English Composition**

**(0-3 credits)**

This college-level competency requirement is in addition to the precollege proficiency requirement described earlier. Competence in English composition must be demonstrated in one of the following ways before the junior year:

1. Achieving a combined score of 1100 in the verbal portion of the SAT and the SAT II English Writing Test. This is recorded as a waived requirement and does not cover credit hours.
2. Achieving a score of 3 or higher in the Advanced Placement (AP) test in English Composition.
3. Achieving a satisfactory score in the CLEP subject examination in English Composition.
4. Passing the English Composition Competency Examination administered by the English department at the beginning of each fall and spring semester.
5. Earning a grade of C- or higher in ENGL 110 English Composition.

### **COMM 100 Fundamentals of Speech**

**(3 credits)**

College-level competency in speech must be demonstrated in one of the following ways, preferably before the junior year:

1. Earning a grade of C- or higher in a competency examination administered by the Communication & Theatre department. To take this examination, register with the Communication & Theatre department by the end of the drop/add period.
2. Earning a grade of C- or higher in COMM 100 Fundamentals of Speech.

### **Approved MATH course**

**(3-4 credits)**

To develop mathematical reasoning ability, at least one approved general education math course must be successfully completed.

### **Advanced Writing**

**(3 credits)**

A course to further enhance writing skills. Students who successfully complete their English composition requirement will take one of the approved Advanced Writing courses during their junior or senior years. Some departmental honors theses (499) are approved to meet this requirement. Some majors require a specific Advanced Writing course. Students should consult the appropriate curriculum sheet and their academic advisors before choosing a particular Advanced Writing course.

### **Critical Thinking Across the Liberal Arts Component**

**(9 courses—minimum 27 credits)**

Three courses (minimum 9 credits) each in Humanities and Fine Arts (G1), Science and Mathematics (G2) and Social Sciences (G3).

In Science and Mathematics, two of the three courses must come from biology, chemistry, earth sciences and/or physics, including one which has a laboratory (L) component.

No more than two courses within each Liberal Arts area may be from a single department. Additionally, at least three courses taken throughout the three Liberal Arts areas must be at the 200 level or above.

Up to six courses required for the major from departments outside the major may be credited toward the Liberal Arts Component, but courses taught by the student's major department may not be credited here.

### **Connections and Exploration Component**

A total of nine credits from the following areas are required to complete the Connections and Exploration Component. Approved Wellness Course (3 credits) The Wellness requirement is designed to assist students in making positive lifestyle changes that reduce their health risks, modify their consumer behavior and enhance their personal well-being and productivity.

### **Perspectives Course**

**(3 credits)**

A major function of these courses is to apply analytical and critical thinking abilities in resolving major social, cultural, scientific/technological and/or aesthetic problems. They are interdisciplinary and/ or multicultural in content and require a high level of educational maturity, knowledge and thinking. Perspectives courses encourage undergraduate students to make independent and responsible value judgments and decisions.

Perspectives courses integrate the knowledge acquired throughout the baccalaureate experience. For example, perspectives courses nurture and extend the basic communications skills developed in the Foundations for Lifelong Learning Component of general education. Moreover, perspectives courses demonstrate how different areas of knowledge gained in the Critical Thinking Across the Liberal Arts Component of general education are complementary. The following stipulations apply to perspectives courses:

1. Prior to enrolling in a perspectives course, each student must have successfully completed English composition, fundamentals of speech and earned at least 60 credits (junior standing).
2. Students must satisfactorily complete one 3-credit perspectives course from a list of approved courses, which may be either in the major department or outside the major department.
3. No perspectives course may be counted within the Critical Thinking Across the Liberal Arts Component of general education.

4. Students who complete an academic fall or spring semester abroad as part of a baccalaureate degree will be considered to have fulfilled the perspectives requirement. International students studying at Millersville will also be considered to have fulfilled the perspectives requirement. This waiver does not cover credit hours. A student employing this waiver will be required to satisfy three credit hours of general education courses in lieu of the waived three-credit perspectives course. This is in addition to any other Open Elective requirements of the student.

### **FIRST YEAR SEMINAR (FYEX 100)**

**Definition:** First-Year Seminar (FYS) courses are designed to support students' successful transition to university life. These courses use at least one high-impact educational practices to develop and foster skills that will lead to success in college, career, and personal life. Each seminar focuses on a different topic/theme of strong interest to faculty and students.

### **OUTCOMES**

A student will be able to:

1. Demonstrate autonomy and competence in planning for personal and academic goals.
2. Identify resources and practice strategies to support personal and academic success.
3. Develop effective communication, critical thinking skills and dispositions, and information literacy skills to explore academic content.
4. Recognize the value of diverse perspectives as a citizen of the university community.

### **Additional Requirements**

#### **Cultural Diversity and Community**

Each student must satisfactorily complete one 3-credit cultural diversity and community course from a list of approved courses. This course may also count toward any additional requirements (major, minor or general education) of the baccalaureate degree. Cultural Diversity and Community is a requirement of the Connections and Exploration Component of general education. This requirement aligns general education with the University's mission to foster in students an appreciation for cultural diversity. Here, "cultural diversity" refers to the differences among people in terms of beliefs, customs, values, politics and experiences. In essence, culture is a worldview; it is both learned and evolved. The following factors are seen as underlying these differences: age, economics, education, gender, geography, language, nationality, occupation, physical ability, race and ethnicity, religious affiliation and/or sexual orientation, among others. A Cultural Diversity and Community course is more than a mere survey or exposure of the students to different cultures; rather, it teaches students to think critically about the basis for intercultural differences.

#### **Writing**

These courses ensure that undergraduate students have the opportunity to develop competence and confidence in their writing skills. The English 110 competency must be satisfied prior to enrollment in "W" courses. Each student must satisfactorily complete three 3-credit courses from a list of approved courses. These courses may also count toward any additional requirements (major, minor or general education) of the baccalaureate degree.

Undergraduate

## **Special Academic Opportunities**

### **Overview of Special Academic Opportunities**

#### **DEPARTMENTAL HONORS**

This program provides an opportunity for superior and highly motivated students to pursue a specialized area of interest intensively and independently. Upon successful completion of the program, students are recognized for their achievements at graduation with the designation of Departmental Honors on their University record.

To be eligible for the program, students must have a cumulative GPA of at least 3.0 and the endorsement of the department.

The program generally consists of two to four semesters of supervised tutorial work, reading, self-instruction, creative inquiry and research, which culminates in the production of a thesis or project. One to four credits may be earned for each of the departmental honors courses (see specific departments' requirements). Grades in these courses are determined by the faculty supervisor and departmental committee.

Final theses or projects are examined by and orally defended before the departmental committee. Grades of B- or higher must be earned on them. They are then presented to the Honors and Awards Committee for review. Titles of completed works are published in the commencement program. Contact the department office for an application and more information.

## **WINTER AND SUMMER SESSIONS**

Winter and Summer sessions allows students to complete additional courses between regular semesters. Courses are open to students from other institutions of higher education as well as Millersville students. Residence halls and dining facilities are closed during winter session. For more information, call the registrar's office at (717) 871-5005 or CGSAL office at (717) 872-3099, or check the University website.

## **INDEPENDENT STUDY**

Independent study allows students to pursue, with faculty supervision and guidance, an academic area of interest not available through an established course. To apply, students must complete a special studies assignment form, available in department offices and in the online Student Forms Center and obtain approval for the proposed topic and faculty supervisor from the department chairperson and school dean before the start of the term.

## **INDIVIDUALIZED INSTRUCTION**

Individualized instruction allows students to complete an established course during a semester in which it is not offered. Approval to pursue a course through individualized instruction is granted only under special circumstances. To apply, students must complete a special studies assignment form, available in department offices and in the online Student Forms Center and obtain approval for the proposed topic and faculty supervisor from the department chairperson and school dean before the start of the term.

## **TAKING GRADUATE COURSES AS AN UNDERGRADUATE**

Well-qualified Millersville University undergraduates may enroll in graduate courses for undergraduate or graduate credit. Specific conditions apply to each of these credit alternatives.

Undergraduates may enroll in 500-level graduate courses for undergraduate credit with permission of the instructor and advisor. The credits earned count toward baccalaureate-degree requirements and cannot be converted to graduate credits.

An undergraduate with a 3.0 GPA or higher may enroll in 500- and 600-level graduate courses for graduate credit. The student must have a maximum of 15 semester hours to be completed in the baccalaureate-degree program. Written permission must be acquired from the advisor, the course instructor, the graduate program coordinator and/or chair of the department offering the course, and the dean of graduate studies. The undergraduate will also need to be admitted as a nondegree graduate student.

A maximum of nine graduate credits may be earned by an undergraduate. These credits may not count toward the completion of the student's baccalaureate degree.

## **PASS-FAIL OPTION AND AUDITING COURSES**

The pass-fail option provides students the opportunity to pursue a course without the usual pressure of earning a grade.

Auditing a course allows a student to attend classes and participate in discussions without the pressures of taking examinations, writing papers or fulfilling other requirements generally associated with earning credit. Students must submit requests to take a course on an audit or pass-fail basis by the end of the add period. See the Grades & Policies section for more information.

## **DEVELOPMENTAL COURSES**

Course numbers beginning with a zero are precollege developmental courses that provide opportunities for students to remediate academic skill weaknesses and develop basic proficiency. Placement in these courses is recommended, and under some circumstances required, following an assessment of the student's basic skills. For more information, see the section on Proficiency Requirements.

A grade of C- or higher is required to demonstrate proficiency in a developmental course. Students who must take a developmental course(s) earn course credit, and the grade is counted in the cumulative grade point average, but developmental course credit cannot be counted towards fulfillment of the general education or graduation requirements for the baccalaureate or associate degree.

## UNDECIDED MAJOR STATUS

Students may seek admission to Millersville without selecting a major. Special academic advisors are assigned to guide undecided students through the general education requirements and assist them in exploring potential majors through the Exploratory Program.

Students who qualify for admission to Millersville, but do not meet admission criteria for a selected major, are classified as undecided until they qualify for study in the major of their choice.

Students with at least 45 credits passed and in undecided status, or changing to undecided status, must either:

1. Declare and be accepted into a major.
2. Complete a review of academic goals as follows: The student, in consultation with an assigned advisor, must propose and have approved by the advisor each semester an academic plan of action that includes a realistic timeline for the completion of degree requirements. The approval form will indicate whether the student is waiting to get into a major and, if so, the reason for nonacceptance into that major. A copy will be filed in the registrar's office.
3. Sign a statement which indicates awareness of the ramifications of remaining in an undecided status but may choose to continue to remain in that status.

Permission to register will be granted only if one of the above requirements is completed.

## OFF-CAMPUS ACADEMIC OPPORTUNITIES

### GRADUATE AND UNDERGRADUATE COURSES

Credit-bearing courses are scheduled at off-campus sites as a convenience to part-time students and working adult students. Graduate courses are available online, at schools in local school districts and/or at off-campus locations in Lancaster and Harrisburg.

Undergraduate courses are offered each semester at several sites in central Pennsylvania. Students enrolled in off-campus sites are welcome and encouraged to use campus facilities and services. For information about off-campus courses, contact the CGSAL, 717-871-7171.

## NONCREDIT COURSES

### CORPORATE UNIVERSITY AND NONPROFIT RESOURCE NETWORK

The Corporate University and Nonprofit Resource Network at Millersville provide customized and training solutions to businesses and community or nonprofit organizations. For information, contact the Corporate University, with offices conveniently located in Millersville and Harrisburg, 717-871-5742, or [Corporate.University@millersville.edu](mailto:Corporate.University@millersville.edu), or the Nonprofit Resource Network, 717-871-5742, or [nrninfo@millersville.edu](mailto:nrninfo@millersville.edu).

### FULL STACK WEB DEVELOPMENT

21 Week Program

PROGRAM OVERVIEW	
Hours:	16 Credit Hours (23 clock hours)
Duration:	21 weeks
Modality:	Online
Prerequisites:	Web Development Foundations
Required Supplies:	Apple or Windows Laptop computer no older than 7 years old (2017+) and at least 8 Gigs of RAM

#### Course Description

This course provides a strong foundation in essential Full Stack Web Development concepts, tailored for individuals seeking to enter the Web Development field. With a mastery-based approach, participants will develop and be required to demonstrate actual competency of relevant skills and concepts, empowering them to pursue a successful career in the ever-growing Web Development industry.

Students will learn HTML, CSS, and Full Stack Javascript, specifically the MERN Stack (MongoDB, Express, React.JS, Node.JS). Additionally students will work with various modern coding libraries, and emerging technologies.

Students will have the opportunity to earn globally recognized IT and cybersecurity certifications. The program's primary outcome is the ability to obtain the professional-level CompTIA A+, Network+, and Security+ certifications, significantly enhancing career prospects in the field. Obtaining each of these certifications shows a very strong foundational understanding of modern technology, network environments, and cybersecurity best practices..

### Learning Objectives

Upon successful completion of the course, students will:

1. Develop and demonstrate a comprehensive understanding of essential Full Stack Web Development concepts
2. Build a strong foundation for a career in the Full Stack Web Developer field, enabling students to more easily expand their knowledge on their own into other languages, libraries, and frameworks.
3. Obtain a Millersville University Certificate of Web Development
4. Gain practical job-seeking skills tailored to the tech industry, as well as technical interview practice

This program is graded on a Pass/Fail basis, and requires at least 80% attendance and satisfactory completion of all required projects. It is designed to transform beginners into job-ready Web Development professionals, prepared to meet the growing demand for skilled practitioners in this crucial field.

### Course Curriculum Breakdown

Topics Covered

- Basics of HTML, and CSS
- Advanced Fundamentals of HTML, and CSS
- CSS Grid/Flexbox
- Thinking like a computer
- Problem Solving Frameworks
- Basics of JavaScript
- Advance Fundamentals of JavaScript
- Basics of React.JS
- Advanced React.JS
- RESTful APIs / Axios
- Express, Node.js, and MongoDB
- Authentication

### IT & CYBERSECURITY FUNDAMENTALS

21 Week Program

PROGRAM OVERVIEW	
Hours:	16 Credit Hours (23 clock hours)
Duration:	21 weeks
Modality:	Online
Prerequisites:	Cybersecurity Foundations
Required Supplies:	Apple or Windows Laptop computer no older than 7 years old (2017+) and at least 8 Gigs of RAM

### Course Description

This course provides a strong foundation in essential Cybersecurity concepts, tailored for individuals seeking to enter various cybersecurity or IT fields. With a mastery-based approach, participants will develop and be required to demonstrate actual competency of relevant skills and concepts, empowering them to pursue a successful career in the ever-growing Cybersecurity industry.

## Learning Objectives

Upon successful completion of the course, students will:

1. Develop and demonstrate a comprehensive understanding of essential Cybersecurity concepts and skills.
2. Obtain a Millersville University IT & Cybersecurity Fundamentals Certificate
3. Obtain CompTIA's A+, Network+, and Security+ certifications.
4. Gain practical job-seeking skills tailored to the tech industry, as well as technical interview experience.

This program is graded on a Pass/Fail basis, and requires at least 80% attendance and satisfactory completion of all required projects. It is designed to transform beginners into job-ready Cybersecurity professionals, prepared to meet the growing demand for skilled practitioners in this crucial field.

## Course Curriculum Breakdown

Topics Covered

- Information Technology Infrastructure
- Information Security Procedures/Processes
- Network Administration
- Network Security/Operations
- VI. Forensics
- Cybersecurity Basics
- CompTIA A+
- CompTIA Network+
- CompTIA Security+
- Job Search fundamentals

## STUDY ABROAD

Study abroad can be a valuable and important part of a student's undergraduate education. Regardless of a student's major, learning firsthand about another way of life and seeing the world from another culture's perspective are invaluable assets for success in our global society.

Millersville University students may study abroad in nearly every country worldwide for a summer, a semester or an academic year. Although most students who study abroad choose to do so during their junior year, students may study and/or do an internship abroad for University credit any time after completing 24 academic credits. International internships for most majors/minors, student teaching abroad and international social work placements are also available.

Whether fluent in foreign languages or only in English, students may participate in study abroad through Millersville's own international partners, through other accredited U.S. institutions' programs or directly through many international universities. Millersville offers its own study/intern-abroad programs with universities in over 10 countries.

Traditional: Exchange Partners

MU has a direct relationship with several international universities. An exchange program allows a student from Millersville and a student from the host university to trade places for a semester or an academic year.

Traditional: Direct University Partners

MU has a relationship with several international universities that provide a discount for semester and summer options. Students pay directly to the partner in these programs.

Traditional: Affiliated Organizations

Affiliated programs are generally run by a third-party organization or program provider. IPS has a direct relationship with the organization, and in turn, the organization has direct relationships with international universities. Students participating in these programs take their courses at the Affiliates' partner institutions or centers with other international students and/or locals.

MAPS: Millersville Abroad Programs

These are shorter study abroad programs, typically between 1-3 weeks in length. They are guided experiences led by Millersville staff or faculty, who take a group of students, alumni, or community members abroad. Some programs are for credit, some are credit-optional, and others are not for credit.

#### Professional: Internships

There are several ways to gain professional “hands-on” experience in another culture, all while boosting your resume! International internships are available to almost all majors and minors. Students may intern abroad for a semester or a summer session.

#### Professional: Student Teaching

Education majors can complete half of their student teaching placement for certification in an international location. They can also participate in semester or summer placements depending on the school calendar in the host country.

#### Professional: Social Work

Social Work majors can complete their senior field placements in pre-approved sites.

#### Professional: Research

Research experiences allow students to conduct independent research or assist in faculty research abroad. Only Millersville's IRB can give approval to conduct research, however IPS will need to approve your international travel. There are several ways to participate in international research.

**MU-Credit:** You can conduct research through an independent study/ individualized instruction class. You will complete an application to approve the international travel.

**Non-Credit:** You can conduct independent or guided (with an MU professor) research to use for a future honors thesis, project, Made in Millersville, or other reasons. You would not earn credit. You will register your international travel through a Travel Registry.

**Transfer-Credit:** You can conduct research at an international university alongside regular academic classes as part of a traditional study abroad program and transfer the credit back to MU.

#### Domestic and Virtual Programs

Domestic study abroad allows students to study in the U.S. and U.S. territories.

Virtual study abroad allows students to take an online class, and earn credit, through an international university while remaining in the U.S. IPS promotes virtual study abroad programs with an included cultural component. Cultural components may include virtual engagement with local students, cultural gifts, or others.

#### Travel Registry

A Travel Registry is designed for independent or solo travel by students, faculty, staff, alumni, and community members participating in Millersville University-related travel or may be traveling individually with an MU faculty or staff member. These are non-credit programs.

#### Build-Your-Own

If you wish to pursue a study abroad destination beyond the pre-approved program offerings, you may choose to study abroad through another university's programs or study abroad company or combine various program types to create your own experience. These programs must be approved by IPS during Advising.

For more information about study abroad, contact the Office of International Programs and Services, (717) 871-7506, or email [international@millersville.edu](mailto:international@millersville.edu).

## PASSHE VISITING STUDENTS

The purpose of the PASSHE Visiting Student program is to facilitate student enrollment at institutions of Pennsylvania's State System of Higher Education and to enable students to take advantage of courses available across the System, without loss of institutional residency, eligibility for honors or athletics, or credits toward graduation at the home institution.

The student must be matriculated at the home university with a minimum of 12 college-level credits and be in good academic standing.

Students may take a maximum of 24 credits via the Visiting Student Policy.

The student who presents evidence of good standing at the home university will be allowed to register for courses at other PASSHE universities. The visiting student priority level for registration will be determined by each university.

All credits and grades accrued at other PASSHE universities shall be accepted in full by the home university and thereafter treated as home university credits, residency and grades.

It is the responsibility of the student to work with the student's advisor at the home institution regarding applicability of credits toward graduation requirements at the home institution consistent with PASSHE procedures, and to complete the Visiting Student Notification Form and submit it to the home institution prior to enrolling in courses at another PASSHE institution.

Students cannot use the Visiting Student Program to repeat courses.

Students cannot use the Visiting Student Program for internship or practica that are required for licensure or certification without the express written permission of their appropriate university officials at the home university, and placement availability at the requested institution.

The student shall register at, and pay tuition and fees to, the State System University visited. A student wishing to divide a course load between two institutions during the same term shall register and pay appropriate tuition and fees at both universities.

The Office of the Chancellor will work with universities to establish and publish procedures to identify visiting students such that financial aid, residency, eligibility for honors, eligibility of athletics and credits to graduation are assured.

The Visiting Student Form is available from the registrar's office.

## **STUDY AT OTHER INSTITUTIONS**

Millersville students may take courses at other colleges and universities for transfer back to Millersville. Many students, for example, take summer courses at a college near their home. Students must obtain approval in advance from their advisor, the department chairperson and the registrar. Authorization for Transfer of Credit forms are available in the registrar's office or on the Millersville website, under Student Forms Center. For more information, see the Transfer Credit section.

Exchange Agreement with Franklin & Marshall College. Through this exchange agreement, full-time Millersville students may, with approval, pursue courses not available at Millersville at Franklin & Marshall College. No tuition is charged by Franklin & Marshall College. This agreement does not include courses offered during the summer or winter at Franklin & Marshall. See the approval form, available in the registrar's office, for additional requirements.

Exchange Agreement with Lancaster Theological Seminary. Through this exchange agreement, full-time Millersville students who qualify for admission to graduate-level courses may, with approval, pursue courses not available at Millersville at Lancaster Theological Seminary. No tuition is charged by the seminary.

3-2 Cooperative Programs in Engineering. Physics-engineering and chemistry-engineering majors are offered in cooperation with Pennsylvania State University. In addition, the physics department has an engineering program with the University of Southern California. These programs require three years of study at Millersville, with a major in physics or chemistry, and two years in residence in the engineering program of one of the cooperating institutions. Interested students should contact the physics or chemistry department chairpersons for further information.

## **INTERNSHIPS**

Internships provide students with the opportunity to gain professional experience in their chosen field before they graduate, and can be a valuable bridge between college and career. Millersville University offers a strong academic internship program that provides structure and awards academic credits. Students complete internships locally, regionally, nationally and internationally, in both paid and unpaid positions, in businesses, government and nonprofit organizations across a wide variety of academic and professional fields. The work-based learning is part of the total learning experience, which is supervised by a faculty member in the student's major.

Students must have completed 24 credits, be in good academic standing, and have a declared major or minor to be eligible. Individual departments may also establish additional criteria and requirements beyond the University minimum standards. Academic requirements to be completed during the internship include regular meetings with a faculty supervisor and completing an outcomes paper. Students participate in a credit-bearing internship for a minimum of 40 hours of work per credit. No more than 15 credits of internship experience and/or 4 individual internship experiences may be counted towards graduation requirements.

Internships at Millersville University are administered as an academic program through The Career Center, located in Bedford House. Our students benefit from the collaboration between the faculty and the internship program staff in preparing, coordinating and supervising students completing an internship.

For more information about internship opportunities and the University's internship program, please contact The Career Center in Bedford House, or visit the website at <https://www.millersville.edu/careercenter/>.

## **EARLY FIELD EXPERIENCES, PDS, STUDENT TEACHING AND CERTIFICATION**

Undergraduate and graduate teaching experiences, including pre-student teaching (early field experiences) and student teaching internships and student teaching in international and Native American settings, are coordinated through the Department of Field Services.

### **EARLY FIELD EXPERIENCES**

The University maintains a strong commitment to connecting theory and practice through early field experiences, prior to student teaching, in local school districts and childcare settings. Most early field experiences are integral parts of specific education courses, and students must successfully complete these experiences to be admitted to student teaching. Admission to Advanced Professional Studies is required for many of the courses that contain early field experiences. (Please consult the section on [Admission to Advanced Professional Studies](#).) For the early field experiences available in your major, contact your department chairperson. Students need an Act 114 FBI clearance, an Act 34 Criminal clearance and an Act 151 Child Abuse clearance that indicate "No record exists" for eligibility for placement in early field experiences. Students also need a negative TB test. All clearances and a TB test with negative results must be updated yearly and not expire during the early field experience semester. An urban placement experience is a part of the educational program. Additional documents, trainings, personal liability insurance, etc., may be required of some placement settings. Students are responsible for their own transportation during early field experiences.

### **TRADITIONAL STUDENT TEACHING (NON-PDS)**

After successfully completing the necessary requirements outlined below and the related field experiences, students are assigned to full-time cooperating teachers and to University supervisors in area school districts for a full semester of student teaching. This assignment is made by Millersville University's Department of Field Services, working in conjunction with school district administrators.

Millersville's Professional Development School (PDS) is a full-year internship experience that immerses future teachers in a school setting. The senior-year apprenticeship with a master teacher allows selected teacher education students to shift their focus from simply learning about teaching to implementing their learning in the classroom to make a positive impact.

Throughout the year, Millersville teacher education students work in a nurturing environment with their mentor teachers to transition from students learning about teaching to career-ready teachers prepared to be in the classroom on their own. In their fall semesters, students take several classes where their work focuses on improving their classroom environments. This takes place in regional schools. In their spring semesters, students ideally co-teach the same class from the fall, completing the official student-teaching semester. This seamless integration between the theoretical aspects in the classroom and the practical implementation simultaneously occurring in the field creates student teachers able to navigate the ever-changing environments of education.

This award-winning Professional Development School model is recognized by the National Association of Professional Development Schools (NAPDS) for its excellence in training future teachers. In 2014 Millersville University won the Exemplary Professional Development School Achievement Award.

Millersville's PDS model forges a mutually beneficial connection between the regional schools and the University through the close collaboration on this program. Millersville students benefit from this collaboration through extremely successful placement rates.

### **STUDENT TEACHING REQUIREMENTS**

All students (PDS and non-PDS) are eligible to teach in fall or spring semesters and must sign up one year prior to the student-teaching semester. Student are responsible for their own transportation during student teaching.

For admission to the Millersville student-teaching program (PDS AND non-PDS), the following policies apply:

1. Grade point average of 3.0 at the time of student teaching. Effective spring 2010, a GPA below 3.0 and above 2.8 will be accepted; however, higher scores on the content area certification examination(s) will be required in order to meet final Certification requirements in Pennsylvania. Please see the Certification Office for a list of Certification testing scores with the GPA deviation.
2. Students must have earned at least 85 credits.
3. Must be admitted to APS.
4. Satisfactory dispositions record.
5. A negative TB test must be on file with the Department of Field Services.
6. Submission of satisfactory (no record exists) Act 34 (Criminal Record Check) report, satisfactory (no record exists) Act 114 FBI clearance (fingerprint check), and satisfactory (no record exists) Act 151 (Child Abuse History Clearance) report on file with the Department of Field Services.
7. Evidence of having current liability insurance.
8. Submission of a current Personal Information Form.
9. Additional documents/trainings may be required of some placement settings.

## CERTIFICATION

Millersville University prepares students to be able to apply for the following certification areas in the state of Pennsylvania:

- Art
- Biology
- Chemistry
- Dual Early Childhood Education (PK-4) and Special Education (PK-8)
- Dual BSE Subject Area (7-12) and Special Education (7-12)
- Early Childhood Education (PK-4)
- Earth and Space Science
- English
- French
- German
- Mathematics
- Middle Level
- Music
- Physics
- Social Studies
- Spanish
- Technology Education

## CHINCOTEAGUE BAY FIELD STATION OF THE MARINE SCIENCE CONSORTIUM

Millersville is a founding and senior full member of the Chincoteague Bay Field Station of the Marine Science Consortium, a nonprofit educational corporation comprised of regional universities and colleges that operate a marine station at Wallops Island, Virginia. The consortium has several seagoing vessels and laboratories with biological and oceanographic equipment. Newly constructed labs and living facilities for students and staff are provided at the station.

Four 3-week sessions are offered at Wallops Island each summer. See the biology and earth sciences department listings for information on the Chincoteague Bay Field Station of the Marine Science Consortium and the many programs and courses offered there. For more information and to apply for courses, go to [www.cbfieldstation.org](http://www.cbfieldstation.org), or contact the CST.

## SPECIAL EVENTS

For more information on special events at Millersville, visit the University home page: [www.millersville.edu](http://www.millersville.edu).

## SPECIAL FUNDS

The William W. Adams Endowment in support of the Aristides De Sousa Mendes Lecture. Used to support the Aristides De Sousa Mendes Lecture at the annual Holocaust Conference. In the event the Holocaust Conference is discontinued or suspended for more than one year, the interest earned from the endowment should be applied to studies of the Holocaust at the University.

Ashkar Family Fund for Global Experiences. The Fund is being established to support one or more students participating in international education initiatives. Such needs can include but are not limited to financial assistance for long- or short-term study abroad, international internships, and student teaching and research experiences abroad. Decisions regarding the expenditure of the annual spendable income will be made by the Office of International Programs and Services or its successor. Recipients must have a cumulative GPA of 3.0 or greater.

Baseball Excellence Fund Endowment. Funds to support the University baseball program, including but not limited to Benchmark Construction Company, Inc., Living-Learning Community Programming--South Quad Lobby Endowment. The income from the endowment will be used for programming within the Living-Learning Community, South Quad, Lobby.

Albert W. Bender Memorial Endowment. Used for acquisition of materials for the University library.

Harold and Clara Brenner Memorial Endowment Fund. Used for acquisition of materials for the University library.

Robert V. and Virginia K. Brown Endowment for Health and Wellness. Income from the endowment will be used to support programming and other needs related to the promotion of health and wellness within the Center for Health Education and Promotion or its successor.

Class of 1938 Endowed Fund. Used in support of University projects as determined by the president of the University.

Class of 1939 Endowed Fund. Used in support of University projects as determined by the president of the University.

Class of 1949. Funds to be used for library acquisitions.

Class of 1950. Funds to be used for purchasing computers for classrooms and the library as determined by the president of the University or designee.

Class of 1953 Endowment. Income from the endowment is to be used at the discretion of the president of the University or designee.

Diana's Dreamers: Determined to Defeat Breast Cancer. Income from the endowment will be directed towards Millersville University's student health and wellness programming, with a specific emphasis on breast health.

The Dr. Mary Elizabeth Dixon Endowment for Allied Health Professions. To be used for the acquisition of instructional equipment for Allied Health professions in the Department of Biology. Allocation of funds for specific equipment is to be determined by the chairperson of the biology department and the Allied Health Coordinator.

The Amy and Lee Dmizak Honors College Endowment. To support programs associated with the Honors College, with first preference toward assisting with global initiatives. Funds will be used at the discretion of the director of the Honors College in consultation with the University president.

Susan C. and Gerald C. Eckert Service and Philanthropy Endowment Award. Income from the endowment will be directed to a University program in honor of the recipient and as directed by the award recipient.

Endowment for the Arts. To support equipment needs, renovations, maintenance and programs in the arts, including the Winter and Ware centers.

Ermaleen B. Etter Faculty Research Award. Awarded to an education faculty member to conduct research contributing to professional and personal enhancement of professors instructing students with learning disabilities.

Mary Ross Ezzo. Funds to be used toward a literary lectureship.

Paul G. Fisher Endowment for a Symphonic Guest Artist. Funds are directed to the honoraria and expenses to bring distinguished symphonic band conductors or soloists to the University to perform primarily with the Millersville Symphonic Band.

Peter H. Freedman Jazz Concert Endowment. To fund an annual jazz concert.

Helen A. Ganser Endowment Fund. Used to purchase library materials.

Glenna M. Hazeltine Endowment. Used in support of a University conference, to be known as the Glenna M. Hazeltine Women in Mathematics and Science Conference.

William Randolph Hearst Foundation Endowment Fund. Funds support scholarships for the Lancaster Partnership Program.

Elsie Breckbill Hollinger Endowment for Library Acquisition. Used for acquisition of materials for the University library.

Doris Keller Hosler Professorship for the Coordinator for Information Access Services. The professorship is to support an instructional program that will better enable Millersville University students to effectively use the Campus Library Resources. The responsibility of this professional librarian shall be to encourage, develop and educate students in the use of the library facilities at Millersville University.

Instructional Equipment Endowment. Income from the endowment will support purchases and maintenance of instructional equipment at Millersville University.

Eleanor Isaacson Lifetime Achievement in the Arts Award. The income from the endowment will be used to support the Isaacson artist-in-residence. Program expenses may include but are not limited to artist's fees, class materials, workshops, public presentations and associated events.

Ray W. Kauffman Endowment Fund. Funds honoraria and expenses to bring distinguished orchestral performers to the campus to perform with the Millersville Community Orchestra.

Esther Kilheffer Endowment in Earth Sciences. Used for the purchase of instructional equipment for the earth sciences department.

Harry D. Kilheffer Endowment. Used for acquisition of materials for the University library.

William J. Killough Foreign Language Faculty Support Quasi Endowment. Income from the endowment will support the faculty of the Language and Culture Studies department at Millersville University.

Richard '73 and Sally '72 Kuhnert Endowment for Mathematics. Used to provide funds to support department initiatives furthering the mission of the department. The usage shall be determined by the University president and/or his/her designee, typically the chair of the Department of Mathematics, in consultation with the dean of the CST.

Robert F. and Lena Bortner LaCaff '51 Library Support Endowment. The fund will support the Millersville University Francine G. McNairy Library and Learning Forum.

Liddell Field Study Fund Endowment. Awarded to support academic field experiences for students at Wallops Island (or other similar field studies). The funds may be used at the dean's discretion for scholarships for students attending the programs, research stipend, or field equipment to enrich the program. [College of Science and Technology]

Bruce R. Limpert Endowment. Income from the endowment will be used to support the Providence Project at Millersville University under the leadership of Dr. Marlene Arnold. The distribution of the funds will be made by the University president or his/her designee. Upon completion of the Providence Project, all remaining spendable income will be directed to the Entrepreneurship Program.

Frank S. Lisella Endowment for Biology Equipment. Funds to be used by the biology department to purchase equipment that will support the education of students.

Anna Funk Locky Lectureship Endowment Fund. Funds support a lectureship in education.

Susan P. Luek Psychology High-Impact Practices Endowment. The income from the endowment will support student-faculty research needs within the Department of Psychology or its successor, such as research supplies and portions of the costs associated with students or faculty preparing for, traveling to or presenting at conferences.

Elsie McAuslan Library Endowment Fund. Used to purchase materials for the library.

William M. and Winifred Cooke McCain Endowment. Used for acquisition and restoration of material of historical value to the Millersville University Archives and Special Collections.

Mary McGrann Award. Award is to be used to procure specialized supplies, equipment and services necessary to assist a deaf or hearing-impaired person in achieving his/her academic goals while enrolled as a full- or part-time student at Millersville University. A student from Lancaster County shall receive first preference for the use of these funds. Should multiple students need these funds, the decision on their expenditure shall be made by the University president or his/her designee.

The Melva S. McIlwaine Masterclass and Concert Endowment. Used to provide students of Millersville University with direct access to nationally and internationally recognized artists in vocal and instrumental music—classical, popular and jazz through master classes and concerts, which will also benefit the community at large. A committee shall be appointed by the University president or her/his designee representing the major performing music areas—vocal, instrumental, keyboard, percussion—who shall select the artists for the featured events.

Paul J. McNerney Memorial Lecture Endowment Fund. Funds cover direct costs of invited distinguished guest lecturers, who will lecture within the physical sciences.

Meteorological Endowment. Established in memory of Dr. Russell DeSouza for equipment acquisition for the earth sciences department.

Mowery Family Baseball Scholarship Endowment. Awarded to support the Millersville University baseball program including but not limited to scholarships, travel costs, equipment and field improvements. Use of the fund will be determined annually by the men's baseball coach in consultation with the baseball coaching staff and the athletic director.

Karen A. Murley Student Undergraduate Research Fellowship Program in Chemistry. Applicants to the program will be evaluated by the department and admitted based on:

1. GPA (>3.7 preferred, second preference >3.5).
2. Academic standing (minimum 45 credits).
3. A brief 500-word personal statement of future plans (graduate school preferred).
4. Applicants must already be accepted into a faculty research program (MU faculty research program has first preference).

Participants in the Karen A. Murley SURF Program in Chemistry must

1. Apply to the program and plan research with their faculty mentor during the spring semester. Biography to be posted to the website for the Karen A. Murley SURF Program.
2. During the summer, participants spend 10 weeks working at least 25 hours/week as research assistant.
3. In September, participants must submit a formal report summarizing summer research findings. They will also be recognized, by a commemorative plaque in the department, for participation in the Karen A. Murley SURF Program in Chemistry.
4. During the fall semester, participants will present during the Fall Speaker Series for the department on their research findings.
5. In the spring following their participation in the program, participants will present a poster summarizing summer research findings at the National American Chemical Society meeting and at Made in Millersville.

C. Maxwell Myers Endowed History Memorial Fund. Used to purchase library books for the history department.

Conrad Nelson Endowment in the Fine Arts. Income from the endowment will be used to fund an artist-in-residence program.

Joseph F. Noonan Memorial Academic Student Activities Endowment. The income from this endowment will be used to finance activities for students that will enhance their academic program. Funds to be awarded on proposals submitted to an All-College Committee established by the Vice President for Academic Affairs.

The Petras Endowment for Equipment. The income from the endowment will be used to purchase computer equipment for classrooms or the library.

Melzer R. Porter Memorial Library Fund. Used to purchase music literature for the music collection of the library.

Carl R. Rees Mathematics and Computer Science Fund. Used to advance faculty development in the mathematics and computer science departments.

The Robertson College of Science and Technology Instructorship Endowment. Awarded to untenured faculty in the College of Science and Technology for release from one course to pursue research. First preference will be faculty in their first year. If there is no new hire in a particular year, a one-course release time award may be granted to other faculty members with the following priority: faculty in their second year of tenure-track service, followed by those in their third year, followed by those in their fourth

year. If no tenure-track faculty member is eligible in a particular year, the Instructorship will not be awarded, and the spendable income will be returned to the endowment principal to enhance future earnings. Additionally, in any year in which a portion of the spendable income is unused, that portion will be returned to the principal as well.

College of Science and Technology Dean's Discretionary Endowment. Used to provide funds to be allocated flexibly to support college programs consistent with the mission of the college. The usage shall be determined by the University president and/or his/her designee, typically the dean of the College of Science and Technology. Funded by Richard '73 and Sally '72 Kuhnert.

Elsie S. Shenk Endowment. Used in support of the Wellness and Women's Center Program.

Jestina Stahl Endowment for Library Support. Funds are directed to the acquisition of materials for the library.

Samuel Bechtold Stayer and Caroline Nissley Stayer Endowment. Awarded to faculty within the College of Education and Human Services for activities which enhance both their professional development and the academic development of their students and ensure that Millersville University maintains a leadership role for programs in education.

Carl Van Stephenson Memorial Library Fund. Used to purchase library books.

Susquehanna Bancshares Nonprofit Internship Program. The income from the endowment will be used to support the students and programs associated with the Susquehanna Bancshares Nonprofit Internship program. These costs include but are not limited to student stipends and program costs.

Tell School of Music Excellence Fund Endowment. The fund will support the music program, including but not limited to scholarships, equipment, guest performers, student travel funds, etc.

Richard Cecil Todd and Claudia Pennock Todd Athletic Endowment Fund. Used to develop and maintain an outstanding athletic program, including all men's and women's varsity sports. Only the men's varsity basketball program shall be excluded from this fund. It is recommended that funds be used for athletic scholarships, the strength-training facility, and sponsorship of and participation in appropriate tournaments.

Richard Cecil Todd and Claudia Pennock Todd Basketball Endowment Fund. Used to develop and maintain an outstanding men's varsity basketball program.

Richard Cecil Todd and Claudia Pennock Todd History Endowment Fund. Used for unrestricted purposes within the Department of History. The benefactor recommends the following to be considered: continued participation in the National History Day Project (or comparable project), undergraduate scholarships, lecture series, student retreats, departmental publications, special equipment or distinguished history chair.

Richard Cecil Todd and Claudia Pennock Todd Library Endowment Fund. Used to support the University library. The funds shall aid the University in its quest for excellence and shall be used to supplement and not replace regularly budgeted state funds for the library.

Richard Cecil Todd and Claudia Pennock Todd Presidential Endowment Fund. Used to benefit the University at large. The fund shall be unrestricted in nature.

Richard Cecil Todd and Claudia Pennock Todd Social and Cultural Growth Endowment Fund. Used to promote social and cultural programs at the University and to develop in students a thoughtful and well-informed attitude towards problems of current significance and towards that which is fine in music, art, literature and drama.

United Campus Ministry Endowment. Funds will support program/activity needs for United Campus Ministry (UCM).

Kay E. Vandergrift and Jane A. Hannigan Innovator-in-Residence Program Endowment. The income from the endowment will be used to support costs associated with the "Innovator-in-Residence" program. This program will bring an "innovator" to campus for up to three days to interact with the Millersville University community, including class presentations, workshops, public presentations and associated special events. Costs may include but are not limited to speaker honorariums, travel expenses and associated presentation materials.

Walter B. '42 and Betty Waetjen Global Opportunities Fund. Funds to support program needs associated with either education-abroad initiatives or on-campus internationalization efforts. Such needs can include but are not limited to expenses related to providing financial assistance for students to participate in study, internships, student teaching or research experiences abroad; hosting visiting faculty and students from abroad; program support for said students and faculty; and costs associated with establishing, promoting or monitoring student programs with international academic partner institutions.

Robert S. and Sue A. Walker Center for Civic Responsibility and Leadership Endowment. The income from the endowment will support the Walker Center for Civic Responsibility and Leadership programs: student-centered educational and developmental projects and activities.

Michael Warfel '84 Fund for International Student Experiences. Awarded to support program needs associated with either international education initiatives or on-campus internationalization efforts. Such needs can include but are not limited to expenses related to providing financial assistance for students to participate in long- or short-term study, internships, student teaching or research experiences abroad and hosting visiting faculty and students from abroad. Decisions regarding the expenditure of the annual spendable income will be made by the Office of International Programs and Services or its successor.

The Ware Center Endowment. Funds to be used directly for annual operational support restricted to building maintenance and to program support for music and performing arts at the Ware Center at 42 N. Prince St., Lancaster, Pa., in perpetuity.

Donald E. Weiman Instructional Equipment Endowment. Award used to support the repair or purchase of equipment for the chemistry department.

Harold R. Weirich Memorial Lecture in Biology Endowment Fund. Funds support annual lecture in biology.

Women's Issues Endowment. Awarded annually to members of the University community for conducting or disseminating research or organizing programs that focus on issues of central concern to women.

Women's Studies Endowment. Awarded to support teaching, the conducting or dissemination of student or faculty research, or the organization of, or attendance at, programs focusing on issues of concern to the women's studies program.

David Zubatsky Endowment for International Studies. Used for acquisition of materials of value for the University library to establish a collection for international studies.

Dr. David S. and Marie N. Zubatsky International Studies Scholarship and 20th-Century Art Library Materials Fund. Used for acquisition of 20th-century art resources for the University library.

David S. Zubatsky Endowment for Judaic Studies. Used for acquisition of materials for the University library to establish a collection for Judaic studies.

## **Special Information Related to Courses taken in Spring, Summer, and Fall 2020**

The international COVID-19 pandemic caused an interruption to the usual delivery of courses during the spring and summer 2020 terms at Millersville University. All courses not already scheduled as remote learning were converted to a remote-learning modality during this time. To support students during this unprecedented event, several academic processes and policies were amended or suspended until normal university operations were able to resume. To support students in this transition, several academic processes and policies were amended or suspended for the 2020 spring semester. The following apply only for the spring 2020 semester:

- Undergraduate students were offered the option to have courses converted to remote learning graded as pass/fail. Courses graded using the pass/fail scale were exempt from the policies and restrictions that are otherwise applied to pass/fail grades. Credits earned in these courses do count towards degree requirements (including major, minor, general education and credit minimums required for graduation) but are not used in the computation of cumulative grade point average. The adapted pass/fail policy was extended to fall semester 2020.
- Deadlines for withdrawal from a spring 2020 course were extended by one week to the end of the 11th week of classes.
- Deadlines for resolving incomplete grades from fall 2019 and winter 2020 were extended from April 3 to May 1, 2020.
- Deadlines for incomplete grades assigned in spring 2020 were extended from the 10th week of the semester to December 4, 2020.

Academic standing determination was suspended for the spring 2020 and fall 2020 semesters. The following amended scale was used to determine spring 2020 and fall 2020 academic standings:

Students with a Millersville University CGPA of 2.00 or greater are in satisfactory academic standing. Students with less than satisfactory academic standing at Millersville are subject to academic warning or continued probation, as follows:

REVIEW CREDITS	CUMULATIVE GPA	ACTION
0.5-16.0	Below 2.00	Warning Letter
16.5 or more	Below 2.00	Probation
32.5 or more	Below 2.00 while on Probation	Dismissed <sup>1</sup>

<sup>1</sup> Students on probation at the end of a summer or winter session will be continued on probation for the following semester and cannot be dismissed. A student cannot be dismissed at the end of any fall or spring semester in which he/she has earned a 2.00 or greater semester GPA, even if the CGPA remains less than 2.00.

**Note:** Review credits do not apply to students admitted on probation. Students admitted on probation must achieve at least a 2.00 semester GPA or face dismissal.

Undergraduate

## Scholarships and Awards

### Overview of Scholarships and Awards

A scholarship is a financial grant for a student's tuition. The grants are based on specific criteria such as financial need or a particular academic or athletic excellence. Recipients are chosen by the Millersville University president or her/his designee. All scholarships/ awards listed are not renewable unless specifically indicated otherwise in the description.

For general information regarding other scholarships, contact the department found in the brackets [ ] at the end of the scholarship criteria.

### Scholarships - Academic

Dr. Joseph J. Abromaitis Family Industry and Technology Department Scholar-Athlete Scholarship. Awarded to a full-time male or female student majoring in industry and technology who participates in an intercollegiate sport in the year the scholarship is awarded. The recipient must be full-time, maintain a 3.0 GPA and be a sophomore, junior or senior for renewal. [Applied Engineering, Safety & Technology]

African-American/Latino Alumni Scholarship. Awarded to African-American and Latino students who are full-time undergraduates. Recipients must have a minimum CGPA of 2.5 with 36 or more credits. A written essay and interview are required. [AA-LAS Committee]

All-Greek Council/Stefanie Wojcik Scholarship. Awarded to a student affiliated with an organization that is a member of the All-Greek Council. [Student Affairs]

American Association of University Women Scholarship. Awarded to a "nontraditional" female student from the Lancaster area who has completed 90 credits and is one year from completing her degree requirements. [Financial Aid]

American Dream Scholarship. Awarded to a student(s) of academic promise who is committed to community involvement and shows demonstrated financial need. The award is renewable for an additional six semesters (total of eight). [Financial Aid]

American Industrial Hygiene Association Scholarship. Awarded to a student majoring in occupational safety and environmental health or a related discipline, and who has demonstrated a proclivity toward industrial hygiene. Applicants must have completed 60 credits, including 12 in industrial hygiene, and have a GPA of at least 2.5. [Applied Engineering, Safety & Technology]

Eugene and Dora Androlunis Scholarship. Awarded to orphaned students or students who have financial need who are also residents of the community of Shenandoah, Pa., or its vicinity. [Financial Aid]

Robert Andriulli Scholarship for Painting. Awarded to a rising sophomore or junior who demonstrates excellence in painting. [Art & Design]

The Judge and Mrs. Anthony R. Appel Scholarship. Awarded to at least two music majors at Millersville University, with preference to students with demonstrated financial need. The recipients must audition with the music department. The scholarship is renewable, provided the students continue to major in music and remain in good academic standing. The students may receive the scholarship for a total of eight semesters. [Music]

APSCUF-MU Scholarship. Awarded to two undergraduates enrolled part-time or full-time in a degree program at Millersville. Applicants must have completed 45-75 credits, including at least 9 at Millersville, and have a GPA of at least 3.7. Financial need is also considered. [APSCUF Office]

Leo Ascher Music Scholarship. Established by Mrs. Franzi Ascher Nash and awarded to the undergraduate music major who has best developed a musical composition based on one of Leo Ascher's original themes. [Music]

Elizabeth H. Aston and Barbara A. Donan Scholarship. Awarded to an incoming, full-time first year student from Lancaster County in the teacher preparation program in the College of Education and Human Services. Recipient chosen on the basis of excellence in scholarship (demonstrated by GPA and classes undertaken in high school, as well as nationally recognized test scores) and demonstrated financial need. [Admissions]

Laurene Cassady Auken Scholarship. Awarded to students demonstrating financial need. [Financial Aid]

Willard O. Aumack Biology Scholarship. Awarded to students majoring in biology with financial need. [Financial Aid]

Erin and Tom Baker Get Involved! Millersville University Student Leadership Award. Awarded to a student who is enrolled at Millersville full-time and is active in campus organizations and programs with a demonstrated interest in bettering the campus community. The student will have experience as a student leader and an enthusiasm for assisting and working with others from a diverse assortment of backgrounds. [Student Affairs]

Thomas R. Baker Memorial Scholarship. Awarded to a "worthy student of ability" upon completion of the junior year. The Wickersham Scholarship winner is not eligible for this award. [Honors & Awards Committee]

Kendig C. and Nancy Bare Scholarship. Awarded to a student in good standing who has demonstrated musical ability. [Music]

John '65 and Joyce '63 Barilla Education Scholarship. Awarded to a student with demonstrated financial need in the College of Education and Human Services. [Financial Aid]

Beth Ann Barry Memorial Scholarship in Computer Science. Awarded to one rising junior with a GPA of 3.0 or greater within a range of 45 to 70 earned credit hours, has volunteer involvement with the campus and/or local community, is involved with computer science organizations or activities, and has demonstrated the greatest potential to succeed in a career related to computer science. The scholarship is renewable for one additional year, provided the student's GPA remains at 3.0 or greater. [Computer Science]

Ann B. Barshinger Scholarship. Awarded to a first year student from York County with involvement in community/civic activities. Selection will be based on the high school academic and cocurricular record as recommended by the admissions office. The scholarship is renewable for up to three additional years, depending upon the recipient remaining in good academic standing, with a CGPA of 3.0 and with continuing involvement in community/civic activities. [Admissions]<sup>1</sup>

The Prof. Charles Richard Beam Memorial German Scholarship. Awarded to a first year, sophomore, junior or senior student with a major or minor in German. First preference is given to a student with a demonstrated interest in Pennsylvania German studies. Second preference is to a graduate of Ephrata High School (Ephrata, PA). Financial aid is a consideration but not a requirement. This scholarship is renewable. [Language and Culture Studies]<sup>1</sup>

The Beideman Scholarship. Awarded to two to four students in the Honors College selected on academic merit, significant community involvement and/or financial need. [University Honors College]

D. Luke and Elva W. Biemesderfer Scholarship for Merit in Foreign Languages. Awarded annually to an entering full-time first year student majoring in a foreign language. The recipient shall be chosen on the basis of excellence in scholarship and leadership potential. Financial need may be taken into consideration but shall not be the major criterion. [Admissions]<sup>1</sup>

Elva W. Biemesderfer Scholarship. Awarded to a student in the communication and theatre curriculum, with a concentration in theatre. [Communication & Theatre]

Biology Scholarships. Awarded to incoming biology majors in the first year who are full-time students pursuing a B.S., B.A. or B.S.Ed. in biology. Selection shall be based on merit demonstrated by high school class rank or GPA performance, with emphasis on academic performance in mathematics and science courses, standardized test scores (SAT or ACT) and other criteria as determined by the admissions office and the biology department. [Admissions]<sup>1</sup>

Biology Student Investigator Grant. Awarded for research, travel and presentation expenses for students engaged in research within the biology major. First preference is to students enrolled in Independent Biology Research and Biology Honors courses (currently Biology 498 and Biology 499). Covered expenses may include costs to attend, to prepare materials for presentation or to travel to conferences helpful to the student's research efforts, but may not include a stipend. Such travel may occur during the student's academic career at Millersville University or within one year of graduation, provided the travel is included in the student grant application. [Biology]

Grace Doan Bitler and Charles F. Bitler Jr. Memorial Scholarship. Awarded to a student who has both musical potential and financial need. [Music]

Richard and Elaine Blouse Scholarship. Awarded to a business administration major who has a minimum 3.5 high school academic average and a record of community service. The scholarship is renewable for no more than four years, provided the student maintains a minimum academic average of 3.0. Financial need may be taken into consideration in awarding the scholarship. [Admissions]<sup>1</sup>

Board of Governors Scholarships. Awarded to academically talented students demonstrating exceptional extracurricular service, talents and other characteristics that will contribute to a diverse campus community. Pennsylvania residents who will enter as full-time, first-year students in the fall may be considered for the full tuition. [Financial Aid]<sup>1</sup>

Elizabeth G. Botdorf Scholarship for English Studies. Awarded to two full-time first year and/or transfer students majoring in English. The students must volunteer at least five hours per semester for the English department. The scholarship is renewable, provided the students maintain a 3.0 GPA. [Admissions]<sup>1</sup>

Chip and Kathy Brabson, Ph.D. '70 Physics Scholarship. Awarded to an incoming, full-time first year physics major based on merit as demonstrated by high school class rank or GPA performance, with emphasis on academic performance in mathematics and science courses; standardized test scores (SAT or ACT); and other criteria as recommended by the admissions office and the physics department. Financial need shall be a significant criterion. First preference is to a qualifying student from Lancaster Catholic High School or Solanco High School in alternating sequence. The scholarship may be renewed for up to three years, provided the student remains a physics major in good academic standing. [Admissions]<sup>1</sup>

J. Elvin Brenner 1909 Education Scholarship. Awarded to a rising sophomore majoring in education, with first preference to an emphasis on secondary education. The recipient will have a CGPA ranging from 2.5 to 3.25 and will be a middle-income student qualifying for financial need. The scholarship may be renewed for two additional years, provided the recipient maintains a 2.5 CGPA. The amount awarded to any individual student may not exceed one-half tuition, at which time an additional recipient(s) will be eligible. [Financial Aid]

Lyman Brenner '71 History Scholarship. Awarded to a rising sophomore majoring in history, with second preference to social studies. The recipient will have a CGPA ranging from 2.5 to 3.25 and will be a middle-income student qualifying for financial need. The scholarship may be renewed for two additional years, provided the recipient maintains a 2.5 CGPA. The amount awarded to any individual student may not exceed one-half tuition, at which time an additional recipient(s) will be eligible. [History]

Richard F. Brenner 1941 Industrial Technology Scholarship. Awarded to a rising sophomore majoring in industrial technology, with first preference toward a student receiving teacher preparation. The recipient will have a CGPA ranging from 2.5 to 3.25 and will be a middle-income student qualifying for financial need. The scholarship may be renewed for two additional years, provided the recipient maintains a 2.5 CGPA. [Applied Engineering, Safety & Technology]

Robert V. and Virginia K. Brown Scholarship in Industrial Technology. Awarded to a rising sophomore majoring in technology education or industrial technology. The scholarship may be renewed for four additional semesters, provided the student maintains a 3.2 GPA. [Applied Engineering, Safety & Technology]

C-P Flexible Packaging - Gary Nicholas Memorial Scholarship. Awarded to a full-time rising senior in the occupational safety and environmental health program at Millersville who matriculated from York County. Recipient must have a GPA of 3.2 or greater in the program, with consideration given to an acceptable overall GPA. Scholarship to be awarded primarily on the basis of merit, without necessary consideration of financial aid. [Applied Engineering, Safety & Technology]

Michael K. and Neysa M. Callahan Scholarship. Awarded to an entering or transfer student who is a child or spouse of a Benchmark Construction Company, Inc. employee. Scholarship selection will be based on academic average and community involvement. The scholarship is renewable for a maximum of three additional academic years, provided the student maintains a GPA of 2.5 or greater. If a student associated with Benchmark Construction Company does not qualify, then preference is given to a student

from Hempfield High School or to a student-athlete participating in the football program. The scholarship will not automatically be renewed to the Hempfield student or student-athlete, but will be reviewed annually in case a student who is a child or spouse of a Benchmark Construction Company, Inc. employee qualifies. If not, the current Hempfield or student-athlete recipient will receive the scholarship, provided the renewal criteria are met. This process will be followed each year a Benchmark family member is not eligible. [Admissions]<sup>1</sup>

Dr. Rosario Caminero Scholarship. Awarded to a student minoring in the Latina/o Studies program. The student will have at least a 2.5 GPA and have completed at least 15 credits at Millersville University. [Latina/o Studies]

Campus Club Scholarships. Awarded to members of the junior class who have maintained a GPA of 2.0 or higher and who are dependent wholly or in large part upon their own efforts for financing an education. [Financial Aid]

Harry E. Canter Statistics Scholarship. Awarded to the junior or senior mathematics or computer science major who has shown the most outstanding performance in statistics. [Mathematics]

Joseph Anthony Caputo and Linda Ryan Caputo Scholarship in Chemistry. Awarded to an incoming chemistry major based on merit as demonstrated by class-rank performance, scholastic-aptitude examinations and other criteria as recommended by the admissions office. [Admissions]<sup>1</sup>

Eileen Carew Promising Writers Scholarship. Awarded to an English major with a declared Writing Studies option who has achieved excellence or shows promise in writing. The student must have a minimum 3.0 GPA. Special consideration is given to students who have engaged in community service and who demonstrate academic merit and financial need. [English]

Rachel Carson Biology Field Course Scholarship. Awarded to at least two students for field biology courses that require residence at a site other than Millersville University. Recipients must be in good academic standing overall (i.e., at least 2.00 QPA) and within their academic major, and pursuing a B.A., B.S. or B.S.E. in the sciences or mathematics. Although preference may be given to students in the marine biology option, students with majors in other areas of biology, other sciences or mathematics at Millersville University are encouraged to apply. Financial need may be considered, but it is not the deciding factor in selection. [Biology]

Don R. and Judith C. Carter Scholarship for J. P. McCaskey High School Students. Awarded to graduates of J. P. McCaskey High School who matriculated at Millersville University with intent to concentrate either in business or in one or more of the biological or physical sciences. The scholarship may be renewed three times, provided the recipient maintains a 2.8 quality grade point average in the year prior. [Admissions]<sup>1</sup>

Lt. Col. Jo Ann Cashman Scholarship. Awarded annually to a student enrolled in the nursing curriculum who is in good academic standing. Preference may be given, but is not limited to, students who are in financial need. [Nursing]

Ceramics Workshop Scholarship. Awarded to a junior or senior Millersville University student who has completed at least two semesters of ceramics at Millersville University to take a ceramics workshop, which runs for a minimum of two days. Applicants must submit a written proposal to the Department of Art & Design to be considered for this scholarship. [Art & Design]

Ernest and Mary Chamberlin Scholarships. Awarded to students in the adult continuing education program who have earned the highest number of credits (up to 90) and who have a GPA of at least 3.8 in their current program of study. [College of Graduate Studies and Adult Learning]

Christina A. Ciallella Memorial Scholarship. Awarded to a female student who has completed at least 60 credits at Millersville, with no restriction upon major and based upon financial need. [Financial Aid]

The Philip and Lucy Citerone Scholarship. Awarded to a returning sophomore, junior or senior with a major within the College of Business. First preference will be given to a first-generation college student. Financial need is a consideration but not required. If a first-generation student cannot be identified, second preference will be given to the student within the College of Business with the greatest financial need. This award is renewable. [College of Business]

Clark Associates, Incorporated Scholarship. Awarded to a rising junior or senior student at Millersville University who demonstrates leadership skills or shows an attitude of entrepreneurial spirit in how they approach situations. [Financial Aid]

Clark-Yalda Scholarship in Atmospheric Science. Awarded to an incoming first year student majoring in meteorology. The recipient must be in the top 25 percent of her or his high school class and show evidence of strong science and mathematics skills, demonstrated by a combination of class work and standardized tests. First preference is to a student from outside of Pennsylvania

who is also of an underrepresented group; otherwise a qualifying out-of-state student; otherwise an underrepresented student from Pennsylvania; and finally, a qualifying student from Pennsylvania. (Gender is not to be considered an underrepresented category unless a particular gender falls below 30 percent of total enrollment in meteorology.) [Admissions]<sup>1</sup>

Class of 1916 R. Bruce Walter Scholarship. Awarded for an academic scholarship as determined by the University president or designee. [Financial Aid]

Class of 1917 Sanders P. McComsey Scholarship. Awarded to a student who excels in English, payable at the end of the junior year. [English]

Class of 1927 Memorial Scholarship. Awarded to a sophomore majoring in education who has passed 45 credits or more, has an aptitude and ability for the profession of teaching, and who participates in University activities, especially intercollegiate sports. [Academic and Cultural Enrichment Committee]

Class of 1935 Scholarships. Awarded to junior students who are in good academic standing and demonstrate financial need. [Financial Aid]

Class of 1937 Scholarship. Awarded to a first-semester senior who intends to teach. The student must have a GPA of at least 2.5 and two letters of recommendation from teaching faculty. [Academic and Cultural Enrichment Committee]

Class of 1940 Scholarship. Awarded to a student who demonstrates financial need and is majoring in education. [Academic and Cultural Enrichment Committee]

Class of 1942 Scholarship. Awarded annually to an outstanding education major who has achieved academic excellence and has demonstrated financial need. [Academic and Cultural Enrichment Committee]

Class of 1943 Scholarship. Awarded to a senior in the College of Education and Human Services based on exceptional potential as a classroom teacher, and who has earned a total of 96 credits with a GPA of 3.0 or better. [Academic and Cultural Enrichment Committee]

Class of 1944 Scholarship. Awarded to a student majoring in education who has completed at least 60 credit hours and has demonstrated financial need. [Academic and Cultural Enrichment Committee]

Class of 1947 Scholarship/Scholarship for Research Students in the University Honors College. Awarded to a student who is enrolled in the University Honors College, engaged in independent research related to his or her course of study at the University, and demonstrates a need for financial assistance. [University Honors College]

Class of 1948 Scholarship. Awarded to an upperclassman who demonstrates scholastic ability and financial need. [Financial Aid]

Class of 1951 Scholarship. Awarded as an academic scholarship (as determined by the director of financial aid) based upon merit, financial need or both. [Financial Aid]

Class of 1952 Scholarship. Awarded to a student majoring in education and entering his/her junior year (as determined by credits earned) with a GPA of 3.0 or greater. [Academic and Cultural Enrichment Committee]

Class of 1954 Scholarship. Awarded to a rising junior or senior who is majoring in a discipline in the College of Education and Human Services. The scholarship is to be merit based, upon prior volunteerism/enthusiasm for and successful coursework in the field of education. The scholarship is not renewable. [Dean of Education]

Class of 1958 Education Scholarship. Awarded as a scholarship for a matriculating student in education. The scholarship is not renewable. [Academic and Cultural Enrichment Committee]

Class of 1959 Scholarship. Awarded to a student majoring in education. [College of Education and Human Services]

Class of 1961 and 1962 Scholarship. Awarded to a student who is a rising sophomore or junior with a minimum GPA of 3.0 and demonstrated financial need. This scholarship is renewable for up to two additional semesters. First preference will be given to a student majoring in education. [Financial Aid]

Class of 2012 "Sophomore Slump" Scholarship. Awarded annually to a male and female student who are members of the sophomore class with a minimum 2.5 GPA and financial need. First preference will be for students who have performed community service. [Financial Aid]

Edna Butler Cohen '27 Mathematics Scholarship. Awarded to an entering female first year student mathematics major who has demonstrated superior academic excellence. The scholarship may be renewed for up to three additional years if a GPA of 3.0 or higher is maintained and the recipient continues to be a mathematics major. [Admissions]<sup>1</sup>

J. Stanley Cook Scholarship. Awarded to a first-year or returning student with a minimum GPA of at least 3.0 and demonstrated financial need. The scholarship is renewable as long as the student maintains the minimum GPA requirements. [Financial Aid]

Cornerstone Senior Analyst of the Year Award. Awarded to a senior analyst of the Marauder Fund who demonstrates exceptional leadership, quality presentations and thorough research reports, and fosters teamwork and inclusiveness among general members and on the Executive Committee. The recipient will be chosen by the members of the MFSIA (Marauder Fund Student Investment Association). [Financial Aid]

John and Gail Coulson Scholarship. Awarded to an incoming first year or returning student in good academic standing and demonstrated financial need. This award may be renewed at the discretion of the Office of Financial Aid. [Financial Aid]<sup>1</sup>

Council of Trustees Scholarship. Awarded as tuition assistance to the student serving as a member of the Council of Trustees. The scholarship is renewable for the period of time the student serves the Council. [Student Affairs]

Elisabeth Ruth Cramer/Truman A. Bender Herr Scholarship. Awarded to a student majoring in art education who demonstrates financial need. The scholarship shall be presented to a first-year student and may be renewed as long as that student is in good academic standing and has financial need. [Admissions]<sup>1</sup>

Martha B. Gross Culbertson and Bradley J. Culbertson Nursing Scholarship. Awarded to a student with financial need majoring in nursing who is in good academic standing. The scholarship may be renewed, provided the student remains in the major and is progressing toward graduation. First preference is for a qualifying student from York County. [Nursing]

Gladys Cooper Cunningham Scholarship. Awarded to a junior or senior who is most outstanding in early childhood education. [Early, Middle & Exceptional Education]

CVS Health Family Nurse Practitioner Scholarship. Awarded in \$1,000 increments to three students in good academic standing who are interested in Millersville University's family nurse practitioner or physician assistant programs. Recipients must intern/volunteer with an organization that supports underserved populations. [Financial Aid]

Beatrice U. Datesman Scholarship. Awarded to a junior/senior on the basis of scholarship, requiring at least a 3.0 GPA in the major. Student's financial need shall be a determining factor. [Financial Aid]

Aimee Decker Scholarship. Awarded to a deserving Millersville student who is in good academic standing and has financial need as determined by the director of financial aid. [Financial Aid]

Dr. Benjamin J. Del Tito '77 and Anna DeBlois Del Tito Scholarship. Awarded to a student with at least 30 credits completed, a CGPA of 3.0 or greater and financial need. First preference will be for a dual science/music major; second preference is for a science major with a music minor; third preference is for a music major with a science minor. If no students meet the preferred characteristics, the scholarship will be awarded to a biology major. The scholarship may be renewed for two additional years, provided the recipient continues to meet the criteria under which he/she was initially selected. [Financial Aid]

Dr. Cynthia C. Dilgard Scholarship. Awarded to a student with a minimum 3.0 GPA who has taken at least one course on Shakespeare within the English department. Students may be of any major. The applicant will submit an application with a short essay about how Shakespeare relates to his/her life. [English]

William A. Dinges Endowed Veterans Scholarship. Awarded to a veteran from Pennsylvania who is a full-time upperclass student demonstrating financial need, with an academic average of 3.0 or higher, and is renewable for 4-6 semesters. First preference will be given to a veteran who has served in a combat zone. [Financial Aid]

Dr. Dominick '53 and Mrs. Helen DiNunzio Scholarship. Awarded to a full-time incoming first year student from Bristol Borough High School in Bucks County, Pa., who graduated in the top 10 percent of his/her high school graduating class, who achieved an average score of 1200 on his/ her SAT, and who exhibits high standards in character and leadership. If no student from said high school is accepted to Millersville University for admission, a student shall be chosen from among the other high schools in Bucks County, Pa. [Admissions]<sup>1</sup>

William H. and Alma P. Duncan Scholarship in Elementary Education. Awarded to an early childhood or middle-level education major on the basis of financial need, excellence in scholarship, leadership qualities and service to others. [Early, Middle & Exceptional Education]

Dean Dutcher Memorial Music Scholarship. Awarded to an incoming first year student who maintains enrollment as a full-time music major at Millersville University, based on musical talent in an art performance medium. [Music]<sup>1</sup>

Earth Sciences Travel Scholarship. Awarded to a student majoring in earth sciences, with concentration in meteorology, geology or oceanography, to subsidize expenses related to professional conferences relative to the major in which the student is studying. [Earth Sciences]

James C. Ebbert Education Scholarship. Awarded to two incoming first year students demonstrating financial need who have a minimum high school GPA of 3.0 and are in teacher preparation in the College of Education and Human Services. First preference for the scholarship is to a student from the Pennsylvania Migrant Education program, and then to a student participating in the Color of Teaching mentorship program. Scholarships will be disbursed to the students' accounts for tuition, fees, and room and board. [Admissions]<sup>1</sup>

Economics Department Scholarship. Awarded to a declared economics major with a GPA of 2.5 and a 3.0 in courses for the major. Preference is given to a junior who has financial need. [Economics]

B. Jeanne Elder Voice Scholarship. Awarded to a full-time undergraduate student who has chosen to major in voice. Recipient will be selected by the music department and chosen on the basis of excellence in scholarship (utilizing high school GPA and classes undertaken, as well as nationally recognized test scores for entering first year students and overall and major GPA for upperclassmen) and vocal performance skills and/or talent. Financial need may be taken into consideration but shall not be the major criterion. The scholarship is renewable for three additional years, provided the student maintains satisfactory academic progress. [Music]

Robert Elder Business Administration Scholarship. Awarded to a rising junior who is a business administration major demonstrating a strong commitment to the discipline; first preference is to a student with an interest in management. Student must be in good academic standing and have demonstrated financial need. [Management and Marketing]

Daniel G. Engle Scholarship. Awarded on completion of the junior year to a science major for superior scholarship and exceptional University and community service, and for maintaining a 3.0 GPA. [College of Science and Technology]

Paul W. Eshelman Memorial Scholarship. Awarded annually to a junior Industry and Technology student for excellence. The student must have a GPA of 3.0 or higher. Scholarship is to be paid upon the student's enrollment for the second semester of the senior year. First preference is to be given to a student who has demonstrated excellence in woodworking. [Applied Engineering, Safety & Technology]

Ermaleen B. Etter Scholarship in Special Education. Awarded to senior student teachers enrolled in the College of Education and Human Services who have demonstrated professional excellence during their student-teaching experience with learning-disabled children. [Academic and Cultural Enrichment Committee]

John Charles Falck Scholarship for Academic Excellence. Awarded to an undergraduate student on the basis of academic excellence and good character, as determined by the director of financial aid, and renewable each year that the student maintains a passing academic average. [Financial Aid]<sup>1</sup>

Dr. Dominick J. and Frances McAndrew Fanani Memorial Scholarship. Awarded to an incoming first year student in humanities who has achieved a minimum cumulative high school academic performance of 3.3, and has a strong record of high moral character as demonstrated by community service and volunteer experience. [College of Arts, Humanities and Social Sciences]<sup>1</sup>

Faraday Physics Scholarship. Awarded to two entering full-time, first year students pursuing a B.S., B.A. or B.S.Ed. in physics. The recipients shall be chosen based on merit as demonstrated by high school class rank or GPA performance, with emphasis on academic performance in mathematics and science courses; standardized test scores (SAT or ACT); and other criteria as determined by the admissions office and the physics department. Financial need may be taken into consideration but shall not be the major criterion. The scholarships are renewable for two additional semesters, provided the students continue as physics majors with CGPAs of at least 3.0 and GPAs within the major and required related courses of 3.0. [Admissions]<sup>1</sup>

Margaret V. Farster and James R. Farster Scholarship. Awarded to an incoming first year student who is majoring in mathematics secondary education and has financial need. This scholarship will be renewable for an additional three years based upon successful academics and continuance in the major. [Admissions]<sup>1</sup>

Donald Ferguson '70 Scholarship. Awarded scholarship(s) through a gift in memory of Donald Ferguson '70 by his mother, Elizabeth Mary Ferguson. [Financial Aid]

Valborg Fletty Memorial Scholarship. Awarded on the basis of scholarly ability and financial need to a student entering their senior year. [Financial Aid]

Kathy Focht '70 Elementary Education Scholarship. Awarded to an incoming first year or returning sophomore, junior or senior student from Lancaster County majoring in PreK–Grade 4 Early Childhood Education. First preference given to a student with a cumulative GPA of 3.5 or greater. Financial aid is a consideration but not a requirement. This scholarship is renewable. [Early, Middle, & Exceptional Education]<sup>1</sup>

Robert and Darlene Ford Merit Scholarship in Geography. Awarded to a geography major who has completed a minimum of 75 credits at Millersville University by the semester prior to awarding of the scholarship, and who maintains a GPA of 3.2 overall. [Geography]

Robert N. and Darlene I. Ford Scholarship. Awarded to a Penn Manor High School graduating senior in good academic standing who has applied to and been accepted by Millersville University. The spendable income is based on the student's years at Millersville: First year: 12%; Sophomore: 16%; Junior: 24%; Senior: 48%. [Admissions]<sup>1</sup>

Robert N. and Darlene I. Ford Scholarship for Strings. Awarded to a student majoring in music, with an emphasis in string instruments. First preference is to a graduate of Penn Manor School District. [Music]

Forty et Eight (Voiture 42) Scholarship for Nursing Education. Awarded to one or more students enrolled in the nursing program in pursuit of the Bachelor of Science in nursing, the Master of Science in nursing or the nurse practitioner certification program. The student should also demonstrate intent to be active in the practice of nursing upon completion of the program. The award will be made on the basis of academic potential and financial need as determined by the nursing faculty. The scholarship may be renewed on the recommendation of the nursing faculty. [Nursing]

Dr. Abram Foster Scholarship for Excellence in History. Awarded to a student who is a rising junior or senior in history with a minimum GPA of 3.5 and demonstrated financial need. [History]

Gregory and Shannon Freedland Education Scholarship. Awarded to a student from the College of Education and Human Services with a 3.5 GPA or higher. First preference will be given to a graduate of the Lampeter-Strasburg School District. If this is not possible, second preference will be given to a graduate of any existing Lancaster County public high school. Preference will also be given to a student in financial need. This award is renewable for up to four years. [Financial Aid]

Peter H. Freedman Scholarship. Awarded to a student majoring in music. [Music]

Brent D. Frey Technology Education Scholarship. Awarded to a sophomore, junior, senior or graduate student majoring in technology and engineering education with a minimum GPA of 3.0 and demonstrated financial need. The scholarship may be renewed, provided the student continues to meet the criteria. [Applied Engineering, Safety & Technology]

Arthur and Claribel Gerhart Scholarship in Biology. Awarded to a student who is majoring in biology, is in good academic standing and has completed 60 credits by the end of the semester in which the award is made. Preference is given to sophomores and juniors. [Biology]

Sally Gibson Music Scholarship. Awarded to a student majoring in music who has demonstrated financial need. [Music]

Dr. Joseph W. '53 and Susan Fulton '84 Glass Scholarship. Awarded as tuition to a rising junior, with first preference to a nontraditional student. Recipients must be in good academic standing (minimum 2.75 CGPA), with demonstrated financial need. The award is renewable for one additional year. [Financial Aid]

Greek Council Scholarships. Awarded to encourage academically strong high school students with extensive extracurricular involvement to attend Millersville University. [Admissions]<sup>1</sup>

Dr. and Mrs. Stephen Gring Scholarship. Awarded to an incoming first year student majoring in secondary education who has a minimum 3.5 high school academic average and a record of community service. The scholarship is renewable for no more than three years, and the student must maintain a minimum grade point average of 3.0. Financial need may be taken into consideration in awarding the scholarship. [Admissions]<sup>1</sup>

Nancy Zakrewski Groff Memorial Scholarship. Awarded to a first-year student who has demonstrated academic achievement in high school; there is no restriction upon major or field of study. [College of Science and Technology]<sup>1</sup>

Gene Haas Scholarship. Awarded to one or more incoming first year or returning undergraduate student(s) in machinist-based training or engineering programs. Recommended scholarship amounts are from \$500 to \$2,500 per student. Scholarships can be used for tuition, books, student's personal NIMS account, and cost of NIMS credentials and small personal tools the students are required by program to purchase. [Applied Engineering, Safety & Technology]<sup>1</sup>

John and Audrey Hallgren Scholarship. Awarded to a student majoring in music. [Music]

James E. Harf '61, Ph.D., Study Abroad Scholarship. Awarded to offset program expenses for Millersville students in good academic standing studying abroad in a semester- or year-long program or one of shorter-term duration sponsored by or coordinated through the Millersville University Office of Global Education and Partnerships (or its successor). The intention of the donor is to maximize the number of participants in study abroad in a given year through the distribution of the spendable income. First preference will be for students (1) with financial need and (2) who are studying abroad for the very first time. It is understood that all of the financial support monies will be used as awards to the students and applied to expenses directly associated with the study-abroad trip, not for administrative expenses such as a processing fee, for example. Furthermore, recipients will be exempt from all such fees associated with the application process. [Director of the Office of Global Education & Partnerships]

The Willard O. Havemeier and Dr. Catherine Gibson Havemeier Scholarship in Computer Science. Awarded to a student engaged in computer science research. The recipient must have a QPA of 3.0 or greater. Use of the award is restricted to payment for related travel, materials and supplies, including software, and may not be used for student wages or the purchase of major equipment. The research award may be renewed for successive academic years if an overall 3.0 QPA is maintained. [Computer Science]

John '02 and Laura '04 Held Family Scholarship. Awarded to a sophomore majoring in communications or social work (majors selected on alternating years) with a minimum 3.0 GPA. Participation in extracurricular activities is preferred but not required. [Financial Aid]

Don L. and Irene M. Helsel Scholarship. Awarded to a rising junior or senior student (having earned a minimum of 60 credits) in the teacher preparation program in the College of Education and Human Services. First preference is for a student from an underrepresented population whose intention is to teach in an urban setting as demonstrated by participation in a program focused on teaching in an urban educational environment. If such intention cannot be met, the scholarship may be awarded to any student from an underrepresented population in the College of Education and Human Services. The recipient will be chosen on the basis of excellence in scholarship and leadership as demonstrated by participation in school and community activities. Financial need will also be a consideration. Should a junior student be selected, this scholarship may be renewed, provided that the criteria continue to be successfully met. [Academic and Cultural Enrichment Committee]

Dr. Alex Henderson Scholarship in Biology. Awarded to a sophomore or junior biology major who is engaged in a project addressing an issue in biology from an interdisciplinary perspective. [Biology]

The Hepler Award. Awarded to a student in the Lombardo College of Business with a minimum cumulative GPA of 3.2 who is active in Greek life, with first preference given to a member of either Delta Zeta or Sigma Tau Gamma. [Lombardo College of Business]

Mervin W. Hess Scholarship. Awarded to a student(s) interested in a health professional career or a teaching career in math or science who has a high school average of 3.0 or higher and demonstrates financial need. The scholarship is renewable for four years as long as the student(s) maintains an overall academic average of 3.0. [Admissions]<sup>1</sup>

Richard J. Hess Memorial Scholarship. Awarded to a rising senior in psychology with good academic standing. [Psychology]

Albert, Christina and Eric Hoffman Scholarship for Humanities and Social Sciences. Awarded to a student in the University Honors College majoring in humanities and social sciences. [University Honors College]

Albert, Christina and Gregory Hoffman Scholarship for Science and Mathematics. Awarded to a student in the University Honors College majoring in science and mathematics. [University Honors College]

Alan S. and Adeline Holliday Scholarship. Awarded to a student who demonstrates scholastic ability and financial need. [Financial Aid]

The Robert Clark Hosler Scholarship in Industry and Technology. Awarded as basic full-time tuition charged by the University and continues for four years (eight semesters) following the initial award. An additional student shall be added each year so that the total number of students receiving this scholarship at any one time will not exceed four, but that the scholarship in essence will support four students while pursuing the undergraduate degree in industry and technology. The basis of this scholarship shall be academic achievement and shall be determined each year by the industry and technology faculty and the admissions office from the pool of applicants to the industry and technology program. If at any time the program in industry and technology shall be discontinued, this scholarship should continue to be awarded, but based on general academic achievement, for any major in the University and retaining the name The Robert Clark Hosler Scholarship. [Applied Engineering, Safety & Technology and Admissions]

Kathlyn Houlahan Kodaly Music Scholarship. Awarded as tuition to a full-time entering first year student who has chosen to major in music education. Recipient will be selected by the music department and chosen on the basis of performance excellence in musical skills and/or talent as demonstrated in their audition. Financial need may be taken into consideration but will not be the major criterion. [Music]<sup>1</sup>

Hower Earth Sciences Scholarship. Awarded to a junior or senior Millersville University student with a major in the Department of Earth Sciences and who is in good academic standing. First preference to a student with a minimum cumulative GPA of 3.25. Financial aid is a consideration but not required. [Earth Sciences]

Hughes Foundation, Incorporated Scholarship. Awarded as tuition to a qualifying full-time student from Monroe County, Pa. Selected students will have a cumulative GPA of 3.0 or greater. Preference will be given to students with financial need, although need is not required. The scholarship is renewable for up to nine additional semesters, provided the student remains academically qualified and is progressing toward graduation. [Financial Aid]

James Hughes Memorial Scholarship. Awarded to an incoming first year student from the city of Philadelphia who has financial need. [Admissions]<sup>1</sup>

R. Clinton and Dorothy Hughes and Kathryn Hughes Seaber Vocal Music Scholarship. Awarded to a first year vocal music major. May be renewed for three additional years, provided the student remains a voice music major in good academic standing and is progressing toward graduation. [Music]<sup>1</sup>

Russell C. Hughes English Scholarships. Awarded to two incoming first year students majoring in English, for the period of time each is in good academic standing and majoring in English at Millersville University. Students must have a minimum academic average of 3.0 and a history of participation in high school publications. [Admissions]<sup>1</sup>

Iliffe/McCaskey Scholarship. Awarded for a two-semester period to a first-year, independent undergraduate, full- or half-time student who is entering or returning to higher education. The recipient must have properly matriculated, with preference to a woman pursuing a degree. Chosen recipients will have limited access to conventional routes for obtaining student aid. This scholarship is intended to launch a nontraditional student's studies. [Admissions]<sup>1</sup>

Jackson Family International Education Scholarship. Awarded to offset program expenses for a student pursuing a global education opportunity abroad, including, but not limited to, study abroad, internship abroad or student teaching abroad in a program sponsored by, or coordinated through, the Millersville University Office of Global Education and Partnerships (or its successor). This award will be given to a student who is from an underrepresented population and who has financial need. The recipient must be in good academic standing. Second preference will be for a student who is not from an underrepresented population, but who has financial need. [Global Education and Partnerships]

Hazel Jackson Scholarship. Awarded annually to an African-American student majoring in secondary education language arts or the humanities who is in good academic standing and demonstrates financial need. Preference will be given to students from Lancaster County. [African-American Studies]

Jackson Memorial Scholarship. Awarded to a graduate of Hempfield High School who completed junior year and attained distinguished achievement in early childhood or middle-level education. If no Hempfield graduate is eligible, the award will go to the highest ranking early childhood or middle-level education major from a high school in Lancaster County. [Early, Middle & Exceptional Education]

Jacobs Meteorology Scholarship. Awarded to a returning Millersville University student majoring in meteorology who has completed at least 15 credits and is in good academic standing. First preference to a student with a minimum cumulative GPA of 3.25. Financial aid is a consideration but not required. [Meteorology]

Michael Jamanis and Frances Veri Scholarship. Awarded to a student majoring in music who has financial need. [Music]

Charles B. Johnson Memorial Scholarship. Awarded to a student who is a junior, senior or graduate student majoring in social work or psychology. First preference is to a student who plans to pursue a career in a mental-health profession with direct patient contact. [Financial Aid]

The Willa Dean Johnson Memorial Social Work Scholarship. Awarded to a student with a minimum 2.0 GPA. First preference will be to a student studying in the School of Social Work. [Social Work]

William Malcolm Jordan Earth Sciences Scholarship. Awarded to an incoming first year student planning to major in geology or in earth sciences with a geology emphasis. Preference is to be given to graduates of Penn Manor High School. [Admissions]<sup>1</sup>

Kappa Alpha Psi Fraternity, Inc. (Lambda Tau Chapter) Memorial Scholarship. Awarded to students of color with a minimum grade point average or 3.0 who have demonstrated a commitment to service and student leadership. [Financial Aid]

Keever Biology Research Scholarship. Awarded to an undergraduate biology major to train the recipient in the methods and values of scientific research. Preference is given to those concentrating in botany. [Biology]

Esther Kilheffer Scholarship. Awarded to worthy students as determined by the University president or his/her designee. [Financial Aid]

Beatrice M. Killough Scholarship for Spanish Studies. Awarded to an entering first year student enrolled in the Spanish or Spanish education curriculum. The award may be renewed for up to seven additional semesters, provided the student maintains a 3.5 GPA in Spanish and a 3.0 overall GPA. [Admissions]<sup>1</sup>

Joyce Denelsbeck King '83 Scholarship for Women in STEM. Awarded to an incoming first year or current female student majoring in biology, chemistry, computer science, earth sciences, mathematics or physics, excluding all areas of teacher preparation. First preference should be given to a female from Quakertown Senior High School, second preference to a female from Abington Senior High School, third preference would be to a female student with a major in chemistry and fourth preference would be to a female student in an eligible degree program. Financial need is not a requirement. The scholarship is not automatically renewable, and eligibility should be reviewed each year based on preferred criteria. [Financial Aid]<sup>1</sup>

Andrew and Clara Kissh Academic Scholarship. Awarded to an incoming first year student, based upon the student's notable high school academic performance. The scholarship is renewable, provided the student remains in good academic standing. [Admissions]<sup>1</sup>

Esther S. Knaub Scholarship. Awarded to a York County student, as determined by the appropriate college officials. [Admissions]

Richard G. Kokat/Andrei Georgescu Memorial Scholarship. Awarded to an incoming first year student majoring in computer science, based upon both merit and financial need. The scholarship may be renewed for seven additional semesters, provided the recipient remains in good academic standing and is approved by the faculty of his/her chosen major/discipline. [Admissions]<sup>1</sup>

James E. Koken Science Scholarship. Awarded to a student enrolled in a science curriculum or in science education who has completed 55 credits at Millersville University by the end of the semester prior to the semester in which the scholarship is awarded. Preference is given to a chemistry major. [College of Science and Technology]

Michael Kovach Scholarship. Awarded to a student majoring in a foreign language, with first preference to a student majoring in Russian. If a student who meets the above criteria cannot be found, the award will be made to a student with a minimum 2.5 GPA who has successfully completed at least three foreign language courses at the 200 level and above, and/or plans to study abroad. [Language and Culture Studies]

H. H. and Fay Kramer Scholarship. Awarded to a rising junior who is either a math major (preferred) or secondary social studies major. Recipients must have and maintain a GPA of 3.2 or greater. This scholarship is not renewable. [Financial Aid]

David B., Ph.D., and Kathryn Millar Kraybill Scholarship. Awarded to an entering first year student from the Lampeter-Strasburg School District. Selection is based upon financial need for academic studies only, and use of the scholarship is limited to payment of tuition. The scholarship may be renewed for eight semesters or until graduation, whichever is first. [Admissions]<sup>1</sup>

E. Kathryn Millar Kraybill '15 Scholarship. Awarded to a student with financial need majoring in education. [Academic and Cultural Enrichment Committee]

Charlotte A. and Charles J. Lafferty History Scholarship. Awarded to a student(s) majoring in history, interested in applied history, with a minimum high school average of 3.0 and is active in school or community service. The scholarship is renewable for up to seven semesters as long as the student(s) maintains an overall academic average of 3.0 or higher. Demonstrated financial need may also be taken into consideration. [History]

Landis Family International Scholarship. Awarded to a first-year, first-time international student attending Millersville University using a student visa (or current U.S. requirements at the time) who demonstrates successful completion of secondary education in his/her home country and/or provides documentation of successful completion of mandated national exams. The recipient will be proficient in the English language as determined by standardized tests (SAT/ACT/TOEFL as examples). The scholarship will be offered to a student who demonstrates financial need. [Admissions]<sup>1</sup>

Dr. Secunderabad N. Leela Scholarship in Social Sciences. Awarded to a junior majoring in the social sciences. The recipient must have a GPA of at least 2.5 and financial need. First preference is to an underrepresented student. The scholarship is renewable, provided the student continues to meet the criteria. [College of Arts, Humanities and Social Sciences]

Richard S. Levandusky '58 Technology Scholarship. Awarded to a first year student entering any of the AEST programs, to be distributed evenly over two semesters. [Applied Engineering, Safety & Technology]<sup>1</sup>

Harry A. '65 and Carolyn J. Lohss Physics Scholarship. Awarded to two full-time students pursuing a B.A., B.S. or B.S.Ed. in physics. If either recipient is a first year student, that individual must be in the top 20 percent of her or his high school class or have a GPA of at least 3.0 on a 4.0 scale and show evidence of strong science and mathematics skills demonstrated by class work and standardized tests. If awarded to other than a first year student, the recipient must have a CGPA of 3.0 or greater on a 4.0 scale. Financial need may be considered in selecting the recipient, but it is not to be the primary factor. With the annual approval of the physics department chairperson or designee, the scholarship may be renewed yearly for a maximum six additional semesters beyond the first year, provided the student continues to maintain a departmental and overall GPA of 3.0 or greater. [Physics]<sup>1</sup>

Jacqueline Long French Scholarship. Awarded to an upperclassman who has demonstrated interest in the study of the French language, culture, history or art and has a minimum 3.0 GPA with demonstrated financial need. First preference will be given to a student who is majoring in French; second preference to a student who is a French minor. If a student who meets the above criteria cannot be found, the award will be made to a student with a minimum 2.5 GPA who has successfully completed at least three French courses at the 200 level and above, and/or plans to study abroad in France or in a French-speaking country. [Language and Culture Studies]

Gertrude Bettel Stoll and Esther Stoll Barlow Lowry Memorial Scholarship. Awarded to a junior early childhood education major on the basis of an empathic concern for the personal, emotional and educational needs of young children, a GPA of at least 3.0 and financial need. [Early, Middle & Exceptional Education]

Marburg Study Abroad Scholarship. Awarded to students studying abroad in Marburg. [Office of Global Education & Partnerships]

V. J. Marcellis Memorial Scholarship in Education. Awarded to a rising senior in good academic standing who intends to teach at the early childhood or middle level. Preference will be given to a student with financial need. [Early, Middle & Exceptional Education]

Violet F. Markey Academic Scholarship. Awarded as an academic scholarship as determined by the University president or designee. [Financial Aid]

The Martin Endowed Scholar. Awarded to a student demonstrating financial need and maintaining a 3.0 academic average; may be renewed for eight semesters. [Financial Aid]

McCollough Family College of Arts, Humanities and Social Sciences Scholarship. Awarded to a junior or senior student pursuing a major in the College of Arts, Humanities and Social Sciences with demonstrated financial need and who is in good academic standing. [College of Arts, Humanities and Social Sciences]

McCollough Family College of Education and Human Services Scholarship. Awarded to a junior or senior student pursuing a major in the College of Education and Human Services with demonstrated financial need and who is in good academic standing. [College of Education and Human Services]

McCollough Family College of Graduate Studies and Adult Learning Scholarship. Awarded to a full-time graduate student with demonstrated financial need and who is in good academic standing. [College of Graduate Studies and Adult Learning]

McCollough College of Science and Technology Scholarship. Awarded to a junior or senior student pursuing a major in the College of Science and Technology with demonstrated financial need and in good academic standing. [College of Science and Technology]

Dr. William B. McIlwaine Scholarship in Earth Sciences. Awarded to a student majoring in earth sciences who has completed 60 semester hours of academic credit at Millersville University with a GPA of 3.2 or higher and demonstrates financial need. [Earth Sciences]

Francine G. McNairy and Gladys B. McNairy Scholarship for Civic and Community Engagement. Awarded as tuition to no more than two students who are either African American or Hispanic/Latino and who are full-time undergraduates. Recipients must have a minimum QPA of 2.5 with 30 or more credits, evidence of community/volunteer service and financial need. Preference will be given to students with a permanent residence in Lancaster, Philadelphia, York or Reading, as listed herewith in priority order. The recipient(s) will be selected by the African-American/Latino Alumni Scholarship selection committee based on the results of an application process. [African-American/Latino Alumni Scholarship Committee]

MEDAL Fund Academic Scholarship. Established by Millersville University employees and awarded to incoming first year students on the basis of academic merit, and is renewable annually for those who maintain established academic standards. [Admissions]<sup>1</sup>

Joseph and Anita Meier Mathematics Scholarship. Awarded as tuition to an entering first year student majoring in mathematics. The student must be in the top 10 percent of her/his graduating class or have an SAT math score of at least 600, and have a high school cumulative GPA of at least 3.5 on a scale of 4, or comparable if a different scale is used. Financial need may be a consideration but does not have to be the determining factor. The scholarship may be renewed, provided a recipient remains a mathematics major and achieves at least the following: first year CGPA = 3.0 overall and in math; sophomore CGPA = 3.2 and math = 3.25; junior CGPA = 3.3 and math = 3.35. [Mathematics]<sup>1</sup>

Dr. Dale H. Messerschmidt Technology Education Scholarship. Awarded to the full-time sophomore with the highest GPA at the end of the first semester of their sophomore year in the technology education program. [Applied Engineering, Safety & Technology]

Robert S. and Helen R. Metzler Scholarship in Education. Awarded to a student enrolled in the early childhood or middle-level curriculum who has completed 45 credits at Millersville University. Chosen by the department on the basis of financial need and exceptional potential as an elementary teacher. [Early, Middle & Exceptional Education]

Sal Micciche Music Scholarship. Awarded to an incoming first year or returning student majoring in music performance, with primary focus on the clarinet. The recipient will be required to audition. If no student meets this criteria, the second preference would be for a student majoring in music education. [Music]<sup>1</sup>

Miller-Averett Geography Scholarship. Awarded to a full-time junior or senior geography major, with first preference to a student with a concentration in environmental science and a desire to hold a professional position that will advance work on the impacts of and/or adaptation to climate change. The recipient must be in good academic standing with a cumulative GPA of 3.25 or higher. In addition, financial need may be a consideration but is not required. This award is renewable. [Geography]

Millersville University Alumni Association Scholarship. Established by the Millersville University Alumni Association. Awarded to the student with the highest GPA who has earned more than 57 but fewer than 72 credits upon completion of the spring semester. [Alumni Engagement]

Millersville University Alumni Association Legacy Scholarship. Awarded to an incoming first year student who has ranked in the top 10 percent of his/her high school class and has an outstanding record of extracurricular activities and leadership. [Admissions]<sup>1</sup>

Millersville University Business Associates Scholarship. Awarded to female nontraditional students from Lancaster County who are enrolled in the continuing education program. Students must be enrolled for a minimum of six credits with a GPA of 2.5 or better. The scholarship is renewable until the student has completed 15 credits in the continuing education program. [Millersville University Business Associates]

Millersville University Lampeter-Strasburg Excellence Scholarship. Awarded to an incoming first year student who attended high school in the Lampeter-Strasburg School District and who has a high school overall GPA of 3.5 or higher with demonstrated financial need. [Admissions/ Financial Aid]<sup>1</sup>

Millersville University Women's Giving Circle Dorothy L. Connolly Scholarship. Awarded as tuition to a sophomore, junior or senior female student in good academic standing with a CGPA of 2.5 or greater. First preference is to be given to a nontraditional student (currently defined by Millersville University as a student age 25 or over). The scholarship is to be awarded as the result of an application process based on a combination of academic progress, financial need and a personal statement. Financial need is a consideration but is not required. The scholarship is renewable for a maximum of three years, provided the recipient maintains a CGPA of 3.0 or higher. At the discretion of the selecting body, more than one recipient may be selected. The recipient(s) will be selected through an application process by the Women's Giving Circle scholarship selection committee. [Financial Aid]

David R. Morris '01 and Family Scholarship. Awarded to a student with a major within the Lombardo College of Business. Financial need is a consideration but not required. This award is renewable. [Lombardo College of Business]

Charles E. Muench and Betty F. Muench Scholarship in Communications and Theatre Arts. Awarded to an entering senior majoring in communication and theatre arts who has demonstrated financial need, has a minimum overall academic average of 3.0 and exemplifies commitment to and excellence in the discipline of communications. [Communication & Theatre]

Kenneth G. and Elisa G. Munro Education Scholarship. Awarded to a student pursuing a Bachelor of Science in Education (B.S.E.) with demonstrated financial need. First preference will be given to a nontraditional, first-generation college student. Second preference will be given to a first-generation student or a nontraditional student. [Educational Foundations]

Philip C. and Karen Ashkar Murley '63 Freshman Scholarship. Awarded to an entering, full-time first year student from Pennsylvania majoring in either mathematics or physics. Recipient is chosen on the basis of excellence in scholarship (demonstrated by GPA and classes undertaken, as well as nationally recognized test scores) and involvement in school/community organizations. Financial need may be taken into consideration but shall not be a major criterion. The scholarship may be renewed for the sophomore year with an earned total of 30 credits and a GPA of 3.3 or higher. This scholarship is not intended for education majors. [Admissions]<sup>1</sup>

Philip C. and Karen Ashkar Murley '63 Science Scholarship. Awarded to a rising senior from Pennsylvania majoring in either mathematics or physics. The recipient will have an overall grade point average of 3.6 or higher and a grade point average in the major of at least 3.75 with demonstrated performance in courses in the major. The recipient must also be enrolled as a full-time student and registered for a minimum of 15 credits in the semester in which s/he applies. The recipient is chosen on the basis of excellence in scholarship; is an active participant in department projects (e.g., intern); is of superior research potential (e.g., evidence of successful research efforts); and is involved in organizations and activities outside the major. An application is required. Financial need may be taken into consideration but shall not be a major criterion. This scholarship is not intended for education majors. [College of Science and Technology]

Music for Everyone Award. Awarded as tuition to full-time students who have chosen to major in music education. Selection based on GPA, performance in field teaching and Music 171(Introduction to Music Education), and demonstrated success in peer teaching. Financial need may be taken into consideration but will not be a major criterion. Student is expected to teach for three hours each week of the semester in collaboration with music teachers in School District of Lancaster schools (K-8 music program). [Music]

Music for Everyone - Gary S. Miller Percussion Scholarship. Awarded as tuition to one full-time music student (\$2,000) who has chosen to major in percussion. The student will be expected to teach for a minimum of 25 hours over the course of the semester working with MFE's director of community percussion. Selection is based on GPA and is determined by the music department. Financial need may be taken into consideration but is not required. [Music]

Music for Everyone MB Technology Scholarship. Awarded as tuition to two full-time students (\$2,000 to each individual) who teach at the Boys and Girls Club of Lancaster, overseeing their music production program. Recipients will be selected by the music department and chosen on the basis of GPA, performance in field teaching and Music 171 (Introduction to Music Education), and demonstrated success in peer teaching. Financial need will be taken into consideration but will not be a major criterion. The student will be expected to implement programming, creating measurements of success, and possibly evaluate success of programming (if able to facilitate entire curriculum based on time). [Music]

Music for Everyone Music Business Technology Award. Awarded as tuition to six full-time students who have chosen to major in music education. Recipient will be selected by the music department and chosen on the basis of GPA, performance in field teaching and Music 171 (Introduction to Music Education), and demonstrated success in peer teaching. Financial need may be taken into consideration but will not be the major criterion. The student will be expected to teach for three hours each week of the semester in collaboration with a music teacher in the School District of Lancaster schools (K-8 music program). [Music]

Edna H. Myers Mathematics Scholarship. Awarded to an incoming first year student majoring in mathematics. [Mathematics]<sup>1</sup>

National Penn Bank Scholarship. Awarded to an entering student in the bank's service area, with first preference to employees and their families of National Penn Bank. Scholarship selection will be based on academic average and community activities. The scholarship is renewable for three additional academic years, provided the student maintains a GPA of 3.0 or greater. [Admissions]<sup>1</sup>

John David Neider Memorial Scholarship. Awarded to a junior who has made a significant contribution to the success of musical or dramatic performing arts at Millersville and has a GPA of at least 2.0. [Communication & Theatre]

Neimeyer-Hodgson Student Research Grant. Awarded to a student attending Millersville University in pursuit of the baccalaureate degree. [Alumni Engagement]

Stanley M. Nelson Scholarship. Awarded to a full- or part-time graduate student in the field of clinical psychology. The award is renewable for up to three years, and financial need is a consideration. A personal statement and two letters of recommendation are required. [Psychology]

Paul H. Nichols Scholarship. Awarded to a junior earth sciences major, who is chosen on the basis of outstanding motivation and academic excellence. [Earth Sciences]

Joseph P. and Marianne S. '70, M'74 Nolt Family Scholarship. Awarded as tuition for thesis credit courses (up to 6 credits) and as a grant to support applied research associated with that same thesis. Thesis credit courses for the tuition portion may include thesis-related independent study courses. Research grant projects are to be of an applied and scholarly nature, with an intended outcome of an original, practical contribution to the field of education. The initial recipient will be a rising junior with a minimum CGPA of 3.0 pursuing an education degree in early childhood or middle-level education, although that may be expanded to additional candidates after the first year. Financial need may be considered but is not a required criterion. First preference is to a qualifying male student. Unused grant funds at the completion of the research project will be returned to the endowment principal. [University Honors College]

Joyce W. Nolt '63 Snapper Newspaper Scholarship. Awarded to a sophomore, junior or senior student editor of The Snapper newspaper staff. Recipient must be in good academic standing. Financial aid is a consideration but not a requirement. The recipient will be awarded and/or renewed by the president or his/her designee. [Snapper Advisor]

Nontraditional Student Scholarship. Awarded to an independent full-time or part-time undergraduate student who is returning to school, has earned at least 15 credits at Millersville University and has demonstrated financial need. [Financial Aid]

Joseph Oberly Jr. Memorial Family Music Award. Awarded to an incoming first year or sophomore student in good academic standing in the music department. First preference should be given to a student with focused training on the accordion, keyboard, piano and/or guitar. [Music]<sup>1</sup>

The John and Renee Genbauffe O'Leary Scholarship in Science Education. Awarded to a student majoring in the early childhood program, with a keen interest in science. Criteria for selection are prior academic performance, weighted significantly by the student's record of extracurricular/community service, and financial need. [Early, Middle & Exceptional Education]

Fred E. Oppenheimer Scholarship. Awarded to a first year foreign language major based on academic excellence, dedication to foreign language study and financial need. [Admissions]<sup>1</sup>

James C. Parks Scholarship in Botanical Research. Awarded to an incoming first year student with an interest in botany. The recipient of this scholarship is expected to develop a botanical research project, in collaboration with a faculty member, that will lead to the presentation of research results in the Dr. James C. Parks Memorial Lecture in the recipient's senior year. [Biology]<sup>1</sup>

Dorothy J. Patterson English Scholarship. Awarded to a rising junior majoring in the English teacher preparation program and working toward a Bachelor of Science in English education with a minimum GPA of 3.0 in both the major and overall. The scholarship is renewable for two additional semesters, provided the student continues to meet the eligibility requirements. [English]

Mark W. Phillips Education Award. Awarded to a senior with a minimum GPA of 3.3 and a major in the College of Education and Human Services or College of Arts, Humanities and Social Sciences, with an emphasis on art. [Financial Aid]

Patricia E. Pillar Scholarship. Awarded to a sophomore majoring in business administration with a minimum GPA of 2.5 and demonstrated involvement in campus extracurricular activities and/or community service. [Lombardo College of Business]

Audrey Pomponi Memorial Scholarship. Awarded annually to a sophomore with a CQPA of at least 2.5 who demonstrates financial need. Student must have enrolled as part of the PACE program (if in existence at the time of entry). If the PACE program is discontinued, initial selection will be a sophomore with financial need and a CQPA of at least 2.5. The scholarship may be renewed for two additional years. To renew, the recipient's CQPA must, at the time of selection, have improved by at least .15 points over the prior year until or unless the CQPA reaches 3.25, when renewal will be automatic. [Financial Aid]

Predmore-Cornogg Scholarship. Awarded to a rising junior or senior majoring in geography who demonstrates a strong commitment to the discipline of geography, with first preference to a student with an interest in land planning. The recipient must be in good academic standing with a cumulative GPA of 2.5 or higher and demonstrate financial need. Renewable in the subsequent year. [Geography]

Sydney Radinovsky Scholarship. Awarded to an entering first year biology major with an interest in biological research. The scholarship recipient will develop a research project in collaboration with a faculty member that will lead to the presentation of research results in the student's senior year. The student must rank in the top 10 percent and/or have a high school GPA of 3.5 or above and have scored 1100 or higher on his/ her SAT. The scholarship may be renewed for up to three additional years, contingent upon the student's continued progress in the biology course curriculum and maintenance of a GPA of 3.0. [Biology]<sup>1</sup>

Dr. R. Edward Rajaseelan Excellence in Chemistry Scholarship. Awarded to a rising sophomore, junior or senior student majoring in chemistry. The recipient will have an overall grade point average of 3.5 or greater and at least 45 earned credits. The student should also have demonstrated experience participating in student-faculty research or an extracurricular activity related to STEM. An application is required. The scholarship is not automatically renewable, but past recipients may reapply. Financial need may be taken into consideration but shall not be a major criterion. [College of Science and Technology]

Ratzlaff Scholarship. Awarded to an incoming biology major. The scholarship may be renewed for three additional years if the student remains a biology major and maintains a GPA of 3.0 or greater. [Biology]<sup>1</sup>

Irene Renshaw Scholarship for Education. Awarded to a first year student majoring in early childhood education (grades PreK-4) with a minimum GPA of 2.75, demonstrated financial need and involvement in community/volunteer service and/or student leadership. [Early, Middle & Exceptional Education]<sup>1</sup>

Philip Ressler-Comcast Cable Memorial Scholarship. Awarded to a sophomore student from Lancaster County entering the junior year. Recipient must have core curriculum in political science, demonstrate service to the community and be in financial need. [Government & Political Affairs]

Rettew Associates Scholarship in Geology. Awarded to an outstanding student majoring in earth sciences (geology) with a GPA of 3.0 or higher. [Earth Sciences]

Allison Rickert Memorial Scholarship. Awarded to a student from any class year with a minimum cumulative GPA of 3.0 or greater who contributes to the George Street Carnival or the Creative Writer's Guild. [Communication & Theatre]

The Helen C. Riso/Commuting Student Scholarship. Awarded to a commuting student with demonstrated financial need and who is in good academic standing. [Financial Aid]

Kyle Rodgers Scholarship. Awarded to a student majoring in psychology with demonstrated financial need from the greater Lancaster region. The recipient will have a minimum GPA of 3.0. The award is renewable for three additional years, provided the student remains in good academic standing. [Admissions]<sup>1</sup>

Rodriguez Family Award. Awarded to an undergraduate student who is the mother of a child or children (under 18) at the time of FAFSA application. First preference will be given to a mother under age 30 in the School of Social Work. Second preference will be given to a mother of any age in the School of Social Work. Finally, if none exists within the School of Social Work, the award will be given to a mother from the College of Education and Human Services. Student must be in good academic standing. Financial aid is a consideration but not required. Current recipient is eligible to reapply, but award is not automatically renewable. FAFSA must be on file. [Social Work]

Jane Rohrer Scholarship. Awarded to a student majoring in music, with emphasis in piano or voice. First preference will be to a student of an underrepresented population. [Music]

Lina Ruiz y Ruiz Memorial Scholarship. Awarded to a junior student majoring in Spanish who, in the judgment of the professors of the Spanish section, has completed work in the field of Spanish studies. [Language and Culture Studies]

Bernice R. Rydell Scholarship for Excellence. Awarded as a four-year scholarship to an underrepresented student graduating in the top 10 percent of his/her high school class and who also has a record of community involvement. The scholarship will be renewable, provided the student maintains a minimum 3.0 grade point average and continuous involvement with student government, or internal or external community activities. [Admissions]

Florence Wilson Ryder '36 Scholarship. Awarded to a rising sophomore majoring in education with a minimum GPA of 3.0 who has demonstrated financial need. The scholarship is renewable for two additional years. [Academic and Cultural Enrichment Committee]

Richard Sasin Scholarship in Chemistry. Awarded to a student majoring in chemistry who is in good academic standing. Selection is based upon financial need and/or participation in intercollegiate sports. [Chemistry]

James W. and Sally C. Saxton Scholarship in Pre-Law. Awarded to a student interested in attending law school. The scholarship is renewable for up to six additional semesters, and selection and continuation are based on academic achievement (3.0), community involvement and financial need. First preference will be given to a student who is a member of the Lancaster YMCA. [Government & Political Affairs]

Dr. Robert D. and Roma J. Sayre Excellence in American History Scholarship. Awarded to an academically talented rising senior with financial need who is majoring in history, has taken at least three American history courses at the 200 level or above at Millersville, and has excelled in those classes. Criteria to be considered will be grades, scholarship demonstrated through written work, in-service experience and class participation. [History]

Dr. Nathan C. Schaeffer Memorial Scholarship. Awarded to a resident of Lancaster County who demonstrates financial need and who is enrolled in the final year of an undergraduate program or in a graduate program in education and maintains a 2.5 GPA. [Financial Aid]

Dr. Charles Scharnberger Geology Scholarship. Awarded to one or more junior or senior students majoring in geology and in good academic standing. First preference to a student(s) with a minimum cumulative GPA of 3.25. Financial aid is a consideration but not required. The scholarship is renewable at the discretion of the dean but not automatically renewed. Recipient will be selected by the Dean of the College of Science and Technology, or his/her designee, in consultation with the geology faculty. [Earth Sciences/Geology]

Hazel Rork Schmuck Alumni Scholarship. Awarded to a full-time secondary education major with an overall 3.0 GPA who has completed at least 30, and no more than 60, credits prior to the fall semester in which the award is made. [Alumni Engagement]

Clarence Schock Foundation Scholarship. Awarded as four-year scholarships to first year students on the basis of high school records, competitive examination, personality and financial need. Only high school graduates from counties served by SICO Oil Company are eligible. [Financial Aid]

Edward L. '64 and Kathy H. Schoenberger '69 Scholarship. Awarded to an incoming first year student with a minimum GPA of 2.75 who attended a high school in Lancaster County, including but not limited to the School District of Lancaster. The scholarship is renewable up to three times for up to a total of four years, provided that the student is making progress towards graduation and continues to earn a minimum 2.75 GPA. First preference will be given to a student with financial need. [Admissions]<sup>1</sup>

Search for Excellence Scholarships. Awarded to entering first year students whose class rank places them in the top 10 percent of their high school graduating class or who possess a math/verbal minimum combined Scholastic Assessment Test (SAT I) score of 1100. Renewable annually to those who maintain satisfactory academic standards. [Financial Aid]<sup>1</sup>

Secondary Mathematics Education Scholarship. Awarded to a student with a cumulative GPA of 3.35 or higher who is majoring in secondary mathematics education. An application with essay is required along with a letter of recommendation from a professor. [Math]

Isaac F. Seiverling/Charles A. Rutter Scholarship in Mathematics. Awarded to an entering first year student whose declared major is mathematics or mathematics education. Selection is based primarily on previous academic performance and secondarily on financial need. [Admissions]<sup>1</sup>

Ellen Currier Sellers Scholarship for Organ Performance. Awarded to an incoming first year or current University student who is a keyboard major, with preference given to music majors/minors studying organ. Renewable, provided the student continues to progress in organ study, maintains at least a 3.0 GPA and remains a music major/minor. [Music]<sup>1</sup>

Gray H. and Ellen C. Sellers Merit Scholarship in Business Administration. Awarded to a junior majoring in business administration who will have successfully completed 90 or more credit hours prior to the semester to which the award is credited and whose extracurricular activity is related to business administration. The scholarship is to be awarded to only one student annually. [Lombardo College of Business]

The Shaar String Scholarship. Awarded to a sophomore or junior music education student who has demonstrated progress in the playing of a string instrument, shown an interest in the teaching of strings, and contributed to the musical enrichment of the University. [Music]

Barry '67 and Judy '67 Shafer Elementary Teacher Scholarship. Awarded to a student pursuing a B.S.E. degree in early childhood education or an M.Ed. degree in elementary education and who is a member of the Millersville football team. Second preference would go to a student from the College of Science and Technology majoring in marine biology or environmental biology. Preference will also be given to a student with financial need. This award is available to incoming first year students and past recipients in their senior year. An application is required. [Financial Aid]

Susquehanna Bancshares, Inc., Scholarship. Awarded to a full-time, first year student who is an employee or dependent of an employee of Farmers First Bank or a Susquehanna Bancshares affiliate. The recipient is chosen based on high school GPA and activities, college entrance test scores and a letter from a senior bank administrator identifying the individual as an employee or employee dependent. Financial need may be considered but is not required. If no bank-affiliated candidate applies, the scholarship will be awarded to an entering first year business or economics major. The award is not renewable. [Admissions]<sup>1</sup>

Susquehanna Engineering & Manufacturing Society—Gravell Scholarship. Awarded to a first year student enrolled in an industry and technology program, in either the associate or bachelor's degree program, with a strong commitment to the major. [Admissions]<sup>1</sup>

Susquehanna Litho Club Scholarship. Awarded to a full-time junior or senior industrial technology, graphic communication or technology education major with a demonstrated performance in graphic communication and a 3.0 GPA in the major. [Applied Engineering, Safety & Technology]

Harry Symons Business Administration Scholarship. Awarded to a student majoring in business administration who has a 3.2 high school academic average and a record of community service. The scholarship is renewable for no more than four years, and the student must maintain an academic average of 3.0. Financial need may be taken into consideration in awarding the scholarship. [Admissions]<sup>1</sup>

Nadine Thomas Journalism Scholarship. Awarded to a third- or fourth-year female journalism student. The recipient will be selected by a faculty committee from the English department. [English]

Gail Thomson/Penn Manor Scholarship. Awarded to an admitted first year student who is a graduate of Penn Manor High School, Millersville, Pa., who has demonstrated financial need. [Admissions]<sup>1</sup>

Richard Cecil Todd and Claudia Pennock Todd Merit Scholarship. Awarded to an entering first year student and renewable for a period of four years. The purpose of this scholarship shall be to attract and retain intellectually brilliant and/or exceptionally artistically talented students. [Admissions]<sup>1</sup>

Richard Cecil Todd and Claudia Pennock Todd Student Loan and Financial Aid Scholarship. Awarded to support students in need of financial aid through scholarships and/or loans. [Financial Aid]

Phi Sigma Pi Joseph M. and Dorothy M. Torchia Scholarship. Established by the Sigma Chapter of Phi Sigma Pi Honor Fraternity and awarded to a chapter member who has demonstrated high scholarship, outstanding leadership and all-around service to the fraternity. [Phi Sigma Pi]

Mr. and Mrs. Joseph A. Tryon Scholarship. Awarded to a student majoring in music. [Music]

Yvonne and Sandra L. Turchi Biochemistry Scholarship. Awarded as a tuition scholarship to a rising senior biochemistry major who has completed a minimum of 90 credits by the end of the junior year and who is in good academic standing (cumulative CGPA of 3.0 or above), who has earned a B or better in CHEMISTRY 326: Biochemistry I, and who demonstrates financial need. [Chemistry]

UGI Utilities, Inc., Community Safety Scholarship. Awarded to a junior or senior working toward an undergraduate degree in emergency management. First preference given to a student who resides in one of UGI's 45 counties of service. Second preference is a student who is an active volunteer in the emergency services. Financial aid is a consideration but not a requirement. Scholarship is not automatically renewable. [CDRE]

United States Steel Scholarship in Business Administration. Awarded to a junior business administration major who has the highest GPA in courses taken within the department and who has demonstrated outstanding ability and dedication to the study of business. [Lombardo College of Business]

Dr. Kay Vandergrift '62 and Dr. Jane Hannigan Scholarship for Women. Awarded to a nontraditional (23 years of age or older, part-time or full-time) female student. The scholarship is renewable for eight semesters, provided the student maintains a minimum 3.0 GPA. [Financial Aid]

Thomas G. "T. J." Versprille Memorial Scholarship. Awarded as tuition to a student in good academic standing with a CGPA of 2.7 or greater. First preference is for a male student who is a member of the cheerleading squad; secondary preference is a student who is majoring in political science and participating in intercollegiate athletics; the alternate choice is a qualifying student majoring in political science. The scholarship may be renewed if the student continues to meet the criteria. [Director of Intercollegiate Athletics]

Helen Spahr Walker '43 Education Scholarship. Awarded to an early childhood or middle-level education major in good academic standing who has passed the Praxis I and received the required clearances (Act 34, Act 151 and FBI record check). The scholarship may be renewed up to three years, provided the student remains within the major in good academic standing. [Early, Middle & Exceptional Education]

Joseph E. Walker American History Scholarship. Awarded to a worthy junior who intends to teach American history on an elementary, secondary or college level. Secondary consideration is given to a junior history major who excels in American history. [History]

Dr. Samuel P. Wallace '41 Scholarship. Awarded to a rising junior or senior education major with financial need and a cumulative GPA of 3.0 or greater. First preference is given to a student who intends to teach in mathematics; second preference to teach science; third to teach other subjects. [Academic and Cultural Enrichment Committee]

Walstrum Leadership Scholarship. Awarded to a rising sophomore, junior or senior in good academic standing who has demonstrated outstanding leadership during their time at Millersville. The selected individual will have shown their leadership through their actions and accomplishments in one of the following areas: academics, athletics, campus organizations, professional development activities or other activities that impact their time at Millersville, as evidenced in the application. Financial need is a consideration but is not required, and the scholarship is renewable if the recipient continues to meet the criteria. An application is required. [Student Affairs]

Liselotte R. Wehrheim Scholarship in Nursing. Awarded to a nontraditional nursing student who, having completed a registered nursing program elsewhere, enrolls at Millersville University with the intent to receive a Bachelor of Science degree and practice nursing upon graduation. Eligible applicants are to have unusual or special circumstances affecting the completion of their education, such as simultaneously supporting or caring for his/her parents, children or a spouse. [Nursing]

Irwin Weinhold Music Scholarship. Awarded to at least one student who is an active participant in the music program. First preference is to those majoring in music. The award is renewable and may be received for a total of eight semesters, provided the student remains in good academic standing and involved in the music program. [Music]

Gerald S. Weiss Chemistry Scholarship. Awarded to a chemistry major who has demonstrated financial need and superior academic achievement in CHEM 251 Inorganic Chemistry I, a required course in inorganic chemistry for majors in the ACS-certified program leading to the Bachelor of Science degree in chemistry. [Chemistry]

Jason Wicht '98 Marketing Scholarship. Awarded to an incoming first year or returning sophomore, junior or senior student with a major in marketing. Financial aid is a consideration but not a requirement. This scholarship is renewable. [Marketing]<sup>1</sup>

Wickersham Memorial Scholarship. Awarded to the top-ranking junior for excellence of scholarship and exemplary character. [Honors and Awards Committee]

John G. Williams '64 Study Abroad Scholarship. Awarded as tuition for a student participating in a global education experience, including but not limited to a year abroad, semester abroad, winter and summer session programs, internship abroad and student-teaching abroad, sponsored by or coordinated through the Millersville University Office of Global Education and Partnerships (or its successor). This award will be given to a student who is a junior or senior with demonstrated financial need. First preference will be to a student majoring in the industrial technology education program. Second preference will be for a secondary education student. If neither first nor second preference can be met, a student majoring in education for middle-level (grades 4-8) or early childhood education (PreK-4) shall be selected. The recipient must be in good academic standing. [Global Education and Partnerships]

Robert F., Louise G. and Joan M. Williams Scholarship. Awarded to a junior education student concentrating in history. Awarded on the basis of prior academic performance. The recipient should best exemplify love of learning, courage, determination, honesty and a sense of humor. [History]

Stephen '73 & Linda '73 Williamson Math Scholarship. Awarded to a sophomore, junior or senior student with a major in the Department of Mathematics. Student must have a cumulative GPA of 3.5 or higher. Financial aid is a consideration but not a requirement. This scholarship is renewable. [Mathematics]

The Kathleen C. Winder '60 Education Scholarship. Awarded to a first year student majoring in early childhood or middle-level education and based on financial aid. The recipient must demonstrate high academic performance in high school and strong community service during the final two years of high school. The scholarship may be renewed for three additional years if the student maintains a 3.0 QPA, remains in early childhood or middle-level education, and actively pursues renewal prior to June 30 for the subsequent academic year. First preference is to a student majoring in early childhood education. [Admissions]<sup>1</sup>

Dr. Charles R. Winter Scholarship in Pre-Med. Awarded to an upperclassman who is planning to attend medical school. [College of Science and Technology]

Roy Lutz Winters Foreign Language Scholarship. Awarded to an incoming first year student with an outstanding high school record who elects to major in foreign languages or chooses foreign languages as part of a double major. [Admissions]<sup>1</sup>

The WLPA—Hall Communication Award. Awarded to a junior student of color and/or a female who is majoring in communication, with an option in broadcasting, and who demonstrates financial need. [Communication & Theatre]

Womble Family Study Abroad Scholarship. Awarded to a student with a cumulative GPA of 3.75 or higher who is studying abroad for at least one semester and has demonstrated financial need. Second preference would be for the scholarship to be split between two students with a cumulative GPA of 3.25 or higher, participating in semester-long or short-term study-abroad programming, and who have demonstrated financial need. [Financial Aid]

Janet Wood Memorial Fund. Awarded to a student enrolled as an education major and/or seeking teacher certification who has a GPA of at least 3.5. Undergraduate applicants must have obtained advanced professional standing, and graduate students must have obtained admission to degree candidacy status prior to applying for the scholarship. [Academic and Cultural Enrichment Committee]

Wubah Family Endowed Scholarship. Awarded to a rising sophomore, junior or senior who is majoring in one of the STEM areas. Recipients must be a first-generation college student and must have and maintain a GPA of 3.0 or greater. This scholarship is renewable for up to three years, provided the recipient remains in the major. Financial hardship is a consideration but is not required. [College of Science and Technology]

Alan K. Wyand and Robert L. Shoener Scholarship. Awarded to a student who is a music major, with first preference being a double major with music education and applied music. Preference will be given to a student in financial need but is not required to receive the award. A current student could reapply, but the scholarship would not automatically be renewed. [Music]

Sandra A. Yeager, Ph.D., Chemistry Scholarship. Awarded to a student majoring in chemistry with at least 30 credits passed, a CGPA between 2.75 and 3.25, and with demonstrated financial need. First preference will be given to a female student meeting the criteria. The scholarship may be received more than once. [Chemistry]

Trudy Tyler Yefko '77 Biology Scholarship. Awarded to an incoming first-year or returning student majoring in biology. First preference is to a student with a minimum GPA of 3.0 and demonstrated financial need. [Financial Aid]<sup>1</sup>

Dr. William Yurkiewicz Undergraduate Research Fellowship. Awarded to a student pursuing undergraduate research in cooperation with a faculty member in the biological sciences. First preference will be given to a junior or senior student who is conducting research with a high probability of publication in a peer-reviewed journal. The award is renewable, provided that the student continues satisfactory progress towards publication and progresses towards graduation. [College of Science and Technology]

## Scholarships - Athletic

For additional information about the following athletic scholarships, contact the head coach of the respective sport or the director of intercollegiate athletics.

Anttonen Men's Basketball Scholarship. Awarded to a student who will be a full-time sophomore, junior or senior at the time of the award. The student must be a member of the men's intercollegiate basketball team when selected and participate on the team in the year the scholarship is awarded. Recipients must have and maintain a GPA of 2.75 or greater and be progressing toward graduation. In the event the men's intercollegiate basketball team ceases, the scholarship is to be awarded to a men's soccer player or next a men's cross-country team or club member who otherwise meets the criteria. If all named intercollegiate teams cease,

the scholarship is to be awarded to a member of a remaining men's intercollegiate sport who otherwise meets the criteria. This scholarship may be received more than once at the discretion of the sport coach and the athletic director; it is not automatically renewable.

**Anttonen Women's Intercollegiate Golf Scholarship.** Awarded to a full-time rising sophomore or junior who is a member of the women's intercollegiate golf team when selected and who expects to participate on the team in the year the scholarship is awarded. Recipients must have and maintain a GPA of 2.75 or greater and be progressing toward graduation. In the event women's intercollegiate golf ceases, the scholarship is to be awarded to a women's basketball player who otherwise meets the criteria. If that intercollegiate team ceases, the scholarship is to be awarded to a member of a women's intercollegiate sport who otherwise meets the criteria. This scholarship may be received more than once at the discretion of the sport coach and the athletic director; it is not automatically renewable.

**Judy and Doc Roc Anttonen Women's Intercollegiate Volleyball Scholarship.** Awarded to a full-time rising sophomore or junior who is a member of the women's intercollegiate volleyball team when selected, and who expects to participate on the team in the year the scholarship is awarded. Recipients must have and maintain a GPA of 2.75 or greater and be progressing toward graduation. In the event women's intercollegiate volleyball ceases, the scholarship is to be awarded to a women's basketball player who otherwise meets the criteria. If that intercollegiate team ceases, the scholarship is to be awarded to a member of a women's intercollegiate sport who otherwise meets the criteria. This scholarship may be received more than once at the discretion of the sport coach and the athletic director; it is not automatically renewable. The scholarship may be given to one or more members of the team at the discretion of the head coach in consultation with the athletic director.

**Judy and Ralph Anttonen Women's Intercollegiate Field Hockey Scholarship.** Awarded to a full-time junior or senior at the time of the award. The student must be a member of the women's intercollegiate field hockey team when selected and participate on the team in the year the scholarship is awarded. Recipients must have and maintain a GPA of 2.75 or greater and be progressing toward graduation.

**Ralph and Judy Anttonen Men's Intercollegiate Baseball Scholarship.** Awarded to a student who will be a full-time junior or senior at the time of the award. The student must be a member of the men's intercollegiate baseball team when selected and participate on the team in the year the scholarship is awarded. Recipients must have and maintain a GPA of 3.0 or greater and be progressing toward graduation.

**Ed and Jackie Balderston Women's Basketball Scholarship.** Awarded to an incoming first year women's basketball player or a current member of the women's basketball team in good academic standing. First preference to a student majoring in elementary education.<sup>1</sup>

**Bazow Family Athletic Scholarship.** Awarded to an active member of one of the University's intercollegiate athletic teams in good academic standing. First preference will go to a graduate of McCaskey High School. This award may be renewed at the athletic director's discretion, provided the recipient remains a member of at least one team and in good academic standing.

**Benchmark Construction Athletics Scholarship.** Awarded to an active member(s) of one or more of the University's intercollegiate athletic teams in good academic standing. This award may be renewed at the athletic director's discretion, provided the recipient(s) remains a member of at least one team and in good academic standing.

**Victor J. Bilotta and William B. Cooper Intercollegiate Baseball Scholarship.** Awarded to a member of the baseball team with a GPA of 2.5 or greater. The scholarship may be renewed at the discretion of the athletic director and the team coach for up to four additional years as long as the player continues to meet the criteria.

**Bishop Family Basketball Scholarship.** Awarded to one player each on the men's and women's basketball teams who has a 2.0 CGPA and is progressing toward graduation.

**Gerald Brenner '64 and Coach John Haser Men's Soccer Scholarship.** Awarded to an incoming first year or returning student-athlete on the men's soccer team in good academic standing.<sup>1</sup>

**Gene A. Carpenter Football Scholarship.** Awarded to entering or enrolled athletes who have established themselves as outstanding intercollegiate football players. Recipients must meet all requirements for admission or be full-time students in satisfactory academic standing.<sup>1</sup>

Chapman Auto Group Athletic Scholarship. Awarded to an incoming first year student who is a Chapman Auto Group employee or the child or spouse of a Chapman Auto Group employee from either the Lancaster or Columbia business location. If no such student applies, the scholarship will be awarded to an incoming first year student-athlete demonstrating financial need as determined by the Office of Financial Aid.<sup>1</sup>

George W. Cole Memorial Scholarship. Awarded as tuition assistance to an incoming first year baseball player with a high school GPA of 2.25. First preference will be for a qualifying player from an underrepresented population. The award may be renewed for a total of up to 10 semesters, provided the student continues as a member of the team and maintains a CGPA of at least 2.5.<sup>1</sup>

The Bennett J. Cooper Baseball Scholarship. Awarded to financially assist student-athletes participating in intercollegiate baseball.

Cindy Lee Dalrymple Memorial Women's Lacrosse Scholarship. Awarded to an incoming first year women's lacrosse player(s) or current member(s) of the women's lacrosse team in good academic standing.<sup>1</sup>

Kia Damon Women's Basketball Scholarship. Awarded to an incoming first year women's basketball player(s) or a current member(s) of the women's basketball team in good academic standing.<sup>1</sup>

Richard DeHart Basketball Scholarship. Awarded to a member of the men's basketball team at the discretion of the head coach.

Dickinson Field Hockey Scholar-Athlete Award. Awarded to one or more women's field hockey players who have a minimum cumulative GPA of 3.0. If a selected student is a first year student, that individual must have a similar high school academic history. Students selected must be on the team during the semester in which the funds are received. The awards are renewable at the discretion of the coach and athletic director, provided the student continues to meet the criteria.

George Doherty Memorial Scholarship for Wrestling. Awarded to athletes who have established themselves as outstanding wrestlers. Entering first year students are selected based on their potential for outstanding achievement in intercollegiate wrestling; upperclassmen are selected based on their previous achievements as members of the wrestling team.<sup>1</sup>

Faculty-Student Athletic Committee Awards. Plaques to the male and female varsity letter winners who have attained the highest GPA over seven semesters of academic work.

The Stacey M. Fink, M.D., Ph.D. Academic Achievement Award. Awarded to the Millersville University baseball player with the highest cumulative GPA at the end of the fall semester of his junior academic year and applied to the following academic year.

Robert J. Fink Men's Soccer Scholarship. Awarded to an incoming first year or returning student-athlete on the men's soccer team in good academic standing.<sup>1</sup>

Elwood J. Finley Award. Presented to an outstanding male and female senior athlete. The award encompasses the career athletic accomplishments of each student.

Glenn M. Flegal '54 Wrestling Scholarship. Awarded to an incoming first year student with a proven wrestling record and who will participate in the Millersville wrestling program. If no first year student is available, then the student must be in good academic standing with a GPA of 2.0 or better and be a Millersville wrestler.<sup>1</sup>

Dr. Carol Flinchbaugh Women's Basketball Scholarship. Awarded to an incoming first year women's basketball player(s) or a current member(s) of the women's basketball team in good academic standing.<sup>1</sup>

Frerichs Family Women's Basketball Scholarship. Awarded to students who participate on the Millersville University women's basketball team.

Rich Frerichs Women's Basketball Annual Award Scholarship. Awarded to an incoming first year women's basketball player(s) or a current member(s) of the women's basketball team in good academic standing.<sup>1</sup>

Miles and Sara Gallagher Athletic Scholarship. Awarded to an incoming first year student or a current member of a Millersville University athletic team in good academic standing.<sup>1</sup>

Geiger '52 Football Scholarship. Awarded to a current student in good academic standing who is an active member of the Millersville University intercollegiate football team or to an incoming first year or transfer student who becomes an active member of the Millersville University intercollegiate football team. The scholarship is renewable annually up to four years, provided the student remains active on the team, is in good academic standing and progressing toward graduation.<sup>1</sup>

Conor Gilbert '15 Golf Scholarship. Awarded as tuition to a returning member of the men's golf team. First preference is for the individual to have a GPA of 3.0 or greater. Additional considerations include a scoring average of 78 and 70 percent of tournaments played. Second preference is for the individual to have a GPA of 2.75 or greater.

Catherine "Kitty" Glass Housing Scholarship. Awarded to one or more students in good standing who are members of the women's basketball team and who live in a housing facility managed by a Student Lodging, Inc. affiliate or by the University in the year in which scholarship funds are to be awarded. Scholarship may be renewed at the discretion of the head coach of the women's basketball team but is not automatically renewable.

Eugene Groff-Arthur Hulme Football Scholarship. Awarded to a student participating in intercollegiate football.

George D. Hauber Housing Scholarship. Awarded to one or more female student-athletes in good standing who live in a housing facility managed by a Student Lodging, Inc. affiliate or by the University in the year in which scholarship funds are to be awarded. Scholarship may be renewed at the discretion of the athletic director but is not automatically renewable.

Willard O. and Dr. Catherine Gibson Havemeier Scholarship for Football. Awarded to one or more first-year students who matriculate at Millersville with a GPA of 3.0 or higher and who have demonstrated leadership qualities during high school.<sup>1</sup>

Justin Flannery Hilton '07 Memorial Baseball Scholarship. Awarded as tuition to a member of the baseball team who plays the position of pitcher, is in good academic standing with a GPA of at least 2.3, and demonstrates strong team spirit and leadership on and off the field. Financial need is not a requirement but may be considered.

Floyd "Shorty" Hitchcock Memorial Wrestling Scholarship. Awarded to a student wrestler in good academic standing with financial need. The recipient must actively participate in the wrestling program the year the award is received.

Robert L. Jones '61 Soccer Award. Awarded to a male or female soccer player who best exemplifies the tradition of the scholar-athlete, who is in good academic standing with a CGPA of 2.75 or greater, and who demonstrates leadership, teamwork and service to the University or broader community.

Dr. Frank Kafka Basketball Scholarship. Awarded to an athlete who has potential for outstanding achievement in men's intercollegiate basketball. Recipients must meet all requirements for admission or be full-time students in satisfactory academic standing.<sup>1</sup>

J. Henry Keneagy Scholarship in Athletics. Awarded to an entering full-time, first year student who intends to participate in intercollegiate athletics on the basis of potential for outstanding achievement in intercollegiate athletics and financial need.<sup>1</sup>

Stephen and Veronica Kepchar Jr. Housing Scholarship. Awarded to one or more students in good standing who are Millersville University athletes and who live in a housing facility managed by a Student Lodging, Inc. affiliate or by the University in the year in which scholarship funds are to be awarded. Scholarship may be renewed at the discretion of the athletic director but is not automatically renewable.

Dr. Walt Kreider '52 and Family Baseball Scholarship. Awarded to an incoming first year baseball player or a current member of the baseball team in good academic standing. First preference will be given to a student majoring in education.<sup>1</sup>

Richard LaGrotte Men's Soccer Scholarship. Awarded to an incoming first year men's soccer player(s) or a current member(s) of the men's soccer team in good academic standing.<sup>1</sup>

H. Craig Lewis '66 and Bennett J. Cooper Intercollegiate Baseball Scholarship. Awarded to a member of the baseball team with a GPA of 2.5 or greater. The scholarship may be renewed at the discretion of the athletic director and the team coach for up to four additional years as long as the player continues to meet the criteria.

Branden Lippy and Family Women's Basketball Scholarship. Awarded to an incoming first year women's basketball player or a current member of the women's basketball team with a 3.0 GPA or above and demonstrates integrity, character, work ethic and sportsmanship. First preference will be given to a student majoring in sports business, with second preference to a student pursuing a minor in athletic coaching.<sup>1</sup>

Phil and Betty Loht Housing Scholarship. Awarded to one or more students in good standing who are Millersville University athletes and who live in a housing facility managed by a Student Lodging, Inc. affiliate or by the University in the year in which scholarship funds are to be awarded. Scholarship may be renewed at the discretion of the athletic director but is not automatically renewable.

William & J. Diane Martin Men's Soccer Scholarship. Awarded to an incoming first year men's soccer player or a current member of the men's soccer team in good academic standing. The recipient will be awarded and/or renewed by the men's soccer coach, the athletic director or his/her designee.<sup>1</sup>

McCollough Family Athletic Scholarship. Awarded to a junior or senior student-athlete with demonstrated financial need and who is in good academic standing.

William B. McIlwaine Women's Basketball Scholarship for Academic Excellence. Awarded to a member of the women's basketball team who has been a member of the team for a minimum of two years at the time of receiving the scholarship, and who has achieved a cumulative GPA of 3.2 or higher with demonstrated excellence on the basketball court.

F. W. McLaughlin Football Scholarship. Awarded to athletes who have established themselves as outstanding football players. Entering first year students are selected based on their potential for achievement in intercollegiate football; upperclassmen are selected based on their previous achievements as members of the football team.<sup>1</sup>

MEDAL Fund Athletic Scholarships. Established by Millersville University employees and awarded to athletes who have potential for outstanding achievement in intercollegiate football, wrestling, men's basketball or women's basketball. Recipients must meet all requirements for admission or be full-time students in satisfactory academic standing.<sup>1</sup>

Men's Basketball Memorial Scholarship. Established in memory of Eugene Rutherford, Class of 1940, and other former Millersville basketball team members now deceased. Awarded to athletes who have potential for outstanding achievement in men's intercollegiate basketball. Recipients must meet all requirements for admission or be full-time students in satisfactory academic standing.<sup>1</sup>

Men's Rugby Alumni Award. Awarded to a young man of strong character who plays rugby according to the spirit of the game. The recipient must be a member of the Rugby Club for at least two years.

Men's Soccer Scholarship. Awarded to an incoming first year or returning student-athlete on the men's soccer team in good academic standing.<sup>1</sup>

Scott Micklewright Mid Penn Bank Golf Scholarship. Awarded to an outstanding incoming first year student or current member of the Millersville University men's or women's golf team in good academic standing.<sup>1</sup>

Millersville University Alumni Association Athletic Scholarship. Awarded to one male and one female athlete who participate in NCAA-recognized sports at Millersville University. Students must be full-time, maintain an overall GPA of 3.0 and have passed 24 credits but no more than 60 credits.

Morgan Scholarship Fund for Women's Athletics. Awarded to two or more incoming first year students or current members of a women's intercollegiate athletic team in good academic standing.<sup>1</sup>

Lois T. Morgan '54 Field Hockey Scholarship. Awarded as tuition to one or more members of the field hockey team. First-time recipients must have a GPA of 3.0 or greater; incoming first year students must have equivalent high school grades. Recipients must demonstrate above-average athletic talent. The scholarship may be renewed at the discretion of the athletic director and field hockey coach, provided recipients attain PSAC Scholar Athlete status (currently a 3.25 GPA) and demonstrate a continued, active and above-average contribution to field hockey.

Lois T. Morgan '54 Student-Athlete Endowed Scholarship. Awarded as tuition to one or more student-athletes. There is no sport preference; however, if funds are divided, they shall benefit recipients from both men's and women's sports. First-time recipients must have a GPA of 3.0 or greater; incoming first year students must have equivalent high school grades. Recipients must demonstrate above-average talent in their sports. The scholarship may be renewed at the discretion of the athletic director and respective coaches, provided recipients attain PSAC Scholar-Athlete status (currently a 3.25 GPA) and demonstrate a continued, active and above-average contribution to their sports.

Linda Murphy Baseball Scholarship. Awarded to one or more baseball players. First preference is given to a pitcher. Student/s selected must be on the team during the semester in which the funds are received and in good academic standing. Financial aid is a consideration but not a requirement.

Muscovitch Family Baseball Scholarship. Awarded to a sophomore, junior or senior member of the baseball team in good academic standing. First preference will be given to a pitcher.

The B. Todd Myers Memorial Golf Scholarship. Awarded to students who participate on the Millersville University men's and women's golf teams.

Naylor Family Football Scholarship. Awarded to an incoming first year football player or a current member of the football team in good academic standing. First preference is to a linebacker.<sup>1</sup>

Northwestern Mutual Athletics Scholarship. Awarded to an active member(s) of one of the University's intercollegiate athletic teams in good academic standing. This award may be renewed at the athletic director's discretion, provided the recipient(s) remains a member of at least one team and in good academic standing.

Sandra Peters Field Hockey Scholarship. Awarded as tuition credit to one or more talented field hockey players. Candidates must have GPAs of at least 2.75/4 and be active on the team in the academic year the scholarship is awarded. If a candidate is an entering first year student, that individual's high school GPA must be at least 2.75/4, and she must commit to play field hockey at Millersville University upon arrival. The scholarship can be renewed, provided the student(s) annually meets the criteria.<sup>1</sup>

James Pillar '90 Football Scholarship. Awarded to an incoming first year football player(s) or a current member(s) of the football team in good academic standing.<sup>1</sup>

Mike "Boog" Powell & Family Baseball Scholarship. Awarded to an incoming first year or returning sophomore, junior or senior member of the baseball team with a cumulative 3.0 GPA or higher and who demonstrates strong integrity, work ethic and is regarded as a tremendous teammate.<sup>1</sup>

Aurora Wickey Pucillo Award. Awarded to an outstanding female athlete who has participated in more than one varsity sport and lettered in at least one sport. Recipient must exhibit outstanding traits of loyalty, leadership and sportsmanship, and have a GPA of at least 2.5.

John A. Pucillo Memorial Scholarship. Awarded in alternating years on the basis of financial need to a female or male who has participated in intercollegiate athletics for at least two years, has completed at least 60 credits and has a GPA of at least 2.0.

Renee Fraker Quinn '09 Field Hockey Award. Awarded to a field hockey player who displays selflessness, leadership and commitment to excel both academically and athletically for the benefit of the field hockey program. Recipients may be incoming or returning members of the Millersville field hockey team.

Maryann Kitson Raspen Scholarship in Women's Athletics. Awarded to an entering female first year student who has registered as a full-time student and has declared an intention to participate in athletics. The recipient shall be chosen on the basis of potential for outstanding achievement in intercollegiate athletics.<sup>1</sup>

Theodore Rupp Wrestling Scholarship. Awarded to a student who participates in intercollegiate wrestling and demonstrates financial need.

Kathryn G. Hughes Seaber and Samuel J. Seaber Jr. Men's Baseball Scholarship. Awarded to one or more active members of the men's baseball team who are incoming first year students. The student's high school CGPA must have been a minimum of 2.75 out of 4.0 or equivalent scale. The award may be renewed if the student(s) remains active on the team and sustains the required CGPA.

Kathryn G. Hughes Seaber and Samuel J. Seaber Jr. Women's Softball Scholarship. Awarded to one or more active members of the women's softball team in good academic standing with a GPA of 2.75 or greater. The scholarship is renewable, provided the student(s) continues to meet the criteria.

Robert L. Slabinski Scholarship. Awarded to a student(s) participating in intercollegiate women's basketball who has a minimum academic average of 2.5 and has 60 or more academic credit hours. The recipient(s) will be selected by the head women's basketball coach, with the intention to provide additional assistance for the student(s) to continue her education.

Robert L. & Jane Z. Slabinski Student Lodging Inc. Scholarship. Awarded to one or more students in good standing who are members of a Millersville intercollegiate team and who reside in a Student Lodging, Inc. property in the year in which scholarship funds are to be awarded. The scholarship may be renewed at the discretion of the athletic director but is not automatically renewable.

The Jeff Sollars '91 Pursuit of Excellence Baseball Award. Awarded to one or more members of the baseball team who are in at least their second year on the team. The recipient(s) must have financial need, a GPA of 2.0 and demonstrate an above-average commitment to the sport, team leadership or exceptional effort.

Mike Stone Wrestling Scholarship. Awarded to a student who has established himself as an outstanding wrestler.<sup>1</sup>

Team of '63 Football Scholarship. Awarded to a football player. Financial aid is a consideration but not required. Recipient will be selected by the head football coach or his/her designee.

Donald T. Testa Sr. '64 Memorial Annual Football Award. Awarded to recruit or retain a talented football player in good academic standing with the University (2.0 GPA or higher). The award may be renewed up to three times, provided the player remains on the team and continues to meet the criteria. First preference is for a student majoring in Applied Engineering, Safety & Technology (AEST) or its successor.<sup>1</sup>

Franklin R. Thomas '39 Football Scholarship. Awarded to a student who is an entering first year student who will participate in intercollegiate football, has an entering high school GPA of at least 3.0 and demonstrates financial need. The scholarship is renewable, provided the student remains in good academic standing (as defined by the University) and eligible to participate in intercollegiate football.<sup>1</sup>

Margaret Thorwart '17 Scholar Athlete Award. Awarded to a member of the field hockey team who has completed a minimum of 15 hours of study and has maintained a cumulative GPA of 3.5 or higher. In absence of a field hockey player, this scholarship may be awarded to any female athlete meeting the same academic criteria. Financial need is not a requirement.

Tilahun Field Hockey Scholarship. Awarded to an incoming first year or returning field hockey player with a minimum GPA of 3.0. First preference will be given to a graduate of Lancaster Mennonite School. Second preference to a player from Lancaster County.<sup>1</sup>

Richard C. Todd Scholarship. Established by Dr. Todd and Claudia Pennock Todd, and awarded to athletes who have established themselves as outstanding basketball players. Entering first year students are selected based on their potential for achievement in intercollegiate basketball; upperclassmen are selected based on their achievements as members of the basketball team.<sup>1</sup>

Richard Cecil Todd and Claudia Pennock Todd Basketball Scholarship. Awarded to a student who proves himself as an outstanding basketball player.

James E. Treasure Memorial Football Scholarship. Awarded to an incoming first year student who has good academic high school preparation and will participate in intercollegiate football. The student will receive the scholarship each year he is in good academic standing and eligible to participate in intercollegiate football.<sup>1</sup>

Marjorie A. Trout Women in Athletics Scholarship. Awarded to female student-athletes who are rising juniors or seniors with a CGPA of 2.8 or above.

University Athletic Scholarships. Awarded to student-athletes on the basis of potential for outstanding achievement in intercollegiate athletics. Recipients must meet all requirements for admission and maintain satisfactory academic progress.<sup>1</sup>

Harold Vinson Jr. Memorial Football Award. Awarded as tuition to a member of the men's football team. If a returning player or transfer student, the individual must have a GPA of 2.5 or greater. If offered to a first year student, the individual must have similar academic qualifications. First preference is that the recipient be a cornerback. This award may be renewed for 10 semesters, provided the recipient remains a member of the team and continues to meet the academic qualification.<sup>1</sup>

Walter B. Waetjen '42 Ed.D. Football Scholarship. Awarded as tuition to students who do/will play football. Incoming first year recipients must have graduated in the top half of their class and have strong potential to contribute to the football team. Preference is to be given to students with financial need. Non first year recipients must be in good academic standing, with a CGPA of 2.25 or above, progressing toward graduation, and be active members of the football team in the academic year the award is received. First preference is for students playing the lineman position. Award may be received more than once if criteria continue to be met.

Barbara J. Waltman '73 Lacrosse Award. Awarded as tuition credit to one or more talented lacrosse players. Recipients must have GPAs of at least 2.75 and be active on the team in the academic year the scholarship is awarded. If a recipient is an entering first year student, that individual's high school GPA must be at least 2.75, and she must commit to play lacrosse at Millersville University upon arrival. The scholarship can be renewed, provided the student(s) annually meets the criteria.

Joseph B. and Judith S. Wilt Men's Basketball Scholarship. Awarded as tuition to a member of the men's basketball team. If a returning player or transfer student, the individual must have a GPA of 2.5 or greater. If offered to an incoming first year student, the individual must have similar academic qualifications. This award may be renewed for a total of 10 semesters, provided the recipient remains a member of the team and continues to meet the academic qualifications.

Women's Athletic Scholarships. Awarded to two junior female athletes.

Women's Soccer Alumni Scholarship. Awarded to an incoming first year women's soccer player(s) or a current member(s) of the women's soccer team in good academic standing.<sup>1</sup>

## University Awards

An award is a cash grant or gift made directly to a student or a student's account, or a mention on a University plaque in recognition of the student's achievements. For more information on any of these awards, contact the department found in the brackets [ ] at the end of the award criteria.

AFSCME Local 2421 Award. Awarded to students who are full-share members of AFSCME Local 2421 or dependents of full-share members of AFSCME Local 2421 and who are currently attending Millersville University. Award funds will be used to cover costs related to receiving a degree at Millersville University, including but not limited to textbook costs, fees, and room and board. Recipients must be in good academic standing. Students must be enrolled in a degree-seeking program and have completed a minimum of 30 credits. An application is required. The scholarship is renewable, but recipients must go through the application process each year. [Financial Aid]

American Chemical Society, Millersville University Student Affiliate Award. Recognition on a plaque in Caputo Hall to a graduating senior of high academic standing who has contributed outstanding service to the chemistry department and the chapter. [Chemistry]

American Chemical Society, Southeastern Pennsylvania Section Award. The Merck Index is awarded to the outstanding senior chemistry major. Recognition on a plaque in Caputo Hall and a choice from several reference works and journal subscriptions are awarded. [Chemistry]

American Chemical Society, Undergraduate Award in Analytical Chemistry. A subscription to Analytical Chemistry and honorary membership in the Division of Analytical Chemistry to the outstanding student in analytical chemistry. Recognition on a plaque in Caputo Hall. [Chemistry]

American Chemical Society, Undergraduate Award in Inorganic Chemistry. Awarded to the student who demonstrates academic excellence (minimum of 3.5 QPA) and outstanding performance in CHEM 452: Advanced Inorganic Chemistry, and who plans a future career in chemistry. [Chemistry]

American Chemical Society Undergraduate Award in Organic Chemistry. Awarded to the top graduating senior student majoring in chemistry or biochemistry who has demonstrated excellence in organic chemistry based on a combination of research experience, coursework and a desire to pursue a career in chemistry. The student must be enrolled at Millersville University for the current academic year. [Chemistry]

American Institute of Chemists Award. A one-year associate membership in AIC and recognition on a plaque in Caputo Hall to the outstanding graduating chemistry major, based on character, academic standing and potential to become a successful chemist. [Chemistry]

American Society of Safety Engineers, Lehigh Valley Chapter Award. Awarded to a rising junior or senior majoring in occupational safety and environmental health with a minimum GPA of 3.0 and demonstrated financial need. [Applied Engineering, Safety & Technology]

American Society of Safety Engineers/Raymond C. Mullin Award. Presented by the Central Pennsylvania Chapter of ASSE each semester to a junior or senior occupational safety and hygiene management major who has completed at least 15 credits of occupational safety and hygiene management courses and 12 credits of related courses, with a GPA of at least 2.5 overall and 3.0 in health safety management courses. [Applied Engineering, Safety & Technology]

Athletic Coaching Minor Faculty Award. Presented to the outstanding graduating male and female athletic coaching minor students, based on academic excellence, campus leadership, sportsmanship and community service. [Wellness & Sport Sciences]

Guy Kurtz Bard Award. Awarded to a senior political science major in odd-numbered years and to a senior history major in even-numbered years for outstanding ability in political science and history. [History]

Esther Herr Bear Award. Awarded to worthy and deserving students who excel in music. [Music]

Anne E. Beyer Award. Awarded to seniors in early childhood or middle-level education for outstanding performance in student teaching. Recipients must have spent two full academic years at Millersville in preparation for teaching. [Early, Middle & Exceptional Education]

Cora Catharine Bitner Music Award. Awarded to students who are proficient in musical performance and have rendered loyal service to the musical activities of the University. [Music]

Henry Franklin Bitner Science Prizes. Awarded to two seniors annually, one in physical science and one in biological science. [College of Science and Technology]

The Black Student Union/Dr. Melvin Allen and Jennifer Coleman Award. Awarded to a member of the Black Student Union who has a CGPA of 2.5 and who has demonstrated service to the Millersville campus community through active membership and involvement in campus organizations. [Black Student Union]

Lee E. and Laura H. Boyer Award. Awarded to two seniors: one who is a computer science major excelling in mathematics, and one who is a mathematics major excelling in computer science. [Computer Science]

A. G. Breidenstine Award. Established by friends of Dr. A. G. Breidenstine in recognition of his service as dean from 1955 to 1965. Awarded to the student whose honors work is judged to be most outstanding. [Honors and Awards Committee]

Chemical Rubber Company Chemistry Achievement Award. A book to the outstanding student in the general chemistry sequence. [Chemistry]

Class of 1866 Award. Awarded to two seniors for excellence in mathematics. [Mathematics]

Class of 1895 Frank Albert Award. Awarded to a graduating senior on the basis of scholarship and all-around service to the University. [Honors and Awards Committee]

Class of 1898 Award. Awarded to the second-ranking member of the junior class, payable after graduation. [Honors and Awards Committee]

Class of 1910 Award. Awarded to a student for excellence in English at the end of the student's senior year. [English]

Class of 1911 H. Justin Roddy Memorial Award. Awarded to a graduating senior who, in student teaching, shows the greatest promise of becoming a successful teacher of the sciences. [College of Science and Technology]

Class of 1922 Esther E. Lenhardt Award. Awarded to a senior who has demonstrated outstanding proficiency in the use of English. [English]

Class of 1928 Isaac F. Seiverling Award. Awarded to a junior for proficiency in mathematics. [Mathematics]

Commission in Cultural Diversity Award. Awarded based on academic performance and evidence of a commitment to diversity through service at the University, demonstrated through a competitive application and essay. [Cultural Diversity Committee]

Commonwealth of Pennsylvania University Biologists Award. Awarded on the basis of academic standing, excellence in biology and research potential. [Biology]

Computer Science Award. Awarded to a senior computer science major for outstanding achievement in computer science courses. [Computer Science]

Cunningham Art Foundations Achievement Award. Awarded to a full-time student who has taken all four art foundation courses (currently Two-Dimensional Design, Drawing I, Three-Dimensional Design and Drawing II) at Millersville University and obtained a GPA in those courses of at least 3.0. Recipient must be a declared visual fine art major (painting, drawing, ceramics, printmaking, photography, metals or sculpture) seeking the B.F.A. degree, and have excelled in the foundation courses and shown promise as a visual fine artist. An application is required. [Art & Design]

Dilworth-McCollough English Award. Awarded to a student who has achieved excellence in English literature. [English]

Laura B. Doering Library Service Award. Presented to senior student library workers who have demonstrated exceptional commitment on the job. [Library Sciences]

Dramatics Service Award. Presented by Citamard Players to a graduating senior for outstanding service in the area of dramatics. [Communication & Theatre]

Earth Sciences Awards for Academic Excellence. Recognition on a plaque in Caputo Hall to seniors for excellence in earth sciences. [Earth Sciences]

EAPSU Award. A merit award for overall excellence in English given by the English Association of Pennsylvania State Universities. [English]

Michael W. Eisenberger Choir Award. Awarded to the graduating senior University choir member who has been recognized by fellow choir members as emulating qualities of leadership, musical ability and friendliness displayed by the late Michael W. Eisenberger during his association with the choir and the University. [Music]

Excellence in Printing Technology Award. Presented annually to a senior industry and technology student who has completed 90 credits, possesses a GPA of at least 3.0, consistently produces high-quality work, displays innovative ideas and demonstrates outstanding commitment to the printing profession. [Applied Engineering, Safety & Technology]

Dominick J. and Frances M. Fanani Junior/Senior Award. Awarded to a full-time junior or senior student in the arts and humanities for outstanding scholarship and character. [College of Arts, Humanities and Social Sciences]

Betty J. Finney Community Service Award. Awarded to a senior psychology major who has demonstrated outstanding community service relevant to the field of psychology. Recipient must have attained a CGPA of at least 3.0. Selection is by vote of the psychology faculty. [Psychology]

Antone K. Fontes Health Professions Award. Reference books presented to three graduating seniors—one each from premedical/predental, nursing and allied health programs—who have demonstrated outstanding ability. Selections are made on the basis of GPA and recommendations. [Biology, Nursing, and Dean of College of Science and Technology]

Marion G. Foster Award. Awarded to a junior social work major who best exemplifies those qualities of Marion G. Foster: dedication to the social work profession, a genuine respect for people and demonstrated academic excellence under extraordinary circumstances. [Social Work]

Alice R. Fox Memorial Award. Awarded to a student who has achieved excellence in English. [English]

Leah Fudem Photographic Service Award. Awarded to two students for outstanding photographic service to The Snapper or the Touchstone. [Snapper]

Verda F. Fulmer Award. Awarded annually to an outstanding senior in early childhood or middle-level education at the end of the school year. [Early, Middle & Exceptional Education]

Fulton Bank Award in Economics. Awarded to a student who, in the judgment of the economics department, has written the best essay on an aspect of banking. [Economics]

Roy and Mary Garden Gamber-Helen L. Koontz Award in Education. Awarded to two students (junior or senior status) who have demonstrated a commitment to a career in teaching. One award must be directed to a candidate committed to early childhood or middle-level education. [Elementary, Middle & Exceptional Education]

Geography Faculty Award. A certificate and an appropriate gift, usually a book, presented annually by the geography department faculty to a geography major who graduates with honors. [Geography]

D. Joan Godfrey Nursing Award. Awarded to one to three senior nursing majors on the basis of participation in the nursing program, club and other campus activities; involvement in the nursing profession and academic standing. [Nursing]

John K. Harley and Grace W. Evans Award. Awarded to a student who has maintained the highest standing in scholarship and deportment during both his/her junior and senior years, and who is of high moral character and exemplary habits. [Honors and Awards Committee]

James Hamilton and Lucretia Boyd Hartzell Piano Award. Awarded to a junior or senior piano student who possesses extraordinary talent, has shown considerable progress and has contributed to the musical enrichment of the University community. [Music]

Jeffrey Hawthorne Memorial Award. Awarded to a rising sophomore majoring in elementary education with a minimum GPA of 2.5 who has demonstrated financial need. The scholarship is renewable for five additional semesters, provided the student continues to meet the criteria. [Early, Middle & Exceptional Education]

Isaac and Terry Hay Sculpture Award. Awarded to an undergraduate student for excellence in sculpture, to be determined by the faculty member coordinating the Millersville Student Art Show in consultation with the juror of the student art show. [Art & Design]

Frank R. Heavner Memorial Award. Awarded to the English major who has the highest average in at least nine credits of linguistics courses. [English]

Earle M. Hite Award. Awarded to a member of a student publication of Millersville University who has shown enthusiasm and dedication in the production of The Snapper or Touchstone and meets the following criteria: has worked for the publication for at least four semesters; is versatile and willing to help with any task; and has made notable contributions to the betterment of the publication and the University. This award may be given to an editor, writer, reporter, photographer, business manager, member of the circulation or advertising department, or other member who contributes to the production of the publication. [Snapper]

The Reverend Lewis Merwin Hobbs Medallion/Dr. Dominick '53 and Mrs. Helen DiNunzio Award. Awarded to graduating seniors achieving summa cum laude (4.0 academic average overall). [Honors and Awards Committee]

Elsie Hostetter Award. Presented by the early childhood faculty to the outstanding senior early childhood education major. [Early, Middle & Exceptional Education]

Ralph J. Hyson Memorial Award. Awarded to the senior French major judged outstanding in French studies. [Language and Culture Studies]

Instrument Society of America Central Keystone Section Outstanding Student Award. Awarded to a junior or senior industry and technology student who possesses a GPA of at least 3.0 and is committed to specializing in and demonstrating outstanding performance in transportation/energy/power. [Applied Engineering, Safety & Technology]

Ireland 500 Award. Awarded to a student who is participating in a global education experience in Ireland (including Northern Ireland), including study abroad (any-length program), student teaching or internship abroad. First preference will be given to a student with financial need. An application is required. [Global Education and Partnerships]

Henry J. Kauffman Award in Metal Technology. Awarded to a senior industry and technology major who has attained distinguished achievement in metals technology. [Applied Engineering, Safety & Technology]

Richard C. Keller Award in American History. Awarded to a senior history major who has shown strong interest and capability in American history. [History]

Martin and Anna Zimmerman Kondor Award. Awarded to a senior in early childhood or middle-level education with a 3.35 GPA, excellence in student-teaching experience, outstanding personal and professional characteristics, and dedication to teaching. [Early, Middle & Exceptional Education]

Louis and Margarete Koppel Awards in European History and German Literature. The awards are given to two graduating seniors, one excelling in the study of European history and the other excelling in German language and literature. [History and Language and Culture Studies]

Lambda Chi Alpha Freshman Annual Award. Awarded to a member of the Lambda Chi Alpha fraternity in good academic standing. [Financial Aid]

Edward J. Laucks Memorial Sertoma Award. Awarded to a student who has achieved excellence in the communication major. [Communication & Theatre]

Qwan K. Lewis Award. Awarded to a first year or sophomore student majoring in communication or music with a minimum GPA of 3.0. First preference for a student who is involved in Greek Life and who is musically inclined. [Admissions]<sup>1</sup>

Jack Loose Sons of the Revolution American History Research Award. Awarded to a junior, senior or graduate student who is pursuing current research on the American Revolution. First preference will be a student whose research focuses on the American Revolution in Lancaster County; second preference will be a student whose research focuses on the American Revolution in general; and third preference will be a student doing research on a topic within American history. An application is required. The recipient will be selected by the history department after an initial review by the Lancaster County Chapter, PSSR. [History]

Susan P. Luek Award for Graduate Study in Psychology. Awarded to up to four graduating psychology majors who have a CGPA of 3.5 or higher and show considerable promise for graduate study in psychology or related areas. [Psychology]

Susan P. Luek University Honors College Award. Awarded to up to four graduating seniors in the University Honors College who have a CGPA of 3.5 or higher and show considerable promise for graduate study or post-baccalaureate professional school. [University Honors College]

Patricia N. May '66 Memorial Award. Awarded to an early childhood education major with a cumulative GPA of at least 3.0 who also has financial need. The award may be renewed, provided the student remains in the major and continues to meet the criteria. [Early, Middle & Exceptional Education]

John Mentzer Award in Special Education. Awarded to a junior who is enrolled in the certification program in special education and has demonstrated potential for becoming an outstanding teacher. [Special Education]

Helen R. Metzler Undergraduate and Graduate Reading Award. Awarded to an early childhood or middle-level education major and a graduate student who completed their Reading Specialist certification who have an interest in reading and have shown excellence in classroom performance and knowledge of reading techniques. Must have completed all certification courses at Millersville University. [Early, Middle & Exceptional Education]

Music Faculty Award. Awarded to the outstanding music education graduate. [Music]

C. Maxwell and Edna H. Myers History Award. Awarded to a history major who has earned a minimum of 85 credits; based on academic accomplishment and service to the department and the University. [History]

Carol J. Myers Music Educators Award. Awarded to a music education major in good academic standing entering his/her senior year, prior to the semester in which the student will be student teaching. Preference given to students concentrating in vocal studies. [Music]

Dr. Erik and Mrs. Jeanne Nakjavani Award for International Study. Awarded to up to five students for expenses related to study abroad and/or international internships. Students will be selected based upon the following criteria: academic merit, the impact of the education abroad on their professional and personal development, and a commitment to promote international education upon their return to Millersville University. First preference will be given to students with financial need. An application is required. Second preference, or if no student meets the above criteria, the award will be offered to up to five students who are pursuing an academic program with an international or comparative focus, including but not limited to government, international studies and foreign languages. [Global Education and Partnerships]

Jay B. Niesley '73 Memorial Student Leadership Award. Awarded for outstanding leadership to a student with at least 45 completed credits and a cumulative GPA of 2.5. Selection will be based on the student's contributions to Millersville University and involvement in leadership roles, including but not limited to student affairs and government. [Student Affairs]

Joseph Oberly Jr. Memorial Family Music Award. Awarded to an incoming first year or sophomore student in good academic standing in the music department. First preference should be given to a student with focused training on the accordion, keyboard, piano and/or guitar. [Music]<sup>1</sup>

Omicron Delta Epsilon Student Research Award. Awarded to one or more students majoring in economics who demonstrate(s) academic excellence through economic research by presenting the best research paper at a research conference, symposium, seminar or poster session. [Economics]

Burl N. Osburn Award. Awarded annually to a student who excels in technology education. [Applied Engineering, Safety & Technology]

Pennsylvania Bandmasters Association Award. Awarded to an incoming first year music major who excels in band instrument performance. [Music]<sup>1</sup>

Pennsylvania Institute of Certified Public Accountants Award. A plaque will be given to a graduating senior who has demonstrated outstanding commitment to the profession of accounting. Selection is based on high performance in accounting in particular and on excellent general performance, plus participation in the cocurricular activities in business administration. [Accounting and Finance]

Phi Kappa Phi Award. Awarded for the best essay written by an undergraduate member of Phi Kappa Phi Chapter 211. [Phi Kappa Phi]

Phi Sigma Pi Award. Awarded to a graduating Phi Sigma Pi member for scholarship, leadership, character and outstanding service to the University. Service keys are awarded to graduating members of the fraternity using the same criteria. [Phi Sigma Pi]

Philadelphia Alumni Award. Awarded to a technology education major who demonstrates the best qualities of a technology teacher. [Applied Engineering, Safety & Technology]

Polymer Education Undergraduate Award. Awarded to a sophomore/junior-level chemistry major who has a minimum GPA of 3.5 and who has earned an "A" in each semester of the two-semester organic chemistry course sequence. [Chemistry]

Psychology Club Award. Awarded to a senior psychology major for outstanding interest in and enthusiasm for psychology, service to the department and scholarship as evidenced by a GPA of at least 3.0. [Psychology]

Psychology Faculty Awards. Established by the psychology faculty and awarded to outstanding junior and senior psychology majors. [Psychology]

Keith Ranck/Ralph and Judy Anttonen/WIXQ Award. Awarded to a student who is a member of the WIXQ Executive or Station Council and who has worked at WIXQ for at least two semesters. The recipient will be selected by a committee including the WIXQ staff advisor, a member of the Student Affairs staff, two graduating senior students from WIXQ and a WIXQ alumnus. The award is not renewable. [WIXQ]

Margie L. Ranck Award. Awarded to a student who has completed the junior year on the basis of outstanding intellectual attainment, good character and an interest in Bible study. [Honors and Awards Committee]

Dr. Gary W. and Jacqueline Reighard Award for Outstanding Leadership. Awarded to a student for outstanding leadership who has completed at least 60 credits and who possesses at least a 2.75 GPA. Selection is based upon past contributions to Millersville University and potential for future development as a leader. [Student Affairs]

Robertson Library Garden Botany Internship. Awarded to a rising sophomore, junior or senior with a CGPA of 2.5 or greater, with first preference to biology majors with a botany option, who must demonstrate an interest in pursuing advanced study or a career in horticulture, horticultural taxonomy, landscape design or other related disciplines in botany, and will be the student deemed most capable of completing a successful project in a timely manner. The internship is not renewable. [Biology]

Henry J. Rutherford Memorial Award. Awarded to a junior or senior who has been constructively involved in environmental action and environmental enrichment activities. [Priority Club Advisor]

Michael Scott Sawicki Memorial Award. Awarded to an incoming or present student at Millersville who engages in community service. Selected students must have a GPA of at least 2.5, with first preference to a Lancaster Catholic High School graduate. [Financial Aid]<sup>1</sup>

Irene P. Seadle German Section Award. Awarded to a senior German major who has done excellent work in German studies and contributed significant service to the German section. [Language and Culture Studies]

Social Work Faculty Award. Awarded to a senior social work major for academic excellence. [Social Work]

Social Work Organization Award. Awarded to a senior social work major for academic excellence and contributions to the Social Work Organization. [Social Work]

Society for the Advancement of Management Award. Presented by the Millersville student chapter of S.A.M. to a junior or senior who has maintained at least a 3.0 GPA and exhibited outstanding management potential through participation in cocurricular activities in business administration. [Management and Marketing]

Charles D. Spotts Naturalist-Humanist Award. Awarded to a student who has contributed most to the naturalist-humanist ethic. [Entomology Club Advisor]

Mary R. Slokum Sproul Prize. Awarded to a student for excellence in public speaking. [Communication & Theatre]

Starbrad Excellence in Science Award. Awarded to a student who is majoring in one of the sciences, with first preference to chemistry, and who is participating in an internship for which he or she is receiving no pay. [Experiential Learning & Career Management]

J. Richard Steinmetz Technology Teaching Award. Awarded to a technology education senior who, in the judgment of the industry and technology faculty, has high potential to become a successful teacher, as evidenced by outstanding performance in student teaching and excellence in professional technical areas. [Applied Engineering, Safety & Technology]

Mark Stine Scholastic Attainment Award. Awarded to a junior and a senior who have pursued higher education primarily on a part-time basis and who have had special family responsibilities, or who have overcome cultural challenges. Students admitted on nondegree status are eligible. [Honors and Awards Committee]

Anna Tunis Summy Print Award. Awarded for outstanding achievement by a student who has produced the best print in the art department's printmaking classes, as judged by a jury of art department faculty. [Art & Design]

Anna Tunis Summy Watercolor Award. Awarded to a student demonstrating special talents and contributions related to visual arts and specifically the watercolor medium. [Art & Design]

Ronald E. Sykes Artist-Teacher Award. Awarded to the art education student teacher who has achieved the highest GPA based on 30 or more Millersville art credits. [Art & Design]

**William S. Trout Award.** Awarded to a junior or senior English education major or a French, German, Spanish education major, or a middle-level English language arts major with a minor in American literature or general English who has a cumulative GPA equal to or greater than 2.5, and a minimum 3.0 GPA in English courses. Candidates should document their commitment to involvement in creative writing (poetry, fiction and/or essay). In addition, applicants are required to document a commitment to community service, such as participation in campus, local or regional literary groups; involvement with in-school programs; tutoring K-12 students; practicum internships; or volunteering in educational programs for senior citizens. An application for the Trout Award is required, as is one of the following: an essay of 3-5 pages based on a poem or poems of William S. Trout, a lesson plan used during student teaching that focuses on a poem or poems by William S. Trout, or a paper submitted as part of a course requirement that includes a discussion of one or more of William S. Trout's poems. [English]

**Gail and Kenneth Twiford Biology Award.** Awarded to a full-time student majoring in biology who has a 2.75 or greater GPA and financial need. If awarded to a first year student, the recipient must be in the top 15 percent of his/her high school class. The award is renewable, provided the recipient continues to be a biology major, sustains a GPA of 2.75 or greater and continues to have financial need. [Biology]<sup>1</sup>

**Cecil M. Upton Organic Chemistry Award.** Awarded to the outstanding student in the organic chemistry course sequence. [Chemistry]

**John A. Van Horn Memorial Award for Applied Physics.** A book to a senior physics major who demonstrates outstanding ability in applied physics. [Physics]

**Louis Vyner Performance Award.** Awarded to a full-time music major, selected by an audition committee of the music department on the basis of outstanding performance in the field of music and demonstrated academic excellence. [Music]

**Steven A. Walker Memorial Award.** Awarded to one or more junior or senior Spanish majors who have done excellent work in Spanish studies and contributed significantly to the Spanish Club. [Language and Culture Studies]

**Wentzel-Wright Memorial Award.** Awarded to a student at the end of the junior year, payable upon enrollment for the second semester of the senior year, on the basis of financial need, industry, service to the University community, participation in campus activities, scholarship, good character, integrity, honesty and professionalism. [Honors and Awards Committee]

**Wickersham-Burrowes Fund for Excellence in the Arts.** Awarded to a student or students in the arts, with first preference to provide nontuition assistance for examples that may include, but again are not limited to, travel expenses for national or international study abroad, instrument rental or purchase fees, and art supplies. Remaining funds may be used to provide scholarship assistance to students with financial need majoring in the arts. An application is required. Funding support is renewable (for a maximum of three years), but an application is required each year. [Director of Ware Center]

**Ruth Fox Wilkinson Award.** Awarded to a graduating senior who has attained the highest average in early childhood or middle-level education courses. [Early, Middle & Exceptional Education]

**WIXQ Service Award.** Awarded for outstanding service to the University radio station. [WIXQ]

**Edna Rochow Workman Memorial Award.** Awarded to a junior or senior art major who has produced the best painting in oil or related media during the academic year. [Art & Design]

**Xenophile-Theodore H. Rupp Foreign Language Award.** Awarded to a senior for excellence in foreign languages. [Language and Culture Studies]

1 - The University scholarships are awarded to first-year incoming students. For more information regarding how to apply for first year scholarships, contact the admissions office.

#### Undergraduate

## Policies

### ACADEMIC POLICIES FOR UNDERGRADUATES

#### ACADEMIC STANDARDS

The registrar determines the academic standing of all students at the end of each semester and session. Academic standing is based on:

1. The student's cumulative grade point average (CGPA).

2. The total number of Millersville University credits for which the student has enrolled prior to the review. Credits for audited courses, transfer credits and advanced standing credits are not included.

Students with a CGPA of 2.00 or greater are in satisfactory academic standing. Students with less-than-satisfactory academic standing are subject to academic warning, probation or dismissal as follows:

REVIEW CREDITS	CUMULATIVE GPA	ACTION
0.5–16.0	Below 2.00	Warning letter
16.5 or more	Below 2.00	Probation
32.5 or more	Below 2.00 while on probation	Dismissal <sup>1</sup>

<sup>1</sup> Students on probation at the end of a summer or winter session will be continued on probation for the following semester and cannot be dismissed. A student cannot be dismissed at the end of any fall or spring semester in which he/she has earned a 2.00 or greater semester GPA, even if the CGPA remains less than 2.00.

### ACADEMIC PROBATION

Students on probation are limited to registering for no more than 13 credits per semester unless they have the written permission of their academic advisor, their department chairperson, the Dean of University College, or an appropriate designee for each.

A student on probation will return to satisfactory academic standing at the end of the semester or session in which he/she earns a 2.00 or greater CGPA.

### ACADEMIC DISMISSAL

A student dismissed for the first time is not permitted to register for or attend classes offered by the University for one semester. A student dismissed for the second time is not permitted to register for or attend classes offered by the University for two semesters. A student dismissed for the third or greater time is not permitted to register for or attend classes offered by the University for three years. A student's dismissal number accrues each time the student is dismissed, regardless of the outcome of any appeal.

Dismissed students are not permitted to register for or attend courses offered by the University during intervening winter or summer sessions. However, students who have registered for winter or summer courses prior to being dismissed may attend said courses. If such winter or summer coursework results in a cumulative GPA of 2.00 or greater, the student returns to satisfactory academic standing.

A dismissed student who wishes to be admitted to the University after his/her dismissal period must apply for admission through the Admissions Office. Students who seek readmission to the University following the completion of their third or greater dismissal sanction must submit a written letter detailing the changes they have implemented in an effort to foster academic success upon readmission. The Director of Admissions seeks the recommendation of the Academic Standards Committee (ASC) on third or greater dismissal applicants.

### ACADEMIC DISMISSAL APPEAL

Students who have been dismissed will receive a Notice of Dismissal from the University. That notice will describe the procedures for appealing the dismissal. It is the student's responsibility to keep abreast of his/her academic standing and to be proactive in any appeal process.

Students who have been dismissed and believe extenuating circumstances affected their academic performance may submit a formal letter of appeal and supporting documentation to the Academic Standards Committee (ASC) in care of the Registrar's Office. In order to be considered, letters of appeal must be received within eight business days of the date that appears on the Notice of Dismissal.

Students who are dismissed for the first time have the option to appeal in person before a subcommittee of the ASC, in addition to submitting the required written appeal. Students who are dismissed for the second or greater time may only appeal in writing. The academic decision of the ASC subcommittee is on behalf of the entire ASC, and is therefore final and not subject to further review. The Chairperson of the ASC or his/her designee will provide the appellant with a letter stating the decision of the ASC and terms

(if any) for future action. Examples of such terms include a reduced credit load, the repeat of coursework and the active seeking of assistance from student-support services. Under no circumstances will the Chairperson or subcommittee of the ASC modify the duration of a dismissal period prescribed herein.

After the ASC's decision, if an appellant believes the appeal process was not administered as prescribed herein, the appellant may pursue an appeal of the process, but not the academic decision, in writing, to the Associate Provost. Such an appeal must be made within ten business days from the date of the decision letter from the Chairperson of the ASC. The appellant is advised to provide as much written documentation as possible, describing why the process was not administered as prescribed herein, and any supporting materials. The decision of the Associate Provost regarding the process appeal is final and not subject to further review.

## **SEMESTER CREDIT-LOAD POLICIES**

### **FULL-TIME/PART-TIME STATUS**

To be considered full-time, undergraduates must be registered for at least 12 credits by the end of the drop/add period. Audited courses are included in the computation of semester credit load.

### **RECOMMENDED CREDIT LOADS**

The normal semester load for undergraduates is 15 credits during the first year, and 15 or more credits in subsequent years. Students with GPAs below 2.00 are strongly advised to take fewer than 15 credits; students on academic probation are limited to 13 credits per semester.

Students who have completed fewer than 80 credits may not register for more than 17 credits. Additional courses may be added at the beginning of the semester during the drop/add period.

More than 18 credits will require additional payment at the current charge per credit hour.

During the semester in which a student is enrolled in student teaching, one additional course may be taken, provided the course does not conflict with the student-teaching assignment.

Students should recognize that some programs require more than 120 credits. Completing these programs or a second major or minor may require carrying semester loads above 15 credits, attending summer school and/or taking more than four years to complete a degree.

### **SUMMER AND WINTER SESSIONS**

The recommended course load during any summer session or winter session is two simultaneous courses. Students should consult their academic advisor before registering for more than two courses in any session.

### **OVERLOADS**

Normally, students may not carry more than 21 credits in any one semester. Students enrolled in student-teaching courses may enroll for one additional course if it does not conflict with the student-teaching assignment.

## **LEAVING MILLERSVILLE UNIVERSITY**

Students who wish to leave Millersville before graduating may take a temporary leave of absence or withdraw completely from the University.

### **LEAVE OF ABSENCE**

Students who wish to interrupt their studies at Millersville for up to two consecutive semesters may request a leave of absence. This allows them to register for courses upon their return without applying for readmission. To be eligible for a leave of absence, a student must be enrolled in degree status and have a minimum CGPA of 2.00.

To request a leave of absence, complete an official Leave of Absence form, available from the registrar's office or on the Millersville website in the Student Forms Center. Contact the registrar's office for information on the effects of a leave of absence.

Students who take a leave of absence to study at another institution during the fall or spring semester should also complete an Authorization for Transfer of Credit form, available from the registrar's office or on the web in the Student Forms Center.

A leave of absence is cancelled, and the student considered withdrawn, if the student fails to return by the established ending time or is dismissed by the University.

## **MILITARY LEAVE OF ABSENCE**

Students who are called to active duty must contact the registrar's office for assistance with arranging a leave of absence and their subsequent return to the University. A copy of the student's military orders must be presented to the registrar. Students who expect to return to class within the current semester to complete their coursework, or who are called to duty after completing a significant part of the course requirements, should contact their faculty regarding missed work. Students who cannot complete the current semester will be granted a leave of absence for military duty and will be allowed to return for the next semester without penalty.

## **WITHDRAWING FROM THE UNIVERSITY**

Students who wish to withdraw from the University must complete an official Withdrawal form, available from the registrar's office or on the Millersville website in the Student Forms Center. This applies to all students, whether withdrawing during or between semesters, regardless of reason for withdrawal. Failure to complete this form will jeopardize a student's chances of future readmission.

Students who have officially withdrawn from the University and wish to return should contact the admissions office, Lombardo Welcome Center, for an application for readmission. See the Admissions section for more information.

## **REVIEW OF PROGRAMMATIC STANDARDS**

The University's programmatic and assessment standards are established by the respective college and monitored by the college dean. A student may discuss issues related to these standards with the college dean. The college dean(s) and the University's provost, however, maintain ultimate authority to determine whether a student has successfully satisfied the programmatic and assessment standards, including preliminary, qualifying and comprehensive examinations.

Faculty members are charged with the responsibility of evaluating a student's academic performance in accordance with the faculty member's professional and academic judgment. The deans of the University's colleges establish the programmatic standards for their respective colleges and will review any issues related to those standards. The following procedures must be followed by students challenging these academic determinations or those encountering a problem with an academic affairs process. Appeals dealing with Academic Dismissal from the University, violations of the Academic Honesty Policy or violations of the Student Code of Conduct are handled by separate processes.

## **ACADEMIC APPEALS**

### **ACADEMIC DETERMINATION**

When a student disagrees with an academic determination by a faculty member, the student and the faculty member must meet, within 30 days of the beginning of the subsequent semester, to discuss the disputed issue and attempt, in good faith, to resolve the matter. The student has the responsibility to contact the faculty member so that the meeting can be arranged. If the student and faculty member are unable to meet within the specified time period, the student must contact the faculty member's department chair within 10 calendar days of the above time period to move to the next phase of the appeal.

If the student and the faculty member are unable to mutually resolve the dispute, the student must file a written appeal with the faculty member's department chair within 10 calendar days of the student/faculty member discussion. The student is advised to set forth in detail the basis for the appeal and provide written documentation in support of the appeal. The department chair will request a written statement from the faculty member and may meet with the faculty member as well. The department chair will review the appeal and any supporting documentation and then meet with the student. The department chair will notify the student and the faculty member of his or her decision within 10 calendar days of receipt of the appeal.

If the department chair's decision does not resolve the dispute, the student may submit a written appeal with the appropriate college dean within 10 calendar days from the date of the department chair's decision. The student should include any written documentation in support of the appeal. The college dean will request a written statement from the faculty member and may meet with the faculty member as well. The college dean will review the appeal and any supporting documentation and will meet with the student. The college dean will notify the student, the department chair and the faculty member of his or her decision within 10 calendar days of receipt of the appeal. The decision of the college dean is final and not subject to further review.

### **ACADEMIC AFFAIRS PROCESS**

When a student encounters a problem with an academic process at the University (e.g., transfer of credit from another institution, missing or incomplete information in a student record, etc.), the student should attempt to resolve the problem by contacting the staff member, or appropriate administrative office, within 30 days of identifying the error. The student and the staff member must discuss the disputed issue and attempt, in good faith, to resolve the matter.

If the student and the staff member are unable to mutually resolve the dispute, the student must file a written appeal with the staff member's supervisor within 10 calendar days of the student/staff member discussion. The student is advised to set forth in detail the basis for the appeal and provide written documentation in support of the appeal. The supervisor will request a written statement from the staff member and may meet with the staff member as well. The supervisor will review the appeal and any supporting documentation and then meet with the student. The supervisor will notify the student and the staff member of their decision within 10 calendar days of receipt of the appeal.

If the supervisor's decision does not resolve the dispute, the student may submit a written appeal to the University Provost within 10 calendar days from the date of the supervisor's decision. The student should include any written documentation in support of the appeal. The Provost will request a written statement from the staff member and may meet with the staff member as well. The Provost will review the appeal and any supporting documentation and will meet with the student. The Provost will notify the student, the supervisor and the staff member of their decision within 10 calendar days of receipt of the appeal. The decision of the Provost is final and not subject to further review.

## CLASS STANDING

Class standing is based on total credits earned, including those transferred from other colleges and earned through advanced standing programs, such as CLEP, as follows:

CREDITS EARNED	CLASS STANDING
0–29.5	First Year
30–59.5	Sophomore
60–89.5	Junior
90 or more	Senior

## CLASS ATTENDANCE POLICY

The University supports departmental and faculty class attendance policies that are reflective of and consistent with University-approved guidelines. Faculty will include their class attendance policy in their syllabi given to all students in their classes at the start of the semester.

University-Approved Guidelines:

1. Students are expected to attend all classes. It is the student's responsibility to complete all course requirements even if a class is missed. If a student misses class for an officially excused reason, they are entitled to make up the missed work, but only at the convenience of the faculty member. Responsibility for materials presented in, assignments made for, and tests/quizzes given in regularly scheduled classes lies solely with the student.
2. The University policy is that faculty will excuse absences for the following reasons:
  1. personal illness
  2. death or critical illness in the family
  3. participation in a University-sponsored activity
  4. jury duty
  5. military duties
  6. religious holidays
3. Faculty judge the validity of student absences from class within the University's approved guidelines and may require documentation for excused absences. Faculty will evaluate any reason, other than those listed above, for a student missing class and determine whether the absence is justified. In these circumstances, a student may make up missed work at the discretion of the instructor.
4. In the case of foreseeable absences, students are encouraged to notify the faculty member in advance. A student who will miss class due to participation in an official University activity must notify the instructor well in advance of the activity to assure that the absence is excused.

## COURSE NUMBER SYSTEM

Millersville University uses the following course-numbering system:

COURSE NUMBERS	DESCRIPTIONS
000-099	Precollege developmental courses.
100-199	Courses primarily designed for first year students.
200-299	Courses primarily designed for sophomores.
300-399	Courses primarily designed for juniors and seniors.
400-499	Courses primarily designed for seniors.
500-599	First-level graduate courses (these courses may be taken by advanced undergraduates).
600-699	Graduate masters level courses
700-899	Graduate doctoral level courses

The following course numbers are reserved:

COURSE NUMBERS	DESCRIPTION
300, 400, 500	Cooperative Education experiences.
179, 279, 379, 479, 579, 679	Experimental courses.
489	Honors courses.
498	Independent study.
499	Departmental honors/thesis/University Honors College thesis.

## DEAN'S LIST

A student is eligible for the dean's list after a given semester if he or she has:

1. Earned a semester GPA of 3.50 or higher, and
2. Attempted at least 12 credits of undergraduate coursework in that semester, excluding those courses not used to compute the GPA.

## GRADUATION HONORS FOR A BACCALAUREATE DEGREE

Students who have earned consistently superior grades in their coursework at Millersville University are recognized for their achievements at graduation with the designation of graduation honors. The student's diploma and University record carry the appropriate honors designation:

- Cum laude for a cumulative GPA between 3.50 and 3.74.
- Magna cum laude for a cumulative GPA between 3.75 and 3.94.
- Summa cum laude for a cumulative GPA between 3.95 and 4.00.

Eligibility for graduation with honors is determined based on the Millersville grade point average. Neither transfer work nor in-progress courses are included in the honors GPA. For students who have been awarded academic amnesty, the preamnesty work is not included in calculating the honors GPA.

Changes in the eligibility for, or the level of, honors following the posting of grades for the final semester at Millersville will be reflected on the student's diploma and Millersville transcript.

To qualify for graduation honors, students must:

1. Earn a GPA of 3.50 or higher in work done at Millersville, and
2. Complete at least 60 credits of Millersville coursework.

Graduation Honors for Associate Degree Candidates. To qualify for the designation "with honors" on their diploma and University record, associate-degree candidates must:

1. Earn a GPA of 3.50 or higher in work done at Millersville, and
2. Complete at least 30 credits with grades A through D- of Millersville coursework.

# Graduate

## Overview

A graduate catalog is published every year by the Millersville University of Pennsylvania Council of Trustees. This document at [www.millersville.edu](http://www.millersville.edu) provides announcements for the 2024-2025 academic year. The catalog is for informational purposes only and does not constitute a contract. The provisions of this catalog are not intended to create any substantive rights beyond those created by the laws and constitutions of the United States and the Commonwealth of Pennsylvania. They are not intended to create, in and of themselves, any cause of action against the State System of Higher Education, the Board of Governors, the Chancellor, an individual, President or University, or any other officer, agency, agent or employee of the State System of Higher Education.

Information contained herein was current at the time of publication. Courses and programs may be revised; faculty lists and other information are subject to change without notice; course frequency is dependent on faculty availability. Not all courses are necessarily offered each session of each year. Individual departments should be consulted for the most current information. The provisions of this catalog are not to be regarded as an irrevocable contract between the student and Millersville University of Pennsylvania. The University reserves the right to change any provisions or requirements at any time.

## Student Body

Enrollment at Millersville University is 7,000 students, 1100 of whom are graduate students. Graduate students come from several states and foreign countries. The placement and employment rate of graduate students is excellent, exceeding 90 percent in most areas. Education and social service departments devote considerable attention to the placement of graduates. The liberal arts and science departments encourage their graduates to pursue doctoral or research programs.

## State Authorization Reciprocity Agreement (SARA)

Effective January 1, 2017, The Commonwealth of Pennsylvania joined the National Council for State Authorization Reciprocity Agreements (NC-SARA). Millersville University has been approved by the state of Pennsylvania to participate in the National Council for State Authorization Reciprocity Agreements. NC-SARA is a voluntary, regional approach to state oversight of postsecondary distance education. For more information on NC-SARA, please visit [www.nc-sara.org](http://www.nc-sara.org).

In compliance with [34 CFR 668.43\(b\)](#) Code of Federal Regulation and U.S. Department of Education (USDOE) rules, an institution offering distance education must "provide its students or prospective students with contact information for filing complaints with its accreditor and with its State approval or licensing entity and any other relevant State official or agency that would appropriately handle a student's complaint." This process refers to the student's available recourse if the distance education student has exhausted all possible avenues for complaints at the institution related to consumer protection and the issue has not been resolved to the student's satisfaction.

All current, former, and prospective distance education students, regardless of their residency, must first submit any grievances, complaints, or concerns directly to Millersville University in accordance with university policies located in the [Catalog](#). This step must be completed prior to seeking external resolution for an issue. Please note that student complaints about grades or student conduct cannot be addressed through the SARA/distance education complaint process and must be addressed by the university.

A student may appeal to the portal agency of the home state in which the institution is legally domiciled for consumer protection issues. The Pennsylvania Department of Education is the state portal agency and will notify NC-SARA of an appealed complaint in efforts to seek resolution. Complaints can be addressed to the Pennsylvania Department of Education, Higher and Career Education, 333 Market Street, Harrisburg, PA 17126, or via email at [ra-distanceducation@pa.gov](mailto:ra-distanceducation@pa.gov). Students may also file consumer protection complaints with the [Pennsylvania State System of Higher Education](#) or the university's accreditor, the [Middle States Commission on Higher Education](#).

## Communicating With Students

At Millersville, an important way we keep in touch with our graduate students is through email, and we provide all graduate students with a free Millersville University student email account. Because we use email as an official way of communicating with students, you are required to activate your new Millersville University account and use it regularly, even if you possess another account through Yahoo, Hotmail, AOL or other service. Your Marauder Mail account is automatically generated at the

time you register for coursework. Your email address is myVilleID@marauder.millersville.edu. To access your account, go to the University's homepage, click on the myVille link, then click on the Marauder Mail icon. If you need assistance, contact the Help Desk at 717-871-7777.

The Graduate Studies website, available at [www.millersville.edu/graduate](http://www.millersville.edu/graduate), is an important resource for graduate students, containing current news and events information, access to the graduate student forms center, contact information for graduate studies staff and department graduate coordinators, financial assistance and research support, and other regularly updated information.

For more information about Graduate programs at Millersville University, please contact the Director of Graduate Admissions: 717-871-4723 or 717-871-7644.

#### Graduate

## Masters Programs

### Explore our Masters Programs

The graduate programs at Millersville University are designed to provide opportunities for post-baccalaureate students to pursue scholarly and research activity, and to obtain knowledge in an advanced field of study.

For more information on these programs please contact the Director of Graduate Admissions: 717-871-4723 or 717-871-7644.

### ADMISSION

Each applicant must submit a completed Graduate Studies Admissions Application and supporting credentials to Graduate Studies. Admission will depend upon the academic and professional background of each applicant.

View master program offerings below:

- [Master of Arts](#)
- [Master of Science](#)
- [Master of Education](#)
- [Master of Science in Nursing](#)
- [Master of Social Work](#)

### MASTER OF EDUCATION

Students seeking advanced study in education have the opportunity to earn a Master of Education in a diverse array of programs. [Master of Education degree programs](#) are designed to enable the student to become highly skilled as a professional practitioner in education. Each M.Ed. curriculum includes a component in the respective subject matter (e.g., art, elementary education, English, etc.) and a common set of courses in the philosophical, psychological and sociological principles involved in teaching and learning.

The professional core is intended to support candidates to acquire the knowledge, skills and dispositions of the Professional Education Unit and the conceptual framework, Communities of Learners. *Thus, core courses should be scheduled early in a student's program.*

#### Graduate

## Post-Masters Certificates

### View Post-Masters Certificates

Millersville University offers a range of professional development programs at the post-masters level. For information concerning these programs, please contact the Director of Graduate Admissions: 717-871-4723 or 717-871-7644.

### ADMISSION

Each applicant must submit a completed Graduate Studies Admissions Application and supporting credentials to Graduate Studies. Admission will depend upon the academic and professional background of each applicant.

- [View all post-masters certificates](#)

## Post-Bacc Teacher Certification

### Overview of Post Baccalaureate Teacher Certification

Students seeking to become K-12 teachers can become certified by enrolling in a post baccalaureate certification program. These programs are designed for students who have earned a bachelor's degree in a content area but may not have completed the requirements of a Bachelor of Science in education.

For more information on these programs please contact the Director of Graduate Admissions: 717-871-4723 or 717-871-7644 or the College of Education and Human Services: 717-871-7333.

### ADMISSION

Each applicant must submit a completed Graduate Studies Admissions Application and supporting credentials to Graduate Studies. Admission will depend upon the academic and professional background of each applicant.

- [View all post-baccalaureate certifications](#)

### TEACHER CERTIFICATION TESTING

All Millersville University students who complete the requirements for an initial teacher education certificate through a master's degree—or an approved program of post-baccalaureate or postgraduate studies—will be required to take specialty area tests before receiving the certificate. Official test scores must be received by Millersville University directly from the testing agency.

Mandated by the State Board of Education, Commonwealth of Pennsylvania, these tests must be passed to qualify for Instructional or other Professional Personnel Certificates.

### INSTRUCTIONAL I CERTIFICATION

Instructional I certification is required for entry into a teaching position in Commonwealth of Pennsylvania schools.

Applicants interested in earning teacher certification, whether in addition to certification obtained through an undergraduate teacher education program or as a supplement to a liberal arts baccalaureate program, should contact the Certification Office, 717- 871-7362.

### INSTRUCTIONAL II CERTIFICATION

Requests for Instructional II certification are made directly by in-service teachers to the Pennsylvania Department of Education at 333 Market Street, Harrisburg, PA 17126-0333; 717-787-3356.

*Those planning to satisfy continuing professional education requirements at the graduate level are encouraged to consider a master's degree program. Through academic advisement and careful development of a program of study, teachers can simultaneously pursue certification and a master's degree.*

Teachers interested in completing Instructional II certification requirements at the graduate level must contact Graduate Studies for admission information.

### READING SPECIALIST CERTIFICATION

Millersville University is an approved provider of a Reading Specialist Certification. Persons who have a valid Pennsylvania Instructional I or Instructional II certificate and have enrolled in and completed the Millersville University Reading Specialist courses are eligible to receive reading specialist certification from the Pennsylvania Department of Education.

### ESL CERTIFICATION

Millersville University is an approved provider of a Program Specialist-ESL certificate program. Persons who have a valid Pennsylvania Instructional I or Instructional II certificate and have enrolled in and completed the Millersville University ESL program are eligible to receive ESL add-on certification from the Pennsylvania Department of Education.

## EDUCATIONAL SPECIALIST I CERTIFICATION

Educational Specialist I certification is required for entry into guidance and school psychology positions in Commonwealth of Pennsylvania schools. An Educational Specialist II certificate is acquired through the recommendation of the school district superintendent.

Graduate

## Supervisory Certification Program

### Overview of Supervisory Certification Program

The supervisory certification program prepares experienced school personnel to assume leadership roles in an educational setting. This program, offered on a post-master's level, complies with the Commonwealth's certification mandate for educational supervisors and meets Supervisory I certification requirements.

### ADMISSION REQUIREMENTS

Eligible applicants should contact the appropriate coordinator at the time they apply to the program.

The standard degree application must be completed: three letters of recommendation, a professional goals statement and an official transcript of undergraduate and graduate work. Miller Analogies Test and Graduate Record Exam scores do not need to be submitted.

The application materials will be evaluated by the appropriate department, and an admission recommendation will be forwarded to Graduate Studies.

Applicants must hold *Instructional II* certification in the subject area in which the supervisory certification is sought and have earned a master's degree (or be pursuing one concurrently).

*Note: Before supervisory certification is granted, five years of appropriate experience is required. For supervisory certification in reading, five years of instruction in a literacy setting is required.*

Graduate

## Policies

### ACADEMIC POLICIES FOR GRADUATE STUDENTS

#### STUDENT RIGHTS AND RESPONSIBILITIES

Upon admission to a graduate studies program, the student assumes responsibility for knowing program requirements and following established procedures. Conversely, the student has the right to expect that all program requirements will be made clear and that all course requirements, including grading criteria and procedures, will be made known. The student has the right to instruction that encourages the free and open discussion of ideas and which respects reasonable student needs and aspirations. It is the student's responsibility to contribute to classroom decorum and an atmosphere that encourages maximum learning. Further, each student is entitled to academic advisement but must initiate the advisement process by scheduling appointments with either the graduate program coordinator in the case of degree admission, or with the dean of the College of Graduate Studies and Adult Learning in the case of nondegree admission status.

#### ADVISEMENT

Each student is assigned a faculty advisor upon admission to a graduate program. It is the student's responsibility to initiate contact with that advisor to develop an initial program of study and to meet with him/her prior to each registration period. It is the responsibility of the advisor to provide academic counseling in light of program requirements and the student's personal and professional goals.

#### ACADEMIC STANDING

Graduate degree students are required to maintain a 3.0 grade-point average. A student who fails to meet the scholarship standards may be dismissed from a graduate degree program. If a student falls below a 3.0 average, he/she will be placed on probation. Failure to raise the grade-point average to a minimum of 3.0 during the next semester in which the student is enrolled will result in dismissal from graduate studies at Millersville University. (Summer is considered a semester.)

Graduate students who earn two grades of C+, C or C-, or any combination thereof, will receive an academic warning, regardless of GPA. Earning a third grade of C+, C or C- will result in academic dismissal, regardless of GPA. This includes any courses which have been repeated and replaced with a higher grade. A C+, C or C- grade earned at Millersville University may not be made up at another institution of higher learning for the same course.

A graduate student earning an F grade in any course will be dismissed from graduate study at Millersville University. An F grade earned at Millersville University may not be made up at another institution of higher learning for the same course.

Individual departments may have scholarship requirements beyond this minimum level; students should consult their advisor and the *Academic Programs* section of the catalog.

## **ACADEMIC DISMISSAL AND APPEAL**

Students may appeal dismissal to the Graduate Academic Appeals Committee (GAAC). Students who have been dismissed and believe specific, unusual circumstances affected their academic performance may request a review by writing a letter of appeal to the GAAC. For the appeal to be considered before the next semester, it must be received by the committee by the date specified in the notice of dismissal. Information and forms regarding graduate appeals may be found at [www.millersville.edu/graduate](http://www.millersville.edu/graduate) or by calling 717-871-4723. After GAAC's decision, if an appellant believes the appeal process was not administered as prescribed herein, the appellant may pursue an appeal of the process, but not the academic decision, in writing, to the dean of the College of Graduate Studies and Adult Learning. Such an appeal must be made within 10 business days from the date of the decision letter from the chairperson of the GAAC. The appellant is advised to provide as much written documentation as possible, describing why the process was not administered as prescribed herein, and any supporting materials. The decision of the dean of the College of Graduate Studies and Adult Learning regarding the process appeal is final and not subject to further review.

Any student who is dismissed from the University for poor academic performance may apply to be readmitted to their academic program one calendar year from the date of the dismissal, provided it is their first dismissal. A student may only appeal for reinstatement one time. Upon the second dismissal the student may not appeal and is no longer eligible for admission to any Millersville University graduate program.

## **GRADUATE GRADING POLICIES**

### **REGULAR GRADUATE COURSES**

Graduate-level courses are those regular courses taught at the 500, 600, 700 and 800 levels. Undergraduate courses (100-400 level) may not be counted for credit in a graduate degree program.

Each instructor establishes his or her own grading policy and states it clearly and in writing at the beginning of the course. Appropriate learning outcomes and measurement systems are built into each course structure to evaluate each graduate student's achievement. Instructors in dual-numbered courses (courses that have cross-listed undergraduate and graduate sections) will clearly differentiate the undergraduate assignments, grading systems and other relevant instructional methods in writing at the beginning of the semester.

The grade-point average (GPA) is a comprehensive evaluation of a student's academic standing. The letter grades used in graduate-level courses and their associated grade-point values are as follows: A (4.0), A- (3.7), B+ (3.3), B (3.0), B- (2.7), C+ (2.3), C (2.0), C- (1.7) and F (0.0). In addition, grades of H (Honors), P (Pass), W (Withdrawal), I (Incomplete) and AU (Audit) may also be used. Grades of H, P, W, I and AU are not used in computing the grade-point average. Grade-point average will be rounded to two places.

University policy accepts a C as minimum earned credit. Individual departments may have scholarship requirements beyond this minimum level; students should consult their advisor.

The *semester GPA* is the number of grade points earned in Millersville courses in a semester divided by the number of credits in the semester for which grades calculated in the GPA were earned. Grade points for each course are calculated by multiplying the grade-point value by the number of credits for the course.

The *cumulative GPA* (CGPA) is the total number of grade points earned in Millersville courses divided by the number of Millersville GPA credits. Credits from audited courses, subsequently repeated courses and transfer credits are not included in the CGPA.

### **INCOMPLETE GRADES**

A student, upon consultation with the instructor, may receive a grade of Incomplete. The student has the responsibility to complete the appropriate work as outlined by the instructor by the end of the following regular term. In the case of research reports and theses, the grade of Incomplete must be resolved within one calendar year. If a change of grade is not made by the instructor to indicate completion of requirements in the appropriate time span, the grade will be changed to an F. Under extenuating circumstances, the student may petition the dean of the College of Graduate Studies and Adult Learning, with the recommendation of the instructor, for an extension of time to complete the course or research requirements.

### **DISSERTATIONS, THESES, RESEARCH REPORTS/PROJECTS AND PRACTICUM COURSES**

These are evaluated on the basis of H (Honors), P (Pass), F (Fail) or I (Incomplete).

## **GRADUATE RECORDS POLICIES**

### **CHANGE OF CURRICULUM OR DEGREE STATUS**

Students wishing to change admission status or curriculum must initiate the process by completing the appropriate forms available at <https://www.millersville.edu/admissions/graduate/> or in the College of Graduate Studies and Adult Learning, Lyle Hall. Additional admission requirements may apply to these changes; further, curriculum and degree status changes must be approved by both the dean of the College of Graduate Studies and Adult Learning and the student's department(s).

For post-baccalaureate certification students, a new application must be submitted for students to be reevaluated in a new area of certification.

### **CHANGE OF NAME AND ADDRESS**

It is the responsibility of each student to provide accurate and current information for all University records. Address changes may be completed by students online through their MAX account, or by sending notice to the College of Graduate Studies and Adult Learning. Students must submit official documentation (copy of marriage license, divorce decree, etc.) to the College of Graduate Studies and Adult Learning for a name change to be made.

### **TRANSCRIPTS**

A student or graduate wishing to obtain an official copy of their academic record must request a transcript using the online Credentials Service accessible through the Millersville website or complete the form available in the registrar's office, Lyle Hall. Forms are also available on the Millersville University website, [Student Forms Center](#). If the requester wishes to obtain an official copy for a third party, the requested transcript must be sent directly to the designated third party or requested in a signed, sealed envelope. There is a \$10 fee per transcript when ordered directly from the University's registrar's office.

### **GRADUATION**

Students who plan to graduate at the end of any semester must apply for graduation by the deadline published. A \$30 graduation fee is charged. A student who applies for graduation but does not complete degree requirements by the anticipated date may be required to reapply in the semester when they expect to graduate. Students are billed by the Office of Student Accounts for the graduation fee. Additional details and appropriate forms are available on the Millersville commencement web page at [www.millersville.edu/commencement](http://www.millersville.edu/commencement).

### **COMMON POLICY FOR COMPREHENSIVE EXAMS**

Comprehensive exams are a common method for assessing students' mastery of core learning objectives in graduate programs. At Millersville, graduate programs have the option of using graduate comprehensive examinations, so students should be aware of their own graduate program's policy and timeline. Several graduate programs use the comprehensive exam as a means to advance to degree candidacy early in their program, while others use the exam as a culminating evaluation at the end of the program.

For those programs that require an exam as a method of comprehensive evaluation, the following guidelines have been developed by the Graduate Curriculum and Program Review Committee.

### **REGISTRATION AND ADMINISTRATION**

Comprehensive exams are generally administered on or about the 12th week of the fall and spring terms (November and March) and summer session (July-August). Some programs may not offer their comprehensive exam all three times a year, so it is important to check with the program coordinator. Registration is generally required six weeks prior to the test date; students should check with individual programs for forms and specific dates.

## **GRADING**

A committee and/or faculty member from the appropriate program will grade comprehensive exams on a pass/fail (P/F) basis. There is also the opportunity for a grade of passing with honors (H) to be awarded.

## **FAILURE AND REATTEMPTS**

If a student fails a comprehensive exam, or any part thereof, they must retake the exam, or the sections they failed, per their graduate program's policy. If a student fails to successfully pass the exam a second time, a third attempt may be permitted upon approval of the program coordinator and/or department graduate committee. Prior to the third attempt, the student should examine, with the assistance of an advisor or coordinator, their preparation for the exam and any measures that could be taken to improve performance. The third attempt at a comprehensive exam is considered final, and failure to pass will result in dismissal from the graduate program.

# **POLICIES GOVERNING GRADUATE COURSES**

## **ACADEMIC PETITION**

Students who believe that an academic injustice has occurred must try to resolve the problem at the lowest appropriate level of authority. The levels of authority from lowest to highest are as follows: individual faculty member; department graduate coordinator and department graduate committee (if existing); department chairperson; dean of the College of Graduate Studies and Adult Learning; and lastly, the Provost/ Vice President for Academic Affairs. The case should be presented to progressively higher levels of authority until resolved.

## **AUDITING**

Students who audit must be officially admitted to the University. With the consent of the dean of the College of Graduate Studies and Adult Learning and the instructor, a student may be permitted to register for any course as an auditor if space is available. An auditor is registered and required to attend at least half of the sessions but is not required to participate in any of the work of the course. No credit toward a degree is issued for an audited course. A student enrolled as an auditor may be dropped from the course when in the judgment of the instructor and the dean of the College of Graduate Studies and Adult Learning such action is justified. A student shall pay the regular graduate course tuition and fees for the privilege of auditing. To register to audit a course, contact the registrar's office, for information and a permission form, and submit it by the end of the add period. Audit privilege may not be changed to credit status. Audit privileges are ordinarily limited to one course per semester. A student who has audited a course may, with the advisor's and the appropriate graduate program coordinator's permission, repeat that course for credit. The student must register again for the course and remit the appropriate tuition and fees.

## **GRADUATE-LEVEL COURSES FOR UNDERGRADUATES**

Well-qualified Millersville University undergraduates may enroll in graduate courses for undergraduate or graduate credit. Specified conditions apply to each of these two credit alternatives:

1. Undergraduates may enroll in 500-level graduate courses for undergraduate credit with permission of the instructor and advisor. The credits earned count toward baccalaureate degree requirements and cannot be converted to graduate credits.
2. An undergraduate with an overall 3.0 GPA or higher may enroll in 500- and 600-level graduate courses for graduate credit. The student must have a maximum of 15 semester hours to be completed in the baccalaureate degree program. Written permission must be acquired from the advisor, the course instructor, the graduate program coordinator and/or chair of the department offering the course, and the dean of the College of Graduate Studies and Adult Learning. The undergraduate will also need to be admitted as a nondegree graduate student. A maximum of nine graduate credits may be earned by an undergraduate. These credits may not count toward the completion of the student's baccalaureate degree.
3. Undergraduate students accepted into an accelerated bachelors-master's program may enroll in the appropriate course work at the graduate level.

## **GRADUATE COURSEWORK OUTSIDE MAJOR FIELD**

A student may elect up to, but not more than, six semester hours of work in a discipline outside the major field, provided the courses elected are approved by the advisor and graduate program coordinator. Required professional core courses (M.Ed. programs) are not included in this limit.

## **REPEATING A GRADUATE COURSE**

Graduate students may repeat an individual course only once for grade improvement. Transcripts will reflect grades each time the course is taken. Only the most recent grade and credits will be counted in the cumulative GPA.

Graduate students may repeat an individual course not designed to be repeatable only once for grade improvement.

## **TRANSFER-OF-CREDIT POLICY**

### **CREDITS PRIOR TO ADMISSION AT MILLERSVILLE**

Students must request approval from their department and the dean of the College of Graduate Studies and Adult Learning for the transfer of graduate credit completed at a regionally accredited institution prior to admission to Millersville. Forms for the approval of transfer credits are available in the College of Graduate Studies and Adult Learning, Lyle Hall, or at [www.millersville.edu/graduate](http://www.millersville.edu/graduate). The student must arrange for this office to receive official transcripts directly from the institution at which the graduate work was taken. The transfer credit amount is subject to completion of the residency requirement and is subject to the time limit for the completion of all degree requirements. Except in the most extenuating circumstances, no transfer credit will be allowed for work completed more than five years prior to admission to Millersville University.

All work recommended by the department for transfer credit must be taken in a regular program of studies offered by a four-year, regionally accredited institution. Grades of B- or higher (or documented equivalency) must be achieved in these courses. Requested transfer course grades must come from an accredited graduate program. Extension work and courses offered in a nonacademic institutional setting may not transfer in for credit.

### **PERMISSION TO COMPLETE CREDITS IN TRANSFER FOLLOWING ADMISSION TO A DEGREE PROGRAM**

Following acceptance into a graduate degree program, students desiring to pursue graduate work at another institution for transfer purposes must receive the prior recommendation of their advisor and graduate coordinator, and the prior approval of the dean of the College of Graduate Studies and Adult Learning. Approval forms are available at [www.millersville.edu/graduate/](http://www.millersville.edu/graduate/).

### **DEGREE CANDIDACY REVIEW**

Degree candidacy is a screening and advising process that is used by some graduate programs. If used in their academic program, students are expected to apply to their respective departments for admission to degree candidacy at the earliest possible time. It is the student's responsibility to initiate the candidacy review process within the required semester-hour limitation. See the *Academic Programs* section for specific degree candidacy requirements.

## **THESIS AND DISSERTATION**

### **THESIS**

Several programs offer a master's thesis option. A master's thesis is an approved creative project or an interpretive, analytical work that offers evidence of an original point of view, supported by original research and the results of that research. The final written thesis demonstrates originality, critical and independent thinking, appropriate format, organization and thorough documentation.

If students are planning to pursue a doctoral program, they may want to strongly consider completing a thesis as part of their master's degree requirements. Many doctoral programs look to this as a requirement for admission.

The Graduate Course and Program Review Committee has adopted thesis guidelines to aid in the preparation and completion of theses. View a full copy of the [Thesis and Dissertation Guidelines](#) which is also available on the College of Graduate Studies and Adult Learning website.

### **DISSERTATION**

In order to achieve a doctorate degree, a doctoral student is required to complete the theory, research and presentation of a dissertation. Writing a dissertation requires an ability to do competent research, organize materials effectively, write clearly, and make sound interpretations and conclusions from facts presented. The essence of a dissertation is the demonstration of critical-thinking skills, not merely presenting experimental data. Dissertations are expected to make a new and creative contribution to a field of study. A dissertation will result in a publishable paper which is submitted to the MU Institutional Repository and the academic department.

The Graduate Course and Program Review Committee has adopted dissertation guidelines to aid in the preparation and completion of dissertations. View a full copy of the [Thesis and Dissertation Guidelines](#) which is also available on the College of Graduate Studies and Adult Learning website.

---

## UNIVERSITY ACADEMIC HONESTY POLICY

Students of the University are expected to adhere to Millersville University's values and be honest and forthright in their academic endeavors. To falsify the results of one's research, to steal the words or ideas of another, to cheat on an examination, to allow another person to commit, or assist another in committing an act of academic dishonesty, corrupts the essential process by which knowledge is advanced.

**Actions that Violate the Academic Honesty Policy** - The below lists are for illustration only. They should not be construed as restrictive or as an exhaustive enumeration of the various forms of conduct that constitute violations of the academic honesty policy

### PLAGIARISM

Plagiarism is defined as intentionally or unintentionally using ideas, images, words, or data from another source without crediting that source (including online sources). Students are required to accurately acknowledge any ideas, images, words, or data they use from another source by properly citing the source with (1) an in-text citation in the body of the paper and (2) a complete entry in the reference list at the end of the paper. By placing their name on an assignment/paper/project, students certify that, unless properly cited, all work is original. Students will avoid being charged with plagiarism if they properly acknowledge/cite when doing one or all of the following:

1. quoting source's actual words, including words generated by Artificial Intelligence (AI);
2. using another person's ideas, opinions, or theories, including those generated by an AI, even if they are completely paraphrased in their own words;
3. borrowing facts, statistics, or other illustrative materials, including those generated by an AI, unless the information is common knowledge.

These guidelines should be followed for all source types, including books, newspapers, pamphlets, journal articles, websites, AI-generated content, and other online resources. *The above list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various forms of plagiarism that constitute violations of the academic honesty policy.*

### FABRICATION

Fabrication is the falsification of research or other findings, or sources. The below list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various forms of fabrication that constitute violations of the academic honesty policy.

1. Citation of information not taken from the source indicated.
2. Listing in a bibliography fabricated sources or sources not actually consulted.
3. Inventing data or other information for research or other academic projects.

### CHEATING

Cheating is the act or attempted act of deception by which students try to misrepresent that they have mastered subject matter in an academic project or the attempt to gain an advantage by the use of illegal or illegitimate means. The below list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various forms of cheating that constitute violations of the academic honesty policy.

1. Copying from another student's test or assignment (e.g., paper, project, homework).

2. Allowing another student to copy from their test or assignment.
3. Using the course textbook, or other material such as a notebook, brought to class meetings but unauthorized for use during a test.
4. Collaborating during a test with another person by receiving or providing information without the permission of the instructor.
5. Using or possessing unauthorized materials during a test or assignment (e.g., notes, formula lists, AI chatbots, online test repositories such as Chegg, formulas within calculators or other electronic devices, notes written on student's' clothing or person) that are unauthorized.
6. Unauthorized collaboration with other students on a test or assignment meant to be completed individually.

## **ACADEMIC MISCONDUCT**

Academic misconduct is the violation of University policies by tampering with grades or participating in the distribution of any part of a test before its administration. The below list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various forms of academic misconduct that constitute violations of the academic honesty policy.

1. Stealing, buying, or otherwise obtaining all or part of test or assignment (e.g., paper, project, homework).
2. Selling or giving away all or part of test or assignment, including answers to test.
3. Bribing, or attempting to bribe, any other person to obtain test or assignment, or any information about it.
4. Buying, or otherwise acquiring, another's coursework and submitting it as their own work, whether altered or not.
5. Entering a building, office, computer, or network for the purpose of changing a grade in a grade book, on a test, or another assignment.
6. Changing, altering, or being an accessory to changing and/or altering a grade in a grade book, on a test or assignment on a "Change of Grade" form, or other official academic University record which relates to grades.
7. Entering a building, office, computer, or network for the purpose of obtaining an unadministered test or assignment.
8. Continuing to work on an exam or assignment after the specified allotted time has elapsed.
9. Completing an assignment or taking a test or course for someone else or permitting someone else to do the same in their place.
10. Giving or receiving unauthorized aid in a take-home exam, online exam, or other assignment.
11. Submitting work for a class that was already submitted for another class, when unauthorized, or allowing another student to submit or copy from previously submitted class work.

## **Actions which may be taken for violations of the Academic Honesty Policy.**

When a faculty member suspects that a violation of the academic honesty policy has occurred, they will meet with students to:

- discuss the alleged act;
- hear any defense students may have;
- discuss any proposed academic sanctions;
- inform students of their rights to appeal faculty-imposed sanctions to the department chair and/or dean of the college

Academic sanctions that may be imposed by the faculty member include:

- verbal reprimands;
- written reprimands;
- requiring the students to redo/resubmit the assignment, test, or project;
- lowering the grade for the assignment, test, or project;
- not accepting the assignment, test, or project which results in a zero on the assessment.

The above list is for illustration only. It should not be construed as restrictive or as an exhaustive enumeration of the various sanctions that may be imposed by instructors for violations of the academic honesty policy. Academic sanctions that require a formal charge be filed with the Associate Provost for Academic Administration include:

- any sanction in excess of lowering the grade for or not accepting an assignment, test, or project;
- assigning students a failing grade for the course;
- recommending temporary or permanent suspension from the academic major or University.

Regardless of the level of academic sanction imposed or requested above, faculty members are encouraged to submit a report for each violation of the Academic Honesty Policy to the Associate Provost for Academic Administration. If more than one (1) such report is filed for a student, even in the case of sanctions imposed only by the faculty member, then the Associate Provost for Academic Administration will meet with the student to discuss these occurrences and possibly impose additional academic sanctions.

Confidentiality

In accordance with the provisions of the Family Educational Rights and Privacy Act of 1974, any information relating to an alleged violation of the University's Student Code of Conduct or to the outcome of a judicial hearing must be treated as strictly confidential by members of the faculty.

Accounting & Finance Department

The Department of Accounting and Finance offers a Bachelor of Science in Accounting, Bachelor of Science in Finance, and a Bachelor of Science in Business Administration with two possible concentrations (General Business and International Business). We also offer minors in Accounting, Finance and General Business.

The BS in General Business program equips students with the essential elements of Accounting, Finance, International Business, Management and Marketing to pursue employment in any business or organization, or to continue their professional studies. Through their coursework, students will be able to integrate concepts learned across the main areas of business to solve complex business problems.

The program's core curriculum provides you with knowledge, skills and experience across a wide range of business topics including financial and managerial accounting, principles of management and marketing, information systems, business law, finance and more. Our minors and concentration allow you to dig deeper into fields of interest. Our flexible curriculum encourages hands-on learning and provides opportunities for internships with businesses and not-for-profit organizations. You can earn credits, develop skills and gain valuable work experience, often while being paid.

Programs

Accounting Minor

Overview

The Accounting Minor is for non-business majors who want a better understanding accounting systems and financial

information, but without pursuing a full degree in business. It is a popular choice and provides important knowledge for students pursuing a variety of majors including Math (Actuarial Science), Computer Science, Pre-Law, and Economics.

Curriculum

Simple Requisites

**REGULATIONS GOVERNING MINOR COURSE WORK**

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

**Minor in Accounting (18 credits)**

Type

Completion Requirement

Introduction to Business (3 credits)

**Complete at least 1 of the following courses:**

- BUAD101A - Introduction to Business
- BUAD101B - Introduction to Business

Required Courses (15 credits)

**Complete ALL of the following Courses:**

- BUAD161 - Intro to Financial Accounting
- BUAD162 - Intro to Managerial Accounting
- ACCT361 - Intermediate Accounting 1
- ACCT364 - Cost Accounting
- ACCT366 - Federal Income Tax 1

Additional Comments:

Finance Minor  
Overview

The Finance Minor is for non-business majors who want a better understanding corporate finance, investments, financial modeling, and financial markets pursuing a full degree in business. It is a popular choice and provides important knowledge for students pursuing a variety of majors including Math (Actuarial Science), Computer Science, Pre-Law, and Economics.

Curriculum

## Accounting, B.S.

### Overview

Accounting is your path to challenging and rewarding careers in industry, public accounting, or not-for-profit and public sector organizations. The curriculum includes courses in intermediate and cost accounting, tax, audit, information systems, fraud awareness and more. Upon graduation students have available all the necessary coursework to sit for the CPA, CMA, CIA or CFE examinations. Most courses incorporate review material for professional certifications.

## Curriculum

### Simple Requisites

#### Major in Accounting (63 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### Business Foundations Block (9 credits)

##### Complete ALL of the following Courses:

- BUAD161 - Intro to Financial Accounting

AND

##### Required Business Courses (24 credits)

##### Complete ALL of the following Courses:

- BUAD206 - Business Research Methods
- BUAD231 - Principles of Marketing  
OR BUAD231H - H:Principles of Marketing
- BUAD251 - Principles of Management  
OR BUAD251H - Hnrs:Principles of Management
- BUAD307 - Management Information Systems
- BUAD341 - Managerial Finance 1
- BUAD352 - Human Resource Management  
OR BUAD352H - H:Human Resource Management
- BUAD358 - Management Science
- BUAD455 - Strategy and Policy

A grade of C- or higher is required in BUAD231 Principles of Marketing (Marketing), BUAD251 Principles of Management (Management), and BUAD341 Managerial Finance 1 (Finance) is a pre-requisite for the upper level courses in the respective areas.

AND

##### Upper Level Accounting Courses (24 credits)

##### Fulfill ALL of the following requirements:

##### Required Courses (15 credits)

##### Complete ALL of the following Courses:

- ACCT361 - Intermediate Accounting 1
- ACCT362 - Intermediate Accounting 2
- ACCT364 - Cost Accounting
- ACCT366 - Federal Income Tax 1
- ACCT461 - Auditing

AND

##### Seminar in Business Administration (3 credits)

##### Complete at least 1 of the following courses:

- BUAD488A - Seminar in Accounting and Finance
- BUAD488B - Seminar in Management and Marketing
- FIN447 - Cases in Finance

AND

##### Internship in Accounting (3 credits)

##### Earn at least 3 credits from the following:

- ACFN300 - Co-Op Ed Exp in Acct/Fin

AND

##### Accounting Elective (3 credits)

##### Earn at least 3 credits from the following:

- Any 36-level ACCT course(s)
- Any 46-level ACCT course(s)

May also take ACCT302 Organizations and Transactions or ACCT405 Topics in Accounting.

**Note:** This requirement may not be satisfied with ACCT361 Intermediate Accounting 1, ACCT362 Intermediate Accounting 2, ACCT364 Cost Accounting, ACCT366 Federal Income Tax 1, or ACCT461 Auditing.

AND

##### Departmental Electives (6 credits)

##### Earn at least 6 credits from the following:

- Any ACCT course(s)

- Any BUAD course(s)
- Any FIN course(s)
- Any MGMT course(s)
- Any MKTG course(s)
- Any ACFN course(s)
- Any MGMK course(s)
- Any INTB course(s)
- Any INTE course(s)

Note: This requirement may not be satisfied with BUAD 161, BUAD 162, BUAD 202, BUAD 206, BUAD 231, BUAD 251, BUAD 307, BUAD 341, BUAD 352, BUAD 358, or BUAD 455.

For 'Departmental Electives', you may select any two BUAD courses (including COOP/Internships), or you may also take certain approved non-business elective courses to fill this requirement. [View the current list of non-business electives](#). Declaring more than one business concentration, a second major, or a minor will waive departmental electives.

Additional Comments:

Req Related for Accounting (13-16 credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Required Courses (6 credits)

Earn a minimum grade of C- in the following:

- ECON101 - Principles of Macroeconomics
- ECON102 - Principles of Microeconomics

AND

Data Visualization and Communication (1-4 credits)

Complete at least 1 of the following courses:

- MATH256 - Data Visualization and Communication
- MATH279 - Experimental

AND

Required Courses (6 credits)

Complete ALL of the following Courses:

- MATH235 - Survey of Statistics
- WRIT316 - Business Writing

Additional Comments:

## Business Administration, B.S. - International Business

### Overview

The International Business concentration, which is housed within the General Business major, emphasizes the importance of foundations in finance, accounting, management and marketing to ground a growing perspective of international business. A degree in International Business enables students to succeed in organizations throughout our interconnected world. This program of study prepares students to work in international businesses or global financial firms. Millersville University's General Business program is internationally accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

### Curriculum

#### Simple Requisites

**Major in Business Administration (42 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Business Foundations Block (9 credits)

**Earn a minimum grade of C- in the following:**

- BUAD161 - Intro to Financial Accounting
- BUAD162 - Intro to Managerial Accounting
- BUAD202 - Legal Environment of Business  
OR BUAD202H - Hon: Legal Environment of Business

AND

Business Core Requirements (24 credits)

**Complete ALL of the following Courses:**

- BUAD206 - Business Research Methods
- BUAD231 - Principles of Marketing  
OR BUAD231H - H:Principles of Marketing
- BUAD251 - Principles of Management  
OR BUAD251H - Hnrs:Principles of Management
- BUAD307 - Management Information Systems
- BUAD341 - Managerial Finance 1
- BUAD352 - Human Resource Management  
OR BUAD352H - H:Human Resource Management
- BUAD358 - Management Science
- BUAD455 - Strategy and Policy

A grade of C- or higher is required in [BUAD231 Principles of Marketing](#) (Marketing), [BUAD251 Principles of Management](#) (Management), and [BUAD341 Managerial Finance 1](#) (Finance) as a pre-requisite for the upper level courses in the respective areas.

AND

Departmental Electives (9 credits)

**Earn at least 9 credits from the following:**

- Any ACCT course(s)
- Any BUAD course(s)
- Any FIN course(s)
- Any MGMT course(s)
- Any MKTG course(s)
- Any ACFN course(s)
- Any MGMK course(s)
- Any INTB course(s)

- Any INTE course(s)

Note: This requirement may not be satisfied with BUAD 161, BUAD 162, BUAD 202, BUAD 206, BUAD 231, BUAD 251, BUAD 307, BUAD 341, BUAD 352, BUAD 358, or BUAD 455.

For 'Departmental Electives', you may select any three BUAD courses (including COOP/Internships), or you may also take certain approved non-business elective courses to fill this requirement. [View the current list of non-business electives](#). Declaring more than one business concentration, a second major, or a minor will waive departmental electives.

**Additional Comments:**

## Finance, B.S. - Wealth Management

### Overview

The wealth management concentration builds upon Millersville's very successful finance program. The demand for financial planners is on an upward trajectory in the United States, lifted by rising income levels and life expectancies. These trends are exacerbated in our area; the Lancaster region's demographics show an increasing population, driven in part by families and retirees moving from the Maryland-DC area. This program's curriculum is designed to build students' expertise in portfolio choice, risk, behavior-based investing decisions, and financial literacy. The wealth management concentration helps our students enter this field with the business skills and interpersonal training to excel in their careers.

# African American Studies Department

KARIBU! (WELCOME!)

African-American Studies is an 18 credit interdisciplinary minor focusing on the history and socio-culture of African-Americans. The minor offers an introduction to issues, theories, and research concerning African-Americans in various disciplines. Courses in the minor emphasize African-American perspectives, as well as the development of critical thinking and written and oral communication skills.

The minor will present opportunities to examine, compare and contrast African-American perspectives with those of other American cultures. It offers students in a variety of disciplines important perspectives on African-American history and culture that will help them to understand the possibilities and values of cultural differences. Students will be encouraged to connect issues about African-American culture raised in the classroom to current society.

Fifteen of the 18 credits satisfy General Education requirements and knowledge of African-American culture will complement many majors, especially Elementary and Secondary Education, Business, Communications and Theatre, English, History, Sociology, Art, Music and majors in the Department of Applied Engineering, Safety and Technology. It appears to be both essential and beneficial that all students have a multi-cultural perspective of themselves and the world around them.

GOAL

The goal of the African American studies Minor is to educate students about the history and culture of African Americans by exposing them to issues, theories and research concerning African Americans. Students will be encouraged to connect issues about African-American culture raised in the classroom to society.

In the 21st century, it will be both essential and beneficial for all students to have a multi-cultural perspective of themselves and the world around them. An African American studies minor will present opportunities to examine, compare and contrast African-American perspective with those of other American cultures.

Programs  
African-American Studies Minor

Overview

African-American Studies is an 18-credit interdisciplinary minor focusing on the history and socio-culture of African Americans. The minor offers an introduction to issues, theories and research concerning African Americans in various disciplines. Courses in the minor emphasize African-American perspectives, as well as the development of critical thinking and written and oral communication skills. The minor will present opportunities to examine, compare and contrast African-American perspectives with those of other American cultures. It offers students in a variety of disciplines important perspectives on African-American history and culture that will help them to understand the possibilities and values of cultural differences. Students will be encouraged to connect issues about African-American culture raised in the classroom to current society.

Fifteen of the 18 credits satisfy general education requirements, and knowledge of African-American culture will complement many majors, especially elementary and secondary education, business, communication and theatre, English, history, sociology, art, music, and industry and technology. It appears to be both essential and beneficial that

all students have a multicultural perspective of themselves and the world around them.

Curriculum  
Simple Requisites

- Regulations Governing Minor Course Work
1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
  2. Only one course which counts toward your major may be counted toward your minor.
  3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
  4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
  5. No course needed for the minor may be taken Pass-Fail.
  6. One-half or more of the work required for the minor must be completed at Millersville University.
  7. No student may minor in his or her major.

## Minor in African American Studies (18 credits)

### Type

### Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

Minimum GPA

**Earn a minimum GPA of 2.0**

AND

#### Requirements

- Credits Required for Major
- Minimum Residency 50% of minor credits
- 3 Courses Must be Upper-Division

AND

#### Required Courses (6 credits)

#### Complete ALL of the following Courses:

- AFAM201 - Intro to African American Studies
- AFAM401 - Senior Seminar in African American Studies

AND

#### African American History (3 credits)

#### Complete at least 1 of the following courses:

- HIST272 - Afro-American History 1
- HIST273 - Afro-American History 2
- HIST282 - Transatlantic Slave Trade

AND

#### African American Literature (3 credits)

#### Complete at least 1 of the following courses:

- ENGL333 - African-American Literature 1  
OR ENGL333H - Hnrs:African-American Literature 1
- ENGL334 - African American Literature 2  
OR ENGL334H - Hnrs:African American Literature 2

AND

#### Electives (2) in African American Studies

#### Complete at least 2 of the following:

##### Option 1. Humanities (3 credits)

#### Complete ALL of the following Courses:

- COMM227 - Movements & Digital Activism
- ENGL333 - African-American Literature 1  
OR ENGL333H - Hnrs:African-American Literature 1
- ENGL334 - African American Literature 2

# Applied Engineering, Safety & Technology Department

The Department of Applied Engineering, Safety & Technology (AEST) offers nationally accredited programs of study leading to an A.T. in applied engineering and technology or a B.S. in applied engineering and technology management, a B.S. in occupational safety and environmental health, a B.S. in automation & intelligent robotics, a B.S. in manufacturing engineering technology, and a B.S.Ed. in Technology Education. Minors are offered in applied engineering and technology, and occupational safety and environmental health. A post-baccalaureate technology education teacher certification program is also offered.

Students may participate in the activities of the Technology & Engineering Education Collegiate Association; Association of Technology, Management and Applied Engineering (Robotics Club); Society of Manufacturing Engineers; American Society of Safety Engineers; Submersible Research Team; Construction Club and Marauder Graphics Club. An invitation to join Epsilon Pi Tau, the international honor society for professions in technology, may also be extended to department majors who excel.

Qualified department majors pursuing a bachelor's degree may earn departmental honors by proposing, conducting and defending thesis research. Eligibility for graduation with AEST departmental honors includes having a minimum CGPA of 3.0 overall, with 3.35 in the major, and a grade of B or higher on an honors thesis. Contact the department chairperson for guidelines and an enrollment application to participate in the department's honors program.

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Requirement

FOUNDATIONS BLOC

We recommend 590 and 545 for Post-Bacc students. These courses each require 35 hours field placement at an urban school. Offered in the evenings Fall and Spring. Also offered in Summer Session. If enrolling in EDFN211 Foundations Modern Education/241 and please register for both courses in the same block.

AND

Foundations of Modern Education - Choose 1 of the following (3 hours)

**Complete at least 1 of the following courses:**

- EDFN590 - Social Foundation of Educ
- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education

AND

Psychological Foundations of Teaching - Choose 1 of the following (3 hours)

**Complete at least 1 of the following courses:**

- EDFN545 - Advanced Educational Psychology
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

Requirement

APS - PROFESSIONAL BLOC

Students must meet APS eligibility requirements prior to registering. Course Appropriate PRAXIS II Exam should be taken after Professional Bloc and but prior to Student Teaching.

AND

Content Area Literacy for Diverse Classrooms - Choose 1 of the following (3 hours)

**Complete at least 1 of the following courses:**

- EDSE340 - Content Area Literacy for Diverse Classrooms
- EDSE540 - Cntnt Area Litrcy Divers Class

AND

Secondary Students w/Disabilities in Inclusive Settings - Choose 1 of the following (3 hours)

**Complete at least 1 of the following courses:**

- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings
- SPED546 - Sec Stdnts w Disab Inclu Sttgs

AND

Foundations of Technology Education 3 hours

**Complete ALL of the following Courses:**

- EDTE291 - Foundations of Technology & Engineering Ed

AND

Curriculum/Instruction in Technology Education 3 hours

**Complete ALL of the following Courses:**

- EDTE391 - Curr & Inst in Tech & Eng Ed

AND

Innovation and Design Methods - Choose 1 of the following: 2-6 hours

**Complete at least 1 of the following courses:**

- EDTE496 - Innovatn/Design Methodologies
- EDTE698 - Research and Development Technical Project

AND

Requirement

STUDENT TEACHING SEMINAR

File your Intent to Student Teach Card one year prior to

the beginning of the semester in which you wish to Student Teach. Click here to access the Student Teaching Website(external link)

AND

Innovation and Design Methods - Choose 1 of the following: 2-6 hours (3 credits)

**Complete at least 1 of the following courses:**

- EDSE471 - Student Teaching Seminar

AND

Seminar in Technology Education 1 hour

**Complete ALL of the following Courses:**

- EDTE491 - Seminar in Techn & Engring Ed

AND

Requirement

**STUDENT TEACHING SEMESTER**

Students must meet APS eligibility requirements prior to registering. Submit your Teacher Certification Packet 90 days prior to completion of your certification program. Click here to access the packet on the Certification Website.(external link)

AND

Student Teaching - Choose 9 hours from

**Earn at least 9 credits from the following:**

- EDTE461 - Edte Stu Teaching
- EDTE462 - EDTE Stu Teaching

**Additional Comments:**

## Advanced Manufacturing Technology Minor

### Overview

Manufacturing is the largest sector in Pennsylvania's economy and currently there are over 565,000 people employed in manufacturing positions throughout the Commonwealth. The

Advanced Manufacturing minor provides students with significant experiences in material processing and manufacturing processes. A minor in Advanced Manufacturing Technology gives students a technical skillset that can be highly valued in industry. Skills such as Computer Numerical Machining and Materials Science are highly sought after by many companies.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

#### **Minor in Advanced Manufacturing Technology (18 credits)**

##### **Type**

##### **Completion Requirement**

##### **Requirements**

##### **Fulfill ALL of the following requirements:**

##### **Required Courses (12 credits)**

##### **Complete ALL of the following Courses:**

- AENG130 - Production Materials & Processes
- AENG241 - Drafting Communications
- AENG271 - Processing Nonmetallic Materials
- AENG281 - Processing Metallic Materials

— AND —

Advanced Manufacturing Technology Electives (6 credits)

**Complete at least 2 of the following courses:**

- AENG375 - Polymer and Ceramic Technology
- AENG376 - Woodworking Technology
- AENG382 - Automated Manufacturing

**Additional Comments:**

## Computer Aided Drafting/Design Minor

### Overview

Students taking the Computer-Aided Drafting minor complete 18 credits of technical courses. One of these is a foundational course in drafting and design and then students choose five technical courses from topics like production materials and processes, computer-aided engineering drawing, product design, architectural drawing, and several others.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

**Complete ALL of the following Courses:**

- AENG241 - Drafting Communications

— AND —

Computer Aided Drafting/Design Electives (15 credits)

**Complete at least 5 of the following courses:**

- AENG130 - Production Materials & Processes
- AENG243 - Technical Sketching, Design & Rendering
- AENG342 - Computer-Aided Engineering Drawing
- AENG344 - Product Design  
OR AENG344H - Hnrs: Product Design
- AENG345 - Statics/Strength of Materials
- AENG346 - Architectural Drawing
- AENG347 - Engineering Visualization
- AENG446 - Advanced Applications in Drafting and Design
- AENG448 - Machine Tool Design

**Additional Comments:**

## Construction Technology Minor

### Overview

The minor in Construction Technology is available to students who complete 18 credits of technical courses. Four foundational classes explore safety, materials processing and computer-aided drafting and design. Students then select two technical courses focused specifically in construction technologies.

Curriculum

Simple Requisites

Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.

- AENG348 - Green Building and Sustainable Systems

**Additional Comments:**

Control Systems Technology Minor

Overview

The Control Systems Technology curriculum helps students establish a foundation of knowledge about science principles before focusing on the application that knowledge to technology. Laboratory courses encourage students to design, program, develop and construct projects independently and collaborate in small groups. The minor in Control Systems Technology is available to students who complete 18 credits of technical courses related to the study of robotics and control systems.

Curriculum

- AENG427 - Programmable Logic Controllers
- AENG467 - Mobile Robotics  
OR AENG467H - Hon: Mobile Robotics

**Additional Comments:**

## General Technology Minor

### Overview

The General Track option is the most flexible of all minors offered within the AEST department. It is built from a foundation of three broad-based introductory technical courses that provide students with a basic technical background in various technologies. After completing these three courses students are able to choose three more advanced technical courses offered within the department. This provides students with the opportunity to concentrate in a specific area such as material processing, manufacturing, communications or automation, or take a variety of courses from different areas to customize your minor for your own specific needs and interests.

## Curriculum

### Simple Requisites

*Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

### Minor in General Technology (18 credits)

- AENG347 - Engineering Visualization
- AENG348 - Green Building and Sustainable Systems
- AENG351 - Digital Imaging
- AENG355 - Contemporary Printing
- AENG356 - Desktop Publishing
- AENG357 - Packaging Specialty Printing  
OR AENG357H - Hon: Packaging Specialty Printing
- AENG364 - Digital Electronics
- AENG375 - Polymer and Ceramic Technology
- AENG376 - Woodworking Technology
- AENG382 - Automated Manufacturing
- AENG425 - Industrial Robotic Systems
- AENG427 - Programmable Logic Controllers
- AENG446 - Advanced Applications in Drafting and Design
- AENG448 - Machine Tool Design
- AENG455 - R&D in Graphic Communications and Packaging
- AENG467 - Mobile Robotics  
OR AENG467H - Hon: Mobile Robotics
- AENG492 - Technical Entrepreneurship

3 electives from the list are required. 2 of the electives

MUST be 300/400 level.

To meet the requirement for General Technology Electives, classes must include at least 2 of: AENG 325, AENG 326, AENG 331, AENG 332, AENG 342, AENG 344, AENG 345, AENG 346, AENG 347, AENG 348, AENG 351, AENG 355, AENG 356, AENG 357, AENG 364, AENG 375, AENG 376, AENG 382, AENG 425, AENG 427, AENG 446, AENG 448, AENG 455, AENG 466, AENG 467, and/or AENG 492.

#### Additional Comments:

## Graphic Communication Technology Minor

### Overview

The Graphic Communication minor requires students to complete six courses from among the course offerings in the Graphic Communication (GC) concentration. Three of these courses are core GC classes: Communication & Information Systems, Print Media Systems, and Web Publishing & Interactive Media. To complete the minor, students must choose three additional courses from six options including: Digital Imaging, Contemporary Printing, Desktop Publishing, Packaging & Specialty Printing, R&D in Graphic Communication, and Print Production Management & Cost Estimating. A Graphic Communication minor can help students become knowledgeable about, and skilled in, practices involved in printing, packaging, publishing and other graphic communication industries.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.

5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

## Integrative STEM Education Methods Minor

### Overview

The Integrative STEM Education Methods (ISEM) minor is specifically designed for students in the **Early Childhood Education (ERCH)** major. The overall goal of this minor is to prepare future early childhood teachers to develop the knowledge, skills, and habits of mind that would best prepare them to use integrative teaching-learning approaches to enhance their students' learning of STEM, as well as other areas of the curriculum.

### Curriculum

#### Simple Requisites

##### Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.

- ERCH110 - Introduction to Early Childhood Education
- ERCH190 - Introduction to Integrative

STEM Pedagogy

- AENG344 - Product Design  
**OR** AENG344H - Hnrs: Product Design
- EDTE490 - Integrative Learning Using Experiential Strategies

**AND**

Children's Engineering (3 credits)

**Complete at least 1 of the following courses:**

- ERCH290 - Children's Engineering
- EDTE290 - Children's Engineering

**AND**

Integrative STEM Education Practicum (3 credits)

**Complete at least 1 of the following courses:**

- ERCH495 - Integrative STEM Practicum
- EDTE495 - Integrative STEM Practicum

**Additional Comments:**

## Occupational Safety & Environmental Health Minor

### Overview

The OSEH minor is designed for persons interested in the safety and environmental health professions. This minor places emphasis on the core studies in the technical and managerial aspects of occupational safety and health. The six core courses required to complete the minor will provide you with sufficient technical skills to function in any safety and health role. Graduates of this program typically work as safety and health managers, loss-control consultants, compliance officers and environmental safety specialists. The OSEH minor should be an attribute to majors in biology, business administration, chemistry, applied engineering & technology management, political science and nursing. A minor in OSEH will enable you to function in multiple roles in your professional career if you so wish to.

## Curriculum

### Simple Requisites

#### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.

- OSEH221 - Industrial Fire Prevention, Protection and Control
- OSEH320 - Safety Engineering Principles
- OSEH323 - Human Factors in OSEH
- OSEH410 - Safety and Hygiene Management

**Additional Comments:**

## Technology & Engineering Education Minor

### Overview

The minor in Technology & Engineering Education is designed

to help students prepare for the Praxis subject area specialty examination in Technology & Engineering Education. Successful completion of these courses, combined with a passing score on the subject area exam, should provide adequate preparation for teachers of other subjects to effectively deliver courses in Technology & Engineering Education at the K-8 level as these programs tend to be broad-based survey types of courses. It is likely that individuals would need more preparation to deliver courses with more depth at the high school level, but the certification is for all courses K-12.

## Curriculum

## Applied Engineering & Technology, A.T.-Occupational Safety and Environmental Health

### Overview

The Occupational Safety option is designed to provide students with both basic theoretical knowledge and practical skills in occupational safety. The courses in this option allow students to have a broad experience in key issues. These courses provide an overview of legal aspects of safety; industrial fire prevention, protection and control; safety engineering; environmental and industrial hygiene; ergonomics; and general, organic and biochemistry.

### Curriculum

#### Simple Requisites

#### Major in Appl Eng Tech-AT (28-29 credits) Type

Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

#### Required Courses (25 credits)

#### Complete ALL of the following Courses:

- AENG120 - Energy Systems
- AENG130 - Production Materials & Processes
- OSEH120 - Fundamentals of Safety, Health, Environmental Issues
- OSEH220 - Legal Aspects Environmental Safety

- OSEH221 - Industrial Fire Prevention, Protection and Control
- OSEH320 - Safety Engineering Principles
- OSEH321 - Environmental & Industrial Hygiene I - Chemical and Biological Hazards
- OSEH323 - Human Factors in OSEH
- CHEM104 - Gen Organic and Biochemistry 2

AND

Directed Elective (3-4 credits)

**Complete at least 1 of the following courses:**

- AENG300 - Co-Op Ed Experience in AENG
- AENG392 - Intro to Industrial Training
- OSEH333 - Introduction to System Safety
- OSEH410 - Safety and Hygiene Management
- OSEH422 - Environmental & Industrial Health II - Physical Hazards

**Additional Comments:**

## Technology & Engineering Education (K-12), B.S.Ed.

### Overview

The TECE program is a teacher preparation program for persons seeking Pennsylvania teacher certification in technology education, K-12.

The three themes of professional education at Millersville are supported and implemented, including engagement in learning communities of inquiry and action, a focus on students and demonstration of exemplary professional practices. Professional dispositions are developed and assessed in communicating professionally, demonstrating professional growth, demonstrating professional relationships, exhibiting attributes suitable to the profession, and displaying responsible and ethical behavior.

TECE majors are broadly prepared in general education, technology and engineering, and professional teacher education. Emphasis is on understanding, applying, managing and assessing design, biorelated, communication, energy and power, transportation and production technologies. Students

may specialize in a technical area of their choice and must devote one semester to full-time student teaching in a public school.

An advisory committee of technology and engineering education teachers and supervisors assists with providing program relevancy. This program is accredited and nationally recognized as an outstanding technology teacher education program by the International Technology and Engineering Educators Association/Council on Technology and Engineering Teacher Education.

## Curriculum

### Simple Requisites

**Major in Technology and Engineering Ed - BSE (55-57 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Technology Literacy Core (12 credits)

**Complete ALL of the following Courses:**

- AENG110 - Communication and Information Systems
- AENG120 - Energy Systems
- AENG130 - Production Materials & Processes
- AENG140 - Bio-related Technologies

AND

Technical Core (27 credits)

**Fulfill ALL of the following requirements:**

Required Courses (21 credits)

**Complete ALL of the following Courses:**

- AENG241 - Drafting Communications
- AENG261 - Electronic Systems  
OR AENG261H - H:Electronic Systems
- AENG322 - Transportation
- AENG327 - Engineering Structures
- AENG344 - Product Design  
OR AENG344H - Hnrs: Product Design
- AENG346 - Architectural Drawing

- AENG435 - Manufacturing Enterprise

AND

Print Media Systems or Web Publishing & Interactive Media (3 credits)

**Complete at least 1 of the following courses:**

- AENG251 - Print Media Systems
- AENG252 - Web Publishing Systems

AND

Processing Nonmetallic or Metallic Materials (3 credits)

**Complete at least 1 of the following courses:**

- AENG271 - Processing Nonmetallic Materials
- AENG281 - Processing Metallic Materials

AND

Technical Lab Courses: Laboratory Electives (7-9 credits)

**Complete at least 3 of the following courses:**

- AENG243 - Technical Sketching, Design & Rendering
- AENG251 - Print Media Systems
- AENG252 - Web Publishing Systems
- AENG262 - Semiconductor Electronics
- AENG271 - Processing Nonmetallic Materials
- AENG281 - Processing Metallic Materials
- AENG325 - Power Conversion and Control
- AENG326 - Fluid Power  
OR AENG326H - Hon: Fluid Power
- AENG331 - Construction Technology 1
- AENG332 - Construction Technology 2
- AENG342 - Computer-Aided Engineering Drawing
- AENG345 - Statics/Strength of Materials
- AENG347 - Engineering Visualization
- AENG351 - Digital Imaging
- AENG355 - Contemporary Printing

- AENG356 - Desktop Publishing
- AENG357 - Packaging Specialty Printing  
OR AENG357H - Hon: Packaging Specialty Printing
- AENG364 - Digital Electronics
- AENG375 - Polymer and Ceramic Technology
- AENG376 - Woodworking Technology
- AENG382 - Automated Manufacturing
- AENG425 - Industrial Robotic Systems
- AENG427 - Programmable Logic Controllers
- AENG446 - Advanced Applications in Drafting and Design
- AENG448 - Machine Tool Design
- AENG455 - R&D in Graphic Communications and Packaging
- AENG467 - Mobile Robotics  
OR AENG467H - Hon: Mobile Robotics
- AENG485 - Adv Manufacturing Systems
- AENG498 - Independent Study
- AENG515 - Adv Prob:
- AENG525 - Adv Prob:
- AENG535 - Adv Prob:

AND

Required EDTE Courses (9 credits)

**Complete ALL of the following Courses:**

- EDTE291 - Foundations of Technology & Engineering Ed
- EDTE391 - Curr & Inst in Tech & Eng Ed
- EDTE491 - Seminar in Techn & Engring Ed
- EDTE496 - Innovatn/Design Methodologies

Count in major GPA

**Additional Comments:**

**Professional Education (33 credits)**

**Type**

Completion Requirement

**Fulfill ALL of the following requirements:**

Educational Foundations (6 credits)

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
**OR** EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
**OR** EDFN241H - Hon:Psychological Foundations of Teaching

**AND**

Required Education Courses (5 credits)

**Fulfill ALL of the following requirements:**

Foundations of Technology & Engineering Education (3 credits)

**Complete ALL of the following Courses:**

- EDTE291 - Foundations of Technology & Engineering Ed

**AND**

Innovation and Design Methodologies (2 credits)

**Complete ALL of the following Courses:**

- EDTE496 - Innovatn/Design Methodologies

**AND**

Accommodations and Adaptations (9 credits)

**Fulfill ALL of the following requirements:**

Required Courses (6 credits)

**Complete ALL of the following Courses:**

- EDSE340 - Content Area Literacy for Diverse Classrooms
- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings

**AND**

Curr & Instruction in Technology & Engineering Education (3 credits)

**Complete ALL of the following Courses:**

- EDTE391 - Curr & Inst in Tech & Eng Ed

**AND**

Student Teaching (13 credits)

**Fulfill ALL of the following requirements:**

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar

**AND**

Seminar in Technology & Engineering Education (1 credit)

**Complete ALL of the following Courses:**

- EDTE491 - Seminar in Techn & Engning Ed

**AND**

Student Teaching (9 credits)

**Complete ALL of the following Courses:**

- EDTE461 - Edte Stu Teaching

**Additional Comments:**

**Req Related for Technology and Engineering Ed Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

General Education (G2) Math courses

**Complete ALL of the following Course Sets:**

- Any MATH course(s) with G2 attribute

**AND**

Science Elective

Choose a G2 Lab Science from BIOL, CHEM, PHYS or ESCI. BIOL100 General Biology, CHEM103 Gen Organic and Biochemistry 1, CHEM 205, PHYS103 Elements of Physics or PHYS104 Applied Physics are strongly recommended.

AND

Literature Requirement

**Complete at least 1 of the following:**

Option 1

**Complete ANY of the following Courses:**

- ENGL241H - H:Explorations in World Lit
- ENGL242 - Reading Our World:  
OR ENGL242H - Hnrs: Reading Our World:
- ENGL292 - Science Fiction  
OR ENGL292H - Hon: Science Fiction
- ENGL333 - African-American Literature 1  
OR ENGL333H - Hnrs:African-American Literature 1
- ENGL334 - African American Literature 2  
OR ENGL334H - Hnrs:African American Literature 2
- ENGL338 - Folklore and Literature  
OR ENGL338H - H:Folklore and Literature

OR

Option 2

**Complete ALL of the following Course Sets:**

- Any ENGL 230-237 course(s)

**Additional Comments:**

**Advanced Professional Studies, BSE Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

English Composition (3 credits)

**Complete at least 1 of the following courses:**

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

AND

English Literature (3 credits)

**Complete at least 1 of the following courses:**

- ENGL230 - Introduction to Literature
- ENGL231 - World Literature 1
- ENGL232 - World Literature 2  
OR ENGL232H - Hnrs: World Literature 2
- ENGL233 - Early British Literature
- ENGL234 - Later British Literature
- ENGL235 - American Literary Tradition I
- ENGL236 - American Literary Tradition II
- ENGL241H - H:Explorations in World Lit
- ENGL242 - Reading Our World:  
OR ENGL242H - Hnrs: Reading Our World:
- ENGL292 - Science Fiction  
OR ENGL292H - Hon: Science Fiction
- ENGL333 - African-American Literature 1
- ENGL333H - Hnrs:African-American Literature 1
- ENGL334 - African American Literature 2
- ENGL334H - Hnrs:African American Literature 2
- ENGL336 - New Dimensions to World Lit
- ENGL338 - Folklore and Literature  
OR ENGL338H - H:Folklore and Literature
- ENGL401 - Old Eng Lang and Literature
- ENGL402 - Middle Eng Lang and Literature

AND

Mathematics

Two Mathematics courses are required for BSE students. It is preferable to take two courses designated as G2. Search for MATH courses on the current web schedule.

BIOL375 Biometry will fulfill one Mathematics course for BSE BIOL students.

AND

Required Courses (6 credits)

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

ACT 126 - Educator Ethics Training

You must submit your Educator Ethics Training.

AND

APS Status

Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

## Technology & Engineering Education, B.S.Ed. - Engineering Design Education Concentration

### Overview

TECE majors with the Engineering Design Education concentration meet all of the same requirements of the Technology & Engineering Education major, including broad preparation in all technology & engineering content areas. However, this concentration would ensure that students are being challenged to take some courses that best fit an engineering design-focused curriculum, including specific math and science courses and a narrower set of engineering-focused technical electives.

### Curriculum

Simple Requisites

**Major in Technology and Engineering Ed - BSE (55-57 credits)**

### Type

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Technology Literacy Core (12 credits)

**Complete ALL of the following Courses:**

- AENG110 - Communication and Information Systems
- AENG120 - Energy Systems
- AENG130 - Production Materials & Processes
- AENG140 - Bio-related Technologies

AND

Technical Core (27 credits)

**Fulfill ALL of the following requirements:**

Required Courses (21 credits)

**Complete ALL of the following Courses:**

- AENG241 - Drafting Communications
- AENG261 - Electronic Systems  
OR AENG261H - H:Electronic Systems
- AENG322 - Transportation
- AENG327 - Engineering Structures
- AENG344 - Product Design  
OR AENG344H - Hnrs: Product Design
- AENG346 - Architectural Drawing
- AENG435 - Manufacturing Enterprise

AND

Print Media Systems or Web Publishing & Interactive Media (3 credits)

**Complete at least 1 of the following courses:**

- AENG251 - Print Media Systems
- AENG252 - Web Publishing Systems

AND

Processing Nonmetallic or Metallic Materials (3 credits)

**Complete at least 1 of the following courses:**

- AENG271 - Processing Nonmetallic Materials
- AENG281 - Processing Metallic Materials

AND

Technical Lab Courses for Engineering Design:  
Laboratory Electives for Engineering Design (7-9 credits)

**Complete at least 3 of the following courses:**

- AENG262 - Semiconductor Electronics
- AENG325 - Power Conversion and Control
- AENG326 - Fluid Power  
OR AENG326H - Hon: Fluid Power
- AENG332 - Construction Technology 2
- AENG342 - Computer-Aided Engineering Drawing
- AENG345 - Statics/Strength of Materials
- AENG347 - Engineering Visualization
- AENG357 - Packaging Specialty Printing  
OR AENG357H - Hon: Packaging Specialty Printing
- AENG364 - Digital Electronics
- AENG382 - Automated Manufacturing
- AENG446 - Advanced Applications in Drafting and Design
- AENG448 - Machine Tool Design
- AENG467 - Mobile Robotics  
OR AENG467H - Hon: Mobile Robotics
- AENG498 - Independent Study
- OSEH320 - Safety Engineering Principles
- OSEH323 - Human Factors in OSEH

Only one OSEH course may be counted as a laboratory elective.

AND

Required EDTE Courses (9 credits)

**Complete ALL of the following Courses:**

- EDTE291 - Foundations of Technology & Engineering Ed
- EDTE391 - Curr & Inst in Tech & Eng Ed
- EDTE491 - Seminar in Techn & Engring Ed

## Applied Engineering & Technology Management, B.S. - Computer-Aided Drafting & Design Concentration

### Overview

Millersville University's Computer-Aided Drafting and Design concentration, within Applied Engineering and Technology Management, is designed to provide students with theoretical and practical skill in drafting and design. In addition, there is work in the areas of technical freehand drawing, design methodology, design for manufacture, technical illustration

and rendering using computer-aided drafting systems. All courses feature practical laboratory experiences allowing students to work with equipment, materials and processes that will lead to successful careers in the drafting/design field.

## Curriculum

### Simple Requisites

#### Major in Appl Engineering & Tech Mgt (60 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### Technical Option (36 credits)

##### Complete ALL of the following Courses:

- AENG110 - Communication and Information Systems
- AENG120 - Energy Systems
- AENG130 - Production Materials & Processes
- AENG241 - Drafting Communications
- AENG243 - Technical Sketching, Design & Rendering

- ECON101 - Principles of Macroeconomics  
OR ECON101H - Hnrs:Principles of Macroeconomics
- ECON102 - Principles of Microeconomics

**OR** ECON102H - Hnrs:Principles of Microeconomics

- MATH130 - Elements of Statistics 1

**AND**

Calculus (4 credits)

**Complete at least 1 of the following courses:**

- MATH151 - Calculus for Management
- MATH160 - Precalculus
- MATH161 - Calculus 1

**AND**

Directed Science (6-8 credits)

**Complete at least 2 of the following courses:**

- CHEM101 - Chem!Better Things/Better Lvng
- CHEM103 - Gen Organic and Biochemistry 1
- CHEM104 - Gen Organic and Biochemistry 2
- PHYS103 - Elements of Physics
- PHYS104 - Applied Physics
- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

Can receive credit for either PHYS103 Elements of Physics or PHYS104 Applied Physics and but not both

**Additional Comments:**

## Applied Engineering & Technology Management, B.S. - Construction Management

### Overview

Millersville University's Construction Management concentration, within Applied Engineering and Technology Management, helps students develop the theoretical knowledge and leadership skills to pursue rewarding career opportunities in the construction industry. This program offers special facilities for students to use during their time at Millersville, including a materials processing lab, computer-aided drafting and design programs and a research and development facility. Graduates pursue

fields in careers such as a project manager or project coordinator, field engineer, a scheduling assistant, compliance assistant, cost estimator or safety coordinator.

## Applied Engineering & Technology Management, B.S. - General Technology

### Overview

The Bachelor of Science degree program prepares applied

engineers, technologists and technical managers with qualifications in general education, technological literacy, a technical option and management. Technical concentrations are available in advanced manufacturing, CADD, construction, general technology, graphic communications, nanofabrication, and robotics and control systems. The Association of Technology, Management & Applied Engineering (ATMAE) has accredited this program.

Supervised technical and management-oriented internships in industry are elective in both the A.T. and B.S. programs to enable relevant work experiences and the transition into employment. Managers who represent the technical concentrations serve as an advisory committee for the program. Graduates are commonly employed in design, production, training, sales and service careers in business, industry, education and government.

An applied engineering and technology minor complements majors in art, business, speech communication, computer science, economics, physics and OSEH. This minor enables specialization in several of the baccalaureate-degree technical concentrations.

  - AENG535 - Adv Prob:

**AND**

R & D Requirement: Choose 1 of the following: (1-3 credits)

**Complete at least 1 of the following courses:**

- AENG326 - Fluid Power
- OR AENG326H - Hon: Fluid Power**
- AENG344 - Product Design
- OR AENG344H - Hnrs: Product Design**
- AENG356 - Desktop Publishing
  - AENG425 - Industrial Robotic Systems
  - AENG427 - Programmable Logic Controllers
  - AENG455 - R&D in Graphic Communications and Packaging
  - AENG467 - Mobile Robotics
- OR AENG467H - Hon: Mobile Robotics**
- AENG498 - Independent Study

This course may be used to fulfill another requirement in the major as applicable.

**AND**

Technology Management Core (15 credits)

**Complete ALL of the following Courses:**

- OSEH120 - Fundamentals of Safety, Health, Environmental Issues
  - BUAD251 - Principles of Management
- OR BUAD251H - Hnrs:Principles of Management**
- MGMT452 - Operations and Supply Chain Management
  - AENG492 - Technical Entrepreneurship
  - AENG494 - Total Quality Management

**AND**

Elective Courses in Technology Management (9 credits)

**Complete at least 3 of the following courses:**

- BUAD161 - Intro to Financial Accounting
  - BUAD352 - Human Resource Management
- OR BUAD352H - H:Human Resource Management**
- MGMT357 - International Management
  - AENG300 - Co-Op Ed Experience in AENG
  - AENG392 - Intro to Industrial Training
  - AENG400 - Co-Op Ed Experience in AENG
- OR AENG400H - H: Co-Op Ed Experience in AENG**
- OSEH221 - Industrial Fire Prevention, Protection and Control
  - OSEH320 - Safety Engineering Principles
  - OSEH323 - Human Factors in OSEH
  - OSEH333 - Introduction to System Safety
  - PSYC329 - Industrial Psychology
- OR PSYC329H - Hon: Industrial Psychology**
- SOCY318 - Soc Of Complex Organizations

A maximum of 6 internship credits (ITEC 300,400) may be counted for this degree.

**Additional Comments:**

**Req Related for Applied Engineering, Tech/Mgt (16-17 credits)**

Completion Requirement

## Requirements

### Fulfill ALL of the following requirements:

#### Required Courses (9 credits)

#### Complete ALL of the following Courses:

- ECON101 - Principles of Macroeconomics  
OR ECON101H - Hnrs:Principles of Macroeconomics
- ECON102 - Principles of Microeconomics  
OR ECON102H - Hnrs:Principles of Microeconomics
- MATH130 - Elements of Statistics 1

AND

#### Calculus (4 credits)

#### Complete at least 1 of the following courses:

- MATH151 - Calculus for Management
- MATH160 - Precalculus
- MATH161 - Calculus 1

AND

#### Directed Science (3-4 credits)

#### Complete at least 2 of the following courses:

- CHEM101 - Chem!Better Things/Better Lvng
- CHEM103 - Gen Organic and Biochemistry 1
- CHEM104 - Gen Organic and Biochemistry 2
- PHYS103 - Elements of Physics
- PHYS104 - Applied Physics
- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

Can receive credit for either PHYS103 Elements of Physics or PHYS104 Applied Physics, but not both

#### Additional Comments:

## Applied Engineering & Technology Management, B.S. - Graphic & Packaging Technologies Concentration

### Overview

The Graphic & Packaging Technologies major at Millersville University educates students on topics regarding pre-press through post-press operations, including design, layout and desktop publishing. As a multifaceted industry with a wide range of career opportunities in fields such as print production, digital publishing and design, and web-based media, this program will prepare graduates to find employment in areas like production planning and estimating, customer relations, digital production, sales and quality control.

# Automation and Robotics Engineering Technology, B.S.

## Overview

Students in the AURO degree are introduced to the fundamentals of power, electronic systems and formal programming techniques common in industry. The curriculum, supported jointly by the departments of Applied Engineering, Safety & Technology and Computer Science, includes in-depth technical content of electronics, control systems, mechanical systems, and computer programming and applications to prepare professionals equipped to design, improve, maintain, and manage robotic and automated process and control systems. Laboratory courses require students to design, program, develop and construct projects independently and in small teams.

The study of robotics and controls involves the design, modeling, optimization, documentation and automation of advanced control problems. This major is designed to produce graduates prepared to work with multiple types of technology to design and implement projects that have advanced programming needs. Typical entry-level professions include software engineers, research and development engineers, systems engineers, computer engineers, process engineers, control systems engineers, controls technicians, field engineers, manufacturing engineers, robotics programmers and robotics technicians.

## Curriculum

**Additional Comments:**

## Manufacturing Engineering Technology, B.S.

### Overview

Students in the Bachelor of Science in manufacturing engineering technology major will be introduced to the fundamentals and advanced concepts of engineering, materials and production processes used within industry. The program provides in-depth technical content of advanced manufacturing, with emphasis on automated manufacturing, robotics, and computer-aided drafting and design, often collectively referred to as computer-integrated manufacturing (CIM). Laboratory courses require students to design, develop and construct projects independently as well as in small groups. Technologies commonly used by major corporations are emphasized throughout the curriculum. Juniors and seniors are encouraged to participate in a cooperative education or internship experience to further enhance their knowledge in technical areas within an industrial environment.

Manufacturing engineers are responsible for planning the production process of manufactured products. Typical entry-

level employment titles for graduates of this program include production managers, production engineers, manufacturing engineers, manufacturing process engineers, technical salespersons and quality assurance engineers. Graduates of the MFET major enjoy outstanding placement in their field at present with salaries among the highest of any majors on campus.

## Curriculum

#### Physics II with Algebra (4-5 credits)

##### Complete at least 1 of the following courses:

- PHYS132 - Physics 2 with Algebra
- PHYS232 - Physics 2 with Calculus

#### Additional Comments:

## Occupational Safety & Environmental Health, B.S.

### Overview

The OSEH program is designed for persons interested in the safety, industrial hygiene and environmental health professions. OSEH includes general education studies, with emphasis on the sciences and core studies in the technical and managerial aspects of industrial safety and hygiene. An internship is required in industry or in an insurance or government agency. Continuous improvement of the program is guided by an advisory committee of safety professionals. Graduates of this program typically work as safety and health managers, industrial hygienists, loss-control consultants, compliance officers and environmental safety specialists. The OSEH minor should be an attribute to majors in biology, business administration, chemistry, applied engineering and technology management, political science and nursing. OSEH is nationally accredited by the Accreditation Board for Engineering and Technology (ABET).

### Curriculum

**Complete ALL of the following Courses:**

- OSEH440 - Internship

**Additional Comments:**

**Req Related for Occupatnl Safety & Env. Health (28-32 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Mathematics (6-7 credits)

**Fulfill ALL of the following requirements:**

Statistics Course (3 credits)

**Complete at least 1 of the following courses:**

- MATH130 - Elements of Statistics 1
- MATH235 - Survey of Statistics
- ECON231 - Applied Statistics 1
- OR ECON231H - Hon: Applied Statistics 1

AND

Calculus (3-4 credits)

**Complete at least 1 of the following courses:**

- MATH101 - College Algebra
- MATH151 - Calculus for Management
- MATH160 - Precalculus
- MATH161 - Calculus 1
- MATH211 - Calculus 2

AND

Biology and Chemistry (9-11 credits)

**Fulfill ALL of the following requirements:**

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- BIOL100 - General Biology

AND

Chemistry I (3-4 credits)

**Complete at least 1 of the following courses:**

- CHEM103 - Gen Organic and Biochemistry 1
- CHEM111 - Introductory Chemistry 1
- CHEM231 - Organic Chemistry 1

AND

Chemistry II (3-4 credits)

**Complete at least 1 of the following courses:**

- CHEM104 - Gen Organic and Biochemistry 2
- CHEM112 - Introductory Chemistry 2
- CHEM232 - Organic Chemistry 2

AND

Physics and Industrial Technology (13-14 credits)

**Fulfill ALL of the following requirements:**

Required Courses (6 credits)

**Complete ALL of the following Courses:**

- AENG130 - Production Materials & Processes

- AENG392 - Intro to Industrial Training

AND

Physics Options (7-8 credits)

Complete at least 1 of the following:

Option 1. Physics Elective and Energy & Power Systems (7 credits)

Fulfill ALL of the following requirements:

Energy & Power Systems (3 credits)

Complete ALL of the following Courses:

- AENG120 - Energy Systems

AND

Physics Elective (4 credits)

Complete at least 1 of the following courses:

- PHYS103 - Elements of Physics
- PHYS104 - Applied Physics
- PHYS131 - Physics 1 with Algebra

OR

Option 2. Physics Courses (8 credits)

Complete ALL of the following Courses:

- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

Courses

AENG101 - Introduction to Engineering

Course Information

Course Title

Introduction to Engineering

Subject code	Course Number	Academic Level
AENG	101	Undergraduate

Course Description

This course engages learners in using scientific and mathematical reasoning to explore and engage in engineering design, covers the fundamentals of the engineering design process, and exposes students to a wide range of career paths available to engineers, including engineering, applied engineering, and engineering technology areas. In this course, students will follow the creativity-based engineering design process through laboratory-based activities. Students will design and manufacture physical artifacts to meet a specific engineering challenge, and must defend their decisions with scientific and mathematical reasoning. This course focuses on how engineers apply their creativity, resourcefulness, mathematical, scientific and technical knowledge and skills in the creation or refinement of technological products/systems.

General Education Labels

G2

AENG110 - Communication and Information Systems

Course Information

Course Title

Communication and Information Systems

Subject code	Course Number	Academic Level
AENG	110	Undergraduate

Course Description

Communication technology to design, compose, send, receive and understand ideas and information. Emphasis on graphic and electronic media. Experiences with graphic design, graphic reproduction, desktop publishing, web-page development, photography, and digital video and audio. 2 hrs. lec., 3 hrs. lab.

AENG120 - Energy Systems

Course Information

Course Title

Energy Systems

Subject code	Course Number	Academic Level
AENG	120	Undergraduate

### Course Description

An introduction to energy and power systems. Principles of conventional and alternative energy resources and energy conseNation, and electrical, fluid, and mechanical power will be studied along with environmental concerns associated with power production. 2 hours lecture, 3 hours lab.

## AENG130 - Production Materials & Processes

### Course Information

#### Course Title

Production Materials & Processes

Subject code	Course Number	Academic Level
AENG	130	Undergraduate

#### Course Description

The integration and interrelationships of materials and processes for construction and manufacturing, including the application of math and scientific principles and the technological impacts on industry and society. Requires experiences in materials processing and production tooling. 2 hrs. lec., 3 hrs lab.

## AENG140 - Bio-related Technologies

### Course Information

Subject code	Course Number	Academic Level
AENG	140	Undergraduate

#### Course Description

Agriculture, medicine and other technologies in which living organisms are used to solve problems and modify products and systems. Includes problem solving, design and research activities for understanding biorelated technologies, issues and impacts. 2 hrs. lec., 3 hrs. lab. Reserved for EDTE majors.

#### Simple Requisites

#### Degree/Major/Field of Study Restrictions

##### Type

Prerequisite

EDTE Majors Only

Reserved for EDTE majors.

#### Additional Comments:

## AENG179 - Experimental

### Course Information

#### Course Title

Experimental

Subject code	Course Number	Academic Level
AENG	179	Undergraduate

#### Course Description

Experimental

## AENG241 - Drafting Communications

### Course Information

#### Course Title

Drafting Communications

Subject code	Course Number	Academic Level
AENG	241	Undergraduate

#### Course Description

Introductory technical sketching, conventional drafting and computer-aided drafting (CAD). Experiences with equipment use and care, lettering, geometric constructions, multiview projection, dimensioning, sectioning and pictorial representation. 2 hrs. lec., 3 hrs. lab.

## AENG243 - Technical Sketching, Design & Rendering

### Course Information

#### Course Title

Technical Sketching, Design & Rendering

Subject code	Course Number	Academic Level
AENG	243	Undergraduate

#### Course Description

Freehand sketching and basic elements of two-dimensional design and rendering. Various sketching and shading techniques are developed. Elements and principles of design, methods of designing, and evaluation and design of products are included. An application software is used to render design sketches. 2 hrs. lec., 3 hrs. lab.

## AENG251 - Print Media Systems

### Course Information

#### Course Title

Print Media Systems

Subject code	Course Number	Academic Level
AENG	251	Undergraduate

### Course Description

Contemporary resources, processes and impacts of graphic reproduction. Emphasis on workflows relative to offset lithography, flexography, gravure, digital printing and screen printing. Covers graphic design; digital-image composition; digital photography; scanning; prepress, press and postpress production. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 110 or ART 244 or COMM 201 or by permission.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

AENG 110 or COMM 201

#### Complete ANY of the following Courses:

- AENG110 - Communication and Information Systems
- COMM201 - Theory of Communication

Or by permission.

#### Additional Comments:

## AENG252 - Web Publishing Systems

### Course Information

#### Course Title

Web Publishing Systems

Subject code	Course Number	Academic Level
AENG	252	Undergraduate

### Course Description

Planning, creating, and publishing of web media. Topics include information design, optimization of graphic and audio files, navigation systems and website technologies. Multimedia authoring software will be utilized to produce and publish websites that include digital animations and interactive forms. 2 hrs. lec., 3 hrs. lab. Prereq: AENG 110, DESN 201 or permission of instructor.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

AENG 110

#### Complete ALL of the following Courses:

- AENG110 - Communication and Information Systems

#### Additional Comments:

### Course Prerequisites

#### Type

Prerequisite

DESN 201

#### Complete ALL of the following Courses:

- DESN201 - Understanding Web Design

Or must have permission of instructor.

#### Additional Comments:

## AENG258 - Package Engineering Fundamentals

### Course Information

#### Course Title

Package Engineering Fundamentals

Subject code	Course Number	Academic Level
AENG	258	Undergraduate

### Course Description

An introduction to the packaging industry with an emphasis on package design and engineering. Includes a study of materials used in packaging and an introduction to the purposes and requirements of packaging. Laboratory activities include the structural design of package components using software. Prereq: AENG 251.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

AENG 251

#### Complete ALL of the following Courses:

- AENG251 - Print Media Systems

#### Additional Comments:

## AENG261 - Electronic Systems

### Course Information

#### Course Title

Electronic Systems

Subject code	Course Number	Academic Level
AENG	261	Undergraduate

#### Course Description

Survey of electricity and electronics, including typical direct current and alternating current applications, safe practices and technological impacts. Experiences include breadboarding, design and problem solving, use of test equipment and electronic project assembly/troubleshooting. 2 hrs. lec., 3 hrs. lab.

## AENG261H - H:Electronic Systems

### Course Information

#### Course Title

H:Electronic Systems

Subject code	Course Number	Academic Level
AENG	261H	Undergraduate

## AENG262 - Semiconductor Electronics

### Course Information

#### Course Title

Semiconductor Electronics

Subject code	Course Number	Academic Level
AENG	262	Undergraduate

#### Course Description

In-depth study of semiconductor theory, including diodes, transistors and silicon-controlled rectifiers. Emphasizes digital, linear and hybrid integrated circuits. Covers surface mount and emerging technologies, such as nanotechnology and biotechnology. Practical applications include prototyping circuits, design and problem solving, use of test equipment and troubleshooting. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 261 or permission of instructor.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

AENG 261 or AENG 261H

**Complete ANY of the following Courses:**

- AENG261 - Electronic Systems
- AENG261H - H:Electronic Systems

Or must have permission of instructor.

#### Additional Comments:

## AENG271 - Processing Nonmetallic Materials

### Course Information

#### Course Title

Processing Nonmetallic Materials

Subject code	Course Number	Academic Level
AENG	271	Undergraduate

#### Course Description

Various nonmetallic materials, processes, products and impacts, including polymers, ceramics, wood, clay, composites and glass. Instruction and experiences provided on safety and the use of tools and machines associated with nonmetallics. Includes production activities in each of the specified nonmetallic material areas. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 130.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

AENG 130

**Complete ALL of the following Courses:**

- AENG130 - Production Materials & Processes

#### Additional Comments:

## AENG279 - Experimental

AENG281 - Processing Metallic Materials

Course Information

Course Title

Processing Metallic Materials

Subject code	Course Number	Academic Level
AENG	281	Undergraduate

Course Description

Examination of metallic materials, including their structures, properties and the processes used to convert them into products. Particular attention is paid to the relationship between microstructural characteristics, physical and mechanical properties and production methods. Connections are made between the properties of metals and their applications. Laboratory experiences include manual and automated production techniques, conditioning processes and characterization methods to quantify process-property-performance relationships. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 130.

AENG	301	Undergraduate

Course Description

Analysis of the development of technology and its impact on humans and a realization of the importance of human technological behavior on the environment, social/cultural systems and the future. Students use analytical skills on a written independent research project and oral skills to present and defend positions on technological problems facing our society. Prereq: COMM 100, ENGL 110 and junior class standing.

AENG302 - Futurology

Course Information

Course Title  
Futurology

Subject code	Course Number	Academic Level
AENG	302	Undergraduate

Course Description

A nontechnical interdisciplinary course to help students identify and analyze forces causing technological and social change. Using an understanding of the processes of technological and social change and research techniques for forecasting the future, students complete a written independent research project. Develops skills to project future technological and social developments and their impacts. Prereq: COMM 100, ENGL 110 and junior class standing.

AENG303 - Tech Assessmnt:Amish and Othrs

Course Information

Course Title  
Tech Assessmnt:Amish and Othrs

Subject code	Course Number	Academic Level
AENG	303	Undergraduate

Course Description

A nontechnical course designed for all students to help learners analyze the use of technology, with focus on Anabaptists (particularly Amish, Old Order Mennonites and certain Brethren groups) of Lancaster County. Contrasting the way these groups assess and use technology with that of their own culture will allow students to better understand their

own approach to technology. Students will develop their own technology-assessment system based on independent research. Prereq: COMM 100, ENGL 110 and junior class standing.

**AENG304 - Energy, Sustainability**

**Course Information**

**Course Title**  
Energy, Sustainability

Subject code	Course Number	Academic Level
AENG	304	Undergraduate

**Course Description**  
A non-technical course for all students dealing with energy sustainability, energy resources and conservation, and the effects of energy use on our environment. This course contains up-to-date information on essential subjects such as solar energy, wind energy, nuclear energy and energy conservation. Contemporary alternatives such as photovoltaic electricity and wind power generation will be addressed. Individual transportation to field sites is required (discuss with instructor before registering for class if this is an issue). Prereq: COMM 100, ENGL 110, MATH 100 or higher and Junior class standing.

## AENG325 - Power Conversion and Control

### Course Information

Course Title

Power Conversion and Control

Subject code	Course Number	Academic Level
AENG	325	Undergraduate

Course Description

Electric motors as conversion devices explored. Experiences include designing, creating and testing fluid and electrical energy conversion circuitry to perform specific control applications. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 120 or 261.

Simple Requisites

#### Course Prerequisites

Type

Prerequisite

AENG 120 or AENG 261 or AENG 261H

**Complete ANY of the following Courses:**

- AENG120 - Energy Systems
- AENG261 - Electronic Systems
- AENG261H - H:Electronic Systems

**Additional Comments:**

## AENG322 - Transportation

### Course Information

Course Title

Transportation

Subject code	Course Number	Academic Level
AENG	322	Undergraduate

Course Description

Includes the application of scientific and mathematical principles to the solution of land, air, space, and/or water transportation challenges. Incorporates the investigation of a variety of robotics and control systems with emphasis on computational thinking. 2 hours lecture, 3 hours lab. Prerequisites: ITEC 120, ITEC 261, Math 100 or higher

Simple Requisites

#### Course Prerequisites

Type

Prerequisite

## AENG326 - Fluid Power

### Course Information

Course Title

Fluid Power

Subject code	Course Number	Academic Level
AENG	326	Undergraduate

Course Description

Investigation of scientific, mathematical and technological principles. Experiences with the design, creation, use and repair of hydraulic and pneumatic systems. A research and development activity required. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 120 or 325.

Simple Requisites

Course Prerequisites

Type

Prerequisite

AENG 120 or AENG 325

AENG327 - Engineering Structures

Course Information

Course Title

Engineering Structures

Subject code	Course Number	Academic Level
AENG	327	Undergraduate

Course Description

Students will design, construct, and evaluate model structures. Emphasis is placed on the use of science, technology, engineering, and mathematical (STEM) principles as they relate to structures. 2 hours lecture, 3 hours lab. Prerequisites: ITEC 120, 130, 241, and Math 100 or higher.

Simple Requisites

Course Prerequisites

Type

Prerequisite

AENG 120 and AENG 130 and AENG 241

Complete ALL of the following Courses:

- AENG120 - Energy Systems
- AENG130 - Production Materials & Processes
- AENG241 - Drafting Communications

MATH 100 or Higher

Complete ANY of the following Course Sets:

- Any 1-level or higher MATH course(s)

Additional Comments:

AENG331 - Construction Technology 1

Course Information

Course Title

Construction Technology 1

Subject code	Course Number	Academic Level
AENG	331	Undergraduate

Course Description

Utilization of materials for the construction of residential and light commercial structures. Includes the effects of these changes on people and their environment. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 271 or permission of instructor.

Simple Requisites

Course Prerequisites

Type

Prerequisite

AENG 271

Complete ALL of the following Courses:

- AENG271 - Processing Nonmetallic Materials

Or must have permission of instructor.

**Additional Comments:**

## AENG332 - Construction Technology 2

### Course Information

**Course Title**

Construction Technology 2

Subject code	Course Number	Academic Level
AENG	332	Undergraduate

#### Course Description

Methods, materials and processes employed in heavy and industrial construction technologies. Includes field-engineering techniques, equipment, civil engineering fundamentals and use of modeling and simulation techniques. Emphasis given to construction projects such as bridges, roads, industrial and commercial buildings, utilities, tunnels and dams. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 271 or permission of instructor.

#### Simple Requisites

##### Course Prerequisites

**Type**

Prerequisite

AENG 271

**Complete ALL of the following Courses:**

- AENG271 - Processing Nonmetallic Materials

Or must have permission of instructor.

**Additional Comments:**

## AENG342 - Computer-Aided Engineering Drawing

### Course Information

**Course Title**

Computer-Aided Engineering Drawing

Subject code	Course Number	Academic Level
AENG	342	Undergraduate

#### Course Description

Advanced study of threads, gears and standard fasteners; geometric dimensioning and tolerancing (GD&T); schematic, production and assembly drawings; and introduction to solids modeling. Builds on view orientation, projection systems and basic CAD. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 241.

#### Simple Requisites

##### Course Prerequisites

**Type**

Prerequisite

AENG 241

**Complete ALL of the following Courses:**

- AENG241 - Drafting Communications

**Additional Comments:**

## AENG342H - Computer-Aided Engineering Drawing

### Course Information

**Course Title**

Computer-Aided Engineering Drawing

Subject code	Course Number	Academic Level
AENG	342H	Undergraduate

#### Course Description

Advanced study of threads, gears and standard fasteners; geometric dimensioning and tolerancing (GD&T); schematic, production and assembly drawings; and introduction to solids modeling. Builds on view orientation, projection systems and basic CAD. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 241.

#### Simple Requisites

##### Course Prerequisites

**Type**

Prerequisite

AENG 241

**Complete ALL of the following Courses:**

- AENG241 - Drafting Communications

**Additional Comments:**

## AENG344 - Product Design

### Course Information

Course Title

Product Design

Subject code	Course Number	Academic Level
AENG	344	Undergraduate

#### Course Description

An exploration of the thinking processes, problem solving strategies, documentation techniques, and making skills used by designers toward creating new products. The use of the elements and principles of design, aesthetics, ergonomics, and social/cultural considerations as tools toward designing for manufacture, designing for sustainability, and universal design are emphasized. Other topics explored include the role of human emotion toward design and design's influence on human history.

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

AENG241 or ERCH190

##### Complete ANY of the following Courses:

- AENG241 - Drafting Communications
- ERCH190 - Introduction to Integrative STEM Pedagogy

##### Additional Comments:

Sometimes sections are reserved for TECE, AETM, MFET & AETE seniors & juniors, and sometimes for ISEM minors only.

## AENG344H - Hnrs: Product Design

### Course Information

Course Title

Hnrs: Product Design

Subject code	Course Number	Academic Level
AENG	344H	Undergraduate

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

AENG241 or ERCH190

##### Complete ANY of the following Courses:

- AENG241 - Drafting Communications
- ERCH190 - Introduction to Integrative STEM Pedagogy

##### Additional Comments:

Sometimes sections are reserved for TECE, AETM, MFET & AETE seniors & juniors, and sometimes for ISEM minors only.

## AENG345 - Statics/Strength of Materials

### Course Information

Course Title

Statics/Strength of Materials

Subject code	Course Number	Academic Level
AENG	345	Undergraduate

#### Course Description

Elementary, analytical and practical approaches to the principles and physical concepts of statics. Covers force systems; equivalent force/moment systems; distributed forces; internal forces; principles of equilibrium; application to trusses, frames and beams; stress and strain; and mechanical properties of materials. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 241 and MATH 151, 160 or 161; or permission of instructor.

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

AENG 241

##### Complete ALL of the following Courses:

- AENG241 - Drafting Communications

MATH 151 or MATH 160 or MATH 161 or MATH 161H

##### Complete ANY of the following Courses:

- MATH151 - Calculus for Management
- MATH160 - Precalculus
- MATH161 - Calculus 1
- MATH161H - Hon: Calculus 1

Or must have permission of the instructor.

##### Additional Comments:

## AENG346 - Architectural Drawing

### Course Information

#### Course Title

Architectural Drawing

Subject code	Course Number	Academic Level
AENG	346	Undergraduate

#### Course Description

Study of principles of residential design and architectural styles with an emphasis on the development of a complete set of original working and presentation drawings using computer-aided design (CAD) and Building Information Modeling (BIM). 2 hours lecture, 3 hours lab. Prerequisite: ITEC 241.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

AENG241

##### Complete ANY of the following Courses:

- AENG241 - Drafting Communications

Credit Hours Completion (Junior or Senior Class Standing)

Earn at least 60 credits

Major Restriction

Reserved for TECE, AETM & AETE majors.

Additional Comments:

were solved by doing mathematical calculations. In contrast, this class uses descriptive geometry to solve three-dimensional spatial problems graphically. The computer is used as the main drafting tool. Engineering visualization extends beyond the principles of descriptive geometry. Students use visualization techniques and spatial reasoning to solve fundamental engineering concepts and related problems, represent their design proposals, view the 3D environment from any angle using a flying camera, and support their spatial, numeric, algebraic and quantitative thinking. 2 hrs. lec., 3 hours lab. Prereq: ITEC 241.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

AENG 241

##### Complete ALL of the following Courses:

- AENG241 - Drafting Communications

Additional Comments:

## AENG348 - Green Building and Sustainable Systems

### Course Information

#### Course Title

Green Building and Sustainable Systems

Subject code	Course Number	Academic Level
AENG	348	Undergraduate

#### Course Description

This course covers fundamentals of green buildings and sustainable energy technologies and their dynamic costs and benefits. Green buildings are designed and constructed to maximize the energy efficiency of the envelope and provide superior quality in the indoor environment. This course allows students to explore the integration of design principles and application of renewable energy, natural building materials, and ecological landscape into building design and community development. Pre-requisite: MATH 130 and ITEC 241

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

## AENG347 - Engineering Visualization

### Course Information

#### Course Title

Engineering Visualization

Subject code	Course Number	Academic Level
AENG	347	Undergraduate

#### Course Description

Students study the relationships of three-dimensional lines, angles, surfaces, and solids by projecting three-dimensional reality onto a two-dimensional surface such as a computer screen. The students gain the necessary tools and principles to graphically visualize, manipulate, and solve engineering and architectural design problems. Traditionally these problems

MATH130 and AENG241

**Complete ALL of the following Courses:**

- MATH130 - Elements of Statistics 1
- AENG241 - Drafting Communications

**Additional Comments:**

## AENG351 - Digital Imaging

### Course Information

**Course Title**

Digital Imaging

Subject code	Course Number	Academic Level
AENG	351	Undergraduate

**Course Description**

Create digital images using cameras and scanners. Set up and characterize a digital workstation and produce digitally imaged products. Hands-on activities will require students to demonstrate their proficiency using contemporary hardware and software to compose, capture, convert, color and tonal correct, manipulate and print digital images and products. 2 hrs. lec., 3 hrs. lab. Offered annually.

## AENG355 - Contemporary Printing

### Course Information

**Course Title**

Contemporary Printing

Subject code	Course Number	Academic Level
AENG	355	Undergraduate

**Course Description**

Advanced study of today's major printing processes, especially offset and screen. Experiences include layout and design, computerized electronic composition, copy preparation, line and halftone photography, special-effects photography, exposure unit calibration, image assembly, platemaking, printing and finishing complex graphic products. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 251.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

AENG 251

**Complete ALL of the following Courses:**

- AENG251 - Print Media Systems

**Additional Comments:**

## AENG356 - Desktop Publishing

### Course Information

**Course Title**

Desktop Publishing

Subject code	Course Number	Academic Level
AENG	356	Undergraduate

**Course Description**

Utilization of desktop microcomputer systems to design, compose and publish graphic materials. A research and development activity required. 2 hrs. lec., 3 hrs. lab. Prereq: ENGL 110.

**General Education Labels**

[Writing (W)]

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

ENGL 110 or ENGL 110H

**Complete ANY of the following Courses:**

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

**Additional Comments:**

## AENG357 - Packaging Specialty Printing

### Course Information

**Course Title**

Packaging Specialty Printing

Subject code	Course Number	Academic Level
AENG	357	Undergraduate

**Course Description**

In-depth study of problems and processes related to printing and converting in package, label and specialty printing. Students study and experience package design structures, materials flexographic printing, screen container printing,

converting methods and bar code applications. Current industry practices explored. 2 hrs. lec., 3 hrs. lab. Prereq: AENG 241, 251, and 258; or DESN 348.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

AENG241 and AENG251 and AENG258 or DESN348

**Complete ALL of the following Courses:**

- AENG241 - Drafting Communications

Experimental

## AENG382 - Automated Manufacturing

### Course Information

Course Title

Automated Manufacturing

Subject code	Course Number	Academic Level
AENG	382	Undergraduate

#### Course Description

A comprehensive experience in the design, programming and implementation of computer-controlled manufacturing processes. Emphasis is placed on understanding machine code, utilizing computer-aided design and manufacturing (CAD/CAM) software and identifying proper process controls to increase productivity and reduce cost. Laboratory experiences develop a combination of software and hardware competencies. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 130; and ITEC 241; and ITEC 271 OR 281 OR 342; or permission of instructor.

#### Simple Requisites

**Course Prerequisites**

Type

Prerequisite

AENG 130 and AENG 241

**Complete ALL of the following Courses:**

- AENG130 - Production Materials & Processes
- AENG241 - Drafting Communications

AENG 271 or AENG 281 or AENG 342

**Complete ANY of the following Courses:**

- AENG271 - Processing Nonmetallic Materials
- AENG281 - Processing Metallic Materials
- AENG342 - Computer-Aided Engineering Drawing

Or must have permission of instructor.

**Type**

Prerequisite

TECE Major

Restricted to majors in technology education (TECE).

**Additional Comments:**

## AENG446 - Advanced Applications in Drafting and Design

### Course Information

**Course Title**

Advanced Applications in Drafting and Design

Subject code	Course Number	Academic Level
AENG	446	Undergraduate

**Course Description**

Focuses on advanced techniques, applications, and field-related career interactions in drafting, design, modeling, and rendering based on industry standards and advancements. Research, development, and presentation activities, plus completion of projects are required. 2 hrs. lecture, 3 hrs. lab. Prereq: AENG (ITEC) 342.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

AENG 342

**Complete ALL of the following Courses:**

- AENG342 - Computer-Aided Engineering Drawing

**Additional Comments:**

## AENG448 - Machine Tool Design

### Course Information

**Course Title**

Machine Tool Design

Subject code	Course Number	Academic Level
AENG	448	Undergraduate

**Course Description**

Analysis, planning, design, construction and application of tools, methods and procedures necessary to increase manufacturing productivity. Integrated with machining and fabrication practices. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 342.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

AENG 342

**Complete ALL of the following Courses:**

- AENG342 - Computer-Aided Engineering Drawing

**Additional Comments:**

## AENG455 - R&D in Graphic Communications and Packaging

### Course Information

**Course Title**

R&D in Graphic Communications and Packaging

Subject code	Course Number	Academic Level
AENG	455	Undergraduate

**Course Description**

This course involves testing various components of the manufacturing processes involved in creating print and digital/web media. Typical activities will involve testing colorants (e.g., inks, toners, etc.) and substrates used in lithography, flexography, screen-printing and digital printing systems. Optimum conditions for specific printing methods

will be determined through controlled testing and examination. Students may also propose to examine specific interrelationships between production procedures used in various digital media processes. The course will also cover color separation and reproduction, which includes the study of process color theory, desktop color separations and color reproduction. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 355 or permission of instructor.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

AENG 355

**Complete ALL of the following Courses:**

- AENG355 - Contemporary Printing

Or must have permission of instructor.

**Additional Comments:**

AENG457 - Print Production Management & Cost Estimating

Course Information

Course Title		
Print Production Management & Cost Estimating		
Subject code	Course Number	Academic Level
AENG	457	Undergraduate

**Course Description**  
A study of current topics and systems for setting printing production standards, cost estimating, production scheduling, job planning and the consideration of new equipment and technologies. Students will integrate the technical knowledge learned through previous graphics laboratory classes with other course work in management, marketing, science, business, etc., with a focus on how it all relates specifically to the printing production process. The course is structured to offer an overview in several areas of print production management, with emphasis on cost estimating and current printing industry topics. 2 hours lecture/3 hours lab. Prereq: ITEC 355 and MATH 130, or permission of instructor.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

AENG 355

**Complete ALL of the following Courses:**

- AENG355 - Contemporary Printing

MATH 130

**Complete ALL of the following Courses:**

- MATH130 - Elements of Statistics 1

Or must have permission of instructor.

**Additional Comments:**

AENG467 - Mobile Robotics

Course Information

Course Title		
Mobile Robotics		
Subject code	Course Number	Academic Level
AENG	467	Undergraduate

**Course Description**  
Study of the development of mobile robotic solutions. Emphasis is placed on the programming and interfacing of microcontrollers to control autonomous mobile robots in known environments. A research and development activity is required. 2 hrs. lec., 3 hrs. lab. Prereq: ITEC 262 or permission of instructor.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

AENG 262

**Complete ALL of the following Courses:**

- AENG262 - Semiconductor Electronics

Or must have permission of instructor.

**Additional Comments:**

AENG467H - Hon: Mobile Robotics

AENG	479	Undergraduate

## AENG468 - Control Network Integration

### Course Information

#### Course Title

Control Network Integration

Subject code	Course Number	Academic Level
AENG	468	Undergraduate

#### Course Description

This course utilizes both theory and applications related to industrial network architectures for system control and data acquisition integration. Course topics include design methodologies, installation, commissioning, troubleshooting, grounding/bonding, standards, serial, parallel, wired and wireless protocols. A research and development project is required. 2 hours lecture, 3 hours lab. Prerequisite: AENG 427; Prerequisite or Co-requisite: AENG 425.

#### Simple Requisites

##### Course Prerequisites

## AENG485 - Adv Manufacturing Systems

### Course Information

#### Course Title

Adv Manufacturing Systems

Subject code	Course Number	Academic Level
AENG	485	Undergraduate

#### Course Description

Computer-integrated manufacturing (CIM) systems, strategies and implementation across the manufacturing enterprise. Focus on the integration of systems such as design of products; computer-aided engineering (CAE); the control of quality, design and construction of production tooling, rapid prototyping, computer-aided process planning (CAPP), finite element analysis (FEA), computer-aided design (CAD), computer-aided manufacturing (CAM) and computer numerical control (CNC). Manufacturing, automation and robotics emphasized. Advanced-level production experiences with an intensive research and development component required. 2 hrs. lec., 3 hrs. lab.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

AENG281

##### Complete ANY of the following Courses:

- AENG281 - Processing Metallic Materials

##### Additional Comments:

## AENG489 - Honors Course

### Course Information

Course Title

Honors Course

Subject code	Course Number	Academic Level
AENG	489	Undergraduate

#### Course Description

Preparation of honors thesis proposal. For the definition of honors course and student eligibility, refer to the departmental honors section of this catalog. EDTE, ARET, MFET, PET, AETM and OSEH majors may enroll in the Department of Applied Engineering, Safety & Technology honors program. Contact the department office for guidelines and an application.

## AENG492 - Technical Entrepreneurship

### Course Information

Course Title

Technical Entrepreneurship

Subject code	Course Number	Academic Level
AENG	492	Undergraduate

#### Course Description

A capstone Applied Engineering & Technology Management course in which students study and apply technical, managerial, and entrepreneurial concepts to the development and operation of a student-centered venture. Students organize and operate a model enterprise to develop manufacture and market a consumer product.

#### Simple Requisites

##### Course Prerequisites

Type

Prerequisite

AENG130 or AENG241 and BUAD251 or BUAD251H

##### Complete ALL of the following Courses:

- AENG130 - Production Materials & Processes  
OR AENG241 - Drafting Communications
- BUAD251 - Principles of Management  
OR BUAD251H - Hnrs:Principles of Management

Credit Hours Completion (Junior or Senior Class Standing)

**Earn at least 60 credits**

Major Restriction

Reserved for TECE, AETM & AETE majors.

**Additional Comments:**

## AENG494 - Total Quality Management

### Course Information

Course Title

Total Quality Management

Subject code	Course Number	Academic Level
AENG	494	Undergraduate

#### Course Description

The history and development of quality movements; factors influencing the total quality concept; the scope of modern quality systems; management organization and strategies for quality; engineering technology for quality; and statistical tools for measurement and monitoring of quality. 2 hrs. lec., 3 hrs. lab. Prereq: MATH 130 or permission of instructor.

#### Simple Requisites

##### Course Prerequisites

Type

Prerequisite

MATH 130

##### Complete ALL of the following Courses:

- MATH130 - Elements of Statistics 1

Or must have permission of instructor.

Course Description  
Experimental

## EDTE290 - Children's Engineering

### Course Information

Course Title  
Children's Engineering

Subject code	Course Number	Academic Level
EDTE	290	Undergraduate

Course Description  
The intent of this course is to teach students about fundamentals of electricity, mechanisms, fluidics (liquids and gases under pressure), computer-control, and structures. Content will be delivered through a series of hands-on activities that will allow the students to immerse themselves in the content through problem-based learning by doing. Simple knowledge and skill building activities will lead to more complex open-ended problem solving and prototyping activities to build deeper understandings of scientific,

technological, engineering, and mathematical (STEM) concepts for teachers of young children. Cross-listed with ERCH 290, students may not receive credit for both courses.

#### Simple Requisites

##### Course Prerequisites

##### Type

##### Prerequisite

ERCH 110 and ERCH 190

##### Complete ALL of the following Courses:

- ERCH110 - Introduction to Early Childhood Education
- ERCH190 - Introduction to Integrative STEM Pedagogy

##### Additional Comments:

## EDTE291 - Foundations of Technology & Engineering Ed

### Course Information

#### Course Title

Foundations of Technology & Engineering Ed

Subject code	Course Number	Academic Level
EDTE	291	Undergraduate

#### Course Description

An introduction to the social, historical and philosophical foundations of technology & engineering education, leading to contemporary programs. Provision is made for observation of classroom and laboratory practices in selected schools. Prereq: Sophomore standing. Must meet current university requirements for field experiences (e.g., current clearances, negative TB test results on file). Not offered during summer sessions. Must achieve a "C" or higher to register for professional block courses.

#### Simple Requisites

##### Course Prerequisites

##### Type

##### Prerequisite

Credit Hours Completion (Sophomore or Junior or Senior Class Standing)

**Earn at least 30 credits**

#### University Requirements for Field Experiences

**Must meet current university requirements for field experiences (e.g., current clearances, negative TB test results on file).**

#### Additional Comments:

## EDTE391 - Curr & Inst in Tech & Eng Ed

### Course Information

#### Course Title

Curr & Inst in Tech & Eng Ed

Subject code	Course Number	Academic Level
EDTE	391	Undergraduate

#### Course Description

An investigation of curriculum design, instructional planning, and lesson delivery in K-12 technology and engineering education. The focus is on engaging teacher candidates in using contemporary strategies and technologies to plan, implement, and assess a standards-based curriculum that promotes students' technological literacy, creativity, engineering problem-solving, and design thinking abilities. Emphasis is placed on meeting the needs of all learners, including English language learners and students with disabilities. Field experiences are required in technology and engineering education classrooms. Prerequisites: Grade of "C" or higher in EDTE 291, EDFN 211, EDFN 241. Grade of "C-" or higher in ENGL 110. Admission to advanced professional studies (APS) required. Co-requisites: EDSE 340 and SPED 346. A minimum grade of "C" must be earned in this class in order to progress to student teaching.

#### General Education Labels

Writing (W)

EDTE495 - Integrative STEM Practicum

Course Information

Course Title

Integrative STEM Practicum

Subject code	Course Number	Academic Level
EDTE	495	Undergraduate

Course Description

This clinical practicum course provides opportunities for teacher candidates to bridge theory and practice. Students will demonstrate and apply knowledge, skills, and dispositions related to the implementation of integrative science, technology, engineering and math (STEM) education at the pre-K to grade 4 level. Emphasis is placed on the planning, development, implementation and assessment of integrative STEM instructional activities and lessons that use problem-based and experiential learning techniques targeted for Pre-K to grade 4 students. Includes field experiences. Prerequisites ERCH 110, ERCH 190, EDTE/ERCH 290, ITEC 344, EDTE 490 or 690 or Permission of Instructor; Advanced Professional Studies (APS) status required. Cross-listed with ERCH 495, credit may not be received for both courses.

## EDTE603 - Fostering Creativity by Design

### Course Information

Course Title

Fostering Creativity by Design

Subject code	Course Number	Academic Level
EDTE	603	Graduate

### Course Description

This course will expose students to the concept of how creativity, within the context of the technological world, is manifested through design. Whether it is during the ideation, development, use, modification and updating, or disposal of the artifact or system of technology, design is the overarching force that is present through each stage. Students will also explore the latest theories on creativity as well as the ways that a designer uses creativity and design thinking toward solving problems in an increasingly technologically complex world. Design-based thinking skills such as problem solving, decision making, researching, designing and creating, will be emphasized. The course is appropriate for all graduate students especially those in education, technological fields, and entrepreneurship.

## EDTE604 - Engineering Principles and Concepts for the Non-Engineer

### Course Information

Course Title

Engineering Principles and Concepts for the Non-Engineer

Subject code	Course Number	Academic Level
EDTE	604	Graduate

### Course Description

The innovations and inventions of engineering design are vital toward enhancing the standards of living for humanity. In this course, which is intended for the non-engineer, students will learn what engineers do and how they do it. The connections between the engineering profession and society will be examined. This will include a review of engineering organizations and their standards, problem solving techniques and the methods of modeling systems.

EDTE605 - Applying Critical Thinking and Decision Making

Course Information

Course Title

Applying Critical Thinking and Decision Making

Subject code	Course Number	Academic Level
EDTE	605	Graduate

Course Description

An exploration of the nature and application of critical thinking toward acts of decision making. Students will learn how to understand, facilitate, and practice the techniques of disciplined critical thinking and decision-making while avoiding the pitfalls of thinking traps such as biases and irrational tendencies. The course has been designed to address a variety of audiences including all teachers at all levels as well as entrepreneurs and individuals from business and industry, the sciences and the technological fields.

EDTE646 - Writing the Professional Paper

Course Information

Course Title

Writing the Professional Paper

Subject code	Course Number	Academic Level
EDTE	646	Graduate

Course Description

Development of competencies for identifying and developing graduate research topics and for publishing in professional literature. Emphasis on research methods, organization and effective writing. The satisfactory completion of this course is required before pursuit of EDTE 698 Research and Development in Technical Areas or EDTE 699 Thesis.

EDTE679 - Experimental

EDTE690 - Integrative Learning Experiential Strategy

Course Information

Course Title

Integrative Learning Experiential Strategy

Subject code	Course Number	Academic Level
EDTE	690	Graduate

Course Description

The purpose of this course is to engage students in curriculum planning, design, and assessment that will enable them to identify, use, and evaluate experiential and integrative teaching-learning strategies that facilitate connections between all subjects in grades Pre-K to grade 6 (e.g., literacy, science, mathematics, social studies, arts, technology, physical education, engineering).

EDTE691 - Independent Study

Course Information

Course Title

Independent Study

Subject code	Course Number	Academic Level
EDTE	691	Graduate

Course Description

Pursuit of a topic of special interest and of potential application in technology education. Written proposal must be approved by an appropriate faculty sponsor, the graduate program coordinator and the department chairperson prior to the semester of formal registration in this course. Completion of an approved independent study includes a written research report, which partially determines the grade received.

EDTE698 - Research and Development Technical Project

Course Information

Course Title

Research and Development Technical Project

Subject code	Course Number	Academic Level
EDTE	698	Graduate

Course Description

Design, execution and communication of applied research in technology education. Emphasis on recent technological advances and experimentation with contemporary processes, materials and techniques. Three types of applied research may be pursued: technical project, innovative instruction or technical research. Study is guided by a faculty adviser. Research and development results and applications are recorded as a research report.

EDTE	699	Graduate

**Course Description**

Planning, conducting and recording basic research in technology education. Includes application of an experimental, descriptive, historical or other pertinent educational research method. Study is guided by research adviser and faculty committee. Research results and interpretation are recorded as a thesis.

## FYEX100E - Learning by Doing

### Course Information

**Course Title**

Learning by Doing

Subject code	Course Number	Academic Level
FYEX	100E	Undergraduate

**Course Description**

Engages students in exploring the value of learning through hands-on experiences. Students will use experiential learning to engage with technologies and solve real-life engineering problems. They will also explore some of the challenges of adapting to college and identify campus resources for academic success. Students will be challenged to evaluate learning through active engagement and to reflect on how personal and authentic experiences play a role in their own learning as college students.

## NFMT311 - Materials, Safety & Equipment Overview for Nanotechnology

### Course Information

**Course Title**

Materials, Safety & Equipment Overview for Nanotechnology

Subject code	Course Number	Academic Level
NFMT	311	Undergraduate

**Course Description**

Focuses on issues encountered in the practice of top down and bottom up nanofabrication and the safe operation and maintenance of nanofabrication processing equipment and materials-handling procedures. Includes clean-room protocol, safety and environmental and health issues in the nanofabrication facility at Penn State University. 2 hrs. lec., 2 hrs. lab. Coreq: NFMT 312. Completed at Penn State University in State College during Capstone Semester.

**Simple Requisites**

**Course Corequisites**

**Type**

Corequisite

NFMT 312

**Enroll in the following Courses:**

- NFMT312 - Basic Nanotechnology Processes

**Additional Comments:**

## NFMT312 - Basic Nanotechnology Processes

### Course Information

**Course Title**

Basic Nanotechnology Processes

Subject code	Course Number	Academic Level
NFMT	312	Undergraduate

**Course Description**

Hands-on introduction to the processing sequences involved in top down, bottom up and hybrid nanofabrication. Details a step-by-step description of processes to fabricate devices and structures. Stresses the importance of environmental control (gas, liquid, vacuum) in processing. 2 hrs. lec., 2 hrs. lab. Prereq: Admission to the NFMT Capstone Semester. Coreq: NFMT 311. Completed at Penn State University in State College during Capstone Semester.

Simple Requisites

Course Prerequisites

Type

Prerequisite

Admission to the NFMT “Capstone Semester.  
Must be admitted to the NFMT “Capstone Semester.

Additional Comments:

Course Corequisite

Type

Corequisite

NFMT 311  
Enroll in the following Courses:

- NFMT311 - Materials, Safety & Equipment  
Overview for Nanotechnology

Additional Comments:

NFMT313 - Thin Film Utilization

Course Information

Course Title

Thin Film Utilization

Subject code	Course Number	Academic Level
NFMT	313	Undergraduate

Course Description

In-depth, hands-on exposure to depositing and etching a wide variety of materials, including dielectrics, semiconductors organics, polymers, metallic materials and molecular films. Students work in small teams and develop oral and written reports. 2 hrs. lec., 2 hrs. lab. Prereq: NFMT 311 and 312. Completed at Penn State University in State College during Capstone Semester.

Simple Requisites

Course Prerequisites

Type

Prerequisite

NFMT 311 and NFMT 312  
Complete ALL of the following Courses:

- NFMT311 - Materials, Safety & Equipment

Overview for Nanotechnology

- NFMT312 - Basic Nanotechnology Processes

Completed at Penn State University in State College during “Capstone Semester.”

Additional Comments:

NFMT314 - Lithography

Course Information

Course Title

Lithography

Subject code	Course Number	Academic Level
NFMT	314	Undergraduate

Course Description

Hands-on treatment of all aspects of advanced pattern transfer and pattern-transfer equipment. Includes pattern-generation processes, photolithography, particle beam lithographic techniques, probe pattern generation and three types of lithography (embossing, stamp, self-assembled). 2 hrs. lec., 2 hrs. lab. Prereq: NFMT 311. Completed at Penn State University in State College during Capstone Semester.

Simple Requisites

Course Prerequisites

Type

Prerequisite

NFMT 311  
Complete ALL of the following Courses:

- NFMT311 - Materials, Safety & Equipment  
Overview for Nanotechnology

Completed at Penn State University in State College during “Capstone Semester.”

Additional Comments:

NFMT315 - Materials Modification in Nanotechnology

Course Information

Course Title

Materials Modification in Nanotechnology

Subject code	Course Number	Academic Level
NFMT	315	Undergraduate

Course Description

Detailed coverage of material-processing steps for molecular functionalization, cross-linking, metal silicidation, material oxidation, materials nitradion, barrier materials, alloying, annealing and doping. Includes avoiding unintentional materials modification via the use of diffusion barriers, encapsulation, electromigration, corrosion, stress effects and adhesion. 2 hrs. lec., 2 hrs. lab. Prereq: NFMT 311. Completed at Penn State University in State College during Capstone Semester.

Simple Requisites

Course Prerequisites

Type

Prerequisite

NFMT 311

Complete ALL of the following Courses:

NFMT311 - Materials, Safety & Equipment Overview for Nanotechnology

Completed at Penn State University in State College during "Capstone Semester."

Additional Comments:

NFMT316 - Characterization, Testing Nanotech Structures & Materials

Course Information

Course Title

Characterization, Testing Nanotech Structures & Materials

Subject code	Course Number	Academic Level
NFMT	316	Undergraduate

Course Description

Examines a variety of techniques and measurements essential for testing and for controlling final device performance and final packaging. Problems and solutions concerning the interfacing of the macro-world with micro- and nano-scale devices will be analyzed and examined. 2 hrs. lec., 2 hrs. lab. Prereq: NFMT 311. Completed at Penn State University in State College during Capstone Semester.

Simple Requisites

Course Prerequisites

Type

Prerequisite

NFMT 311

Complete ALL of the following Courses:

NFMT311 - Materials, Safety & Equipment Overview for Nanotechnology

Completed at Penn State University in State College during "Capstone Semester."

Additional Comments:

OSEH120 - Fundamentals of Safety, Health, Environmental Issues

Course Information

Course Title

Fundamentals of Safety, Health, Environmental Issues

Subject code	Course Number	Academic Level
OSEH	120	Undergraduate

Course Description

Introduction to safety, health and environmental issues that impact people and workplaces. Includes the historical development of safety, the impact of accidents on society, a legislative overview and basic principles of personal risk assessment and management.

General Education Labels

G3

OSEH120H - Hon: Fundamentals of Safety, Health, Environmental Issues

Co-Op Ed Experience in OSEH

## OSEH320 - Safety Engineering Principles

### Course Information

#### Course Title

Safety Engineering Principles

Subject code	Course Number	Academic Level
OSEH	320	Undergraduate

#### Course Description

Methods for the identification and analysis of industrial hazards. Emphasis on application of basic safety engineering principles for the control of losses in an industrial environment. Prereq: OSEH 120.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

OSEH 120

##### Complete ALL of the following Courses:

- OSEH120 - Fundamentals of Safety, Health, Environmental Issues

Additional Comments:

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

OSEH 120 and CHEM 104

##### Complete ALL of the following Courses:

- OSEH120 - Fundamentals of Safety, Health, Environmental Issues
- CHEM104 - Gen Organic and Biochemistry 2

MATH 101 or MATH 151 or MATH 160 or MATH 161

##### Complete ANY of the following Courses:

- MATH101 - College Algebra
- MATH151 - Calculus for Management
- MATH160 - Precalculus
- MATH161 - Calculus 1

Or must have permission of instructor.

Additional Comments:

## OSEH321 - Environmental & Industrial Hygiene I - Chemical and Biological Hazards

### Course Information

#### Course Title

Environmental & Industrial Hygiene I - Chemical and Biological Hazards

Subject code	Course Number	Academic Level
OSEH	321	Undergraduate

#### Course Description

Course covers the anticipation, recognition, evaluation, and control of chemical and biological hazards in the workplace. Topics include: toxicology, gases, vapors, solvents, particulate matters, respiratory protection, fit testing, air sampling protocols and strategies, microbial and biological hazards, and government regulations. The challenging concerns of health hazards related to nano size particles in the workplace is addressed. Prereq: OSEH 120, CHEM 104, MATH 101 or Math 151 or Math 160 or Math 161, or permission of instructor.

## OSEH323 - Human Factors in OSEH

### Course Information

#### Course Title

Human Factors in OSEH

Subject code	Course Number	Academic Level
OSEH	323	Undergraduate

#### Course Description

Ergonomic study of interaction between people and their work. Emphasis on the application of biological sciences to engineering principles in an effort to optimize efficiency, productivity and safety. Topics include anthropometrics, biomechanics, design principles, physiological and cognitive capabilities and task-evaluation techniques. Prereq: OSEH 120 or permission of instructor.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

OSEH 120

##### Complete ALL of the following Courses:

- OSEH120 - Fundamentals of Safety, Health,

Environmental Issues

Or must have permission of instructor.

**Additional Comments:**

## OSEH333 - Introduction to System Safety

### Course Information

#### Course Title

Introduction to System Safety

Subject code	Course Number	Academic Level
OSEH	333	Undergraduate

#### Course Description

Qualitative and quantitative system safety methods used to analyze and control risk. Includes a variety of analytical engineering techniques that are applied to practical system-analysis problems. Prereq: OSEH 320 and MATH 130.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

OSEH 320 and MATH 130

#### Complete ALL of the following Courses:

- OSEH320 - Safety Engineering Principles
- MATH130 - Elements of Statistics 1

**Additional Comments:**

## OSEH379 - Experimental

### Course Information

#### Course Title

Experimental

Subject code	Course Number	Academic Level
OSEH	379	Undergraduate

#### Course Description

Experimental

## OSEH400 - Co-Op Ed Experience in OSEH

### Course Information

#### Course Title

Co-Op Ed Experience in OSEH

Subject code	Course Number	Academic Level
OSEH	400	Undergraduate

#### Course Description

Co-Op Ed Experience in OSEH

## OSEH410 - Safety and Hygiene Management

### Course Information

#### Course Title

Safety and Hygiene Management

Subject code	Course Number	Academic Level
OSEH	410	Undergraduate

#### Course Description

Principles and practices of occupational safety and environmental health management. Includes the development of safety objectives and policy, evaluation and management of risk, and program implementation and evaluation. Offered annually. Prereq: OSEH 220 and 320 or permission of instructor.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

OSEH 220 and OSEH 320 or instructor permission

#### Complete ALL of the following Courses:

- OSEH220 - Legal Aspects Environmental Safety
- OSEH320 - Safety Engineering Principles

**Additional Comments:**

## OSEH422 - Environmental & Industrial Health II - Physical Hazards

### Course Information

#### Course Title

Environmental & Industrial Health II - Physical Hazards

Subject code	Course Number	Academic Level
OSEH	422	Undergraduate

### Course Description

Fundamental theory and methods used in the anticipation, recognition, evaluation and control of the physical hazards of noise, ionizing/nonionizing radiation, illumination, thermal stress, local exhaust ventilation, and dilution ventilation. Covers regulatory standards and control methods. Prereq: OSEH 120, MATH 101 or 151 or 160 or 161 and PHYS 103 or 104 or 131, or permission of instructor.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

OSEH 120 and MATH 101 or MATH 151 or MATH 160 or MATH 161 and PHYS 103 or PHYS 104 or PHYS 131, or instructor permission

#### Complete ALL of the following Courses:

- OSEH120 - Fundamentals of Safety, Health, Environmental Issues
- MATH101 - College Algebra  
OR MATH151 - Calculus for Management  
OR MATH160 - Precalculus  
OR MATH161 - Calculus 1
- PHYS103 - Elements of Physics  
OR PHYS104 - Applied Physics  
OR PHYS131 - Physics 1 with Algebra

#### Additional Comments:

covered, will be included. Emphasis is placed on leadership and mentorship of OSEH students. Reserved for Senior OSEH majors or by instructor permission.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

Credit Hours Completion (Senior Class Standing)

Earn at least 90 credits

#### Additional Comments:

## OSEH435 - Environmental Health

### Course Information

#### Course Title

Environmental Health

Subject code	Course Number	Academic Level
OSEH	435	Undergraduate

### Course Description

Environmental health review of scientific and technical foundations, with an examination of problems, regulations and control strategies. Covers identification of pollution sources, evaluation strategies, engineering controls, federal and state regulatory and permitting processes. Emphasis is on practical information needed by environmental health professionals to resolve issues affecting industry. Prereq: OSEH 321 or ENVI 330 or permission of instructor.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

OSEH 321 or ENVI 330

#### Complete ANY of the following Courses:

- OSEH321 - Environmental & Industrial Hygiene I - Chemical and Biological Hazards
- ENVI330 - Environmental Statistics & Risk Assessment

Or must have permission of instructor.

#### Additional Comments:

## OSEH430 - Topics in Occupational Safety & Environmental Health

### Course Information

#### Course Title

Topics in Occupational Safety & Environmental Health

Subject code	Course Number	Academic Level
OSEH	430	Undergraduate

### Course Description

A review of industry specific hazards and operations related to Occupational Safety and Environmental Health. Topics vary according to the needs and interest of students involved. The course is intended to build on basic safety management concepts and an understanding of how these concepts are applied in specific sectors. Challenges and specific regulatory requirements, which may be unique to the business sectors

## OSEH440 - Internship

### Course Information

Course Title

Internship

Subject code	Course Number	Academic Level
OSEH	440	Undergraduate

#### Course Description

Students work full-time for nine weeks or more under the direct supervision of an OSEH professional in industry, insurance, government agencies or other approved location. University supervision, seminars and evaluation are provided. Students experience problems, practices and principles in the management of occupational safety and/or industrial hygiene programs. To be taken twice, concurrently or consecutively, with increased work and research responsibilities. Prereq: senior OSEH majors and permission of OSEH coordinator.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

Credit Hours Completion (Senior Class Standing)

**Earn at least 90 credits**

#### Additional Comments:

#### Degree/Major/Field of Study Restrictions

##### Type

Prerequisite

OSEH Major Only and Permission

**Must be an OSEH major and have permission**

Credit Hours Completion (Senior Class Standing)

**Earn at least 90 credits**

#### Additional Comments:

## OSEH479 - Experimental

### Course Information

Course Title

Experimental

Subject code	Course Number	Academic Level
OSEH	479	Undergraduate

#### Course Description

Experimental

## OSEH489 - Honors Course

### Course Information

Course Title

Honors Course

Subject code	Course Number	Academic Level
OSEH	489	Undergraduate

#### Course Description

Preparation of honors thesis proposal. For the definition of honors course and student eligibility, refer to the departmental honors section of this catalog. EDTE, AETM and OSEH majors may enroll in the Department of Applied Engineering, Safety & Technology honors program. Contact the department office for guidelines and an application.

## OSEH499 - Departmental Honors

### Course Information

Course Title

Departmental Honors

Subject code	Course Number	Academic Level
OSEH	499	Undergraduate

## Art & Design Department

The Department of Art & Design is an accredited institutional member of the National Association of Schools of Art and Design and offers four baccalaureate-degree programs: the Bachelor of Arts in art (B.A.), the Bachelor of Fine Arts in art (B.F.A.), the Bachelor of Design in interactive and graphic design (B.Des.) and the Bachelor of Science in art education (B.S.Ed.). The recommended course sequence for the B.A., B.F.A. and B.S.E. are similar during the first two years so that any change among these three degree programs in the department will not result in loss of time or credits.

Liberal arts, art education and fine arts degree programs are designed to offer the flexibility needed to meet the unique needs of each student. To lend authenticity to this idea, each student, with the help of an advisor, assumes much of the responsibility for determining their program of study.

B.A., B.Des. and B.F.A. art students must maintain a minimum grade point average of 2.0 in their major, while B.S.Ed. students must maintain a minimum GPA of 3.0 overall.

The B.A. program in art provides a sound, broad-based educational foundation which, to a considerable extent, can be individually tailored to meet the specific educational goals of each student.

The B.S.Ed. in art education program is designed for students who aspire to become art teachers. Upon completing this program, students are certified to teach art at both the elementary and secondary levels in the public and private schools of Pennsylvania.

The B.Des. in interactive and graphic design program provides greater depth and focus in interactive and graphic design. This credential accurately reflects the intensive design educational experiences embedded in this professional study of interactive and graphic design. This degree clearly communicates to employers the concentrated professional skills and attributes of graduates from this program.

The B.F.A. program offers greater depth in art studio and is the professional studies program designed for persons who either intend to become self-employed artists, or graphic designers who wish to further their education in graduate school programs in studio art. Additionally, students may combine the B.F.A. degree with teaching certification.

The Department of Art & Design encourages highly motivated students to participate in internship and cooperative education opportunities that exist in both the public and private sectors. These opportunities are described in the Special Academic Opportunities section of this catalog.

Applicants for the B.F.A. in art, B.A. in art or the B.S.Ed. in art education programs, including transfer applications, must submit an art portfolio that should include a variety of the student's best artwork. Ten to 15 pieces will be requested in total, with at least two drawings from direct observation. Applicants for the B.Des. in interactive and graphic design are to submit a design review. For this degree the applicants may either complete three design projects or submit a design portfolio. The design portfolio should include 10-15 pieces that show design thinking. The works can be in any medium, be it computer generated, hand drawn or physically built. No original work will be accepted. There will be no in-person reviews. Portfolio deadlines are the first Friday of the month.

FACULTY LIST
<b>Bruntse, Line;</b> Associate Professor College of Arts, Humanities and Social Sciences B.F.A., Indiana University of Pennsylvania, 1995; M.F.A., University of Massachusetts, 1999
<b>Filippone, Christine;</b> Professor College of Arts, Humanities and Social Sciences B.S., The Pennsylvania State University, 1989; M.A., Ibid., 1994; Ph.D., Rutgers University, 2009
<b>Frey, Dorothy;</b> Assistant Professor College of Arts, Humanities and Social Sciences B.F.A., Millersville University; M.F.A., American University, 2002
<b>Frischkorn, Shauna;</b> Professor College of Arts, Humanities and Social Sciences B.A., Millersville University, 1983; M.A., Regent University, 1986; M.F.A., SUNY-Buffalo, 1998
<b>Gates, Leslie;</b> Professor College of Arts, Humanities and Social Sciences B.S.Ed., Millersville University, 2003; M.A., Shepherd University, 2006; Ph.D., University of Maryland, 2011
<b>Leitzke, Heidi;</b> Associate Professor College of Arts, Humanities and Social Sciences B.A., American University, 2000; B.A., Chautauqua School of Art, 2002; B.A., Anderson University, 2002; M.F.A., Western Carolina University, 2006
<b>Mata, Nancy;</b> Associate Professor College of Arts, Humanities and Social Sciences B.F.A., West Chester University, 1992; M.A., Syracuse University, 2000; M.F.A., Temple University/ Tyler School of Art, 2002
<b>McDonah, Becky;</b> Professor College of Arts, Humanities and Social Sciences B.A., University of Wisconsin-Lacrosse, 1995; M.F.A., Arizona State University, 2000
<b>Pannafino, James;</b> Professor College of Arts, Humanities and Social Sciences B.F.A., Kutztown University, 1998; M.F.A., Rochester Institute of Technology, 2004
<b>Robinson-Lawrence, Jeri;</b> Professor College of Arts, Humanities and Social Sciences B.F.A., SUNY At Purchase, 1986; M.F.A., The School of the Art Institute of Chicago, 1988
<b>Schuller, Brant;</b> Professor College of Arts, Humanities and Social Sciences B.F.A., Cleveland Institute of Art, 1990; M.F.A., The Pennsylvania State University, 1992
<b>Sigel, Deborah;</b> Professor College of Arts, Humanities and Social Sciences B.A., Carleton College, 1986; M.F.A., Cranbrook Academy of Art, 1991

## Programs

### Art Education, Post-Baccalaureate Certification

#### Overview

For post-baccalaureate information please see the "Certification" section of the Graduate Course Catalog.

### Curriculum

#### Simple Requisites

**Advanced Professional Studies - Post-Bacc Cert (6 credits)**

#### Type

Completion Requirement

## Requirements

### Fulfill ALL of the following requirements:

Course Requirements for APS: Foundations Courses  
(6 credits)

#### Complete at least 1 of the following:

Option 1. Foundations Graduate Level (6 credits)

#### Complete ALL of the following Courses:

- EDFN590 - Social Foundation of Educ
- EDFN545 - Advanced Educational Psychology

OR

Option 2. Foundations Undergraduate Level (6 credits)

#### Complete ALL of the following Courses:

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

## APS Status

Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

## Additional Comments:

## Art Education, Post-Baccalaureate Certification (60 credits)

### Type

Completion Requirement

## Requirements

### Fulfill ALL of the following requirements:

Required Art Courses (24 credits)

### Fulfill ALL of the following requirements:

## Required Courses (9 credits)

### Complete ALL of the following Courses:

- ART133 - Drawing 1
- ART233 - Drawing 2
- ART142 - 2D Design

AND

## 3D Design or 3D Digital Design (3 credits)

### Complete at least 1 of the following courses:

- ART242 - 3D Design
- DESN243 - Creativity, Innovation & Human-Centered Design Thinking

AND

## Ceramics: Handbuilding or Ceramics: Wheel Throwing (3 credits)

### Complete at least 1 of the following courses:

- ART295 - Ceramics:Hand Building
- ART296 - Ceramics:Wheel Throwing

AND

## Painting I (3 credits)

### Complete at least 1 of the following courses:

- ART352 - Painting 1
- ART584 - Intro Studio Art:

To use the course ART584 to meet this requirement, ART584 must have been taken with the topic "Painting".

AND

## Survey Printmaking (3 credits)

### Complete at least 1 of the following courses:

- ART361 - Survey Printmaking 1
- ART584 - Intro Studio Art:

To use the course ART584 to meet this requirement, ART584 must have been taken with the topic "Printmaking".

— AND —

Sculpture I or Fine Art Metals I (3 credits)

**Complete at least 1 of the following courses:**

- ART282 - Sculpture 1
- ART291 - Intro: Fine Art Metals/Jewelry

— AND —

Required Art History Courses

**Earn at least 12 credits from the following:**

- ART202 - Survey of Art History 1: Prehistoric to c 1400
- ART203 - Survey Art History 2: 1400 through 20th Century
- ART301 - The Ancient World
- ART302 - The Italian Renaissance
- ART303 - The 19th Century
- ART304 - The 20th Century
- ART305 - Women in Art
- ART313 - Art in America
- ART403 - Northern Renaissance  
OR ART403H - Hnrs:Northern Renaissance
- ART404 - Contemporary Movements in Art
- ART588 - Art Hist Top:
- ART589 - Topics In Art History
- DESN307 - Visual Communication Design History  
OR DESN307H - Hon: Visual Communication Design History

— AND —

Additional Studio Courses (15 credits)

**Earn at least 15 credits from the following:**

- ART333 - Drawing 3
- ART433 - Drawing 4
- ART533 - Drawing
- ART534 - Drawing
- ART345 - Introduction to Computer Art  
OR ART345H - Hon: Introduction to Computer Art
- ART445 - Advanced Computer Art

- DESN240 - Typography I
- DESN244 - Typography 2
- DESN344 - Visual Communication and Graphics Design 1  
OR DESN344H - H: Visual Communication and Graphics Design 1
- DESN346 - Intro to Computers in Design
- DESN375 - Illustration
- DESN444 - Vis Comm and Graphcs Design 2
- DESN446 - Advanced Computers In Design
- ART354 - Painting 2  
OR ART354H - H: Painting 2
- ART452 - Painting 3
- ART454 - Painting 4
- ART552 - Painting
- ART554 - Painting
- ART353 - Watercolor 1
- ART355 - Watercolor 2
- ART363 - Lithography Printmaking 1
- ART364 - Relief Printmaking 1
- ART365 - Intaglio Printmaking 1
- ART367 - Water Based Silkscreen 1
- ART464 - Relief Printmaking 2
- ART465 - Intaglio Printmaking 2
- ART467 - Water Based Silkscreen 2
- ART468 - Mixed Media Printmaking
- ART282 - Sculpture 1
- ART382 - Sculpture 2
- ART482 - Sculpture 3
- ART167 - Experimental Photography
- ART306 - Intro Photography: Darkroom  
OR ART306H - H: Intro Photography: Darkroom
- ART406 - Interm Photography: Darkroom
- ART295 - Ceramics:Hand Building
- ART296 - Ceramics:Wheel Throwing
- ART297 - Ceramics 2  
OR ART297H - Hon: Ceramics 2
- ART396 - Ceramics 3
- ART497 - Ceramics 4  
OR ART497H - H: Ceramics 4
- ART596 - Ceramics  
OR ART596H - Hon: Ceramics
- ART597 - Ceramics
- ART291 - Intro: Fine Art Metals/Jewelry
- ART391 - Fine Art Metals: Casting
- ART491 - Fine Art Metals: Form Emphasis

- ART492 - Advancd Fine Art Metal/Jewelry
- ART591 - Fine Art Metals
- ART592 - Fine Art Metals
- ART486 - Sp Topics:

Select an additional 15 credits of studio courses from any of the studio areas: Drawing; Graphic & Interactive Design; Painting & Watercolor; Printmaking; Sculpture; Photography; Ceramics; Fine Art Metals or Topics in Art Studio Courses in excess of the 15 credit minimum will apply as additional studio courses and will count toward major credits and major GPA. Speak to your advisor about options and [view the web schedule of courses](#) in the ART department.

AND

Required Art Education Courses (9 credits)

**Fulfill ALL of the following requirements:**

Introduction to Art Education or Art Education Theory and Practice (3 credits)

**Complete at least 1 of the following courses:**

- ART221 - Introduction to Art Education
- ART522 - Art Education Theory and Practice

AND

Meaningful Art Education or Art Education Curriculum and Assessment (3 credits)

**Complete at least 1 of the following courses:**

- ART324 - Designing Meaningful Art Education Experiences
- ART524 - Art Education Curriculum and Assessment

AND

Methodology and Pedagogy of Art (3 credits)

**Complete at least 1 of the following courses:**

- ART325 - Methodology and Pedagogy of Art
- ART525 - Art Education Methods III

**Additional Comments:**

**Professional Education - Certification (33 credits)**

**Type**

Completion Requirement

Foundations Bloc

**Fulfill ALL of the following requirements:**

Introduction to Art Education or Art Education Theory and Practice (3 credits)

**Complete at least 1 of the following courses:**

- ART221 - Introduction to Art Education
- ART522 - Art Education Theory and Practice

AND

Meaningful Art Education or Art Education Curriculum and Assessment (3 credits)

**Complete at least 1 of the following courses:**

- ART324 - Designing Meaningful Art Education Experiences
- ART524 - Art Education Curriculum and Assessment

AND

Foundations of Modern Education (3 credits)

**Complete at least 1 of the following courses:**

- EDFN590 - Social Foundation of Educ
- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education

AND

Psychological Foundations of Teaching (3 credits)

**Complete at least 1 of the following courses:**

- EDFN545 - Advanced Educational Psychology
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

We recommend 590 and 545 for Post-Bacc students. These courses each require 35 hours field placement at an urban school. Offered in the evenings Fall and Spring. Also offered in Summer Session. If enrolling in [EDFN211 Foundations Modern Education/241](#) and please register for both courses in the same block.

#### APS - Professional Bloc

##### Fulfill ALL of the following requirements:

Content Area Literacy for Diverse Classrooms (3 credits)

##### Complete at least 1 of the following courses:

- EDSE340 - Content Area Literacy for Diverse Classrooms
- EDSE540 - Content Area Literacy Diverse Class

— AND —

Secondary Students w/ Disabilities in Inclusive Settings (3 credits)

##### Complete at least 1 of the following courses:

- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings
- SPED546 - Secondary Students w/ Disabilities Inclusive Settings

— AND —

Methodology and Pedagogy for Art (3 credits)

##### Complete at least 1 of the following courses:

- ART325 - Methodology and Pedagogy of Art
- ART525 - Art Education Methods III

Students must meet APS eligibility requirements prior to registering. Course Appropriate PRAXIS II Exam should be taken after Professional Bloc and but prior to Student Teaching.

#### Student Teaching Seminar (3 credits)

##### Complete ALL of the following Courses:

- EDSE471 - Student Teaching Seminar

File your Intent to Student Teach Card one year prior to the beginning of the semester in which you wish to Student Teach. [Access the Student teaching Website](#)

#### Student Teaching Semester (9 credits)

##### Complete ALL of the following Courses:

- EDAR461 - Elem Stu Tch: Art
- EDAR462 - Secon Stu Tch: Art

Students must meet APS eligibility requirements prior to registering. Submit your Teacher Certification Packet 90 days prior to completion of your certification program.

[Access the packet on the Certification Website.](#)

#### Additional Comments:

## Art Education, M.Ed.

### Overview

Graduate study in art education is designed to meet the specific needs of art education graduates, practicing art teachers who need graduate credits to meet state mandates, and art teachers who wish to conduct advanced independent study or research in art, art education, art history or related fields.

In addition to the M.Ed., the art department offers a certification program in Supervision of Art Education; see the *Supervisory Certification Program* section for requirements.

### Admission Requirements

Those persons applying for admission to the graduate studies program of Millersville University who wish to pursue a program leading to a master's degree in art education must possess Pennsylvania Instructional I Certification in art education or be enrolled simultaneously as a post-baccalaureate certification student.

Applicants who meet the requirements for admission through the Office of Graduate Studies, as specified in the *Admission Requirements* section, will be reviewed by the art department graduate admission committee, which will use the following to formulate a recommendation of probational admission, regular admission or admission denied:

1. Undergraduate and post-baccalaureate grades and grade averages (minimum: 3.0 cumulative; 3.25 in art and art education courses);
2. Three letters of recommendation from persons familiar with the applicant's education and teaching experience (including the applicant's immediate supervisor);
3. Evidence of artistic expression (portfolio review); applicants who completed an undergraduate degree

in art at Millersville University are not required to submit a portfolio for review;

- 4. Professional goals as stated by the applicant; and,
- 5. If the department recommends probational admission, the conditions shall be clearly stipulated (e.g., the successful completion of a designated course (or courses) either at the graduate or undergraduate level).

## Degree Requirements

A program of study will be developed for each student based upon the individual's specific academic background, skills and educational aspirations.

Each student is required to complete the professional studies core, the art education core, the comprehensive studies program and either a thesis or a documented study that represents original investigation relating to art education.

Each student will select work in this program in conjunction with the other M.Ed. requirements. The comprehensive studies courses should provide a direction to the student's professional career.

The concepts and skills necessary for teaching are emphasized, as required for the elementary or secondary art classroom, or in other art programs such as special education and adult education.

As part of the comprehensive studies program, the student, in conference with an advisor, may select studies in art studio and art history as well as other graduate studies (e.g., special education, psychology, professional education, literature, and technology and innovation).

## Degree Candidacy

See the *Degree Candidacy Review* section.

After the student has completed no fewer than 6 and no more than 15 s.h. in the art department, an evaluation shall be conducted by the student's graduate committee to determine his or her qualifications to become a degree candidate. This evaluation shall be based on:

- 1. Student's performance in graduate study.
- 2. Recommendation of the art department graduate faculty.
- 3. Completion of the program's Student Learning Objective Survey.

## Curriculum

### Simple Requisites

#### MED Professional Core Requirements (9 credits)

##### Type

Completion Requirement

Professional Core

##### Complete ALL of the following Courses:

- EDFN601 - Research Methods

Med Core Option (9 credits)

##### Complete at least 2 of the following:

Option 1. Psychological Core (3 credits)

##### Earn at least 3 credits from the following:

- PSYC540 - Applied Behavior Analysis in a MTSS
- PSYC526 - Advanced Adolescent Psychology
- EDFN545 - Advanced Educational Psychology

OR

Option 2. Social Foundations Core (3 credits)

##### Earn at least 3 credits from the following:

- EDFN511 - Comparative Education
- EDFN590 - Social Foundation of Educ
- EDFN603 - Philosophy of Education

OR

Option 3. Specialty Area Core (3 credits)

##### Earn at least 3 credits from the following:

- ACTE630 - Current Technology for Online Instruction
- EDTE690 - Integrative Learning Experience Strategy
- EDSU701 - Administrative Supervision
- EDLD610 - Theory and Organizational Behavior
- EDUC563 - Linguistic and Cultural Diversity in the Classroom

##### Complete ALL of the following Courses:

- ART699 - Thesis

AND

Option 2. Non-thesis Research Option

##### Fulfill ALL of the following requirements:

Research Project (3 credits)

##### Complete ALL of the following Courses:

- ART678 - Documented Study

AND

Additional Art Elective (3 credits)

##### Fulfill ANY of the following requirements:

Option 1

##### Complete ALL of the following Courses:

- AENG586 - Special Topics:

OR

Option 2

##### Complete ANY of the following Course Sets:

- Any 5-level ART course(s)
- Any 6-level ART course(s)

### Additional Comments:

## Art History Minor

### Overview

The Art History minor is designed for the student who wishes to pursue courses in art history in addition to those in his/her major field. Students learn the significance and influence of art history in historical works and in contemporary works. Classes range from pre-historic, medieval, and Renaissance art to the 19<sup>th</sup> and 20<sup>th</sup> centuries as well as contemporary movements in art. Students will be encouraged to participate in study abroad, internships, and extracurricular activities. These experiences will allow students to gain valuable real-world knowledge that lasts long after graduation.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.

2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

### Minor in Art History (18 credits)

#### Type

#### Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

Required Art History Survey Course (3 credits)

#### Complete at least 1 of the following courses:

- ART202 - Survey of Art History 1: Prehistoric to c 1400
- ART203 - Survey Art History 2: 1400 through 20th Century

AND

Art History Minor Electives (15 credits)

#### Complete at least 5 of the following:

Option 1. History & Aesthetics Photo (3 credits)

#### Complete ALL of the following Courses:

- ART201 - History and Aesthetics of Photography
- OR ART201H - H:History and Aesthetics of Photography

OR

Option 2. Ancient World (3 credits)

#### Complete ALL of the following Courses:

- ART301 - The Ancient World

OR

Option 3. Italian Renaissance (3 credits)

#### Complete ALL of the following Courses:

- ART302 - The Italian Renaissance

OR

Option 4. 19th Century Art (3 credits)

#### Complete ALL of the following Courses:

- ART304 - The 20th Century

OR

Option 6. Women in Art (3 credits)

#### Complete ALL of the following Courses:

- ART305 - Women in Art

OR

Option 7. Visual Communication History (3 credits)

#### Complete ALL of the following Courses:

- DESN307 - Visual Communication Design History
- OR DESN307H - Hon: Visual Communication Design History

OR

Option 8. Art in America (3 credits)

#### Complete ALL of the following Courses:

- ART313 - Art in America

OR

Option 9. Northern Renaissance (3 credits)

**Complete ALL of the following Courses:**

- ART403 - Northern Renaissance  
OR ART403H - Hnrs:Northern Renaissance

OR

Option 10. Contemporary Movements (3 credits)

**Complete ALL of the following Courses:**

- ART404 - Contemporary Movements in Art

OR

Option 11. Topics in Art History (3 credits)

**Complete at least 1 of the following courses:**

- ART588 - Art Hist Top:
- ART589 - Topics In Art History

OR

Option 12. Topics in Art History (3 credits)

**Complete at least 1 of the following courses:**

- ART589 - Topics In Art History
- ART588 - Art Hist Top:

**Additional Comments:**

## Fine Art Metals Minor

### Overview

The Fine Art Metals minor gives students an opportunity to develop traditional and contemporary metals and jewelry design skills, conceptual strategies, and problem solving skills in a creative environment. Students will develop a personal design aesthetic and vocabulary through investigation of traditional metal techniques and material processes while creating small sculpture and jewelry.

## Curriculum

## Photography Minor

### Overview

The Photography minor is designed for the student who wishes to pursue courses in photography in addition to those in his/ her major field. Photo minors will gain a skill set that will not only complement their major but will also add photographic proficiency to their post-academic careers. Since almost every business uses photography in some way, the possibilities for employment are extremely diverse. The Photography minor offers a flexible curriculum that will introduce students to a range of practical experiences in the digital lab, darkroom, studio, and working with people. It will also encourage students to think critically and understand the complexity of photographic images. Students will be encouraged to participate in study abroad, internships, and extracurricular activities. These experiences will allow students to gain valuable real-world knowledge that lasts long after graduation.

Art, B.A.

Overview

This BA in Art is a traditional liberal arts degree, which allows students to develop intellectual and creative strengths and plan for future careers within the visual arts and creative fields. Individuals in this degree program develop their skills and knowledge through selected courses in general education, studio art, and art history. Students can explore a wide range of minors including Business (Marketing), Industry and Technology (Printing Industry), and Psychology.

AND

Other Art Electives (18 credits)

**Earn at least 18 credits from the following:**

- Any ART course(s)

- Any DESN course(s)

**Note:** This requirement may not be satisfied with ART100 Art in Culture or ART141.

ART electives needed to total 48 in the major. Any ART courses taken in excess of 48 will count toward major GPA.

**Additional Comments:**

## Interactive and Graphic Design, B.Des.

### Overview

The department of Art & Design's newest degree, a Bachelor of Design (B.Des.) in Interactive and Graphic Design, was created to keep students on the cusp of this constantly changing and exciting discipline. This program ensures that students are able to keep up with current trends and technological demands in the design industry. Your study will be grounded in courses about design theory, skills, application, and analysis. From there, you can pursue your interests in experience design, kinetic design, web design, basic coding, interactive design, graphic design, and more. The B.Des. in Interactive & Graphic Design gives our students the skills that most employers are now seeking within the design industry.

Additional Comments:

Art, B.F.A.

Overview

Due to the extensive preparation, this degree is considered the "professional" art degree and prepares students to pursue a career or establish their own businesses in art. Graduates may sell their work through various art and craft show circuits, open their own galleries, accept freelance work for clients, or start their own graphic design agencies. Additionally, this program prepares students who wish to continue their education and acquire M.A. (Master of

Art) or M.F.A (Master of Fine Art).

Additional Comments:

Art Education, B.S.Ed.

Overview

Millersville University's Art Education program will cultivate your passion for art and prepare you to share that passion with others. The program, which culminates in a Bachelor of Science in Education degree, is designed for students who aspire to become art teachers. Upon completion, you will be eligible for certification to teach students grades K-12 in the state of Pennsylvania. With Pennsylvania's high standards for teacher preparation, graduates from MU's Art Education program are recruited both regionally and nationally.

## ART100 - Art in Culture

### Course Information

Course Title  
Art in Culture

Subject code	Course Number	Academic Level
ART	100	Undergraduate

#### Course Description

A general study of the role of historical and contemporary art in society. Critical analysis of art that addresses the following: What is art? Why is it made? How is it made? What is the context in which it was created? An understanding of the

importance of art and of the creative process. Does not count towards any art major. Offered fall, spring, periodically summer.

General Education Labels  
G1

## ART100H - Hon: Art in Culture

### Course Information

Course Title  
Hon: Art in Culture

Subject code	Course Number	Academic Level
ART	100H	Undergraduate

**General Education Labels**  
G1

## ART128 - Art Integration

### Course Information

**Course Title**  
Art Integration

Subject code	Course Number	Academic Level
ART	128	Undergraduate

#### Course Description

This course provides education majors with a theoretical and practical knowledge base about art and its role in learning. Topics to be explored include: art vocabulary; children's artistic development; art resources, media, materials, tools and techniques; and how these elements are appropriately and authentically incorporated into other content areas. This will provide the prospective educator with the fundamentals for developing an interdisciplinary approach to teaching art across the curriculum.

**General Education Labels**  
G1

## ART133 - Drawing 1

### Course Information

**Course Title**  
Drawing 1

Subject code	Course Number	Academic Level
ART	133	Undergraduate

#### Course Description

Introduces drawing as artistic expression as well as a form of nonverbal communication. Traditional and contemporary perspectives. Emphasis on original creative solutions to visual problems. Students explore artistic composition employing various drawing media and techniques. Includes criticism, analysis and evaluation. For both the non-art major and the art major. Offered in fall, spring and periodically in summer.

**General Education Labels**  
G1

## ART140 - Digital Foundations of Art

### Course Information

**Course Title**  
Digital Foundations of Art

Subject code	Course Number	Academic Level
ART	140	Undergraduate

#### Course Description

An introductory studio course that allows for investigation of contemporary digital media methods used by artists and designers. Image making will utilize raster, vector, and interactive techniques. Primary course emphasis is on creative problem solving followed by technical skill building while using the computer as a tool.

**General Education Labels**  
G1

## ART142 - 2D Design

### Course Information

**Course Title**  
2D Design

Subject code	Course Number	Academic Level
ART	142	Undergraduate

#### Course Description

Introduces two-dimensional design and composition, applicable to all art forms, in which students seek original, creative solutions to problems. Design principles and methods are employed as students learn language and visual communications techniques. Artistic production, criticism, analysis and evaluation are central to this course. For both non-art and art majors. Offered in fall, spring.

**General Education Labels**  
G1

## ART167 - Experimental Photography

### Course Information

**Course Title**  
Experimental Photography

Subject code	Course Number	Academic Level
ART	167	Undergraduate

Course Description

Nontraditional, historical and hybrid photographic processes are explored, including pin-hole cameras, photograms and antique processes. Covers criticism, history, analysis and mounting prints for display. Students do not need a camera. Offered fall.

Course Information

Course Title

Survey Art History 2: 1400 through 20th Century

Subject code	Course Number	Academic Level
ART	203	Undergraduate

Course Description

This course is an introduction to art and to the discipline of art history, beginning with the early Italian Renaissance period through the 20th century. The course focuses on the functions and meanings of individual works of art, visual culture, and art history as a discipline. It is designed as an introduction to art history for both non-art and art majors. Offered fall, spring.

General Education Labels

G1

ART221 - Introduction to Art Education

Course Information

Course Title

Introduction to Art Education

Subject code	Course Number	Academic Level
ART	221	Undergraduate

Course Description

An overview of art education with particular emphasis on historical and contemporary rationales for teaching art, the identification of authentic assessment practices, and the observation of art instruction and alternative career options through a variety of field experiences. Offered fall, spring. Art majors only.

ART233 - Drawing 2

Course Information

Course Title  
Drawing 2

Subject code	Course Number	Academic Level
ART	233	Undergraduate

Course Description

Fundamental drawing skills are stressed and personal expression is emphasized. A variety of techniques and observational exercises will be used. Working from the figure, short and extended studies will be developed. Offered in fall, spring and periodically in summer. Prereq: ART 133.

Simple Requisites

**Course Prerequisites**

**Type**  
Prerequisite

ART 133

**Complete ALL of the following Courses:**

- ART133 - Drawing 1

**Additional Comments:**

ART242 - 3D Design

Course Information

Course Title  
3D Design

Subject code	Course Number	Academic Level
ART	242	Undergraduate

Course Description

Introduces visual composition as related to organizing and working with three-dimensional space. The student seeks original, creative solutions to visual problems by exploring methods and techniques. Covers fundamental visual grammar and principles. Offered in fall, spring. Prereq: ART 142.

Simple Requisites

**Course Prerequisites**

## ART282 - Sculpture 1

### Course Information

#### Course Title

Sculpture 1

Subject code	Course Number	Academic Level
ART	282	Undergraduate

#### Course Description

An introduction to sculpture as a three-dimensional form of artistic expression, through a variety of sculptural approaches. Covers the critical, the productive, and the evaluative aspects of sculpture as art. Offered fall, spring.

#### General Education Labels

G1

## ART291 - Intro: Fine Art Metals/Jewelry

### Course Information

#### Course Title

Intro: Fine Art Metals/Jewelry

Subject code	Course Number	Academic Level
ART	291	Undergraduate

#### Course Description

Introduces jewelry and metals as a form of artistic expression. The student seeks creative solutions to visual problems while employing various metal working techniques and media. Emphasizes basic techniques of cutting, piercing, soldering, forging, forming and finishes of non-ferrous metals. Critical analysis and evaluation of jewelry and metal art are central to the course. For both art majors and non-art majors. Offered in fall and spring.

#### General Education Labels

G1

## ART295 - Ceramics:Hand Building

### Course Information

#### Course Title

Ceramics:Hand Building

Subject code	Course Number	Academic Level
ART	295	Undergraduate

#### Course Description

Introduces ceramic materials and the processes utilizing handbuilding and sculpting methods. Emphasis on the productive, critical, cultural and historical aspects of ceramics as a form of artistic expression. Students seek creative solutions to visual problems. Offered fall, spring.

#### General Education Labels

G1

## ART296 - Ceramics:Wheel Throwing

### Course Information

#### Course Title

Ceramics:Wheel Throwing

Subject code	Course Number	Academic Level
ART	296	Undergraduate

#### Course Description

Introduces ceramic materials and processes utilizing the potters wheel. Emphasis on the productive, critical, cultural and historical aspects of ceramics as a form of artistic expression. Wheel throwing and glazing techniques are employed as students seek original creative solutions relating to function and aesthetics. For both non-art and art majors.

#### General Education Labels

G1

## ART297 - Ceramics 2

### Course Information

#### Course Title

Ceramics 2

Subject code	Course Number	Academic Level
ART	297	Undergraduate

#### Course Description

Development of ceramic materials and processes as a means of self expression. Introduces glaze preparation, experimentation and basic glaze chemistry and firing techniques. Prereq: ART 295 or 296.

#### Simple Requisites

#### Course Prerequisites

#### Type

Prerequisite

ART 295 or ART 296

Complete ANY of the following Courses:

- ART295 - Ceramics:Hand Building
- ART296 - Ceramics:Wheel Throwing

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

##### Additional Comments:

## ART305 - Women in Art

### Course Information

Course Title

Women in Art

Subject code	Course Number	Academic Level
ART	305	Undergraduate

#### Course Description

This course will address ways in which gender issues have affected the visual arts, with an emphasis on art and culture since World War II. This class explores the role of the visual in constructing ideas of "woman" and the ways in which women artists have addressed these constructions in their works and in their lives. Students will critically examine the ways Western culture has defined art and artists in gendered terms, and will extend this study to contemporary art practice globally with attention to intersectionality and difference. Through weekly readings, class discussions, written assignments, oral presentations, and an exam, students will consider how gender is relevant to the creation and study of art and culture. This course is designed to be cross-listed within the Women and Gender Studies Program. No prior knowledge of art or art history is necessary.

### Course Information

#### Course Title

Relief Printmaking 1

Subject code	Course Number	Academic Level
ART	364	Undergraduate

#### Course Description

Explores multiple approaches to creating relief prints. Starts at an introductory level technically and builds into an intermediate understanding and working knowledge of the process. Covers linocut, alternative relief matrices, color reduction and multiple block relief printing. Offered periodically. Prereq: ART 133, 142

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ART 142 and ART 133

**Complete ALL of the following Courses:**

- ART142 - 2D Design
- ART133 - Drawing 1

**Additional Comments:**

## ART365 - Intaglio Printmaking 1

### Course Information

**Course Title**

Intaglio Printmaking 1

Subject code	Course Number	Academic Level
ART	365	Undergraduate

**Course Description**

Explores multiple approaches to creating intaglio prints. Starts at an introductory level technically and builds with each new process into an intermediate understanding and working knowledge of the process. The course will cover drypoint etching (hardground/ softground), aquatint and sugar lift, white ground, toner transfers, spitbite, and will introduce color printing (ala poupee/monoprinting). Offered periodically. Prereq: ART 133, 142.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

ART 142 and ART 133

**Complete ALL of the following Courses:**

- ART142 - 2D Design
- ART133 - Drawing 1

**Additional Comments:**

## ART367 - Water Based Silkscreen 1

### Course Information

**Course Title**

Water Based Silkscreen 1

Subject code	Course Number	Academic Level
ART	367	Undergraduate

**Course Description**

Explores multiple approaches to creating water-based silkscreen prints. Starts at an introductory level technically and builds with each new process into an intermediate understanding and working knowledge of the process. Covers basic to intermediate stencil preparation including photographic processes. Offered periodically. Prereq: ART 133, 142.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

ART 142 and ART 133

**Complete ALL of the following Courses:**

- ART142 - 2D Design
- ART133 - Drawing 1

**Additional Comments:**

## ART368 - Collage

### Course Information

**Course Title**

Collage

Subject code	Course Number	Academic Level
ART	368	Undergraduate

**Course Description**

Offers a historical look at the last 100 years of collage as a media for fine art. Highlights of its history will be discussed and followed by a hands-on application of the ideas and imagery that it encompasses. Offered infrequently. Prereq: ART 133, 142.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

ART 133 and ART 142

**Complete ALL of the following Courses:**

- ART133 - Drawing 1
- ART142 - 2D Design

**Additional Comments:**

## ART376 - Intro to Photo: Digital

### Course Information

#### Course Title

Intro to Photo: Digital

Subject code	Course Number	Academic Level
ART	376	Undergraduate

#### Course Description

Beginning digital course that introduces the basic skills and concepts associated with digital photography as used by contemporary visual artists and communicators. Covers cameras, computer hardware, photo-editing software, printing, file management, criticism, history and analysis. Students must have a digital single-lens reflex camera.

Experimental

Subject code	Course Number	Academic Level
ART	379	Undergraduate

#### Course Description

Experimental

## ART382 - Sculpture 2

### Course Information

#### Course Title

Sculpture 2

Subject code	Course Number	Academic Level
ART	382	Undergraduate

#### Course Description

Emphasis on continued development of individual artistic expression, with emphasis on contemporary sculptural approaches. Offered fall, spring. Prereq: ART 282.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ART 282

**Complete ALL of the following Courses:**

- ART282 - Sculpture 1

**Additional Comments:**

## ART391 - Fine Art Metals: Casting

### Course Information

#### Course Title

Fine Art Metals: Casting

Subject code	Course Number	Academic Level
ART	391	Undergraduate

#### Course Description

Continued development of individual artistic expression in jewelry and metals with the emphasis on artistic inventiveness and personal style. Covers lost wax casting for jewelry scale work, alternative casting methods, mold making, chain making and marriage of metals. Critical analysis and evaluation of jewelry and metal art are central to the course. Offered in fall and spring. Prereq: ART 291.

**Additional Comments:**

## ART468 - Mixed Media Printmaking

### Course Information

Course Title

Mixed Media Printmaking

Subject code	Course Number	Academic Level
ART	468	Undergraduate

### Course Description

Explores the strengths of multiple printmaking techniques to create editions of color prints. Utilizes information previously covered in any of the 300-level printmaking courses. Starts at an intermediate technical level and builds into an advanced understanding and working knowledge of the printmaking process. Covers monoprinting, chine colle, collage, relief samples, electrostatic printmaking, solar plate etching, waterless lithography, hand coloring, and color printing. Offered periodically. Prereq: 300-level printmaking course.

### Simple Requisites

### Course Prerequisites

Type

Prerequisite

ART 361 or ART 363 or ART 364 or ART 365 or ART 367

**Complete ANY of the following Courses:**

- ART361 - Survey Printmaking 1
- ART363 - Lithography Printmaking 1
- ART364 - Relief Printmaking 1
- ART365 - Intaglio Printmaking 1
- ART367 - Water Based Silkscreen 1

**Additional Comments:**

## ART469 - Contemp Issues in Printmaking

### Course Information

Course Title

Contemp Issues in Printmaking

Subject code	Course Number	Academic Level
ART	469	Undergraduate

### Course Description

Explores current trends, conceptual applications and contemporary formats surrounding printmaking. Utilizes information previously covered in any of the 300-level printmaking courses as the base for additional techniques and to build a working knowledge of printmaking. Starts at an intermediate technical level and builds into an advanced understanding and working knowledge of the processes. Covers artists books, mail art, nontraditional surfaces, computer applications for traditional prints, mixed media prints, and discusses commercial processes and their application in fine art. Offered infrequently. Prereq: 300-level printmaking course.

Simple Requisites

Course Prerequisites

ART	581	Graduate

#### Course Description

Graduate Art Education Special Topics Course that focuses on one or more topics of current interest not addressed in current curriculum. Topics will vary according to the needs of students and the faculty involved.

## ART582 - Sculpture

### Course Information

#### Course Title

Sculpture

Subject code	Course Number	Academic Level
ART	582	Graduate

#### Course Description

Exploration of experimental techniques in sculpture, development of individual style, and critique skills.

## ART583 - Sculpture

### Course Information

#### Course Title

Sculpture

Subject code	Course Number	Academic Level
ART	583	Graduate

#### Course Description

Exploration of experimental techniques in sculpture, development of individual style, and critique skills.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ART 582

#### Complete ALL of the following Courses:

- ART582 - Sculpture

#### Additional Comments:

## ART579 - Experimental

### Course Information

#### Course Title

Experimental

Subject code	Course Number	Academic Level
ART	579	Graduate

#### Course Description

Experimental

## ART581 - Sp Topics in Art Education

### Course Information

#### Course Title

Sp Topics in Art Education

## ART584 - Intro Studio Art:

### Course Information

#### Course Title

Intro Studio Art:

Subject code	Course Number	Academic Level
ART	584	Graduate

Course Description

Fine Art intro level studio topics course designed for the Post Baccalaureate or Graduate Student. Topics will vary each semester.

ART585 - Intro Studio Art:

Course Information

Course Title

Intro Studio Art:

Subject code	Course Number	Academic Level
ART	585	Graduate

Course Description

Fine Art intro level studio topics course designed for the Post Baccalaureate or Graduate Student. Topics will vary each semester.

ART586 - Topics In Art Education

Course Information

Course Title

Topics In Art Education

Subject code	Course Number	Academic Level
ART	586	Graduate

Course Description

Independent investigation of topic(s) in art education. Prereq: Graduate standing or permission of the instructor.

Simple Requisites

Course Prerequisites

Type

Prerequisite

Graduate Standing or Instructor Permission'

**Must have graduate standing or permission of the instructor.**

Additional Comments:

ART587 - Topics In Art Education

Course Information

Course Title

Topics In Art Education

Subject code	Course Number	Academic Level
ART	587	Graduate

Course Description

Independent investigation of topic(s) in art education. Prereq: Graduate standing or permission of the instructor.

Simple Requisites

Course Prerequisites

Type

Prerequisite

Graduate Standing or Instructor Permission'

**Must have graduate standing or permission of the instructor.**

Additional Comments:

ART588 - Art Hist Top:

Course Information

Course Title

Art Hist Top:

Subject code	Course Number	Academic Level
ART	588	Graduate

Course Description

Independent investigation of topic(s) in art history. Prereq: Graduate standing or permission of the instructor.

Simple Requisites

Course Prerequisites

Type

Prerequisite

Graduate Standing or Instructor Permission'

**Must have graduate standing or permission of the instructor.**

Additional Comments:

ART589 - Topics In Art History

Course Information

Course Title

Topics In Art History

Subject code	Course Number	Academic Level
ART	589	Graduate

Course Description

Independent investigation of topic(s) in art history. Prereq: Graduate standing or permission of the instructor.

Simple Requisites

Course Prerequisites

Type

Prerequisite

Graduate Standing or Instructor Permission'

Must have graduate standing or permission of the instructor.

Additional Comments:

ART591 - Fine Art Metals

Course Information

Course Title  
Fine Art Metals

Subject code	Course Number	Academic Level
ART	591	Graduate

Course Description

Independent investigation of metalsmith development of individual style, and critique skill. Prereq: 9 s.h. of metalsmithing.

Simple Requisites

Course Prerequisites

Type

Prerequisite

Metalsmithing

Earn at least 9 credits

Additional Comments:

ART592 - Fine Art Metals

Course Information

Course Title  
Fine Art Metals

Subject code	Course Number	Academic Level
ART	592	Graduate

Course Description

Independent investigation of metalsmith development of individual style, and critique skill. Prereq: 9 s.h. of metalsmithing.

Simple Requisites

Course Prerequisites

Type

Prerequisite

ART 591

Complete ALL of the following Courses:

- ART591 - Fine Art Metals

Metalsmithing

Earn at least 9 credits

Additional Comments:

ART596 - Ceramics

Course Information

Course Title  
Ceramics

Subject code	Course Number	Academic Level
ART	596	Graduate

Course Description

Independent investigation of ceramics, development of individual style, and critique skills. Prereq: 9 s.h. of ceramics.

Simple Requisites

Course Prerequisites

Type

Prerequisite

Ceramics

Earn at least 9 credits

Additional Comments:

ART596H - Hon: Ceramics

Course Information

Course Title  
Hon: Ceramics

Subject code	Course Number	Academic Level
ART	596H	Graduate

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

Ceramics

Earn at least 9 credits

Additional Comments:

ART597 - Ceramics

Course Information

Course Title  
Ceramics

Subject code	Course Number	Academic Level
ART	597	Graduate

Course Description

Independent investigation of ceramics, development of individual style, and critique skills. Prereq: 9 s.h. of ceramics.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

ART 596 or ART 596H

Complete ANY of the following Courses:

- ART596 - Ceramics
- ART596H - Hon: Ceramics

Ceramics

Earn at least 9 credits

Additional Comments:

ART602 - Qualtve & Arts-Based Rsrch Mth

Course Information

Course Title  
Qualtve & Arts-Based Rsrch Mth

Subject code	Course Number	Academic Level
ART	602	Graduate

Course Description

For graduate students from across the university community whose research questions may best be answered through qualitative research and/or arts-based research methods. This course provides students an opportunity to investigate and consider the applications of a number of qualitative and arts-based research methods to their emerging ideas and designs for conducting research in their respective fields. The emphasis will be on identifying and evaluating prospective research problems and questions, examination of related research literature, and development of a research project proposal. This course is an intermediate level methods class with a prerequisite of EDFN 601 or enrollment in the Expressive Arts certificate program.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

EDFN601

Complete ALL of the following Courses:

- EDFN601 - Research Methods

Or must be enrolled in the Expressive Arts certificate program.

Additional Comments:

ART603 - Assessment in Art Education

Course Information

Course Title  
Assessment in Art Education

Subject code	Course Number	Academic Level
ART	603	Graduate

Course Description

Examine various theories and methods of assessment of why, what, and how to assess art. Students will work together to identify assessment dilemmas present in their classrooms and using texts, each other, and their own experiences, work together to create potential solutions. The aims of this course are to help students build relevant and immediately applicable tools to use in K-12 classrooms and to build a learning community for art educators in which they can explore assessment issues particularly relevant for their subject matter.

## ART633 - Drawing

### Course Information

Course Title

Drawing

Subject code	Course Number	Academic Level
ART	633	Graduate

#### Course Description

Independent investigation of advanced drawing techniques.

Prereq: 9 s.h. of drawing.

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

ART 534
<b>Complete ALL of the following Courses:</b> <ul style="list-style-type: none"><li>ART534 - Drawing</li></ul>
Drawing
Earn at least 9 credits

Additional Comments:

## ART634 - Drawing

### Course Information

Course Title

Drawing

Subject code	Course Number	Academic Level
ART	634	Graduate

#### Course Description

Independent investigation of advanced drawing techniques.

Prereq: 9 s.h. of drawing.

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

ART 633
<b>Complete ALL of the following Courses:</b> <ul style="list-style-type: none"><li>ART633 - Drawing</li></ul>

Drawing
Earn at least 9 credits
Additional Comments:

## ART635 - Drawing

### Course Information

Course Title

Drawing

Subject code	Course Number	Academic Level
ART	635	Graduate

#### Course Description

Independent investigation of advanced drawing techniques.

Prereq: 9 s.h. of drawing.

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

ART 634
<b>Complete ALL of the following Courses:</b> <ul style="list-style-type: none"><li>ART634 - Drawing</li></ul>
Drawing
Earn at least 9 credits

Additional Comments:

## ART641 - Design

### Course Information

Course Title

Design

Subject code	Course Number	Academic Level
ART	641	Graduate

#### Course Description

Independent investigation of design. Prereq: 9 s.h. of design.

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

Design

Earn at least 9 credits

Additional Comments:

ART642 - Design

Course Information

Course Title  
Design

Subject code	Course Number	Academic Level
ART	642	Graduate

Course Description  
Independent investigation of design. Prereq: 9 s.h. of design.

Simple Requisites

Course Prerequisites

Type  
Prerequisite

Design

Earn at least 9 credits

Additional Comments:

ART643 - Design

Course Information

Course Title  
Design

Subject code	Course Number	Academic Level
ART	643	Graduate

Course Description  
Independent investigation of design. Prereq: 9 s.h. of design.

**Course Prerequisites**  
**Type**  
Prerequisite

ART 696

**Complete ALL of the following Courses:**

- ART696 - Ceramics

Ceramics

Earn at least 9 credits

Additional Comments:

A student may petition the Department of Art for a waiver of the 9 s.h. prerequisite.

Additional Comments:

ART699 - Thesis

Course Information

Course Title  
Thesis

Subject code	Course Number	Academic Level
ART	699	Graduate

Course Description  
In-depth investigation of a topic relevant to art education within a recognized research format under the direction of appropriate faculty.

ART799 - Applied Supv: Art Education

Course Information

Course Title  
Applied Supv: Art Education

Subject code	Course Number	Academic Level
ART	799	Graduate

Course Description  
Field-based experience to develop candidates leadership abilities, articulation of philosophy of art education, and supervisory competencies. Activities may include curriculum and staff development, budgeting and the public relations function, among others. Prereq: ART 524 and EDSU 700, 701 and 703. A student may petition the Department of Art for a waiver of the 9 s.h. prerequisite.

Simple Requisites

Course Prerequisites

Type  
Prerequisite

ART 524 and EDSU 700 and EDSU 701 and EDSU 703

Complete ALL of the following Courses:

- ART524 - Art Education Curriculum and Assessment
- EDSU700 - Functions Supervision
- EDSU701 - Administrative Supervision
- EDSU703 - Curriculum and Supervision

DESN144 - Digital Theory and Skills

Course Information

Course Title  
Digital Theory and Skills

Subject code	Course Number	Academic Level
DESN	144	Undergraduate

Course Description  
An introduction to the basic vocabulary and principles of visual communication and media theory, including the various roles and digital tools, skills and techniques of graphic and interactive design industry. Offered annually.

DESN144H - H: Digital Theory and Skills

Course Information

Course Title  
H: Digital Theory and Skills

Subject code	Course Number	Academic Level
DESN	144H	Undergraduate

DESN201 - Understanding Web Design

Course Information

Course Title  
Understanding Web Design

Subject code	Course Number	Academic Level
DESN	201	Undergraduate

Course Description  
This course provides an overview of the Web design process, and is intended to familiarize students with the meaning, methods, and concepts necessary to understand Web design. The course is designed to give students the opportunity to learn and explore the resources, skills, and hands-on experience needed to design and understand the development of Web design from a user-centered design perspective.

General Education Labels  
G1

## DESN225 - Visual Storytelling and Comics

### Course Information

Course Title

Visual Storytelling and Comics

Subject code	Course Number	Academic Level
DESN	225	Undergraduate

Course Description

An introduction to the vocabulary and principles of visual storytelling. Comic book history, conventions, aesthetics, and techniques will be covered in the sequential design medium. The fundamentals of the genre, including amplification through simplification, use of transitions, the passage of space and time and storytelling interpretation will be examined.

General Education Labels

G1

## DESN240 - Typography I

### Course Information

Course Title

Typography I

Subject code	Course Number	Academic Level
DESN	240	Undergraduate

Course Description

History and development of communications systems. Traces history of Western culture through study and studio practice. Includes creative design project in layout and composition. Includes criticism, analysis and evaluation. For both non-art and art majors. Offered in fall, spring.

General Education Labels

G1

## DESN243 - Creativity, Innovation & Human-Centered Design Thinking

### Course Information

Course Title

Creativity, Innovation & Human-Centered Design Thinking

Subject code	Course Number	Academic Level
DESN	243	Undergraduate

Course Description

Provides an overview of creativity and human-centered design approaches to identify opportunities and challenges of the 21st century. Creativity and human-centered design begins with a deep understanding of people, technology, entrepreneurship and society. Students will apply creativity

and human-centered design approaches used for developing practical and innovative products, services, strategies, spaces, technology, social media, entrepreneurial endeavors, and human interactions & experiences.

General Education Labels

G1

## DESN244 - Typography 2

### Course Information

Course Title

Typography 2

Subject code	Course Number	Academic Level
DESN	244	Undergraduate

Course Description

A study of the fundamental characteristics of type and communication for the electronic screen and its contrast with type for print media. The course explores typographic terminology, creation of a typeface, structure and the historical context of letterforms and their application in motion, visual and information hierarchies within the electronic screen environment. Prereq: DESN 240 or permission of the instructor. Offered annually.

Simple Requisites

Course Prerequisites

Type

Prerequisite

DESN 240

Complete ALL of the following Courses:

- DESN240 - Typography I

Or must have permission of instructor.

Additional Comments:

## DESN246 - Intro Sequence/Motion/Vis Comm

### Course Information

Course Title

Intro Sequence/Motion/Vis Comm

Subject code	Course Number	Academic Level
DESN	246	Undergraduate

### Course Description

A study of narrative structures and spatial compositions as they relate to time and sequence. Students will be introduced to the principles of time-based design, with an emphasis on research, critical analysis and concept development. Various production methods such as storyboarding and scoring will be introduced. Offered periodically. Prereq: DESN 144 (or ART 144) or permission of instructor.

### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

DESN 144 or DESN 144H

#### Complete ANY of the following Courses:

- DESN144 - Digital Theory and Skills
- DESN144H - H: Digital Theory and Skills

Or must have permission of instructor.

#### Additional Comments:

## DESN247 - Intro to Web, Experience and Interaction Design

### Course Information

#### Course Title

Intro to Web, Experience and Interaction Design

Subject code	Course Number	Academic Level
DESN	247	Undergraduate

#### Course Description

Focuses on the fundamentals of user-centered design and usability issues surrounding Web-based interfaces (Internet, PDA, cell, etc.). Examines information architecture models, content/design relationships, user behaviors, and user testing scenarios. The goal is ultimately to develop awareness of the pitfalls of poor design and usability while honing good design habits. Offered periodically. Prereq: DESN 144, ART 144 or permission of instructor.

### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

DESN 144 or DESN 144H

#### Complete ANY of the following Courses:

- DESN144 - Digital Theory and Skills
- DESN144H - H: Digital Theory and Skills

Or must have permission of instructor.

#### Additional Comments:

## DESN300 - Internship/Co-op in Design

### Course Information

#### Course Title

Internship/Co-op in Design

Subject code	Course Number	Academic Level
DESN	300	Undergraduate

#### Course Description

Internship/Co-Op experience in Design

## DESN307 - Visual Communication Design History

### Course Information

#### Course Title

Visual Communication Design History

Subject code	Course Number	Academic Level
DESN	307	Undergraduate

#### Course Description

A history of the visual elements and technological processes involved in an informed view of design from the beginning of pictographic language to the present. The course attempts to cover four main areas of investigation: an analysis of the evolution of formal or visual attributes; the relationship between design and its audience; the study of the social and economic activity of design as it is circulated in communities and across continents; and the effect of technology on the aesthetics of design.

#### General Education Labels

Perspectives (P)

### Simple Requisites

#### Course Prerequisites

DESN	342	Undergraduate

#### Course Description

An examination of design animation, emphasizing 2D animation techniques such as keyframing, transition and metamorphosis, timing and expression using both hand drawn and digital techniques. Prereq: DESN 144 (formerly ART 144) or permission of instructor.

#### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

DESN 144 or DESN 144H

**Complete ANY of the following Courses:**

- DESN144 - Digital Theory and Skills
- DESN144H - H: Digital Theory and Skills

Or must have permission of instructor.

**Additional Comments:**

## DESN343 - Experience Design

### Course Information

Course Title

Experience Design

Subject code	Course Number	Academic Level
DESN	343	Undergraduate

#### Course Description

Synthesis and analysis of relevant aspects of meaningful human interactions in a networked and mediated environment, including physical, cognitive/ emotional, social, political, economic, and cultural dimensions of these interactions, and the relationships of such interactions to commerce, learning, work, play, community and gaining access to the privileges of user experience. In an exploration of language structures (storytelling) that enhance understanding and support users objectives in a variety of contexts, students will explore the construction of verbal messages and the roles they play in defining experience. Offered periodically. Prereq: DESN 247, ART 247 or permission of instructor.

#### General Education Labels

Writing (W)

#### Simple Requisites

Prerequisite

ART 133 or ART 142

**Complete ANY of the following Courses:**

- ART133 - Drawing 1
- ART142 - 2D Design

Additional Comments:

## DESN346 - Intro to Computers in Design

### Course Information

Course Title

Intro to Computers in Design

Subject code	Course Number	Academic Level
DESN	346	Undergraduate

Course Description

Explores and develops design capabilities for graphic expression through the use of contemporary digital media. Offered periodically. Prereq: ART 133 or ART 242.

Simple Requisites

Course Prerequisites

Type

Prerequisite

ART 133 or ART 242

**Complete ANY of the following Courses:**

- ART133 - Drawing 1
- ART242 - 3D Design

Additional Comments:

## DESN347 - Design for Social Equity

### Course Information

Course Title

Design for Social Equity

Subject code	Course Number	Academic Level
DESN	347	Undergraduate

Course Description

Exposes students to a wide range of materials that causes them to take a more analytical and critical approach to the field of graphic and interactive design and gain a better understanding of the cultural impact they can have as designers. This will be applied to the creation of written

practical design projects. Offered periodically. Prereq: DESN 144, ART 144, DESN 240, ART 240 or permission of instructor.

General Education Labels

Diversity (D)

Simple Requisites

**Course Prerequisites**  
Type  
Prerequisite

DESN 144 or DESN 144H or DESN 240

**Complete ANY of the following Courses:**

- DESN144 - Digital Theory and Skills

## Biology Department

The Department of Biology offers baccalaureate degrees in biology (BIOL) and allied health (ALTH), with 11 options in the BIOL program and 5 options in the ALHT program. The requirements are very similar for the B.S. BIOL programs during the first two years, so any change in career emphasis need not involve any major loss of time or credits. The department also offers minors in biology and molecular biology/biotechnology.

The program leading to the Bachelor of Science degree provides students with an opportunity to elect a substantial number of courses in a specific area of biology. This program provides a strong background for admission to graduate or professional school and prepares the student for employment in the field of biology upon graduation.

Options available within the B.S. Biology program include animal behavior, environmental biology, marine biology, molecular biology/biotechnology, medical technology, nuclear medicine technology, plant sciences, premedical professions, pre-optometry, pre-podiatry and respiratory therapy.

The **animal behavior** option provides training in both the biological mechanisms and the evolutionary functions of behavior. Students completing this option are prepared for a career in applied animal behavior or for graduate study.

The **environmental biology** option permits students to concentrate in ecology and enables them to gain expertise that will make them competitive in industry, governmental agencies and graduate school.

The **marine biology** option encourages students to choose electives in the marine biology area. Many marine science courses are offered at our field station at Wallops Island, Virginia, since they usually involve significant field work. For more information on the field station, see "Chincoteague Bay Field Station at the Marine Science Consortium": <http://www.cbfieldstation.org/>

The **molecular biology/biotechnology** option allows students to concentrate in genetics, cell and molecular biology. The courses required for this option complement each other, training students in a variety of laboratory and methods and enabling students to gain the theoretical understanding and technical expertise currently needed to be competitive in industry and graduate school.

Students in the **plant sciences** option concentrate on the study of plants while obtaining a broad background in biology. This option effectively prepares those interested in professions in general botany, environmental studies, molecular/biotech, and horticulture as well as advanced graduate study in a variety of plant-related fields.

The **pre-medical professions** option allows the students to focus on courses in anatomy, physiology, cell biology and genetics. It includes one track for students planning on continuing their education in medical, dental or physician assistant school and another for students preparing for veterinary school. The program provides a strong background in courses that prepare the students for taking the appropriate entrance exams and encourages them to take advanced courses that will help them succeed in those professional programs.

Millersville University has an Early Acceptance Program (EAP) agreement with the Lake Erie College of Osteopathic Medicine (LECOM) for programs in osteopathic medicine, dentistry and pharmacy. The current agreement is a “4+4 year program” and is designed for incoming first year students and second-year students. Students who are interested in the EAP must be accepted by LECOM, either as an incoming first year student, or before completing their sophomore year, and complete their degree at Millersville University. (EAP students will need to take the MCAT and complete an online application before they can enroll at LECOM.) Accepted students must do well during each academic semester at Millersville but will have a guaranteed seat in the classroom at LECOM.

After completing three years of undergraduate study, students in the **medical technology (clinical/medical laboratory science)** program are eligible to apply to an accredited hospital-based medical technology program for one year of clinical laboratory experience, after which they will be awarded the Bachelor of Science degree and will be eligible to sit for the national certification examination. Currently, Millersville has full affiliations with three hospital-based programs (PA College of Health Sciences, York Hospital, Reading Hospital) and a renewable affiliation with Penn State Hershey.

After completing three years of undergraduate study, students in the **nuclear medicine technology** program are eligible to apply for admission to either the Pennsylvania College of Health Sciences of Nuclear Medicine Technology program (12-month clinical phase) or the Johns Hopkins School of Imaging program (18-month clinical phase), after which they will be awarded the Bachelor of Science degree and will be eligible to sit for the national certification examination.

An agreement between Millersville University and Salus University (formerly the Pennsylvania College of Optometry) in Philadelphia allows students in the **pre-optometry** option to complete three years of undergraduate study at Millersville and then transfer to Philadelphia for the first year of study in the doctoral program. Students who complete the year with good grades receive a B.S. in Biology from Millersville University, and after three additional years earn the Doctor of Optometry degree.

A cooperative option exists between Millersville University and the Temple University School of Podiatric Medicine. This 3/4 **pre-podiatry** program allows students to transfer to the professional school after satisfactorily completing 99 semester hours at Millersville University. After successful completion of the basic science courses at the Temple University School of Podiatric Medicine, students are awarded a B.S. in biology from Millersville University. Three recommended Millersville students a year have reserved spaces for admission to the podiatric college, where graduation after four years earns a D.P.M. degree.

Millersville University is the sponsoring institution for the **respiratory therapy** program. After successfully completing three years of study at Millersville, students enter the 16-month clinical phase at Millersville University and UPMC Lititz. Admission into the clinical phase is competitive and not guaranteed. At the end of the clinical phase, they are awarded the Bachelor of Science degree and a certificate in respiratory therapy, and will be eligible to sit for the national credentialing examination.

The education curriculum leads to the **Bachelor of Science in Education**, with secondary education certification in biology.

### **Bachelor of Science in Allied Health Technology**

The Department of Biology offers one degree and five options leading to the baccalaureate degree in allied health technology. The requirements are initially very similar for each of the options so that any change in career emphasis need not involve any major loss of time or credits.

A dual-degree program in **pre-athletic training** is available for well-prepared students. During three years of study at Millersville, students complete the requirements for admission to an affiliated graduate program. Upon completion of one year of graduate study, credits transfer back to Millersville to satisfy the requirements for the B.S. degree in allied health technology, pre-athletic training. Students then earn a M.S. in athletic training from the affiliated university after a second year of graduate study.

A four-year program prepares students for graduate or professional studies to become specialists in **sports medicine**, such as athletic trainers, physical therapists, physicians and physician assistants. The curriculum includes courses in nutrition, sports psychology, and the prevention and care of injuries.

After completing three years of undergraduate study, students in the **allied health technology/medical technology (clinical/medical laboratory science)** program are eligible to apply to an accredited hospital-based medical technology program for one year of clinical laboratory experience, after which they will be awarded the Bachelor of Science degree and will be eligible to sit for the national certification examination. Currently, Millersville University has full affiliations with three hospital-based programs (PA College of Health Sciences, York Hospital, Reading Hospital) and a renewable affiliation with Penn State Hershey.

After completing three years of undergraduate study, students in the allied health technology/**nuclear medicine technology** program are eligible to apply for admission to either the Pennsylvania College of Health Sciences (12-month clinical phase) program or the Johns Hopkins School of Imaging (18-month clinical phase) program, after which they will be awarded the Bachelor of Science degree and will be eligible to sit for the national certification examination.

Millersville University is the sponsoring institution for the **respiratory therapy** program. After successfully completing two years of study at Millersville University, students enter the approximately two-year clinical phase at UPMC Lititz. Admission into the clinical phase is competitive and not guaranteed. At the end of the clinical phase, students are awarded the Bachelor of Science degree and a certificate in respiratory therapy, and will be eligible to sit for the national credentialing examination. This degree option differs from the other B.S. allied health technology and B.S. degree programs offered by the biology department in its format and is termed a “2+2 year program” that begins the clinical year in the summer following the sophomore year, not the end of the junior year, as is the case for the other degree options.

### **Retention In The Major Policy**

University requirements for retention must be met. In addition, all biology majors must earn grades of C- or higher in all core courses (BIOL 101 Foundations of Biology, BIOL 211 Concepts of Zoology, BIOL 221 Concepts of Botany, BIOL 343 Principles of Ecology & Evolution, BIOL 362 Cell and Developmental Biology, BIOL 364 Foundations of Genetics & Molecular Biology) required for their option. These requirements must be satisfied before completion of 90 Millersville University credit hours. Those who change their major or option, and transfer students with more than 60 credits, must satisfy these requirements before completing 45 additional credits. Those transferring into the major may substitute BIOL 100 General Biology for BIOL 101 Foundations of Biology if they earn a grade of B- or higher in this course.

For most biology majors, the core would include all six courses. Those in allied health options (medical technology, nuclear medicine technology, pre-athletic training, respiratory therapy, and sports medicine), who are not required to complete six core courses, would be required to earn a C- or higher in all of the core courses required for that particular option.

FACULTY LIST
<p><b>Cebra-Thomas, Judith;</b> Associate Professor College of Science and Technology B.A., Johns Hopkins University, 1979; Ph.D., Washington University, 1986</p>
<p><b>Didier, Dominique;</b> Professor College of Science and Technology B.A., Illinois Wesleyan University, 1987; Ph.D., University of Massachusetts, 1992</p>

## Biology Post Baccalaureate Certification

**Overview**

Millersville University's Post-Baccalaureate Certification Program in Biology is designed for those applicants who already have a bachelor's degree and would like to be certified to teach Biology in grades 7 - 12 in the State of Pennsylvania. It is not necessary to complete a second degree in order to be certified.

## Curriculum

### Simple Requisites

**Advanced Professional Studies - Post-Bacc Cert (6 credits)**  
**Type**  
Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Course Requirements for APS: Foundations Courses (6 credits)  
**Complete at least 1 of the following:**

**Option 1. Foundations Graduate Level (6 credits)**  
**Complete ALL of the following Courses:**

- EDFN590 - Social Foundation of Educ
- EDFN545 - Advanced Educational Psychology

**OR**

**Option 2. Foundations Undergraduate Level (6 credits)**  
**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
**OR** EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of

Teaching  
**OR** EDFN241H - Hon:Psychological Foundations of Teaching

**AND**

APS Status  
Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

**Additional Comments:**

**Major in Biology, Post-Baccalaureate Certification**  
**Type**  
Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Biology Foundations: Foundations of Biology  
**Earn a minimum grade of C- in the following:**

- BIOL101 - Foundations of Biology

**AND**

Required Biology Courses  
**Fulfill ALL of the following requirements:**

C- Minimum Courses  
**Earn a minimum grade of C- in the following:**

- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany
- BIOL343 - Principles of Ecology & Evolution
- BIOL362 - Cell and Developmental Biology
- BIOL364 - Foundations of Genetics &

Molecular Biology

AND

Additional Courses

**Complete ALL of the following Courses:**

- BIOL375 - Biometry  
OR BIOL375H - Hon: Biometry
- BIOL473 - Methods/Teaching Biological Issues in the Secondary School

AND

Electives (4 credits)

**Earn at least 4 credits from the following:**

- Any BIOL course(s)

**Note:** This requirement may not be satisfied with BIOL100 General Biology, BIOL204 Human Biology, BIOL205 Heredity and Human Affairs, BIOL207 Human Sexuality, BIOL208 Plants and People, BIOL247, BIOL281 Behavioral Biology, or BIOL340 Prspctv in Environm Awareness.

**Additional Comments:**

**Req Related for Biology, Post-Baccalaureate Cert Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Chemistry

**Fulfill ALL of the following requirements:**

Required Courses

**Complete ALL of the following Courses:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2

A C- or higher in CHEM111 Introductory Chemistry 1 and CHEM112 Introductory Chemistry 2 is a pre-requisite for CHEM235 Organic Chemistry.

AND

Short Course in Organic Chemistry

**Complete ALL of the following Courses:**

- CHEM235 - Organic Chemistry

AND

Biochemistry Chemistry I

**Complete ALL of the following Courses:**

- CHEM326 - Biochemistry 1

AND

Earth Science: 200-level and above

**Complete at least 1 courses in the following course sets:**

- Any 2-level ESCI course(s)
- Any 3-level ESCI course(s)
- Any 4-level ESCI course(s)

AND

Mathematics: Precalculus, Calculus I or Honors Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH160 - Precalculus
- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Physics

**Complete at least 1 of the following:**

Option 1. Physics with Algebra

**Complete ALL of the following Courses:**

- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

OR

Option 2. Physics with Calculus

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

**Additional Comments:**

**Professional Education - Certification (33 credits)**

**Type**

**Completion Requirement**

**Requirements**

**Fulfill ALL of the following requirements:**

Foundations Bloc

**Fulfill ALL of the following requirements:**

Foundations of Modern Education (3 credits)

**Complete at least 1 of the following courses:**

- EDFN590 - Social Foundation of Educ
- EDFN211 - Foundations Modern Education
- OR** EDFN211H - H: Foundations Modern Education

**AND**

Psychological Foundations of Teaching (3 credits)

**Complete at least 1 of the following courses:**

- EDFN545 - Advanced Educational Psychology
- EDFN241 - Psychological Foundations of Teaching
- OR** EDFN241H - Hon:Psychological Foundations of Teaching

We recommend 590 and 545 for Post-Bacc students. These courses each require 35 hours field placement at an urban school. Offered in the evenings Fall and Spring. Also offered in Summer Session. If enrolling in [EDFN211 Foundations Modern Education/EDFN241 Psyc Foundation of Teaching](#) and please register for both courses in the same block.

**AND**

APS - Professional Bloc

**Fulfill ALL of the following requirements:**

Instructional Technology, Design & Assessment (3 credits)

**Complete at least 1 of the following courses:**

- EDFN530 - Instructional Technology, Design and Assessment
- EDFN330 - Instructional Technology, Design & Assessment

**AND**

Issues in Secondary Education (3 credits)

**Complete at least 1 of the following courses:**

- EDSE521 - Issues in Second Education
- EDSE321 - Issues in Secondary Education
- OR** EDSE321H - H: Issues in Secondary Education

**AND**

Content Area Literacy for Diverse Classrooms (3 credits)

**Complete at least 1 of the following courses:**

- EDSE340 - Content Area Literacy for Diverse Classrooms
- EDSE540 - Cntnt Area Litrcy Divers Class

**AND**

Secondary Students w/Disabilities in Inclusive Settings (3 credits)

**Complete at least 1 of the following courses:**

- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings
- SPED546 - Sec Stdnts w Disab Inclu Sttgs

**AND**

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- EDSE435 - Teaching of Science in Secondary Schools

Students must meet APS eligibility requirements prior to registering. Course Appropriate PRAXIS II Exam should be taken after Professional Bloc and but prior to Student Teaching.

AND

**Student Teaching Seminar (3 credits)**  
**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar

File your Intent to Student Teach Card one year prior to the beginning of the semester in which you wish to Student Teach. [Access the Student teaching Website](#)

AND

**Student Teaching Semester (9 credits)**  
**Complete ALL of the following Courses:**

- EDSC461 - Student Teaching in Science
- EDSC462 - Student Teaching in Science

Students must meet APS eligibility requirements prior to registering. Submit your Teacher Certification Packet 90 days prior to completion of your certification program. [Access the packet on the Certification Website.](#)

**Fulfill ALL of the following requirements:**

**Required Courses**  
**Complete ALL of the following Courses:**

- BIOL257 - Introduction to Allied Health Professions

AND

**General Microbiology**  
**Earn a minimum grade of C- in the following:**

- BIOL254 - Human Anatomy & Physiology I
- BIOL255 - Human Anatomy & Physiology II  
OR BIOL255H - Hon: Human Anatomy & Physiology II
- BIOL361 - Microbiology

AND

**Respiratory Therapy Professional Phase I**  
**Fulfill ALL of the following requirements:**

**Required Courses**  
**Complete ALL of the following Courses:**

- RESP410 - Acute Cardiopulmonary Care
- RESP411 - Respiratory Care Techniques 1
- RESP412 - Principles of Aerosol & Gas Therapy
- RESP413 - Respiratory Assessment & Therapeutics
- RESP414 - Respiratory Care Techniques 2
- RESP419 - Respiratory Care in Alternate Sites
- RESP420 - Arterial Blood Gas Analysis
- RESP421 - Physiology of Mechanical Ventilation
- RESP422 - Pharmacology
- RESP423 - Infectious Diseases
- RESP425 - Neonatology for the

- Respiratory Therapist
- RESP460 - Clinical Practice 1
  - RESP461 - Clinical Practicum 1

— AND —

Noninfectious Diseases (2 credits)

**Complete ALL of the following Courses:**

- RESP424 - Non-Infectious Diseases

After completion of the Phase I coursework, the student may graduate with a B.S. degree in Biology, Respiratory Therapy; however, the graduate must complete the Phase II coursework in order to be employed and certified as a respiratory therapist.

— AND —

Required Courses (22 credits)

**Complete ALL of the following Courses:**

- RESP415 - Technical Aspects of Mechanical Ventilation
- RESP417 - Respiratory Care Techniques 3
- RESP462 - Clinical Practice 2
- RESP463 - Clinical Practicum 2
- RESP464 - Clinical Practicum 3
- RESP495 - Respiratory Care Research

Following completion of Phase II coursework, the student will receive a respiratory therapy certificate, which will permit them to seek employment as a respiratory therapist and qualifies them to take the certification exam.

**Additional Comments:**

## Biology Minor

### Overview

Students pursuing other degrees at Millersville University looking to expand their understanding and interest in living organisms can opt to minor in Biology. This minor will benefit students by strengthening fundamental concepts, expanding breadth of knowledge, and enhancing depth of understanding through unique, advanced biology electives. Completing a minor in biology can enhance a graduate's employment

opportunities in many areas, including but not limited to, Occupational Safety and Health, Disaster Response, Environmental Policy, Education, Science Writing, Scientific Illustration, Data Science, and others.

## Curriculum

### Simple Requisites

#### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

### Minor in Biology (20 credits)

#### Type

#### Completion Requirement

#### Requirements

#### **Fulfill ALL of the following requirements:**

Biology Foundations (3-4 credits)

#### **Complete at least 1 of the following:**

Option 1 (4 credits)

**Earn a minimum grade of C- in the following:**

- BIOL101 - Foundations of Biology

— OR —

Option 2 (3 credits)

**Earn a minimum grade of B- in the following:**

- BIOL100 - General Biology

— AND —

Directed Biology Electives (8 credits)

**Complete at least 2 of the following courses:**

- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany
- BIOL343 - Principles of Ecology & Evolution  
OR BIOL343H - Hon: Principles of Ecology & Evolution
- BIOL362 - Cell and Developmental Biology  
OR BIOL362H - HNRS:Cell and Developmental Biology
- BIOL364 - Foundations of Genetics & Molecular Biology

— AND —

Biology Electives 300/400 Level (6 credits)

**Earn at least 6 credits from the following:**

- Any 3-level BIOL course(s)
- Any 4-level BIOL course(s)

Note: This requirement may not be satisfied with BIOL340 Prspctv in Environm Awareness.

One 200-level elective may be used upon advisor approval.

**Additional Comments:**

## Molecular Biology/Biotechnology Minor

### Overview

The Molecular Biology/Biotechnology minor focuses on the cellular level of biology and genetics. It is designed to prepare students both for careers in the fast-growing industry associated with molecular biology. This program allows students to study molecular and cellular biology while obtaining a broad background in biology and in the liberal arts.

### Curriculum

#### Simple Requisites

#### Type

#### Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

Required Biology Course (3-4 credits)

**Complete at least 1 of the following:**

BIOL100 (3 credits)

**Earn a minimum grade of B- in the following:**

- BIOL100 - General Biology

— OR —

BIOL101 (4 credits)

**Earn a minimum grade of C- in the following:**

- BIOL101 - Foundations of Biology

— AND —

Required Courses (15 credits)

**Complete ALL of the following Courses:**

- BIOL362 - Cell and Developmental Biology  
OR BIOL362H - HNRS:Cell and Developmental Biology
- BIOL364 - Foundations of Genetics &

Molecular Biology

- BIOL462 - Molecular Biology
- BIOL466 - Molecular and Cell Techniques

**Additional Comments:**

## Biology, B.S.Ed.

### Overview

Traditionally one of the strengths at Millersville, this program prepares students to be teaching biologists. Our goal is graduates who are highly competent biologist who are also highly effective in teaching biology at the secondary school level. The four-year program includes broad training in the physical and biological sciences and extensive coursework in professional education. Students who already hold baccalaureate pedigrees may also apply to be Biology certification students.

### Curriculum

#### Simple Requisites

#### Major in Biology, BSE (32 credits)

##### Type

Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### Biology Foundations

##### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology
- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany
- BIOL343 - Principles of Ecology & Evolution
- BIOL362 - Cell and Developmental Biology
- BIOL364 - Foundations of Genetics & Molecular Biology

AND

##### Required Courses (4 credits)

##### Complete ALL of the following Courses:

- BIOL375 - Biometry

##### OR BIOL375H - Hon: Biometry

- BIOL473 - Methods/Teaching Biological Issues in the Secondary School

AND

##### Electives (4 credits)

##### Complete ALL of the following Course Sets:

- Any BIOL course(s)

Note: This requirement may not be satisfied with BIOL 100, BIOL 204, BIOL 205, BIOL 207, BIOL 208, BIOL 247, BIOL 281, or BIOL 340.

**Additional Comments:**

#### Professional Education (33 credits)

##### Type

Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### Educational Foundations (6 credits)

##### Complete ALL of the following Courses:

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

##### Required Education Courses (9 credits)

##### Complete ALL of the following Courses:

- EDSE321 - Issues in Secondary Education  
OR EDSE321H - H: Issues in Secondary Education
- EDFN330 - Instructional Technology, Design & Assessment
- EDSE435 - Teaching of Science in Secondary Schools

— AND —

Accommodations and Adaptations (6 credits)

**Complete ALL of the following Courses:**

- EDSE340 - Content Area Literacy for Diverse Classrooms
- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings

— AND —

Student Teaching (12 credits)

**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar
- EDSC461 - Student Teaching in Science

**Additional Comments:**

**Req Related for Biology, BSE**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Chemistry

**Fulfill ALL of the following requirements:**

Required Courses (8 credits)

**Complete ALL of the following Courses:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2

— AND —

Organic Chemistry (4-8 credits)

**Complete at least 1 of the following:**

Option 1. Organic Chemistry I and II

**Complete ALL of the following Courses:**

- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2

A C- or higher in CHEM231 Organic Chemistry 1

is a pre-requisite for CHEM232 Organic Chemistry 2.

— OR —

Option 2. Short Course in Organic Chemistry

**Complete ALL of the following Courses:**

- CHEM235 - Organic Chemistry

A C- or higher in CHEM111 Introductory Chemistry 1 and CHEM112 Introductory Chemistry 2 is a pre-requisite for CHEM235 Organic Chemistry.

Students considering going to graduate school for an advanced degree in Biology should take CHEM231 Organic Chemistry 1 + CHEM232 Organic Chemistry 2.

— AND —

Biochemistry Chemistry I (4 credits)

**Complete ALL of the following Courses:**

- CHEM326 - Biochemistry 1

— AND —

Earth Science

**Complete at least 1 courses in the following course sets:**

- Any 2-level ESCI course(s)
- Any 3-level ESCI course(s)
- Any 4-level ESCI course(s)

— AND —

Mathematics

**Complete at least 1 of the following courses:**

- MATH160 - Precalculus
- MATH161 - Calculus 1
- OR MATH161H - Hon: Calculus 1
- MATH163H - Honors Calculus 1

Students considering graduate or professional school

should take MATH161 Calculus 1.

— AND —

Physics (8-10 credits)

**Complete at least 1 of the following:**

Option 1. Physics with Algebra (8 credits)

**Complete ALL of the following Courses:**

- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

— OR —

Option 2. Physics with Calculus (10 credits)

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

**Additional Comments:**

For Biology Majors the G2 block of the Liberal Arts Core will be fulfilled by your required related coursework.

**Advanced Professional Studies, BSE (12 credits)**

**Type**

Completion Requirement

APS Requirements

**Fulfill ALL of the following requirements:**

English Composition (3 credits)

**Complete at least 1 of the following courses:**

- ENGL110 - Introduction to College Writing
- ENGL110H - Hrs:Introduction to College Writing

— AND —

English Literature (3 credits)

**Complete at least 1 of the following courses:**

- ENGL230 - Introduction to Literature
- ENGL231 - World Literature 1
- ENGL232 - World Literature 2

**OR ENGL232H - Hrs: World Literature 2**

- ENGL233 - Early British Literature
- ENGL234 - Later British Literature
- ENGL235 - American Literary Tradition I
- ENGL236 - American Literary Tradition II
- ENGL241H - H:Explorations in World Lit
- ENGL242 - Reading Our World:  
**OR ENGL242H - Hrs: Reading Our World:**
- ENGL292 - Science Fiction  
**OR ENGL292H - Hon: Science Fiction**
- ENGL333 - African-American Literature 1
- ENGL333H - Hrs:African-American Literature 1
- ENGL334 - African American Literature 2
- ENGL334H - Hrs:African American Literature 2
- ENGL336 - New Dimensions to World Lit
- ENGL338 - Folklore and Literature  
**OR ENGL338H - H:Folklore and Literature**
- ENGL401 - Old Eng Lang and Literature
- ENGL402 - Middle Eng Lang and Literature

— AND —

**Mathematics**

Two Mathematics courses are required for BSE students. It is preferable to take two courses designated as G2. [Search for MATH courses on the current web schedule.](#)

[BIOL375 Biometry](#) will fulfill one Mathematics course for BSE BIOL students.

— AND —

Required Courses (6 credits)

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
**OR EDFN211H - H: Foundations Modern Education**
- EDFN241 - Psychological Foundations of Teaching  
**OR EDFN241H - Hon:Psychological Foundations of Teaching**

AND

ACT 126 - Educator Ethics Training

You must submit your Educator Ethics Training.

AND

APS Status

Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

Additional Comments:

## Allied Health Technology, B.S. - Medical Technology 3+1 Year Option

### Overview

In the Medical Technology program at Millersville University, students study for three years at Millersville and then apply to an accredited regional teaching hospital for one year of clinical training. Upon successful completion of the clinical phase of the program, students receive a Bachelor of Science (B.S.) in Biology degree with an option in Medical Technology. MU students are also eligible to sit for the national certification examination upon graduation.

Students hoping to pursue this field can also do so through the Clinical Laboratory Science option within the Allied Health Technology major.

### Curriculum

#### Simple Requisites

**Major in Allied Health Tech-Medical Technology, BS (58-61 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Required Courses (1 credits)

**Complete ALL of the following Courses:**

- BIOL257 - Introduction to Allied Health

Professions

AND

Biology Foundations: General Biology (3 credits)

**Earn a minimum grade of B- in the following:**

- BIOL100 - General Biology

AND

Required Biology Courses (23 credits)

**Earn a minimum grade of C- in the following:**

- BIOL254 - Human Anatomy & Physiology I
- BIOL255 - Human Anatomy & Physiology II
- BIOL362 - Cell and Developmental Biology
- BIOL364 - Foundations of Genetics & Molecular Biology
- BIOL454 - Immunology  
OR BIOL454H - Hon: Immunology
- BIOL361 - Microbiology

AND

Directed Electives (5-8 credits)

**Complete at least 2 of the following courses:**

- BIOL211 - Concepts of Zoology
- BIOL352 - Nutritional Science  
OR BIOL352H - Hon: Nutritional Science
- BIOL363 - Medical Microbiology  
OR BIOL363H - Hon: Medical Microbiology
- BIOL437 - Endocrinology  
OR BIOL437H - Hon: Endocrinology
- BIOL438 - Neurobiology
- BIOL455 - Cardiopulmonary Physiology
- BIOL462 - Molecular Biology
- BIOL463 - Virology
- BIOL465 - Developmental Biology
- BIOL466 - Molecular and Cell Techniques
- BIOL467 - Human Genetics:Analysis/Apps
- RESP422 - Pharmacology

AND

Med Tech Clinical Coursework (26 credits)

26 credits in Clinical Laboratory Science completed at an affiliate hospital site

**Additional Comments:**

**Req Related for Allied Health Tech-Medical Tech, BS (27-31 credits)**

**Type**

Completion Requirement

**Requirements**

**Fulfill ALL of the following requirements:**

Requirement

Required Related Credits

AND

**Required Courses (15 credits)**

**Complete ALL of the following Courses:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- CHEM326 - Biochemistry 1
- MATH130 - Elements of Statistics 1

AND

**Organic Chemistry (4-8 credits)**

**Complete at least 1 of the following:**

Option 1. Short Course in Organic Chemistry (4 credits)

**Complete ALL of the following Courses:**

- CHEM235 - Organic Chemistry

A C- or higher in CHEM111 Introductory Chemistry 1 and CHEM112 Introductory Chemistry 2 is a pre-requisite for CHEM235 Organic Chemistry.

OR

Option 2. Organic Chemistry I and Organic Chemistry II (8 credits)

**Complete ALL of the following Courses:**

- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2

A C- or higher in CHEM231 Organic Chemistry 1 is a pre-requisite for CHEM232 Organic Chemistry 2.

Students planning to attend graduate school or pursue programs in medical, dental, veterinary, pharmacy, physical therapy or physician assistant after their clinical training should take CHEM231 Organic Chemistry 1 and CHEM232 Organic Chemistry 2 for this requirement.

AND

**Precalculus (4 credits)**

**Complete ALL of the following Courses:**

- MATH160 - Precalculus

Students interested in attending graduate or professional school should also take MATH161 Calculus 1

AND

**Physics I with Algebra (4 credits)**

**Complete ALL of the following Courses:**

- PHYS131 - Physics 1 with Algebra

Students interested in attending graduate or professional school should also take PHYS132 Physics 2 with Algebra

**Additional Comments:**

For Allied Health Technology majors the G2 block of the Liberal Arts Core will be fulfilled by your required related coursework.

## Allied Health Technology, B.S. - Nuclear Medicine Technology 3+1 Year Option

### Overview

The Nuclear Medicine Technology option within Millersville University's Allied Health major prepares students to become nuclear medicine technologists (NMTs), healthcare professionals who are trained to safely prepare and administer small doses of radioactive compounds

(radiopharmaceuticals) to patients to help detect diseases, injuries or abnormalities. The NMT uses sophisticated radiation-detecting diagnostic equipment to create images of virtually every organ in the body, study body functions (stress test), analyze biological specimens and treat disease (certain cancers).

This 3 + 1 program gives students the benefit of learning in the classroom and in the hospital. At Millersville, courses focus on general education, math and science requirements. The clinical programs provide classroom, laboratory and patient experiences under the supervision of medical instructors. For MU students interning at local hospitals, University housing is available.

## Curriculum

### Simple Requisites

#### Major in Allied Health Tech-Nuclear Med Tech, BS (59-60 credits)

##### Type

Completion Requirement

##### Requirements

For Allied Health Technology majors the G2 block of the Liberal Arts Core will be fulfilled by your required related coursework.

## Allied Health Technology, B.S. - Pre-Athletic Training Dual-Degree Option

### Overview

Millersville University's Pre-Athletic Training program puts students on their way to the master's degree now required by the Athletic Training Strategic Alliance. MU collaborates with other graduate-level athletic training education programs in Pennsylvania to allow students to meet that requirement in five years. Following three years of coursework, students can apply to one of the select graduate programs. Upon the completion of your first year in that graduate program, students receive a Bachelor of Science (B.S.) in Allied Health Technology with an option in Pre-Athletic Training from Millersville University. Students who continue this course of study earn a Master of Science (M.S.) in Athletic Training from the affiliated university after a second year of graduate study.

Pre-Athletic Training students also have the option to complete all four years of their bachelor degree at MU before applying to an athletic training graduate program.

### Curriculum

#### Simple Requisites

**Major in Allied Health Tech-Pre-Athletic Trng, BS (44 credits)**

**Type**

**Completion Requirement**

**Requirements**

**Fulfill ALL of the following requirements:**

Biology Foundations: General Biology (3 credits)

**Earn a minimum grade of B- in the following:**

- BIOL100 - General Biology

AND

Required Biology Courses (23 credits)

**Complete ALL of the following Courses:**

- BIOL254 - Human Anatomy & Physiology I
- BIOL255 - Human Anatomy & Physiology II
- BIOL352 - Nutritional Science  
OR BIOL352H - Hon: Nutritional Science
- BIOL362 - Cell and Developmental Biology
- BIOL364 - Foundations of Genetics & Molecular Biology
- BIOL361 - Microbiology

AND

Required Wellness & Sport Sciences Courses

**Fulfill ALL of the following requirements:**

Required Courses (15 credits)

**Complete ALL of the following Courses:**

- WSSD311 - Resp to Emergen: First Aid CPR
- WSSD375 - Prevention and Care of Athletic Injuries
- WSSD450 - Kinesiology and Phys Found of Sport
- WSSD452 - Nutrition for Performance Enhancement
- WSSD491 - Exercise Physiology

AND

Sport Psychology (3 credits)

**Complete at least 1 of the following courses:**

- WSSD485 - Perf Enhance:Mntl Trng in Sprt
- WSSD582 - Sport Psychology

AND

Clinical Education

Upon completion of one year of clinical education in an affiliated Athletic Training Program, up to 40% of the graduate credits will be counted toward the B.S. degree in Allied Health Technology, Pre-Athletic Training option.

**Additional Comments:**

**Req Related for Allied Hlth Tech-Pre-Ath Trng, BS (23-27 credits)**

A C- or higher in CHEM111 Introductory Chemistry 1 and CHEM112 Introductory Chemistry 2 is a pre-requisite for CHEM235 Organic Chemistry.

OR

Option 2. Organic Chemistry I and Organic Chemistry II (8 credits)

**Complete ALL of the following Courses:**

- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2

A C- or higher in CHEM231 Organic Chemistry 1 is

a pre-requisite for [CHEM232 Organic Chemistry 2](#).

Students planning to attend graduate school or pursue programs in medical, dental, veterinary, pharmacy, physical therapy or physician assistant after their clinical training should take [CHEM231 Organic Chemistry 1](#) and [CHEM232 Organic Chemistry 2](#) for this requirement.

AND

Precalculus (4 credits)

**Complete ALL of the following Courses:**

- MATH160 - Precalculus

Students interested in attending graduate or professional school should also take [MATH161 Calculus 1](#).

AND

Physics I with Algebra (4 credits)

**Complete ALL of the following Courses:**

- PHYS131 - Physics 1 with Algebra

Students interested in attending graduate or professional school should also take [PHYS132 Physics 2 with Algebra](#).

AND

Health Psychology (3 credits)

**Complete ALL of the following Courses:**

- PSYC356 - Health Psychology

[PSYC100 General Psychology](#) and [PSYC227 Developmnt Child and Adolescent](#) or [PSYC228 Life Span Human Development](#) should be taken as G3 electives, they are pre-requisites for [PSYC356 Health Psychology](#). PHIL [PHIL100 Introduction to Philosophy](#) (G1), [SOCY101 Introduction to Sociology](#) or [ANTH121 Cultural Anthropology](#) (G3), [BIOL207 Human Sexuality](#) (D, W), [COMM461 Health Communication](#) (P) are also recommended courses to help students fulfill graduate school pre-requisites.

**Additional Comments:**

For Allied Health Technology majors the G2 block of the Liberal Arts Core will be fulfilled by your required related coursework.

## Allied Health Technology, B.S. - Respiratory Therapy 2+2 Year Option

### Overview

Millersville University's Respiratory Therapy program is one of the longest continuously accredited Respiratory Care schools in the nation, with roots in a training course that was first offered in 1963. MU offers two tracks for aspiring respiratory therapists. The 2+2 Respiratory Therapy option within the Allied Health Technology major consists of two years of undergraduate liberal arts and science coursework at Millersville followed by a 19-month professional education and training phase. At the completion of the training, students are awarded a Bachelor of Science (B.S.) in Allied Health Technology degree with an option in Respiratory Therapy.

### Curriculum

#### Simple Requisites

**Major in Allied Hlth Tech-Respiratory Therapy, BS (72 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Biology Foundations: General Biology (3 credits)

**Earn a minimum grade of B- in the following:**

- CHEM103 - Gen Organic and Biochemistry 1
- CHEM104 - Gen Organic and Biochemistry 2

Students planning to attend graduate school or pursue programs in medical, dental, veterinary, pharmacy, physical therapy or physician assistant after their clinical training should take CHEM111 Introductory Chemistry 1, CHEM112 Introductory Chemistry 2, CHEM231 Organic Chemistry 1, CHEM232 Organic Chemistry 2 for this requirement. Others may take only CHEM103 Gen Organic and Biochemistry 1 and CHEM104 Gen Organic and Biochemistry 2.

AND

Elements of Statistics I (3 credits)

##### Complete ALL of the following Courses:

- MATH130 - Elements of Statistics 1

AND

Physics I with Algebra (4 credits)

##### Complete ALL of the following Courses:

- MATH130 - Elements of Statistics 1

Students interested in attending graduate or professional school should also take PHYS132 Physics 2 with Algebra.

##### Additional Comments:

For Allied Health Technology majors the G2 block of the Liberal Arts Core will be fulfilled by your required related coursework.

## Allied Health Technology, B.S. - Sports Medicine

### Overview

The Sports Medicine degree program is for students who envision a future career in healthcare professions such as Athletic Trainer, Physical Therapist, Occupational Therapist, Physician Assistant, or Orthopedic Medicine – a branch of medicine that focuses on the care of the musculoskeletal system. This academic major provides students with the foundational knowledge of the human body, sport performance, and basic injury care. This major also provides students with the prerequisite coursework they will need to become eligible for graduate school.

## Curriculum

### Simple Requisites

#### Major in Allied Health Tech-Sports Medicine, BS (48 credits)

##### Type

##### Completion Requirement

Biology Foundations: General Biology (3 credits)

##### Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

Required Biology Courses (23 credits)

##### Complete ALL of the following Courses:

- BIOL257 - Introduction to Allied Health Professions
- BIOL254 - Human Anatomy & Physiology I  
OR BIOL254H - Hon: Human Anatomy & Physiology I
- BIOL255 - Human Anatomy & Physiology II  
OR BIOL255H - Hon: Human Anatomy & Physiology II
- BIOL352 - Nutritional Science  
OR BIOL352H - Hon: Nutritional Science
- BIOL361 - Microbiology  
OR BIOL361H - Hon: Microbiology
- BIOL362 - Cell and Developmental Biology  
OR BIOL362H - HNRS:Cell and Developmental Biology
- BIOL375 - Biometry  
OR BIOL375H - Hon: Biometry

Required Wellness & Sport Sciences Courses (14 credits)

##### Complete ALL of the following Courses:

- WSSD110 - Medical Terminology
- WSSD311 - Resp to Emergen: First Aid CPR
- WSSD375 - Prevention and Care of Athletic Injuries
- WSSD450 - Kinesiology and Phys Found of Sport
- WSSD491 - Exercise Physiology
- WSSD492 - Seminar in Sport Science

Sports Medicine Electives (8 credits)

##### Earn at least 8 credits from the following:

- BIOL300 - Co-Op Ed Experience in Biol

- BIOL363 - Medical Microbiology  
OR BIOL363H - Hon: Medical Microbiology
- BIOL364 - Foundations of Genetics & Molecular Biology
- BIOL438 - Neurobiology
- BIOL454 - Immunology  
OR BIOL454H - Hon: Immunology
- BIOL463 - Virology
- BIOL465 - Developmental Biology
- BIOL498 - Independent Study
- WSSD452 - Nutrition for Performance Enhancement
- WSSD483 - Legal Aspects of Sport
- WSSD400 - Co-Op Ed Experience in WSSD
- WSSD498 - Independent Study
- WSSD485 - Perf Enhance:Mntl Trng in Sprrt

To meet the requirement for Sports Medicine Electives, classes must include at least 2 hours from Biology courses.

##### Additional Comments:

#### Req Related for Allied Hlth Tech-Sports Med, BS (31-37 credits)

##### Type

##### Completion Requirement

Required Courses (12 credits)

##### Earn a minimum grade of C- in the following:

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2  
OR CHEM112H - Hnrs:Introductory Chemistry 2
- CHEM326 - Biochemistry 1

**Note:** CHEM231 Organic Chemistry 1 and CHEM232 Organic Chemistry 2 may substitute for CHEM235 Organic Chemistry.

Students considering medical school should take CHEM231 Organic Chemistry 1 and CHEM232 Organic Chemistry 2. Students considering other graduate schools should consult with their academic advisor.

Organic Chemistry (4-8 credits)

##### Complete at least 1 of the following:

Option 1. Short Course in Organic Chemistry (4

credits)

**Complete ALL of the following Courses:**

- CHEM235 - Organic Chemistry

A C- or higher in CHEM111 Introductory Chemistry 1 and CHEM112 Introductory Chemistry 2 is a pre-requisite for CHEM235 Organic Chemistry.

OR

Option 2. Organic Chemistry I and Organic Chemistry II (8 credits)

**Complete ALL of the following Courses:**

- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2

A C- or higher in CHEM231 Organic Chemistry 1 is a pre-requisite for CHEM232 Organic Chemistry 2.

Students planning to attend graduate school or pursue programs in medical, dental, veterinary, pharmacy, physical therapy or physician assistant after their clinical training should take CHEM231 Organic Chemistry 1 and CHEM232 Organic Chemistry 2 for this requirement.

Precalculus (4 credits)

**Complete ALL of the following Courses:**

- MATH160 - Precalculus

Students intereted in attending graduate or professional school should also take MATH161 Calculus 1.

Physics (8-10 credits)

**Complete at least 1 of the following:**

Option 1. Physics with Algebra (8 credits)

**Complete ALL of the following Courses:**

- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

OR

Option 2. Physics with Calculus (10 credits)

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus

- PHYS232 - Physics 2 with Calculus  
OR PHYS232H - Hon: Physics 2 with Calculus

Psychology (3 credits)

**Complete ANY of the following Courses:**

- PSYC227 - Development of the Child and Adolescent  
OR PSYC227H - Hnrs:Development of the Child and Adolescent
- PSYC228 - Life Span Human Development

PSYC100 General Psychology (G3) should also be taken as it is the prerequisite for PSYC227 Developmnt Child and Adolescent. PHIL100 Introduction to Philosophy (G1) and SOCY101 Introduction to Sociology or ANTH121 Cultural Anthropology, are required for students taking the MCAT. Students considering other graduate programs should consult with their academic advisor.

**Additional Comments:**

For Allied Health Technology majors the G2 block of the Liberal Arts Core will be fulfilled by your required related coursework.

## Biology, B.S.

### Overview

The B.S. in Biology provides students with a degree path without an "option" or specialization in a particular area of biology. Our goal in this flexible programs is to prepare students broadly in biology so that they can gain immediate employment, or enter graduate school, or start professional study in a school of medicine, veterinary science, dentistry, optometry or podiatry.

### Curriculum

#### Simple Requisites

Major in Biology, BS (43 credits)

Type

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Core Courses (24 credits)

**Fulfill ALL of the following requirements:**

Foundations of Biology (4 credits)

**Earn a minimum grade of C- in the following:**

- BIOL101 - Foundations of Biology

AND

Required Courses (20 credits)

**Earn a minimum grade of C- in the following:**

- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany
- BIOL343 - Principles of Ecology & Evolution  
OR BIOL343H - Hon: Principles of Ecology & Evolution
- BIOL362 - Cell and Developmental Biology  
OR BIOL362H - HNRS:Cell and Developmental Biology
- BIOL364 - Foundations of Genetics & Molecular Biology

AND

Requirements for Bs Biology - No Option Selected

**Fulfill ALL of the following requirements:**

Biology Colloquium or Seminar in Biology (1 credit)

**Complete at least 1 of the following courses:**

- BIOL470 - Biology Colloquium
- BIOL472 - Seminar In Biology  
OR BIOL472H - HNRS:Seminar In Biology

AND

Electives (12 credits)

**Earn at least 12 credits from the following:**

- Any 3-level BIOL course(s)
- Any 4-level BIOL course(s)
- Any 5-level BIOL course(s)

Note: This requirement may not be satisfied with

BIOL340 Prspctv in Environm Awareness, BIOL362 Cell and Developmental Biology, BIOL343 Prin of Ecology and Evolution, BIOL364 Genetics and Molecular Biology or BIOL 390.

AND

Electives (3 credits)

**Earn at least 3 credits from the following:**

- Any 2-level BIOL course(s)
- Any 3-level BIOL course(s)
- Any 4-level BIOL course(s)
- Any 5-level BIOL course(s)

Note: This requirement may not be satisfied with BIOL204 Human Biology, BIOL205 Heredity and Human Affairs, BIOL207 Human Sexuality, BIOL208 Plants and People, BIOL 247 and BIOL281 Behavioral Biology, BIOL256 Nutrition, BIOL340 Prspctv in Environm Awareness or BIOL 390.

In consultation with your advisor, choose additional Biology courses to bring your total Biology courses to 43 credits. 12 credits must be at the 300-level or higher. No more than 3 credits of internship/co-op can count for credits in the major.

**Additional Comments:**

**Req Related for Biology, BS**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Chemistry (20 credits)

**Fulfill ALL of the following requirements:**

Required Courses

**Earn a minimum grade of C- in the following:**

- CHEM111 - Introductory Chemistry 1
- CHEM231 - Organic Chemistry 1
- CHEM231 - Organic Chemistry 1

— AND —

Required Courses

**Complete ALL of the following Courses:**

- CHEM232 - Organic Chemistry 2
- CHEM326 - Biochemistry 1

— AND —

Mathematics and Computer Science

**Fulfill ALL of the following requirements:**

Calculus I or Honors Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

— AND —

Additional Mathematics or Computer Science Electives

**Complete at least 1 courses in the following course sets:**

- Any CSCI 140-599 course(s)
- Any MATH 160-599 course(s)

Note: This requirement may not be satisfied with CSCI101 Problem Solving with Computers and CSCI 111 or CSCI121 Intro to Web Programming.

— AND —

Physics

**Complete at least 1 of the following:**

Option 1. Physics with Algebra (8 credits)

**Complete ALL of the following Courses:**

- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

— OR —

Option 2. Physics with Calculus (10 credits)

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

**Additional Comments:**

For Biology Majors the G2 block of the Liberal Arts Core will be fulfilled by your required related coursework.

## Biology, B.S. - Animal Behavior Option

### Overview

The Animal Behavior option in Biology is designed for students who wish to specialize in the study of animal behavior, the scientific study of the causes, functions, development, and evolutionary history of behavior. Students will be prepared for careers in education, whether in a classroom or at an aquarium or zoological garden; research, whether sponsored by companies, universities or the government; animal-human interactions, including both pet and livestock management; and animal conservation biology.

### Curriculum

Option in Animal Behavior  
See separate block

**Additional Comments:**

### Concentration in Animal Behavior (20-24 credits)

#### Type

Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

Required Foundations (10 credits)

**Fulfill ALL of the following requirements:**

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- BIOL385 - Principles of Animal Behavior  
**OR** BIOL385H - H: Principles of Animal Behavior

AND

Mechanisms of Animal Behavior or Animal Physiology (3 credits)

**Complete at least 1 of the following courses:**

- BIOL484 - Mech of Animal Behavior
- BIOL435 - Animal Physiology

AND

Behavioral Ecology or Applied Ethology (3 credits)

**Complete at least 1 of the following courses:**

- BIOL486 - Behavioral Ecology
- BIOL483 - Applied Ethology

AND

Seminar in Animal Behavior (1 credit)

**Complete at least 1 of the following courses:**

- BIOL470 - Biology Colloquium
- BIOL472 - Seminar In Biology  
**OR** BIOL472H - HNRS:Seminar In Biology

AND

Practical Experience: Coop, Internship, Research Project in Animal Behavior (1-3 credits)

**Earn at least 1 credits from the following:**

- BIOL300 - Co-Op Ed Experience in Biol
- BIOL489 - Honors Course
- BIOL498 - Independent Study
- BIOL499 - Departmental Honors

AND

Required Electives (9-11 credits)

**Earn at least 9 credits from the following:**

- BIOL484 - Mech of Animal Behavior
- BIOL435 - Animal Physiology
- BIOL486 - Behavioral Ecology
- BIOL483 - Applied Ethology
- BIOL470 - Biology Colloquium
- BIOL472 - Seminar In Biology  
**OR** BIOL472H - HNRS:Seminar In Biology
- BIOL295 - Marine Invertebrates
- BIOL346 - Ornithology
- BIOL396 - Ichthyology
- BIOL415 - Mammalogy  
**OR** BIOL415H - Hon: Mammalogy
- BIOL416 - Entomology

- BIOL418 - Aquatic Entomology
- BIOL318 - Comparative Vertebrate Anatomy
- BIOL352 - Nutritional Science  
OR BIOL352H - Hon: Nutritional Science
- BIOL437 - Endocrinology  
OR BIOL437H - Hon: Endocrinology
- BIOL438 - Neurobiology
- BIOL442 - Wildlife Ecology & Management
- BIOL443 - Conservation Biology
- BIOL329 - Plant-Insect Interactions

In consultation with your advisor and select additional courses listed that will best prepare you for your area of interest in animal behavior. Students interested in pursuing post-graduate work in medicine (Veterinary Medicine) should take BIOL361 Microbiology (Microbiology).

**Additional Comments:**

**Req Related for Biology, BS (34-42 credits)**

**Type**

Completion Requirement

**Requirements**

**Fulfill ALL of the following requirements:**

Chemistry (16-20 credits)

**Fulfill ALL of the following requirements:**

Required Courses (8 credits)

**Complete ALL of the following Courses:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2

AND

Organic Chemistry (4-8 credits)

**Complete at least 1 of the following:**

Option 1. Organic Chemistry I and II (8 credits)

**Complete ALL of the following Courses:**

- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2

OR

Option 2. Short Course in Organic Chemistry (4 credits)

**Complete ALL of the following Courses:**

- CHEM235 - Organic Chemistry

A C- or higher in CHEM111 Introductory Chemistry 1 and CHEM112 Introductory Chemistry 2 is a pre-requisite for CHEM235 Organic Chemistry.

Students interested in graduate or professional school should take CHEM231 Organic Chemistry 1 and CHEM232 Organic Chemistry 2.

AND

Biochemistry or Environmental Chemistry (4 credits)

**Complete at least 1 of the following courses:**

- CHEM326 - Biochemistry 1
- CHEM375 - Environmental Chemistry

AND

Mathematics for Animal Behavior (7-9 credits)

**Fulfill ALL of the following requirements:**

Biometry (recommended), Survey of Statistics, or Stats & Exp Design I (3-4 credits)

**Complete at least 1 of the following courses:**

- BIOL375 - Biometry  
OR BIOL375H - Hon: Biometry
- MATH235 - Survey of Statistics
- PSYC211 - Principles of Statistics and Experimental Design 1

AND

Calc for Mgmt, Calculus I or Honors Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH151 - Calculus for Management
- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Physics (8-10 credits)

**Complete at least 1 of the following:**

Option 1. Physics with Algebra (8 credits)

**Complete ALL of the following Courses:**

- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

OR

Option 2. Physics with Calculus (10 credits)

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

AND

General Psychology (3 credits)

**Complete ALL of the following Courses:**

- PSYC100 - General Psychology
- OR PSYC100H - Hnrs:General Psychology

**Additional Comments:**

## Biology, B.S. - Environmental Biology Option

### Overview

Designed to prepare students either to work as environmental managers or to pursue graduate study, this program gives students a strong background in basic biology and ecology. Public service or private employment in conservation, environmental management, planning and consulting, pollution abatement, public health, natural resource management, aquatic biology, and wildlife managers are some of the career areas available to students in this program. Many students in this program complete co-ops and/

or independent research projects as part of their education.

## Curriculum

**Type**

Completion Requirement

## Requirements

### Fulfill ALL of the following requirements:

Required Environmental Biology Courses (18-19 credits)

### Fulfill ALL of the following requirements:

Required Courses (6 credits)

#### Complete ALL of the following Courses:

- BIOL344 - Population Community Ecology
- BIOL446 - Ecosystems

AND

Seminar in Environmental Biology (1 credit)

#### Complete ALL of the following Courses:

- BIOL472 - Seminar In Biology  
OR BIOL472H - HNRS:Seminar In Biology

AND

Directed Electives in Advanced Ecology (6 credits)

#### Complete at least 2 of the following courses:

- BIOL325 - Plant Systematics
- BIOL329 - Plant-Insect Interactions
- BIOL442 - Wildlife Ecology & Management
- BIOL443 - Conservation Biology
- BIOL445 - Aquatic Biology
- BIOL486 - Behavioral Ecology

BIOL325 Plant Systematics is recommended as one of your directed electives in advanced ecology.

AND

Organismal Biology (3-4 credits)

#### Complete at least 1 of the following courses:

- BIOL346 - Ornithology
- BIOL396 - Ichthyology
- BIOL415 - Mammalogy  
OR BIOL415H - Hon: Mammalogy
- BIOL416 - Entomology
- BIOL418 - Aquatic Entomology
- BIOL424 - Mycology

- BIOL361 - Microbiology  
OR BIOL361H - Hon: Microbiology

AND

Practical Experience in Environmental Biology (1 credit)

#### Complete at least 1 of the following courses:

- BIOL300 - Co-Op Ed Experience in Biol
- BIOL489 - Honors Course
- BIOL498 - Independent Study
- BIOL499 - Departmental Honors

Choose one of the above for a minimum of 1 credit. Co-op must involve research approved by advisor and result in co-op/internship and scientific research papers.

AND

Electives

#### Earn at least 1 credits from the following:

- Any 3-level BIOL course(s)
- Any 4-level BIOL course(s)

Note: This requirement may not be satisfied with BIOL340 Prspctv in Environm Awareness or BIOL 390.

In consultation with your advisor, choose additional courses that would count towards the Biology Major to bring total to 46 minimum credits in the major.

Note: BIOL375 Biometry may NOT be used as an elective if used to fulfill the statistics requirement in required related courses.

### Additional Comments:

### Req Related for Biology, BS (41-50 credits)

#### Type

Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

Chemistry (16-20 credits)

**Fulfill ALL of the following requirements:**

Required Courses (8 credits)

**Complete ALL of the following Courses:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2

— AND —

Organic Chemistry (4-8 credits)

**Complete at least 1 of the following:**

Option 1. Organic Chemistry I and II (8 credits)

**Complete ALL of the following Courses:**

- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2

— OR —

Option 2. Short Course in Organic Chemistry (4 credits)

**Complete ALL of the following Courses:**

- CHEM235 - Organic Chemistry

A C- or higher in CHEM111 Introductory Chemistry 1 and CHEM112 Introductory Chemistry 2 is a pre-requisite for CHEM235 Organic Chemistry.

Students interested in graduate or professional school should take CHEM231 Organic Chemistry 1 and CHEM232 Organic Chemistry 2.

— AND —

Env Chemistry I & Lab (4 credits)

**Complete ALL of the following Courses:**

- CHEM375 - Environmental Chemistry

— AND —

Mathematics for Environmental Biology (7-8 credits)

**Fulfill ALL of the following requirements:**

Biometry (recommended) or Survey of Statistics (3

credits)

**Complete at least 1 of the following courses:**

- BIOL375 - Biometry  
OR BIOL375H - Hon: Biometry
- MATH235 - Survey of Statistics

— AND —

Calc for Mgmt, Calculus I or Honors Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH151 - Calculus for Management
- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

— AND —

Physics (8-10 credits)

**Complete at least 1 of the following:**

Option 1. Physics with Algebra (8 credits)

**Complete ALL of the following Courses:**

- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

— OR —

Option 2. Physics with Calculus (10 credits)

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

— AND —

Environmental Science (6-8 credits)

**Complete at least 2 of the following courses:**

- CHEM265 - Quantitative Analysis
- CHEM476 - Environmental Chemistry 2
- ESCI281 - GIS Applications for Earth Sci
- ESCI322 - Environmental Hydrology
- ESCI349 - Chemistry of the Atmosphere

**OR** ESCI349H - Hon: Chemistry of the Atmosphere

- GEOG227 - Cities
- GEOG281 - Maps and GIS
- GEOG295 - GIS I: Vector Data Analysis
- GEOG304 - Water Resources Management
- GEOG306 - Environmental Impact Assessment
- GEOG372 - Urban and Regional Planning
- OSEH220 - Legal Aspects Environmental Safety
- OSEH321 - Environmental & Industrial Hygiene I - Chemical and Biological Hazards

**AND**

#### Requirement

Students are encouraged to complete a minor in Environmental Science and to choose courses from the list above that count in the desired minor. [View more information on environmental minors.](#)

**Additional Comments:**

## Biology, B.S. - Marine Biology Option

### Overview

The Marine Biology option prepares students for careers in marine biology and graduate study. Our affiliation with the Marine Science Consortium and its field station at Wallops Island, Virginia gives students hands-on experience and training with marine organisms and environments. Students in this program take several three-week long intensive courses during the summer at the field station.

### Curriculum

**Fulfill ALL of the following requirements:**

Required Marine Biology (4 credits)

**Complete at least 1 of the following:**

Option 1. Marine Biology (4 credits)

**Complete ALL of the following Courses:**

- BIOL291 - Marine Biology

OR

Option 2. Coastal Marine Biology and Problem Solving Marine Biol (4 credits)

**Complete ALL of the following Courses:**

- BIOL290 - Coastal Marine Biology
- BIOL292 - Problem Solving in Marine Biol

AND

Required Courses (9 credits)

**Complete ALL of the following Courses:**

- BIOL295 - Marine Invertebrates
- BIOL375 - Biometry  
OR BIOL375H - Hon: Biometry
- BIOL396 - Ichthyology

AND

Biological Oceanography (3 credits)

**Complete at least 1 of the following courses:**

- BIOL495 - Biological Oceanography
- ESCI465 - Biological Oceanography

AND

Seminar in Marine Biology (1 credit)

**Complete ALL of the following Courses:**

- BIOL472 - Seminar In Biology  
OR BIOL472H - HNRS:Seminar In Biology

AND

Electives (5 credits)

**Earn at least 5 credits from the following:**

- Any 3-level BIOL course(s)
- Any 4-level BIOL course(s)

Note: This requirement may not be satisfied with BIOL340 Prspctv in Environm Awareness or BIOL 390.

In consultation with your advisor, choose additional courses at the 300-level or higher and approved for Biology majors to bring total credits in major to the minimum 47.

AND

Marine Science Field Courses (6 credits)

**Earn at least 6 credits from the following:**

- BIOL293 - Coastal Ornithology
- BIOL294 - Coral Reef Ecology
- BIOL295 - Marine Invertebrates
- BIOL296 - Marine Ecology
- BIOL392 - Marine Mammals
- BIOL397 - Marine Botany

Or any course(s) with DWLOCATION = W.

Note: At least 2 courses (6 credits) of a student's biology courses (required marine biology or biology electives) must be taken at a marine field site.

#### Additional Comments:

Students majoring in Marine Biology are encouraged to consider completing a minor in Oceanography and and in consultation with their advisor and to take further courses in mathematics.

#### Req Related for Biology, BS

A C- or higher in CHEM111 Introductory Chemistry 1 and CHEM112 Introductory Chemistry 2 is a pre-requisite for CHEM235 Organic Chemistry.

Students interested in graduate or professional school should take CHEM231 Organic Chemistry 1 and CHEM232 Organic Chemistry 2.

AND

Environmental Chem or Chem Oceanography (3-4 credits)

**Complete at least 1 of the following courses:**

- CHEM375 - Environmental Chemistry
- ESCI363 - Chemical Oceanography

AND

Mathematics for Marine Biology: Calculus for Mgt, Calculus I or Honors Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH151 - Calculus for Management
- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Physics (8-10 credits)

**Complete at least 1 of the following:**

Option 1. Physics with Algebra (8 credits)

**Complete ALL of the following Courses:**

- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

OR

Option 2. Physics with Calculus (10 credits)

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

**Additional Comments:**

## Biology, B.S. - Medical Technology Option

### Overview

In this program, students study for three years at Millersville and then apply for admission to an accredited regional teaching hospital for one year of clinical training in medical technology. Then students are awarded a B.S. in Biology, Medical Technology Option. After completing the required work, students may sit for a national examination which, if successfully completed, confers board certification in medical technology.

**Affiliated Faculty:**

**Beitz, Edwin;** Program Director, Medical Laboratory Science Program, WellSpan/York Hospital

MT(HHS), 1988; B.S., Lycoming College, 1990; M.H.A., St. Francis University, 2001; MLS(ASCP), 2004

**Hurt, Stanley D.;** Medical Advisor, Medical Laboratory Science Program, WellSpan/York Hospital  
B.A., University of Maryland, 1996; M.D., University of

Pittsburgh School of Medicine, 2002; AP/CP, 2007

**Kentzel, Ethan;**Program Director, Medical Laboratory Science  
Program, Reading Hospital School of Health Sciences

MLS ASCP, B.S., Slippery Rock University, 2014, M.S., Drexel  
University, 2022

**Miele, Mary Beth;** Program Director, Medical Laboratory  
Science Program, Penn State Health  
PhD, MLS(ASCP)CM, RM(NRCM)

**Soost, Sherry;** Program Director, Medical Laboratory Science  
Program, Pennsylvania College of Health Sciences  
MSHS, MT(ASCP), CHO(NRCC)

## Curriculum

### Simple Requisites

#### Major in Biology, B.S. (16 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### Core Courses

##### Fulfill ALL of the following requirements:

Foundations of Biology (4 credits)

##### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

AND

##### Required Courses (12 credits)

##### Earn a minimum grade of C- in the following:

- BIOL211 - Concepts of Zoology
- BIOL362 - Cell and Developmental  
Biology  
AND BIOL362H - HNRS:Cell and  
Developmental Biology
- BIOL364 - Foundations of Genetics &  
Molecular Biology

AND

Option in Medical Technology

See separate block

##### Additional Comments:

#### Concentration in Medical Technology (42 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Required Medical Tech Courses (8 credits)

##### Complete ALL of the following Courses:

- BIOL257 - Introduction to Allied Health  
Professions
- BIOL454 - Immunology  
OR BIOL454H - Hon: Immunology
- BIOL361 - Microbiology  
OR BIOL361H - Hon: Microbiology

AND

##### Electives (8 credits)

##### Earn at least 8 credits from the following:

- BIOL254 - Human Anatomy & Physiology I  
OR BIOL254H - Hon: Human Anatomy &  
Physiology I
- BIOL255 - Human Anatomy & Physiology II  
OR BIOL255H - Hon: Human Anatomy &  
Physiology II
- BIOL318 - Comparative Vertebrate  
Anatomy
- BIOL352 - Nutritional Science  
OR BIOL352H - Hon: Nutritional Science
- BIOL356 - Functional Human Anatomy
- BIOL363 - Medical Microbiology  
OR BIOL363H - Hon: Medical Microbiology
- BIOL375 - Biometry  
OR BIOL375H - Hon: Biometry
- BIOL435 - Animal Physiology
- BIOL437 - Endocrinology  
OR BIOL437H - Hon: Endocrinology
- BIOL438 - Neurobiology
- BIOL462 - Molecular Biology

- BIOL463 - Virology
- BIOL465 - Developmental Biology
- BIOL466 - Molecular and Cell Techniques

BIOL356 Functional Human Anatomy or BIOL254 Human Anat and Physiology 1 & BIOL255 Human Anat and Physiology 2; and BIOL375 Biometry are strongly recommended.

AND

Clinical Lab Science Education (30 credits)

Upon completion of one year of Clinical Laboratory Science education at an affiliated hospital site, 30 credit hours will be credited.

#### Additional Comments:

#### Req Related for Biology, B.S. (24-29 credits)

##### Type

Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Chemistry (16-20 credits)

##### Fulfill ALL of the following requirements:

Required Courses (8 credits)

##### Complete ALL of the following Courses:

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2

AND

Organic Chemistry (4-8 credits)

##### Complete at least 1 of the following:

Option 1. Organic Chemistry I and II (8 credits)

##### Complete ALL of the following Courses:

- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2

OR

Option 2. Short Course in Organic Chemistry (4 credits)

##### Complete ALL of the following Courses:

- CHEM235 - Organic Chemistry

A C- or higher in CHEM111 Introductory Chemistry 1 and CHEM112 Introductory Chemistry 2 is a pre-requisite for CHEM235 Organic Chemistry.

Students interested in graduate or professional school should take CHEM231 Organic Chemistry 1 and CHEM232 Organic Chemistry 2.

AND

Required Courses (4 credits)

##### Complete ALL of the following Courses:

- CHEM326 - Biochemistry 1

AND

Mathematics for Medical Tech or Nuclear Med: Precalculus, Calculus I or Honors Calculus (4-5 credits)

##### Complete at least 1 of the following courses:

- MATH160 - Precalculus
- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

Some clinical sites require a course in statistics such as MATH130 Elements of Statistics 1, MATH235 Survey of Statistics or BIOL375 Biometry. Students interested in graduate or professional school should take MATH161 Calculus 1.

AND

Physics (4 credits)

##### Complete at least 1 of the following courses:

- PHYS131 - Physics 1 with Algebra

Students interested in graduate or professional school should also take PHYS132 Physics 2 with Algebra.

**Additional Comments:**

## Biology, B.S. - Molecular Biology/ Biotechnology Option

### Overview

Designed to prepare students both for careers in the fast-growing industry associated with molecular biology and for admission into graduate and professional schools, this program allows students to concentrate in molecular and cellular biology while obtaining a broad background in biology and in the liberal arts. Students in this program complete advanced courses in biochemistry and in molecular and cellular techniques; many take advantage of opportunities to complete independent research projects in genetics, developmental biology, virology, cell and molecular biology, or endocrinology.

### Curriculum

#### Simple Requisites

#### Major in Biology, BS (24 credits)

##### Type

Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### Core Courses (24 credits)

##### Fulfill ALL of the following requirements:

##### Foundations of Biology (4 credits)

##### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

AND

##### Required Courses (20 credits)

##### Earn a minimum grade of C- in the following:

- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany
- BIOL343 - Principles of Ecology & Evolution
- OR BIOL343H - Hon: Principles of Ecology & Evolution
- BIOL362 - Cell and Developmental

##### Biology

OR BIOL362H - HNRS:Cell and Developmental Biology

- BIOL364 - Foundations of Genetics & Molecular Biology

AND

Option in Molecular Biology

## Biology, B.S. - Optometry Option

### Overview

This affiliated Optometry degree program is for students interested in pursuing a medical profession focusing on eye/vision health. Students in this program complete the first three years of Pre-Optometry study at Millersville by following a broad, interdisciplinary approach to general biology studies. Those who meet the admissions standards of the Pennsylvania College of Optometry (PCO) are eligible to apply for admission. After completion of the first year of study at PCO, the successful Millersville student is awarded the BS in Biology. After completing the PCO four-year program of study students then are awarded the Doctor of Optometry degree from PCO.

Option 2. Physics with Calculus (10 credits)

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

**Additional Comments:**

For Biology Majors the G2 block of the Liberal Arts Core will be fulfilled by your required related coursework.

Biology, B.S. - Pre-Podiatry Option

Overview

Students interested in pursuing a medical career focusing on the foot and ankle should consider the Pre-Podiatry degree program. This affiliated program between Millersville and the Temple University School of Podiatric Medicine allows Millersville students to transfer to the professional school after satisfactorily completing three years at Millersville. While at Millersville University, students will follow a broad, interdisciplinary approach to general biology studies. After successful completion of the basic science courses at Temple the student is awarded a B.S. in Biology from Millersville. Each

year, three spaces for admission to the podiatric school are reserved for Millersville students. After four years of successful study at the podiatric school the student earns a Doctor of Podiatric Medicine degree from Temple University.

- CHEM232 - Organic Chemistry 2

Requirements

**Fulfill ALL of the following requirements:**

Mathematics for Pre-Athl, Resp Ther, or PPOD:  
Calculus I or Honors Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Physics (8-10 credits)

**Complete at least 1 of the following:**

Option 1. Physics with Algebra (8 credits)

**Complete ALL of the following Courses:**

- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

OR

Option 2. Physics with Calculus (10 credits)

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

**Additional Comments:**

## Biology, B.S. - Pre-Medical Professions Option

### Overview

As with all of its preprofessional programs, Millersville University believes that undergraduate training for medical school should focus on a well-rounded education. Therefore, premedical professional option students are required to take a core foundation of liberal arts courses. That foundation, in combination with the recommended scientific courses, prepares premedical students at Millersville for the rigors of medical education. It also challenges them to develop both their abilities and perceptions so they are primed for the diagnostic and ethical demands of medical practice.

### Curriculum

#### Simple Requisites

**Major in Biology, BS (25 credits)**

**Type**

Completion Requirement

## Requirements

### Fulfill ALL of the following requirements:

#### Core Courses (25 credits)

### Fulfill ALL of the following requirements:

#### Foundations of Biology (4 credits)

### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

AND

#### Required Courses (21 credits)

### Earn a minimum grade of C- in the following:

- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany
- BIOL343 - Principles of Ecology & Evolution  
OR BIOL343H - Hon: Principles of Ecology & Evolution
- BIOL362 - Cell and Developmental Biology  
OR BIOL362H - HNRS:Cell and Developmental Biology
- BIOL364 - Foundations of Genetics & Molecular Biology
- BIOL472 - Seminar In Biology  
OR BIOL472H - HNRS:Seminar In Biology

AND

#### Option in Pre-Medical Professions

See separate block

### Additional Comments:

## Concentration in Pre-Medical Professions

### Type

### Completion Requirement

## Requirements

### Fulfill ALL of the following requirements:

#### Pre-Professional Courses

### Fulfill ALL of the following requirements:

#### Option 1. Human Anatomy & Physiology I and II (8 credits)

### Complete ALL of the following Courses:

- BIOL254 - Human Anatomy & Physiology I  
OR BIOL254H - Hon: Human Anatomy & Physiology I
- BIOL255 - Human Anatomy & Physiology II  
OR BIOL255H - Hon: Human Anatomy & Physiology II

AND

#### Option 2. Comp Vert Anatomy and Animal Physiology (7 credits)

### Complete ALL of the following Courses:

- BIOL318 - Comparative Vertebrate Anatomy
- BIOL435 - Animal Physiology

AND

#### Biology Electives (9-12 credits to bring total BIOL credits to 43 minimum)

### Earn at least 9 credits from the following:

- BIOL300 - Co-Op Ed Experience in Biol
- BIOL352 - Nutritional Science  
OR BIOL352H - Hon: Nutritional Science
- BIOL361 - Microbiology  
OR BIOL361H - Hon: Microbiology
- BIOL363 - Medical Microbiology  
OR BIOL363H - Hon: Medical Microbiology
- BIOL415 - Mammalogy  
OR BIOL415H - Hon: Mammalogy
- BIOL437 - Endocrinology  
OR BIOL437H - Hon: Endocrinology
- BIOL438 - Neurobiology
- BIOL454 - Immunology  
OR BIOL454H - Hon: Immunology
- BIOL462 - Molecular Biology
- BIOL463 - Virology
- BIOL465 - Developmental Biology
- BIOL467 - Human Genetics:Analysis/Apps

- BIOL489 - Honors Course
- BIOL498 - Independent Study
- BIOL499 - Departmental Honors

Students interested in Veterinary School are encouraged to take BIOL318 Comparative Vertebrate Anatomy, BIOL361 Microbiology, & BIOL435 Animal Physiology; Students interested in Dental School are encouraged to take BIOL361 Microbiology, BIOL454H Hon: Immunology, & BIOL465 Developmental Biology; Students interested in Pharmacy programs should take BIOL361 Microbiology & BIOL454H Hon: Immunology; Students interested in Physician Assistant programs should take BIOL361 Microbiology & BIOL454H Hon: Immunology.

**Additional Comments:**

**Req Related for Biology, BS (35-37 credits)**

**Type**

**Completion Requirement**

**Requirements**

**Fulfill ALL of the following requirements:**

Chemistry (20 credits)

**Fulfill ALL of the following requirements:**

Required Courses (12 credits)

**Complete ALL of the following Courses:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- CHEM326 - Biochemistry 1

AND

Organic Chemistry I and II (8 credits)

**Earn a minimum grade of C- in the following:**

- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2

AND

Mathematics for Pre-Medical Professions (7 credits)

**Fulfill ALL of the following requirements:**

Required Courses (4 credits)

**Earn a minimum grade of C- in the following:**

- MATH161 - Calculus 1

AND

Biometry or Survey of Statistics (3 credits)

**Complete at least 1 of the following courses:**

- BIOL375 - Biometry  
OR BIOL375H - Hon: Biometry
- MATH235 - Survey of Statistics

AND

Physics (8-10 credits)

**Complete at least 1 of the following:**

Option 1. Physics with Algebra (8 credits)

**Complete ALL of the following Courses:**

- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

OR

Option 2. Physics with Calculus (10 credits)

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

AND

Recommended GenEd for MCAT

PSYC100 General Psychology, PSYC227 Development Child and Adolescent/PSYC228 Life Span Human Development, PHIL100 Introduction to Philosophy and SOCY101 Introduction to Sociology are recommended Gen Ed courses for students planning to take the MCAT.

PSYC100 General Psychology, PSYC227 Development Child and Adolescent, PSYC228 Life Span Human

Development (G3), PHIL100 Introduction to Philosophy (G1), and SOCY101 Introduction to Sociology (G3)

**Additional Comments:**

## Biology, B.S. - Respiratory Therapy Option

### Overview

The Respiratory Therapy program consists of three years study as a Biology/Respiratory Therapy major or two years study as an Allied Health Technology/Respiratory Therapy major at Millersville followed by a 19-month clinical training phase cosponsored by a regional hospital. At the end of their studies students are awarded the BS in Biology, Respiratory Therapy option or Allied Health Technology, Respiratory Therapy option. They are eligible to sit for the entry-level national certification examination, and when that is passed, the Clinical Simulation Exam. Persons already holding baccalaureate degrees may apply for admission into the clinical phase of the program as certification students.

#### *Affiliated Faculty:*

**Ahmad, Masood;** Medical Director

M.D., F.Sc., Pre-Medicine, Government College, Gujranwala, Pakistan, 1989; M.B., B.S., Nishtar Medical College, Multan, Pakistan, 1996. Board Certifications: Internal Medicine, 2004; Critical Care Medicine, 2007; Pulmonary Disease, 2010; Sleep Medicine, 2011

**Chrissos, Elaine;** Program Director

B.S.Ed., Millersville University, 1980; Millersville University Program in Respiratory Therapy, 1988; RRT, 1989, MS Northeastern University, 2022

**Harleman, Jarrod;** Director of Clinical Education

B.S., Millersville University Program in Respiratory Therapy, 2010; M.S., Misericordia University, 2016; RRT, 2011. Neonatal- Pediatric Specialist, 2011

### Curriculum

Option in Respiratory Therapy

See separate block

**Additional Comments:**

#### Concentration in Respiratory Therapy (57 credits)

##### Type

Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

Required Respiratory Therapy Courses (13 credits)

**Fulfill ALL of the following requirements:**

Required Courses (1 credit)

**Complete ALL of the following Courses:**

- BIOL257 - Introduction to Allied Health Professions

**AND**

: Required Courses (12 credits)

**Earn a minimum grade of C- in the following:**

- BIOL254 - Human Anatomy & Physiology I
- BIOL255 - Human Anatomy & Physiology II
- BIOL361 - Microbiology  
OR BIOL361H - Hon: Microbiology

AND

Respiratory Therapy Professional Phase I (32 credits)

**Complete ALL of the following Courses:**

- RESP410 - Acute Cardiopulmonary Care
- RESP411 - Respiratory Care Techniques 1
- RESP412 - Principles of Aerosol & Gas Therapy
- RESP413 - Respiratory Assessment & Therapeutics
- RESP414 - Respiratory Care Techniques 2
- RESP419 - Respiratory Care in Alternate Sites
- RESP420 - Arterial Blood Gas Analysis
- RESP421 - Physiology of Mechanical Ventilation
- RESP422 - Pharmacology
- RESP423 - Infectious Diseases
- RESP424 - Non-Infectious Diseases
- RESP425 - Neonatology for the Respiratory Therapist
- RESP460 - Clinical Practice 1
- RESP461 - Clinical Practicum 1

Student must complete the Phase II coursework in order to be employed and certified as a respiratory therapist.

AND

Respiratory Therapy Professional Phase II (22 credits)

**Complete ALL of the following Courses:**

- RESP415 - Technical Aspects of Mechanical Ventilation
- RESP417 - Respiratory Care Techniques 3

- RESP462 - Clinical Practice 2
- RESP463 - Clinical Practicum 2
- RESP464 - Clinical Practicum 3
- RESP495 - Respiratory Care Research

Following completion of Phase II coursework, the student will receive a respiratory therapy certificate, which will permit them to seek employment as a respiratory therapist and qualifies them to take the certification exam.

**Additional Comments:**

**Req Related for Biology, BS (24-30 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Chemistry (16-20 credits)

**Fulfill ALL of the following requirements:**

Required Courses (12 credits)

**Complete ALL of the following Courses:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- CHEM326 - Biochemistry 1

AND

Organic Chemistry (4-8 credits)

**Complete at least 1 of the following:**

Option 1. Organic Chemistry I and II (8 credits)

**Complete ALL of the following Courses:**

- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2

OR

Option 2. Short Course in Organic Chemistry (4 credits)

**Complete ALL of the following Courses:**

- CHEM235 - Organic Chemistry

A C- or higher in [CHEM111 Introductory Chemistry 1](#) and [CHEM112 Introductory Chemistry 2](#) is a pre-requisite for [CHEM235 Organic Chemistry](#).

AND

Mathematics for Pre-Athl, Resp Ther, or PPOD: Calculus I or Honors Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Physics: Physics 1 with Algebra or Calculus (4-5 credits)

**Earn a minimum grade of C- in the following:**

- PHYS131 - Physics 1 with Algebra
- PHYS231 - Physics 1 with Calculus

Students who might be interested in attending graduate or professional school after completing their professional phase should also take [PHYS132 Physics 2 with Algebra](#) or [PHYS232 Physics 2 with Calculus](#).

**Additional Comments:**

## Courses

### BIOL100 - General Biology

#### Course Information

Course Title

General Biology

Subject code	Course Number	Academic Level
BIOL	100	Undergraduate

#### Course Description

An introduction to biology with emphasis on cell structure, metabolism, genetics, behavior, ecology, adaptations, organ systems and evolution. 2 hours lec., 2 hours lab. No credit toward BIOL major.

General Education Labels

G2, Lab (L)

### BIOL101 - Foundations of Biology

#### Course Information

Course Title

Foundations of Biology

Subject code	Course Number	Academic Level
BIOL	101	Undergraduate

#### Course Description

This introduction of biological principles provides the foundation of modern biological knowledge essential for all higher-level courses. Topics include cell structure and

function, cellular reproduction, energy acquisition, biochemical pathways, mechanisms of inheritance, natural selection, speciation and evolution. 2 hrs. lec., 1 hr. discussion, 3 hrs. lab. Offered in fall, spring. Prereq: Biology major or biology minor or permission of instructor.

General Education Labels

G2, Lab (L)

#### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

MATH101 or MATH151 or MATH160 or MATH161 or MATH211 or MATH311

**Complete ANY of the following Courses:**

- MATH101 - College Algebra
- MATH151 - Calculus for Management
- MATH160 - Precalculus
- MATH161 - Calculus 1
- MATH211 - Calculus 2
- MATH311 - Calculus 3

**Additional Comments:**

## BIOL108H - Hnrs:Freshman Biology Seminar

### Course Information

Course Title

Hnrs:Freshman Biology Seminar

Subject code	Course Number	Academic Level
BIOL	108H	Undergraduate

#### Course Description

Emphasis on the intellectual and historical context of the core ideas of BIOL 100 and an in-depth exploration of ideas raised in lecture and laboratory. Satisfies the honors lab when taken with Biology 100. 1 hr. seminar. Offered in fall, spring. Prereq or coreq: BIOL 100 or 101.

#### Simple Requisites

##### Completed Course Prerequisites or Corequisites

###### Type

Prerequisite

BIOL 100 or BIOL 101

##### Complete at least 1 of the following:

BIOL100

##### Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

OR

BIOL101

##### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

Additional Comments:

## BIOL179 - Experimental

### Course Information

Course Title

Experimental

Subject code	Course Number	Academic Level
BIOL	179	Undergraduate

#### Course Description

Experimental

## BIOL204 - Human Biology

### Course Information

Course Title

Human Biology

Subject code	Course Number	Academic Level
BIOL	204	Undergraduate

#### Course Description

A non-laboratory course in human biology designed specifically for those students planning to specialize in social work, psychology or related fields. An overview of the changes that take place in the course of a human lifetime; basics of human evolution, ecology, behavior, anatomy and physiology of the human organism are discussed. 3 hrs. lec. Offered fall, spring. Prereq: BIOL 100 or BIOL 101, or permission of instructor, and ENGL 110. No credit toward BIOL major.

#### General Education Labels

G2, Writing (W)

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

ENGL 110 or ENGL 110H

##### Complete ANY of the following Courses:

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

BIOL 100 or BIOL 101

##### Complete at least 1 of the following:

BIOL100

##### Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

OR

BIOL101

##### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

Or permission of instructor.

Additional Comments:

## BIOL205 - Heredity and Human Affairs

### Course Information

Course Title

Heredity and Human Affairs

Subject code	Course Number	Academic Level
BIOL	205	Undergraduate

#### Course Description

Genetics for non-majors with reference to human heredity and development. The social implications of recent advances in genetics are considered. 3 hrs. lec. Offered periodically. Prereq: BIOL 100 or BIOL 101, or permission of instructor or RN, and MATH 1\*\*. No credit toward BIOL major.

#### General Education Labels

G2

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

MATH 1\*\*

###### Complete ALL of the following Course Sets:

- Any 1-level MATH course(s)

BIOL 100 or BIOL 101

###### Complete at least 1 of the following:

BIOL100

###### Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

OR

BIOL101

###### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

Or must have permission of instructor or RN.

#### Additional Comments:

## BIOL207 - Human Sexuality

### Course Information

Course Title

Human Sexuality

Subject code	Course Number	Academic Level
BIOL	207	Undergraduate

#### Course Description

Study of the nature of human sexuality, particularly as it relates to biological phenomena. Discussions and films will cover the biology of human reproduction, biology of human sexual behavior and its implications. 3 hrs. lec. Offered periodically. Prereq: BIOL 100 or BIOL 101, or permission of instructor or RN, and ENGL 110. No credit toward BIOL major.

#### General Education Labels

G2, Writing (W), Diversity (D)

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

ENGL 110 or ENGL 110H

###### Complete ANY of the following Courses:

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

BIOL 100 or BIOL 101

###### Complete at least 1 of the following:

BIOL100

###### Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

OR

BIOL101

###### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

Must have permission of instructor or RN.

#### Additional Comments:

## BIOL208 - Plants and People

### Course Information

#### Course Title

Plants and People

Subject code	Course Number	Academic Level
BIOL	208	Undergraduate

#### Course Description

Explores uses of plants and plant products by man and their impact on the development of civilization. Characteristics of plants that make them suitable for food, shelter, clothing, energy, medicines, entertainment, objects of worship, microclimate modification and aesthetic objects are discussed. 3 hrs. lec. Offered periodically. Prereq: BIOL 100 or BIOL 101, or permission of instructor. No credit toward BIOL major.

#### General Education Labels

G2

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

BIOL 100 or BIOL 101

##### Complete at least 1 of the following:

BIOL100

##### Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

OR

BIOL101

##### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

Or must have permission of instructor.

##### Additional Comments:

Subject code	Course Number	Academic Level
BIOL	211	Undergraduate

#### Course Description

Study of invertebrate and vertebrate animals. Classification, reproduction, development, ecology, physiology, behavior, genetics, scientific methodology (including simple statistical approaches), and evolution. Laboratory studies include microscopy, dissections, live observations, computer exercises and experimentation. 3 hrs. lec., 3 hrs. lab. Prereq: BIOL 101 or BIOL 100 with a grade of C- or higher for non-majors; B- or higher in BIOL 100 for biology majors.

#### General Education Labels

G2, Lab (L)

#### Simple Requisites

##### Course Prerequisites for Non-Majors

##### Type

Prerequisite

BIOL 100 or BIOL 101

##### Complete at least 1 of the following:

BIOL100

##### Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

OR

BIOL101

##### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

##### Additional Comments:

##### Course Prerequisites for Biology Majors

##### Type

Prerequisite

BIOL 100 or BIOL 101

##### Complete at least 1 of the following:

BIOL100

##### Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

## BIOL211 - Concepts of Zoology

### Course Information

#### Course Title

Concepts of Zoology

---

 OR 

---

BIOL101

**Earn a minimum grade of C- in the following:**

- BIOL101 - Foundations of Biology

**Additional Comments:**

## BIOL212H - Hnrs:Zoology Seminar

### Course Information

**Course Title**

Hnrs:Zoology Seminar

Subject code	Course Number	Academic Level
BIOL	212H	Undergraduate

#### Course Description

Continuation of BIOL 211. Original investigations and/or readings and discussions of the zoological literature about the diverse adaptations of animals to their environments. Completion of both BIOL/HNRS 212 and BIOL 211 earns 5 credits to be counted as one course in the G2 block. BIOL/ HNRS 212 may not be used independently to fulfill a G2 requirement. 1 hr. seminar. Offered periodically. Prereq: completion of BIOL 211 with a grade of B- or higher and member of University Honors College, or 3.35 GPA, or instructor's permission.

#### Simple Requisites

**Course Prerequisites**

**Type**

Prerequisite

**Earn a minimum grade of B- in the following:**

- BIOL211 - Concepts of Zoology

University Honors College Member or 3.35 GPA or Instructor Permission

**Must be a member of the University Honors College, have a 3.35 GPA or permission from instructor.**

**Additional Comments:**

## BIOL221 - Concepts of Botany

### Course Information

**Course Title**

Concepts of Botany

Subject code	Course Number	Academic Level
BIOL	221	Undergraduate

#### Course Description

Consideration of features unique to plants such as localized meristems and open growth, water relations, photosynthesis, cell structure. An integrated study of plant structure and function using angiosperms as principal examples. Includes brief discussions of plant and fungal diversity, plant ecology and evolution and economic botany. 3 hrs. lec., 3 hrs. lab. Prereq: BIOL 101 or BIOL 100 with a grade of C- or higher; B- or higher in BIOL 100 for biology majors.

#### General Education Labels

G2, Lab (L)

#### Simple Requisites

**Course Prerequisites for Non-Majors**

**Type**

Prerequisite

BIOL 100 or BIOL 101

**Complete at least 1 of the following:**

BIOL100

**Earn a minimum grade of B- in the following:**

- BIOL100 - General Biology

---

 OR 

---

BIOL101

**Earn a minimum grade of C- in the following:**

- BIOL101 - Foundations of Biology

**Additional Comments:**

**Course Prerequisites for Majors**

**Type**

Prerequisite

BIOL100 or BIOL101

**Complete at least 1 of the following:**

BIOL 100

**Earn a minimum grade of B- in the following:**

- BIOL100 - General Biology

OR

BIOL 101

**Earn a minimum grade of C- in the following:**

- BIOL101 - Foundations of Biology

**Additional Comments:**

Instructor Permission

**Must be a member University Honors College or have a 3.35 GPA or permission of the instructor.**

**Additional Comments:**

## BIOL222H - Hnrs:Problem Solving In Botany

### Course Information

**Course Title**

Hnrs:Problem Solving In Botany

Subject code	Course Number	Academic Level
BIOL	222H	Undergraduate

#### Course Description

A botanical science investigation of a problem or series of problems. Students define a problem with a botanical basis, search appropriate literature, formulate hypotheses and collect appropriate information to test hypotheses through experimentation and data gathering. Completion of both BIOL/ HNRS 222 and BIOL 221 earns 5 credits to be counted as one course in the G2 block. BIOL/HNRS 222 may not be used independently to fulfill a G2 requirement. 1 hr. seminar. Offered periodically. Prereq: completion of BIOL 221 with a grade of B- or higher and member University Honors College, or 3.35 GPA, or instructor's permission.

#### Simple Requisites

##### Course Prerequisites

**Type**

Prerequisite

BIOL 221

**Earn a minimum grade of B- in the following:**

- BIOL221 - Concepts of Botany

University Honors College Member or 3.35 GPA or

## BIOL241 - Principles of Ecology

### Course Information

Subject code	Course Number	Academic Level
BIOL	241	Undergraduate

#### Course Description

Ecological principles underlying physiological adaptations of organisms to their environment, population dynamics, community analysis and ecosystem studies. Ecological and evolutionary theory emphasized with examples from aquatic and terrestrial habitats. 3 hrs. lec. Offered in fall, spring. Prereq: BIOL 100 or BIOL 101 and MATH 235, 151, 160 or 161. No credit toward BIOL major.

#### Free Form Requirements

BIOL241 requires (BIOL100 Or BIOL100H Or BIOL101) And ( MATH235 Or MATH151 Or MATH160 Or MATH161 Or MATH163H)

## BIOL254 - Human Anatomy & Physiology I

### Course Information

**Course Title**

Human Anatomy & Physiology I

Subject code	Course Number	Academic Level
BIOL	254	Undergraduate

#### Course Description

Study of the structure and function of the human body. This first semester of a two-semester sequence deals with the development, histology, gross anatomy, function and pathophysiology of the cutaneous, skeletal, muscular and nervous systems. 3 hrs. lec., 3 hrs. lab. Offered in fall. Prereq: BIOL 100 or BIOL 101.

#### Simple Requisites

##### Course Prerequisites

**Type**

Prerequisite

BIOL 100 or BIOL 101

**Complete at least 1 of the following:**

BIOL100

**Earn a minimum grade of B- in the following:**

- BIOL100 - General Biology

OR

BIOL101

**Earn a minimum grade of C- in the following:**

- BIOL101 - Foundations of Biology

**Additional Comments:**

## BIOL254H - Hon: Human Anatomy & Physiology I

### Course Information

Course Title

Hon: Human Anatomy & Physiology I

Subject code	Course Number	Academic Level
BIOL	254H	Undergraduate

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

BIOL 100 or BIOL 101

**Complete at least 1 of the following:**

BIOL100

**Earn a minimum grade of B- in the following:**

- BIOL100 - General Biology

OR

BIOL101

**Earn a minimum grade of C- in the following:**

- BIOL101 - Foundations of Biology

**Additional Comments:**

## BIOL255 - Human Anatomy & Physiology II

### Course Information

Course Title

Human Anatomy & Physiology II

Subject code	Course Number	Academic Level
BIOL	255	Undergraduate

Course Description

Study of the structure and function of the human body. This second semester of a two-semester sequence deals with the development, histology, gross anatomy, function and pathophysiology of the endocrine, circulatory, respiratory, digestive, urinary, and reproductive systems. 3 hrs. lec., 3 hrs. lab. Offered in spring.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

BIOL 254 or BIOL 254H

**Earn a minimum grade of C- in the following:**

- BIOL254 - Human Anatomy & Physiology I

OR BIOL254H - Hon: Human Anatomy & Physiology I

**Additional Comments:**

## BIOL255H - Hon: Human Anatomy & Physiology II

### Course Information

Course Title

Hon: Human Anatomy & Physiology II

Subject code	Course Number	Academic Level
BIOL	255H	Undergraduate

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

BIOL 254 or BIOL 254H

**Earn a minimum grade of C- in the following:**

- BIOL254 - Human Anatomy & Physiology I

OR BIOL254H - Hon: Human Anatomy &

Physiology I

**Additional Comments:**

## BIOL256 - Nutrition

### Course Information

Course Title

Nutrition

Subject code	Course Number	Academic Level
BIOL	256	Undergraduate

#### Course Description

Principles of adequate nutrition including digestion and metabolism of foods; energy, protein, mineral and vitamin needs; environmental and industrial contaminants, additives and carcinogens; dietary treatment for nutritional disorders. 3 hrs. lec. Offered in fall, spring. Prereq: BIOL 100 and ENGL 110. No credit toward BIOL major or minor. No credit given if credit earned for BIOL 352.

#### General Education Labels

G2, Writing (W)

#### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

BIOL 100 and ENGL 110 or ENGL 110H

#### Complete ALL of the following Courses:

- BIOL100 - General Biology
- ENGL110 - Introduction to College Writing  
OR ENGL110H - Hnrs:Introduction to College Writing

**Additional Comments:**

## BIOL257 - Introduction to Allied Health Professions

### Course Information

Course Title

Introduction to Allied Health Professions

Subject code	Course Number	Academic Level
BIOL	257	Undergraduate

#### Course Description

A survey of the various disciplines in the allied health field. The course describes the type of training offered by hospitals for students who are planning to major in a health profession and for students who are undecided on a career. 1 hr. lec. Offered in fall.

## BIOL266H - Hnrs:Adv Princ Cell Biology

### Course Information

Course Title

Hnrs:Adv Princ Cell Biology

Subject code	Course Number	Academic Level
BIOL	266H	Undergraduate

#### Course Description

Cellular operations and processes: hormonal control of cell physiology, secretory activities and vesicular trafficking, control of cell division, neurotransmission, control of muscle contraction, signal transduction, interrupted genes, cell recognition, etc. Students explore and lead discussions on one of these topics. Completion of both BIOL/HNRS 266 and BIOL 263 earns 5 credits to be counted as one course in the G2 block. BIOL/ HNRS 266 may not be used independently to fulfill a G2 requirement. 1 hr. seminar. Offered periodically. Prereq: completion of BIOL 362 or BIOL 263 with a grade of B- or higher and member of University Honors College, or 3.35 GPA, or instructor's permission.

#### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

BIOL 362 or BIOL 362H

#### Earn a minimum grade of B- in the following:

- BIOL362 - Cell and Developmental Biology
- BIOL362H - HNRS:Cell and Developmental Biology

University Honors College Member or 3.35 GPA or Instructor Permission

**Must be a member University Honors College or have a 3.35 GPA or permission of the instructor.**

**Additional Comments:**

## BIOL281 - Behavioral Biology

### Course Information

#### Course Title

Behavioral Biology

Subject code	Course Number	Academic Level
BIOL	281	Undergraduate

#### Course Description

Provides an evolutionary and ethological frame of reference for further studies in psychology and animal behavior. Lectures supplemented by demonstrations and A-V media cover animal diversity, nervous systems, sensory reception, communication and behavior. 3 hrs. lec. Offered in fall or spring. Prereq: BIOL 100 or BIOL 101, and ENGL 110. No credit toward BIOL major.

#### General Education Labels

G2, Writing (W)

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

BIOL 100 or BIOL 101 and ENGL 110 or ENGL 110H

#### Complete ALL of the following Courses:

- BIOL100 - General Biology  
OR BIOL101 - Foundations of Biology
- ENGL110 - Introduction to College Writing  
OR ENGL110H - Hnrs:Introduction to College Writing

#### Additional Comments:

the Chincoteague Bay Field Station. Prereq: BIOL 211 or 1 year of college biology or permission of instructor. No credit given If credit earned for BIOL 291.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

BIOL 211

#### Complete ALL of the following Courses:

- BIOL211 - Concepts of Zoology

Or 1 year of college biology or permission of the instructor.

#### Additional Comments:

## BIOL291 - Marine Biology

### Course Information

#### Course Title

Marine Biology

Subject code	Course Number	Academic Level
BIOL	291	Undergraduate

#### Course Description

Phylogeny, morphology and ecology of marine organisms. Similarities and differences in solutions to problems of life in the marine environment are stressed. 2 hrs. lec., 3 hrs. lab. Weekend field trips. Offered in fall. Prereq: C- or higher in BIOL 211.

#### General Education Labels

G2, Lab (L)

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

BIOL 211

#### Earn a minimum grade of C- in the following:

- BIOL211 - Concepts of Zoology

#### Additional Comments:

## BIOL290 - Coastal Marine Biology

### Course Information

#### Course Title

Coastal Marine Biology

Subject code	Course Number	Academic Level
BIOL	290	Undergraduate

#### Course Description

Introduction to marine organisms, marine communities, and the physical, chemical, and biological parameters that shape them; laboratory and field work will emphasize local coastal marine ecosystems. 2 hrs. lee., 3 hrs. lab. Offered in summer at

## BIOL292 - Problem Solving in Marine Biol

### Course Information

#### Course Title

Problem Solving in Marine Biol

Subject code	Course Number	Academic Level
BIOL	292	Undergraduate

#### Course Description

An introduction to foundational topics within marine biology, Including (1) quantitative reasoning for aquatic biologists, (2) marine geography and mapping, (3) life in a fluid environment, (4) microcosms: marine aquarium systems, (5) scientific Illustration, (6) electronic resources In marine biology, (7) Internships, coops, jobs, and careers in marine biology, and (8) current topics. Offered In summer. Prereq: placement in college-level mathematics or permission of instructor. No credit given if credit earned for BIOL 291.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

MATH100 or MATH101

##### Complete ANY of the following Courses:

- MATH100 - Survey of Mathematical Ideas
- MATH101 - College Algebra

##### Additional Comments:

## BIOL293 - Coastal Ornithology

### Course Information

#### Course Title

Coastal Ornithology

Subject code	Course Number	Academic Level
BIOL	293	Undergraduate

#### Course Description

Students will achieve a strong understanding of a variety of aspects in ornithology with the strongest focus on field techniques, including identification. Material covered will include evolution, anatomy, physiology, behavior and ecology. A portion of the course will include an overview of the avian families of North America, especially those found in coastal regions along the mid-Atlantic seaboard. The field component for this course will include mist netting, census techniques

and field identification. Emphasis will be placed on field research and a portion of the course will involve the development of a novel research idea in ornithology.

## BIOL294 - Coral Reef Ecology

### Course Information

#### Course Title

Coral Reef Ecology

Subject code	Course Number	Academic Level
BIOL	294	Undergraduate

#### Course Description

The focus of this course is to introduce students to the unique aspects of coral reefs, and to provide a working knowledge of reef species and reef ecology. Students will learn basic taxonomy, biology, ecology, and conservation of coral reefs and the organisms associated with this habitat. Laboratory will consist of hands-on field experiences in a coral reef habitat. Students will learn techniques for study and assessment of marine habitats and complete an independent project.

## BIOL295 - Marine Invertebrates

### Course Information

#### Course Title

Marine Invertebrates

Subject code	Course Number	Academic Level
BIOL	295	Undergraduate

#### Course Description

The invertebrate phyla with emphasis on development, reproduction, structure, function and classification of selected marine organisms. Laboratory and field experience in collection, preservation and classification of the phyla.

## BIOL296 - Marine Ecology

### Course Information

#### Course Title

Marine Ecology

Subject code	Course Number	Academic Level
BIOL	296	Undergraduate

#### Course Description

Interrelationships among animals, plants and physical and chemical aspects of the environment will be studied, with stress on adaptations for survival that are unique to the marine environment.

## BIOL300 - Co-Op Ed Experience in Biol

### Course Information

Course Title

Co-Op Ed Experience in Biol

Subject code	Course Number	Academic Level
BIOL	300	Undergraduate

Course Description

Co-Op Ed Experience in Biol

## BIOL318 - Comparative Vertebrate Anatomy

### Course Information

Course Title

Comparative Vertebrate Anatomy

Subject code	Course Number	Academic Level
BIOL	318	Undergraduate

Course Description

Functional and comparative anatomy of selected vertebrates with developmental and evolutionary perspectives. Lab will primarily consist of dissection and histological analyses of animals representing various vertebrate classes. Comparisons between animals at the same level, and to see diverse features superimposed upon a common pattern. 3 hrs. lec., 3 hrs. lab. Offered in spring, 2 of 3 years. Prereq: BIOL 211 and BIOL 362 or 263, or permission of instructor.

Simple Requisites

#### Course Prerequisites

Type

Prerequisite

BIOL 211

**Complete ALL of the following Courses:**

- BIOL211 - Concepts of Zoology

BIOL 362 or BIOL 362H

**Complete ANY of the following Courses:**

- BIOL362 - Cell and Developmental Biology
- BIOL362H - HNRS:Cell and Developmental Biology

Or must have permission of instructor.

**Additional Comments:**

## BIOL324 - Plant Biochemistry

### Course Information

Course Title

Plant Biochemistry

Subject code	Course Number	Academic Level
BIOL	324	Undergraduate

Course Description

A study of enzymes and pathways involved in plant intermediary as related to plant cell structure, function and plant development. Topics include plant bioenergetics, biosynthesis of plant hormones and elicitor molecules, signal perception and transduction, and secondary metabolites (natural products). 3 hrs. lec., 3 hrs. lab. Offered in spring. Prereq: BIOL 221 and BIOL 362 or BIOL 263, CHEM 232 or CHEM 235.

Simple Requisites

#### Course Prerequisites

Type

Prerequisite

BIOL 221 and BIOL 362 or BIOL 362H

**Earn a minimum grade of C- in the following:**

- BIOL221 - Concepts of Botany
- BIOL362 - Cell and Developmental Biology  
OR BIOL362H - HNRS:Cell and Developmental Biology

CHEM 232 or CHEM 235

**Complete ALL of the following Courses:**

- CHEM232 - Organic Chemistry 2  
OR CHEM235 - Organic Chemistry

**Additional Comments:**

## BIOL325 - Plant Systematics

### Course Information

Course Title

Plant Systematics

Subject code	Course Number	Academic Level
BIOL	325	Undergraduate

Course Description

A survey of local vascular flora, use of dichotomous keys in identifying plants, distinguishing features of common plant families, principles of plant systematics. Phylogenetic,

biosystematic and nomenclatural concepts are considered. 2 hrs. lec., 3 hrs. lab. Offered in fall. Prereq: C- or higher in BIOL 221.

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

BIOL 221  
**Earn a minimum grade of C- in the following:**

- BIOL221 - Concepts of Botany

**Additional Comments:**

## BIOL327 - Horticultural Science

### Course Information

Course Title

Horticultural Science

Subject code	Course Number	Academic Level
BIOL	327	Undergraduate

#### Course Description

Principles of horticultural science including regulation of plant growth, propagation and breeding, plant nutrition, pruning, plant diseases and special topics related to individual types of plants. Laboratory includes propagation and handling of plants in the greenhouse and field trips. 2 hrs. lec., 3 hrs. lab. Offered in spring. Prereq: BIOL 221 or permission of instructor.

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

BIOL 221  
**Earn a minimum grade of C- in the following:**

- BIOL221 - Concepts of Botany

Or must have permission of instructor.

**Additional Comments:**

## BIOL327H - Hon: Horticultural Science

### Course Information

Course Title

Hon: Horticultural Science

Subject code	Course Number	Academic Level
BIOL	327H	Undergraduate

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

BIOL 221  
**Earn a minimum grade of C- in the following:**

- BIOL221 - Concepts of Botany

Or must have permission of instructor.

**Additional Comments:**

## BIOL329 - Plant-Insect Interactions

### Course Information

Course Title

Plant-Insect Interactions

Subject code	Course Number	Academic Level
BIOL	329	Undergraduate

#### Course Description

The chemical and biological interactions between plants and insects will be extensively examined with particular emphasis on the chemical ecology of important behaviors such as herbivory, oviposition, and pollination. The chemical communications between plants and insects will be examined regarding how plant-produced chemicals influence, both directly and indirectly, the behaviors of insects. Chemical, anatomical, behavioral, environmental and evolutionary concepts linked to plant-insect interactions will be examined. Unique laboratory experiences will include the design and implementation of an independent research project and the rearing of Lepidoptera to establish research colonies. 2 hrs. lec., 3 hrs. lab. Prereq: BIOL 221, BIOL 211, and either CHEM 231 or CHEM 235 or permission of the instructor.

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

BIOL 221 and BIOL 211

Earn a minimum grade of C- in the following:

- BIOL221 - Concepts of Botany
- BIOL211 - Concepts of Zoology

CHEM 231 or CHEM 235

Complete ANY of the following Courses:

- CHEM231 - Organic Chemistry 1
- CHEM235 - Organic Chemistry

Or must have permission of instructor.

Additional Comments:

BIOL340 - Prspctv in Environm Awareness

Course Information

Course Title  
Prspctv in Environm Awareness

Subject code	Course Number	Academic Level
BIOL	340	Undergraduate

Course Description  
Interdisciplinary study of current environmental problems and their implications on future habitability of the planet. Physical, biological and social aspects of alterations to ecosystems presented and solutions considered. Course includes lectures, open forums and student participation. Offered in fall and spring. Prereq: COMM 100, ENGL 110, junior status and at least one science (G2 block) and one social science course (G3 block).

General Education Labels  
Perspectives (P)

Simple Requisites

Course Prerequisites

Type  
Prerequisite

ENGL 110 or ENGL 110H and COMM 100 or COMM 100H

Complete ALL of the following Course Sets:

- ENGL 110 and COMM 100

Credit Hours Completion (Junior or Senior Class Standing)

Earn at least 60 credits

G2 Block Science Course and G3 Block Social Science Course

Must have taken at least one science (G2 block) and one social science course (G3 block).

Additional Comments:

BIOL340H - HNRS:Prspctv in Environm Awareness

Earn at least 60 credits

G2 Block Science Course and G3 Block Social Science Course

Must have taken at least one science (G2 block) and one social science course (G3 block).

Additional Comments:

# BIOL343 - Principles of Ecology & Evolution

## Course Information

### Course Title

Principles of Ecology & Evolution

Subject code	Course Number	Academic Level
BIOL	343	Undergraduate

### Course Description

The basic concepts and principles of evolution and ecology. Topics include natural selection, genetic variation, macro- and microevolution, population genetics, evolutionary stable strategies, species concepts, biodiversity, extinction, reproductive strategies, population dynamics, the ecological niche concept, predation, competition, mutualism, parasitism, coevolution, biogeography, disturbance ecology, and ecosystem structure and function. 3 hrs. lec., 3 hrs. lab. Offered in fall and spring. Prereq: BIOL 101 or 100 with a grade of C- or higher; B- or higher in BIOL 100 for biology majors; C- or higher in BIOL 211 and BIOL 221; MATH 151, 160 or math equivalent; ENGL 110.

### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

BIOL211 and BIOL221

##### Earn a minimum grade of C- in the following:

- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany

MATH160 or MATH151 or MATH160 or MATH161 or MATH163H

##### Complete ANY of the following Courses:

- MATH160 - Precalculus
- MATH151 - Calculus for Management
- MATH160 - Precalculus
- MATH163H - Honors Calculus 1

ENGL 110 or ENGL 110H

##### Complete ANY of the following Courses:

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

#### Additional Comments:

#### Additional Course Prerequisites for Non-Majors

##### Type

##### Prerequisite

BIOL 100 or BIOL 101

##### Complete at least 1 of the following:

BIOL100

##### Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

OR

BIOL101

##### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

#### Additional Comments:

#### Additional Course Prerequisites for Biology Majors

##### Type

##### Prerequisite

BIOL 100 or BIOL 101

##### Complete at least 1 of the following:

BIOL100

##### Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

OR

BIOL101

##### Earn a minimum grade of C- in the following:

Additional Comments:

BIOL344 - Population Community Ecology

Course Information

Course Title

Population Community Ecology

Subject code

Course Number

Academic Level

BIOL

344

Undergraduate

Course Description

An intermediate course that will explore population biology, species interactions, trophic structure, community organization, succession, island biogeography and biological diversity at a more advanced level than BIOL 343. The laboratory portion of the course will focus on the use of quantitative methods and manipulative experimental designs to verify fundamental principles and test new hypotheses. 2 hrs. lec., 3 hrs. lab. Offered in fall or spring. Prereq: BIOL 343, MATH 151 or MATH 161, and BIOL 375.

Simple Requisites

Course Prerequisites

Type

Prerequisite

BIOL 343 or BIOL 343H

**Earn a minimum grade of C- in the following:**

- BIOL343 - Principles of Ecology & Evolution  
OR BIOL343H - Hon: Principles of Ecology & Evolution

MATH 151 or MATH 161 and BIOL 375 or BIOL 375H

**Complete ALL of the following Courses:**

- MATH151 - Calculus for Management  
OR MATH161 - Calculus 1
- BIOL375 - Biometry  
OR BIOL375H - Hon: Biometry

**Additional Comments:**

## BIOL346 - Ornithology

### Course Information

Course Title

Ornithology

Subject code	Course Number	Academic Level
BIOL	346	Undergraduate

#### Course Description

Ecology, behavior, taxonomy and evolution of birds with emphasis on field studies. 2 hrs. lec., 3 hrs. lab. Weekend field trips. Offered in spring. Prereq: C- or higher in BIOL 211.

#### General Education Labels

Writing (W)

#### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

BIOL 211

**Earn a minimum grade of C- in the following:**

- BIOL211 - Concepts of Zoology

**Additional Comments:**

Subject code	Course Number	Academic Level
BIOL	352	Undergraduate

#### Course Description

Biological and biochemical roles of nutrients for the proper functioning of the human body. Designed for students with a more advanced understanding of chemistry and math. Nutrition concepts will be used to design and evaluate personal diet plans. No credit given if credit earned for BIOL 256. (BIOL 256 does not count for biology majors or minors.) Offered in fall, spring. Prereq: C- or higher in BIOL 362 or BIOL 263, ENGL 110.

#### General Education Labels

Writing (W)

#### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

ENGL 110 or ENGL 110H

**Complete ANY of the following Courses:**

- ENGL110 - Introduction to College Writing

### Additional Comments:

## BIOL361 - Microbiology

### Course Information

#### Course Title

Microbiology

Subject code	Course Number	Academic Level
BIOL	361	Undergraduate

#### Course Description

The structure, physiology and ecology of microorganisms. Symbiotic associations between organisms will be examined in depth. Principles of microbial virulence and immunology are also discussed. Laboratory investigations include the isolation and identification of unknown microorganisms. 3 hrs. lec., 3 hrs. lab. Offered in fall. Prereq: BIOL101 C- or better or BIOL 100 B- or better; CHEM 112 (Prereq or Coreq) or CHEM 104

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

CHEM 112 or CHEM 112H (Prereq or Coreq) or CHEM 104

#### Complete ANY of the following Courses:

- CHEM112 - Introductory Chemistry 2
- CHEM112H - Hnrs:Introductory Chemistry 2
- CHEM104 - Gen Organic and Biochemistry 2

### Additional Comments:

Additional Comments:

## BIOL362 - Cell and Developmental Biology

### Course Information

Course Title

Cell and Developmental Biology

Subject code	Course Number	Academic Level
BIOL	362	Undergraduate

#### Course Description

Cell structure and function, including cell ultrastructure, methods used in cell biology research, cell motility, signal transduction, cell division, macromolecules, metabolism and the cytomembrane system. Basic concepts in developmental biology are also covered: fertilization, early embryonic cleavage in model systems, cell-cell communication, extracellular matrix and research methods. Examples from developmental biology are employed to illustrate the functions and roles of cellular structures and processes. Laboratory includes isolation of cell components, fertilization and cleavage in sea urchins, microscopy and other techniques used in the study of cell and developmental biology. 3 hrs. lec., 3 hrs. lab. Offered in fall and spring. Prereq: BIOL 101 or 100 with a grade of C- or higher; B- or higher in BIOL 100 for biology majors; ENGL 110; CHEM 112 (Prereq or Coreq).

## BIOL363 - Medical Microbiology

### Course Information

**Course Title**

Medical Microbiology

Subject code	Course Number	Academic Level
BIOL	363	Undergraduate

#### Course Description

An in-depth exploration into the nature of disease-causing microorganisms, with an emphasis on medically important bacteria, viruses and fungi. This course will provide a comprehensive analysis of the structure of microorganisms, epidemiology and pathogenesis of microbial diseases, control of microbes, host responses to infection, vaccination strategies and antimicrobial therapy. 3 hrs. lec. Offered periodically in fall or spring. Prereq: BIOL 362 or BIOL 263.

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

BIOL 362 or BIOL 362H

###### Earn a minimum grade of C- in the following:

- BIOL362 - Cell and Developmental Biology  
OR BIOL362H - HNRS:Cell and Developmental Biology

**Additional Comments:**

## BIOL363H - Hon: Medical Microbiology

### Course Information

**Additional Comments:**

## BIOL364 - Foundations of Genetics & Molecular Biology

### Course Information

**Course Title**

Foundations of Genetics & Molecular Biology

Subject code	Course Number	Academic Level
BIOL	364	Undergraduate

#### Course Description

Concepts and principles essential for a basic understanding of genetics and molecular biology are covered. Topics include Mendelian genetics, gene mapping, molecular structure of the gene, gene expression and regulation, chromatin structure, molecular methodologies, human genome project, population genetics and evolution. 3 hrs. lec., 3 hrs. lab. Offered in fall, spring. Prereq: BIOL 101 or 100 with a grade of C- or higher; B- or higher in BIOL 100 for biology majors; CHEM 112.

#### Simple Requisites

##### Course Prerequisites for Non-Majors

###### Type

Prerequisite

BIOL 101 or BIOL 100

###### Complete at least 1 of the following:

BIOL 101

###### Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

OR

BIOL 100

Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

Additional Comments:

Course Prerequisites for Biology Majors

Type

Prerequisite

BIOL 101 or BIOL 100

Complete at least 1 of the following:

BIOL 101

Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

OR

BIOL 100

Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

Additional Comments:

Additional Course Prerequisites

Type

Prerequisite

CHEM 112 or CHEM 112H

Complete ANY of the following Courses:

- CHEM112 - Introductory Chemistry 2
- CHEM112H - Hnrs:Introductory Chemistry 2

Additional Comments:

BIOL375 - Biometry

Course Information

Course Title  
Biometry

Subject code	Course Number	Academic Level
BIOL	375	Undergraduate

Course Description

Use of statistical techniques in descriptive and experimental biology and the use of mathematical models in describing biological phenomena. 3 hrs. lec. Offered in fall, spring.  
Prereq: BIOL 100 or BIOL 101, and MATH 151 or higher.

Simple Requisites

Course Prerequisites

Type

Prerequisite

BIOL 101 or BIOL 100

Complete at least 1 of the following:

BIOL 101

Earn a minimum grade of C- in the following:

- BIOL101 - Foundations of Biology

OR

BIOL 100

Earn a minimum grade of B- in the following:

- BIOL100 - General Biology

MATH 151 or Higher

Complete ANY of the following Course Sets:

- Any MATH 151 or higher course(s)

Additional Comments:

Additional Comments:

BIOL385 - Principles of Animal Behavior

Course Information

Course Title  
Principles of Animal Behavior

Subject code	Course Number	Academic Level
BIOL	385	Undergraduate

Course Description

Animal groups from protozoa to mammals, studied from an ethologist's point of view. Inheritance, learning, development and motivations will be covered. 2 hrs. lec., 3 hr. labs. Offered in spring. Prereq: BIOL 211 and Junior Standing. BIOL 343 recommended.

Simple Requisites

Course Prerequisites

Type

Prerequisite

BIOL 211

Earn a minimum grade of C- in the following:

- BIOL211 - Concepts of Zoology

BIOL 343 recommended.

Credit Hours Completion (Junior or Senior Class Standing)

Earn at least 60 credits

Additional Comments:

BIOL385H - H: Principles of Animal Behavior

BIOL 343 recommended.

Credit Hours Completion (Junior or Senior Class Standing)

Earn at least 60 credits

Additional Comments:

BIOL392 - Marine Mammals

Course Information

Course Title  
Marine Mammals

Subject code	Course Number	Academic Level
BIOL	392	Undergraduate

Course Description

The distribution, population size, physiology, evolution, adaptations and ecological relationships of marine mammals will be studied with an emphasis on mammals of the Atlantic Ocean. This course will stress hands-on understanding of marine mammal physiology, behavior, population dynamics and species diversity. Laboratory and field work will include an extended off-campus field trip to facilities holding and/or studying marine mammals of the NE Atlantic Ocean. In

addition, the laboratory portion of this course will emphasize data collection in the field, and subsequent analysis and presentation of the data through a required mini-research project.

BIOL396 - Ichthyology

Course Information

Course Title  
Ichthyology

Subject code	Course Number	Academic Level
BIOL	396	Undergraduate

Course Description

Morphology, anatomy, physiology, systematics and behavior of fishes. Laboratory and field experiences involve collection and study of specimens from nearby field sites. Zoogeography, life histories and speciation also discussed. Prereq: BIOL 211 or 1 year college biology (department override required if BIOL 211 not completed)

Simple Requisites

**Course Prerequisites**

**Type**  
Prerequisite

BIOL 211

**Earn a minimum grade of C- in the following:**

- BIOL211 - Concepts of Zoology

Or 1 year college biology (department override required if BIOL 211 not completed).

**Additional Comments:**

BIOL397 - Marine Botany

Course Information

Course Title  
Marine Botany

Subject code	Course Number	Academic Level
BIOL	397	Undergraduate

Course Description

The taxonomy, ecology, distribution, life histories, physiology and economic status of marine and marine-fringe plants of the Middle Atlantic coast. Covers techniques of collecting, preserving, identifying and cataloging.

BIOL400 - Co-Op Ed Experience in Biol

Course Information

Course Title  
Co-Op Ed Experience in Biol

Subject code	Course Number	Academic Level
BIOL	400	Undergraduate

Course Description

Co-Op Ed Experience in Biol

BIOL415 - Mammalogy

Course Information

Course Title  
Mammalogy

Subject code	Course Number	Academic Level
BIOL	415	Undergraduate

Course Description

Phylogeny, taxonomy, adaptations, behavior and ecological relationships of mammals. Acquisition of laboratory and field techniques are stressed. 2 hrs. lec., 3 hrs. lab. Weekend field trips. Offered periodically in fall. Prereq: C- or higher in BIOL 211.

General Education Labels

Or must have permission of instructor.

**Additional Comments:**

## BIOL424 - Mycology

### Course Information

Course Title

Mycology

Subject code	Course Number	Academic Level
BIOL	424	Undergraduate

### Course Description

The taxonomy, morphology, physiology and ecology of fungi. Laboratory activities include surveys of local populations of fleshy fungi, fungal pathogens of plants and soil fungi; physiological studies on growth and reproduction; experimental studies of fungal ecology; and studies of comparative morphology of diverse fungal groups. 2 hrs. lec., 3 hrs. lab. Offered periodically. Prereq: C- or higher in BIOL 221 and BIOL 362 or BIOL 263.

## Simple Requisites

### Course Prerequisites

#### Type

#### Prerequisite

BIOL 221 and BIOL 362 or BIOL 362H

#### Earn a minimum grade of C- in the following:

- BIOL362 - Cell and Developmental Biology  
OR BIOL362H - HNRS:Cell and Developmental Biology

#### Additional Comments:

## BIOL435 - Animal Physiology

### Course Information

#### Course Title

Animal Physiology

Subject code	Course Number	Academic Level
BIOL	435	Undergraduate

#### Course Description

Structure and functions of animals. Independent investigation and recent physiological theories emphasized. 2 hrs. lec., 3 hrs. lab. Offered in fall. Prereq: C- or higher in BIOL 211 and BIOL 362 or BIOL 263; CHEM 112.

#### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

BIOL 211 and BIOL 362 or BIOL 362H

#### Earn a minimum grade of C- in the following:

- BIOL211 - Concepts of Zoology
- BIOL362 - Cell and Developmental Biology  
OR BIOL362H - HNRS:Cell and Developmental Biology

CHEM 112

#### Complete ALL of the following Courses:

- CHEM112 - Introductory Chemistry 2

#### Additional Comments:

## BIOL436 - Plant Physiology

### Course Information

#### Course Title

Plant Physiology

Subject code	Course Number	Academic Level
BIOL	436	Undergraduate

#### Course Description

Life processes of plants. Water relations, nutrition, translocation, photosynthesis, metabolism, growth, development and reproduction will be considered with particular reference to higher plants. 2 hrs. lec., 3 hrs. lab. Offered in spring. Prereq: BIOL 221 and BIOL 362 or BIOL 263. CHEM 231 or 235 recommended.

#### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

BIOL 221 and BIOL 362 or BIOL 362H

#### Earn a minimum grade of C- in the following:

- BIOL221 - Concepts of Botany
- BIOL362 - Cell and Developmental Biology  
OR BIOL362H - HNRS:Cell and Developmental Biology

CHEM 231 or CHEM 235 recommended.

#### Additional Comments:

## BIOL437 - Endocrinology

### Course Information

#### Course Title

Endocrinology

Subject code	Course Number	Academic Level
BIOL	437	Undergraduate

#### Course Description

The role of hormones in the integration and control of physiological and developmental process is stressed as well as the molecular mechanism of hormone action. 3 hrs. lec. Offered in fall. Prereq: BIOL 362 or BIOL 263.

#### Simple Requisites

#### Course Prerequisites

##### Type

#### Prerequisite

BIOL 362 or BIOL 362H

#### Earn a minimum grade of C- in the following:

**Additional Comments:**

## BIOL442 - Wildlife Ecology & Management

### Course Information

Course Title

Wildlife Ecology & Management

Subject code	Course Number	Academic Level
BIOL	442	Undergraduate

#### Course Description

Wildlife management involves protecting and conserving endangered species, increasing the number of game species and controlling pest species. We will discuss how the understanding of wildlife ecology, history, policy and statistics help shape the decisions a wildlife manager makes in the real world. Unique laboratory experiences will include field orienteering, radiotracking, soil and water assessment, vegetative measurements and animal trapping. Students will use these lab experiences to collect and analyze data in the development of a wildlife management plan. 2 hrs.lec., 3 hrs.lab. Prereq: BIOL 375 and BIOL 343.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

BIOL 375 or BIOL 375H

#### Complete ALL of the following Courses:

- BIOL375 - Biometry  
OR BIOL375H - Hon: Biometry

BIOL 343 or BIOL 343H

#### Earn a minimum grade of C- in the following:

- BIOL343 - Principles of Ecology & Evolution  
OR BIOL343H - Hon: Principles of Ecology & Evolution

**Additional Comments:**

## BIOL443 - Conservation Biology

### Course Information

**Course Title**

Conservation Biology

Subject code	Course Number	Academic Level
BIOL	443	Undergraduate

### Course Description

Population ecology and genetics applied to the conservation of rare, threatened and endangered species. Emphasis on the regulation of abundance, theoretical models of population dynamics, experimental design, sampling approaches and case studies. 2 hrs. lec., 3 hrs. lab. Offered annually (usually in fall). Prereq: C- or higher in BIOL 101, 343.

### Simple Requisites

#### Course Prerequisites

**Type**

Prerequisite

BIOL 101 and BIOL 343 or BIOL 343H

**Earn a minimum grade of C- in the following:**

- BIOL101 - Foundations of Biology
- BIOL343 - Principles of Ecology & Evolution  
OR BIOL343H - Hon: Principles of Ecology & Evolution

**Additional Comments:**

### Course Description

Study of the physical and biotic aspects of temporary pools, streams, ponds and rivers. Field trips. 2 hrs. lec., 3 hrs. lab. Offered in spring. Prereq: BIOL 211, 221, PHYS 132 or 232 desirable.

### Simple Requisites

#### Course Prerequisites

**Type**

Prerequisite

BIOL 211 and BIOL 221

**Earn a minimum grade of C- in the following:**

- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany

PHYS 132 or PHYS 232

**Complete ALL of the following Courses:**

- PHYS132 - Physics 2 with Algebra  
OR PHYS232 - Physics 2 with Calculus

PHYS 232 desirable.

**Additional Comments:**

## BIOL446 - Ecosystems

### Course Information

**Course Title**

Ecosystems

Subject code	Course Number	Academic Level
BIOL	446	Undergraduate

### Course Description

Ecosystem processes including nutrient cycles, energy budgets and trophodynamics are discussed for terrestrial, coastal and marine ecosystems. Processes are discussed for ecosystem types such as those controlled by fire, volcanism, chemosynthetic bacteria, detrital food resources, herbivory and predation. Ecosystems viewed in a global perspective to understand global carbon and nutrient cycles. 3 hrs. lec./discussion. Offered in spring of even years. Prereq: BIOL 343 and ENGL 110.

**Additional Comments:**

BIOL447 - Chesapeake Bay System

Course Information

Course Title  
Chesapeake Bay System

Subject code	Course Number	Academic Level
BIOL	447	Undergraduate

**Course Description**  
Study of the effects of human activity on the ecosystems of the Chesapeake Bay System and the role of ecological principles in current restoration efforts. Investigation of how agricultural practices, riparian forests, tidal and nontidal wetlands and urban development affect the input of nutrients and toxins, and the estuarine processes in Chesapeake Bay that cause eutrophication and population declines in fisheries. 2 hrs. lec., 4 hrs. lab/field. Offered in fall. Prereq: BIOL 343 and ENGL 110.

**General Education Labels**  
Writing (W)

Simple Requisites

ENGL 110 or ENGL 110H

**Complete ALL of the following Courses:**

- ENGL110 - Introduction to College Writing  
**OR** ENGL110H - Hnrs:Introduction to College Writing

**Additional Comments:**

BIOL448 - Wetland Ecology and Management

Course Information

Course Title  
Wetland Ecology and Management

Subject code	Course Number	Academic Level
BIOL	448	Undergraduate

**Course Description**  
The investigation of the various biotic and abiotic components of wetland ecosystems, with an emphasis on wetland vegetation, hydrology, and biogeochemical processes. Course content will be a mix of fundamental and applied ecology and will cover topics such as vegetation succession, hydric soil, nutrient cycling, wetland classification and delineation, restoration and management, invasive species, and wetland loss. Prereq: BIOL 343 or permission of instructor.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

BIOL 343 or BIOL 343H

**Earn a minimum grade of C- in the following:**

- BIOL343 - Principles of Ecology & Evolution
- BIOL343H - Hon: Principles of Ecology & Evolution

Or must have permission of instructor.

**Additional Comments:**

## BIOL454 - Immunology

### Course Information

Course Title

Immunology

Subject code	Course Number	Academic Level
BIOL	454	Undergraduate

#### Course Description

The development of innate, humoral and cellular immunity to an antigenic stimulus is discussed. Role of these mechanisms in immunogenetics, immunologically mediated disease, immunological protection against infectious agents, use of antibodies in diagnostic tests, and antibody- and cell-based cancer therapy are also considered. 3 hrs. lec. Prereq: BIOL 362 or 263

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

BIOL 362 or BIOL 362H

##### Earn a minimum grade of C- in the following:

Biology

Additional Comments:

## BIOL455 - Cardiopulmonary Physiology

### Course Information

Course Title

Cardiopulmonary Physiology

Subject code	Course Number	Academic Level
BIOL	455	Undergraduate

#### Course Description

Cardiovascular and pulmonary function. Covers heart muscle, electro-mechanical properties of the heart, hemodynamics, mechanics of ventilation, gas transport and cardiopulmonary insufficiencies. Laboratory exercises include use of human subjects, animal experimentation and computer simulations. 2 hrs. lec., 3 hrs. lab. Offered in spring. Prereq: BIOL 211, 362 or 263, 356 and CHEM 231 or 235 for the B.S. in biology; CHEM 103 and CHEM 104 for the B.S. in allied health technology.

#### Simple Requisites

##### Course Prerequisites for B.S. in Biology

##### Type

Prerequisite

CHEM 231 or CHEM 235

##### Complete ANY of the following Courses:

- CHEM231 - Organic Chemistry 1
- CHEM235 - Organic Chemistry

Additional Comments:

##### Course Prerequisites for B.S. in Allied Health Technology

##### Type

Prerequisite

CHEM 103 and CHEM 104

##### Complete ALL of the following Courses:

## BIOL462 - Molecular Biology

### Course Information

#### Course Title

Molecular Biology

Subject code	Course Number	Academic Level
BIOL	462	Undergraduate

#### Course Description

The molecular and macromolecular basis of life. The structure and function of cellular macromolecules, molecular techniques of genetic analysis and the control of cellular processes will be examined in depth. 3 hrs. lec., 3 hrs. lab. Offered in fall. Prereq: BIOL 362, 364 or 365, and ENGL 110. BIOL 461 or CHEM 326 recommended.

#### General Education Labels

Writing (W)

#### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

BIOL 362 or BIOL 362H and BIOL 364

#### Earn a minimum grade of C- in the following:

- BIOL362 - Cell and Developmental Biology  
OR BIOL362H - HNRS:Cell and Developmental Biology
- BIOL364 - Foundations of Genetics & Molecular Biology

## BIOL463 - Virology

### Course Information

#### Course Title

Virology

Subject code	Course Number	Academic Level
BIOL	463	Undergraduate

#### Course Description

Comprehensive investigation of animal viruses. In- depth analysis of virus particles, modes of replication, epidemiology of virus infection, virus host interactions and vaccines. Focus is on medically important viruses such as herpes, influenza, hepatitis and human immunodeficiency viruses. Laboratory exercises include the culture and analysis of viruses in bacterial and mammalian systems. 3 hrs. lec., 3 hrs. lab. Offered in fall. Prereq: 364 or permission of instructor.

#### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

BIOL 364

#### Earn a minimum grade of C- in the following:

- BIOL364 - Foundations of Genetics & Molecular Biology

Or must have permission of instructor.

### Additional Comments:

## BIOL465 - Developmental Biology

### Course Information

#### Course Title

Developmental Biology

Subject code	Course Number	Academic Level
BIOL	465	Undergraduate

### Course Description

Principles of development and differentiation in animals and plants at the molecular and supramolecular levels of organization. The laboratory includes both experimental and descriptive embryology. 2 hrs. lec., 3 hrs. lab. Offered in spring. BIOL 362 or 263, 364 or 365, or permission of instructor.

### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

BIOL362 or BIOL362H and BIOL364

#### Earn a minimum grade of C- in the following:

- BIOL362 - Cell and Developmental Biology

- BIOL364 - Foundations of Genetics & Molecular Biology

Or must have permission of instructor.

#### Additional Comments:

## BIOL466 - Molecular and Cell Techniques

### Course Information

#### Course Title

Molecular and Cell Techniques

Subject code	Course Number	Academic Level
BIOL	466	Undergraduate

#### Course Description

Application and theory of techniques commonly used in biotechnology, and cell and molecular biological research. Cell culture, plant tissue culture, immunological techniques, cell fusion, radioisotope labeling and detection, centrifugation, microscopic techniques and electrophoretic protocols will be covered in depth. Intended for biology B.S. majors in the molecular biology/biotechnology option. 5 hrs. integrated lecture/lab. Offered in spring. Prereq: BIOL 462. BIOL 461 recommended.

### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

BIOL 462

#### Complete ALL of the following Courses:

- BIOL462 - Molecular Biology

Or must have permission of instructor.

#### Additional Comments:

## BIOL467 - Human Genetics:Analysis/Apps

### Course Information

#### Course Title

Human Genetics:Analysis/Apps

Subject code	Course Number	Academic Level
BIOL	467	Undergraduate

#### Course Description

Applications of traditional and molecular approaches in understanding the genetic basis for human traits. Gene mapping and identification, cytogenetics and DNA sequence analysis will be covered in depth. Gene function, regulation, mutations and cloning will be explored in the context of human diseases. The Human Genome Project, genetic diagnostics, gene therapy and transgenic organisms will be addressed, along with the genetic basis of cancer, behavior, immunity and development. Genetic counseling and medical genetics will be discussed. 3 hrs. lec./discussion. Offered annually. Prereq: BIOL 364 or 365, ENGL 110.

#### General Education Labels

Writing (W)

### Simple Requisites

- ENGL110 - Introduction to College Writing  
OR ENGL110H - Hnrs:Introduction to College Writing

#### Additional Comments:

## BIOL470 - Biology Colloquium

### Course Information

Course Title

Biology Colloquium

Subject code	Course Number	Academic Level
BIOL	470	Undergraduate

#### Course Description

An opportunity to meet visiting scientists and to discuss their research work. Students will read and discuss, in a seminar format, assigned papers prior to the presentation of the colloquium by the visiting scholar. In addition, they will be expected to participate in discussions with the speaker after the colloquium hosted by the Department of Biology. Offered periodically. Prereq: BIOL 101 or BIOL 100. Other courses indicated by instructor.

#### Simple Requisites

## BIOL473 - Methods/Teaching Biological Issues in the Secondary School

### Course Information

Course Title

Methods/Teaching Biological Issues in the Secondary School

Subject code	Course Number	Academic Level
BIOL	473	Undergraduate

### Course Description

A seminar for prospective life science teachers to consider methods a teacher might employ to present controversial aspects of biology in intellectually honest, balanced ways which also demonstrate sensitivity to the various moral, ethical and political dilemmas secondary school students may encounter. 1 hr. lecture. Offered annually. Co- or prereq: EDSE 435; required of all B.S.Ed./BIOL students prior to or with EDSE 461.

### Simple Requisites

<b>Completed Course Prerequisite or Corequisite</b> <b>Type</b> Prerequisite
EDSE435 <b>Complete ALL of the following Courses:</b> <ul style="list-style-type: none"> <li>EDSE435 - Teaching of Science in Secondary Schools</li> </ul>

## BIOL483 - Applied Ethology

### Course Information

Course Title

Applied Ethology

Subject code	Course Number	Academic Level
BIOL	483	Undergraduate

### Course Description

An introduction to applied animal behavior, including (1) the behavior of companion animals, animals in zoos & aquaria, animals in labs, and animals in agriculture/aquaculture; (2) animal welfare, (3) ethical issues in animal use, (4) methods of training captive animals, and (5) career options and certifications in animal behavior. 3 hrs lecture. Offered periodically. Prereq: PSYC 316 or BIOL 385; PSYC 300 or BIOL 300 or PSYC 495; Senior standing or permission of instructor. Students cannot also earn credit in PSYC 483.

### Simple Requisites

<b>Course Prerequisites</b> <b>Type</b> Prerequisite
--

PSYC 316 or BIOL 385 or BIOL 385H

**Complete ANY of the following Courses:**

- PSYC316 - Adv Lab Learn Beh Analysis
- BIOL385 - Principles of Animal Behavior
- BIOL385H - H: Principles of Animal Behavior

PSYC 300 or BIOL 300 or PSYC 495

**Complete ANY of the following Courses:**

- PSYC300 - Co-Op Ed Experience in Psyc
- BIOL300 - Co-Op Ed Experience in Biol
- PSYC495 - Directed Projects in Psych

Credit Hours Completion (Senior Class Standing)

**Earn at least 90 credits**

Or must have permission of instructor.

**Additional Comments:**

## BIOL484 - Mech of Animal Behavior

### Course Information

**Course Title**

Mech of Animal Behavior

Subject code	Course Number	Academic Level
BIOL	484	Undergraduate

**Course Description**

An exploration of the physiological mechanisms that regulate animal behavior. Nervous and endocrine system physiology are examined and applied to understanding behavioral neuroendocrinology, the integrative study of hormones, brain, and behavior. Research methods in behavioral physiology and the importance of genetic control mechanisms are recurrent topics. A comparative approach is taken, and behavioral physiology is considered in ecological and evolutionary contexts. 3 hrs. lec. Prereq: BIOL 362 or permission of instructor. BIOL 385 recommended.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

BIOL 362 or BIOL 362H

**Earn a minimum grade of C- in the following:**

- BIOL362 - Cell and Developmental Biology  
**OR** BIOL362H - HNRS:Cell and Developmental Biology

Or must have permission of instructor.

**Additional Comments:**

BIOL 385 recommended.

## BIOL486 - Behavioral Ecology

### Course Information

**Course Title**

Behavioral Ecology

Subject code	Course Number	Academic Level
BIOL	486	Undergraduate

**Course Description**

An in-depth examination of the evolution of animal behavior via natural selection with a on the adaptive significance (i.e., fitness consequences) of behaviors involved in foraging, resource defense, cooperation, mating, parental care, and communication. Predator-prey interactions, animal sociality, and approaches to studying behavioral ecology are recurrent topics. Involves a substantial field component where students learn to observe, document, and quantify animal behavior in the wild. 2 hrs. lec., 3 hrs. lab/field. Prereq: C- or higher in BIOL 343. BIOL 385 recommended.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

BIOL 343 or BIOL 343H

**Earn a minimum grade of C- in the following:**

- BIOL343 - Principles of Ecology & Evolution  
**OR** BIOL343H - Hon: Principles of Ecology & Evolution

BIOL 385 recommended.

**Additional Comments:**

## BIOL495 - Biological Oceanography

### Course Information

Course Title

Biological Oceanography

Subject code	Course Number	Academic Level
BIOL	495	Undergraduate

#### Course Description

Intensive summer lecture and field course teaching the physical, chemical and biological factors controlling the structure and dynamics of marine ecosystems. Classroom instruction focuses on theoretical principles concerning the environmental control of phytoplankton communities by sunlight, nutrients and grazing. The dynamics and complexity of marine food webs including the phytoplankton, zooplankton and upper trophic levels. Laboratory and field instruction focuses on ocean monitoring and sampling from research vessels, biomass determination and identification of key plankton species, measurement of the rates of net and gross primary production using oxygen light-dark bottle experiments, and optical and chemical techniques of determining phytoplankton biomass and species composition. Approximately 40-50% of course time is spent in field. Prerequisites: C- or higher in ESCI 261 and BIOL (211 or 221), or permission of instructor.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ESCI261

#### Earn a minimum grade of C- in the following:

- ESCI261 - Introduction to Oceanography

BIOL211 or BIOL221

#### Complete ANY of the following Courses:

- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany

Or must have permission of instructor.

#### Additional Comments:

## BIOL498 - Independent Study

### Course Information

Course Title

Independent Study

Subject code	Course Number	Academic Level
BIOL	498	Undergraduate

#### Course Description

Student research on a topic agreed on with faculty supervisor. Applicant for independent study is required to submit a Request for Special Study Assignment form.

## BIOL499 - Departmental Honors

### Course Information

Course Title

Departmental Honors

Subject code	Course Number	Academic Level
BIOL	499	Undergraduate

## FYEX100F - First-Year Experience: The evolutionary history of the human body

### Course Information

#### Course Title

First-Year Experience: The evolutionary history of the human body

Subject code	Course Number	Academic Level
FYEX	100F	Undergraduate

#### Course Description

FYEX 100: The evolutionary history of the human body

The human body is the product of millions of years of evolution. We can trace this history by examining our genes and comparing the arrangement of our bones to those of other animals. This course will explore the evolution of vertebrate anatomy through investigations in paleontology, comparative anatomy and evolutionary developmental biology. In this course, you will: (1) embrace your natural curiosity by exploring state-of-the-art research, (2) discover your passion and career goals in biology and the medical professions, and (3) develop the skills necessary for being successful in college and beyond.

Biology and Allied Health majors will be enrolled into this class

## RESP410 - Acute Cardiopulmonary Care

### Course Information

#### Course Title

Acute Cardiopulmonary Care

Subject code	Course Number	Academic Level
RESP	410	Undergraduate

### Course Description

This course is designed to give the student a complete understanding of artificial airways, manual artificial ventilation methods, and cardiopulmonary resuscitation. A basic study of cardiac physiology and electrocardiograph interpretation will be discussed. Integrated lecture/lab. Prereq: BIOL 356, for the B.S. in biology; BIOL 254 and BIOL 255 for the B.S. in allied health technology. Basic Life Support for Healthcare Providers, for both programs.

### Simple Requisites

#### Course Prerequisites for B.S. in Biology

# RESP411 - Respiratory Care Techniques 1

## Course Information

### Course Title

Respiratory Care Techniques 1

Subject code	Course Number	Academic Level
RESP	411	Undergraduate

### Course Description

A study of the basic techniques of respiratory care, including professional organizations, ethics, legal aspects, aerosol phamacology, lung hyper- inflation therapy and basic diagnostic appliances. Integrated lecture/lab. Prereq: BIOL 356 for the B.S. in biology; BIOL 254 and BIOL 255 for the B.S. in allied health technology.

### Simple Requisites

#### Course Prerequisites for B.S. in Biology

##### Type

Prerequisite

BIOL 356

##### Complete ALL of the following Courses:

- BIOL356 - Functional Human Anatomy

Additional Comments:

Additional Comments:

# RESP412 - Principles of Aerosol & Gas Therapy

## Course Information

### Course Title

Principles of Aerosol & Gas Therapy

Subject code	Course Number	Academic Level
RESP	412	Undergraduate

### Course Description

A study of medical gas therapy, bland and pharmacologic aerosol administration, and related theory guides the learner in making sound judgments in their application. Particular attention is given to the operating principles of the devices used in this therapy and their use and maintenance. Integrated lecture/lab. Prereq: BIOL 356, CHEM 112, and PHYS 131 for the B.S. in biology; BIOL 254 and BIOL 255, CHEM 103 and CHEM 104, and PHYS 131 for the B.S. in allied health technology.

### Simple Requisites

#### Course Prerequisites for B.S. in Biology

##### Type

Prerequisite

BIOL 356 and PHYS 131 and CHEM 112 or CHEM 112H

##### Complete ALL of the following Courses:

- BIOL356 - Functional Human Anatomy
- PHYS131 - Physics 1 with Algebra
- CHEM112 - Introductory Chemistry 2  
OR CHEM112H - Hnrs:Introductory Chemistry 2

Additional Comments:

- PHYS131 - Physics 1 with Algebra

Additional Comments:

## RESP413 - Respiratory Assessment & Therapeutics

### Course Information

#### Course Title

Respiratory Assessment & Therapeutics

Subject code	Course Number	Academic Level
RESP	413	Undergraduate

#### Course Description

The lungs and chest wall are studied to gain an understanding of breathing mechanics in health and disease. Therapeutic measures are considered as to their value in reducing the work of breathing imposed by disease. Each student learns to examine the pulmonary patient and to integrate and evaluate the findings. Bronchopulmonary hygiene, chest physical therapy techniques and an overview of pulmonary rehabilitation are introduced and discussed. Prereq: RESP 411, RESP 412.

#### Simple Requisites

##### Course Prerequisites

##### Type

##### Prerequisite

RESP 411 and RESP 412

##### Complete ALL of the following Courses:

- RESP411 - Respiratory Care Techniques 1
- RESP412 - Principles of Aerosol & Gas Therapy

##### Additional Comments:

## RESP414 - Respiratory Care Techniques 2

### Course Information

#### Course Title

Respiratory Care Techniques 2

Subject code	Course Number	Academic Level
RESP	414	Undergraduate

#### Course Description

The chest-imaging component prepares the student to evaluate chest X-ray films and to recognize and track the progression/resolution of abnormalities. CT scanning and MRI are given emphasis proportional to their utilization in chest medicine. Measurement and calculation of volume, flow rate, and ratios, and their physiologic significance, and testing procedures for performing various pulmonary function studies are included. Prereq: RESP 411.

#### Simple Requisites

##### Course Prerequisites

##### Type

##### Prerequisite

RESP 411

##### Complete ALL of the following Courses:

- RESP411 - Respiratory Care Techniques 1

##### Additional Comments:

## RESP415 - Technical Aspects of Mechanical Ventilation

### Course Information

#### Course Title

Technical Aspects of Mechanical Ventilation

Subject code	Course Number	Academic Level
RESP	415	Undergraduate

#### Course Description

The mechanics of basic models: Discussion includes the mechanics of ventilator models classification, the control interrelation, the electro-pneumatic/ microprocessor systems and the audiovisual alarm systems; a selection of current ventilator models are presented using workshops to provide hands-on experience in troubleshooting, setup, control function, alarm setting and mode change. Prereq: RESP 421.

#### Simple Requisites

##### Course Prerequisites

##### Type

##### Prerequisite

RESP 421

##### Complete ALL of the following Courses:

- RESP421 - Physiology of Mechanical Ventilation

##### Additional Comments:

## RESP417 - Respiratory Care Techniques 3

### Course Information

#### Course Title

Respiratory Care Techniques 3

Subject code	Course Number	Academic Level
RESP	417	Undergraduate

### Course Description

The course provides an overview of cardiovascular physiology, management of invasive monitoring catheters, calculation of all commonly used mechanics, and interpretation of data in pathologic states. Also, each student researches, prepares a journal-quality paper and presents a 40-50- minute verbal presentation on a selected pulmonary disease condition. Prereq: ENGL 110, RESP 414.

### General Education Labels

Writing (W)

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ENGL 110 or ENGL 110H and RESP 414

#### Complete ALL of the following Courses:

- ENGL110 - Introduction to College Writing  
OR ENGL110H - Hnrs:Introduction to College Writing
- RESP414 - Respiratory Care Techniques 2

**Additional Comments:**

## RESP419 - Respiratory Care in Alternate Sites

### Course Information

#### Course Title

Respiratory Care in Alternate Sites

Subject code	Course Number	Academic Level
RESP	419	Undergraduate

### Course Description

Alternate sites for respiratory care are studied to give the students a better understanding of the career opportunities within their reach. The students will understand their role as respiratory therapists in the home care, subacute care and pulmonary rehabilitation settings. Lecture, guest speakers, a camp experience, a one-day site visit and in-class presentations are included. Prereq: RESP 413.

### Simple Requisites

#### Course Prerequisites

#### Type

Prerequisite

RESP 413

#### Complete ALL of the following Courses:

- RESP413 - Respiratory Assessment & Therapeutics

**Additional Comments:**

## RESP420 - Arterial Blood Gas Analysis

### Course Information

#### Course Title

Arterial Blood Gas Analysis

Subject code	Course Number	Academic Level
RESP	420	Undergraduate

### Course Description

The physiologic role of various gas pressures (alveolar gas pressures, blood gas pressures, inspired gas pressures, tissue gas pressures, etc.) and pulmonary abnormalities causing hypoxemia are discussed. Control of ventilation, oxygen transport (including oxygen content and oxygen dissociation curve) and carbon dioxide transport are presented. The student will interpret acid-base imbalances and blood gas abnormalities. Prereq: CHEM 112 and PHYS 131 for the B.S. in biology; CHEM 103 and CHEM 104 and PHYSICS 131 for the B.S. in allied health technology.

### Simple Requisites

#### Course Prerequisites for B.S. in Biology

##### Type

Prerequisite

CHEM 112 and PHYS 131

#### Complete ALL of the following Courses:

- CHEM112 - Introductory Chemistry 2
- PHYS131 - Physics 1 with Algebra

**Additional Comments:**

#### Course Prerequisites for B.S. in Allied Health Technology

##### Type

Prerequisite

CHEM 103 and CHEM 104 and PHYS 131

**Complete ALL of the following Courses:**

- CHEM103 - Gen Organic and Biochemistry 1
- CHEM104 - Gen Organic and Biochemistry 2
- PHYS131 - Physics 1 with Algebra

**Additional Comments:**

## RESP421 - Physiology of Mechanical Ventilation

### Course Information

**Course Title**

Physiology of Mechanical Ventilation

Subject code	Course Number	Academic Level
RESP	421	Undergraduate

### Course Description

Aspects of continuous positive and negative pressure breathing are discussed. Special emphasis is placed on the complications of mechanical ventilation and analysis of various waveform patterns produced by different ventilator modes. Theory and measurement of airway resistance and lung thorax compliance are presented. The student learns guidelines and calculations for correct ventilator setup. Prereq: RESP 411 and RESP 420.

### Simple Requisites

**Course Prerequisites**

**Type**

Prerequisite

RESP 411 and RESP 420

**Complete ALL of the following Courses:**

- RESP411 - Respiratory Care Techniques 1
- RESP420 - Arterial Blood Gas Analysis

**Additional Comments:**

## RESP422 - Pharmacology

### Course Information

**Course Title**

Pharmacology

Subject code	Course Number	Academic Level
RESP	422	Undergraduate

### Course Description

A concise core of pharmacologic knowledge that will be used by the respiratory therapist to understand how chemical agents affect disease processes. Emphasis is placed on the chemical and molecular structures, toxic aspects, actions and hazards of drugs. Prereq: CHEM 112 for the B.S. in biology; CHEM 104 for the B.S. in allied health technology.

### Simple Requisites

**Course Prerequisites for B.S. in Biology**

**Type**

Prerequisite

CHEM 112

**Complete ALL of the following Courses:**

- CHEM112 - Introductory Chemistry 2

**Additional Comments:**

**Course Prerequisites for B.S. in Allied Health Technology**

**Type**

Prerequisite

CHEM 104

**Complete ALL of the following Courses:**

- CHEM104 - Gen Organic and Biochemistry 2

**Additional Comments:**

## RESP423 - Infectious Diseases

### Course Information

**Course Title**

Infectious Diseases

Subject code	Course Number	Academic Level
RESP	423	Undergraduate

### Course Description

Infectious diseases resulting in respiratory infections, host defense mechanisms, the immunology of the respiratory system and temporary or permanent failure of many protective mechanisms of the body to ward off infectious agents. Fluid and electrolyte management is stressed. Prereq: BIOL 461.

### Simple Requisites

**Course Prerequisites**

**Type**

#### Prerequisite

BIOL 461H

#### Complete ALL of the following Courses:

- BIOL461H - H:General Microbiology (Inactive)

#### Additional Comments:

## RESP424 - Non-Infectious Diseases

### Course Information

#### Course Title

Non-Infectious Diseases

Subject code	Course Number	Academic Level
RESP	424	Undergraduate

#### Course Description

Diseases of the airway, parenchyma and pleura are covered in an assessment-based format to understand the etiology, diagnosis, treatment and management of patients with noninfectious pulmonary diseases. Prereq: RESP 413.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

RESP 413

#### Complete ALL of the following Courses:

- RESP413 - Respiratory Assessment & Therapeutics

#### Additional Comments:

## RESP425 - Neonatology for the Respiratory Therapist

### Course Information

#### Course Title

Neonatology for the Respiratory Therapist

Subject code	Course Number	Academic Level
RESP	425	Undergraduate

#### Course Description

Uterine development of the embryo is discussed with emphasis on the fetal pulmonary system. The respiratory and circulatory changeover of the neonate at birth is studied. Temperature regulation, signs of respiratory distress, oxygen

administration, arterial blood analysis, congenital abnormalities and disease states are studied with respect to the newborn. Prereq: BIOL 356 or BIOL 254/255.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

BIOL 356 or BIOL 254 or BIOL 254H or BIOL 255 or BIOL 255H

#### Complete ANY of the following Courses:

- BIOL356 - Functional Human Anatomy
- BIOL254 - Human Anatomy & Physiology I
- BIOL254H - Hon: Human Anatomy & Physiology I
- BIOL255 - Human Anatomy & Physiology II
- BIOL255H - Hon: Human Anatomy & Physiology II

#### Additional Comments:

## RESP460 - Clinical Practice 1

### Course Information

#### Course Title

Clinical Practice 1

Subject code	Course Number	Academic Level
RESP	460	Undergraduate

#### Course Description

The student will complete three diagnostic lab units and three clinical skills lab units in general care therapeutics and general care patient management. Upon successful completion of each of the skills labs, the student will be scheduled for a clinical practice rotation in patient care. The students are assigned to a clinical preceptor to observe/practice/develop competency in their newly acquired clinical skills. Prereq: admission to the Program in Respiratory Therapy.

#### Simple Requisites

#### Degree/Major/Field of Study Restrictions

##### Type

Prerequisite

Admission to the Respiratory Therapy Program

**Must be admitted to the program in Respiratory Therapy.**

Additional Comments:

RESP461 - Clinical Practicum 1

Course Information

Course Title

Clinical Practicum 1

Subject code	Course Number	Academic Level
RESP	461	Undergraduate

Course Description

This course provides a 60-hour supervised clinical experience for each student enrolled. It immediately follows the completion of RESP 460, in which all of the general patient-care skills were presented, practiced in simulation, observed in patient care and practiced on patients. The expectation is that each student will progress to mastery in the assigned general patient-care clinical skills. The former 40 hours will be devoted to supervised practice, and the latter 20 hours will consist of further practice, with a focus on skill assessment through direct observation by a regular faculty member. Prereq: RESP 460.

## RESP464 - Clinical Practicum 3

### Course Information

#### Course Title

Clinical Practicum 3

Subject code	Course Number	Academic Level
RESP	464	Undergraduate

#### Course Description

This course provides a 600-hour supervised clinical experience for each student enrolled. The final semester of the program is devoted to refinement of all skills through practicing a great variety of equipment and procedures. Advanced techniques and procedures are stressed. A total of 16 structured weeks of clinical experiences is offered at contracted affiliated regional hospitals and medical centers. Students will accomplish learning objectives while assigned to various content experts and specialists. The focus is on pulmonary rehabilitation, home care, sleep medicine, pulmonary diagnostics, neonatal/pediatric critical care, advanced airway care, pulmonary medicine and adult critical care patient management. Each rotation area is complete with schedules, content outlines, specific learning objectives and assignments to be completed by the student. Prereq: RESP 463.

#### Course Title

Respiratory Care Research

Subject code	Course Number	Academic Level
RESP	495	Undergraduate

#### Course Description

Each student selects, designs and conducts a research project, individually or with a research partner. The project culminates in a verbal presentation of the research and a manuscript from each student suitable for publication. Each project is assigned a faculty adviser to oversee and guide the research. Prereq: permission of program director.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

Program Director Permission

**Must have permission from the program director.**

#### Additional Comments:

## Chemistry Department

The Department of Chemistry, approved by the American Chemical Society (ACS), offers two degree programs leading to the baccalaureate degree with a major in chemistry. There are five options available within the B.S. degree program that allow students to pursue focused study in specific areas of chemistry. The recommended course sequence during the first year is identical for all programs and differs minimally through the junior year, meaning that a change in career emphasis within chemistry need not delay graduation. Completion of specific requirements within their program qualifies a graduate for certification by the department to the American Chemical Society, which offers immediate membership eligibility in the ACS as well as more desirable employment opportunities.

The Bachelor of Science degree (B.S.) offers intensive training in chemistry and mathematics with the greatest flexibility in selecting broad training that covers all areas of chemistry. This degree is designed specifically for students who wish to pursue graduate studies or employment as a chemist.

The biochemistry option provides enhanced study in the chemistry of life processes and macromolecules. This program offers the best preparation for acceptance to medical or dental school as well as graduate programs or lab work that includes biological techniques.

The environmental chemistry option provides focused study in areas that involve the traditional chemistry of the atmosphere, hydrosphere, geosphere, and biosphere. The study of environmental chemistry prepares students for work related to environmental analysis, industrial hygiene, or engineering.

The nanotechnology option provides study in the control of materials at very small dimensions to make smaller, cheaper and better materials used in many fields. Students in this program spend a semester at the Penn State University Park campus in their nanofabrication facility. Graduates can pursue graduate studies or employment in materials science.

The engineering instrumentation automation option provides an interdisciplinary program focused on using, controlling, and improving instruments for chemical analysis and interpreting/analyzing data. This degree includes study of industrial electronics, control systems, and robotics that prepares graduates for scientific careers where instrumentation plays a key role, including industry, forensics, or graduate school.

For students wanting a career in teaching chemistry at the high school level, the Bachelor of Science in Education degree (B.S.Ed.) provides a sound background in chemistry as well as the necessary pedagogical methods courses.

An important program option in chemistry is an internship that integrates on-site learning applicable to any of the above degree options. Internships offer students invaluable experience in a job related to their career goal as well as financial remuneration, which helps significantly to defray the expenses of college study. Beginning after the first-year, students choosing this option may alternate periods of on-campus study with off-campus employment until graduation. In addition, up to three credits may be approved to count toward major sequence requirements for each internship experience; up to six credits may be counted toward degree requirements. For more information, see Cooperative Education in the Special Academic Opportunities section.

The chemistry 3+4 pre-pharmacy option within the B.S. program requires three years of study as a chemistry major in the Millersville liberal arts curriculum along with coursework from the first year in the Lake Erie College of Osteopathic Medicine (LECOM) Pharmacy school program. At the end of the four years, the student receives a B.S. in chemistry degree from Millersville, and after seven years, the student receives a Doctorate in Pharmacy degree from LECOM.

Students majoring in other sciences can readily round out studies in chemistry to complete one of three minors. Additional coursework provides deeper expertise in chemistry, biochemistry, or environmental chemistry that expands professional opportunities.

FACULTY LIST
<b>Albert, Daniel;</b> Associate Professor College of Science and Technology B.A., Ohio Wesleyan University, 2007; M.S., University of Wisconsin-Madison, 2008; Ph.D., Cornell University, 2013
<b>Baker, Kristen;</b> Assistant Professor College of Science and Technology B.S., Gettysburg College, 2016; Ph.D., University of Delaware, 2021
<b>Elioff, Michael;</b> Associate Professor College of Science and Technology B.S., University of Texas at Tyler, 1991; M.S., University of Texas at Arlington, 1995; Ph.D., Boston University, 2001
<b>Kennedy, Steven;</b> Associate Professor College of Science and Technology B.S., Lewis-Clark State College, 2004; Ph.D., University of California, 2010
<b>Mbindyo, Jeremiah;</b> Professor College of Science and Technology B.Ed., Kenyatta University (Kenya), 1987; M.Sc., University of Nairobi (Kenya), 1993; Ph.D., University of Connecticut, 1999
<b>Miller, Aimee;</b> Associate Professor College of Science and Technology B.A., Eastern Mennonite University, 1992; Ph.D., University of Virginia, 2000
<b>Mullen Davis, Melissa;</b> Associate Professor College of Science and Technology B.A., Colby College, 2005; Ph.D., The Pennsylvania State University, 2011
<b>Rajaseelan, R;</b> Professor College of Science and Technology B.S., University of Peradeniya (Sri Lanka), 1981; Ph.D., University of Arizona, 1989
<b>Rickard, Lyman;</b> Professor College of Science and Technology B.S., University of Southern Mississippi, 1973; M.S., Ibid., 1975; Ph.D., Florida Institute of Technology, 1985
<b>Schiza, Maria;</b> Associate Professor College of Science and Technology B.S., Roosevelt University, 1995; Ph.D., University of South Carolina, 2001

## Programs

### Chemistry Post-Baccalaureate Certification

#### Overview

For post-baccalaureate information please see the "Certification" section of the Graduate Course Catalog.

#### Curriculum

##### Simple Requisites

**Major in Chemistry, Post-Bacc Certification (39 credits)**  
**Type**  
 Completion Requirement

##### Requirements

Credits Required for Major

##### Minimum GPA

**Earn a minimum GPA of 2.0**

##### Requirements

**Fulfill ALL of the following requirements:**

100 and 200 Level Chemistry Requirements (23 credits)

**Earn a minimum grade of C in the following:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2
- CHEM251 - Inorganic Chemistry 1
- CHEM265 - Quantitative Analysis

AND

300 AND 400 LEVEL CHEMISTRY REQUIREMENTS:  
Required Courses (16 credits)

**Complete ALL of the following Courses:**

- CHEM326 - Biochemistry 1
- CHEM341 - Physical Chemistry 1
- CHEM342 - Physical Chemistry 2
- CHEM375 - Environmental Chemistry

**Additional Comments:**

**Req Related for Chemistry, Post-Bacc Cert (22 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Mathematics (12 credits)

**Complete ALL of the following Courses:**

- MATH161 - Calculus 1
- MATH211 - Calculus 2
- MATH311 - Calculus 3

AND

Physics (10 credits)

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

**Additional Comments:**

**Professional Education - Certification (33 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Foundations Bloc (6 credits)

**Fulfill ALL of the following requirements:**

Foundations of Modern Education (3 credits)

**Complete at least 1 of the following courses:**

- EDFN590 - Social Foundation of Educ
  - EDFN211 - Foundations Modern Education
- OR** EDFN211H - H: Foundations Modern Education

AND

Psychological Foundations of Teaching (3 credits)

**Complete at least 1 of the following courses:**

- EDFN545 - Advanced Educational Psychology
  - EDFN241 - Psychological Foundations of Teaching
- OR** EDFN241H - Hon:Psychological Foundations of Teaching

We recommend 590 and 545 for Post-Bacc students. These courses each require 35 hours field placement at an urban school. Offered in the evenings Fall and Spring. Also offered in Summer Session. If enrolling in EDFN211 Foundations Modern Education/241 and please register for both courses in the same block.

AND

Professional Bloc (15 credits)

**Fulfill ALL of the following requirements:**

Instructional Technology, Design & Assessment (3 credits)

**Complete at least 1 of the following courses:**

- EDFN530 - Instructional Technology, Design and Assessment
- EDFN330 - Instructional Technology, Design & Assessment

AND

Issues in Secondary Education (3 credits)

**Complete at least 1 of the following courses:**

- EDSE521 - Issues in Second Education
- EDSE321 - Issues in Secondary Education  
**OR** EDSE321H - H: Issues in Secondary Education

**AND**

Content Area Literacy for Diverse Classrooms (3 credits)

**Complete at least 1 of the following courses:**

- EDSE340 - Content Area Literacy for Diverse Classrooms
- EDSE540 - Cntnt Area Litrcy Divers Class

**AND**

Secondary Students w/Disabilities in Inclusive Settings (3 credits)

**Complete at least 1 of the following courses:**

- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings
- SPED546 - Sec Stdnts w Disab Inclu Sttgs

**AND**

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- EDSE435 - Teaching of Science in Secondary Schools

Students must meet APS eligibility requirements prior to registering. Course Appropriate PRAXIS II Exam should be taken after Professional Bloc, but prior to Student Teaching.

**AND**

Student Teaching Seminar (3 credits)

**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar

File your Intent to Student Teach Card one year prior to the beginning of the semester in which you wish to Student Teach. [View the Student Teaching Website.](#)

**AND**

Student Teaching Semester (9 credits)

**Complete ALL of the following Courses:**

- EDSC461 - Student Teaching in Science
- EDSC462 - Student Teaching in Science

Students must meet APS eligibility requirements prior to registering. Submit your Teacher Certification Packet 90 days prior to completion of your certification program. [Access the packet on the Certification Website.](#)

**Additional Comments:**

**Advanced Professional Studies - Post-Bacc Cert (6 credits)**

**Type**

Completion Requirement

**Requirements**

**Fulfill ALL of the following requirements:**

Course Requirements for APS: Foundations Courses (6 credits)

**Complete at least 1 of the following:**

Option 1. Foundations Graduate Level

**Complete ALL of the following Courses:**

- EDFN590 - Social Foundation of Educ
- EDFN545 - Advanced Educational Psychology

**OR**

Option 2. Foundations Undergraduate Level

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
**OR** EDFN211H - H: Foundations Modern Education

- EDFN241 - Psychological Foundations of Teaching  
**OR** EDFN241H - Hon:Psychological Foundations of Teaching

— AND —

#### APS Status

Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

**Additional Comments:**

## Biochemistry Minor

### Overview

The Biochemistry Minor provides students with a strong program in chemistry. The advantages to the student are increased understanding of the applicability of their major to chemical systems, increased adaptability to changing circumstances in employment, and the ability to cross-reference knowledge and expand one's ability to understand more complex problems and discover solutions through research and testing.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville

University.

7. No student may minor in his or her major.

### Minor in Biochemistry (25 credits)

#### Type

Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

#### Required Courses (21 credits)

**Complete ALL of the following Courses:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2
- CHEM326 - Biochemistry 1
- CHEM328 - Analytical Biochemistry Lab

— AND —

#### Plant Biochemistry or Biochemistry II (4 credits)

**Complete at least 1 of the following courses:**

- BIOL324 - Plant Biochemistry
- CHEM324 - Plant Biochemistry
- CHEM327 - Biochemistry 2

**Additional Comments:**

## Chemistry Minor

### Overview

Students pursuing other degrees at Millersville University who wish to have a special understanding of Chemical Systems or Chemical Principles can opt to minor in Chemistry. This emphasis can greatly increase a graduate's employment opportunities in certain areas, such as Occupational Safety and Health, Industrial Technology, Biology and others. The Chemistry minor option allows students to take a concentration of courses in the area of chemistry while pursuing their primary degree.

## Curriculum

### Simple Requisites

#### Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

### Minor in Chemistry (20 credits)

#### Type

#### Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

##### Required Courses (12 credits)

#### Complete ALL of the following Courses:

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- CHEM265 - Quantitative Analysis

AND

##### Chemistry Required Courses (8 credits)

#### Complete at least 1 of the following:

##### Option 1 (4 credits)

#### Complete ALL of the following Courses:

- CHEM235 - Organic Chemistry

If CHEM235 Organic Chemistry is selected, you will need an additional Chemistry Elective, CHEM326 Biochemistry 1 or CHEM375

Environmental Chemistry. If CHEM231 Organic Chemistry 1/CHEM232 Organic Chemistry 2 or CHEM341 Physical Chemistry 1/CHEM342 Physical Chemistry 2 are selected, no elective is needed to reach 20 credits for the minor.

OR

#### Option 2. Organic Chemistry I & II (8 credits)

#### Complete ALL of the following Courses:

- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2

OR

#### Option 3. Physical Chemistry I & II (8 credits)

#### Complete ALL of the following Courses:

- CHEM341 - Physical Chemistry 1
  - CHEM342 - Physical Chemistry 2
- OR CHEM342H - H: Physical Chemistry 2

#### Additional Comments:

## Environmental Chemistry Minor

### Overview

This program, a minor within the Chemistry program, incorporates all the scientific areas but focuses on green chemistry and sustainability. You will prepare for graduate training or professional work in chemistry under the instruction of faculty members who are active researchers and reflect the diversity of expertise across chemical disciplines.

## Curriculum

### Simple Requisites

#### Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also

eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.

4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

### Minor in Environmental Chemistry (20-24 credits)

#### Type

Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

Required Courses (16 credits)

**Complete ALL of the following Courses:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- CHEM375 - Environmental Chemistry
- CHEM476 - Environmental Chemistry 2

AND

Chemistry Required Courses (4-8 credits)

**Complete at least 1 of the following:**

Option 1. Organic Chemistry I & II (8 credits)

**Complete ALL of the following Courses:**

- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2

OR

Option 2. Organic Chemistry (4 credits)

**Complete ALL of the following Courses:**

- CHEM235 - Organic Chemistry

#### Additional Comments:

CHEM265 Quantitative Analysis Quantitative Analysis

recommended.

## Chemistry, B.S.Ed.

### Overview

The BSE-CHEM degree leads to certification to teach chemistry at the secondary level in the public schools of the Commonwealth of Pennsylvania. Millersville University's Chemistry Education program allows you to pursue a comprehensive study of the scientific discipline while gaining the skills to teach 7th to 12th grade students. By successfully completing this program, students earn a Bachelor of Science in Education (B.S.E.) degree with a certification in Secondary Chemistry Education and are prepared for Pennsylvania licensure exams.

### Curriculum

#### Simple Requisites

#### Major in Chemistry, BSE (41 credits)

#### Type

Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

#### Requirements

- Credits Required for Major
- Minimum Residency 50% of Major credits

AND

#### Minimum GPA

**Earn a minimum GPA of 2.0**

AND

#### Required Courses (1 credit)

**Complete ALL of the following Courses:**

- CHEM188 - Freshman Seminar in Chemistry

Waived for transfer students

AND

100 and 200 Level Chemistry Requirements (23

credits)

**Earn a minimum grade of C in the following:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2  
OR CHEM112H - Hrs:Introductory Chemistry 2
- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2
- CHEM251 - Inorganic Chemistry 1
- CHEM265 - Quantitative Analysis  
OR CHEM265H - H:Quantitative Analysis

AND

300 and 400 Level Chemistry Requirements (17 credits)

**Complete ALL of the following Courses:**

- CHEM326 - Biochemistry 1
- CHEM341 - Physical Chemistry 1
- CHEM342 - Physical Chemistry 2
- CHEM375 - Environmental Chemistry
- CHEM487 - Seminar in Chemistry 1
- CHEM488 - Seminar in Chemistry 2

**Additional Comments:**

**Professional Education (33 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Educational Foundations (6 credits)

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

Required Education Courses (9 credits)

**Complete ALL of the following Courses:**

- EDSE321 - Issues in Secondary Education  
OR EDSE321H - H: Issues in Secondary Education
- EDFN330 - Instructional Technology, Design & Assessment
- EDSE435 - Teaching of Science in Secondary Schools

AND

Accommodations and Adaptations (6 credits)

**Complete ALL of the following Courses:**

- EDSE340 - Content Area Literacy for Diverse Classrooms
- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings

AND

Student Teaching (12 credits)

**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar
- EDSC461 - Student Teaching in Science

**Additional Comments:**

**Req Related for Chemistry, BSE**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Mathematics

**Fulfill ALL of the following requirements:**

Calculus I (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

— AND —

Required Courses (8 credits)

**Complete ALL of the following Courses:**

- MATH211 - Calculus 2
- MATH311 - Calculus 3

— AND —

Physics (8 credits)

**Complete at least 1 of the following courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

— AND —

Biology

General Biology competency may be demonstrated by:

1. A course grade of 'A' or 'B' in AP Biology
2. A score of 3 or better in the national AP exam
3. A successful score on the CLEP exam
4. A passing grade for General Biology (BIOL BIOL100 General Biology)

**Additional Comments:**

**Advanced Professional Studies, BSE (12 credits)**

**Type**

**Completion Requirement**

APS Requirements

**Fulfill ALL of the following requirements:**

English Composition (3 credits)

**Complete at least 1 of the following courses:**

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

— AND —

English Literature (3 credits)

**Complete at least 1 of the following courses:**

- ENGL230 - Introduction to Literature
- ENGL231 - World Literature 1
- ENGL232 - World Literature 2  
OR ENGL232H - Hnrs: World Literature 2
- ENGL233 - Early British Literature
- ENGL234 - Later British Literature
- ENGL235 - American Literary Tradition I
- ENGL236 - American Literary Tradition II
- ENGL241H - H:Explorations in World Lit
- ENGL242 - Reading Our World:  
OR ENGL242H - Hnrs: Reading Our World:
- ENGL292 - Science Fiction  
OR ENGL292H - Hon: Science Fiction
- ENGL333 - African-American Literature 1
- ENGL333H - Hnrs:African-American Literature 1
- ENGL334 - African American Literature 2
- ENGL334H - Hnrs:African American Literature 2
- ENGL336 - New Dimensions to World Lit
- ENGL338 - Folklore and Literature  
OR ENGL338H - H:Folklore and Literature
- ENGL401 - Old Eng Lang and Literature
- ENGL402 - Middle Eng Lang and Literature

— AND —

Mathematics

Two Mathematics courses are required for BSE students. It is preferable to take two courses designated as G2. [Search for MATH courses on the current web schedule.](#)

[BIOL375 Biometry](#) will fulfill one Mathematics course for BSE BIOL students.

— AND —

Required Courses (6 credits)

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education

- EDFN241 - Psychological Foundations of Teaching  
**OR** EDFN241H - Hon:Psychological Foundations of Teaching

AND

ACT 126 - Educator Ethics Training  
You must submit your Educator Ethics Training.

AND

APS Status  
Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

**Additional Comments:**

## Chemistry, B.S.

### Overview

The four-year outline of BS-CHEM courses is designed for the student who wishes to become a chemist, and wishes to prepare for further education beyond the college level in the field. Most students intending to pursue professional careers in the field of chemistry pursue this degree.

### Curriculum

#### Simple Requisites

#### Major in Chemistry, BS (57 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Minimum GPA

**Earn a minimum GPA of 2.0**

AND

Requirements

- Credits Required for Major
- Minimum credits for 50% residency

AND

Required Courses (3 credits)

##### Complete ALL of the following Courses:

- CHEM188 - Freshman Seminar in Chemistry

Waived for transfer students.

AND

100 and 200 Level Chemistry Required Courses (23 credits)

##### Earn a minimum grade of C in the following:

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2
- CHEM251 - Inorganic Chemistry 1
- CHEM265 - Quantitative Analysis

AND

300 and 400 Level Chemistry Required Courses (10 credits)

##### Complete ALL of the following Courses:

- CHEM341 - Physical Chemistry 1
- CHEM342 - Physical Chemistry 2
- CHEM487 - Seminar in Chemistry 1
- CHEM488 - Seminar in Chemistry 2
- CHEM498 - Independent Study

AND

Requirements When No Option Is Chosen (21 credits)

##### Fulfill ALL of the following requirements:

Required Courses (13 credits)

##### Complete ALL of the following Courses:

- CHEM326 - Biochemistry 1
- CHEM391 - Advanced Laboratory 1
- CHEM392 - Advanced Laboratory 2

- CHEM452 - Inorganic Chemistry
- CHEM465 - Analytical Chemistry

AND

Chemistry Electives (8 credits)

**Earn at least 8 credits from the following:**

- CHEM300 - Co-Op Ed Experience in Chem
- CHEM312 - Chemistry in Nanotechnology
- CHEM324 - Plant Biochemistry
- CHEM327 - Biochemistry 2
- CHEM328 - Analytical Biochemistry Lab
- CHEM375 - Environmental Chemistry
- CHEM381 - Polymer Chemistry 1
- CHEM400 - Co-Op Ed Experience in Chem
- CHEM435 - Advanced Organic Chemistry
- CHEM476 - Environmental Chemistry 2
- CHEM482 - Polymer Chemistry 2
- CHEM486 - Topics in Chemistry
- CHEM489 - Honors Course
- CHEM498 - Independent Study
- CHEM499 - Departmental Honors

CHEM342 Physical Chemistry 2 must be taken prior to CHEM452 Inorganic Chemistry and CHEM465 Analytical Chemistry for ACS certification. CHEM342 Physical Chemistry 2 is a required course for all BS CHEM majors.

AND

American Chemical Society Certification  
Optional - See separate block

**Additional Comments:**

**American Chemical Society Certification - Optional (8 credits)**

Type

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Required Courses for ACS Certification (8 credits)

**Fulfill ALL of the following requirements:**

Required Courses (5 credits)

**Complete ALL of the following Courses:**

- CHEM326 - Biochemistry 1
- CHEM392 - Advanced Laboratory 2

AND

Required Independent Research (3 credits)

**Earn at least 3 credits from the following:**

- CHEM489 - Honors Course
- CHEM498 - Independent Study
- CHEM499 - Departmental Honors

AND

Recommended Courses for Acs Certification

**Fulfill ALL of the following requirements:**

Introductory Economics

Optional Recommended

AND

Elementary Language German or Russian

Optional Recommended

**Additional Comments:**

THIS BLOCK IS NOT REQUIRED FOR DEGREE COMPLETION. This block contains courses which are required/recommended to students opting for ACS Certification. While not required, an introductory Economics course, elementary German or Russian (GERM/ RUSS 101 and 102) are recommended for inclusion in the core Liberal Arts core requirements for general education. Students must take a minimum of two hours of CHEM489 Honors Course, CHEM498 Independent Study or CHEM499 Departmental Honors (Research) under Chemistry Electives. This means you will need a total of 3 credits in CHEM489 Honors Course, CHEM498 Independent Study or CHEM499 Departmental Honors

## Req Related for Chemistry, BS (24-25 credits)

### Type

Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

Mathematics (12-13 credits)

**Fulfill ALL of the following requirements:**

Calculus I or Honors Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Required Courses (8 credits)

**Complete ALL of the following Courses:**

- MATH211 - Calculus 2
- MATH311 - Calculus 3

AND

Physics (10 credits)

**Complete at least 1 of the following courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

AND

Related Science Electives

**Fulfill ANY of the following requirements:**

Option 1

**Earn at least 2 credits from the following:**

- CSCI161 - Introduction to Programming 1
- CSCI162 - Introduction to Programming 2
- MATH235 - Survey of Statistics
- MATH236 - Elements of Statistics 2
- MATH322 - Linear Algebra 1
- MATH333 - Probability and Statistics
- MATH335 - Mathematical Statistics 1
- MATH365 - Ordinary Differential Equations

- MATH435 - Mathematical Statistics 2

OR

Option 2

**Earn at least 2 credits from the following:**

- Any PHYS 233-599 course(s)

Note: This requirement may not be satisfied with [PHYS351 Intermediate Physics Lab 1](#) and [PHYS352 Intermediate Physics Lab 2](#) and [PHYS451 Advanced Physics Lab 1](#) or [PHYS452 Advanced Physics Lab 2](#).

**Additional Comments:**

## Chemistry, B.S. - Biochemistry Option

### Overview

Millersville University is one of the few universities in the Commonwealth of Pennsylvania that awards an ACS approved Bachelor of Science Degree with an option in Biochemistry. The program provides the student with a basic background in chemistry and biology as well as a flexible science elective block that will allow the student to pursue any one of a number of major areas of interest upon graduation. The student may also elect to participate in the Cooperative Education Program during his or her course of study. This opportunity affords the student with invaluable practical on-the-job experience, as well as earning college credits and a salary. The career opportunities available in biochemistry are many and diverse.

### Curriculum

#### Simple Requisites

#### Major in Chemistry, BS (36 credits)

##### Type

Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

- Minimum 50% Residency credits

— AND —

#### Required Courses (13 credits)

##### Complete ALL of the following Courses:

- CHEM326 - Biochemistry 1
- CHEM327 - Biochemistry 2
- CHEM328 - Analytical Biochemistry Lab
- CHEM465 - Analytical Chemistry

— AND —

#### Chemistry Electives (5 credits)

##### Earn at least 5 credits from the following:

- CHEM300 - Co-Op Ed Experience in Chem
- CHEM312 - Chemistry in Nanotechnology
- CHEM324 - Plant Biochemistry
- CHEM327 - Biochemistry 2
- CHEM328 - Analytical Biochemistry Lab
- CHEM375 - Environmental Chemistry
- CHEM381 - Polymer Chemistry 1
- CHEM391 - Advanced Laboratory 1
- CHEM392 - Advanced Laboratory 2
- CHEM400 - Co-Op Ed Experience in Chem
- CHEM435 - Advanced Organic Chemistry
- CHEM452 - Inorganic Chemistry
- CHEM476 - Environmental Chemistry 2
- CHEM482 - Polymer Chemistry 2
- CHEM486 - Topics in Chemistry

- CHEM489 - Honors Course
- CHEM498 - Independent Study
- CHEM499 - Departmental Honors

If you are opting for ACS Certification and you should take CHEM392 Advanced Laboratory 2 as one of your elective courses.

**Additional Comments:**

Elementary Language German or Russian  
Optional Recommended

**Additional Comments:**

THIS BLOCK IS NOT REQUIRED FOR DEGREE COMPLETION. This block contains courses which are required/recommended to students opting for ACS Certification. While not required, an introductory Economics course, elementary German or Russian (GERM/ RUSS 101 and 102) are recommended for inclusion in the core Liberal Arts core requirements for general education. Students must take a minimum of two hours of CHEM489 Honors Course, CHEM498 Independent Study or CHEM499 Departmental Honors (Research) under Chemistry Electives. This means you will need a total of 3 credits in CHEM489 Honors Course, CHEM498 Independent Study or CHEM499 Departmental Honors

**American Chemical Society Certification - Optional (8 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Required Courses for ACS Certification (8 credits)

**Fulfill ALL of the following requirements:**

Required Courses (5 credits)

**Complete ALL of the following Courses:**

- CHEM326 - Biochemistry 1
- CHEM392 - Advanced Laboratory 2

AND

Required Independent Research (3 credits)

**Earn at least 3 credits from the following:**

- CHEM489 - Honors Course
- CHEM498 - Independent Study
- CHEM499 - Departmental Honors

AND

Recommended Courses for Acs Certification

**Fulfill ALL of the following requirements:**

Introductory Economics

Optional Recommended

AND

**Req Related for Chemistry, BS (30-31 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Mathematics (12-13 credits)

**Fulfill ALL of the following requirements:**

Calculus I or Honors Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Required Courses (8 credits)

**Complete ALL of the following Courses:**

- MATH211 - Calculus 2
- MATH311 - Calculus 3

AND

Physics (10 credits)

**Complete at least 1 of the following courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

AND

**Biology Competency**

General Biology: Competency may be demonstrated with credits earned for BIOL100 General Biology through any of the following:

1. A successful score on either the national AP Biology exam or the Biology CLEP exam.
2. A passing grade for General Biology (BIOL100 General Biology) or equivalent.

AND

Additional Required Related for Biochemistry (8 credits)

**Fulfill ALL of the following requirements:**

Required Courses (4 credits)

**Complete ALL of the following Courses:**

- BIOL364 - Foundations of Genetics & Molecular Biology

AND

Biochemistry Related Directed Electives (4 credits)

**Complete at least 1 of the following courses:**

- BIOL362 - Cell and Developmental Biology
- OR BIOL362H - HNRS:Cell and Developmental Biology
- BIOL361 - Microbiology
- OR BIOL361H - Hon: Microbiology
- BIOL462 - Molecular Biology

**Additional Comments:**

It is strongly recommended that students pursuing the Bachelor of Science degree achieve competency equivalent to the first two courses in a foreign language. A course in economics is also recommended.

## Chemistry, B.S. - Engineering Instrumentation Automation Option

### Overview

The B.S. Chemistry degree with an option in Engineering Instrumentation Automation is focused on using, controlling, and improving instruments for chemical analysis and interpreting/analyzing data. Many chemistry employment opportunities exist in analytical laboratories or graduate school where sophisticated instrumentation is used extensively. This option maintains a core chemistry curriculum and supplements the chemistry knowledge content with industrial electronics, control systems, and robotics. This option is a unique learning experience available at Millersville due to the collaboration of the Department of Chemistry and the Department of Applied Engineering Safety and Technology. Graduate of this option will be well prepared for positions where instrumentation and analysis plays a key role.

### Curriculum

#### Simple Requisites

**Major in Chemistry, BS (36 credits)**

**Type**

Completion Requirement

**Requirements**

**Fulfill ALL of the following requirements:**

Minimum GPA

**Earn a minimum GPA of 2.0**

AND

**Requirements**

- Credits Required for Major
- Minimum credits for 50% residency

AND

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- CHEM188 - Freshman Seminar in Chemistry

Waived for transfer students.

AND

100 and 200 Level Chemistry Required Courses (23 credits)

**Earn a minimum grade of C in the following:**

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2
- CHEM251 - Inorganic Chemistry 1
- CHEM265 - Quantitative Analysis

AND

300 and 400 Level Chemistry Required Courses (10 credits)

**Complete ALL of the following Courses:**

- CHEM341 - Physical Chemistry 1
- CHEM342 - Physical Chemistry 2
- CHEM487 - Seminar in Chemistry 1
- CHEM488 - Seminar in Chemistry 2
- CHEM498 - Independent Study

- MATH163H - Honors Calculus 1

AND

Required Courses (8 credits)

**Complete ALL of the following Courses:**

- MATH211 - Calculus 2
- MATH311 - Calculus 3

AND

Physics (10 credits)

**Complete at least 1 of the following courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

AND

Control Systems (12 credits)

**Fulfill ALL of the following requirements:**

Required Courses (9 credits)

**Complete ALL of the following Courses:**

- AENG261 - Electronic Systems  
OR AENG261H - H:Electronic Systems
- AENG325 - Power Conversion and Control
- AENG425 - Industrial Robotic Systems

AND

Programming Logic Controllers (3 credits)

**Complete ALL of the following Courses:**

- AENG427 - Programmable Logic Controllers

**Additional Comments:**

## Chemistry, B.S. - Environmental Option

### Overview

Millersville University Department of Chemistry offers a B.S. Chemistry degree with an option in Environmental Chemistry. The curriculum offers courses whose contents are consistent with similar programs offered elsewhere and, with electives in inorganic chemistry and biochemistry, that will satisfy the guidelines of an option in Environmental Chemistry approved by the ACS. In addition to course requirements, the curriculum includes opportunities for industrial and government internship programs related to environmental analysis, engineering, and regulation. Of more immediate promise is the interest expressed by Lancaster Laboratories in generating a student internship program with the Chemistry

Department. These internships include such areas as research in sampling and instrumental analysis of many different kinds of materials, toxicity and risk assessment, field testing and monitoring, drug screening, environmental law and regulations, analysis of food products, and quality assurance in the chemical laboratory.

Biology Competency

General Biology: Competency may be demonstrated with credits earned for BIOL100 General Biology through any of the following:

1. A successful score on either the national AP Biology exam or the Biology CLEP exam.
2. A passing grade for General Biology (BIOL100 General Biology) or equivalent.

AND

Environmental Chemistry Related Directed Electives (3-4 credits)

**Complete at least 2 of the following courses:**

- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany
- BIOL241 - Principles of Ecology
- BIOL340 - Prspctv in Environm Awareness  
OR BIOL340H - HNRS:Prspctv in Environm Awareness
- BIOL343 - Principles of Ecology & Evolution  
OR BIOL343H - Hon: Principles of Ecology & Evolution
- ESCI245 - Environmental Meteorology
- ESCI322 - Environmental Hydrology
- ESCI349 - Chemistry of the Atmosphere  
OR ESCI349H - Hon: Chemistry of the Atmosphere
- ESCI426 - Groundwater Resources and Contamination
- GEOG202 - Environmental Sustainability

- GEOG230 - Physical Geography
- GEOG304 - Water Resources Management
- OSEH321 - Environmental & Industrial Hygiene I - Chemical and Biological Hazards
- OSEH422 - Environmental & Industrial Health II - Physical Hazards
- OSEH435 - Environmental Health

Other relevant environmental courses may also be selected by consulting with your academic advisor and submitting an exception to graduation requirements. A related minor may be earned by completing the minor requirements that include courses from the disciplines above.

**Additional Comments:**

## Chemistry, B.S. - Nanotechnology Option

### Overview

The Chemistry Department at Millersville offers a B.S. Chemistry degree with an option in Nanotechnology. The curriculum includes courses that give students a strong background in chemistry and electives in nanotechnology and other sciences. As part of the current program, students spent a semester at Penn State University Park Campus to gain practical experience in nanofabrication and the use of clean room facilities. Nanotechnology - which is the control of materials at very small dimensions to make smaller, cheaper and better products is being adopted in many industries. Upon graduation students can pursue graduate studies in chemistry or materials sciences, or work in industry or government usually in an environment involving interaction with scientists from other disciplines such as biology, physics and engineering.

### Curriculum

#### Simple Requisites

#### Major in Chemistry, BS (36 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Minimum GPA

#### Earn a minimum GPA of 2.0

AND

#### Requirements

- Credits Required for Major
- Minimum credits for 50% residency

AND

#### Required Courses (3 credits)

##### Complete ALL of the following Courses:

- CHEM188 - Freshman Seminar in Chemistry

Waived for transfer students.

AND

#### 100 and 200 Level Chemistry Required Courses (23 credits)

##### Earn a minimum grade of C in the following:

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- CHEM231 - Organic Chemistry 1
- CHEM232 - Organic Chemistry 2
- CHEM251 - Inorganic Chemistry 1
- CHEM265 - Quantitative Analysis

AND

#### 300 and 400 Level Chemistry Required Courses (10 credits)

##### Complete ALL of the following Courses:

- CHEM341 - Physical Chemistry 1
- CHEM342 - Physical Chemistry 2
- CHEM487 - Seminar in Chemistry 1
- CHEM488 - Seminar in Chemistry 2
- CHEM498 - Independent Study

Completion Requirement

**Requirements**

**Fulfill ALL of the following requirements:**

Mathematics (12-13 credits)

**Fulfill ALL of the following requirements:**

Calculus I or Honors Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Required Courses (8 credits)

**Complete ALL of the following Courses:**

- MATH211 - Calculus 2
- MATH311 - Calculus 3

AND

Physics (10 credits)

**Complete at least 1 of the following courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

AND

Professional Block Penn State Courses (18 credits)

**Complete ALL of the following Courses:**

- NFMT311 - Materials, Safety & Equipment Overview for Nanotechnology
- NFMT312 - Basic Nanotechnology Processes
- NFMT313 - Thin Film Utilization
- NFMT314 - Lithography
- NFMT315 - Materials Modification in Nanotechnology
- NFMT316 - Characterization, Testing Nanotech Structures & Materials

Courses taken in a Capstone Semester at Penn State University in the Nanofabrication Facility.

**Additional Comments:**

## Chemistry, B.S. - 3+4 Pre-Pharmacy Option

### Overview

The 3+4 Pre-Pharmacy option is designed within the B.S. Chemistry program, allowing students to complete both B.S. Chemistry and Doctor of Pharmacy degrees in seven years. Students will be admitted into this program by Millersville

University and complete a 3-year program in the Chemistry department that includes all courses required in the first three years (101.0 credits) of a B.S. chemistry degree. To remain in the program, each student must maintain an overall GPA of 3.0 as well as a science GPA of 3.0 at Millersville University. The students will then enroll in a 4-year Pharm. D. degree program at the pharmacy school of their choice. Upon successful completion of the first-year pharmacy program coursework, the chemistry department will accept a professional block of 19.0 credits from the pharmacy school. The 120.0 total credits earned will be the basis for awarding a B.S. chemistry degree from Millersville University, provided the student has completed all other requirements.

**Additional Comments:**

Specific pharmacy curricula have additional requirements; students should consult with their advisor or chemistry department chairperson.

## Courses

### CHEM101 - Chem!Better Things/Better Lvng

#### Course Information

**Course Title**

Chem!Better Things/Better Lvng

**Subject code**

CHEM

**Course Number**

101

**Academic Level**

Undergraduate

#### Course Description

A brief introduction to chemistry and its uses in modern society: consumer, environmental, and industrial application. Presented in a mostly descriptive fashion. No credit toward chemistry major. 3 hrs. lec. Offered in fall, spring.

#### General Education Labels

G2

## CHEM102 - Demonstration Chemistry

### Course Information

#### Course Title

Demonstration Chemistry

Subject code	Course Number	Academic Level
CHEM	102	Undergraduate

#### Course Description

Chemical reactions that are encountered in everyday living, present in living systems, the basis of societal issues, the foundation of producing new materials and used to modify materials into finished products. Investigated by observing, describing, explaining and presenting demonstrations. Emphasis on readily understood reactions that begin with and produce nonhazardous materials. No credit toward chemistry major. 2 hrs. lec., 2 hrs. lab. Offered in spring.

#### General Education Labels

G2, Lab (L)

## CHEM103 - Gen Organic and Biochemistry 1

### Course Information

#### Course Title

Gen Organic and Biochemistry 1

Subject code	Course Number	Academic Level
CHEM	103	Undergraduate

#### Course Description

An introduction to the basic theories of general and organic chemistry, including nomenclature, reactions and problem solving. Appropriate for nonscience majors and satisfies general education requirements. Proficiency in algebra is essential. High school chemistry is required. 2 hrs. lec., 2 hrs. lab. Offered fall, summer.

#### General Education Labels

G2, Lab (L)

## CHEM104 - Gen Organic and Biochemistry 2

### Course Information

#### Course Title

Gen Organic and Biochemistry 2

Subject code	Course Number	Academic Level
CHEM	104	Undergraduate

### Course Description

Solutions, acids and bases, oxidation reduction and organic chemistry, including nomenclature and basic reactions with relevancy to biochemistry. Appropriate for nonscience majors and satisfies general education requirements. 2 hrs. lec., 2 hrs. lab. Offered in spring. Prereq: CHEM 103.

### General Education Labels

G2, Lab (L)

### Simple Requisites

#### Course Prerequisites

#### Type

Prerequisite

CHEM 103 or CHEM 111

#### Complete ANY of the following Courses:

- CHEM103 - Gen Organic and Biochemistry 1
- CHEM111 - Introductory Chemistry 1

#### Additional Comments:

## CHEM105 - Culinary Chemistry

### Course Information

#### Course Title

Culinary Chemistry

Subject code	Course Number	Academic Level
CHEM	105	Undergraduate

#### Course Description

Introduction to foundational chemical principles using examples from food, cooking, and baking. Topics include chemical terminology, reactions, problem solving, and the scientific method. Includes specific examples from global cuisines including comparisons of ingredients and cooking methods on the molecular level. At-home laboratory activities provide hands-on experience with measurement, inquiry, and applying the scientific method to recipe development. There are no pre-requisites for this course which is appropriate for non-science majors and satisfies general education requirements. No credit toward chemistry major. 2 hrs lec, 2 hrs lab. Offered: fall, summer.

#### General Education Labels

G2, Lab (L), Diversity (D)

## CHEM110 - Fundamentals of Chemistry

### Course Information

#### Course Title

Fundamentals of Chemistry

Subject code	Course Number	Academic Level
CHEM	110	Undergraduate

#### Course Description

An intensive review of the fundamentals of chemistry, with particular emphasis placed on solving chemistry problems. Topics include: measurements, formulas and nomenclature, equations, stoichiometry, atomic and molecular structure, solution concentrations, acids and bases. This course is designed to prepare students majoring in the sciences for their general chemistry sequence, CHEM 111 and CHEM 112. This course may be counted only as an elective beyond normal graduation requirements. 3 hrs. lec./problem solving. Pre- or Coreq: MATH 101 or MPT of 160 or higher.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

MATH101

**Complete ALL of the following Courses:**

- MATH101 - College Algebra

Or MPT of 160 or higher.

**Additional Comments:**

Chem.111 or C- grade or higher in CHEM 110, AND MATH 101 with a grade of C- or higher or MPT of 160 or higher, or permission of instructor.

#### General Education Labels

G2, Lab (L)

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

CHEM 110

**Earn a minimum grade of C- in the following:**

- CHEM110 - Fundamentals of Chemistry

Or must be placed in CHEM 111.

MATH 101

**Earn a minimum grade of C- in the following:**

- MATH101 - College Algebra

Or MPT of 160 or higher or must have permission of instructor.

**Additional Comments:**

## CHEM112 - Introductory Chemistry 2

### Course Information

#### Course Title

Introductory Chemistry 2

Subject code	Course Number	Academic Level
CHEM	112	Undergraduate

#### Course Description

Continuation of CHEM 111. The interactions of matter and energy-thermodynamics, kinetics and electrochemistry. Equilibria in aqueous systemstheory and practice. Coordination chemistry and descriptive chemistry of the elements. 3 hrs. lec., 1 hr. discussion, 2 hrs. lab. Prereq: CHEM 111 with a grade of C- or higher; C for chemistry majors.

#### General Education Labels

G2, Lab (L)

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

## CHEM111 - Introductory Chemistry 1

### Course Information

#### Course Title

Introductory Chemistry 1

Subject code	Course Number	Academic Level
CHEM	111	Undergraduate

#### Course Description

The properties and theories of the solid, liquid and gaseous states of matter, the stoichiometry and thermochemistry of chemical reactions, and theories and applications of molecular structure and bonding. Proficiency in algebra is essential. High school chemistry is strongly recommended. Intended for science majors: biology, chemistry, Earth sciences, physics. 3 hrs. lec., 1 hr. discussion, 2 hrs. lab. Prereq: Placement in

## CHEM 111

**Earn a minimum grade of C- in the following:**

- CHEM111 - Introductory Chemistry 1

Chemistry majors must earn a C or better.

- CHEM111 - Introductory Chemistry 1

Chemistry majors must earn a C or better.

**Additional Comments:**

## CHEM113H - H:Introductory Chem 2 Seminar

### Course Information

Course Title

H:Introductory Chem 2 Seminar

Subject code	Course Number	Academic Level
CHEM	113H	Undergraduate

Course Description

The ideas of introductory chemistry are studied in extended depth, using problems, laboratory exercises, readings and discussion. Grades of B-or higher in both CHEM 112 and CHEM 113 will result in honors designation for the pair. The pair of courses counts as one entry in the science component

of general education and results in 5 hours of general education credit. 1 hr. discussion. Prereq or Coreq: CHEM 112 is required

Simple Requisites

#### Completed Course Prerequisite or Corequisite

Course Description

Experimental

## CHEM188 - Freshman Seminar in Chemistry

### Course Information

Course Title

Freshman Seminar in Chemistry

Subject code	Course Number	Academic Level
CHEM	188	Undergraduate

Course Description

An orientation to the opportunities and services available to chemistry students in the university and professional environments. Students will develop a better understanding of the major and career options and will be introduced to the chemistry department faculty and programs. 1 hr. discussion. Required of all freshman chemistry majors. Recommended for transfer students. Offered in fall.

## CHEM231 - Organic Chemistry 1

### Course Information

#### Course Title

Organic Chemistry 1

Subject code	Course Number	Academic Level
CHEM	231	Undergraduate

#### Course Description

Organic structural theory, including conformations and configurations of molecules and functional group classification of organic compounds alkanes, alkenes, alcohols, ethers, alkyl halides, aldehydes and ketones, and aromatic and organometallic compounds. Major emphasis on relationships among molecular structure, chemical reactivity and physical properties. Thorough integration of reaction mechanisms as elucidated using principles of kinetics, thermodynamics, stereochemistry and spectroscopy. Introduction to the instrumentation of organic chemistry: proton and carbon-13 NMR, infrared and mass spectrometry. 3 hrs. lec., 3 hrs. lab. Prereq: CHEM 112 with a grade of C- or higher; C for chemistry majors.

#### General Education Labels

G2, Lab (L)

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

CHEM 112

#### Earn a minimum grade of C- in the following:

- CHEM112 - Introductory Chemistry 2

Chemistry majors must earn a C or better.

#### Additional Comments:

aromatic compounds. Also, carbonyl compounds, including carboxylic acids and derivatives, along with amines, phenols and complex compounds with multiple functionality. Introduction to natural and synthetic polymers; biomolecules, including fats, oils, amino acids and carbohydrates, along with the basic reactions of metabolism. Thorough integration of structural relationships to spectral properties using UV, IR, C-13 and H-1 NMR, and mass spectral instrumentation and derived data. 3 hrs. lec., 3 hrs. lab. Prereq: CHEM 231 with a grade of C- or higher.

#### General Education Labels

G2, Lab (L)

- CHEM231 - Organic Chemistry 1

Chemistry majors must earn a C or better.

#### Additional Comments:

## CHEM235 - Organic Chemistry

### Course Information

#### Course Title

Organic Chemistry

Subject code	Course Number	Academic Level
CHEM	235	Undergraduate

#### Course Description

The elementary theory, reactions, and properties of organic compounds in an integrated fashion. No credit toward chemistry major. 3 hrs. lec., 3 hrs. lab. Offered fall. Prereq: CHEM 112 with a grade of C- or higher; C for chemistry majors. CHEM 235 is not an acceptable Prereq for CHEM 232.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

CHEM 112

## CHEM232 - Organic Chemistry 2

### Course Information

#### Course Title

Organic Chemistry 2

Subject code	Course Number	Academic Level
CHEM	232	Undergraduate

#### Course Description

The structure-property-reactivity-mechanism-synthesis approach from CHEM 231 continues with application to, and/or emphasis on, unsaturated compounds-alkynes, dienes and

**Earn a minimum grade of C- in the following:**

- CHEM112 - Introductory Chemistry 2

C or better for Chemistry majors.

**Additional Comments:**

## CHEM251 - Inorganic Chemistry 1

### Course Information

**Course Title**

Inorganic Chemistry 1

Subject code	Course Number	Academic Level
CHEM	251	Undergraduate

**Course Description**

Emphasis on the unification of descriptive chemistry with the basic principles that may be used to explain natural phenomena in inorganic chemistry. The physical and chemical properties of the elements and classes of compounds such as oxides, halides, hydrides, etc., will be described and explained. Acid-base and oxidation-reduction behavior will be emphasized, along with coordination chemistry. Periodic trends are an integral part of the course. 3 hrs. lec. Offered in spring. Prereq: CHEM 112 with a grade of C- or higher; C for chemistry majors; or Coreq: CHEM 112.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

CHEM 112

**Earn a minimum grade of C- in the following:**

- CHEM112 - Introductory Chemistry 2

Chemistry majors must earn a C or better and or Coreq: CHEM 112.

**Additional Comments:**

**Course Description**

An integrated study of advanced chemical equilibrium, activity, experimental uncertainty and accepted practice in the analytical laboratory. Titrimetry, potentiometry, extraction theory, introductory spectroscopy and chromatography are discussed. 3 hrs. lec., 3 hrs. lab. Offered spring, summer. Prereq: CHEM 112 with a grade of C- or higher; C for chemistry majors.

**General Education Labels**

## CHEM312 - Chemistry in Nanotechnology

### Course Information

Course Title  
Chemistry in Nanotechnology

Subject code	Course Number	Academic Level
CHEM	312	Undergraduate

**Course Description**  
A study of principles, methods and applications of chemistry in nanotechnology, with a special emphasis on the chemistry of materials. Topics include synthesis, characterization and manipulation of nanomaterials, sensors, bioinspired nanomaterials, atomic force and scanning electron microscopy. 2 hrs. lec., 3 hrs. lab. Offered in spring. Prereq: NFMT 313 and CHEM 104 or 111; or CHEM 232; or CHEM 235; or permission of instructor.

**Simple Requisites**

#### Course Prerequisites

Type  
Prerequisite

(NFMT 313 and CHEM 104) or CHEM 111 or CHEM 232 or CHEM 235

**Complete ANY of the following Courses:**

- NFMT313 - Thin Film Utilization

## CHEM312H - Hon: Chemistry in Nanotechnology

### Course Information

Course Title  
Hon: Chemistry in Nanotechnology

Subject code	Course Number	Academic Level
CHEM	312H	Undergraduate

**Simple Requisites**

#### Course Prerequisites

Type  
Prerequisite

(NFMT 313 and CHEM 104) or CHEM 111 or CHEM 232 or CHEM 235

- CHEM111 - Introductory Chemistry 1
- CHEM232 - Organic Chemistry 2
- CHEM235 - Organic Chemistry

Or must have permission of instructor.

**Additional Comments:**

## CHEM324 - Plant Biochemistry

### Course Information

Course Title  
Plant Biochemistry

Subject code	Course Number	Academic Level
CHEM	324	Undergraduate

### Course Description

A study of enzymes and pathways involved in plant intermediary metabolism as related to plant cell structure, function and plant development. Topics include plant bioenergetics, biosynthesis of plant hormones and elicitor molecules, signal perception and transduction, and secondary metabolites (natural products). 3 hrs. lec., 3 hrs. lab. Offered in spring. Prereq: BIOL 221 and 263; CHEM 232 or 235.

### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

BIOL 221 and CHEM 232 or CHEM 235

#### Complete ALL of the following Courses:

- BIOL221 - Concepts of Botany
- CHEM232 - Organic Chemistry 2  
OR CHEM235 - Organic Chemistry

#### Additional Comments:

## CHEM326 - Biochemistry 1

### Course Information

#### Course Title

Biochemistry 1

Subject code	Course Number	Academic Level
CHEM	326	Undergraduate

#### Course Description

The structure and physical and chemical properties of carbohydrates, lipids, nucleic acids and other biological compounds, and their importance in life processes. Introduction to metabolic processes. Laboratory studies include the properties of chemicals of biological origin, techniques in isolation, identification, qualitative and quantitative analysis. 3 hrs. lec., 3 hrs. lab. Prereq: C- in CHEM 232 or 235.

#### General Education Labels

G2, Lab (L)

### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

CHEM 232 or CHEM 235

#### Earn a minimum grade of C- in the following:

- CHEM232 - Organic Chemistry 2  
OR CHEM235 - Organic Chemistry

Chemistry majors must earn a C or better.

#### Additional Comments:

## CHEM327 - Biochemistry 2

### Course Information

#### Course Title

Biochemistry 2

Subject code	Course Number	Academic Level
CHEM	327	Undergraduate

#### Course Description

Major focus on understanding the chemistry behind the function of biological compounds involved in cellular processes. Specific topics include enzyme mechanisms and energetics, membrane dynamics and transport, replication, transcription, protein translation and signal transduction. Additionally, metabolism of lipids, amino acids and nucleotides is studied in detail. 3 hrs. lec., 3 hrs. lab. Offered in spring. Prereq: CHEM 326 with a grade of C- or higher.

### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

CHEM 326

#### Earn a minimum grade of C- in the following:

- CHEM326 - Biochemistry 1

#### Additional Comments:

## CHEM327H - Hon: Biochemistry 2

### Course Information

#### Course Title

Hon: Biochemistry 2

Subject code	Course Number	Academic Level
CHEM	327H	Undergraduate

### Simple Requisites

#### Course Prerequisites

### Type

### Prerequisite

CHEM 326

### Earn a minimum grade of C- in the following:

- CHEM326 - Biochemistry 1

### Additional Comments:

## CHEM328 - Analytical Biochemistry Lab

### Course Information

#### Course Title

Analytical Biochemistry Lab

Subject code	Course Number	Academic Level
CHEM	328	Undergraduate

#### Course Description

Laboratory course designed to expand the technical experience of biochemistry students. Experiments completed focus on the analysis of major classes of biological compounds using advanced techniques and instrumentation. Includes opportunities to develop literature research, writing and presentation skills critical for scientific study. 3 hrs. lab. Offered in spring. Prereq or Coreq: CHEM 327 or CHEM 324 or BIOL 324.

#### Simple Requisites

### Course Prerequisites

### Type

### Prerequisite

CHEM327 or CHEM324 or BIOL324

### Complete ANY of the following Courses:

- CHEM327 - Biochemistry 2
- CHEM324 - Plant Biochemistry
- BIOL324 - Plant Biochemistry

### Additional Comments:

### Course Description

A thermodynamic study of chemical systems, including ideal and nonideal solutions, chemical and phase equilibria, and electrochemistry. Investigation of the macroscopic behavior of gases and its theoretical explanations. Summary of the determination and application of additive properties. 3 hrs. lec., 3 hrs. lab. Offered in fall. Prereq: CHEM 265 with a grade of C or higher, PHYS 232, MATH 311 and ENGL 110.

### General Education Labels

Writing (W)

### Simple Requisites

### Course Prerequisites

### Type

### Prerequisite

CHEM 265

### Earn a minimum grade of C in the following:

- CHEM265 - Quantitative Analysis

PHYS 232 and MATH 311 and ENGL 110 or ENGL 110H

### Complete ALL of the following Courses:

- PHYS232 - Physics 2 with Calculus
- MATH311 - Calculus 3
- ENGL110 - Introduction to College Writing  
OR ENGL110H - Hnrs:Introduction to College Writing

### Additional Comments:

## CHEM342 - Physical Chemistry 2

### Course Information

#### Course Title

Physical Chemistry 2

Subject code	Course Number	Academic Level
CHEM	342	Undergraduate

#### Course Description

Chemical kinetics, statistical mechanics and the development and present state of quantum theory, including chemical bonding theories, atomic and molecular spectroscopy, and methods of structure determination. 3 hrs. lec., 3 hrs. lab. Offered in spring. Prereq: CHEM 341 with a grade of D or higher and ENGL 110, or permission of instructor.

### General Education Labels

Writing (W)

- CHEM341 - Physical Chemistry 1

ENGL 110 or ENGL 110H

**Complete ANY of the following Courses:**

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

Or must have permission of instructor.

**Additional Comments:**

**Additional Comments:**

## CHEM372 - History of Chem and Society

### Course Information

#### Course Title

History of Chem and Society

Subject code	Course Number	Academic Level
CHEM	372	Undergraduate

#### Course Description

The history of the development of the science of chemistry from its roots in Egyptian and Greek societies through its specialization in the early 20th century. The relationships between chemical developments and society are explored, as well as the influences of chemistry on Western thought. 3 hrs. discussion. Offered in fall. Prereq: COMM 100; ENGL 110; junior status; CHEM 102, 104 or 111; two social science courses, including one history course: HIST 101, 102 or 410 preferred.

#### General Education Labels

Perspectives (P), Diversity (D)

#### Simple Requisites

### Course Prerequisites

#### Type

#### Prerequisite

ENGL 110 or ENGL 110H and COMM 100 or COMM 100H

**Complete ALL of the following Course Sets:**

- ENGL 110 and COMM 100

Credit Hours Completion (Junior or Senior Class Standing)

**Earn at least 60 credits**

CHEM 102 or CHEM 104 or CHEM 111

**Complete ANY of the following Courses:**

- CHEM102 - Demonstration Chemistry
- CHEM104 - Gen Organic and Biochemistry 2
- CHEM111 - Introductory Chemistry 1

2 Social Science Courses, Including 1 History Course

**Must have completed two social science courses, including one history course. HIST 101, 102 or 410**

**Earn at least 60 credits**

CHEM 102 or CHEM 104 or CHEM 111

#### Complete ANY of the following Courses:

- CHEM102 - Demonstration Chemistry
- CHEM104 - Gen Organic and Biochemistry 2
- CHEM111 - Introductory Chemistry 1

2 Social Science Courses, Including 1 History Course

**Must have completed two social science courses,**

including one history course. HIST 101, 102 or 410 preferred.

Additional Comments:

## CHEM375 - Environmental Chemistry

### Course Information

Course Title

Environmental Chemistry

Subject code	Course Number	Academic Level
CHEM	375	Undergraduate

#### Course Description

The application of modern chemical principles to the chemical and physical interactions among the hydrosphere, lithosphere, atmosphere and biosphere. Also discussed are the more recent topics in the areas of pollution, energy and waste control. (The laboratory covers the current, fundamental instrumental methods and techniques encountered in environmental analysis.) 3 hrs. lec., 3 hrs. lab. Offered in fall. Prereq: CHEM 112 with a grade of C- or higher.

#### General Education Labels

G2, Lab (L), Diversity (D)

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

CHEM 112

#### Earn a minimum grade of C- in the following:

- CHEM112 - Introductory Chemistry 2

Additional Comments:

## CHEM379 - Experimental

### Course Information

Course Title

Experimental

Subject code	Course Number	Academic Level
CHEM	379	Undergraduate

#### Course Description

Experimental

## CHEM381 - Polymer Chemistry 1

### Course Information

#### Course Title

Polymer Chemistry 1

Subject code	Course Number	Academic Level
CHEM	381	Undergraduate

#### Course Description

An introduction to polymer chemistry. Covered are nomenclature, solutions and solubility, molecular weight determination, morphology, structure determination, polymerization reactions and synthetic methods, physical properties and fabrication methods. The laboratory provides an introduction to the methods of polymer synthesis and characterization. 3 hrs. lec., 3 hrs. lab. Offered in alternate fall semesters. Prereq: C or higher in CHEM 232 or permission of instructor.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

CHEM 232

Earn a minimum grade of C in the following:

- CHEM232 - Organic Chemistry 2

Or must have permission of instructor.

Additional Comments:

Or must have permission of instructor.

Additional Comments:

## CHEM391 - Advanced Laboratory 1

### Course Information

#### Course Title

Advanced Laboratory 1

Subject code	Course Number	Academic Level
CHEM	391	Undergraduate

#### Course Description

Application of advanced techniques in organic synthesis including chemical and physical methods of separation with major emphasis on advanced spectroscopic methods of characterizing organic compounds. 3 hrs. lab. Offered in fall. Prereq: C or higher in CHEM 265, 232.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

CHEM 265 and CHEM 232

Earn a minimum grade of C in the following:

- CHEM265 - Quantitative Analysis
- CHEM232 - Organic Chemistry 2

Additional Comments:

## CHEM381H - Hon: Polymer Chemistry 1

### Course Information

#### Course Title

Hon: Polymer Chemistry 1

Subject code	Course Number	Academic Level
CHEM	381H	Undergraduate

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

CHEM 232

Earn a minimum grade of C in the following:

- CHEM232 - Organic Chemistry 2

## CHEM392 - Advanced Laboratory 2

### Course Information

#### Course Title

Advanced Laboratory 2

Subject code	Course Number	Academic Level
CHEM	392	Undergraduate

#### Course Description

A continuation of CHEM 391 including advanced techniques in inorganic synthesis and analysis. 3 hrs. lab. Offered in spring. Prereq: CHEM 251 with a grade of C or higher.

#### Simple Requisites

##### Course Prerequisites

##### Type

#### Prerequisite

CHEM 251

**Earn a minimum grade of C in the following:**

- CHEM251 - Inorganic Chemistry 1

**Additional Comments:**

## CHEM400 - Co-Op Ed Experience in Chem

### Course Information

**Course Title**

Co-Op Ed Experience in Chem

Subject code	Course Number	Academic Level
CHEM	400	Undergraduate

**Course Description**

## CHEM435 - Advanced Organic Chemistry

### Course Information

**Course Title**

Advanced Organic Chemistry

Subject code	Course Number	Academic Level
CHEM	435	Undergraduate

**Course Description**

Current theories of organic chemistry, with major emphasis on physical aspects as applied to structure, reactions, spectroscopy and reaction mechanisms. 3 hrs. lec. and reading in current literature. Offered in spring. Prereq: C or higher in CHEM 232.

**Simple Requisites**

#### Course Prerequisites

**Type**

Prerequisite

CHEM 232

**Earn a minimum grade of C in the following:**

- CHEM232 - Organic Chemistry 2

**Additional Comments:**

## CHEM452 - Inorganic Chemistry

### Course Information

**Course Title**

Inorganic Chemistry

Subject code	Course Number	Academic Level
CHEM	452	Undergraduate

**Course Description**

Theories of bonding and structure of inorganic elements and compounds, acid-base theories, coordination chemistry, organometallic chemistry, and bioinorganic chemistry. 3 hrs. lec. Offered in fall. Prereq: C or higher in CHEM 251 and 342 or permission of instructor.

**Simple Requisites**

#### Course Prerequisites

**Type**

Prerequisite

CHEM 342

**Complete ALL of the following Courses:**

- CHEM342 - Physical Chemistry 2

CHEM 251

**Earn a minimum grade of C in the following:**

- CHEM251 - Inorganic Chemistry 1

Or must have permission of instructor.

**Additional Comments:**

**Additional Comments:**

## CHEM476 - Environmental Chemistry 2

### Course Information

**Course Title**

Environmental Chemistry 2

Subject code	Course Number	Academic Level
CHEM	476	Undergraduate

#### Course Description

Extension of the principle topics covered in CHEM 375, with emphasis on quantitative aspects of topics such as the ozone layer, potential greenhouse effects, tropospheric chemistry, chemical fate and transport in aquatic systems, phase interactions and chemical equilibrium. Includes computer modeling, government regulations, pesticides and pollutants, hazardous waste and disposal methods. All topics will be studied from chemical, political and socioeconomic perspectives. 3 hrs. lec., 3 hrs. lab. Offered alternate spring semesters. Prereq: CHEM 375.

#### Simple Requisites

##### Course Prerequisites

**Type**

Prerequisite

CHEM 375

**Complete ALL of the following Courses:**

- CHEM375 - Environmental Chemistry

**Additional Comments:**

## CHEM482 - Polymer Chemistry 2

### Course Information

**Course Title**

Polymer Chemistry 2

Subject code	Course Number	Academic Level
CHEM	482	Undergraduate

#### Course Description

Topics in polymer physical chemistry, including conformation of polymer molecules, polymer solutions, theory of molecular weight determination methods, rheology, orientation, time-

temperature dependence of physical properties, thermodynamics and kinetics of polymerization, rubber elasticity and spectroscopic methods of polymer characterization. 3 hrs. lec. Offered alternate spring semesters. Prereq: CHEM 342 and 381 or permission of instructor.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

CHEM 342

##### Complete ALL of the following Courses:

- CHEM342 - Physical Chemistry 2

CHEM 381

##### Complete ALL of the following Courses:

- CHEM381 - Polymer Chemistry 1

Or must have permission of instructor.

**Additional Comments:**

## CHEM486 - Topics in Chemistry

### Course Information

#### Course Title

Topics in Chemistry

Subject code	Course Number	Academic Level
CHEM	486	Undergraduate

#### Course Description

Detailed investigation of a topic in chemistry of current interest. Topic to be announced each time course is offered. Offered infrequently. Prereq: permission of instructor.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

Instructor Permission

**Must have permission of instructor.**

**Additional Comments:**

## CHEM487 - Seminar in Chemistry 1

### Course Information

#### Course Title

Seminar in Chemistry 1

Subject code	Course Number	Academic Level
CHEM	487	Undergraduate

#### Course Description

Topics of current chemical interest. 1 hour. Offered in fall. Prereq: senior standing or permission of instructor.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

Credit Hours Completion (Senior Class Standing)

**Earn at least 90 credits**

Or must have permission of instructor.

**Additional Comments:**

## CHEM488 - Seminar in Chemistry 2

### Course Information

#### Course Title

Seminar in Chemistry 2

Subject code	Course Number	Academic Level
CHEM	488	Undergraduate

#### Course Description

Topics of current chemical interest. 1 hour. Offered in spring. Prereq: CHEM 487; Coreq: GRAD 999 or permission of instructor.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

CHEM 487

##### Complete ALL of the following Courses:

- CHEM487 - Seminar in Chemistry 1

**Additional Comments:**

##### Course Corequisites

**Type**

Prerequisite

GRAD 999 or Instructor Permission

**GRAD 999 or must have permission of instructor.**

**Additional Comments:**

Instructor Permission

**Must have permission of instructor.**

**Additional Comments:**

## CHEM489 - Honors Course

### Course Information

Course Title

Honors Course

Subject code	Course Number	Academic Level
CHEM	489	Undergraduate

#### Course Description

For the definition of honors course and eligibility, refer to the Special Academic Opportunities section of this catalog.

## CHEM498 - Independent Study

### Course Information

Course Title

Independent Study

Subject code	Course Number	Academic Level
CHEM	498	Undergraduate

#### Course Description

A course for qualified students to investigate problems in chemistry. Guidance in the methods of chemical research. A minimum of 3 hours of lab required per semester hour.

Prereq: permission of instructor. For further information on independent study, see the Special Academic Opportunities section.

#### Simple Requisites

**Course Prerequisites**

## CHEM499 - Departmental Honors

### Course Information

Course Title

Departmental Honors

Subject code	Course Number	Academic Level
CHEM	499	Undergraduate

#### Course Description

For the definition of honors course and eligibility, refer to the Special Academic Opportunities section of this catalog.

## FYEX100C - First Year Experience: Chemistry in Your Life

### Course Information

Course Title

First Year Experience: Chemistry in Your Life

Subject code	Course Number	Academic Level
FYEX	100C	Undergraduate

#### Course Description

Chemistry is all around us including the colors we see, the food we eat, and the materials we use every day. This course will examine the chemistry of the world around us. We will discuss properties of molecules and light and learn what comprises the materials we use in daily life. This course does not have a laboratory component, but some hands-on activities will be incorporated. 3 hrs lec. Offered: fall.

# Communication and Theatre Department

The Department of Communication and Theatre offers a Bachelor of Science in communication, a Bachelor of Arts in entertainment technology, and a Bachelor of Science in media arts production along with minors in journalism, media arts production, strategic public relations and theatre.

FACULTY LIST
<p><b>Boyer, Adam;</b> Assistant Professor College of Arts, Humanities and Social Sciences B.A., Indiana University of Pennsylvania, 2006; M.F.A., University of Iowa, 2009</p>

## Programs

### Journalism Minor

#### Overview

The journalism minor at Millersville introduces students to the craft of creating content for news media. The program focuses on strengthening students' writing and presentation

skills, teaching journalism through the lens of social responsibility, and installing the importance of the ethics of verification and professionalism. The curriculum is designed to open up potential career options in the field of journalism and news media while completing a different degree program. The journalism minor pairs especially well with degree programs in media arts production, sociology and government and political affairs.

## Curriculum

### Simple Requisites

#### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

## Media Arts Production Minor

### Overview

The minor in Media Arts Production helps students learn to create original content across genres to inform, entertain, persuade and enlighten audiences by learning creative, management and production processes and hands-on experiences to build your portfolio of digital content. The curriculum is designed to help students practice and reinforce industry specific skills and standards in a professional media workflow while juggling projects, meeting tight deadlines, and collaborating with production teams.

Additional Comments:

Media Studies Minor

Overview

The aim of the Media Studies minor is to complement and enhance students existing major programs in their understanding of the foundational, conceptual and theoretical study of media, through analyzing and critiquing media messages, emerging technological trends, and law and ethics. This curriculum can help students better examine the contemporary media landscape of our increasingly diverse world, increase digital, informational and media literacy, and complement their major curricula. The minor is especially designed for programs where students may have a related interest in this complimentary area of study, like anthropology, business, criminology, English, government, public relations, and sociology. This Media Studies minor does not overlap our other program's minor in Media Arts Production because the Media Studies minor has no production courses in the curriculum, and no aim for content creation as part of the program.

Curriculum

## Entertainment Technology & Theatre, B.A. - Entertainment Technology

### Overview

The Entertainment Technology concentration, as part of the B.A. in Entertainment Technology and Theatre degree at Millersville University, offers a specialized curriculum designed to prepare students for the technical and innovative challenges of the live entertainment industry. This concentration emphasizes the intersection of technology and creativity, equipping students with a comprehensive understanding of the tools and methodologies used in contemporary entertainment production. Students will gain expertise in essential areas such as Vector Works, audio and lighting design, and the application of industry-standard safety protocols, ensuring a well-rounded foundation in both the technical aspects and creative applications of entertainment technology.

By sharing core degree requirements with the Theatre concentration, the Entertainment Technology program encourages a collaborative learning environment that bridges the gap between technical proficiency and artistic expression. This synergy enables students to explore a wide range of skills and principles, from the technical intricacies of stage and event production to the creative challenges of integrating technology with live performance. The concentration is designed to produce graduates who are not only adept at navigating the technological landscape of entertainment but also capable of contributing to its evolution through innovative design and problem-solving. This approach ensures that Millersville University students are well-prepared to enter a competitive and rapidly evolving industry, armed with the versatile skill set necessary to succeed in a variety of entertainment technology roles.

## Entertainment Technology and Theatre, B.A. - Theatre Concentration

### Overview

The Theatre concentration within the B.A. in Entertainment Technology and Theatre degree at Millersville University is an immersive program designed to provide students with a deep understanding of the theatrical arts while embracing the evolving dynamics of the entertainment industry. This concentration delves into the core elements of theatre, including stagecraft, acting, directing, script analysis, theatre history, and the innovative integration of technology into performance spaces. It is structured to foster a rich, interdisciplinary learning environment where students can explore the artistic and performative aspects of theatre alongside the technical advancements that are shaping modern live entertainment.

By sharing core degree requirements with the Entertainment Technology concentration, the Theatre concentration promotes a collaborative educational experience, encouraging students to engage with both the artistic and technical dimensions of live productions. This approach ensures that graduates are not only proficient in traditional theatre arts but also have the opportunity to be equipped with the skills necessary to navigate and contribute to the technical landscape of live entertainment. The concentration aims to cultivate versatile professionals who possess a strong artistic vision and the innovative problem-solving skills required in

today's dynamic entertainment industry. Through a curriculum that emphasizes cross-disciplinary collaboration and hands-on learning opportunities, students are prepared to meet the challenges and opportunities of a rapidly changing field, positioning them for success in a variety of roles within the entertainment sector.

4 Courses from those listed, minimum 1 at 300 level and 1 at 400 level (7-12 credits)

To meet the requirement for 4 Courses from those listed, minimum 1 at 300 level and 1 at 400 level, classes must include at least 1 of: COMM300 Co-Op Ed Experience in Comm, COMM305 Business Profess Communictn, COMM317 Intercultural Communication, COMM322 Media Aesthetics & Criticism, COMM330 Media and Women's Culture, COMM333 Gender and Communication, WRIT343 Rhet of Marg Communities, COMM351 Public Relations II: PR Writng, COMM371 Crisis Emergency & Risk Comm, or COMM380 Digital Media Writing. In addition, classes must include at least 1 of: COMM403 Persuasion & Social Media Infl, COMM431 The Body in Communication, COMM440 Leadership and Media, COMM441 Political Communication, COMM450 Communication and Conflict, or COMM461 Health Communication

— AND —

Additional electives from COMM

**Complete at least 2 courses in the following course sets:**

- Any COMM course(s)

— AND —

2 Courses in Digital Communication and Culture

**Complete at least 2 courses in the following course sets:**

- Any ENGL course(s)
- Any WRIT course(s)
- Any JRNL course(s)
- Any ART course(s)
- Any DESN course(s)
- Any AENG course(s)

Completing a minor or a second major will reduce the additional requirements for the Digital Communication and Culture concentration. Please discuss with your advisor.

**Additional Comments:**

## Communication, B.S. - Journalism Concentration

### Overview

The journalism concentration in the Department of Communication & Theatre has a five-point curricular approach. Students will master the craft of journalistic writing across all media platforms. Along with this skillset, they should be able to articulate the responsibilities journalism has to society at the local, state, national, and international levels. An essential part of that education is in ethics. All courses have elements to help students recognize the ethical challenges journalists face and articulate a range of solutions to those challenges. Student journalists are taught to employ thorough research methods, a basic understanding of statistical concepts, and the verification of facts, for accurate reporting. Finally, the concentration helps students gain professional experience through service in internships and student media.

Additional Comments:

## Communication, B.S. - Public Relations Concentration

### Overview

The departmental major in communication is grounded in the liberal arts and allows students to concentrate in one of three options: digital communication studies, public relations, or journalism. Students take a common core of required courses in the major and in specific options, with electives chosen in consultation with an advisor.

The Public Relations concentration provides students with both a social science and humanistic approaches to this field. The relationship of organizations to their various publics is studied scientifically and as an art, with emphasis on writing and critical thinking as the basis for communicating. Students will study both the theory and practice of this major, while also having opportunities outside of the classroom to build their skills. Millersville's curriculum follows Public Relations Society of America (PRSA) guidelines, engages students in social media and prepares them to anticipate crisis

communication situations.

Upon acceptance into the communication program, the following academic requirements must be maintained in order to graduate: a C or higher is required in each core course before taking the next higher core course; student progress in the major is reviewed no later than the semester following completion of 60 hours. Students in the major must attain a 2.5 GPA in the major in order to be retained in the major.

### Course Information

#### Course Title

Comm Research Proseminar

Subject code	Course Number	Academic Level
COMM	605	Graduate

#### Course Description

A survey and application of research methods for managers and communicators. Students will investigate appropriate literature, design and undertake a study to investigate a communication problem in their profession. Quantitative and qualitative analyses will be considered with a focus on multi-method approaches to research. Class participants will determine how best to measure and analyze data specific to their hypotheses and/or research questions.

## COMM610 - Seminar in Organizational Comm

### Course Information

#### Course Title

Seminar in Organizational Comm

Subject code	Course Number	Academic Level
COMM	610	Graduate

#### Course Description

The course introduces students to fundamental theories and issues associated with organizational communication, including organizational culture/climate as created by internal/external communication in interpersonal, small group, intercultural, and public communication contexts, exploring the impacts of communication in both face-to-face and mediated formats.

## COMM625 - Intercultural Comm in Contexts

### Course Information

#### Course Title

Intercultural Comm in Contexts

Subject code	Course Number	Academic Level
COMM	625	Graduate

#### Course Description

This course is designed to introduce major theories and research dealing with communication between people of different cultural backgrounds in crisis, emergency, risk, and disaster communication contexts. It examines theoretical issues and methodological concerns in studying intercultural conflicts, problem situations, and emergency management strategies. By examining the intersections of global and local in emergent and conflict situations, students will discover and investigate questions about intercultural communication phenomena, engaging with discussions of identity, culture, context, power, history, and relationships. Students will learn a range of research tools to conduct their independent research, sharing insights and participating in intercultural dialogues, with the goal of facilitating intercultural understanding and advocating for best practices during emergency management situations.

## COMM627 - Digital Advocacy

### Course Information

#### Course Title

Digital Advocacy

Subject code	Course Number	Academic Level
COMM	627	Graduate

#### Course Description

This course focuses on the ways that digital technologies and social media increasingly shape the contemporary impact of social movements and political activism. Bringing together cultural studies approaches to communication and social movement theories with historical attention to protest and social change, this course considers what it means to 'become-activist' and how to serve as an advocate for social-political change as an ongoing aspect of one's everyday life. Hence, the course will explore matters such as commitment and participation, place and identity, conflict and group cohesion, and the social justice issues that arise in regard to race, class, gender, ethnicity, disability rights, immigration and refugees, environmentalism, animal rights, and global activism. As part of the MS program in Emergency Management, the course will also consider the impact of digital advocacy in crisis, emergency, risk and disaster contexts.

## COMM653 - Applied Comm Theory

### Course Information

#### Course Title

Applied Comm Theory

Subject code	Course Number	Academic Level
COMM	653	Graduate

#### Course Description

This course is designed as an opportunity to apply communication theories, concepts, principles, pedagogies, and practices to address real-world problems in crisis, emergency, risk, and disaster contexts. Whether it is at the interpersonal, group, mediated, organizational, societal, or global level, communication theories can help postgraduate students understand and investigate important issues and concerns. While the main focus of the course is to introduce communication theories and apply them in students' experiences of crisis, risks, and emergency management, it also employs critical and practical perspectives in evaluating current theoretical trends and creating new currents of thoughts in research and paradigms. Postgraduate students will be able to apply their knowledge and skills to improve their practices during emergency management and provide valuable services to the community at large.

## COMM661 - Health Communication

### Course Information

#### Course Title

Health Communication

Subject code	Course Number	Academic Level
COMM	661	Graduate

#### Course Description

This course focuses on forms and functions of communication in a variety of health care settings and on messages in human and mediated communication contexts that promote and reinforce health values, beliefs, practices, policies, and products. This course prepares students to examine the specialized research in health communication in this growing area of scholarship that receives recognition at the national level. It works to advance theory, research, teaching, and practical applications of human and mediated communication to health care and health promotion. Students will also examine how cultures influence the construction and interpretation of health-related messages. As part of the Master of Science in Emergency Management, the course will include a focus on crisis, emergency, risk, and disaster contexts.

## ENTC208 - Production Practicum

### Course Information

#### Course Title

Production Practicum

Subject code	Course Number	Academic Level
ENTC	208	Undergraduate

#### Course Description

Experiential learning through production of entertainment and events. A practical course for live entertainment technicians and designers: Scenic/Carpentry, Costume/Wardrobe, Properties, Lighting/Electric, Sound/Audio, Video, and other entertainment technology areas. Open to all majors. 1, 2, and 3 credit sections offered regularly. Pre/Co-Req: THEA 120 - Stagecraft. Requires permission of instructor through application or interview.

JRNL250 - Journalism & Society

Course Information

Course Title

Journalism & Society

Subject code	Course Number	Academic Level
JRNL	250	Undergraduate

Course Description

Explores journalisms role in American society by analyzing the problems facing journalists in the realms of politics, law, corporate power and ethics. Prereq: ENGL 110

General Education Labels

G1, Writing (W)

Simple Requisites

Course Prerequisites

Type

Prerequisite

ENGL 110 or ENGL 110H

**Complete ANY of the following Courses:**

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

**Additional Comments:**

## JRNL313 - Fundamentals of Journalism

### Course Information

**Course Title**

Fundamentals of Journalism

Subject code	Course Number	Academic Level
JRNL	313	Undergraduate

**Course Description**

Introduction to the craft of journalism and the nuts and bolts of news writing, including story structures, leads, nut graphs, kickers, finding sources and conducting interviews.

**General Education Labels**

G1, Writing (W)

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

ENGL 110 or ENGL 110H

**Complete ANY of the following Courses:**

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

**Additional Comments:**

**Course Description**

Building on journalism fundamentals, this course calls for students to tackle more in-depth and lengthier reporting projects. The class delves into a wider range of reporting beats, and places an emphasis on the importance of representation of diverse groups both in stories and in the newsroom.

**General Education Labels**

Diversity (D), Writing (W)

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

ENGL 110 or ENGL 110H and JRNL313

**Complete ALL of the following Courses:**

- ENGL110 - Introduction to College Writing  
OR ENGL110H - Hnrs:Introduction to College Writing
- JRNL313 - Fundamentals of Journalism

**Additional Comments:**

## JRNL327 - Feature Writing and Magazine Journalism

### Course Information

**Course Title**

Feature Writing and Magazine Journalism

Subject code	Course Number	Academic Level
JRNL	327	Undergraduate

**Course Description**

Writing long-form features and enterprise stories, including photography, video and audio content to enhance story presentation on the internet. All original work. Prereq: ENGL 313 or JRNL 313

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

JRNL 313

**Complete ALL of the following Courses:**

- JRNL313 - Fundamentals of Journalism

## JRNL315 - Advanced Reporting in a Diverse World

### Course Information

**Course Title**

Advanced Reporting in a Diverse World

Subject code	Course Number	Academic Level
JRNL	315	Undergraduate

Additional Comments:

## JRNL328 - Ethics in Digital Media Journalism

### Course Information

Course Title

Ethics in Digital Media Journalism

Subject code	Course Number	Academic Level
JRNL	328	Undergraduate

Course Description

Covers ethics of print-media publication. Focuses on the development of ethics in writing and changes in journalistic standards. May include case-study analysis.

Simple Requisites

**Course Prerequisites**

**Type**

Prerequisite

ENGL 110 or ENGL 110H

**Complete ANY of the following Courses:**

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

Additional Comments:

## JRNL430 - Investigative and Computer Assisted Reporting

### Course Information

Course Title

Investigative and Computer Assisted Reporting

Subject code	Course Number	Academic Level
JRNL	430	Undergraduate

Course Description

Data-driven journalism, looking at the collection of data, analysis in software such as SPSS and the writing of longer-form articles about research. Prereq: ENGL 313 or JRNL 313

Simple Requisites

**Course Prerequisites**

**Type**

Prerequisite

JRNL 313

**Complete ALL of the following Courses:**

- JRNL313 - Fundamentals of Journalism

Additional Comments:

## THEA120 - Stagecraft

### Course Information

Course Title

Stagecraft

Subject code	Course Number	Academic Level
THEA	120	Undergraduate

Course Description

An introduction to technical theatre. Topics include the construction and handling of scenery, scenic painting, stage lighting, and the proper, safe use of tools and equipment. Offered annually.

**General Education Labels**

G1

## THEA130 - Acting 1

### Course Information

Course Title

Acting 1

Subject code	Course Number	Academic Level
THEA	130	Undergraduate

Course Description

Training in the art and craft of acting. Emphasis on developing basic skills and exploring the creative process. Elementary scene and monologue work. Offered in fall.

**General Education Labels**

G1

## THEA179 - Experimental

### Course Information

Course Title

Experimental

Subject code	Course Number	Academic Level
THEA	179	Undergraduate

Course Description

Experimental

## THEA208 - Theatre Practicum

### Course Information

#### Course Title

Theatre Practicum

Subject code	Course Number	Academic Level
THEA	208	Undergraduate

#### Course Description

Experiential learning through performance and practice in a mainstage production. A practical course for student actors, performers, directors, choreographers, writers, and stage managers. Open to all majors. 1, 2, & 3 credit sections offered regularly. Pre-req: Permission of instructor through audition or interview.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

Instructor Permission

Permission of instructor through audition or interview.

Additional Comments:

Subject code	Course Number	Academic Level
THEA	230	Undergraduate

#### Course Description

Further explores the purpose of acting and underlying principles, as well as training voice and body to project characterization. Offered biannually in spring. Prereq: THEA 130 or permission of instructor.

#### General Education Labels

G1

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

THEA 130

##### Complete ALL of the following Courses:

- THEA130 - Acting 1

Or must have permission of instructor.

Additional Comments:

## THEA217 - Theatre Appreciation

### Course Information

#### Course Title

Theatre Appreciation

Subject code	Course Number	Academic Level
THEA	217	Undergraduate

#### Course Description

A discussion of the theatre experience for the student with an interest in theatre, including audience perspective, historical influences, and contemporary performance and technical theatre practices. Offered in annually.

#### General Education Labels

G1

## THEA230 - Acting 2

### Course Information

#### Course Title

Acting 2

## THEA240 - Script Analysis

### Course Information

#### Course Title

Script Analysis

Subject code	Course Number	Academic Level
THEA	240	Undergraduate

#### Course Description

The techniques and methodology of script analysis with an emphasis on those aspects useful to the production staff in preparation of plays for production. Offered biannually in the spring.

#### General Education Labels

G1

## THEA279 - Experimental

### Course Information

#### Course Title

Experimental

Subject code	Course Number	Academic Level
THEA	279	Undergraduate

## Course Description

Experimental

## THEA300 - Co-Op Ed Experience in Thea

### Course Information

#### Course Title

Co-Op Ed Experience in Thea

Subject code	Course Number	Academic Level
THEA	300	Undergraduate

#### Course Description

Co-Op Experience in Theatre

## THEA310 - Costume for Stage & Media

### Course Information

#### Course Title

Costume for Stage & Media

Subject code	Course Number	Academic Level
THEA	310	Undergraduate

#### Course Description

A survey of the process and techniques of designing and accomplishing costuming for theatre and other media. Script and character analysis, costume period styles, and basic construction techniques will be studied. The course is valuable for Actors and Directors as well as Designers and Technicians. Previous experience in art and sewing are not required.

## THEA312 - Hist/Princpls of Stage Design

### Course Information

#### Course Title

Hist/Princpls of Stage Design

Subject code	Course Number	Academic Level
THEA	312	Undergraduate

#### Course Description

Scenic, costume and lighting design aesthetics throughout history and as they apply to todays theatre. Art experience is not required. Offered infrequently.

#### General Education Labels

G1

## THEA315 - Directing

### Course Information

#### Course Title

Directing

Subject code	Course Number	Academic Level
THEA	315	Undergraduate

#### Course Description

Practical experience in both directing and coaching actors. An overview of directing process and directing style. Offered biannually in spring. Prereq: THEA 130 or permission of instructor.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

THEA 130

#### Complete ALL of the following Courses:

- THEA130 - Acting 1

Or must have permission of instructor.

#### Additional Comments:

## THEA317 - London Theatre Tour

### Course Information

#### Course Title

London Theatre Tour

Subject code	Course Number	Academic Level
THEA	317	Undergraduate

#### Course Description

Theatre as it developed in London, England. The course, in conjunction with the London Metropolitan University, requires attendance at four contrasting professional theatre performances in London as well as backstage tours of the Globe Theatre, the National Theatre and the Royal Theatre Drury Lane. Offered in summer of even years. Prereq: junior status, COMM 100, ENGL 110.

#### General Education Labels

Perspectives (P)

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ENGL 110 or ENGL 110H and COMM100 or COMM100H

**Complete ALL of the following Course Sets:**

- ENGL 110 and COMM 100

Credit Hours Completion (Junior or Senior Class Standing)

Earn at least 60 credits

Additional Comments:

## THEA340 - History of Theatre 1

### Course Information

Course Title

History of Theatre 1

Subject code	Course Number	Academic Level
THEA	340	Undergraduate

Course Description

Detailed study of development of all phases of theatre art and dramatic literature from its origin to 1850. Offered in rotation with THEA 341. Prereq: ENGL 110, COMM 100.

General Education Labels

G1, Writing (W)

Simple Requisites

Course Prerequisites

Type

Prerequisite

ENGL 110 or ENGL 110H and COMM100 or COMM100H

**Complete ALL of the following Course Sets:**

- ENGL 110 and COMM 100

Additional Comments:

## THEA341 - History of Theatre 2

### Course Information

Course Title

History of Theatre 2

Subject code	Course Number	Academic Level
THEA	341	Undergraduate

Course Description

Survey of European and American drama from the time of Ibsen to the present, tracing development of dramatic literature from the rise of realism to contemporary experimentalism; emphasis on plays illustrating significant trends and movements. Offered in rotation with THEA 340. Prereq: ENGL 110, COMM 100.

General Education Labels

G1, Writing (W)

Simple Requisites

Course Prerequisites

Type

Prerequisite

ENGL 110 or ENGL 110H and COMM100 or COMM100H

**Complete ALL of the following Course Sets:**

- ENGL 110 and COMM 100

Additional Comments:

## THEA350 - Theatre Management

### Course Information

Course Title

Theatre Management

Subject code	Course Number	Academic Level
THEA	350	Undergraduate

Course Description

Introductory survey of theatre management, which addresses concerns related to theatre. An overview of the theatre manager's role, focus on strategic planning, organizational design, economics and the theatre, unions; and financial concerns which affect the success of theatre organizations. Offered infrequently. Prereq: COMM 100 and ENGL 110.

Simple Requisites

Course Prerequisites

Type

Prerequisite

ENGL 110 or ENGL 110H and COMM100 or COMM100H

Complete ALL of the following Course Sets:

- ENGL 110 and COMM 100

Computer Science Department

The Department of Computer Science offers a baccalaureate degree in computer science and also offers minors in computer science and data science.

The Bachelor of Science degree program in computer science is accredited by the Computing Accreditation Commission of ABET, [www.abet.org](http://www.abet.org). The Bachelor of Science degree program in computer science has been recognized as a high-quality degree program that meets national standards for computer science education. Our B.S. degree program in computer science was the first computer science program in a Pennsylvania State System University to be accredited by ABET. The B.S. degree program in computer science is designed to provide students with a fundamental background in computer science as well as allow students to study advanced topics such as artificial intelligence, security, game development, computer graphics, web development, data mining, algorithms, computer networks, large-scale data analytics and visualization, and parallel programming. Graduates are well prepared to pursue graduate study or a career in the computing field. Opportunities for student research are available.

For admission as a major in computer science, a student is expected to have a sound preparation in high school academic mathematics: algebra I and II, plane geometry, trigonometry and analytic geometry. Students who have completed an AP course in high school are encouraged to take the College Board Advanced Placement Computer Science A exam and have their scores sent to Millersville University for evaluation. University credit for freshman-level computer science major courses will be offered to students with grades of 3 or higher. For further information, see Advanced Placement Examinations in this catalog. Please note that a score of 3 or higher on the Computer Science Principles exam can be used for general University credit but will not replace any courses within the computer science major. The cooperative education program allows students to gain valuable experience in a full-time professional position related to their career goals, adding practical relevance to their program of study as well as financial remuneration. Students may elect one or more cooperative education experiences.

The cooperative education program allows students to gain valuable experience in a full-time professional position related to their career goals, adding practical relevance to their program of study as well as financial remuneration. Students may elect one or more cooperative education experiences.

Millersville University's Computer Science program consists of two components: required courses that every student must take and elective courses from which each student selects those most relevant to their interests and career goals. The required courses prepare students for an immediate career and for lifelong learning by providing a solid foundation of computer science principles. In particular, the required curriculum includes coverage of discrete mathematical structures, computer programming, data structures and algorithm analysis, computer architecture, programming languages, mathematical models of computation, database systems, design of operating systems, and contemporary software engineering practices. The electives cover a wide variety of important application areas and more advanced versions of the fundamental topics. Popular elective topics include artificial intelligence, computer graphics, computer networks, computer security, data mining, video game development, and web application development. Graduates of the Computer Science program are well qualified for careers such as software engineer/developer, web developer, systems analyst, data scientist, and system administrator, as well as for graduate studies in computer science and related fields.

Information about the degree programs offered by the Department of Computer Science can be found on the web at [www.millersville.edu/computerscience](http://www.millersville.edu/computerscience).

Programs

Computer Science Minor

Overview

The Computer Science minor has an emphasis on the foundations of computational thinking, problem solving, and programming.

Curriculum

Simple Requisites

Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville

University.

7. No student may minor in his or her major.

**Minor in Computer Science (20 credits)**

Type

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Introductory Computer Science Courses (4 credits)

**Complete ALL of the following Courses:**

- CSCI140 - Discrete Structures

CSCI101 Problem Solving with Computers or CSCI121 Intro to Web Programming may only be used if it is the first CSCI course taken. Otherwise, CSCI140 Discrete Structures will be required.

AND

Required Courses (12 credits)

**Complete ALL of the following Courses:**

- CSCI161 - Introduction to Programming 1
- CSCI162 - Introduction to Programming 2
- CSCI362 - Data Structures

AND

Computer Science Electives (4 credits)

**Earn at least 4 credits from the following:**

- Any 3-level CSCI course(s)
- Any 4-level CSCI course(s)

**Additional Comments:**

## Data Science Minor

### Overview

The Data Science minor has an emphasis on the foundations of computational thinking, problem solving, and how to represent, store, access, and modify data. Students can take a strict subset of Computer Science major courses to fulfill the minor requirements. Completion of 20 credit-hours (all four-credit courses) is required for the minor.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

### Minor in Data Science (20 credits)

#### Type

Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

Required Courses (16 credits)

**Complete ALL of the following Courses:**

- CSCI140 - Discrete Structures
- CSCI151 - Intro to Programming for Data Science I
- CSCI152 - Intro to Programming for Data Science II
- CSCI366 - Database Systems

AND

Data Mining or Lg-Scale Data Analytics & Viz (4 credits)

**Complete at least 1 of the following courses:**

- CSCI452 - Data Mining  
OR CSCI452H - Data Mining
- CSCI453 - Large-Scale Data Analytics and Visualization

**Additional Comments:**

## Computer Science, B.S.

### Overview

MU's Computer Science program consists of two components, which explore topics such as computer graphics, artificial intelligence, networks, software engineering, databases, human-computer interaction, game programming and parallel processing. All Computer Science majors start with the core component to gain skills that are considered fundamental to the study of computer science. This includes grounding in various aspects of programming, computer architecture, discrete mathematical structures, computational models and data structures. The second component is an elective section in which students select courses based on personal interest and career goals from various advanced topics in computer science. This allows students to tailor their coursework to their own needs, while ensuring that every student receives the same fundamental background in the canonical areas of computer science.

## Curriculum

### Simple Requisites

#### Major in Computer Science, BS (52 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Minimum GPA

**Earn a minimum GPA of 2.0**

AND

##### Requirements

- Credits Required for Major
- Minimum Residency 50% of Major Courses

AND

##### Required Courses (40 credits)

##### Complete ALL of the following Courses:

- CSCI140 - Discrete Structures
- CSCI161 - Introduction to Programming 1
- CSCI162 - Introduction to Programming 2
- CSCI330 - Programming Languages
- CSCI340 - Computational Models
- CSCI362 - Data Structures
- CSCI366 - Database Systems
- CSCI370 - Computer Architecture
- CSCI380 - Operating Systems  
OR CSCI380H - Operating Systems (Inactive)
- CSCI420 - Software Engineering

AND

##### Electives (12 credits)

##### Earn at least 12 credits from the following:

- Any CSCI 375-499 course(s)

May also take [CSCI300 Co-Op Ed Experience in CSCI](#).

**Note:** This requirement may not be satisfied with [CSCI380 Operating Systems](#) or [CSCI420 Software](#)

##### Engineering.

Up to 4 credits of Co-op ([CSCI300 Co-Op Ed Experience in CSCI](#), [CSCI400 Co-Op Ed Experience in CSCI](#), CSCI500 are allowed. [CSCI406 Topics in Computer Science](#) Topics courses may be selected if it is 4 credits.

##### Additional Comments:

#### Req Related for Computer Science, BS (20-21 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Mathematics (14-15 credits)

##### Fulfill ALL of the following requirements:

Calculus I or Honors Calculus (4-5 credits)

##### Complete at least 1 of the following courses:

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

##### Required Courses (7 credits)

##### Complete ALL of the following Courses:

- MATH235 - Survey of Statistics
- MATH304 - Matrix Algebra & Applications

AND

##### Directed Math Elective (3 credits)

##### Earn at least 3 credits from the following:

- MATH211 - Calculus 2
- MATH236 - Elements of Statistics 2
- PHIL312 - Mathematical Logic

AND

### Natural/Physical Sciences (6 credits)

#### Earn at least 6 credits from the following:

- BIOL100 - General Biology
- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany
- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- ESCI221 - Physical Geology  
OR ESCI221H - Hnrs:Physical Geology
- ESCI222 - Historical Geology  
OR ESCI222H - H:Historical Geology
- ESCI241 - Meteorology
- ESCI245 - Environmental Meteorology

- ESCI261 - Introduction to Oceanography
- PHYS131 - Physics 1 with Algebra
- PHYS231 - Physics 1 with Calculus
- PHYS132 - Physics 2 with Algebra
- PHYS232 - Physics 2 with Calculus

At least 6 credits of Natural/Physical Science courses.

If selecting Physics choose PHYS131 Physics 1 with Algebra OR PHYS231 Physics 1 with Calculus, PHYS132 Physics 2 with Algebra OR PHYS232 Physics 2 with Calculus.

#### Additional Comments:

## Courses

### CSCI101 - Problem Solving with Computers

#### Course Information

##### Course Title

Problem Solving with Computers

Subject code	Course Number	Academic Level
CSCI	101	Undergraduate

##### Course Description

Designed to introduce concepts, techniques and history of computing to students who are not computer science majors. Emphasis on problem solving using the computer, including making calculations and presenting reports, tables and graphs based on those calculations. Collecting, storing, updating and retrieving data. Display and interpretation of information using the Internet. No credit toward computer science major.

##### General Education Labels

G2

### CSCI121 - Intro to Web Programming

#### Course Information

##### Course Title

Intro to Web Programming

Subject code	Course Number	Academic Level
CSCI	121	Undergraduate

##### Course Description

Designed to introduce web programming to students who are not computer science majors. Topics include web-page design, scripting languages, graphics animation, image handling, event handling, document object model and graphical interface control objects. No credit toward computer science major. Offered periodically.

##### General Education Labels

G2

### CSCI140 - Discrete Structures

#### Course Information

##### Course Title

Discrete Structures

Subject code	Course Number	Academic Level
CSCI	140	Undergraduate

##### Course Description

Discrete mathematical structures and their application to computer science including formal mathematical notation and proofs, algorithms, computer related arithmetic, propositional logic, predicate logic, set theory, graphics, relations and databases, functions, matrices and combinatorics. Prereq: C- or better in MATH 101 or higher or Placement in MATH 151 or higher.

##### Simple Requisites

**Course Prerequisites: Complete 1 of the following Type**

Prerequisite

MATH101

Earn a minimum grade of C- in the following:

- Any MATH 101 or Higher

Or MPT of 151 or higher.

Additional Comments:

CSCI151 - Intro to Programming for Data Science I

Course Information

Course Title  
Intro to Programming for Data Science I

Subject code	Course Number	Academic Level
CSCI	151	Undergraduate

Course Description  
Introduction to computer programming for the student not intending to major in computer science or related fields. Emphasis on learning to develop programs in an appropriate programming language (currently Python) to manipulate and analyze data from domains such as science, business, engineering, and the humanities. Pre-req of MPT of MATH 101 or above or C- or better in MATH 100 or above.

Simple Requisites

Course Prerequisites

Type  
Prerequisite

MATH 100

Earn a minimum grade of C- in the following:

- MATH100 - Survey of Mathematical Ideas

Or MPT of MATH 101 or above.

Additional Comments:

CSCI152 - Intro to Programming for Data Science II

Course Information

Course Title  
Intro to Programming for Data Science II

Subject code	Course Number	Academic Level
CSCI	152	Undergraduate

Course Description  
Continuation of CSCI 151 covering more advanced computer programming techniques with an emphasis on developing programs to manipulate and analyze real-world data from various domains including business, science, and the humanities. Topics include creating appropriate data visualizations, acquiring data from numerous sources, analyzing and cleaning data sets, drawing advanced conclusions from data and the ethics of data collection and analysis. Current language used is Python. Pre-req: (C or higher in CSCI 151 or B or higher in CSCI 161) and (MPT of MATH 160 or above or C- or higher in MATH 101 or MATH 120 or MATH 130). 4 s.h.

Simple Requisites

Course Prerequisites

Type  
Prerequisite

Earn a minimum grade of C- in the following:

- MATH101 - College Algebra  
OR MATH120 - Logic for Information Technology  
OR MATH130 - Elements of Statistics 1

Or must have a MPT of MATH 160 or above.

Additional Comments:

Additional Course Prerequisites: Complete 1 of the following

Type  
Prerequisite

CSCI 151

Earn a minimum grade of C in the following:

- CSCI151 - Intro to Programming for Data Science I

CSCI 161

Earn a minimum grade of B in the following:

- CSCI161 - Introduction to Programming 1

Additional Comments:

# CSCI161 - Introduction to Programming 1

## Course Information

Course Title

Introduction to Programming 1

Subject code	Course Number	Academic Level
CSCI	161	Undergraduate

Course Description

Introduction to computer programming for the student intending to major in computer science or related fields. Emphasis on developing ability to apply problem-solving strategies to design and implement algorithms in a modern programming language. Prereq: Placement in MATH 151 or higher.

General Education Labels

G2

Simple Requisites

**Course Prerequisites: Complete 1 of the following Type**

Prerequisite

MATH101

**Complete ANY of the following Courses:**

- MATH101 - College Algebra

MATH 151 or Higher

**Complete ANY of the following Course Sets:**

- Any MATH 151 or higher course(s)

**Additional Comments:**

development tools. Abstract data types, classes and objects, recursion, linked lists, queues, stacks and binary trees. Prereq: C or higher in CSCI 161 or B or higher in CSCI 151.

General Education Labels

G2

Simple Requisites

**Course Prerequisites: Complete 1 of the following Type**

Prerequisite

CSCI 161

**Earn a minimum grade of C in the following:**

- CSCI161 - Introduction to Programming 1

CSCI 151

**Earn a minimum grade of B in the following:**

- CSCI151 - Intro to Programming for Data Science I

**Additional Comments:**

## Course Information

Course Title

Introduction to Programming 2

Subject code	Course Number	Academic Level
CSCI	162	Undergraduate

Course Description

Continuation of CSCI 161 covering advanced computer programming techniques. Emphasis on object-oriented programming, specification, design, elementary data structures, and proper use of programming language and

## CSCI300 - Co-Op Ed Experience in CSCI

### Course Information

#### Course Title

Co-Op Ed Experience in CSCI

Subject code	Course Number	Academic Level
CSCI	300	Undergraduate

#### Course Description

Co-Op Ed Experience in CSCI

## CSCI330 - Programming Languages

### Course Information

#### Course Title

Programming Languages

Subject code	Course Number	Academic Level
CSCI	330	Undergraduate

#### Course Description

Introduction to the fundamental principles of programming language design, semantics, and implementation. Structure and vocabulary of modern programming languages. Programming language topics include formal semantics of programming, name binding, scope, data types, type systems, control flow, object orientation, scripting languages, functional languages, polymorphism, and concurrency. Labs and assignments will include experience in writing programs in a nonprocedural programming paradigm. Pre- or co-requisite: CSCI 362

#### Simple Requisites

#### Course Prerequisite or Corequisite

##### Type

Prerequisite

CSCI 362

#### Complete ALL of the following Courses:

- CSCI362 - Data Structures

#### Additional Comments:

## CSCI340 - Computational Models

### Course Information

#### Course Title

Computational Models

Subject code	Course Number	Academic Level
CSCI	340	Undergraduate

#### Course Description

Introduction to theory of computation. Topics include finite state automata, regular languages and grammars, pushdown automata, context-free languages and grammars, Turing machines, limits on algorithmic computation. Offered in spring. Prereq: C- or higher in CSCI 140, 162.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

CSCI 140 and CSCI 162

#### Earn a minimum grade of C- in the following:

- CSCI140 - Discrete Structures
- CSCI162 - Introduction to Programming 2

#### Additional Comments:

## CSCI350 - Cognitive Science

### Course Information

#### Course Title

Cognitive Science

Subject code	Course Number	Academic Level
CSCI	350	Undergraduate

#### Course Description

Basic introduction to cognitive science. Reviews attempts to understand cognition using insights from psychology, artificial intelligence, philosophy, linguistics and the neurosciences. Examines the synthesis of those attempts in the emergent field of cognitive science. Offered periodically. Prereq: COMM 100, ENGL 110, junior status. No credit given if credit earned in PSYC/CSCI 314.

#### General Education Labels

Perspectives (P)

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ENGL 110 or ENGL 110H and COMM 100 or COMM 100H

**Complete ALL of the following Course Sets:**

- ENGL 110 and COMM 100

Credit Hours Completion (Junior or Senior Class Standing)

Earn at least 60 credits

**Additional Comments:**

## CSCI362 - Data Structures

### Course Information

**Course Title**

Data Structures

Subject code	Course Number	Academic Level
CSCI	362	Undergraduate

#### Course Description

Abstract data types, objects, algorithm design and analysis, trees, graphs, sorting and searching. Emphasis on ADT-based and object-oriented design, incremental development and testing, and comparison of data structure implementations. Offered in fall, spring. Prereq: C- or higher in CSCI 140 and CSCI 162.

#### Simple Requisites

#### Course Prerequisites

**Type**

Prerequisite

CSCI 140 and CSCI 162

**Earn a minimum grade of C- in the following:**

- CSCI140 - Discrete Structures
- CSCI162 - Introduction to Programming 2

**Additional Comments:**

## CSCI366 - Database Systems

### Course Information

**Course Title**

Database Systems

Subject code	Course Number	Academic Level
CSCI	366	Undergraduate

#### Course Description

Introduction to building database-driven applications. Topics include data modeling, building databases, database queries, basic data management, Model View Controller design paradigm, basic database-driven application development, and non-relational database systems. Pre-req: C- or higher in CSCI 152 or 162 and CSCI 140 or MATH 120.

#### Simple Requisites

#### Course Prerequisites

**Type**

Prerequisite

CSCI 152 or CSCI 162

**Earn a minimum grade of C- in the following:**

- CSCI152 - Intro to Programming for Data Science II
- OR CSCI162 - Introduction to Programming 2

CSCI 140 or MATH 120

**Complete ANY of the following Courses:**

- CSCI140 - Discrete Structures
- MATH120 - Logic for Information Technology

**Additional Comments:**

## CSCI370 - Computer Architecture

### Course Information

**Course Title**

Computer Architecture

Subject code	Course Number	Academic Level
CSCI	370	Undergraduate

#### Course Description

Structure of digital computers including register transfer notation, instruction set architecture, computer arithmetic, pipelining and parallel processors. Offered in fall. Prereq: C- or higher in CSCI 140, 162.

#### Simple Requisites

#### Course Prerequisites

**Type**

Prerequisite

CSCI 140 and CSCI 162

**Earn a minimum grade of C- in the following:**

- CSCI140 - Discrete Structures
- CSCI162 - Introduction to Programming 2

Additional Comments:

## CSCI375 - Computer Graphics

### Course Information

Course Title

Computer Graphics

Subject code	Course Number	Academic Level
CSCI	375	Undergraduate

#### Course Description

Theory and implementation of computer graphics. Explores each stage of the graphics pipeline through topics such as mathematical representations of positions and transformations, graphics primitives, 3D modeling, cameras, clipping, lighting, texturing, animation, and rasterization. Students build a graphics engine by iteratively replacing library code with their own work. Pre-req: MATH 304 and C- or higher in CSCI 362.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

MATH 304

##### Complete ALL of the following Courses:

- MATH304 - Matrix Algebra & Applications

CSCI 362

##### Earn a minimum grade of C- in the following:

- CSCI362 - Data Structures

## CSCI380 - Operating Systems

### Course Information

Course Title

Operating Systems

Subject code	Course Number	Academic Level
CSCI	380	Undergraduate

#### Course Description

Design and implementation of operating systems including types of operating systems, file systems, resource management, concurrent processes, deadlocks, memory management techniques, processor scheduling, disk scheduling, operating system security and system administration. Students expected to develop significant operating systems programming projects. Offered in fall, spring. Prereq: C- or higher in CSCI 362, 370.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

CSCI 362 and CSCI 370

##### Earn a minimum grade of C- in the following:

- CSCI362 - Data Structures
- CSCI370 - Computer Architecture

Additional Comments:

## CSCI395 - Computer Networks

### Course Information

Course Title

Computer Networks

Subject code	Course Number	Academic Level
CSCI	395	Undergraduate

#### Course Description

Introduction to computer networks. Topics include network media, architecture and topology, protocols and layering, client-server models, Ethernet media and hardware, TCP/IP and other protocols, setup and system administration, application protocols and communication, network servers

and services, security, data integrity, encryption, and firewalls. Offered periodically. Prereq: C- or higher in CSCI 362, ENGL 110.

#### General Education Labels

Writing (W)

#### Simple Requisites

CSCI	400	Undergraduate

#### Course Description

Co-Op Ed Experience in CSCI

## CSCI406 - Topics in Computer Science

### Course Information

Course Title

Topics in Computer Science

Subject code	Course Number	Academic Level
CSCI	406	Undergraduate

#### Course Description

This course allows students and faculty to explore various topics in computer science that are not included in other course offerings. CSCI 406 may be taken more than once for credit with departmental approval. Offered periodically. Prereq: depends on topic to be studied.

## CSCI415 - Computer and Network Security

### Course Information

Course Title

Computer and Network Security

Subject code	Course Number	Academic Level
CSCI	415	Undergraduate

#### Course Description

This course is designed to introduce students to topics which include attacks, standards, data integrity, symmetric key encryption, public key encryption, authentication, electronic mail security, IP security, Web security, database security, secure electronic transactions, network management security, malicious software and firewalls. Offered periodically. Prereq: C- or higher in CSCI 362.

#### Simple Requisites

Additional Comments:

## CSCI419 - Mobile Device App Development

### Course Information

Course Title

Mobile Device App Development

Subject code	Course Number	Academic Level
CSCI	419	Undergraduate

#### Course Description

This course will provide students with the skills necessary to design, develop, and deploy mobile device applications technology. Emphasis is placed on introducing students to the development environments, software and hardware limitations, and GUI development and event handling concepts when developing code to be executed on hand held devices. This course includes a laboratory component for example using Android/Java and IOS/iPhone/iPad Apps development environments. The successful student will learn the fundamental techniques for building mobile device apps including skills to write networked mobile apps that interact

with remote services such as GPS, Bluetooth services, wireless hubs and devices, and web based client/server data systems. Pre-req: C- or higher in CSCI 362

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

CSCI 362  
  
**Earn a minimum grade of C- in the following:**

- CSCI362 - Data Structures

**Additional Comments:**

## CSCI420 - Software Engineering

### Course Information

**Course Title**

Software Engineering

Subject code	Course Number	Academic Level
CSCI	420	Undergraduate

#### Course Description

Overview of software engineering concentrating on phases of the software development life cycle including agile software development processes, management, stories and features, specifications, architecture design (APIs, scalability, microservices), specification-based testing, coverage-based testing, and formal verification. Software management topics covered include source control, issue tracking, continuous integration, test automation, quality assurance, and code reviews. Pre-req: C- or higher in CSCI 330, 362 and 366

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

CSCI 330 and CSCI 362 and CSCI 366  
  
**Earn a minimum grade of C- in the following:**

- CSCI330 - Programming Languages
- CSCI362 - Data Structures
- CSCI366 - Database Systems

**Additional Comments:**

## CSCI421 - Web Application Development

### Course Information

**Course Title**

Web Application Development

Subject code	Course Number	Academic Level
CSCI	421	Undergraduate

#### Course Description

Introduction to building advanced web applications using modern approaches and technologies. Course covers development of responsive web applications using current industry-leading technology stacks and cloud-based services. Topics include asynchronous programming, an overview and use of cloud services, review of full stack technology, and development of real data-driven web applications. Pre-req: C- or higher in CSCI 362 and 366

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

CSCI 362 and CSCI 366  
  
**Earn a minimum grade of C- in the following:**

- CSCI362 - Data Structures
- CSCI366 - Database Systems

**Additional Comments:**

## CSCI425 - Human-Computer Interaction

### Course Information

**Course Title**

Human-Computer Interaction

Subject code	Course Number	Academic Level
CSCI	425	Undergraduate

#### Course Description

Design, evaluation and implementation of interactive computing systems for human use including study of the major phenomena surrounding them. Presents a broad overview of the field with an emphasis on interface development and evaluation. Offered periodically. Prereq: C- or higher in CSCI 362 required; CSCI 380 recommended.

#### Simple Requisites

**Course Prerequisites**  
**Type**

#### Prerequisite

CSCI 362

**Earn a minimum grade of C- in the following:**

- CSCI362 - Data Structures

CSCI 380 recommended.

**Additional Comments:**

## CSCI435 - Compiler Construction

### Course Information

Course Title

Compiler Construction

Subject code	Course Number	Academic Level
CSCI	435	Undergraduate

#### Course Description

Students implement a compiler for a simplified modern programming language. Theory of compiler construction, including finite-state automata, LL(1) grammars and top-down parsing. Project includes lexical and syntax analysis, name storage, scope and type analysis, error recovery and code generation. Advanced topics covered as time permits, including LR(k) grammars, bottom-up parsing, compiler generators (e.g., LEX and YACC) and code optimization. Offered periodically. Prereq: C- or higher in CSCI 330, 340, 362.

#### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

CSCI 330 and CSCI 340 and CSCI 362

**Earn a minimum grade of C- in the following:**

- CSCI330 - Programming Languages
- CSCI340 - Computational Models
- CSCI362 - Data Structures

**Additional Comments:**

## CSCI450 - Artificial Intelligence

### Course Information

Course Title

Artificial Intelligence

Subject code	Course Number	Academic Level
CSCI	450	Undergraduate

#### Course Description

Introduction to artificial intelligence including problem solving, search, heuristic methods, machine learning, knowledge representation, natural language processing, computer vision, expert systems, theorem proving and current applications. Concepts illustrated through programs developed in LISP or Prolog. Offered periodically. Prereq: C- or higher in CSCI 362 and ENGL 110.

#### General Education Labels

Writing (W)

#### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

CSCI 362 and ENGL 110 or ENGL 110H

**Earn a minimum grade of C- in the following:**

- ENGL110 - Introduction to College Writing  
OR ENGL110H - Hnrs:Introduction to College Writing

**Additional Comments:**

## CSCI452 - Data Mining

### Course Information

Course Title

Data Mining

Subject code	Course Number	Academic Level
CSCI	452	Undergraduate

#### Course Description

An introduction to data mining, including data cleaning, the application of statistical and machine learning techniques to discover patterns in data, and the analysis of the quality and meaning of results. Machine learning topics may include algorithms for discovering association rules, classification, prediction, and clustering. Lab assignments provide practice applying specific techniques and analyzing results. An independent project provides students with the opportunity to guide a project from data selection and cleaning through to presentation of results. Pre-req: C- or higher in CSCI 366 and MATH 235 or 333 or 335.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

CSCI 366 and MATH 235 or MATH 333 or MATH 335

**Earn a minimum grade of C- in the following:**

- CSCI366 - Database Systems
- MATH235 - Survey of Statistics
- OR MATH333 - Probablity and Statistics
- OR MATH335 - Mathematical Statistics 1

**Additional Comments:**

CSCI452H - Data Mining

Course Title  
Data Mining

Subject code	Course Number	Academic Level
CSCI	452H	Undergraduate

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

CSCI 366 and MATH 235 or MATH 333 or MATH 335

**Earn a minimum grade of C- in the following:**

- CSCI366 - Database Systems
- MATH235 - Survey of Statistics
- OR MATH333 - Probablity and Statistics
- OR MATH335 - Mathematical Statistics 1

**Additional Comments:**

CSCI453 - Large-Scale Data Analytics and Visualization

Course Information

Course Title  
Large-Scale Data Analytics and Visualization

Subject code	Course Number	Academic Level
CSCI	453	Undergraduate

Course Description

A practical introduction to data analytics, visualization, and blending theory. Students will learn about and apply various clustering algorithms and techniques for dealing with noisy data, use a distributed data analytics framework, complete laboratory assignments using version control, and enforce reproducibility by having all science easily sharable. Students will become familiar with modern data analytics methods and explore real-world data sets. Visualization of results will be a large component of the course through interactive and static frameworks. Pre-req: C- or higher in CSCI 366 and MATH 235 or 333 or 335.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

CSCI 366 and MATH 235 or MATH 333 or MATH 335

**Earn a minimum grade of C- in the following:**

- CSCI366 - Database Systems
- MATH235 - Survey of Statistics
- OR MATH333 - Probablity and Statistics
- OR MATH335 - Mathematical Statistics 1

**Additional Comments:**

CSCI456 - Robotics and Computer Vision

Course Information

Course Title  
Robotics and Computer Vision

Subject code	Course Number	Academic Level
CSCI	456	Undergraduate

Course Description

Intelligent robotic systems that deal with the physical world through visual, acoustic or tactile sensing. Fundamentals of robot vision, including image acquisition and camera geometry, pattern recognition, representation and analysis of shape, pixel neighborhoods, connectivity, distance measures, arithmetic operations on pixels and images, computations of area, centroid, moments, axis of least inertia, correlation techniques, histogram computation, manipulation of robot end effectors, robot task coordination and simple Cartesian robot manipulation. Offered periodically. C- or higher in CSCI 362.

## Simple Requisites

### Course Prerequisites

#### Type

#### Prerequisite

CSCI362

#### Earn a minimum grade of C- in the following:

- CSCI362 - Data Structures

#### Additional Comments:

## CSCI467 - Analysis of Algorithms

### Course Information

#### Course Title

Analysis of Algorithms

Subject code	Course Number	Academic Level
CSCI	467	Undergraduate

#### Course Description

Theory and techniques of algorithm design and analysis. For design, students will study a variety of algorithmic solutions to problems from application areas including searching, selecting, sorting, graph theory, number theory and encryption. Design paradigms, including greedy method, divide and conquer, dynamic programming, backtracking and branch-and-bound. For analysis, students will use formal techniques to classify execution time of an algorithm. Software tools are used to measure resources used by a program during execution. Offered infrequently. Prereq: C- or higher in CSCI 340.

## Simple Requisites

### Course Prerequisites

#### Type

#### Prerequisite

CSCI 340

#### Earn a minimum grade of C- in the following:

- CSCI340 - Computational Models

#### Additional Comments:

## CSCI475 - 3D Game Prgmmg/Cmptr Animation

### Course Information

#### Course Title

3D Game Prgmmg/Cmptr Animation

Subject code	Course Number	Academic Level
CSCI	475	Undergraduate

#### Course Description

Provide students with skills and solid technical foundation necessary to design, develop and deploy 3D games and related entertainment technology applications. Topics include 3D game programming, 3D graphics, game design, programming video game controllers, collision detection, force and motion calculations, networking multiplayer games, manipulating sound objects, physical modeling, projectiles, particle systems, physical constraints, deformation of virtual 3D objects, surface deformation, computer animation, forward and inverse kinematics, keyframe motion capture and procedural animation, and behavior-based animation and control. Offered periodically. Prereq: C- or higher in CSCI 362.

## Simple Requisites

### Course Prerequisites

#### Type

#### Prerequisite

CSCI 362

#### Earn a minimum grade of C- in the following:

- CSCI362 - Data Structures

#### Additional Comments:

## CSCI476 - Parallel Programming

### Course Information

#### Course Title

Parallel Programming

Subject code	Course Number	Academic Level
CSCI	476	Undergraduate

#### Course Description

Overview of parallel computing through study of parallel programming. Topics include message-passing, highly parallel computations, partitioning and divide-and-conquer strategies, pipelined and synchronous computations, load balancing and termination detection, programming with shared memory systems, parallel sorting algorithms, numerical algorithms,

image processing, searching and optimization, and parallel programming using current technology. Offered periodically.  
Prereq: C- or higher in CSCI 362, 370.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

CSCI 362 and CSCI 370

**Earn a minimum grade of C- in the following:**

- CSCI362 - Data Structures
- CSCI370 - Computer Architecture

CSCI501 - Coding for Educators

Course Information

Course Title  
Coding for Educators

Subject code	Course Number	Academic Level
CSCI	501	Graduate

Course Description  
This course is designed for k-12 teachers who have either little or no exposure to coding. Teachers will be guided to incorporate basic coding into their curriculum. This will include, introduction to computational thinking; hands-on HTML; hands-on/ unplugged coding activities; exposure and application to Scratch, Java, Python; and introduction to digital footprinting. Each teacher will create a take-home product that includes tools and coding activities that they can apply directly to their classes.

## Course Description

### Departmental Honors Thesis Course

# Criminology, Sociology and Anthropology Department

The Department of Criminology, Sociology and Anthropology offers both a major and minor in sociology, a major and minor in anthropology, an option and a minor in archaeology, and an option and a minor in criminology. Many departmental faculty teach in the women's, gender and sexuality studies, African-American studies and Latina(o) studies programs.

## DEPARTMENT OPTIONS AND MINORS

For sociology majors wishing to concentrate their studies in the areas of criminal behavior and criminal justice, the department has a criminology option within the sociology major. This program provides the student not only with a thorough knowledge of the American criminal justice system, but combines that knowledge with a broad understanding of American society and the principles of sociological method and theory.

The archaeology option within the anthropology major offers students a broad view of contemporary archaeology, with emphasis on contract archaeology, artifact analysis, current method and theory, field experience and independent research.

The department strongly encourages all of its majors to acquire practical experience as part of their degree program. This experience may take a variety of forms, depending on the student's major or minor. Along with other activities, the department recommends participating in faculty-supervised research (ongoing research projects are conducted out of both the archaeology and social research labs), internships (see Internships in the Special Academic Opportunities section), studying abroad for a semester or summer term, or becoming a departmental tutor.

There is an honors program for academically motivated students. Further information may be obtained from the department or the departmental honors section of this catalog.

The department offers three minors: one in criminology, one in sociology and one in anthropology. These minors provide the student with insight into the principles governing human interaction and social organization. The criminology minor is the most specific of the three, focusing exclusively on the American criminal justice system. The sociology minor, in broad terms, examines American society, while the student minoring in anthropology can focus on either archaeology or cultural anthropology. All minors facilitate career advancement and intellectual breadth, regardless of the student's major field of study.

For the most recent career information, students should consult the criminology, sociology and anthropology department website.

## Departmental Policies

### Policies for Admission to the Anthropology Major

New students (freshmen and transfers) must be admitted to the anthropology major by the Office of Admissions upon admission to the university.

Admission into the Anthropology major from other departments is upon approval of the chairperson of the criminology, sociology, and anthropology department.

Non-degree and continuing education students must be admitted to the anthropology major by the office of admissions.

### Policies for Retention to the Anthropology Major

University requirements for retention.

The Departmental Academic Review is a mandatory, non-graded activity designed primarily to enhance our departmental advising. Students cannot "fail" the review, and no student will be dismissed from the department based on a poor performance. The review will take place after the completion of 45 semester hours but no later than the semester following the completion of 60 semester hours. For students transferring into the major with more than 45 semester hours, the review will normally take place during the semester following their admission into the department. The review consists of a half-hour interview with the student, the student's adviser, and the department chairperson. The student is required to submit an essay and resume to the interview committee one week prior to the scheduled conference. If the student fails to participate in the review, they will be placed on

probation-in-the-major for one semester, during which time they will be given a final opportunity to complete the review process. Failure to complete the review during the probationary period may result in the student being removed from the major. Students may appeal their dismissals to the department through either their adviser or the department chairperson.

### **Policies for Admission to the Sociology Major**

New freshmen students must have the required SAT I scores or class rank as determined by the University administration.

Internal transfer students must:

- complete SOCY 101 (or an equivalent course) with a C or better,
- complete MATH 130 (or an equivalent course) with a C- or better,
- obtain a minimum CQPA of 2.0 and a QPA of at least 2.0 in courses required for the major,
- complete the Department Academic & Professional Review,
- complete 15 semester hours at Millersville University.

External transfer students must:

- complete SOCY 101 (or equivalent course) with a C or better,
- obtain a minimum CQPA of 2.0 and a QPA of at least 2.0 in courses required for the major,
- complete the Department Academic & Professional Planning Review.

Students who meet the above criteria may apply for admission to the Sociology major and will be admitted if space is available.

### **Policies for Retention in the Sociology Major**

University requirements for retention.

Majors must maintain a minimum GPA of 2.0 overall and in the major. If either GPA falls below 2.0, the student has one semester to reestablish a 2.0, after which time the student will be dismissed from the major if either GPA remains below 2.0. A student who has been dismissed may petition the department to be readmitted after they have satisfied the minimum retention requirements. Students will be readmitted on a space-available basis.

A student must earn a minimum grade of C in SOCY 101 Introduction to Sociology; a minimum grade of C- in MATH 130 Elements of Statistics 1; a minimum grade of C in SOCY 230 Criminology; and a minimum grade of C- in SOCY 302 Social Statistics before taking courses for which these are prerequisites. A student who does not earn the necessary grade in these prerequisite courses by the second attempt will be dismissed from the sociology or sociology major. In addition, a minimum grade of C in SOCY 230: Criminology must be earned prior to taking SOCY 331 or 332. A student who does not earn the necessary grade in SOCY 230 by the second attempt will be dismissed from the Criminology option. Students will be readmitted on a space available basis upon successful completion of the course.

The Departmental Academic & Professional Planning Review is a mandatory, non-graded activity designed primarily to enhance our departmental advising. Students cannot "fail" the review, and no student will be dismissed from the department based on a poor performance. The review will take place after the completion of 45 semester hours but no later than the semester following the completion of 60 semester hours. It is the student's responsibility to contact their advisor to schedule the Academic Review after the completion of 45 semester hours. The review consists of a half-hour interview with the student's advisor and possibly the department chair. The student is required to submit an essay on their career goals and a resumé to the advisor one week prior to the scheduled conference. If the student fails to participate in the review, they will be placed on probation-in-the-major for one semester, during which time they will be given a final opportunity to complete the Academic Review. Failure to complete the review during the probationary period will result in the student being dismissed from the major. The Department Academic & Professional Planning Review is a graduation requirement. Testing

## Programs

### Anthropology Minor

#### Overview

The minor in anthropology fits well with social science and humanities majors. Graduates are employed in the area of human services, entry-level work with local or federal government agencies and employment in the business community. Our program also prepares students for more advanced study which leads to careers in teaching and research at colleges, universities or museums or other not-for-profit organizations.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.

5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

**Additional Comments:**

## Archaeology Minor

### Overview

The Archaeology option, housed within the Anthropology program at Millersville University, is dedicated to learning and understanding the role that Lancaster County and Colonial Pennsylvania played in the context of the larger colonial Atlantic World by way of ethical archaeological excavation, historical analysis and documentary research. Students may complete either a major or a minor in this field.

### Curriculum

#### Simple Requisites

#### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.

##### **Earn at least 3 credits from the following:**

- Any 3-level ANTH course(s)
- Any 4-level ANTH course(s)

Choose Anthropology electives at the 300 or 400 level in consultation with your adviser. If you select ANTH422 History of Anthropological Thry above, you may take 3 credits of elective at a lower level.

- ANTH320 - Archeological Method and Theory

AND

Field Study (6 credits)

**Earn at least 6 credits from the following:**

- ANTH425 - Field Study

AND

Anthropology Elective (3 credits)

Choose one 3 credit hour Anthropology elective in consultation with your adviser.

**Additional Comments:**

## Criminology Minor

### Overview

The Millersville University criminology program provides students with an opportunity to study criminal behavior and the operation of the criminal justice system within a broad sociological context. The combination of a criminology focus with the development of sociological research skills provides excellent preparation for a wide range of criminal justice careers as well as for graduate and professional school. The minor courses cover theories of criminal behavior, policing, the courts, corrections, and other crime related topics. Students who minor in Criminology may also complete an internship in a criminal justice setting as part of their course work for the minor.

- Any 33-level SOCY course(s)

May also take a Co-Op course: [SOCY300 Co-Op Ed Experience in Soc](#), [SOCY400 Co-Op Ed Experience in Soc](#) or [SOCY500 Co-Op Ed Experience in Soc](#).

**Note:** A maximum of 3 credits in Co-op can be applied toward the minor.

**Additional Comments:**

## Cultural Anthropology Minor

### Overview

Millersville University's minor in Cultural Anthropology is a

valuable complement to a major in any social science or humanities discipline. With a broad perspective on issues and problems regarding the human race, students are able to pair this minor with the major of their choosing in order to prepare for employment in fields such as not-for-profit organizations, entry-level work with local, state or federal government agencies, and employment in the business community. Students can also move into advanced study, which leads to careers in teaching and research at colleges, universities or museums, and careers within local, national or international business.

## Curriculum

Choose 9 credits of Anthropology electives in consultation with your adviser. At least 3 credits must be at the 300 level or higher, and no more than 3 credits may be at the 100 level.

#### **Additional Comments:**

## Sociology Minor

### Overview

The Millersville University Sociology minor enables students to develop a sociological imagination with which they can understand their place in and responsibility for the world around them. The Sociology minor can be combined with any major area of study to give students an important sociological context to their chosen careers. These 18 credit minors offer enough flexibility to be tailored to the individual student's interests.

## Curriculum

#### Complete ALL of the following Course Sets:

- Any 2-level SOCY course(s)

AND

#### 300-400 Level Sociology Electives

#### Complete at least 4 courses in the following course sets:

- Any 3-level SOCY course(s)

- Any 4-level SOCY course(s)

### Additional Comments:

## Anthropology, B.A.

### Overview

The departmental major in anthropology emphasizes a holistic approach to the study of humans, located in all parts of the world, through all periods of time. Anthropology consists of four separate but interrelated subdisciplines:

- cultural anthropology
- physical anthropology
- archaeology
- anthropological linguistics

This program focuses primarily on the subdisciplines of archaeology and cultural anthropology. The department encourages its majors to undertake field study in one or more of the subdisciplines of anthropology. A major in anthropology provides the student with a holistic and comparative perspective on problems and situations, which employers find very valuable. An undergraduate degree prepares the student for employment in the area of human services, entry-level work with local or federal government agencies, and employment in the business community. Our program also prepares students for more advanced study leading to careers in teaching and research at colleges, universities or museums, or research/consultative careers with local, national or international organizations.

### Curriculum

## Sociology, B.A.

### Overview

Sociology is the scientific study of human interaction and social organization. The sociologist is primarily interested in discovering the social patterns affecting and resulting from human group behavior. Sociologists focus on the influences of the social as well as the physical and biological environment on individual behavior and personality formation, on group interaction and on social organization and institutions. Within this general framework, sociological interests are extremely varied. The subject matter of sociology includes crime and its causation, family problems and interaction patterns, variations in the aging process, the impact of social class on life chances, the influence of mass media on human behavior, the social construction of gender and the transition from adolescence to adulthood. The sociology major is selected by those students primarily interested in pursuing careers in the following areas:

- college/university teaching and research
- research in a public or private organization or business
- employment in community agencies or in local, state or federal government

## Sociology, B.A. - Criminology Option

### Overview

The Millersville University Sociology program enables students to develop a sociological imagination with which they can understand their place in and responsibility for the world around them. Students seeking a Bachelor of Arts (B.A.) in Sociology develop a specialized skill set that allows them to investigate and comprehend the social world, in addition to acquiring knowledge on various sociological topics such as families, social class, gender and race. This skill set includes theoretical understandings, statistical techniques, data analysis and research methods. Students who select the Criminology option within the Sociology major also develop a specialized skill set with which they can investigate and comprehend the social world. This option encourages students to focus specifically on criminological topics, which include courts and policing, corrections, ethics in criminal justice, and juvenile delinquency.

Or must have permission of instructor.

**Additional Comments:**

## ANTH325 - Medical Anthropology

### Course Information

**Course Title**  
Medical Anthropology

Subject code	Course Number	Academic Level
ANTH	325	Undergraduate

**Course Description**  
Cross-cultural study of health and healing, including comparative medical systems, theories of disease, patients/healers in the context of culture, mental health, bioethics, interaction of culture, biology and environment, and the effects of cultural change. Offered periodically.

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

ANTH121  
**Complete ALL of the following Courses:**

- ANTH121 - Cultural Anthropology

**Additional Comments:**

## ANTH326 - Anthropology of Religion

### Course Information

**Course Title**

Anthropology of Religion

Subject code	Course Number	Academic Level
ANTH	326	Undergraduate

#### Course Description

A cross-cultural examination of religious diversity. Primary emphasis will be placed on the five major world religions, although other religious traditions may also be considered. The course examines religion as a form of cultural practice, how people utilize religion to orient themselves to the social worlds in which they live, and the ways in which religion shapes peoples' lives. Pre-req: C- or higher in ANTH 121, restricted to Juniors and Seniors, Majors and Minors in the Sociology/Anthropology department, or instructor permission.

#### General Education Labels

G3

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

ANTH 121

**Earn a minimum grade of C- in the following:**

- ANTH121 - Cultural Anthropology

Credit Hours Completion (Junior or Senior Class Standing)

**Earn at least 60 credits**

**Additional Comments:**

##### Degree/Major/Field of Study Restrictions

###### Type

Prerequisite

Majors and Minors in the Sociology/Anthropology

Department

**Must be a major or minor in the Sociology/Anthropology department.**

Or must have permission of instructor.

**Additional Comments:**

## ANTH327 - Urban Anthropology

### Course Information

**Course Title**

Urban Anthropology

Subject code	Course Number	Academic Level
ANTH	327	Undergraduate

#### Course Description

This course focuses on urbanism (the social and cultural dynamics of humans living within a large, dense city environment). Various topics to be examined in this course include the rise of urbanism, globalization, the dynamic nature of ethnic and class relations within urban communities, social and political activism among urban populations, migration, and settlement. 3 credits. Pre-requisite: ANTH 121

#### General Education Labels

G3

#### Simple Requisites

###### Type

Prerequisite

ANTH121

**Complete ALL of the following Courses:**

- ANTH121 - Cultural Anthropology

**Additional Comments:**

## ANTH336 - Language & Communication

### Course Information

**Course Title**

Language & Communication

Subject code	Course Number	Academic Level
ANTH	336	Undergraduate

Course Description

A Comparative Course that examines language as humans' primary means of communication. Although virtually all animals communicate in some form, language is considered distinctly human as a result of cognitive, cultural, and physiologically distinct features of our species. The course examines language as both a system and performance. The systematic approach towards language study examines the structural components of language: phonemes, morphemes, syntax, grammar, etc., while a performance approach towards language study examines the art and style of communication (regional accents and dialects, slang, etc.). Anthropologists widely consider language to be the single most important aspect of human culture, as language is the means by which culture is transmitted to others. Other key topics to be examined in the course include language and identity, bilingualism, the critical age of language development, language shift vs. language maintenance, the development of pidgins and Creole languages (with a particular focus on Black English Vernacular, Spang/ish, and the Ca/6 dialect of the Southwestern United States), the prescriptive vs. descriptive debate within linguistics, linguistic profile, language prejudice, and the rise of linguistic nationalism (as seen in cases such as the situation in Quebec among Franco-Canadian nationalists and the "English as the Official Language" debate in the United States. Pre-req: ANTH 121 and Junior class standing.

## Programs

### Early Childhood Education Post-Baccalaureate Certification

#### Overview

A post-baccalaureate certification program in early childhood education helps people with a bachelor's degree earn a teaching certificate. This program prepares teachers to meet the needs of students in early childhood education grades PreK-4th grade.

Program details

Admission requirements

Includes a bachelor's degree in any field.

Coursework

Includes classes on early childhood development, literacy, and teaching methods

Benefits

- Our program is recognized and certified by Pennsylvania Department of Education (PDE), and the Council for the Accreditation of Educator Preparation (CAEP), Middle States Commission on Higher Education (MSCHE)
- Allows people to earn a teaching certificate without pursuing a second degree
- Helps teachers learn how to create engaging learning environments
- Prepares teachers to address changing demands in early childhood education
- Students can complete the certification program in as little as 15 months and both certification and Master’s degree in under two years.
- Classes focus on curriculum, assessment, early childhood development, early intervention, teaching English Language Learners, advanced educational courses in content, pedagogy and instruction.

Admission Requirements:

- A bachelor’s degree in any field
- Passion for working with young learners

At Millersville University, we are committed to developing **highly skilled, compassionate educators** ready to make a lasting impact in early childhood education. Join us and take the next step toward your teaching career today!

#### Additional Comments:

## Literacy Coaching Endorsement

### Overview

The fundamental goal of the Literacy Coaching Endorsement is to prepare teachers who will be effective in helping improve the knowledge, skills, and practices of teachers, thus enhancing student achievement. A literacy coach is one who helps teachers to recognize what they know and can do, assists teachers as they strengthen their ability to make more effective use of what they know and do, and supports teachers as they learn more and do more. The Instructional Coaching Endorsement is available for reading specialists who desire to strengthen their professional knowledge, build skills in instructional coaching, and stand out in their field.

This is an endorsement to be added to an existing reading specialist certification.

In addition to the required credits above, students may choose to complete an optional thesis, RDED699 Thesis.

**Additional Comments:**

## Early Childhood & Elementary Education, M.Ed.

### Overview

The Master of Education degree program in early childhood & elementary education prepares professionals for teaching and administrative positions in child-care and preschool settings, elementary schools, early-intervention special education programs, and colleges. The program is based on knowledge and developmentally appropriate practices for the teaching

and learning of young children (birth through 8 years of age). An interdisciplinary program, it focuses on the connections of children, family, educational settings and community so essential to a young child's total development and individual, diverse needs. The program addresses early-childhood issues using sound research practices and principles, and includes a focus on the graduate student's individual professional needs. Courses are taught by graduate faculty members from the following departments:

1. Early, Middle and Exceptional Education
2. Educational Foundations
3. Psychology

Students may also take electives in a variety of related disciplines including but not limited to Art, Applied Engineering, History, Safety and Technology, Social Work, etc. Students may elect to pursue an endorsement or certificate to fulfill elective requirements (I.E. ESL Online Learning, STEM, etc.).

## Curriculum

Gifted Education, M.Ed.

Overview

The Master of Education degree in gifted education is designed to provide the specialized knowledge needed by

teachers and other educational personnel who work with gifted and talented students (K-12). The curriculum is appropriate for teachers and other education professionals whether they provide instruction in special programs for the gifted or teach in inclusive settings. The M.Ed. degree in gifted education does not confer teacher certification.

The Department of Early, Middle and Exceptional Education (EMEE) is responsible for the gifted education program, although the program itself is multidisciplinary. Courses in the gifted education program are taught by graduate faculty members from the EMEE, Educational Foundations and Psychology departments.

Advisor Approved Area of Specialization

A minimum of 9 credits in an area of specialization must be selected with the approval of your advisor. The specialization areas can include, but are not limited to, Elementary Ed, Early Childhood Ed, Language and Literacy, English as a Second Language, English, Fine Arts, Foreign Languages, Mathematics, Educational Leadership, Sciences, Social Sciences, Psychology, Special Education, or Technology Education.

Additional Comments:

## Language & Literacy, M.Ed. - English as a Second Language

### Overview

The Department of Early, Middle and Exceptional Education offers a master's in language and literacy education with an ESL concentration leading to an ESL certification. This pathway is available for elementary and secondary teachers who possess an Instructional I Certificate in Pennsylvania. A Master of Education in language and literacy education offers the student the opportunity to participate in original research and experiential programs in this field, with a practicum at the end of the coursework. All courses and learnings are aligned with knowledge and practice standards for English as a Second Language (ESL) Teachers - PDE Chapter 49 Structured Literacy Competencies.

## Language and Literacy Education, M.Ed. - Reading Specialist

### Overview

The Department of Early, Middle and Exceptional Education offers a master's in language and literacy education leading to reading specialist certification. This concentration is available for PK-4 teachers, and middle level and secondary teachers (with a prerequisite course to address the PK-4 portion of this PK-12 certification) who possess an Instructional I Certificate in Pennsylvania. A Master of Education in language and literacy education offers the student the opportunity to participate in original research and experiential programs in this field, with a practicum at the end of the coursework. All courses and learnings are aligned with knowledge and practice standards for PK-12 Reading Specialist - PDE Chapter 49 Structured Literacy Competencies.

In addition to the required credits above, students may choose to complete an optional thesis, RDED699 Thesis.

**Additional Comments:**

Special Education, M.Ed.

Overview

The Master of Education in special education provides experienced educators an opportunity to advance their

careers in knowledge and skills needed to be teacher-leaders. This program that recognizes experience has been designed to improve the practice of educators through a robust program of study designed to emphasize evidence-based practice, advocacy, collaboration, and reflection. The M.Ed. in special education does not lead to level 1 certification.

- GFED675 - Evaluating Instruct. Effectiveness: App for the Gifted
- GFED676 - Teaching Gifted Learners Instructional Strategies

Upon completion of the first four courses students are eligible to apply for the Gifted Education Endorsement through the PA Dept of Education.

— AND —

#### Clinical Practicum (6 credits)

##### Earn at least 6 credits from the following:

- GFED690 - Clinical Practicum

#### Additional Comments:

minor will allow education majors in the EMEE Department who obtain their Level I certification to concurrently obtain an ESL Program Specialist Certificate.

\* Only one course which counts towards the major may be counted towards the minor.

## Curriculum

### Simple Requisites

#### Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

## English as a Second Language Minor (EDUC)

### Overview

Millersville University offers undergraduate students the opportunity to add English as a Second Language specialization to their degree with the ESL minor. The scope of this ESL minor is to provide interested students with a background in effective teaching strategies, second language acquisition theory, programming and assessment, awareness of linguistic and cultural diversity in the classroom, and policies and practices in teaching English learners.

### Learning Objectives

- Structured Literacy Knowledge and Practice Standards of English as a Second Language (ESL) teachers.
- Background in effective teaching strategies, acquisition theory, programming and assessment
- Awareness of linguistic and cultural diversity in the classroom
- Practices in teaching English learners
- ESL Program Specialist Certificate

Students will have a practicum/student-teaching experience at the culmination of this program. This

## Early Childhood Education - PreK - Grade 4, B.S.Ed.

### Overview

The student may elect to earn Pennsylvania licensure (certification) in early childhood education (PreK–Grade 4). The program in early childhood education is designed to provide the student with an in-depth knowledge of subject matter and pedagogy appropriate for all students, including those for whom English is a second language. The program also provides extensive and varied field experiences.

The student who completes the early childhood program at Millersville University receives a Bachelor of Science in Education degree and may apply for a Pennsylvania Instructional I teaching certificate after successfully passing the Pennsylvania Educator Certification Test (PECT). Each student is strongly urged to complete an academic minor from the University's list of approved minors, which includes a minor in Integrative STEM Education Methods.

## Middle Level Education Grade 4-8, B.S.Ed.

### Overview

The student may elect to earn Pennsylvania licensure (certification) in middle-level education (Grade 4–Grade 8). The program in middle-level education is designed to provide the student with an in-depth knowledge of subject matter and pedagogy appropriate for all students, including those for whom English is a second language. The program also provides extensive and varied field experiences.

The student will complete a minimum of 30 credit hours in one of the four content areas of English language arts, mathematics, science or social studies. In addition, the student will complete a minimum of 12 credit hours in each of the three remaining content areas, a minimum of 27 credit hours in the Professional Core and 12 credit hours in student teaching.

The student who completes the middle-level program at Millersville University receives a Bachelor of Science in Education degree and may apply for a Pennsylvania Instructional I teaching certificate after successfully passing the MDLV Praxis requirements. Each student is strongly urged to complete an academic minor from the University's list of approved minors.

Middle Level Education Grade 4-8, B.S.Ed. - English Language Arts

Overview

The program in middle level education is designed to provide the student with an in-depth knowledge of subject matter (30 credit hours) in a content area to teach 4th through 8th grades. In addition to the concentration area, candidates are expected to complete 12 credit hours in each of the remaining content areas and in social studies, a minimum of 27 credit hours in the Professional Core, and 12 credits in student teaching. Students who complete the middle level education program at Millersville University receive a Bachelor of Science in Education degree and may apply for a Pennsylvania Instructional I teaching certificate. This program can be completed in eight (8) semesters.

Curriculum

Simple Requisites

Major in Middle Level Education, BSE (33 credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Required Core Courses (15 credits)

Fulfill ALL of the following requirements:

Required Courses (12 credits)

Earn a minimum grade of C in the following:

- MDLV335 - Literature for Children & Young Adolescents  
OR MDLV335H - Hnrs: Literature for Children & Young Adolescents
- SPED101 - Orientation to Special Educ
- SPED311 - Assessment for Designing & Implementing Instruction  
OR SPED311H - Hon: Assessment for Designing & Implementing Instruction
- SPED331 - Positive Learning Environments for all Students  
OR SPED331H - Hon: Positive Learning Environments for all Students

AND

Development Children and Adolescents (3 credits)

Earn a minimum grade of C in the following:

- PSYC227 - Development of the Child and

Adolescent  
**OR** PSYC227H - Hnrs:Development of  
 the Child and Adolescent

AND

Professional Block I

**Fulfill ALL of the following requirements:**

Teaching of Literacy, Gr 4-8: Processes, Skills &  
 Strateg (3 credits)

**Earn a minimum grade of C in the following:**

- MDLV425 - Teaching of Literacy, Gr 4-8:  
 Processes, Skills & Strategies

AND

Required Courses (3 credits)

**Earn a minimum grade of C in the following:**

- MDLV486 - Teaching English Language  
 Learners in the Middle Level  
**OR** MDLV486H - Hon: Teaching English  
 Language Learners in the Middle Level

AND

Professional Block II (12 credits)

**Earn a minimum grade of C in the following:**

- MDLV323 - Content Area Literacy
- MDLV446 - Teaching of Social Studies
- MDLV456 - Teaching Middle Level  
 Mathematics
- MDLV466 - Teaching of Science: An Inquiry  
 Approach

Courses

ECHD511 - Early Childhood Education in Today's Society

Course Information

Course Title

Early Childhood Education in Today's Society

Subject code	Course Number	Academic Level
ECHD	511	Graduate
<b>Course Description</b>		
An overview of the field of early childhood education. Historical and philosophical influences on past and current approaches to teaching young children are traced and analyzed. The developmental needs and characteristics of the		

young child, with emphasis on the pre-primary level, are related to current curriculum programs and practices. Emphasis is placed on the necessity of using developmentally appropriate learning materials and teaching strategies. Topical study includes concepts, definitions, child developmental theories and skills needed by today's classroom professionals. In lieu of field experiences, appropriate teaching behavior is modeled by the instructor, and actual classroom occurrences are examined through Teacher Work Sample (TWS).

## ECHD519 - Seminar in Early Childhood Education

### Course Information

#### Course Title

Seminar in Early Childhood Education

Subject code	Course Number	Academic Level
ECHD	519	Graduate

#### Course Description

Investigation of contemporary goals of early childhood education. Provides analysis of organizational plans, classroom environment, teaching strategies and resources, and noteworthy trends and innovations. Application to individual situations is stressed. Focus will vary. Offered periodically.

## ECHD610 - Advanced Curriculum, Instruction and Assessment: Engaging Young Learners

### Course Information

#### Course Title

Advanced Curriculum, Instruction and Assessment: Engaging Young Learners

Subject code	Course Number	Academic Level
ECHD	610	Graduate

#### Course Description

This course is designed to prepare students in the areas of curriculum, instruction, and assessment young learners (i.e., PreK – 4th Grade). The course will focus on curricular philosophy and theory, approaches to early childhood education, pedagogical content knowledge, child development, and assessment of young learners. Current research, practice, and trends in early childhood education will be considered.

## ECHD611 - Affective and Psychmtr Emphasis

### Course Information

#### Course Title

Affective and Psychmtr Emphasis

Subject code	Course Number	Academic Level
ECHD	611	Graduate

#### Course Description

Investigation of contemporary practices and research pertaining to the affective and psychomotor development of children, birth to age 8. Primarily covers emotional growth, socialization, self-concept, aesthetic awareness, physical growth and perception. Offered annually.

## ECHD613 - Home, School, and Community

### Course Information

#### Course Title

Home, School, and Community

Subject code	Course Number	Academic Level
ECHD	613	Graduate

#### Course Description

Examination of current programs and recommended procedures for developing communication between home and school. Acquaints students with community resources and services available to families and teachers. Opportunities to develop a practical parent-teacher communication program for an individual teaching situation. Offered annually.

## ECHD614 - Advanced Curriculum in ECHD

### Course Information

#### Course Title

Advanced Curriculum in ECHD

Subject code	Course Number	Academic Level
ECHD	614	Graduate

#### Course Description

Extension of basic curriculum theory and practice as it applies to programs for young children. Sources of influence on early childhood curriculumsuch as professional organizations, learning theorists and historical practicewill be examined. Students analyze and revise or refine curriculum content and practices in their individual learning situations. Offered annually.

ECHD615 - Adm and Suprv of Echd Prgrms

Course Information

Course Title

Adm and Suprv of Echd Prgrms

Subject code	Course Number	Academic Level
ECHD	615	Graduate

Course Description

The role of the early childhood program administrator as an educational leader. Topics include educational decision making; program development; effective staff supervisory skills; facility management; funding sources and procedures; advocacy; and health, safety and nutrition issues. Offered periodically.

ECHD690 - Graduate Student Teaching

Course Information

Course Title

Graduate Student Teaching

Subject code	Course Number	Academic Level
ECHD	690	Graduate

Course Description

This course is the student teaching experience for our Early Childhood Post Baccalaureate teacher candidates. The successful completion of this student teaching experience is required for all teacher candidates in order to be certified in the state of Pennsylvania.

ECHD699 - Thesis:

Course Information

Course Title

Thesis:

Subject code	Course Number	Academic Level
ECHD	699	Graduate

Course Description

Each student writes and orally defends an individual thesis of some significance in the field of early childhood education.

Prereq: 24 graduate s.h.

EDUC424 - Diagnosis of Reading and Writing Disabilities

Course Information

Course Title

Diagnosis of Reading and Writing Disabilities

Subject code	Course Number	Academic Level
EDUC	424	Undergraduate

Course Description

The focus of this course is decision-making about individuals with reading and writing difficulties, based on current theory and evidence-based practice. Students will use a variety of formal diagnostic instruments and procedures to discover a learner’s literacy strengths and needs Students will administer a variety of assessments, analyze the results, and implement a mini-action research model to determine how the assessment data will then drive and inform instruction, and reflect upon which evidence-based instruction best addresses student learning needs.

EDUC535 - Children's Literature and Creative Experiences for Young Children and Adolescents

Course Information

Course Title

Children's Literature and Creative Experiences for Young Children and Adolescents

Subject code	Course Number	Academic Level
EDUC	535	Graduate

Course Description

This course introduces the genres of literature for children and young adolescents from birth through early adolescence. Students examine the work of renowned authors and illustrators. Response to literature and the selection of books for the classroom receive emphasis. Emphasis on making appropriate instructional and curricular decisions to provide creative opportunities for young children; special attention to rhythmic, aesthetic, and dramatic avenues of expression; application of ideas through actual experiences with young children.

EDUC536 - Picture Book Communication

Course Information

Course Title

Picture Book Communication

Subject code	Course Number	Academic Level
EDUC	536	Graduate

Course Description

Examines the unique qualities of communication in picture books. Book design, illustration, verbal-visual integration, renowned illustrators and childrens responses to picture books receive in-depth attention. Exploration of picture books for all ages will occur. Before enrolling, students must have completed a survey course in childrens literature. Offered periodically.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

Survey Course in Children's Literature

**Completed a survey course in children’s literature.**

**Additional Comments:**

# EDUC561 - Second Language Acquisition: Theory, Programs & Assessment

## Course Information

Course Title

Second Language Acquisition: Theory, Programs & Assessment

Subject code	Course Number	Academic Level
EDUC	561	Graduate

Course Description

This course focuses on the basic foundational theories, program approaches and teaching strategies for learning English as an additional language, which all teachers need to understand in order to better serve the varying cultural, linguistic, and academic needs of students who are developing proficiency in English. We will focus on approaches which facilitate the development of English as an additional language through evidence-based structured literacy components in listening, speaking, reading, and writing, as well as in natural contexts of communication across content-based learning experiences. This course provides prospective and practicing teachers with a foundational understanding of English language structure, home and target language acquisition, and oral language assessment methods for K-12 classrooms. Offered annually.

# EDUC562 - Methods for Teaching English Language Learners

## Course Information

Course Title

Methods for Teaching English Language Learners

Subject code	Course Number	Academic Level
EDUC	562	Graduate

Course Description

This course provides prospective and practicing teachers with opportunities to learn and apply theoretical foundations of second language acquisition to teaching in the classroom. Participants will learn and apply effective research-supported methods for developing English language learners' conversational and academic language competence, as well as learning content in linguistically supportive environments, and developing literacy skills through evidence-based structured literacy approaches. Offered two times a year. Prereq: EDUC 561

Simple Requisites

Course Prerequisites
----------------------

Type
Prerequisite
EDUC 561
Complete ALL of the following Courses:
<ul style="list-style-type: none"><li>EDUC561 - Second Language Acquisition: Theory, Programs &amp; Assessment</li></ul>
Additional Comments:

# EDUC563 - Linguistic and Cultural Diversity in the Classroom

## Course Information

Course Title

Linguistic and Cultural Diversity in the Classroom

Subject code	Course Number	Academic Level
EDUC	563	Graduate

Course Description

Examines U.S. and world cultures, sources of cross-cultural conflict and approaches to cross-cultural conflict resolution as it relates to K-12 settings. Explores approaches for creating classrooms that promote equity and an appreciation for diversity. Offered annually.

# EDUC564 - Assessment, Policies & Practice in Teaching of English Language Learners

## Course Information

Course Title

Assessment, Policies & Practice in Teaching of English Language Learners

Subject code	Course Number	Academic Level
EDUC	564	Graduate

Course Description

Focuses on the use of various tools in assessing and planning for the linguistic and instructional needs of English learners. Contains a public school field experience component where participants apply methods and principles for supporting English language learners in K-12 settings. Examines state and federal policies as they relate to schooling and English language learners. Prereq: EDUC 561 or 562. Offered annually.

Simple Requisites

Course Prerequisites
----------------------

Type

Prerequisite

EDUC 561 or EDUC 562

Complete ANY of the following Courses:

• EDUC561 - Second Language Acquisition: Theory, Programs & Assessment

• EDUC562 - Methods for Teaching English Language Learners

Additional Comments:

EDUC565 - Language & Literacy Interventions: Clinical Practicum

Course Information

Course Title

Language & Literacy Interventions: Clinical Practicum

Subject code	Course Number	Academic Level
EDUC	565	Graduate

Course Description

Application of literacy theory and knowledge of effective research-based instruction. Assessment of English learners. Acquisition of foundational literacy skills (structured literacy), instructional strategies for teaching content area vocabulary and text, and use of interventions in a clinical setting. Prereq: EDUC 561, 562, 563 and 564 or permission of instructor. Offered in the summer.

Simple Requisites

Course Prerequisites

Type

Prerequisite

EDUC 561 and EDUC 562 and EDUC 563 and EDUC 564

Complete ALL of the following Courses:

• EDUC561 - Second Language Acquisition: Theory, Programs & Assessment

• EDUC562 - Methods for Teaching English Language Learners

• EDUC563 - Linguistic and Cultural Diversity in the Classroom

• EDUC564 - Assessment, Policies & Practice in Teaching of English Language Learners

Additional Comments:

EDUC575 - Current Trends in Education

Course Information

Course Title

Current Trends in Education

Subject code	Course Number	Academic Level
EDUC	575	Graduate

Course Description

A survey of current and future curricular and instructional trends in education. Emphasis on identification, examination and evaluation of topics, methods, strategies and issues affecting teaching and learning. Offered periodically.

EDUC580 - Methods for Teaching English Language Learners

Course Information

Course Title

Methods for Teaching English Language Learners

Subject code	Course Number	Academic Level
EDUC	580	Graduate

Course Description

This course prepares initial teacher certification candidates to understand cross-cultural and linguistic foundations of acquiring a new language. Teacher candidates will apply research-based strategies for providing English language learners optimal learning environments that provide meaningful access to standards-based instruction. Candidates will demonstrate the ability to use assessment data to differentiate and modify instruction. Candidates will also demonstrate an understanding of schools' legal responsibilities toward ELLs and their families. This course includes a field component. Clearances for all course participants must be up to date and filed with the Field Services office. Restricted to Post-Baccalaureate Certification students.

Simple Requisites

Course Prerequisites

Type

Prerequisite

Post-Baccalaureate Certification Students

Restricted to Post-Baccalaureate Certification students.

## EDUC588 - Topics in Elementary Education

### Course Information

Course Title

Topics in Elementary Education

Subject code	Course Number	Academic Level
EDUC	588	Graduate

Course Description

In-depth investigation and development of one or more topics of current interest not normally covered in regular courses. Special topics to be covered and methods used will vary according to the needs of students and faculty involved. Offered periodically.

## EDUC589 - Topics in Elementary Education

### Course Information

Course Title

Topics in Elementary Education

Subject code	Course Number	Academic Level
EDUC	589	Graduate

Course Description

In-depth investigation and development of one or more topics of current interest not normally covered in regular courses. Special topics to be covered and methods used will vary according to the needs of students and faculty involved. Offered periodically.

## EDUC610 - Critical Literacy

### Course Information

Course Title

Critical Literacy

Subject code	Course Number	Academic Level
EDUC	610	Graduate

Course Description

Development of a personal perspective of critical literacy, encompassing reading, writing, speaking and listening. Consideration of literacy as cultural social practice, comparison of multiple perspectives, and implications as to how educators define literacy. Knowledge of how adolescent students use literacy to make meaning of text in multiple contexts, including content area material. Application of assessment tools to determine practical strategies to develop students literacy skills. Offered infrequently.

## EDUC631 - Linguistic Foundations

### Course Information

Course Title

Linguistic Foundations

Subject code	Course Number	Academic Level
EDUC	631	Graduate

Course Description

Survey of the science of language and ways in which it can enrich the teaching of language. Offered periodically.

## EDUC634 - Realism in Child Literature

### Course Information

#### Course Title

Realism in Child Literature

Subject code	Course Number	Academic Level
EDUC	634	Graduate

#### Course Description

Examines the realistic treatments of topics in fiction and nonfiction for children and the issues that they raise. Censorship will be explored, and procedures for addressing it will be examined. Offered periodically.

## EDUC635 - Folk Literature

### Course Information

#### Course Title

Folk Literature

Subject code	Course Number	Academic Level
EDUC	635	Graduate

#### Course Description

Designed to provide opportunities for teachers, librarians and interested members of the community to explore the realm of traditional literature appropriate for use in the educational curriculum and cultural arts programs. It allows participants to achieve an understanding of the purpose and history of oral literature, as well as its modern educational and social applications. Offered periodically.

## EDUC636 - Literature and Response

### Course Information

#### Course Title

Literature and Response

Subject code	Course Number	Academic Level
EDUC	636	Graduate

#### Course Description

Examines literature for children and adolescents and their responses to it. Students investigate the influences upon and patterns of response, including motor, oral, written and expressive-art response, and the authentic assessment of it. Literature in all genres will be read. Students should possess a working knowledge of contemporary childrens literature. Course is intended for students who have completed a survey course in childrens literature. Offered annually.

## EDUC641 - Social Studies Elementary Sch

### Course Information

#### Course Title

Social Studies Elementary Sch

Subject code	Course Number	Academic Level
EDUC	641	Graduate

#### Course Description

An overall view of social studies in the elementary school curriculum. Investigation of the role it plays and the methods and strategies appropriate for elementary school children. Offered in summer.

## EDUC643 - Curriculum Trends in Social Studies

### Course Information

#### Course Title

Curriculum Trends in Social Studies

Subject code	Course Number	Academic Level
EDUC	643	Graduate

#### Course Description

Study of significant trends in social studies education that are a result of the many social issues in our society. Emphasis on content and methodology appropriate for Social Studies education. Offered in summer and winter.

## EDUC651 - Math in the School Program

### Course Information

#### Course Title

Math in the School Program

Subject code	Course Number	Academic Level
EDUC	651	Graduate

#### Course Description

The nature of mathematics and mathematical thought processes; current views on the learning and teaching of mathematics; problem solving; aids to instruction; instructional strategies in mathematics education.

## EDUC658 - Seminar in School Math Educ

### Course Information

#### Course Title

Seminar in School Math Educ

Subject code	Course Number	Academic Level
EDUC	658	Graduate

Course Description

Examination of critical issues, research studies and individual research problems. Prereq: EDUC 651 or permission of instructor. Offered periodically.

Simple Requisites

## ERCH110 - Introduction to Early Childhood Education

### Course Information

#### Course Title

Introduction to Early Childhood Education

Subject code	Course Number	Academic Level
ERCH	110	Undergraduate

#### Course Description

Designed to provide an overview of the field of early childhood education. Historical, theoretical and philosophical influences on past and current approaches to teaching young children will be traced and analyzed. The course introduces students to the early childhood education profession, developmental characteristics of young children (birth-age 9), developmentally appropriate practices (NAEYC, 2009), and an overview of effective curriculum, instruction and assessment of young children. In the concurrent field experience, students reflect on their ability to cope with classroom reality as they affirm or change their choice of teaching as a profession. Prereq: Act 34 Clearance, Act 151 Clearance and Act 114 FBI Clearance. Offered spring, fall.

# ERCH290 - Children's Engineering

## Course Information

Course Title

Children's Engineering

Subject code	Course Number	Academic Level
ERCH	290	Undergraduate

Course Description

The intent of this course is to teach students about fundamentals of electricity, mechanisms, fluidics (liquids and gases under pressure), computer-control, and structures. Content will be delivered through a series of hands-on activities that will allow the students to immerse themselves in the content through problem-based learning by doing.

Simple knowledge and skill building activities will lead to more complex open-ended problem solving and prototyping activities to build deeper understandings of scientific, technological, engineering, and mathematical (STEM) concepts for teachers of young children. Cross-listed with EDTE 290, students may not receive credit for both courses.

ERCH315 - Family & Community: Aspects of Diversity

Course Information

Course Title

Family & Community: Aspects of Diversity

Subject code	Course Number	Academic Level
ERCH	315	Undergraduate

Course Description

A focus on collaborative relationship building between home, school and community that facilitates positive influence on the individual child’s development. These collaborative relationships create an inclusive learning environment for all children, including culturally and linguistically diverse. The collaborative relationships are based on developing reciprocal communication techniques, cultural sensitivity and rapport with children and their families. Promotes effective communication and advocacy skills for students with

disabilities and their families between school, agency personnel and community members. Empowerment techniques and parent workshops are developed to encourage parent involvement, with emphasis on families who traditionally have been excluded from the collaborative process in the schools and developing parental self-efficacy skills. Offered spring, fall. Prereq: ENG 110 or ENGL 110H; EDUC 220 or ERCH 225; EDFN 211, 241; Coreq: ERCH 345 and EDFN 320.

### Course Information

#### Course Title

Tching of Literacy, PreK-4: Process, Skills & Strategies

Subject code	Course Number	Academic Level
ERCH	422	Undergraduate

#### Course Description

This course develops evidence-based pedagogical skills in the teaching of reading and the related language arts in grades PreK-4. Keeping with the theory that the communication processes – reading, writing, listening, and speaking – cannot arbitrarily be divided, this course will present pedagogical skills in an interrelated and integrated format. Understandings, teaching strategies and techniques will be consistent with the Structured Literacy Knowledge and Practice Standards of PK-4 Educators and the PA Core Standards for literacy instruction. Throughout this course, students will be expected to exhibit professional behaviors as delineated in Administrative Guidelines for the Assessment of the Professional and Ethical Dispositions of Professional Education Unit Candidates.

ERCH485 - Teaching Young English Language Learners

Course Information

Course Title

Teaching Young English Language Learners

Subject code	Course Number	Academic Level
ERCH	485	Undergraduate

Course Description

Prepares early childhood teacher candidates to understand the social and linguistic foundations for first and second language development in the early years. Teacher candidates will be able to apply research-based strategies for supplying first language development in the home and for preparing young learners for the transitions to schooling in a second language. Candidates will demonstrate an understanding of the resources that young learners bring to academic settings, and of ways to support young learners and their families in their adjustments to English-speaking schools. Candidates will demonstrate the ability to use assessment data to differentiate and modify instruction according to the needs of their students. Teacher candidates will be prepared to support young English language learners in their acquisition of language and content within optimal learning environments that provide meaningful access to standards-based

instruction. Prereq: ENGL 110, admission to Advanced Professional Studies. Equivalent to EDUC 487, credit may not be received for both courses.

Course Information

Course Title

Integrative STEM Practicum

Subject code	Course Number	Academic Level
ERCH	495	Undergraduate

Course Description

This clinical practicum course provides opportunities for teacher candidates to bridge theory and practice. Students will demonstrate and apply knowledge, skills, and dispositions related to the implementation of integrative science, technology, engineering and math (STEM) education at the pre-K to grade 4 level. Emphasis is placed on the planning, development, implementation and assessment of integrative STEM instructional activities and lessons that use problem-based and experiential learning techniques targeted for Pre-K to grade 4 students. Includes field experiences. Prerequisites ERCH 110, ERCH 190, EDTE/ERCH 290, ITEC 344, EDTE 490 or 690 or Permission of Instructor; Advanced Professional Studies (APS) status required. Cross-listed with EDTE 495, credit may not be received for both courses.

GFED377 - The Gifted in Pop Culture

Course Information

Course Title

The Gifted in Pop Culture

Subject code	Course Number	Academic Level
GFED	377	Undergraduate

Course Description

This course will introduce students to various characteristics, issues and needs of gifted individuals. Through the lens of popular culture media (e.g., film, television, graphic novels, literature) portrayals of fictional gifted characters will be examined in regards to topics such as identification, education, socialization, gender, ethnicity, poverty and disability. These portrayals will then be juxtaposed with current research to gain an authentic understanding of this group and their unique needs. Pre-requisites: ENGL 110 or ENGL 110H, COMM 100 or COMM 100H and 60 credits (Junior Standing).

#### Additional Comments:

## GFED670 - Psychology of the Gifted

### Course Information

#### Course Title

Psychology of the Gifted

Subject code	Course Number	Academic Level
GFED	670	Graduate

#### Course Description

Covers diverse elements in psychology that converge in the study of giftedness. The early studies of Terman will give a historical perspective leading to an exploration of developments in the areas of measurement, individual differences and multifactorial views of intelligence. Emphasis will be placed upon the literature on creativity and problem solving. The contribution of humanistic psychology which gives a sense of process or personal growth and of achievement will be explored.

## GFED674 - Program for the Gifted

### Course Information

#### Course Title

Program for the Gifted

Subject code	Course Number	Academic Level
GFED	674	Graduate

#### Course Description

Designed for in-service teachers pursuing a masters degree in gifted education or for those teachers with special interest in educating the gifted and talented. In-depth exploration of six components of gifted programs: definition of gifted, identification of the gifted, curriculum, teacher selection, program organization, and management.

AND MDLV446 - Teaching of Social Studies  
AND MDLV456 - Teaching Middle Level Mathematics

**Additional Comments:**

## MDLV486 - Teaching English Language Learners in the Middle Level

### Course Information

**Course Title**

Teaching English Language Learners in the Middle Level

Subject code	Course Number	Academic Level
MDLV	486	Undergraduate

**Course Description**

Prepares teacher candidates to understand cross-cultural and linguistic foundations of acquiring a new language. Teacher candidates will apply research-based strategies for providing English language learners (ELLs) with optimal learning environments that provide meaningful access to standards-based instruction in grades 4-8. This course places a special emphasis on instructional planning that facilitates student success with academic language and academic texts in upper-elementary settings. Candidates will demonstrate the ability to use assessment data to differentiate and modify instruction. Candidates will also demonstrate an understanding of schools legal responsibilities toward ELLs and their families. Offered in fall. Prereq: COMM 100, ENGL 110 and admission to Advanced Professional Studies.

RDED620 - Current Practices in Literacy Education

Course Information

Course Title

Current Practices in Literacy Education

Subject code	Course Number	Academic Level
RDED	620	Graduate

Course Description

Current trends and appropriate pedagogy in the teaching of literacy processes, including reading, writing, and speaking in the pre-K through grade 4 classroom. Content consistent with the Pennsylvania Standards for Reading, Writing, Speaking and Listening. the Common Core State Standards, and the Structured Literacy PK-4 Competencies (Chapter 49/PDE). Offered spring.

RDED621 - Foundations of Reading and Writing

Course Information

Course Title

Foundations of Reading and Writing

Subject code	Course Number	Academic Level
RDED	621	Graduate

Course Description

Emergent literacy, vocabulary development, comprehension instruction, assessment techniques and the reading/writing needs of both the exceptional and the culturally diverse learner. Offered annually.

RDED622 - Reading and Writing in the Content Areas

Course Information

Course Title

Reading and Writing in the Content Areas

Subject code	Course Number	Academic Level
RDED	622	Graduate

Course Description

Discussion of strategies and techniques for enhancing comprehension, concept and vocabulary development, and writing skills in the content areas, specifically those reflected in the Structured Literacy Competences, grades 4-8. Offered winters

RDED623 - Diag. of Reading & Writing Disabilities: Practicum

Course Information

Course Title

Diag. of Reading & Writing Disabilities: Practicum

Subject code	Course Number	Academic Level
RDED	623	Graduate

Course Description

Administration and interpretation of diagnostic assessments related to each literacy competency. Decision making about individuals with reading and writing difficulties, based on current theory and practice. Prereq: RDED 621 and 622. Offered in fall.

Simple Requisites

Completed Course Prerequisites

**Type**  
Prerequisite

RDED 621 and RDED 622

## Earth Sciences Department

### Departmental Student Learning Outcomes

Earth Science graduates exhibit knowledge and understanding of the component of the Earth system specific to their discipline so that they are prepared to embark on their careers and work effectively to address complex issues.

Earth Science graduates can employ evidenced-based scientific reasoning to critically think about problems in the Earth sciences. Students will engage in observation, inquiry, analysis, and synthesis to expand their knowledge and understanding of the Earth system in the courses and/or in student research.

Earth Science graduates demonstrate skill in the use of tools and the application of technologies appropriate to their discipline. Students will be able to evaluate the scientific problem to determine the appropriate tool and/or technology necessary to solve the problem and then employ that tool and/or technology effectively.

Earth Science graduates can effectively communicate their knowledge and understanding in both oral and written formats to diverse audiences.

### Program Overviews & Workforce Projections

The Earth Sciences span the disciplines of climate, energy, environmental hazards, mineral and water resources, tectonics, and weather. The need for energy, environmental protection, and responsible land and water resource management is projected to spur demand for geoscientists in the future (Bureau of Labor Statistics 2020). Earth Sciences courses are rigorous and comprehensive utilizing the most current technology so that students not only develop but also apply knowledge of their discipline to solve complex problems. Our students engage in research of critical importance such as identifying key processes in the forecasting of snowfall or determining how fluids flow through fractured and porous rock units. Graduates from the Earth Sciences curriculum find satisfying careers in the atmospheric sciences, emergency management, and the environmental geo- and ocean sciences.

Our bachelor's degrees are designed to prepare students for the professional workforce or graduate education with qualifications and skills that will ensure success. The meteorology curriculum conforms to the American Meteorological Society's (AMS) guidelines for a B.S. in atmospheric science/meteorology, and the GS-1340 civil service requirements for government employment

(e.g., National Weather Service, NOAA). The B.S. EEOS environmental geology option exceeds the academic requirements for professional licensure and prepares every student for success through extensive opportunities to apply their skills in the field. The B.S. EEOS program has ocean/bay access at the Chincoteague Bay Field Station (CBFS), where students have opportunities for hands-on, feet-wet experiences, on shore and onboard research vessels. Academic minors in areas where the workforce is strong or emerging, such as data science, emergency management, environmental policy, geospatial sciences, mathematics, broadcast communication, government and political affairs, and heliophysics and space weather, are encouraged but not required.

Millersville University is a senior partner of the CBFS, institutional member of the American Geophysical Union (AGU), American Geosciences Institute (AGI), American Meteorological Society (AMS), International Association of Emergency Managers (IAEM), National Weather Association (NWA), University Corporation for Atmospheric Research (UCAR), and an educational partner of the Weather Risk Management Association (WRMA). The University is a participant in the National Weather Service (NWS) StormReady® program and the Mid-Atlantic Regional Association Coastal Observing System, and the AMS Student Chapter is a member of the Weather-Ready Nation (WRN). For more information, see [www.millersville.edu/esci](http://www.millersville.edu/esci)

### Earth Science Post-Baccalaureate Certification

#### Overview

For post-baccalaureate information please see the "Certification" section of the Graduate Course Catalog.

#### Curriculum

##### Simple Requisites

##### Advanced Professional Studies - Post-Bacc Cert (6 credits)

###### Type

###### Completion Requirement

###### APS Status

Must have APS (Advanced Professional Studies) status.  
[View information on applying for APS Status.](#)

###### Foundations Courses (6 credits)

###### Complete at least 1 of the following:

###### Option 1. Foundations Graduate Level (6 credits)

###### Complete ALL of the following Courses:

- EDFN590 - Social Foundation of Educ
- EDFN545 - Advanced Educational Psychology

OR

###### Option 2. Foundations Undergraduate Level (6 credits)

###### Complete ALL of the following Courses:

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

###### Additional Comments:

##### Major in Earth Science, Post-Bacc Certification

###### Type

##### Completion Requirement

###### Requirements

###### Fulfill ALL of the following requirements:

###### Requirements

Credits Required for Major

AND

###### Minimum GPA

Earn a minimum GPA of 2.0

AND

###### Required Courses

###### Earn a minimum grade of C- in the following:

- ESCI221 - Physical Geology
- ESCI241 - Meteorology
- ESCI261 - Introduction to Oceanography

AND

###### Required Courses

###### Complete ALL of the following Courses:

- ESCI222 - Historical Geology  
OR ESCI222H - H:Historical Geology
- ESCI245 - Environmental Meteorology

AND

###### Additional Oceanography Course

###### Complete at least 1 of the following courses:

- ESCI267 - Field Methods in Oceanography
- ESCI363 - Chemical Oceanography
- ESCI366 - Marine Resources and Policy  
OR ESCI366H - Hon: Marine Resources and Policy
- ESCI369 - Physical Oceanography and Climate
- ESCI464 - Ocean Ecosystems
- ESCI465 - Biological Oceanography
- ESCI266 - Environmental Oceanography

- ESCI468 - Ocean Data Analysis and Presentation

AND

300 or 400 level ESCI Elective

**Complete at least 1 courses in the following course sets:**

- Any 3-level ESCI course(s)
- Any 4-level ESCI course(s)

**Additional Comments:**

### Req Related for Earth Science, Post-Bacc Cert Type

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Mathematics (8 credits)

**Earn a minimum grade of C- in the following:**

- MATH161 - Calculus 1

AND

Physics

**Fulfill ALL of the following requirements:**

Physics 1 (4 credits)

**Earn a minimum grade of C- in the following:**

- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra

AND

Physics 2 (4 credits)

**Complete ALL of the following Courses:**

- PHYS132 - Physics 2 with Algebra

AND

General Astronomy or Intro to Astronomy & Astrophysics (3 credits)

**Complete at least 1 of the following courses:**

- PHYS117 - General Astronomy
- PHYS317 - Introduction to Astronomy

AND

Chemistry

**Fulfill ALL of the following requirements:**

Introductory Chemistry 1 (4 credits)

**Earn a minimum grade of C- in the following:**

- CHEM111 - Introductory Chemistry 1

AND

Introductory Chemistry 2 (4 credits)

**Complete ALL of the following Courses:**

- CHEM112 - Introductory Chemistry 2

AND

Biology

**Fulfill ALL of the following requirements:**

Demonstrated Competency in Biology

Competency may be demonstrated by:

1. A course grade of 'A' or 'B' in AP Biology.
2. A score of 3 or better in the national AP exam.
3. A successful score on the CLEP exam.
4. A successful score on a General Biology challenge or placement examination.
5. A passing grade for General Biology (BIOL100 General Biology).

AND

200 level or higher Biology elective

**Complete at least 1 courses in the following course sets:**

- Any 2-level BIOL course(s)
- Any 3-level BIOL course(s)
- Any 4-level BIOL course(s)

**Additional Comments:**

## Professional Education - Certification (33 credits)

### Type

### Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

##### Foundations Bloc

#### Fulfill ALL of the following requirements:

##### Foundations of Modern Education (3 credits)

#### Complete at least 1 of the following courses:

- EDFN590 - Social Foundation of Educ
- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education

AND

##### Psychological Foundations of Teaching (3 credits)

#### Complete at least 1 of the following courses:

- EDFN545 - Advanced Educational Psychology
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

We recommend 590 and 545 for Post-Bacc students. These courses each require 35 hours field placement at an urban school. Offered in the evenings Fall and Spring. Also offered in Summer Session. If enrolling in EDFN211 Foundations Modern Education/EDFN241 Psyc Foundation of Teaching and please register for both courses in the same block.

AND

## APS - Professional Bloc

### Fulfill ALL of the following requirements:

Instructional Technology, Design & Assessment (3 credits)

#### Complete at least 1 of the following courses:

- EDFN530 - Instructional Technology, Design and Assessment
- EDFN330 - Instructional Technology, Design & Assessment

AND

Issues in Secondary Education (3 credits)

#### Complete at least 1 of the following courses:

- EDSE521 - Issues in Second Education
- EDSE321 - Issues in Secondary Education  
OR EDSE321H - H: Issues in Secondary Education

AND

Content Area Literacy for Diverse Classrooms (3 credits)

#### Complete at least 1 of the following courses:

- EDSE340 - Content Area Literacy for Diverse Classrooms
- EDSE540 - Cntnt Area Litrcy Divers Class

AND

Secondary Students w/Disabilities in Inclusive Settings (3 credits)

#### Complete at least 1 of the following courses:

- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings
- SPED546 - Sec Stdnts w Disab Inclu Sttgs

AND

Required Courses (3 credits)

#### Complete ALL of the following Courses:

- EDSE435 - Teaching of Science in

Secondary Schools

Students must meet APS eligibility requirements prior to registering. Course Appropriate PRAXIS II Exam should be taken after Professional Bloc and but prior to Student Teaching.

AND

Student Teaching Seminar (3 credits)

**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar

File your Intent to Student Teach Card one year prior to the beginning of the semester in which you wish to Student Teach. [Access the Student teaching Website](#)

AND

Student Teaching Semester (9 credits)

**Complete at least 1 of the following courses:**

- EDSC461 - Student Teaching in Science
- EDSC462 - Student Teaching in Science

Students must meet APS eligibility requirements prior to registering. Submit your Teacher Certification Packet 90 days prior to completion of your certification program. [Access the packet on the Certification Website.](#)

**Additional Comments:**

**Integrated Scientific Applications, M.S.**

**Overview**

The goal of the Millersville University MSISA program is to produce professionals with cross-disciplinary scientific skills and business knowledge. The MSISA degree was developed in response to local and national trends indicating the need for highly skilled, technically astute scientists possessing good business sense and excellent communication skills. There are four specializations within the program:

1. Climate Science Applications: Learn to interpret and articulate climate science information emphasizing impacts on society, infrastructure and critical resources.
2. Environmental Earth Systems Management:

- Prepare for careers that bridge environmental sciences with business competencies and geospatial data management.
3. GeoInformatics: Students develop skills in remote sensing, data management, GIS and image analysis, and learn to apply them within a business context.
  4. Weather Intelligence and Risk Management: Develop proficiencies in quantifying uncertainty and management of weather-related risk within the business enterprise.
  5. Space Weather and Environment: Science, Policy, and Communication

See [mville.us/msisa](http://mville.us/msisa) for detailed information on the core curriculum and specializations.

**Admission Requirements**

Before an application will be considered for admission, the following documents must be submitted to the College of Graduate Studies and Adult Learning: a completed graduate program application and application fee, an official transcript from all institutions of higher education attended, verification of completion of a baccalaureate degree from a regionally accredited institution, three professional or academic recommendation forms, a goal statement and a résumé. If an applicant does not have a minimum undergraduate GPA of 3.0, an official score from the GRE, MAT or GMAT taken within five years of the date of application is required. Applicants whose first language is not English must submit their score from the Test of English as a Foreign Language (TOEFL). The TOEFL must have been completed within the past two years. Students with non-U.S. degrees must submit official academic credentials evaluated by an evaluation service (see *Application as an International Student* for more information).

**Degree Requirements**

The MSISA consists of 30 graduate credits. The professional specializations within the MSISA include Weather Intelligence and Risk Management (WIRM), GeoInformatics (GI), Environmental Systems Management (ESM) and Climate Science Applications (CSA). Visit [mville.us/msisa](http://mville.us/msisa) for additional information, or email [gradadmissions@millersville.edu](mailto:gradadmissions@millersville.edu).

### Complete at least 1 of the following courses:

- ECON507 - Environmental Econ and Policy
- MATH535 - Statistical Methods 1
- EMGT693 - Field Experience Practicum

AND

## Concentration Required

A concentration must be declared with this degree.

Options are: Weather Intelligence and Risk Management, Geoinformatics, Climate Science Applications, Environmental Systems Management, or Space Weather & Environment.

## Additional Comments:

## Integrated Scientific Applications, M.S. - Climate Science Applications

### Overview

The Climate Science Applications (CSA) specialization is designed for individuals who want to tackle some of the most complex and pressing problems of our age. This concentration within the Integrated Scientific Applications program prepares passionate scientists to effectively interact with regional planners, policy makers, advocacy groups, geoengineers, governments and the public on matters related to climate science.

Millersville University's graduate-level Integrated Scientific Applications program produces exemplary professionals with cross-disciplinary scientific skills and business knowledge. The University developed this degree program in response to local and national trends indicating the need for highly skilled, technically astute scientists possessing good business sense and excellent collaboration skills. You will learn to interpret and articulate climate science information emphasizing impacts on society, infrastructure and critical resources with a specialization in Climate Science Applications.

Graduates of this program receive a Master of Science (M.S.) degree in Integrated Scientific Applications.

Space Weather and Environment Certificate

Overview

Space Weather and Environment: Science, Policy and Communication

Space Weather and Environment: Science, Policy and Communication (SWEN) is a fully online five course, 15-credit-hour graduate certificate program for clientele that includes broadcast meteorologists and other weather-casters, emergency responders, military personnel, federal and state policy advisors, legislative assistants, science journalists, and any professional whose career may be enhanced with a greater understanding of this subject area. Guided by the National Space Policy of the United States of America, this program will be an avenue for professional development and advancement for those seeking to deepen and broaden their knowledge-base and understanding of the Earth-Sun-Space

environment as well as the impact space weather can have on infrastructure, communication and commerce.

Why Study This Program?

If you are responsible for communication and power grids, transportation systems, navigation systems including space-based assets, commerce, and other infrastructure, this program is for you. Additionally, this program will assist individuals to be better prepared to communicate these issues to policy-makers, stakeholders and the public. The international scope of the SWEN will help prepare individuals for positions in the government, private, commercial and academic sectors. The program should be especially interesting for broadcast meteorologists who are seeking to gain knowledge and proficiency in space weather to better communicate to their market audience.

What You Will Learn?

- Those who have completed the SWEN program will possess the ability to:
- Demonstrate base knowledge of natural or environmental hazards, including space weather hazards and associated risks;
  - Describe solar and space weather phenomena, including but not limited to: aurora, coronal holes, coronal mass ejections (CME), solar flares, sunspots, solar cycle, geomagnetic storms, characteristics of the magnetosphere, and behavior of the interaction between different elements;
  - Relate impacts of space weather phenomena to existing and emerging fields, including the variety of customers and operations most vulnerable;
  - Organize existing protocols and design new protocols for preparing and responding to space weather events;
  - Describe and apply the products, data and graphics to communicate for specific space weather events; and
  - Develop new video products that will communicate space weather to specific audiences – a capstone experience.

### Fulfill ALL of the following requirements:

#### Required Courses (15 credits)

#### Complete ALL of the following Courses:

- EMGT614 - Natural Hazards Primer
- SWEN571 - The Origins of Space Weather
- SWEN572 - Impacts of Space Weather on the Technological World
- SWEN673 - Effective Decision-Support for Space Weather Risks
- SWEN674 - Space Weather Broadcast and Communications

#### Additional Comments:

## Earth Sciences Minor

### Overview

The Earth Sciences minor provides foundational knowledge in geology, meteorology, and ocean sciences. Students interested in environmental or energy policy, sustainability studies, or geographic information systems may want to consider a minor in Earth Sciences.

### Curriculum

#### Simple Requisites

#### Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

## Minor in Earth Sciences

### Type

#### Completion Requirement

## Requirements

### Fulfill ALL of the following requirements:

#### Required Courses (12 credits)

#### Complete ALL of the following Courses:

- ESCI221 - Physical Geology  
OR ESCI221H - Hnrs:Physical Geology
- ESCI241 - Meteorology
- ESCI261 - Introduction to Oceanography

AND

#### Geology Course

#### Complete at least 1 courses in the following course sets:

- Any 32-level ESCI course(s)
- Any 42-level ESCI course(s)

AND

#### Meteorology Course

#### Complete at least 1 courses in the following course sets:

- Any 34-level ESCI course(s)
- Any 44-level ESCI course(s)

AND

#### Ocean Sciences and Costal Studies Course

#### Complete at least 1 courses in the following course sets:

- Any 36-level ESCI course(s)
- Any 46-level ESCI course(s)

#### Additional Comments:

## Geology Minor

### Overview

The geology minor provides foundational knowledge in geology appropriate for students interested in agriculture,

archeology, biology, climate, emergency management, or environmental policy. This minor is perfect for those students passionate about how the Earth transforms over time through tectonic processes, how landforms develop, or how Earth resources are formed and used.

## Curriculum

### Simple Requisites

#### Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

#### Minor in Geology

##### Type

##### Completion Requirement

Track 2 Geology Minor (Non-BSE ESCI Majors)

#### Fulfill ALL of the following requirements:

Required Courses (4 credits)

#### Complete ALL of the following Courses:

- ESCI221 - Physical Geology  
OR ESCI221H - Hnrs:Physical Geology

AND

Geology Electives

#### Complete at least 2 courses in the following course sets:

- Any 32-level ESCI course(s)
- Any 42-level ESCI course(s)

AND

Geology Electives (9-10 credits)

#### Complete at least 3 of the following courses:

- ESCI222 - Historical Geology  
OR ESCI222H - H:Historical Geology
- ESCI225 - Geomorphology
- ESCI226 - Geology of Earth and Energy Resources
- GEOG230 - Physical Geography
- ESCI101 - Earth Systems & Natural Hazards  
OR ESCI101H - Hon: Earth Systems & Natural Hazards (Inactive)
- ESCI102 - Origin and Evoltn of the Earth
- ESCI120 - Environmental Geology

Student may take ESCI225 Geomorphology OR GEOG230 Physical Geography, not both and for the minor. Student may take ESCI382 Water Wars: Science and Policy OR ESCI385 Glbal Clmate Chng: Sci & Polcy, not both and for the minor. Student may only take (1) 100-level course for elective in minor.

#### Additional Comments:

## Heliophysics and Space Weather Minor

### Overview

Heliophysics and Space Weather challenges students to consider the principles and problems associated with the solar system through the lenses of multiple disciplines. As the study of the sun and its effects on the Earth requires a broad understanding of physics and meteorology, the minor program at Millersville University explores this interdisciplinary field through both physics and earth science.

## Curriculum

### Simple Requisites

#### Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current

University-wide General Education requirements subject to normal distribution requirements.

4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

PHYS232 Physics 2 with Calculus is required to be admitted to this minor. MATH161 Calculus 1, MATH211 Calculus 2, MATH311 Calculus 3 and MATH365 Ordinary Differential Equation are prerequisite courses to the PHYS courses in this minor, please be sure you are completing these MATH courses prior to the respective PHYS requirements in the minor.

## Hydrology Minor

### Overview

The hydrology minor provides foundational knowledge in water resources including courses in both surface water and groundwater. Water resources are a critical issue of the 21<sup>st</sup> century. Climate change is changing the frequency of high impact storms and the flooding associated with them. As droughts become more problematic the access to clean fresh water becomes even more critical. The minor is appropriate for meteorology majors, climate scientists, and anyone interested in environmental policy.

- Any 44-level ESCI course(s)

May also take ESCI385 Gblal Clmate Chng: Sci & Polcy  
or ESCI385H H: Clmate Chng: Sci & Polcy.

**Additional Comments:**

## Oceanography Minor

### Overview

A minor in Oceanography examines the physical aspects of ocean currents, tides and the intimate relationship between the ocean and atmosphere, with significant emphasis on the ocean's role in climate change. Offering a comprehensive classroom instruction and field training in the physical, chemical, geological and biological aspects of oceanography, students acquire a rigorous education in the fundamental theories, but also experience practical field and laboratory applications currently used by working oceanographers.

### Curriculum

## Earth Science, B.S.E.

### Overview

Interested in pursuing a career as a high school teacher? The Department of Earth Sciences offers a 4-year program leading to the Bachelor of Science in Secondary Education in the Earth Sciences.

This program is for students interested in pursuing careers as a high school educator in the field of earth sciences including environmental earth science, geology, meteorology, and oceanography. Students obtain certification in earth science upon completion of the program and successful completion of state examinations. Education courses and student teaching experiences are offered in conjunction with the department of Educational Foundations in the College of Education and Human Services ([Educational Foundations | Millersville University](#)).

**Complete ALL of the following Courses:**

- MATH160 - Precalculus

AND

Required Courses (4 credits)

**Earn an average grade of C- in the following:**

- MATH161 - Calculus 1  
OR MATH161H - Hon: Calculus 1

Physics (11 credits)

**Fulfill ALL of the following requirements:**

Required Courses (4 credits)

**Earn a minimum grade of undefined in the following:**

- PHYS131 - Physics 1 with Algebra

AND

Required Courses (4 credits)

**Complete ALL of the following Courses:**

- PHYS132 - Physics 2 with Algebra

General Astronomy or Intro to Astronomy & Astrophysics (3 credits)

**Complete ALL of the following Courses:**

- PHYS117 - General Astronomy
- PHYS317 - Introduction to Astronomy

Chemistry (8 credits)

**Fulfill ALL of the following requirements:**

Required Courses (4 credits)

**Earn a minimum grade of C- in the following:**

- CHEM111 - Introductory Chemistry 1

AND

Required Courses (4 credits)

**Complete ALL of the following Courses:**

- CHEM112 - Introductory Chemistry 2  
OR CHEM112H - Hnrs:Introductory Chemistry 2

Biology

**Fulfill ALL of the following requirements:**

### Demonstrated Competency in Biology

Competency may be demonstrated by:

1. A course grade of 'A' or 'B' in AP Biology
2. A score of 3 or better in the national AP exam
3. A successful score on the CLEP exam
4. A successful score on a General Biology challenge or placement examination
5. A passing grade for General Biology (BIOL100 General Biology).

— AND —

### Principles of Ecology (3 credits)

**Complete ANY of the following Courses:**

- HIST342H - H: Hitler and Nazism
- BIOL340 - Prspctv in Environm Awareness  
**AND** BIOL340H - HNRS:Prspctv in Environm Awareness

**Additional Comments:**

### Advanced Professional Studies, BSE Type

Completion Requirement

#### English Composition (3 credits)

**Complete at least 1 of the following courses:**

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

#### English Literature (3 credits)

**Complete ALL of the following Courses:**

- ENGL230 - Introduction to Literature
- ENGL231 - World Literature 1
- ENGL232 - World Literature 2  
**OR** ENGL232H - Hnrs: World Literature 2
- ENGL233 - Early British Literature
- ENGL234 - Later British Literature
- ENGL235 - American Literary Tradition I
- ENGL236 - American Literary Tradition II

- ENGL241H - H:Explorations in World Lit
- ENGL242 - Reading Our World:  
**OR** ENGL242H - Hnrs: Reading Our World:
- ENGL292 - Science Fiction  
**OR** ENGL292H - Hon: Science Fiction
- ENGL333 - African-American Literature 1  
**OR** ENGL333H - Hnrs:African-American Literature 1
- ENGL334 - African American Literature 2  
**OR** ENGL334H - Hnrs:African American Literature 2
- ENGL336 - New Dimensions to World Lit
- ENGL338 - Folklore and Literature  
**OR** ENGL338H - H:Folklore and Literature
- ENGL401 - Old Eng Lang and Literature
- ENGL402 - Middle Eng Lang and Literature

### Mathematics

Two Mathematics courses are required for BSE students. It is preferable to take two courses designated as G2. Search for MATH courses on the current web schedule.

BIOL375 Biometry will fulfill one Mathematics course for BSE BIOL students.

### Required Courses (6 credits)

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
**OR** EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
**OR** EDFN241H - Hon:Psychological Foundations of Teaching

### ACT 126 - Educator Ethics Training

**You must submit your Educator Ethics Training.**

### APS Status

Must have APS (Advanced Professional Studies) status. View information on applying for APS Status.

**Additional Comments:**

## Environmental Earth & Ocean Science, B.S. - Environmental Earth Sciences Option

### Overview

The EEOS curriculum is based on the broad recognition that interdisciplinary competency is critical to educate the next generation of Earth and Environmental scientists. Through our environmental sciences core, students will study the foundational role of the Earth sciences as it relates to emerging environmental issues such as water resources and climate variability. Courses within the three tracks such as Earth Materials, Groundwater Resource and Contamination, Structural Geology and Environmental Oceanography emphasize application of geoscience techniques to environmental problems and develop skills that are broadly applicable to a variety of environmental careers. In addition, in this degree students develop necessary technical expertise through required courses in investigative methods and field techniques. The B.S. EEOS degree provides the fundamental coursework in the geo- and ocean sciences and emphasizes the context of emerging climate and environmental issues.

### Curriculum

#### Simple Requisites

#### Major in Environmental Earth and Ocean Science, B.S. (29 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Required Earth and Ocean Sciences Core (20 credits)

##### Fulfill ALL of the following requirements:

One ESCI Course (3 credits)

##### Earn at least 3 credits from the following:

- Any 1-level ESCI course(s)
- Any 2-level ESCI course(s)

AND

Required Courses (17 credits)

##### Complete ALL of the following Courses:

- ESCI221 - Physical Geology  
OR ESCI221H - Hnrs:Physical Geology

- ESCI245 - Environmental Meteorology
- ESCI261 - Introduction to Oceanography
- ESCI322 - Environmental Hydrology
- ESCI385 - Global Climate Change: Sci & Policy  
OR ESCI385H - H: Global Climate Change: Sci & Policy

AND

Methods Courses (6 credits)

##### Complete at least 2 of the following courses:

- ESCI281 - GIS Applications for Earth Sci
- ESCI380 - Remote Sensing & Image Interpretation
- ESCI423 - Applied Geophysics

AND

Field Course (3 credits)

##### Complete at least 1 of the following courses:

- ESCI267 - Field Methods in Oceanography
- ESCI422 - Geological Field Mapping
- ESCI465 - Biological Oceanography

AND

Concentration in Environmental Earth Sciences

See separate block

#### Additional Comments:

#### Concentration in Environmental Earth Sciences (18-20 credits)

##### Type

##### Completion Requirement

Required Environmental Earth Sciences Courses

##### Fulfill ALL of the following requirements:

Environmental Geology Courses (6-8 credits)

##### Complete at least 2 of the following courses:

- ESCI222 - Historical Geology  
**OR** ESCI222H - H:Historical Geology
- ESCI225 - Geomorphology
- ESCI321 - Structural Geology
- ESCI326 - Sedimentation and Stratigraphy
- ESCI327 - Earth Materials
- ESCI426 - Groundwater Resources and Contamination

**AND**

Environmental Ocean Science Courses (6 credits)

**Complete at least 2 of the following courses:**

- ESCI363 - Chemical Oceanography
- ESCI369 - Physical Oceanography and Climate
- ESCI464 - Ocean Ecosystems
- ESCI266 - Environmental Oceanography
- ESCI468 - Ocean Data Analysis and Presentation

**AND**

Geological Earth and Energy Resources (3 credits)

**Complete ALL of the following Courses:**

- ESCI226 - Geology of Earth and Energy Resources

**AND**

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- ESCI366 - Marine Resources and Policy  
**OR** ESCI366H - Hon: Marine Resources and Policy

**AND**

300/400 level ESCI Course (3 credits)

**Complete at least 1 courses in the following course sets:**

- Any 3-level ESCI course(s)
- Any 4-level ESCI course(s)

**Additional Comments:**

**Req Related for Environmental Earth & Ocean Sci (15-18 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Required Courses (4 credits)

**Complete ALL of the following Courses:**

- CHEM111 - Introductory Chemistry 1

**AND**

Precalculus or Other Related Electives (Depending on Math Placement) (3-4 credits)

**Complete at least 1 of the following courses:**

- MATH160 - Precalculus
- OSEH120 - Fundamentals of Safety, Health, Environmental Issues
- AENG120 - Energy Systems
- AENG281 - Processing Metallic Materials
- AENG304 - Energy, Sustainability  
**OR** AENG304H - Hon: Energy, Sustainability
- GEOG130 - Intro to Environmental Science  
**OR** GEOG130H - Hon: Intro to Environmental Science (Inactive)
- GEOG202 - Environmental Sustainability
- GEOG230 - Physical Geography
- GEOG281 - Maps and GIS
- GEOG295 - GIS I: Vector Data Analysis
- GEOG296 - GIS II: Raster Data Analysis  
**OR** GEOG296H - H: GIS II: Raster Data Analysis (Inactive)
- MATH211 - Calculus 2
- MATH235 - Survey of Statistics
- PHYS132 - Physics 2 with Algebra
- PHYS232 - Physics 2 with Calculus
- CHEM112 - Introductory Chemistry 2
- CHEM235 - Organic Chemistry
- CHEM251 - Inorganic Chemistry 1
- CHEM375 - Environmental Chemistry
- BIOL100 - General Biology
- BIOL101 - Foundations of Biology
- BIOL211 - Concepts of Zoology

- BIOL221 - Concepts of Botany
- CSCI161 - Introduction to Programming 1
- CSCI162 - Introduction to Programming 2

AND

Calculus I or Honors Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Physics I with Algebra or Calculus (4-5 credits)

**Complete at least 1 of the following courses:**

- PHYS131 - Physics 1 with Algebra
- PHYS231 - Physics 1 with Calculus

**Additional Comments:**

## Environmental Earth & Ocean Science, B.S. - Environmental Ocean Sciences Option

### Overview

The EEOS curriculum is based on the broad recognition that interdisciplinary competency is critical to educate the next generation of Earth and Environmental scientists. Through our environmental sciences core, students will study the foundational role of the Earth sciences as it relates to emerging environmental issues such as water resources and climate variability. Courses within the three tracks such as Earth Materials, Groundwater Resource and Contamination, Structural Geology and Environmental Oceanography emphasize application of geoscience techniques to environmental problems and develop skills that are broadly applicable to a variety of environmental careers. In addition, in this degree students develop necessary technical expertise through required courses in investigative methods and field techniques. The B.S. EEOS degree provides the fundamental coursework in the geo- and ocean sciences and emphasizes the context of emerging climate and environmental issues.

## Emergency Management, B.S.

### Overview

A degree in Emergency Management prepares you for a broad range of career fields in both the public and private sectors ranging from, but not limited, to jobs in areas of local, state and federal emergency management, public health, transportation, public works, non-profit disaster relief organizations, domestic and international non-governmental organizations, energy sector, private sector emergency management consulting and information technology among

others. This program also includes an internship or applied experience that focuses on the application of the theoretical information covered in courses and other training and hands-on elements of the curriculum.

## Curriculum

### Simple Requisites

#### Major in Emergency Management, BS (31 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Earth Science Major Core (7 credits)

##### Fulfill ALL of the following requirements:

The Atmosphere (3-4 credits)

##### Complete at least 1 of the following courses:

- ESCI107 - The Atmosphere  
OR ESCI107H - Hon: The Atmosphere (Inactive)
- ESCI109 - Atmosphere with Lab

AND

Required Courses (3 credits)

##### Complete at least 1 of the following courses:

- ESCI120 - Environmental Geology

AND

Emergency Management Core (21 credits)

##### Complete at least 1 of the following courses:

- EHEM201 - Introduction to Emergency Management
- EHEM205 - Natural Hazards Risk Assessment and Mitigation
- EHEM305 - Disaster Management & Community Risk Reduction
- EHEM309 - Disaster Response & Recovery
- EHEM315 - Business Continuity and Continuity of Operations
- EHEM316 - Intro to Terrorism, WMD and Homeland Security

- EHEM319 - Emergency Management Planning

AND

Required Capstone: Thesis or Capstone Experience (3 credits)

##### Earn at least 3 credits from the following:

- EHEM393 - Field Experience Practicum
- EHEM300 - Co-Op Ed Experience in EHEM
- EHEM499 - Hnrs Thesis:

##### Additional Comments:

#### Req Related for Emergency Management, BS (25 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Required Courses (16 credits)

##### Complete ALL of the following Courses:

- ESCI101 - Earth Systems & Natural Hazards  
OR ESCI101H - Hon: Earth Systems & Natural Hazards (Inactive)
- ESCI104 - The World Ocean  
OR ESCI104H - Hnrs:The World Ocean (Inactive)
- ESCI245 - Environmental Meteorology
- MATH160 - Precalculus
- OSEH120 - Fundamentals of Safety, Health, Environmental Issues

AND

GIS Applications for Earth Sciences (3 credits)

##### Complete at least 1 of the following courses:

- ESCI281 - GIS Applications for Earth Sci
- GEOG295 - GIS I: Vector Data Analysis

AND

Required Related Electives (6 credits)

Complete at least 2 of the following courses:

- COMM371 - Crisis Emergency & Risk Comm  
OR COMM371H - Hon: Crisis Emergency & Risk Comm
- ESCI385 - Global Climate Change: Sci & Policy  
OR ESCI385H - H: Global Climate Change: Sci & Policy
- OSEH221 - Industrial Fire Prevention, Protection and Control
- GEOG372 - Urban and Regional Planning
- GOVT356 - Disasters and Our World
- EHEM329 - Special Topics in Emergency Management

Additional Comments:

Meteorology, B.S.

Overview

The BS Meteorology program conforms to the American Meteorological Society's Guidelines for a B.S. Degree in Meteorology/Atmospheric Science. It satisfies the National Weather Service GS-1340 requirements and adequately prepares a student for the pursuit of an advanced degree. Our graduates are diversely employed, some going onto careers in education, administration, and research. Many continue on to pursue advanced degrees at major research institutions, work for government agencies or begin careers in the private sector. More than half our graduates work in operational forecasting--just a few of their employers include The Weather Channel, Accu-Weather, Weather Services Corporation, and numerous branches of the National Weather Service. Several of grads work as on-air meteorologists at TV stations across the U.S. Our graduates enter the workforce as knowledgeable, skilled and competent professionals.

Curriculum

Simple Requisites

Major in Meteorology and BS (50 credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Required Earth Science Courses (35 credits)

Fulfill ALL of the following requirements:

Required Courses (4 credits)

Earn a minimum grade of C- in the following:

- ESCI241 - Meteorology

AND

Required Courses (31 credits)

Complete ALL of the following Courses:

- ESCI282 - FORTRAN Programming for Earth Sciences Applications
- ESCI340 - Cloud Physics & Precip Process
- ESCI341 - Atmospheric Thermodynamics
- ESCI342 - Atmospheric Dynamics 1
- ESCI340 - Cloud Physics & Precip Process
- ESCI345 - Atmospheric Radiative Transfer
- ESCI441 - Synoptic Meteorology Lecture-Laboratory
- ESCI443 - Climate Dynamics
- ESCI444 - Mesoscale Meteorology
- ESCI446 - Stats & Decision Making in Earth Science

AND

Scientfc Prgm Analys & Vis, GIS Apps for Earth Sci or GIS (3 credits)

Complete at least 1 of the following courses:

- ESCI386 - Sci Prg Lang:
- ESCI281 - GIS Applications for Earth Sci
- GEOG295 - GIS I: Vector Data Analysis

AND

Earth Science Electives (12 credits)

Earn at least 12 credits from the following:

- ESCI261 - Introduction to Oceanography
- ESCI322 - Environmental Hydrology
- ESCI344 - Tropical Meteorology

- OR ESCI344H - H:Tropical Meteorology
- ESCI347 - Satellite Meteorology
- OR ESCI347H - H:Satellite Meteorology
- ESCI349 - Chemistry of the Atmosphere
- OR ESCI349H - Hon: Chemistry of the Atmosphere
- ESCI369 - Physical Oceanography and Climate
- ESCI380 - Remote Sensing & Image Interpretation
- ESCI440 - Space Weather and Environment
- OR ESCI440H - Hon: Space Weather and Environment
- ESCI445 - Num Modeling of Atmos and Ocn
- ESCI447 - Meteorological Instrumentation
- OR ESCI447H - H:Meteorological Instrumentation
- ESCI448 - Boundary Layers and Turbulence
- ESCI449 - Radar Meteorology
- OR ESCI449H - Hon: Radar Meteorology

Topics courses must be approved by advisor. Any approved Meteorology electives taken in excess of 49 will be listed here and count toward major GPA. Only one course designated as Perspectives (P) is allowed as an elective in the MET major or required related. If you are taking a (P) course as a major elective, please have your advisor email degree.audit@millersville.edu

#### Additional Comments:

ESCI348 Broadcast Meteorology Broadcast Meteorology and ESCI442 Adv Wthr Anlys/Forecstng Pract Advanced Weather Analysis/Forecasting Practicum are recommended skill courses. Completing these courses will not impact your major GPA.

#### Req Related for Meteorology, BS (32-34 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Mathematics (18-20 credits)

##### Fulfill ALL of the following requirements:

Calculus I or Honors Calculus (4-5 credits)

##### Earn a minimum grade of C- in the following:

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Required Courses (11 credits)

##### Complete ALL of the following Courses:

- MATH211 - Calculus 2
- MATH311 - Calculus 3
- MATH365 - Ordinary Differential Equations

AND

Statistics course, Linear Algebra or Partial Differential Equations (3-4 credits)

##### Complete at least 1 of the following courses:

- MATH235 - Survey of Statistics
- MATH322 - Linear Algebra 1
- MATH333 - Probability and Statistics
- MATH335 - Mathematical Statistics 1
- MATH467 - Partial Differential Equations

AND

Chemistry (4 credits)

##### Earn a minimum grade of C- in the following:

- CHEM111 - Introductory Chemistry 1

AND

Physics (10 credits)

##### Fulfill ALL of the following requirements:

Required Courses (5 credits)

##### Complete ALL of the following Courses:

- PHYS231 - Physics 1 with Calculus

AND

Required Courses (5 credits)

**Complete ALL of the following Courses:**

- PHYS232 - Physics 2 with Calculus

Courses

EHEM201 - Introduction to Emergency Management

Course Information

Course Title

Introduction to Emergency Management

Subject code	Course Number	Academic Level
EHEM	201	Undergraduate

Course Description

An introduction into all aspects of emergency management from the origins through the civil defense era to the present day with a look towards the future of the global aspect of emergency management. Students will learn the basics of emergency management, how to function as an effective emergency manager and how to manage an emergency management agency. Prereq: ENGL 110.

Additional Comments:

EHEM205 - Natural Hazards Risk Assessment and Mitigation

Course Information

Course Title

Natural Hazards Risk Assessment and Mitigation

Subject code	Course Number	Academic Level
EHEM	205	Undergraduate

Course Description

An exploration of risk assessment methodologies for natural disasters, review of natural hazard mitigation and its role in disaster management; analysis of past and current government and private sector programs; and an examination of new approaches. Natural hazard mitigation implementation approaches including those in the form of community-wide programs and to relate the hazard mitigation processes to disaster planning.

Simple Requisites

Course Prerequisites

Type

Prerequisite

ESCI101 or ESCI101H

Complete ANY of the following Courses:

• ESCI101 - Earth Systems & Natural Hazards

• ESCI101H - Hon: Earth Systems & Natural Hazards (Inactive)

### Course Information

**Course Title**

Business Continuity and Continuity of Operations

<b>Subject code</b>	<b>Course Number</b>	<b>Academic Level</b>
EHEM	315	Undergraduate

**Course Description**

Critical dependence of private and public organizations on disaster vulnerable technologies and operations as a result of natural and man-made disasters. Students will have the opportunity to review the contemporary plan development strategies and methodologies and to produce working plans that provide preventive measures to minimize the impact of all disasters and provide an organized response to ensure continuity of operations. Concepts of business continuity management system consisting of risk identification and mitigation, business impact analysis, development of continuity strategies, training and awareness, plan creation, maintenance and testing will be emphasized.

**Simple Requisites**

EHEM201

##### Complete ALL of the following Courses:

- EHEM201 - Introduction to Emergency Management

**Additional Comments:**

## EHEM329 - Special Topics in Emergency Management

### Course Information

#### Course Title

Special Topics in Emergency Management

Subject code	Course Number	Academic Level
EHEM	329	Undergraduate

#### Course Description

In-depth investigation and development of one or more topics of current or emerging not addressed as part of the existing curriculum. Prereq: EHEM 201 or EHEM 205

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

EHEM 201 or EHEM 205

##### Complete ANY of the following Courses:

- EHEM201 - Introduction to Emergency Management
- EHEM205 - Natural Hazards Risk Assessment and Mitigation

**Additional Comments:**

## EHEM393 - Field Experience Practicum

### Course Information

#### Course Title

Field Experience Practicum

Subject code	Course Number	Academic Level
EHEM	393	Undergraduate

Course Description

A capstone experience in which emergency-management knowledge and skills are applied and integrated within a field experience. Those already working within an emergency-management-related career can use their current position as the basis for completing a project applicable to enhancing their current skills and applying best practices. For B.S. Emergency Management majors and Environmental Hazards and Emergency management minors only. Senior level and 18 credits in EHEM courses required. Permission of instructor required to enroll.

Simple Requisites

Course Prerequisites
Type
Prerequisite
EHEM Course Credit Hours Completion
Earn at least 18 credits
Credit Hours Completion (Senior Class Standing)
Earn at least 90 credits
Instructor Permission
Must have permission of the instructor to enroll.
Additional Comments:

Degree/Major/Field of Study Restrictions
Type
Prerequisite
BS Emergency Management Majors and Environmental Hazards and Emergency management Minors only.
Must be one of the listed majors or minors to enroll.
Additional Comments:

EMGT	579	Graduate

Course Description  
Experimental Graduate Level course in Emergency Management

EMGT601 - Principles & Practices of Emergency Management

Course Information

Course Title  
Principles & Practices of Emergency Management

Subject code	Course Number	Academic Level
EMGT	601	Graduate

### Course Description

History and perspectives of the field, hazards concepts and taxonomies, all-hazards approach, phases of emergency management, risk assessment, risk communication, emergency management functions, sustainable development, best practices, the EOC, the disaster plan, CEM, IAEM, forging intra- and intergovernment relationships. Offered in fall and spring.

## EMGT603 - Technical & Professional Writing for Emergency Management

### Course Information

#### Course Title

Technical & Professional Writing for Emergency Management

Subject code	Course Number	Academic Level
EMGT	603	Graduate

### Course Description

The emergency-management professional is engaged in an ever-increasing workload involving reporting, budget preparation, grant applications and communicating with the public. This course is designed to enhance the necessary skills for the emergency manager to successfully negotiate the increased demands of the profession. Offered in fall.

## EMGT605 - Social Dimensions of Disaster

### Course Information

#### Course Title

Social Dimensions of Disaster

Subject code	Course Number	Academic Level
EMGT	605	Graduate

### Course Description

An overview of the findings of disaster sociology, including, but not limited to, an examination of the social science definition of disaster, the disaster mythology, the impact of the media, organizational challenges during disaster, creating and maintaining a disaster-resilient community, national and international disaster researchers and the research literature. Offered in fall.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

EMGT601

#### Complete ALL of the following Courses:

- EMGT601 - Principles & Practices of Emergency Management

#### Additional Comments:

## EMGT607 - Emergency Mental Health and Trauma

### Course Information

#### Course Title

Emergency Mental Health and Trauma

Subject code	Course Number	Academic Level
EMGT	607	Graduate

### Course Description

This in-depth course provides the emergency responder with a greater appreciation of the challenges, responses and adjustments encountered by those exposed to disastrous events. Offered in spring.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

EMGT601

#### Complete ALL of the following Courses:

- EMGT601 - Principles & Practices of Emergency Management

#### Additional Comments:

## EMGT609 - Disaster Resp & Recov

### Course Information

#### Course Title

Disaster Resp & Recov

Subject code	Course Number	Academic Level
EMGT	609	Graduate

### Course Description

An in depth investigation of emergency management practices as applied to response, and short term and long-term community recovery. The course will explore disaster recovery efforts with a foundation of statutory requirements,

key concepts, core principles, roles and responsibilities of leadership, of individuals and households to governmental entities and between government and non-government sectors. Pre-requisite: EMGT 601

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

EMGT601  
**Complete ALL of the following Courses:**

- EMGT601 - Principles & Practices of Emergency Management

**Additional Comments:**

## EMGT614 - Natural Hazards Primer

### Course Information

**Course Title**

Natural Hazards Primer

Subject code	Course Number	Academic Level
EMGT	614	Graduate

#### Course Description

Natural Science examination of natural or environmental hazards and their associated risks. The overview will include hazards such as hurricanes, tornadoes, earthquakes, tsunamis and floods. Offered in summer and winter.

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

EMGT601  
**Complete ALL of the following Courses:**

- EMGT601 - Principles & Practices of Emergency Management

**Additional Comments:**

## EMGT615 - Emergency Preparedness for Industry

### Course Information

**Course Title**

Emergency Preparedness for Industry

Subject code	Course Number	Academic Level
EMGT	615	Graduate

#### Course Description

An examination of industrial and societal risks associated with the manufacture, handling, storing and transporting of biological, chemical, nuclear and radiological materials. Offered in spring.

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

EMGT601  
**Complete ALL of the following Courses:**

- EMGT601 - Principles & Practices of Emergency Management

**Additional Comments:**

## EMGT616 - Terrorism,WMD,HomeInd Security

### Course Information

**Course Title**

Terrorism,WMD,HomeInd Security

Subject code	Course Number	Academic Level
EMGT	616	Graduate

#### Course Description

A sociological exploration of what terrorism is, why it occurs, prudent approaches to reducing the incidence of terrorism, and failed approaches; the origins and functions of homeland security; the necessity of maintaining an all-hazards approach; and issues surrounding the placement of FEMA within the Department of Homeland Security. WMD history; an overview of the basic known biological, chemical, radiological and nuclear materials likely to be used as weapons; approaches to inoculation and treatment before and after exposure. Offered in spring of odd years.

## Simple Requisites

### Course Prerequisites

#### Type

#### Prerequisite

EMGT601

#### Complete ALL of the following Courses:

- EMGT601 - Principles & Practices of Emergency Management

#### Additional Comments:

## EMGT617 - Crisis, Emergency and Risk Communication

### Course Information

#### Course Title

Crisis, Emergency and Risk Communication

Subject code	Course Number	Academic Level
EMGT	617	Graduate

#### Course Description

Draws on communication theory to examine common challenges and best practices encountered in emergency, crisis and risk communication situations by public information officers, public authorities, first responders, and health professionals. Provides the opportunity to develop strategies and communication solutions in interpersonal, social media, and public contexts. Prerequisites: EM 601 or permission of the instructor and MSEM director

## Simple Requisites

### Course Prerequisites

#### Type

#### Prerequisite

EMGT601

#### Complete ALL of the following Courses:

- EMGT601 - Principles & Practices of Emergency Management

#### Additional Comments:

## EMGT618 - Humanitrn Rspnse/Intl Disastrs

### Course Information

#### Course Title

Humanitrn Rspnse/Intl Disastrs

Subject code	Course Number	Academic Level
EMGT	618	Graduate

#### Course Description

International organizations and the challenges and experiences they commonly encounter in mitigating and responding to disaster events; considers if a global economy, global village will help or hinder future efforts. Offered in summer of odd years.

## Simple Requisites

### Course Prerequisites

#### Type

#### Prerequisite

EMGT601

#### Complete ALL of the following Courses:

- EMGT601 - Principles & Practices of Emergency Management

#### Additional Comments:

## EMGT619 - Emergency Management Planning

### Course Information

#### Course Title

Emergency Management Planning

Subject code	Course Number	Academic Level
EMGT	619	Graduate

#### Course Description

In-depth analysis of planning methodologies and constructs as well as pitfalls and limiting factors in the development and execution of emergency management plans at the strategic, operational and tactical levels. Origins of emergency management planning, applicable policies and legislation, historical incident review and analysis, contemporary and emerging planning doctrine, and advanced planning concepts.

In-depth investigation and development of one or more topics of current interest not addressed in current curriculum. Topics will vary according to the needs of students and the faculty involved. Offered periodically.

EMGT633 - GIS Applications for Emer Mgmt

Course Information

Course Title

GIS Applications for Emer Mgmt

Subject code	Course Number	Academic Level
EMGT	633	Graduate

Course Description

Introduction to Geographic Information Systems (GIS), with emphasis on their use in emergency management. Covers the different types of GIS data available, sources of data and software tools for querying and spatially analyzing data. Offered in fall of odd years.

EMGT634 - Comparative EMGT Systems

Course Information

Course Title

Comparative EMGT Systems

Subject code	Course Number	Academic Level
EMGT	634	Graduate

Course Description

Provides a comparative perspective to emergency management by examining different governmental frameworks for emergency/disaster management from around the globe. Students will gain insight, through a variety of case studies into the connections between a country's

political and legal culture, level of political-economic development and disaster vulnerability to the organization of its domestic emergency/disaster management system.

**Additional Comments:**

## ESCI101 - Earth Systems & Natural Hazards

### Course Information

**Course Title**

Earth Systems & Natural Hazards

Subject code	Course Number	Academic Level
ESCI	101	Undergraduate

#### Course Description

The scientific understanding of Earth systems as the causes of natural disasters, such as earthquakes, volcanoes, landslides, hurricanes, tornadoes, floods and tsunamis. 3 hrs. lec. Does not count toward Meteorology major.

#### General Education Labels

G2

## ESCI102 - Origin and Evoltn of the Earth

### Course Information

**Course Title**

Origin and Evoltn of the Earth

Subject code	Course Number	Academic Level
ESCI	102	Undergraduate

### Course Description

The origin and evolutionary development of the universe, solar system and planet Earth. Geophysical behavior of the solid earth, including volcanism, mountain building and other manifestations of the Earth's dynamic interior. Does not count toward Meteorology major.

#### General Education Labels

G2

## ESCI104 - The World Ocean

### Course Information

**Course Title**

The World Ocean

Subject code	Course Number	Academic Level
ESCI	104	Undergraduate

#### Course Description

A broad overview of the biological, chemical, geological and physical characteristics of the ocean, the importance of the oceans to mankind and the environment. Does not count toward Meteorology major.

#### General Education Labels

G2

## ESCI105 - World Ocean Laboratory

### Course Information

**Course Title**

World Ocean Laboratory

Subject code	Course Number	Academic Level
ESCI	105	Undergraduate

#### Course Description

Methods and techniques used in the marine sciences, including introduction to navigation, plotting and evaluation of data pertaining to salinity, temperature, dissolved oxygen, primary productivity and current velocity. 2 hrs. lab. Mandatory coreq: ESCI 104. ESCI 104/105 together constitute a single laboratory course in earth sciences for purposes of the general education curriculum. Does not count toward Meteorology major.

ESCI107 - The Atmosphere

Course Information

Course Title

The Atmosphere

Subject code	Course Number	Academic Level
ESCI	107	Undergraduate

Course Description

Origin and evolution of the atmosphere; solar and terrestrial radiation; horizontal and vertical structure of the atmosphere; temperature, pressure and water in the air; vertical motion; cloud formation and cloud type; circulation systems, severe weather, climate and climate change. Does not count toward Meteorology major. Credit may not be received for ESCI 107 if ESCI 109 is taken, these are equivalent courses and will be treated as repeated course credit.

General Education Labels  
G2

ESCI109 - Atmosphere with Lab

Course Information

Course Title

Atmosphere with Lab

Subject code	Course Number	Academic Level
ESCI	109	Undergraduate

Course Description

Origin and evolution of the atmosphere; solar and terrestrial radiation; horizontal and vertical structure of the atmosphere; temperature, pressure and water in the air; vertical motion; cloud formation and cloud type; circulation systems, severe weather, climate and climate change. Does not count toward Meteorology major. Credit may not be received for ESCI 109 if ESCI 107 is taken, these are equivalent courses and will be treated as repeated course credit.

General Education Labels  
G2, Lab (L)

ESCI120 - Environmental Geology

Course Information

Course Title

Environmental Geology

Subject code	Course Number	Academic Level
ESCI	120	Undergraduate

Course Description

Exploration of Earth systems and their relation to society, with focus on natural hazards and natural resources. Does not count toward Meteorology major.

General Education Labels  
G2

ESCI121 - Environmental Geology Lab

Course Information

Course Title

Environmental Geology Lab

Subject code	Course Number	Academic Level
ESCI	121	Undergraduate

Course Description

Laboratory exploration of Earth system impacts on society, human influences on Earth. Mandatory coreq. ESCI 120. ESCI 120/121 taken concurrently constitute a single laboratory course in earth science for purpose of the general education curriculum. Does not count toward Meteorology major.

General Education Labels

ESCI202 - The Earth in Space

Course Information

Course Title  
The Earth in Space

Subject code	Course Number	Academic Level
ESCI	202	Undergraduate

Course Description  
A scientific experience directed toward an understanding of the dynamic earth, its origin and evolution and its place in the universe. Physical concepts from classical and modern physics, astronomy, cosmology, and the earth and atmospheric sciences, couched in the language of algebra and supported by observation, experiment and theory. Prereq: MATH 101 with C- or higher or MPT 151 with C- or higher, or MATH 151 or MATH 161 or MATH 163 or MATH 204 (151, 161, 163, 204, grade of C- or higher) or permission of instructor.

General Education Labels  
G2

Simple Requisites

Course Prerequisites

Type  
Prerequisite

MATH 101 or MATH 151 or MATH 161 or MATH 161H or MATH 163H or MATH 204

Earn a minimum grade of C- in the following:

- MATH101 - College Algebra  
OR MATH151 - Calculus for Management  
OR MATH161 - Calculus 1  
OR MATH161H - Hon: Calculus 1  
OR MATH163H - Honors Calculus 1  
OR MATH204 - Algebraic Foundations for Mid-Level Teacher

Or MPT 151 with a C- or higher or must have permission

of instructor.

Additional Comments:

ESCI221 - Physical Geology

Course Information

Course Title  
Physical Geology

Subject code	Course Number	Academic Level
ESCI	221	Undergraduate

Course Description  
The nature and distribution of materials of the solid Earth - the dynamic processes by which they are formed and modified and the character of resulting geologic structures. 3 hrs. lec., 2 hrs. lab. Offered in fall, spring.

General Education Labels  
G2, Lab (L)

ESCI266 - Environmental Oceanography

Course Information

Course Title

Environmental Oceanography

Subject code	Course Number	Academic Level
ESCI	266	Undergraduate

Course Description

A comprehensive examination of some of the pressing ocean-related environmental issues of the 21st century using critical thinking and quantitative approaches. Emphasis on how

human activities are changing ocean ecosystems and environments, and how sound scientific reasoning can reveal true cause-and-effect relationships that then may lead to viable solutions. Includes occasional field work demonstrating modern techniques of water quality analysis, and case studies of real-world marine environmental problems. 2 hrs. lec., 2 hrs lab. Prereq: ESCI 261 or permission of the instructor.

#### General Education Labels

G2, Lab (L)

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

ESCI 261

###### Complete ALL of the following Courses:

- ESCI241 - Meteorology
- ESCI261 - Introduction to Oceanography

##### Additional Comments:

## ESCI282 - FORTRAN Programming for Earth Sciences Applications

### Course Information

#### Course Title

FORTRAN Programming for Earth Sciences Applications

Subject code	Course Number	Academic Level
ESCI	282	Undergraduate

#### Course Description

Programming in computational methods emphasizing FORTRAN applied to the earth sciences; numerical solution of equations of motion; statistical properties of digital images; analysis of periodical phenomena; use of National Center for Atmospheric Research graphics library. 2 hrs. lec., 2 hrs. lab. Offered in fall. Prereq: MATH 211 and PHYS 231.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

MATH 211 and PHYS 231

##### Complete ALL of the following Courses:

- MATH211 - Calculus 2
- PHYS231 - Physics 1 with Calculus

Additional Comments:

#### Course Description

Recognition, interpretation and illustration of geological structures; kinematic and dynamic analysis of rock deformation; stress, strain and deformation mechanisms. 3 hrs. lec., 3 hrs. lab., field trips required. Prereq: C- or higher in ESCI 221 and completion of MATH 160.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

ESCI 221 or ESCI 221H

##### Complete ALL of the following Courses:

- MATH160 - Precalculus

Additional Comments:

## ESCI322 - Environmental Hydrology

### Course Information

#### Course Title

Environmental Hydrology

Subject code	Course Number	Academic Level
ESCI	322	Undergraduate

#### Course Description

Theory and practice of quantifying hydrologic phenomena; field methods, data manipulation and environmental applications. 2 hrs. lec., 2 hrs. lab. Offered spring. Prereq: minimum of 45 credits, C- or higher in MATH 101 and any 200-level science course that counts towards a science degree, or permission of instructor.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

MATH 101

##### Earn a minimum grade of C- in the following:

- MATH101 - College Algebra

## ESCI300 - Co-Op Ed Experience in ESCI

### Course Information

#### Course Title

Co-Op Ed Experience in ESCI

Subject code	Course Number	Academic Level
ESCI	300	Undergraduate

#### Course Description

Co-Op Ed Experience in ESCI

## ESCI321 - Structural Geology

### Course Information

#### Course Title

Structural Geology

Subject code	Course Number	Academic Level
ESCI	321	Undergraduate

Credit Hours Completion

**Earn at least 45 credits**

200-Level Science Course or Instructor Permission

**Must complete a 200-level science course that counts towards a science degree or have permission of instructor.**

**Additional Comments:**

## ESCI326 - Sedimentation and Stratigraphy

### Course Information

Course Title

Sedimentation and Stratigraphy

Subject code	Course Number	Academic Level
ESCI	326	Undergraduate

#### Course Description

The origin and composition of sediments and sedimentary rocks, study of the processes involved in the sedimentary cycle, environments of deposition, and the interpretation of ancient environments from sedimentary rocks. 3 hrs. lec., 3 hrs. lab, field trips required. Prereq: ESCI 221 and ENGL 110

#### General Education Labels

Writing (W)

#### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

ESCI 221 or ESCI 221H and ENGL 110 or ENGL 110H

#### Complete ALL of the following Courses:

- ESCI221 - Physical Geology  
OR ESCI221H - Hnrs:Physical Geology
- ENGL110 - Introduction to College Writing  
OR ENGL110H - Hnrs:Introduction to College Writing

**Additional Comments:**

## ESCI327 - Earth Materials

### Course Information

Course Title

Earth Materials

Subject code	Course Number	Academic Level
ESCI	327	Undergraduate

#### Course Description

Identification, crystal chemistry, crystallography and occurrence of common minerals; optical theory and interaction of light with crystals; mineral and rock identification through use of transmitted polarized light; identification, formation, and occurrence of common rocks. 3 hrs. lec., 3 hrs. lab. Offered fall of odd years. Prereq: C- or higher in 221.

#### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

ESCI221 or ESCI221H

#### Earn a minimum grade of C- in the following:

- ESCI221 - Physical Geology  
OR ESCI221H - Hnrs:Physical Geology

**Additional Comments:**

## ESCI329 - Aqueous Geochemistry

### Course Information

Course Title

Aqueous Geochemistry

Subject code	Course Number	Academic Level
ESCI	329	Undergraduate

#### Course Description

Inorganic chemistry of surface waters; equilibrium thermodynamics, solubility and stability relationships of silicates and calcium carbonates; kinetics, acid-base reactions, redox equilibria; contaminants transport in natural waters; surficial materials weathering. 3 hrs. lec. Offered spring of odd years. Prereq: ESCI 221, CHEM 112; ENGL 110.

#### General Education Labels

Writing (W)

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

ESCI 221 or ESCI 221H and CHEM 112 or CHEM 112H and ENGL 110 and ENGL 110H

**Complete ANY of the following Courses:**

- ESCI221 - Physical Geology  
OR ESCI221H - Hnrs:Physical Geology
- CHEM112 - Introductory Chemistry 2  
OR CHEM112H - Hnrs:Introductory Chemistry 2
- ENGL110 - Introduction to College Writing  
OR ENGL110H - Hnrs:Introduction to College Writing

**Additional Comments:**

ESCI340 - Cloud Physics & Precip Process

Course Information

Course Title  
Cloud Physics & Precip Process

Subject code	Course Number	Academic Level
ESCI	340	Undergraduate

**Course Description**  
Cloud types and physical characteristics; cloud formation processes; precipitation types and formation processes; vertical stability and its relation to types of cloud and precipitation formation; lightning and other forms of atmospheric electricity; atmospheric optical phenomena such as rainbows, halos, mirages, etc. 3 hrs. lec. Prereq: C- or higher in ESCI 241, or PHYS 231. Coreq or Prereq: MATH 211.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

ESCI 241 or PHYS 231

**Earn a minimum grade of C- in the following:**

- ESCI241 - Meteorology  
OR PHYS231 - Physics 1 with Calculus

**Additional Comments:**

**Course Prerequisites or Corequisites**  
**Type**  
Prerequisite

MATH 211

**Complete ALL of the following Courses:**

- MATH211 - Calculus 2

**Additional Comments:**

ESCI340H - H:Cloud Physics & Precip Process

Course Information

Course Title  
H:Cloud Physics & Precip Process

Subject code	Course Number	Academic Level
ESCI	340H	Undergraduate

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

ESCI 241 or PHYS 231

**Earn a minimum grade of C- in the following:**

- ESCI241 - Meteorology  
OR PHYS231 - Physics 1 with Calculus

**Additional Comments:**

**Course Prerequisites or Corequisites**  
**Type**  
Prerequisite

MATH 211

**Complete ALL of the following Courses:**

- MATH211 - Calculus 2

**Additional Comments:**

ESCI341 - Atmospheric Thermodynamics

Course Information

Course Title  
Atmospheric Thermodynamics

Subject code	Course Number	Academic Level
ESCI	341	Undergraduate

### Course Description

First and second principles of thermodynamics, water-air systems, equilibrium of small droplets and crystals, thermodynamic processes in the atmosphere, atmospheric statics, vertical stability and aerological diagrams. 3 hrs. lec. Prereq: C- or higher in ESCI 241. Coreq or Prereq: MATH 311.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ESCI 241

**Earn a minimum grade of C- in the following:**

- ESCI241 - Meteorology

**Additional Comments:**

#### Course Prerequisite or Corequisite

##### Type

Prerequisite

MATH 311

**Complete ALL of the following Courses:**

- MATH311 - Calculus 3

**Additional Comments:**

## ESCI342 - Atmospheric Dynamics 1

### Course Information

#### Course Title

Atmospheric Dynamics 1

Subject code	Course Number	Academic Level
ESCI	342	Undergraduate

### Course Description

Centered difference approximations, total derivative, and basic kinematics; fundamental and apparent forces; mass and momentum conservation; equations of motion and their applications; circulation, vorticity, and divergence. Prereq: C- or higher in ESCI 241 and PHYS 231. Coreq or Prereq: MATH 311.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ESCI 241 and PHYS 231

**Earn a minimum grade of C- in the following:**

- ESCI241 - Meteorology
- PHYS231 - Physics 1 with Calculus

**Additional Comments:**

#### Course Prerequisites or Corequisites

##### Type

Prerequisite

MATH 311

**Complete ALL of the following Courses:**

- MATH311 - Calculus 3

**Additional Comments:**

## ESCI343 - Atmospheric Dynamics 2

### Course Information

#### Course Title

Atmospheric Dynamics 2

Subject code	Course Number	Academic Level
ESCI	343	Undergraduate

### Course Description

Ageostrophic wind; quasi-geostrophic theory; theory and properties of atmospheric waves, including gravity waves, sound waves, internal waves, inertial-gravity waves; geostrophic adjustment; atmospheric instabilities, including inertial/slantwise instability, barotropic and baroclinic instability. 3 hrs. lec. Offered in spring. Prereq: ESCI 342.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ESCI 342

**Complete ALL of the following Courses:**

- ESCI342 - Atmospheric Dynamics 1

Additional Comments:

ESCI344 - Tropical Meteorology

Course Information

Course Title

Tropical Meteorology

Subject code	Course Number	Academic Level
ESCI	344	Undergraduate

Course Description

General circulation of the tropics; energy balance; boundary layer; cumulus convection; survey of tropical disturbances including tropical cyclones. 3 hrs. lec. Prereq: C- or higher in ESCI 341, 342.

Simple Requisites

Course Prerequisites

Type

Prerequisite

ESCI 341 and ESCI 342

Earn a minimum grade of C- in the following:

- ESCI341 - Atmospheric Thermodynamics
- ESCI342 - Atmospheric Dynamics 1

Additional Comments:

ESCI344H - H:Tropical Meteorology

Course Information

Course Title

H:Tropical Meteorology

Subject code	Course Number	Academic Level
ESCI	344H	Undergraduate

Course Description

H:Tropical Meteorology

Simple Requisites

Course Prerequisites

Type

Prerequisite

ESCI 341 and ESCI 342

Earn a minimum grade of C- in the following:

- ESCI341 - Atmospheric Thermodynamics
- ESCI342 - Atmospheric Dynamics 1

Additional Comments:

ESCI345 - Atmospheric Radiative Transfer

Course Information

Course Title

Atmospheric Radiative Transfer

Subject code	Course Number	Academic Level
ESCI	345	Undergraduate

Course Description

Quantitative description and analysis of atmospheric radiation and its interaction with atmospheric constituents (gases, aerosol, and clouds) and the land and ocean surfaces. Topics include properties of radiation, the electromagnetic spectrum, reflection and refraction, radiative properties of natural surfaces, thermal emission, atmospheric transmission, atmospheric emission (the Schwarzschild Equation) and absorption, scattering and absorption by molecules and particles, radiative transfer with multiple scattering, numerical modeling of atmospheric radiation, relevance for climate and weather. Prereq: C- or higher in ESCI 241, or PHYS 231. Coreq or Prereq: MATH 311.

Simple Requisites

Course Prerequisites

Type

Prerequisite

ESCI 241 or PHYS 231

Earn a minimum grade of C- in the following:

- ESCI241 - Meteorology
- OR PHYS231 - Physics 1 with Calculus

Additional Comments:

Course Prerequisites or Corequisites

Type

Prerequisite

MATH 311

Complete ALL of the following Courses:

- MATH311 - Calculus 3

**Additional Comments:**

## ESCI347 - Satellite Meteorology

### Course Information

Course Title

Satellite Meteorology

Subject code	Course Number	Academic Level
ESCI	347	Undergraduate

#### Course Description

Orbital and radiative transfer physics applied to satellite meteorology systems. Contemporary applications of satellite remote sensing of the atmosphere, including the retrieval of cloud microphysics and precipitation, the generation of atmospheric vertical profiles of temperature and moisture, the retrieval of wind, and image interpretation in the context of weather forecasting. 3 hrs. lec. Offered in fall of even years. Prereq: ESCI 241; MATH 161 or MATH 163.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ESCI 241 and MATH 161 or MATH 161H or MATH 163H

#### Complete ALL of the following Courses:

- ESCI241 - Meteorology
- MATH161 - Calculus 1  
AND MATH161H - Hon: Calculus 1  
AND MATH163H - Honors Calculus 1

**Additional Comments:**

## ESCI347H - H:Satellite Meteorology

### Course Information

Course Title

H:Satellite Meteorology

Subject code	Course Number	Academic Level
ESCI	347H	Undergraduate

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ESCI 241 and MATH 161 or MATH 161H or MATH 163H

#### Complete ALL of the following Courses:

- ESCI241 - Meteorology
- MATH161 - Calculus 1  
AND MATH161H - Hon: Calculus 1  
AND MATH163H - Honors Calculus 1

**Additional Comments:**

## ESCI348 - Broadcast Meteorology

### Course Information

Course Title

Broadcast Meteorology

Subject code	Course Number	Academic Level
ESCI	348	Undergraduate

#### Course Description

Preparation and presentation of weather information to the public; graphics preparation, television and radio weathercasting; video production. 1 hr. lec. 2 hrs. studio. Offered in spring. Prereq: C- or higher in ESCI 241 or COMM 320.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ESCI 241 or COMM 320 or COMM 320H

#### Earn a minimum grade of C- in the following:

- ESCI241 - Meteorology  
OR COMM320 - Radio Production  
OR COMM320H - H:Radio Production

**Additional Comments:**

## ESCI349 - Chemistry of the Atmosphere

### Course Information

Course Title

Chemistry of the Atmosphere

Subject code	Course Number	Academic Level
ESCI	349	Undergraduate

### Course Description

Theory, application, methods of analysis and instrumentation relevant to a study of the chemistry of the atmosphere. 3 hrs. of integrated lecture/lab/ working group activities. May be used as an elective in meteorology and environmental chemistry if not counted as "P" course. Prereq: Minimum of 36 credit hours, COMM 100, ENGL 110; junior status; CHEM 104 or CHEM 111; and PHYS 132 or PHYS 232.

### General Education Labels

Perspectives (P)

### Simple Requisites

## ESCI350 - History of Meteorology

### Course Information

#### Course Title

History of Meteorology

Subject code	Course Number	Academic Level
ESCI	350	Undergraduate

### Course Description

Overall intellectual and institutional development of meteorology from Aristotle to present, with emphasis on the 20th century. Historical overviews of dynamic meteorology and numerical weather prediction, observational tools (the history of radar and satellites) and computational devices, cloud microphysics and dynamics, hurricanes, convective storms and climatology. Spotlights key scientists and their role in the advancement of atmospheric sciences. 3 hrs. lec. Prereq: ESCI 107, 109, or ESCI 241; and HIST 101 or 102 or 106, or 340; COMM 100, ENGL 110 and junior status.

### General Education Labels

Diversity (D), Perspectives (P)

ESCI362 - Marine Geology

Course Information

Course Title		
Marine Geology		
Subject code	Course Number	Academic Level
ESCI	362	Undergraduate
Course Description		
Sedimentary and tectonic characteristics of the continental margins and deep ocean basins; principles and processes of sediment transport and deposition in the marine environment; applications of geophysical methods at sea; marine mineral resources. 3 hrs. lec. Offered only in summers of even years at the Chincoteague Bay Field Station. Prereq: C- or higher in ESCI 261 or 221.		
Simple Requisites		

Course Prerequisites

Type

Prerequisite

654 / 1368

ESCI 261 or ESCI 221 or ESCI 221H

**Earn a minimum grade of C- in the following:**

- ESCI261 - Introduction to Oceanography  
OR ESCI221 - Physical Geology  
OR ESCI221H - Hnrs:Physical Geology

**Additional Comments:**

## ESCI363 - Chemical Oceanography

### Course Information

Course Title

Chemical Oceanography

Subject code	Course Number	Academic Level
ESCI	363	Undergraduate

### Course Description

Oceanic chemical phenomena, including structure of water, salinity, sources and sinks of chemical constituents; chemical interactions at interfaces between hydrosphere and atmosphere, lithosphere and biosphere; biogeochemical cycles of nutrients; the carbon-dioxide-carbonate system; origin and history of seawater; anthropogenic effects. Prereq: C- or higher in ESCI 261 and CHEM 111.

### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

ESCI 261 and CHEM 111

**Earn a minimum grade of C- in the following:**

- ESCI261 - Introduction to Oceanography
- CHEM111 - Introductory Chemistry 1

**Additional Comments:**

## ESCI366 - Marine Resources and Policy

### Course Information

Course Title

Marine Resources and Policy

Subject code	Course Number	Academic Level
ESCI	366	Undergraduate

### Course Description

This course will give the student a broad background in Marine Resources including biological, transportation, oil and gas, methane hydrates, minerals and freshwater, recreation, endangered species, energy and waste disposal. The course will also give an overview on National and International Law Applied to the marine environment. Topics on Marine policies including marine environmental policy, International fisheries policy, Marine transportation and safety policy, etc. will be discussed and related to geographical, socio-economic and political issues affecting Marine Resources, Sustainability and Marine Conservation. News clips, articles in journals, case studies of issues relevant to the topics above will be discussed in an open, free and debate like atmosphere that is designed to develop students critical thinking skills in a deliberate and structured way. Prereq: COMM 100 or 100H, ENGL 110 or 110H, junior standing and any 200-level course in ESCI, BIOL or GEOG.

### General Education Labels

Diversity (D), Perspectives (P)

### Simple Requisites

#### Course Prerequisites

Type

Prerequisite

COMM 100 or COMM 100H and ENGL 110 or ENGL 110H and any 200-level course in ESCI, BIOL or GEOG

**Complete ALL of the following Course Sets:**

- ENGL 110 and COMM 100
- Any 2-level ESCI course(s)  
OR Any 2-level BIOL course(s)  
OR Any 2-level GEOG course(s)

Credit Hours Completion (Junior or Senior Class Standing)

**Earn at least 60 credits**

**Additional Comments:**

Credit Hours Completion (Junior or Senior Class Standing)

Earn at least 60 credits

##### Additional Comments:

## ESCI369 - Physical Oceanography and Climate

### Course Information

#### Course Title

Physical Oceanography and Climate

Subject code	Course Number	Academic Level
ESCI	369	Undergraduate

#### Course Description

Physical properties of seawater; mass and energy budgets of the ocean; typical distribution of water characteristics, global balances; the conservation equations; equations of motion; fluid motion in rotating systems. Conservation of vorticity; wind and thermohaline circulation; currents and eddies; wind-generated waves; tides and other waves; Exchange of buoyancy and heat fluxes in the atmosphere-ocean boundary layer; Climate Change and the Ocean. A required course for Ocean Sciences and Coastal Studies majors and elective for other earth sciences programs. Combination of lecture and laboratory exercises. 2 hrs. lec., 2 hrs. lab. Offered in fall of odd years. Prereq: ESCI 261 or ESCI 241; MATH 161, PHYS 131 or PHYS 231, or permission of Instructor. 3.000 Credit hours 2.000 Lecture hours 2.000 Lab hours.

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

ESCI 261 or ESCI 241 and MATH 161 or MATH 161H

###### Complete ALL of the following Courses:

- ESCI261 - Introduction to Oceanography  
OR ESCI241 - Meteorology
- MATH161 - Calculus 1  
OR MATH161H - Hon: Calculus 1

PHYS131 or PHYS231 or PHYS132 or PHYS232

###### Complete ANY of the following Courses:

- PHYS131 - Physics 1 with Algebra
- PHYS231 - Physics 1 with Calculus
- PHYS132 - Physics 2 with Algebra

Or must have permission of instructor.

ESCI 282 or CSCI 161 and MATH 211 and PHYS 231

#### Complete ALL of the following Courses:

- ESCI282 - FORTRAN Programming for Earth Sciences Applications
- OR CSCI161 - Introduction to Programming 1
- MATH211 - Calculus 2
- PHYS231 - Physics 1 with Calculus

**Additional Comments:**

## ESCI390 - Topics in the Earth Sciences

### Course Information

#### Course Title

Topics in the Earth Sciences

Subject code	Course Number	Academic Level
ESCI	390	Undergraduate

#### Course Description

Detailed investigation of a topic of current research interest. Topic to be announced each time course is offered. Credit and meeting hours variable, depending on topic offered. Offered infrequently. Prereq: completion of 60 credits.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

Credit Hours Completion (Junior or Senior Class Standing)

**Earn at least 60 credits**

**Additional Comments:**

## ESCI390H - Hon: Topics in the Earth Sciences

## ESCI422 - Geological Field Mapping

### Course Information

#### Course Title

Geological Field Mapping

Subject code	Course Number	Academic Level
ESCI	422	Undergraduate

#### Course Description

Examination and interpretation of geologic materials and structures in the field. Students prepare a geologic map, stratigraphic column and structural cross-sections of an assigned field area. Prereq: C- or higher in ESCI 321.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ESCI 321

**Earn a minimum grade of C- in the following:**

- ESCI321 - Structural Geology

Additional Comments:

ESCI423 - Applied Geophysics

Course Information

Course Title

Applied Geophysics

Subject code	Course Number	Academic Level
ESCI	423	Undergraduate

Course Description

Geophysical methods applied to environmental assessment, resource exploration and civil engineering issues. Topics covered include seismic refraction and reflection, ground-penetrating radar, electrical resistivity, gravity, and geomagnetism. 2 hrs. lec., 2 hrs. lab. Offered fall of even years. Prereq: minimum of 60 credits, C- or higher in MATH 101 and any 200-level science course that counts towards a science degree, or permission of instructor.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

(PHYS 232 or PHYS 232H) or (PHYS 132 and MATH 161)

**Complete ANY of the following Courses:**

- PHYS232 - Physics 2 with Calculus  
OR PHYS232H - Hon: Physics 2 with Calculus
- PHYS132 - Physics 2 with Algebra  
AND MATH161 - Calculus 1

ESCI 221 or ESCI 221H

**Complete ANY of the following Courses:**

- ESCI221 - Physical Geology
- ESCI221H - Hnrs:Physical Geology

Credit Hours Completion (Junior or Senior Class Standing)

**Earn at least 60 credits**

MATH 101

**Earn a minimum grade of C- in the following:**

- MATH101 - College Algebra

Additional Comments:

**Course Prerequisites**

Type

Prerequisite

200-Level Science Course or Instructor Permission

**Completed any 200-level science course that counts towards a science degree or must have permission of instructor.**

Additional Comments:

ESCI426 - Groundwater Resources and Contamination

Course Information

Course Title

Groundwater Resources and Contamination

Subject code	Course Number	Academic Level
ESCI	426	Undergraduate

Course Description

Occurrence and behavior of groundwater; groundwater contamination and remediation; groundwater resource assessment, including aquifer test design and analysis; introduction to groundwater modeling. 2 hrs. lec., 2 hrs. lab. Prereq: minimum of 60 credits, C- or higher in MATH 101 and any 200-level science course that counts towards a science degree, or permission of instructor.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 101

**Earn a minimum grade of C- in the following:**

# ESCI442 - Adv Wthr Anlys/Forecstng Pract

## Course Information

Course Title

Adv Wthr Anlys/Forecstng Pract

Subject code	Course Number	Academic Level
ESCI	442	Undergraduate

### Course Description

Advanced synoptic and mesoscale weather analysis and forecasting skills. Students perform weather analysis exercises designed to complement the forecast process. Students prepare probabilistic meteorological forecasts and lead post-forecast discussions focused on lessons learned. 1 hr. lec., 2 hrs. lab. Offered in spring. Prereq: C- or higher in ESCI 441 and one semester of Campus Weather Service or by permission of instructor. Coreq: ESCI 444.

### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

ESCI 441

**Earn a minimum grade of C- in the following:**

- ESCI441 - Synoptic Meteorology Lecture-Laboratory

One Semester of Campus Weather Service or Instructor Permission

Must have one semester of Campus Weather Service or permission of instructor.

## ESCI446 - Stats & Decision Making in Earth Science

### Course Information

#### Course Title

Stats & Decision Making in Earth Science

Subject code	Course Number	Academic Level
ESCI	446	Undergraduate

### Course Description

Descriptive and inference statistics, uncertainty, review of probability, empirical distributions, exploratory data analysis, parametric probability distributions, frequency and Bayesian inference, statistical forecasting and forecast verification, statistics in decision making, time series, multivariate

statistics and normal distribution (MVN), principal component analysis (EOF), canonical correlation analysis (CCA), discriminant analysis, cluster analysis, thriving on the edge of chaos, effective complexity. Pre-req: C- or higher in MATH 211

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

MATH 211

#### Earn a minimum grade of C- in the following:

- MATH211 - Calculus 2

#### Additional Comments:

## ESCI447 - Meteorological Instrumentation

### Course Information

#### Course Title

Meteorological Instrumentation

Subject code	Course Number	Academic Level
ESCI	447	Undergraduate

### Course Description

Devices and platforms used to gather meteorological data; methods of data acquisition, reduction, error analysis and quality assurance; description of instrumentation, measurement techniques, observing systems and their deployment. 2 hrs. lec., 2 hrs. lab. Offered in fall of odd years. Prereq: ENGL 110, PHYS 232 and MATH 235.

### General Education Labels

## ESCI464 - Ocean Ecosystems

### Course Information

Course Title

Ocean Ecosystems

Subject code	Course Number	Academic Level
ESCI	464	Undergraduate

#### Course Description

Advanced ocean sciences course investigating the physical, chemical and biological characteristics of the major pelagic ocean biomes from the polar through equatorial regions of the world ocean. Emphasis will be on the important marine plankton functional groups and how their abundances and rates of production are controlled by the circulation patterns

of the ocean, ocean turbulence, food web structure, density stratification, the supply of nutrients and the availability of sunlight, and water transparency. 3 hrs. lec. Prereq: ESCI 363 and ESCI 369 or permission of instructor.

#### General Education Labels

Writing (W)

#### Simple Requisites

##### Course Prerequisites

Type

Prerequisite

ESCI 363

**Complete ALL of the following Courses:**

- ESCI363 - Chemical Oceanography

ESCI 369

**Complete ALL of the following Courses:**

- ESCI369 - Physical Oceanography and Climate

Or must have permission of instructor.

Additional Comments:

## ESCI465 - Biological Oceanography

### Course Information

Course Title

Biological Oceanography

Subject code	Course Number	Academic Level
ESCI	465	Undergraduate

#### Course Description

Intensive summer lecture and field course teaching the physical, chemical and biological factors controlling the structure and dynamics of marine ecosystems. Classroom instruction focuses on theoretical principles concerning the environmental control of phytoplankton communities by sunlight, nutrients and grazing. The dynamics and complexity of marine food webs including the phytoplankton, zooplankton and upper trophic levels. Laboratory and field instruction focuses on ocean monitoring and sampling from research vessels, biomass determination and identification of key plankton species, measurement of the rates of net and gross primary production using oxygen light-dark bottle experiments, and optical and chemical techniques of determining phytoplankton biomass and species composition.

Approximately 40-50% of course time is spent in field.  
Prerequisites: C- or higher in ESCI 261 and completion of BIOL (211 or 221), or permission of instructor.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

ESCI261

**Earn a minimum grade of C- in the following:**

- ESCI261 - Introduction to Oceanography

BIOL 211 or BIOL 221

**Complete ANY of the following Courses:**

- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany

Or must have permission of instructor.

**Additional Comments:**

ESCI468 - Ocean Data Analysis and Presentation

Course Information

Course Title  
Ocean Data Analysis and Presentation

Subject code	Course Number	Academic Level
ESCI	468	Undergraduate

Course Description

Advanced ocean sciences course covering the theory behind the most commonly used techniques of ocean sampling and the analysis and presentation of oceanographic data. In this course we will cover the meaning of data and the common types of oceanographic data, methods of ocean data collection, the meaning and importance of metadata, databases in ocean science community, the idea of geospatial data and the importance of frame of reference and time and space scales of interest, the variety of ways to analyze and present oceanographic data, and how to present data to maximize its informational content. 2 hrs. lec., 2 hrs. lab.  
Prereq: ESCI 261 or permission of instructor.

Simple Requisites

**Course Prerequisites**  
**Type**

Prerequisite

ESCI 261

**Complete ALL of the following Courses:**

- ESCI261 - Introduction to Oceanography

Or must have permission of instructor.

## ISCA591 - Introduction to Geospatial Information and Technologies

### Course Information

#### Course Title

Introduction to Geospatial Information and Technologies

Subject code	Course Number	Academic Level
ISCA	591	Graduate

#### Course Description

Explores the core concepts of geographic information and the tools and technologies employed to access, manipulate, analyze, and display geographic information. Topics include geographic information systems, remote sensing, global positional systems, cartography, spatial science ethics, and crowdsourcing of geographic information.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

MS ISA Graduate Students or Instructor Permission

For MS ISA graduate students only or permission of instructor.

Additional Comments:

#### Course Description

Phenomenological approach to understanding the origins of space weather and the space environment from the Sun to the Earth's surface including a detailed treatment of coronal holes, coronal mass ejections, sunspots, solar flares, solar energetic particle events, solar radio bursts, solar structure including its magnetic dynamo, solar wind, terrestrial magnetic field, geomagnetic storms. Prerequisite: admission to the program or permission of the program coordinator. 3 hrs. Fully online, distance-learning format. Offered annually.

#### Simple Requisites

##### Degree/Major/Field of Study Restrictions

##### Type

Prerequisite

Program Admission or Program Coordinator Permission

Must be admitted to the program or have permission of the program coordinator.

Additional Comments:

## SWEN572 - Impacts of Space Weather on the Technological World

### Course Information

#### Course Title

Impacts of Space Weather on the Technological World

Subject code	Course Number	Academic Level
SWEN	572	Graduate

#### Course Description

Systems approach to understanding how space weather impacts the near-earth space environment, our magnetosphere, upper atmosphere, and the myriad of ways it couples into the Earth system. Identification and impact of solar radio bursts, geomagnetic storms, geomagnetically induced currents (GI Cs), aurora, and radiation storms on our technological infrastructure. The course will address the varying severity of impacts from mild inconveniences to the possibility of a Carrington-class event that could cause a massive geomagnetic storm that could destroy national power grids world-wide and cause irreparable damage to the global economy. 3 hrs. Prerequisite: SWEN 571 or permission of program coordinator. Fully online, distance-learning format. Offered annually.

## SWEN674 - Space Weather Broadcast and Communications

### Course Information

**Course Title**

Space Weather Broadcast and Communications

Subject code	Course Number	Academic Level
SWEN	674	Graduate

**Course Description**

Examines existing space weather data, images and products. These products will be important in learning how to create a space weather broadcast. Video projects pertaining to specific space weather events such as solar flares, geomagnetic storming, radiation storms, etc. will be important to demonstrate knowledge of which products to use for communicating a forecast. How to utilize resources, integrated space weather analysis system, solar dynamics observatory and others, will be stressed. Prerequisite: SWEN 572 or permission of the program coordinator. 3 c.h. Offered annually. Fully online, distance-learning format.

**Simple Requisites**

**Course Prerequisites**

**Type**

## Economics Department

The flexible nature of Economics, and the fact that it overlaps with diverse areas such as Business, Law, Politics, Health Care, and the Environment, makes Economics a dynamic and marketable area of study. Today's educators, government officials, and business leaders are aware of the crucial role economics plays in building of a more productive and equitable world. Economists are at the

center of power all over the world. Within the last few decades, the economist has become a central figure helping corporations reach their goals. The economist can be found advising governments on urban problems, unemployment, inflation, and financial markets.

Millersville economics students receive personalized instruction in the classroom, individualized counsel outside of class, opportunities for hands-on experience, and counsel in career pursuits.

<b>Baker, Ronald;</b> Associate Professor College of Arts, Humanities and Social Sciences B.S., St. Vincent College, 1998; M.A., Indiana University, 2000; Ph.D., Ibid., 2005
<b>Madden, Kirsten;</b> Associate Professor College of Arts, Humanities and Social Sciences B.A. University of Alabama at Tuscaloosa, 1986; Ph.D., University of North Carolina- Chapel Hill, 1995
<b>McPherson, Sandra;</b> Associate Professor College of Arts, Humanities and Social Sciences B.A., Bemidji State University, 1991; M.A., Indiana University, 1993; Ph.D., Ibid., 1998
<b>Smith, Kenneth;</b> Associate Professor College of Arts, Humanities and Social Sciences B.S., University of Minnesota, 1986; M.S., University of Wisconsin-Madison, 1989; Ph.D., Ibid., 1993
<b>Suliman, Osman;</b> Professor College of Arts, Humanities and Social Sciences B.S., University of Khartoum (Sudan), 1977; M.A., Indiana University, 1979; Ph.D., Ibid., 1984

## Programs

### Economics Minor

#### Overview

The 18-credit Economics Minor provides training in core economics principles and theory and depth in applied economic analysis. The Economics Minor provides an excellent complementary program to a wide variety of majors including those in Business, Mathematics, and Government.

#### Curriculum

##### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.

5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

#### Minor in Economics (18 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### Required Courses (6 credits)

##### Complete ALL of the following Courses:

- ECON101 - Principles of Macroeconomics  
OR ECON101H - Hnrs:Principles of Macroeconomics
- ECON102 - Principles of Microeconomics  
OR ECON102H - Hnrs:Principles of Microeconomics

— AND —

Intermediate Microeconomics or Intermediate Macroeconomics (3 credits)

**Complete at least 1 of the following courses:**

- ECON318 - Intermediate Microeconomics  
OR ECON318H - H:Intermediate Microeconomics
- ECON319 - Intermediate Macroeconomics

— AND —

300/400 Level Economics Electives (6 credits)

**Earn at least 6 credits from the following:**

- Any 3-level ECON course(s)
- Any 4-level ECON course(s)

May also take BUAD310 Economics of Justice

— AND —

Economics Electives (3 credits)

**Earn at least 3 credits from the following:**

- Any ECON course(s)

Choose economics electives in consultation with your advisor. 2 of your electives must be at the 300-level or above.

**Additional Comments:**

## Economics, B.A.

### Overview

The Economics Department expects all students graduating with an Economics degree to have a sound understanding of economic principles and theory and demonstrate the ability to apply principles and theory to issues of everyday life and analysis of important policy issues. The Economics B.A. Program provides training in economic principles and theory, quantitative analysis, and research and presentation skills. The Economics curriculum emphasizes critical-thinking and problem-solving skills appropriate to a variety of careers.

The United States Bureau of Labor Statistics estimates that employment for Economists will grow six percent over the

next decade – somewhat faster than overall national employment. According to the National Association of Colleges and Employers, starting salaries for Economists with bachelor's degrees are the highest among social science and humanities graduate.

**Additional Comments:**

## Social Studies, B.S.Ed. - Economics Advised

### Overview

The Social Studies Secondary Education program at Millersville University incorporates core social studies courses with diverse education requirements. Core social studies courses explore the global environment, economics, government, history and more. In consultation with an academic adviser, you can concentrate in economics. All MU education programs include a Foundations Block which explores modern teaching and the psychology of teaching, Professional Blocks which focus on instructional technology and positive learning environments, and a semester of student teaching.

AND

#### Mathematics

Two Mathematics courses are required for BSE students. It is preferable to take two courses designated as G2. [Search for MATH courses on the current web schedule.](#)

BIOL375 Biometry will fulfill one Mathematics course for BSE BIOL students.

AND

Required Courses (6 credits)

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

ACT 126 - Educator Ethics Training

You must submit your Educator Ethics Training.

AND

APS Status

Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

**Additional Comments:**

## Courses

### ECON100 - Introductory Economics

#### Course Information

Course Title

Introductory Economics

Subject code	Course Number	Academic Level
ECON	100	Undergraduate

Course Description

Introduction to economics as a social science for nonmajors or students interested in taking ECON 101 or 102 who would like a preparatory course. Introduction to fundamental economic concepts, economic policy and global markets. Class activities and simulations complement an emphasis on current events. No credit towards an economics major or minor or BSE social studies major. Offered periodically.

General Education Labels

G3

### ECON101 - Principles of Macroeconomics

#### Course Information

Course Title

Principles of Macroeconomics

Subject code	Course Number	Academic Level
ECON	101	Undergraduate

Course Description

Introduction to macroeconomic analysis concentrating on national income, price levels, employment, monetary policy and fiscal policy with introductory analysis of the global economy. To be successful, it is recommended that students be proficient in algebra (the equivalent of successfully completing MATH 101 or MPT equivalent); however MATH 101 is not a pre-requisite. Offered in fall, spring.

General Education Labels

G3

### ECON101H - Hnrs:Principles of Macroeconomics

#### Course Information

Course Title

Hnrs:Principles of Macroeconomics

Subject code	Course Number	Academic Level
ECON	101H	Undergraduate

Course Description

Hnrs:Prin of Macroeconomics

General Education Labels

G3

## ECON102 - Principles of Microeconomics

### Course Information

#### Course Title

Principles of Microeconomics

Subject code	Course Number	Academic Level
ECON	102	Undergraduate

#### Course Description

Introduction to microeconomic analysis concentrating on consumer and producer behavior, competitive and other markets, public policy and government regulation. To be successful, it is recommended that students be proficient in algebra (the equivalent of successfully completing MATH 101 or MPT equivalent); however MATH 101 is not a pre-requisite. Offered in fall, spring.

#### General Education Labels

G3

## ECON102H - Hnrs:Principles of Microeconomics

### Course Information

#### Course Title

Hnrs:Principles of Microeconomics

Subject code	Course Number	Academic Level
ECON	102H	Undergraduate

#### Course Description

Hnrs:Prin of Microeconomics

#### General Education Labels

## ECON179 - Experimental

### Course Information

#### Course Title

Experimental

Subject code	Course Number	Academic Level
ECON	179	Undergraduate

#### Course Description

Experimental

## ECON203 - Introduction to World Economy

### Course Information

#### Course Title

Introduction to World Economy

Subject code	Course Number	Academic Level
ECON	203	Undergraduate

#### Course Description

An introductory course analyzing and comparing global economies, trade and economic development. This course does not count toward the major, but qualifies for BSE social studies major and for the minor. MATH 101 or MPT equivalent is highly recommended prior to taking this course. Offered in fall, spring. Prereq: ECON 100, 101 or 102.

#### General Education Labels

G3

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ECON 100 and ECON 101 or ECON 101H or ECON 102 or ECON 102H

#### Complete ALL of the following Courses:

- ECON100 - Introductory Economics
- ECON101 - Principles of Macroeconomics  
OR ECON101H - Hnrs:Principles of Macroeconomics  
OR ECON102 - Principles of Microeconomics  
OR ECON102H - Hnrs:Principles of Microeconomics

MATH 101 or MPT equivalent is highly recommended prior to taking this course.

#### Additional Comments:

## ECON215 - Money, Credit, and Banking

### Course Information

#### Course Title

Money, Credit, and Banking

Subject code	Course Number	Academic Level
ECON	215	Undergraduate

### Course Description

Survey of monetary and banking institutions, policies and practices, including study of monetary theory. Offered in fall, occasionally in spring. Prereq: ECON 101.

### General Education Labels

G3

### Simple Requisites

ECON305 - Economics in Film

Course Information

Course Title  
Economics in Film

Subject code	Course Number	Academic Level
ECON	305	Undergraduate

Course Description

This course utilizes film as a bridge between real economic life and scholarly treatment of the relevant issues. The course emphasizes critical thinking and synthesis of economic ideas. Students must also engage in questioning the obvious, exploring meaning, and writing about issues from films incisively and analytically following the scientific method. While maintaining rigor in their writing, students must state clearly their hypothesis and empirical methodology. Data collection includes prilnary data, surveys, personal interviews, and focus groups (culturally diverse groups related to the underlying socioeconomic issue). Prereq: ECON 100 or 101 or 102; COMM 100; ENGL 110 and junior status.

## ECON327 - Women and Global Econ Develop

### Course Information

#### Course Title

Women and Global Econ Develop

Subject code	Course Number	Academic Level
ECON	327	Undergraduate

#### Course Description

Theoretical and case-based examination of women in the political economy of less developed economies. Issues covered include womens experiences with economic development; effects of economic development on womens status, roles, workloads and resource access; effective methods of empowerment for women experiencing contemporary economic development; and targeting gender in development, particularly through grassroots efforts. Offered annually. Prereq: ECON 101 or 102, COMM 100, ENGL 110, junior status.

## ECON333 - Econometrics

### Course Information

#### Course Title

Econometrics

Subject code	Course Number	Academic Level
ECON	333	Undergraduate

#### Course Description

The estimation and hypothesis-testing of economic models, principally using regression techniques. Topics include linear models, time series analysis and simultaneous equations models. The uses and limitations of these models for economic forecasting are examined with the aid of computers. Offered in spring. Prereq: ECON 101, 102 and either 231 or 332.

### Simple Requisites

#### Course Prerequisites

## ECON355 - Econ of Sex, Drugs, & Religion

### Course Information

#### Course Title

Econ of Sex, Drugs, & Religion

Subject code	Course Number	Academic Level
ECON	355	Undergraduate

#### Course Description

This course applies consumer theory, firm theory, and market failure to the economics of social issues via the broad, and often controversial, topics of sex, drugs, and religion. Emphasis is placed on the current economic, political, and legal aspects of these issues and therefore specific topics may change depending on current events. Students will explore these topics and lessons via research articles published in academic journals and by research published by the top economic research organizations. Prerequisites: ECON 102 and MATH 101 or math placement beyond 101, MATH 130 or equivalent.

### Course Information

Course Title

Seminar in Economics

Subject code	Course Number	Academic Level
ECON	488	Undergraduate

#### Course Description

Students participate in the process of knowledge creation by generating a research question in economics and undertaking in-depth analysis of that question. The course is structured to support student development and application of critical analytical skills through theoretical and/or empirical methods, research and information management skills, and writing and presentation skills. The course emphasizes the process of research and writing, culminating in three final products: the paper, the poster and the presentation. Majors only. Offered annually. Prereq: ENGL 110, minimum 12 hours of economics or permission of instructor.

Educational Foundations Department

Educational Foundations (EDFN) is the education home to secondary BSE majors. We believe strongly that teachers must both know the subjects they teach and how to teach them to students. Because of this belief, we value our partnership with liberal arts departments in providing education courses, field experience, and co-advisors for our undergraduate secondary education students. This partnership also includes content specific preparation.

Educational Foundations is also home to two multidisciplinary concentrations, Educational Studies and Applied Disability Studies.

## Programs

### Online Teaching Endorsement

#### Overview

This program is among the first in the state approved to deliver the PDE endorsement in Online Teaching and consists of twelve (12) graduate credits offered by the Educational Foundations department in a fully online format. Faculty members for this program are among state and national leaders in online pedagogy and instruction, and are also affiliated with Millersville's graduate degree programs in Leadership for Teaching and Learning, Special Education and other education degrees.

This program is for:

- K-12 Educators who want to develop Online Teaching Expertise
- Classroom Teachers Already Using Flipped and Hybrid Instruction
- Curriculum Supervisors and Technology Coordinators
- Current and Prospective Teachers Seeking an Edge in the Job Market
- Educational Administrators and School Leaders
- Community college faculty in online and hybrid

programs

- ACTE634 - Legal and Ethical Issues in Online Education

**Additional Comments:**

STEM Education Endorsement

Overview

The STEM program endorsement is intended to improve a teacher's skills in dealing with complex classroom settings. The STEM endorsement is designed to provide additional knowledge and promote skills related to more integrative ways to deliver content in these areas. While the endorsement does not lead to state licensure, it may be added to an existing Level I or Level II Certificate. Millersville’s STEM endorsement courses can also be applied to the Assessment, Curriculum and Teaching Masters in Education Program

with the addition of five more courses.

STEM education creates opportunities to integrate student-centered learning approaches to improve the quality of K-12 education and interaction with the larger community. This program incorporates active project-based learning, where you will develop and use skills in analysis, problem solving and critical thinking.

Program Highlights:

- 12-Credit, four-course Program
- Adds a STEM endorsement to an existing PA teaching license
- Can be completed 100% online
- All 12 credits count towards Millersville’s M.Ed. program in Assessment, Curriculum and Teaching
- Affordable tuition rates
- Credits meet ACT 48 requirements
- Interdisciplinary faculty from three departments

Who This Program is for:

- Teachers who hold an initial teaching certification in any discipline K-12  
(\*This program will NOT lead to an initial teaching certification)
- Teachers in STEM subjects: science, technology, engineering and mathematics
- Teachers in non-STEM disciplines who are interested in embracing the ideas associated with STEM education

This program builds upon our existing high-quality science, technology, engineering and math education courses taught by Millersville University’s faculty experts.

- ACTE625 - Technology and Assessment for Learning

AND

##### Math in the School Program or Problem Solving Seminar (3 credits)

#### Complete at least 1 of the following courses:

- EDUC651 - Math in the School Program
- MATH610 - Problem Solving Seminar

AND

##### Engineering Principles and Concepts or Int. STEM Educ (3 credits)

#### Complete at least 1 of the following courses:

- EDTE604 - Engineering Principles and Concepts for the Non-Engineer
- ACTE655 - Integrative STEM Education

### Additional Comments:

## Educational Leadership, Ed.D.

### Overview

The Doctorate in Educational Leadership (Ed.D.) is designed to provide rising school, state, and organizational leaders with the knowledge, skills and dispositions to develop, implement, and lead educational programming in a variety of settings. The program has two focal areas, poverty and technology, which are embedded throughout the program. Superintendent Letter of Eligibility (LOE) courses are designed to provide those with principal certification the opportunity to pursue superintendent coursework. Coursework is delivered in a variety of modalities including face-to-face, hybrid, online and integration of other cyber applications.

## Admission Requirements

- Graduate application and application fee.
- Transcripts from all previous colleges and universities, including any additional certification program(s).
- Master's degree in education or a related field is required.
- Certifications.
- Current resume or curriculum vitae.
- 500 word goal statement addressing the applicant's goals and objectives for doctoral study in educational leadership and how this program will assist them in achieving those outcomes.

## Ed.D. Program Examinations

### Candidacy Exam

The purpose of the candidacy examination is for the doctoral student to demonstrate their growth during the **first** segment of the program which suggests that they are ready to pursue dissertation writing and research. The exam will take place in two parts. The **first** part is written and allows the student to examine and write about research-based articles as well as their own research interests. The second part is their oral defense of their writing. When doctoral students pass the candidacy exam, they are then referred to as doctoral candidates.

### Dissertation Prospectus Defense

The purpose of the prospectus defense is for students to demonstrate their writing and ability to present and converse in the introduction, literature review and methodology to be employed in their dissertation. Students will participate in this defense with their faculty dissertation committee members.

### Dissertation Defense

The purpose of the dissertation defense is for doctoral candidates to demonstrate their writing and ability to present and converse about their entire dissertation project. It takes place after the entire dissertation research and writing are complete. Doctoral candidates will participate in this defense with their faculty dissertation committee members and may open their defense for public attendance.

- ELPP898 - Dissertation I - EL

AND

Dissertation II - Educational Leadership (3 credits)

**Earn at least 3 credits from the following:**

- ELPP899 - Dissertation II - EL

Comprehensive Exam

A comprehensive exam is required to complete the EDD in Educational Leadership.

**Additional Comments:**

## Assessment, Curriculum and Teaching, M.Ed. - Online Instruction

### Overview

The Master of Education in Assessment, Curriculum and Teaching (ACTE) is designed for current teachers who are seeking to advance their professional effectiveness. The program builds five outcomes related to assessment, curriculum and teaching in emerging fields and offers three concentrations: one in Online Teaching, one in STEM Education, and one in Certification. All candidates entering the program must meet all Millersville University graduate entrance requirements. Additionally, all candidates must have Instructional I certification and pass both a written essay and oral interview.

## Leadership for Teaching and Learning, M.Ed.

### Overview

The Master of Education degree in leadership for teaching and learning prepares teachers for roles in basic education as principals, department heads, curriculum directors, supervisors and other leadership positions. The program philosophy is rooted in the literature demonstrating the effectiveness of leaders who facilitate responsible, responsive change through cooperative action. The program utilizes the strengths of cohort groups of students, portfolio assessment, an internship, mentors, technology and case studies. Community relations; respect of the influences of race, class, gender and ethnicity in education; and the liberal arts as a source of knowledge and perspective are acknowledged in the program curriculum.

The Master's degree program includes 36 semester hours of coursework. Candidates who complete the curriculum and degree requirements, and have five years of teaching experience, are eligible to be recommended for the K-12 Principal's Certificate and also for the K-12 Curriculum and Instruction Supervisory Certificate. Those who already hold an appropriate master's degree may apply to pursue only the certificates; a review of their previous coursework will determine what requirements must be satisfied to be eligible for the certificates.

### Admissions Requirements

Students who seek admission to the Master of Education degree in leadership for teaching and learning must comply with the University's established admissions criteria and procedures. Admission to the degree program will be on a cohort basis. Twenty students will be admitted to each cohort group, with a new cohort commencing each fall semester. Courses completed prior to the beginning of a cohort may be considered for inclusion in the program.

The following criteria will be used in determining admission to a cohort:

1. Letters of recommendation
2. Official transcripts
3. Academic and Professional Goals Statement
4. Commonwealth of Pennsylvania Teacher's Certificate, Instructional I. Applicants without Instructional I Certificates must meet with the Graduate Program Coordinator for review and possible acceptance.
5. Structured interview

## Assessment

In addition to the normal course requirements and assessment instruments, a portfolio will be utilized as a form of formative and summative assessment. Completion of the program is contingent upon passing the portfolio review and maintaining a 3.0 GPA. Students who fail to maintain the academic scholarship and/or professional standards are subject to dismissal from the program.

## Curriculum

## Leadership for Teaching and Learning - Music, M.Ed.

### Overview

The Master of Education degree in leadership for teaching and learning prepares teachers for roles in basic education as principals, department heads, curriculum directors, supervisors and other leadership positions. The program philosophy is rooted in the literature demonstrating the effectiveness of leaders who facilitate responsible, responsive change through cooperative action. The program utilizes the strengths of cohort groups of students, portfolio assessment, an internship, mentors, technology and case studies. Community relations; respect of the influences of race, class, gender and ethnicity in education; and the liberal arts as a source of knowledge and perspective are acknowledged in the program curriculum.

### Curriculum

#### Simple Requisites

#### MED Professional Core Requirements (9 credits)

##### Type

Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Professional Core: Required Courses (6 credits)

##### Complete ALL of the following Courses:

- EDFN601 - Research Methods
- EDFN545 - Advanced Educational Psychology

AND

Professional Core: Philosophy of Education (3 credits)

##### Complete at least 1 of the following courses:

- EDFN603 - Philosophy of Education
- EDFN604 - Education and Public Policy

##### Additional Comments:

EDFN601 Research Methods is required. Choose 2 courses from two of the three Core Option areas.

**Major in Leadership for Teaching, Music - MED (27 credits)**

##### Type

Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Educational Leadership Core (13 credits)

##### Fulfill ALL of the following requirements:

Educational Leadership Courses (10 credits)

##### Earn at least 10 credits from the following:

- EDLD610 - Theory and Organizational Behavior
- EDLD614 - School Community Relations
- EDLD620 - School Law and Public Policy
- EDLD667 - Leadership Seminar 1
- EDLD668 - Leadership Seminar 2
- EDLD669 - Leadership Seminar 3

AND

Required Courses (3 credits)

##### Complete ALL of the following Courses:

- EDSU701 - Administrative Supervision

AND

Music Courses (14 credits)

##### Earn at least 14 credits from the following:

- MUSI512 - Solfege, Harmony and Analysis III According to the Kodaly Concept
- MUSI513 - Solfege, Harmony and Analysis IV According to the Kodaly Concept
- MUSI572 - The Art of Teaching Middle Level According to the Kodaly Concept
- MUSI554 - Major Performance Piano Instruction with Emphasis in Curriculum Supervision, Assessment, & Design 1
- MUSI555 - Major Performance Piano Instruction with Emphasis in Curriculum Supervision, Assessment, & Design 2
- MUSI654 - Major Performance Piano Instruction with Emphasis in Curriculum Supervision, Assessment, & Design 3
- MUSI655 - Major Performance Piano Instruction with Emphasis in Curriculum Supervision, Assessment, & Design 3

Supervision, Assessment, & Design 4

- MUSI550 - AoT Modern Band

Upon completion of all required courses and students are eligible to schedule the portfolio review. The portfolio is utilized as a form of formative and summative assessment. Completion of the degree requires successful completion of the portfolio review.

AND

Portfolio Review

Upon completion of all required courses, students are eligible to schedule the portfolio review. The portfolio is utilized as a form of formative and summative assessment. Completion of the degree requires successful completion of the portfolio review.

Additional Comments:

## Curriculum & Instruction Supervisory Certification

### Overview

The program consists of 15 credits, including three core courses and a six-credit field experience. In exceptional cases, an approved substitution may be made for one of the core courses.

The field experience demands a high degree of cooperation between the University and the school where the student is employed or assigned. The student is supervised by a faculty member from the department/area in which the certificate is sought. It is important that the candidate give due consideration to this aspect of the program, since in some cases it may be necessary for the student to take a sabbatical or leave of absence in order to meet the requirement of the field experience.

Except for secondary education and music, which do not have master's degree programs, consult the appropriate department section in this catalog for description of field experience.

Field experiences vary, but generic competencies apply to all program areas. These include:

1. Knowledge of recent research and application of

- basic research tools and techniques to problems encountered in supervisory positions.
2. The ability to work with paraprofessionals, teachers, student teachers and the auxiliary staff.
  3. Skill in curriculum planning and evaluation.
  4. Ability to coordinate supporting services to the major curriculum components, such as speech therapy, dental hygienist, and home and school visitors.
  5. Ability to review and assess various curriculum needs and recommended changes as deemed necessary.

## Curriculum

### Simple Requisites

Curriculum & Instruction Supervisory Certification (15 credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Required Courses (15 credits)

Complete ALL of the following Courses:

- EDSU700 - Functions Supervision
- EDSU701 - Administrative Supervision
- EDSU703 - Curriculum and Supervision
- EDSU799 - Applied Practicum

For EDSU799: Applied supervision in the applicable content subject area.

Additional Comments:

## Principal Post-Master's Certification

### Overview

Progress through a unique course of study catered to your previous education and experiences in pursuit of a Principalship certification based on Pennsylvania Department of Education standards.

## Curriculum

### Simple Requisites

Major in Principal Certification - Post-Master's (27

credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Education Leadership Core

Fulfill ALL of the following requirements:

Leadership Theory & Organizational Behavior (3 credits)

Complete ALL of the following Courses:

EDLD610 - Theory and Organizatnl Behavr

AND

Required Courses (21 credits)

Complete ALL of the following Courses:

EDLD614 - School Community Relations

EDLD620 - School Law and Public Policy

EDLD667 - Leadership Seminar 1

EDLD668 - Leadership Seminar 2

EDLD669 - Leadership Seminar 3

EDSU700 - Functions Supervision

EDSU703 - Curriculum and Supervision

EDLD798 - Applied Supervision

EDLD799 - Applied Practicum

AND

Introduction to Supervision (3 credits)

Complete ALL of the following Courses:

EDSU701 - Administrative Supervision

Portfolio Review

Upon completion of all required courses, students are eligible to schedule the portfolio review. The portfolio is utilized as a form of formative and summative assessment. Completion of the degree requires successful completion of the portfolio review.

Courses

ACTE561 - Student Teaching in the Secondary Classroom

Course Information

Course Title		
Student Teaching in the Secondary Classroom		
Subject code	Course Number	Academic Level
ACTE	561	Graduate

**Course Description**  
Taken in sequence with EDSE 572: Inquiry into Inclusive Classroom Instruction, ACTE 561 will provide a field-based experience for ACTE students who are seeking teacher certification. As part of the ACTE program, students will serve as the instructor of record in schools and University supervisors will provide formal observations in compliance with PDE regulations.

ACTE625 - Technology and Assessment for Learning

Course Information

Course Title		
Technology and Assessment for Learning		
Subject code	Course Number	Academic Level
ACTE	625	Graduate

**Course Description**  
Technology and Assessment for Learning is designed for the practicing teacher to fully realize the role of assessment as a foundation for student learning and growth. The incorporation of assessment practices and technology in the classroom is grounded in practical classroom applications. This course intends to provide in-service teachers with a set of assessment and technological strategies and tools that can be used to provide different paths for student achievement and enhance student learning.

699 / 1368

## ACTE630 - Current Technology for Online Instruction

### Course Information

#### Course Title

Current Technology for Online Instruction

Subject code	Course Number	Academic Level
ACTE	630	Graduate

#### Course Description

Students will develop skills in using current and emerging instructional technology to support online learning environments. Instructional design and assessment as well as national standards are used as a basis for planning and evaluating student-centered distance education. The methodologies and technologies used in the course are updated each semester according to current trends, practices, and research in the field of instructional technology.

## ACTE631 - Social Foundatns of Online Ed

### Course Information

#### Course Title

Social Foundatns of Online Ed

Subject code	Course Number	Academic Level
ACTE	631	Graduate

#### Course Description

A consideration of K-12 distance education from a social foundations perspective including philosophy of education, study of the history and evolution of distance education, public policy implications, economic implications, and other current issues in distance education. Students will complete an online field experience in a K-12 online environment.

## ACTE632 - Online Learning Environments

### Course Information

#### Course Title

Online Learning Environments

Subject code	Course Number	Academic Level
ACTE	632	Graduate

#### Course Description

Students will examine methods of engaging students in online learning environments and ways to effectively foster communication and interaction between students, content and instructor. Current research studies will be used to inform

the creation of online learning environments that supports and assesses student learning. Students will complete an online field experience in a K- 12 online environment.

## ACTE633 - Learners in Online Classrooms

### Course Information

#### Course Title

Learners in Online Classrooms

Subject code	Course Number	Academic Level
ACTE	633	Graduate

#### Course Description

Fosters teachers' understanding and ability to respond to various characteristics that impact students' learning within the online environment. Course content examines individual differences across learning, development, cognitive abilities, reading proficiency and student readiness for online learning, while acknowledging the influences of prior educational experiences, home environment, and necessary special education accommodations. Emphasis is placed on adapting instruction by working with students and their families, other community stakeholders, and additional professionals who support student learning and achievement.

## ACTE634 - Legal and Ethical Issues in Online Education

### Course Information

#### Course Title

Legal and Ethical Issues in Online Education

Subject code	Course Number	Academic Level
ACTE	634	Graduate

#### Course Description

With the wealth of online learning tools and resources available, teachers need an understanding of the legal issues that impact their use with learners in the K-12 setting. This course addresses current legislation pertaining to the use of copyrighted digital media in the classroom, best practice in the use of online tools and applications with children over and under 13 years of age, and current controversies and legal challenges related to children's online behaviors. While the content of the course is updated every semester the course goal remains the same: to investigate the legal issues pertaining to the use of digital media and online tools in the classroom by teachers and students.

## ACTE635 - Instructional and Curricular Design for Online, Blended and Customized Instruction

### Course Information

#### Course Title

Instructional and Curricular Design for Online, Blended and Customized Instruction

Subject code	Course Number	Academic Level
ACTE	635	Graduate

#### Course Description

This course is designed as an integrative, project-based experience for students. The course applies instructional design methodology to the development of online, blended and customized courses that are engaging, effective and in alignment with standards and best practices as identified by learning research. Participants will enact a unit of instruction as either the lead teacher or as an intern co-teaching role. Participants are guided through the process of conducting needs assessments; defining course goals and objectives; and designing instructional lesson plans, activities and materials, and assessments. Consideration is given to various models of online delivery, content organization and presentation, and design principles.

## ACTE640 - Universal Design for Learning: Curricular Access for All Students

### Course Information

#### Course Title

Universal Design for Learning: Curricular Access for All Students

Subject code	Course Number	Academic Level
ACTE	640	Graduate

#### Course Description

The challenge and opportunity of individual differences confront every teacher, administrator, and curriculum designer. To meet that challenge and to capitalize on that opportunity, educators are typically equipped with media and materials that are one size fits all and that have been designed primarily for a narrow and illusive group of learners. In this course, we will explore an alternative approach universal design for learning (UDL) that creates curricula, informs instructional methods, and upholds learning environments that are designed to achieve success for a much wider range of student abilities and disabilities. To do that, the UDL approach takes advantage of advances in two fields: (1) the cognitive neuroscience of learning and individual differences and (2) the

universal design of educational technologies and multimedia. This course will explore recent advances in both of these fields as they relate to content area instruction through appropriate readings and through media construction exercises designed to prepare and support participants to optimize the challenge of individual differences through universal design for learning.

## ACTE641 - Foundations of Multicultur Ed

### Course Information

#### Course Title

Foundations of Multicultur Ed

Subject code	Course Number	Academic Level
ACTE	641	Graduate

#### Course Description

This course lays the foundational framework about knowledge of multicultural education. It offers an in-depth examination of the history and evolution of multicultural education. Definitions of multicultural education are presented as these were shaped by events in history. Topics will include the theoretical and pedagogical content knowledge of multicultural education and their connections to learning about diversity in secondary classrooms. Models and dimensions of diversity will be analyzed as these relate to stages of identity development within a global context.

## ACTE642 - Teaching About Diversity

### Course Information

#### Course Title

Teaching About Diversity

Subject code	Course Number	Academic Level
ACTE	642	Graduate

#### Course Description

This course builds on the topic of diversity by examining multicultural issues in contemporary society and how they impact the educational system, equity, inclusion, and cultural tolerance. It will help candidates understand the positive attributes of pluralism and how this knowledge can be used effectively in the classroom and within schools to educate all children.

## ACTE643 - Disciplinary Thinking

### Course Information

#### Course Title

Disciplinary Thinking

Subject code	Course Number	Academic Level
ACTE	643	Graduate

Course Description

Effective teaching requires more than disciplinary content knowledge and an understanding of ways of knowing in the discipline. It also requires understanding of pedagogical content-specific knowledge that is uniquely helpful in the work of teaching. Studies of teaching have elaborated on pedagogical content knowledge to apply knowledge to specific content-related inquiry as well as the broad and flexible knowledge of how students think about content upon which to base instructional decisions that arise in unanticipated ways. This suggests that the disciplines are more than just accumulated bodies of knowledge or epistemic frameworks, but rather unique sets of ideas about what it might mean to generate knowledge, often referred to as the syntactic structure of the discipline. This course will engage students in the inquiry necessary to access the syntactic structure of their discipline and demonstrate their new knowledge in multiple modalities.

ACTE650 - Science Teaching and Learning

Course Information

Course Title

Science Teaching and Learning

Subject code	Course Number	Academic Level
ACTE	650	Graduate

Course Description

Teaching and learning are inseparable, in that learning is the goal of teaching. Someone has not taught unless someone else has learned. Science teaching requires attention to both the content of the course and the process of moving students from their initial state of knowledge and understanding to a more informed way of knowing. Students in this course will critically examine the latest research about science teachers and learners and use this information to assess their current instructional practices. The emphasis of the course will be on gaining the skills necessary to improve inquiry teaching in science classrooms.

ACTE651 - Science Curriculum and Reform

Course Information

Course Title

Science Curriculum and Reform

Subject code	Course Number	Academic Level
ACTE	651	Graduate

Course Description

The purpose of the course is to develop a better understanding of school science curriculum. This course examines literature that provides the foundation for modern reform in science education. With the past in the background and current issues in the forefront, the course analyzes the implications of reform initiatives for classroom practice with a focus on student learning. In class discussions we examine how different assumptions and perceived goals of science education influence what is taught, how it is taught, and how it is assessed and interpreted.

ACTE655 - Integrative STEM Education

Course Information

Course Title

Integrative STEM Education

Subject code	Course Number	Academic Level
ACTE	655	Graduate

Course Description

Integrative STEM (iSTEM) education is a standards-based metadiscipline integrating Science, Technology, Engineering, and Math. This course examines the goals and outcomes of integrative STEM teaching and learning. iSTEM instruction is grounded in inquiry methodologies by using project-based learning strategies, technological tools, equipment, and procedures in innovative ways. The goal of iSTEM instruction is to prepare students to address societal needs and challenges in order to compete in the global workforce by improving college-readiness skills, and increasing the number of students who may consider a career in a STEM-related field.

ACTE660 - Teach & Learn Secondary Ed

Course Information

Course Title

Teach & Learn Secondary Ed

Subject code	Course Number	Academic Level
ACTE	660	Graduate

Course Description

This course introduces candidates to a variety of evidence-based pedagogies appropriate for secondary classroom environments. Candidates will critically examine the syntax of instructional models that can be applied across a variety of content areas for the 7-12 classroom. Candidates will demonstrate their understanding of various teaching models and assessment strategies through the development of lesson

plans and units in their content area. In addition, candidates will become engaged in critical analysis and evaluation of these instructional plans in order to develop a self-reflective approach to praxis.

## ACTE699 - Inquiry for Teaching/Learning

### Course Information

#### Course Title

Inquiry for Teaching/Learning

Subject code	Course Number	Academic Level
ACTE	699	Graduate

#### Course Description

Design, execution and communication of applied research in emerging fields of online teaching or STEM education. Two types of applied research may be pursued: (1) basic research using experimental, descriptive or other traditional research methodologies, (2) documented study of innovative curricular development. In either approach, candidates must demonstrate use of emerging technologies, effective instructional design and use of assessment data for improving curricular design. Permission of instructor required to register.

## EDCI700 - The Mentoring Teacher

### Course Information

#### Course Title

The Mentoring Teacher

Subject code	Course Number	Academic Level
EDCI	700	Graduate

#### Course Description

This course is designed to adequately prepare cooperating teachers (mentor teachers) to observe, analyze, guide and evaluate the field experiences of teacher candidates as they serve students with and without disabilities. The course presents a formal program for cooperating teachers, including strategies for the effective interaction with student teachers as well as crucial techniques of observation, supervision and evaluation. The course creates opportunities for the cooperating teacher to prepare for the responsibilities of the mentoring role. Understanding the evaluation processes, completing online evaluations, understanding the candidates developmental process and the efficient use of mediation and collaboration are detailed and planned. The best strategies for partnering with university faculty are considered in relation to each specific environment. Establishing expectations and environmental influences aimed at the teacher candidates development are detailed and codeveloped. Offered in summer.

## EDCI799 - Applied Supervision

### Course Information

#### Course Title

Applied Supervision

Subject code	Course Number	Academic Level
EDCI	799	Graduate

Course Description

A field-based experience designed to develop the candidates leadership abilities K-12. Comprehensive involvement in on-site activities, including classroom observations K-12, required research, policy and skill competencies. Specific activities include the demonstration of effective communication, staff development, budgeting and the ability to integrate curriculum across disciplines K-12, in addition to other activities at the elementary and secondary levels. The field experience demands a high degree of cooperation between the University and the school where the student is employed or assigned.

EDFN090 - Topics: Life Transitions

Course Information

Course Title

Topics: Life Transitions

Subject code	Course Number	Academic Level
EDFN	90	Undergraduate

Course Description

This is an applied seminar and skill acquisition course including historical, sociological, and philosophical foundations of education & life transition as it applies to learning, personal growth, and professionalism. The course is designed to provide an opportunity for students to learn more about their major field of study and the professional behavior essential to their chosen careers. Through this professional participatory seminar, students will begin the important process of collecting information about career paths, education for life, professional expectations and conduct, ethics, and service. Additionally this course is designed to assist in thinking critically to improve academic performance, develop mastery of their emotions and judgment, and improve problem-solving skills. The course provides opportunities for

students to evaluate personal development, goals, reasoning, and logical thinking. Other course topics include; creative thinking, organizational skills, evaluating facts versus opinions, interpersonal skills, and conflict resolution.

EDFN211 - Foundations Modern Education

Course Information

Course Title

Foundations Modern Education

Subject code	Course Number	Academic Level
EDFN	211	Undergraduate

Course Description

This course provides an analysis of the philosophical, anthropological, sociological, economic and historical foundations for the contemporary PreK-12 school system in the United States; more specifically how issues of race, ethnicity, language, gender, disability, sexual orientation, geography, socioeconomics and religion influence the profession of teaching in particular grade-level contexts. The content for each section will be focused on the respective program area of the candidates (PreK-4 grades, 4-8 grades, and 7-12 grades). The course addresses the Pa. Dept. of Educations sociocultural standards for English-language learners. Must be taken simultaneously with EDFN 241. Includes field experience, which requires submission of satisfactory FBI, Act 34/151 clearances for eligibility for field placement.

### Course Information

Course Title

Women in Education

Subject code	Course Number	Academic Level
EDFN	312	Undergraduate

Course Description

This course uses philosophical analysis and a sociology of knowledge approach to examine women's and girls' experiences with respect to educational institutions as they exist in contemporary America. These concerns are explored dialectically, examining not only how educational institutions and opportunities shape women, but also how the presence of women in educational activities alters the nature of that enterprise. Offered periodically. Prereq: COMM 100, ENGL 110, junior status.

EDFN320 - Instructional Technology in Elementary Education

Course Information

Course Title

Instructional Technology in Elementary Education

Subject code	Course Number	Academic Level
EDFN	320	Undergraduate

Course Description

Students use case studies to explore the uses of technology and its application in elementary education. Topics include computer basics, applications software, curriculum integration, evaluation of educational software, telecommunications and multimedia presentation systems. Students are provided a series of hands-on experiences with hardware and software to develop the skills and

competencies required of the elementary education teacher. Offered in fall, spring. No credit given if credit earned in EDFN 130, 220, 230, 330/530, 333/533 or EDAR 330/530.

Instructional design and assessment will be used as a basis for planning and evaluating the use of technology for student-centered teaching and learning within specific disciplines. Offered in fall, spring. Admission to advanced professional studies. No credit given if credit earned in EDFN 130, 220, 230, 320/520 or EDAR 330/530. Taken with professional bloc. Professional bloc field experience includes approximately 150 hours in schools.

EDFN336 - Assistive Technology & Online Learning

Course Information

Course Title

Assistive Technology & Online Learning

Subject code	Course Number	Academic Level
EDFN	336	Undergraduate

Course Description

Designed to provide pre-service special education teachers with experiences in the use of technology in teaching and online learning. This includes assistive technology by students with disabilities to become more independent, as well as the use of a variety of instructional technologies to encourage

more active and effective learning. In addition, teacher candidates will learn various technological strategies and tools that can be used to provide different paths for student achievement and enhance student learning.

## EDFN355 - Living Online

### Course Information

#### Course Title

Living Online

Subject code	Course Number	Academic Level
EDFN	355	Undergraduate

#### Course Description

"All the world's a stage" famously open Act II of As You Like It, a Shakespearean comedy uniquely positioned to showcase the valleys and peaks of human experience. Interestingly, as the world's stages become increasingly technological and anonymous, how youth learn, think, and find voice has also shifted. Looking beyond the social posturing characteristic of today's "selfie generation," these contexts offer incredible insights about the nature of learning and identity development. This course will explore the work of social theorists, technology gurus, public policy makers, and youth participants who continue to grapple with ever-changing landscape of social media. Using major current events as a lens: #EgyptianRevolution #OccupyWallStreet #RapeCulture #AllLivesMatter #Islamphobia, this course explores social media as a culturally mediated/sustaining response and practice worldwide.

EDFN399 - Culture & Education Seminar

Course Information

Course Title  
Culture & Education Seminar

Subject code	Course Number	Academic Level
EDFN	399	Undergraduate

**Course Description**  
Humans are divided into different groups based on religion, language, ability, beliefs, ethnicity, appearance, values, traditions and many other markers. Effective communication across these differences requires all humans, and teachers in particular, to develop skills that enable successful interaction and collaborate across boundaries. Culture can be understood, at least partially, as the background and preconceptions humans carry into any interpersonal situation. Since culture constitutes the keystone of identity, it is a key source of conflict between people, particularly in the teacher-student relationship. This seminar pairs discussions and readings about the nexus of culture, identity and education with immersion in different cultures, internationally, nationally and locally, to develop a deeper commitment in students to be effective teachers for all children across all differences. Prereq: EDFN 211 and 241

Departmental Honors

Subject code	Course Number	Academic Level
EDFN	499	Undergraduate

#### Course Description

Two to four semesters of supervised research by highly motivated students capable of conducting independent research projects. For further information, see the Special Academic Opportunities section.

## EDFN511 - Comparative Education

### Course Information

#### Course Title

Comparative Education

Subject code	Course Number	Academic Level
EDFN	511	Graduate

#### Course Description

Analyze crucial educational questions and issues using the comparative method. Cross-cultural studies pursued in a multiple-disciplinary format will help participants discover how education serves economic, sociopolitical, ideological and other purposes, and how it reflects the historically derived tensions within national development. Factors underlying similarities and differences in various cultures, nations and contexts are studied. Includes appraisal of educational issues from a global perspective. Offered annually.

## EDFN513 - Sexual Orientation, Gender Identity and Schooling

### Course Information

#### Course Title

Sexual Orientation, Gender Identity and Schooling

Subject code	Course Number	Academic Level
EDFN	513	Graduate

#### Course Description

Students will study the history of sexual orientation and gender identity, the research on school climate related to sexual orientation and gender identity of students and professionals, knowledge of current laws and policies, and recommended practices for supporting LGBTQ+ youth and educators.

## EDFN520 - Instructional Technology in Elem Ed

### Course Information

#### Course Title

Instructional Technology in Elem Ed

Subject code	Course Number	Academic Level
EDFN	520	Graduate

#### Course Description

Students use case studies to explore the uses of technology and its application in elementary education. Topics include computer basics, applications software, curriculum integration, evaluation of educational software, telecommunication and multimedia presentation systems. Students are provided a series of hands-on experiences with hardware and software to develop the skills and competencies required of the elementary education teacher. Offered regularly. Students may not receive credit for both EDFN 520 and any of the following courses: EDFN 130, 320, 330, 333, 530, 533 and EDAR 330.

## EDFN530 - Instructional Technology, Design and Assessment

### Course Information

#### Course Title

Instructional Technology, Design and Assessment

Subject code	Course Number	Academic Level
EDFN	530	Graduate

#### Course Description

Instructional design and assessment will be used as a basis for planning and evaluating the use of technology for student-center teaching and learning within specific disciplines. Must be taken as a block with EDSE 321 (or graduate equivalent) and the Teaching of Methods class required in each secondary certification program. Students may not receive credit for both EDFN 530 and any of the following courses: EDFN 130, 320, 330, 333, 520, 533 and EDAR 330.

## EDFN545 - Advanced Educational Psychology

### Course Information

#### Course Title

Advanced Educational Psychology

Subject code	Course Number	Academic Level
EDFN	545	Graduate

### Course Description

A review of psychological principles as they relate to human learning in the urban and non-urban setting. Special consideration is given to motivational and developmental factors in the school that influence students learning. Additional topics include examination of assessment and evaluation practices, classroom management and accommodating individual differences.

## EDFN586 - Topics in Education

### Course Information

#### Course Title

Topics in Education

Subject code	Course Number	Academic Level
EDFN	586	Graduate

#### Course Description

Investigation and development of educational topics of current interest not normally covered in regular courses. Special topics and methods will vary according to the needs of students involved. Offered periodically.

## EDFN587 - Topics in Education

### Course Information

#### Course Title

Topics in Education

Subject code	Course Number	Academic Level
EDFN	587	Graduate

#### Course Description

Investigation and development of educational topics of current interest not normally covered in regular courses. Special topics and methods will vary according to the needs of students involved. Offered periodically.

## EDFN589 - Topics in Education

### Course Information

#### Course Title

Topics in Education

Subject code	Course Number	Academic Level
EDFN	589	Graduate

#### Course Description

Investigation and development of educational topics of current interest not normally covered in regular courses. Special topics and methods will vary according to the needs of students involved. Offered periodically.

## EDFN590 - Social Foundation of Educ

### Course Information

#### Course Title

Social Foundation of Educ

Subject code	Course Number	Academic Level
EDFN	590	Graduate

#### Course Description

An analysis of the K-12 school system of the U.S. philosophical and historical influences, significance of education in society, contemporary problems in schooling, challenges and requirements of the profession. Offered annually.

## EDFN601 - Research Methods

### Course Information

#### Course Title

Research Methods

Subject code	Course Number	Academic Level
EDFN	601	Graduate

#### Course Description

Introduces methods of empirical educational research. Emphasis on training individuals to be intelligent consumers of educational research. It is strongly recommended that the course be taken early in the students program.

## EDFN603 - Philosophy of Education

### Course Information

#### Course Title

Philosophy of Education

Subject code	Course Number	Academic Level
EDFN	603	Graduate

#### Course Description

An analysis of current and perennial education problems using the tools of the philosopher: logic, language analysis and inquiry, and phenomenological description. Students articulate their own beliefs and assumptions about education as well as critically examine and evaluate selected texts. Offered annually.

## EDFN604 - Education and Public Policy

### Course Information

#### Course Title

Education and Public Policy

Subject code	Course Number	Academic Level
EDFN	604	Graduate

#### Course Description

An analysis of public policy development in the field of education. Major questions to explore include: (1) Who governs education? (2) What are the processes by which policies are formulated? (3) What values are reflected in specific present policy or proposed reform? (4) What do we know about reforming education? (5) How useful is social science research in the formulation of educational policy? Offered annually.

## EDLD610 - Theory and Organizatnl Behavr

### Course Information

#### Course Title

Theory and Organizatnl Behavr

Subject code	Course Number	Academic Level
EDLD	610	Graduate

#### Course Description

Examination of theories of leadership based on cooperation, empowerment and facilitation of change. The implications of leadership theories on administration in educational organizations. Attention given to organizational climate, conflict negotiation, decision making, communication, assumptions about power and change. Theory, research, practice and the influences of special-needs learners, race, class, gender and other social constructs will be integrated into the course. Offered in fall.

## EDLD614 - School Community Relations

### Course Information

#### Course Title

School Community Relations

Subject code	Course Number	Academic Level
EDLD	614	Graduate

#### Course Description

Examination of the political, social and economic factors which influence the school's relationship with various community agencies and constituencies. Developing administrative sensitivity to community needs and effective articulation of the schools programs to the various communities. Offered annually.

## EDLD620 - School Law and Public Policy

### Course Information

#### Course Title

School Law and Public Policy

Subject code	Course Number	Academic Level
EDLD	620	Graduate

#### Course Description

An overview of American public elementary and secondary school law in the context of public policy. Examines federal and state constitutional, statutory and common law decisions that impact on the substantive or procedural rights of students, teachers and other school personnel. Emphasis on issues of equity and equality, and First Amendment issues. Makes use of 1) an interactive, empowering pedagogy, 2) case studies addressing race, class, gender and religious diversity, and 3) alternative assessment strategies.

## EDLD667 - Leadership Seminar 1

### Course Information

#### Course Title

Leadership Seminar 1

Subject code	Course Number	Academic Level
EDLD	667	Graduate

#### Course Description

The first in a series of three one-credit seminars on the emergent issues and PDE competencies surrounding special education and English language learners for principal candidates, the over representation of diverse students in special education, prevention and early-intervention strategies for students with disabilities. Offered in spring.

## EDLD668 - Leadership Seminar 2

### Course Information

#### Course Title

Leadership Seminar 2

Subject code	Course Number	Academic Level
EDLD	668	Graduate

#### Course Description

The second in a series of three one-credit seminars on the emergent issues and PDE competencies surrounding special education and English language learners for principal candidates, including early intervention and effective instructional strategies for students with disabilities in inclusive settings. Prereq: EDLD 667. Offered in spring.

## ELPP808 - Qual Methods in Ed Ldshp

### Course Information

#### Course Title

Qual Methods in Ed Ldshp

Subject code	Course Number	Academic Level
ELPP	808	Graduate

#### Course Description

This course is designed to prepare school leaders for leadership positions in public education. It intends to help postgraduate students in defining an appropriate mode of qualitative inquiry related to a chosen topic of study. The course has been constructed to guide students through a range of issues and considerations, which should inform their general approach to qualitative research. It will give students a general understanding of postgraduate and professional qualitative research, its methodologies, its challenges and its organization. Students will be introduced to a range of research tools and will be equipped to plan and organize their research, as well as to communicate their findings with academic, school district and community audiences.

## ELPP820 - Intro to Research in Ed Leadrs

### Course Information

#### Course Title

Intro to Research in Ed Leadrs

Subject code	Course Number	Academic Level
ELPP	820	Graduate

#### Course Description

This course will provide an introduction to educational research - qualitative, quantitative, and mixed method designs. The primary purpose of the course is to develop the skills and disposition needed to be a critical consumer of

educational research. Students will learn the key characteristics, strengths and limitations of various research designs. Students will learn to critique the research methodologies employed by various studies and to synthesize the findings of multiple studies on a specific educational topic/problem.

## ELPP821 - Strat Lead in Dist Gov & Comm

### Course Information

#### Course Title

Strat Lead in Dist Gov & Comm

Subject code	Course Number	Academic Level
ELPP	821	Graduate

#### Course Description

Provides an initial exploration and exposure to leadership roles at the district setting and should be taken as part of a candidate's practicum experiences at the end of the program of study. Candidates expected to log a minimum of 90 hours of total practical field experiences to include, but not limited to, shadowing school leaders, observing other educators, assuming responsibility for basic leadership activities as assigned by mentor and conducting a case study on leadership concepts. Candidate will participate in three leadership seminars which focus on leadership foundations and best practices as articulated by current leaders in the field and a basic action research activity. Candidate will also begin to explore the role of the superintendent as an agent of change and/or reform.

## ELPP822 - Comm Theory for District Admin

### Course Information

#### Course Title

Comm Theory for District Admin

Subject code	Course Number	Academic Level
ELPP	822	Graduate

#### Course Description

This course is concerned with communication processes within an organization. It focuses on the sending, the receiving and the interpretation of messages. Principles of downward, upward and lateral systems are investigated. Case studies, specific to traditionally under-served and marginalized populations, including but not limited to those living in poverty, students learning English as another language, and students with disabilities are employed to illustrate typical problems that arise and the methodologies devised for

successful resolutions to achieve effective communication. Designed for students to learn how to represent a school district to all internal and external constituents, including the wider community.

## ELPP823 - Negotn & Persnl Strat Dec Makn

### Course Information

#### Course Title

Negotn & Persnl Strat Dec Makn

Subject code	Course Number	Academic Level
ELPP	823	Graduate

#### Course Description

Designed to prepare school leaders for leadership in the area of human resources in public schools. Includes a comprehensive review of the personnel function from the perspective of district central office administration and the theories and best practices in staff recruitment, selection, assignment, orientation, evaluation, professional development, reduction in force and other relevant current issues. Explores negotiations concepts, strategies, regulations and the other legal considerations within the commonwealth of Pennsylvania. Core field experiences, from the basis of the exploration and development of critical skills necessary to be successful, in the areas covered within the course to include the integration of institutional standards as they apply to all topics.

## ELPP824 - Eth & Leg Dec-mak at Dist Lvl

### Course Information

#### Course Title

Eth & Leg Dec-mak at Dist Lvl

Subject code	Course Number	Academic Level
ELPP	824	Graduate

#### Course Description

Designed for preparing executive leadership positions in public education. Students expected to have background in public school law and some experiences in leading public schools at either the building and/or district levels. Focuses on a review of key areas of school law with advanced study in the level areas which are currently challenging school and district leaders. State laws affecting public education will be studied in detail along with issues dealing with student rights, the role of the school board, laws specific to the roles of school leaders, parent and community issues, emerging special education challenges and laws dealing with business and finance.

Impct Fac & Plnt Mgmt Schl Eff

Subject code	Course Number	Academic Level
ELPP	825	Graduate

#### Course Description

Designed for students in the Superintendent's Letter of Eligibility Program and for practicing educational administrators who want to update skills in educational facilities and plant management. Related educational program to facilities planning and development; provides an opportunity for students to interact with professional from a variety of disciplines related to planning and development of educational facilities, relates local planning to Pennsylvania Department of Education requirements and regulations; and provides field-based work in contemporary facility planning, development and maintenance.

## ELPP826 - Opt Fin Res Supp Dist Lvl Achv

### Course Information

#### Course Title

Opt Fin Res Supp Dist Lvl Achv

Subject code	Course Number	Academic Level
ELPP	826	Graduate

#### Course Description

Project driven course focuses on the changing perception of finance in the American public schools (K-12). Assists in creating a platform of beliefs about school finance, budgeting and the role of the superintendent by helping them understand key issues from a historical perspective, as well as current thinking on what it should become. Emphasis on approaches to developing, evaluating and articulating financial planning strategies to staff, the public and the school board that inform decisions about student achievement. Also discusses the relationship between school boards and superintendents specific to budget development and strategies for enhancing the relationship.

## ELPP827 - Inst & Tech Ldrshp at Exec Lvl

### Course Information

#### Course Title

Inst & Tech Ldrshp at Exec Lvl

Subject code	Course Number	Academic Level
ELPP	827	Graduate

#### Course Description

Provides an advanced exploration and exposure to leadership roles at the district setting and should be taken as part of a candidate's practicum experiences at the end of program of study. Candidates expected to log 180 hours of practical field experiences to include, but not limited to, shadowing school leaders, observing other educators, assuming responsibility for instructional leadership activities as assigned by mentor and conducting a case study on instructional leadership concepts. In addition, the candidate will participate in three leadership seminars which will focus on instructional leadership foundations and best practices as articulated by current leaders in the field. Candidate will also begin to explore the role of superintendent as an agent of change and/or reform.

## ELPP828 - Emernt Tech & Instruc Practice

### Course Information

#### Course Title

Emernt Tech & Instruc Practice

Subject code	Course Number	Academic Level
ELPP	828	Graduate

#### Course Description

Designed to provide future school and district administrators with the requisite skill sets and conceptual knowledge needed for effective 21st century leadership. Understanding technology as a tool for learning, managing, analyzing, communicating and collaborating is integral to successful school leadership at the classroom, building and central office levels. Topics explored include technology integration, digital citizenship, use of technology in systematic organizational improvement, professional growth, digital culture and visionary leadership. In addition to developing personal philosophies regarding use of technology in teaching, learning, and leading, each student will develop a personal portfolio of resources.

## ELPP829 - Pol/Soc Cont for Ed Leadership

### Course Information

#### Course Title

Pol/Soc Cont for Ed Leadership

Subject code	Course Number	Academic Level
ELPP	829	Graduate

Course Description

Examines the theories of leadership and organization and their applications to administrative practices. Sociological, psychological and organizational models will be described and analyzed to gain insight into administrative practices and processes such as decision making, group motivation, goal setting, delegating, conflict resolution and site-based management. Extensive research of current practices including but not limited to including programming for those living in poverty, students learning English as another language, and students with disabilities is required. Course designed to target current issues and problematic situations facing the central office administrator in today's dynamic system of public education.

ELPP830 - Quan Research Mthd in Ed Ldrsh

Course Information

Course Title

Quan Research Mthd in Ed Ldrsh

Subject code	Course Number	Academic Level
ELPP	830	Graduate

Course Description

This course is designed to prepare school leaders for leadership positions in public education. It intends to help postgraduate students in defining an appropriate mode of quantitative inquiry related to a chosen topic of study. The course has been constructed to guide students through a range of issues and considerations, which should inform their general approach to quantitative research. It will give students a general understanding of postgraduate and professional quantitative research, its methodologies, its challenges and its organization. Students will be introduced to a range of research tools and will be equipped to plan and organize their research, as well as to communicate their findings with academic, school district and community audiences.

ELPP831 - Educational Statistics

Course Information

Course Title

Educational Statistics

Subject code	Course Number	Academic Level
ELPP	831	Graduate

Course Description

Designed to enable the student to interpret the scientific literature in education and psychology and to make the computations involved in the use of tests and original investigations that require statistical technique. Measure of central tendency, variability and correlations are included as are knowledge of and evaluation of effect size research related to instructional practices, leadership practices, and educational policy.

ELPP832 - Intro to Executive Leadership

Course Information

Course Title

Intro to Executive Leadership

Subject code	Course Number	Academic Level
ELPP	832	Graduate

Course Description

Introductory study of the organization and administration of American public education for persons interested in pursuing a professional career in educational administration. Students will examine theories of leadership based on cooperation, empowerment and fucilitation of change. A basic understanding of educational leadership is developed through integration oftheory, knowledge and actual practice. Focusing on the multi-fuceted roles of school/district leaders, students will study the role of an executive leader through the lens of the executive leader as a learner, mentor, instructional leader, supervisor, manager, politician, advocate and innovator. Combining theory with practice, students will obtain a deeper understanding ofthe complexity ofleadership within traditional and non-traditional school and district settings, including but not limited to urban and multilingual schools and/or blended and online learning environments.

ELPP851 - Advanced Level Leadership

Course Information

Course Title

Advanced Level Leadership

Subject code	Course Number	Academic Level
ELPP	851	Graduate

Course Description

ELPP 851: Advanced Level Leadership (3 credits) No pre or co requisites  
In this course, students will collaboratively lead, design, and implement a district mission, vision, and process for continuous improvement that reflects a core set of values and

priorities that include data use, technology, values, equity, diversity, digital citizenship, and community. They will work collaboratively to demonstrate the capacity to advocate for ethical decisions and cultivate professional norms and culture. These aspects will be further examined through various leadership theories along with a focus to poverty and technology (in alignment with existing MU leadership foci). This course includes 60 required internship hours.

Simple Requisites

Free Form Requirements

This course is part of a post-master's certificate in educational leadership. Students must hold M.Ed. or equivalent to enroll in course.

ELPP890 - Research in Edu Ldshp Part 1

Course Information

Course Title

Research in Edu Ldshp Part 1

Subject code	Course Number	Academic Level
ELPP	890	Graduate

Course Description

The purpose of the course is to help students identify potential dissertation topics in the field of education leadership such that when they pass their comprehensive examinations they are prepared for dissertation seminar activities that support the development of their dissertation proposals. This course will bring together a group of students and faculty members periodically throughout the program to examine possible areas of research in the field of executive leadership in concert with the program themes of poverty and digital learning. Students will explore their ideas, background and potential methodologies with a collegial faculty and candidate group, address questions about the viability of

possible research ideas and be introduced to a variety of sources that may help them refine their ideas or locate alternative areas of exploration based on their interests.

# English and World Languages Department

## ENGLISH

We educate graduate students whose refined research, analytical, and writing skills enable them to advance into doctoral programs or other professional endeavors. We offer two graduate degrees, the Master of Arts and the Masters of Education. In addition, the department provides curriculum that leads to Certification for students who wish to become teachers, but who do not have a degree in education or in English. We also offer a Graduate Certificate in Writing to hone advanced writing skills that enhance career trajectories.

## LANGUAGE & CULTURE STUDIES

Millersville University's Post-Baccalaureate Certification Program is designed for those applicants who already have a bachelor's degree and would like to be certified to teach in the State of Pennsylvania. It is not necessary to complete a second degree in order to be certified.

Offerings include Spanish (K-12).

**Complete at least 1 of the following:**

Option 1. Foundations Graduate Level

**Complete ALL of the following Courses:**

- EDFN590 - Social Foundation of Educ
- EDFN545 - Advanced Educational Psychology

**OR**

Option 2. Foundations Undergraduate Level

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

**Additional Comments:**

**Major in English, Post-Bacc Certification**  
**Type**  
Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Required Courses (9 credits)

**Complete ALL of the following Courses:**

- ENGL220 - Introduction to Language Study
- ENGL237 - Literary Research and Analysis
- ENGL242 - Reading Our World:  
OR ENGL242H - Hnrs: Reading Our World:

**AND**

Intro to Film or History of Film (0-3 credits)

**Complete at least 1 of the following courses:**

- ENGL240 - The Art of Film  
OR ENGL240H - Hnrs:The Art of Film
- ENGL481 - History Of Film

**AND**

Early, Late and World Literature

**Fulfill ALL of the following requirements:**

Early Literature Course (3 credits)

**Complete at least 1 of the following courses:**

- ENGL231 - World Literature 1
- ENGL233 - Early British Literature
- ENGL235 - American Literary Tradition I

**AND**

Late Literature Course (3 credits)

**Complete at least 1 of the following courses:**

- ENGL232 - World Literature 2  
OR ENGL232H - Hnrs: World Literature 2

728 / 1368

- ENGL234 - Later British Literature
- ENGL236 - American Literary Tradition II

AND

World Literature Course (3 credits)

**Complete at least 1 of the following courses:**

- ENGL231 - World Literature 1
- ENGL232 - World Literature 2
- OR ENGL232H - Hnrs: World Literature 2

One World Literature Course is required. It may be shared with the Early or Late Literature requirement as appropriate.

AND

Modern Syntax (3 credits)

**Complete ALL of the following Courses:**

- ENGL321 - Modern Syntax

AND

New Dimensions to World Lit (3 credits)

**Complete ALL of the following Courses:**

- ENGL336 - New Dimensions to World Lit

AND

Shakespeare (3 credits)

**Complete ALL of the following Courses:**

- ENGL405 - Shakespeare
- OR ENGL405H - Hnrs:Shakespeare

AND

American Literature (3 credits)

**Complete at least 1 of the following courses:**

- ENGL429 - Smnr Sel Am Auth:  
OR ENGL429H - Hnrs:Smnr Sel Am Auth:
- ENGL430 - Ethnic American Lit Since 1945  
OR ENGL430H - Hon: Ethnic American Lit Since 1945

AND

Teaching Reading & Literature to Young Adults (3 credits)

**Complete ALL of the following Courses:**

- ENGL486 - Teaching Reading & Literature to Young Adults

AND

Seminar in Teaching Writing (3 credits)

**Complete ALL of the following Courses:**

- ENGL487 - Seminar in Teaching Writing
- OR ENGL487H - Hon: Seminar in Teaching Writing

ENGL 486 and ENGL 487 must be taken before APS-Professional Bloc.

AND

Electives

**Fulfill ALL of the following requirements:**

English Perspectives Elective

**Complete ALL of the following Course Sets:**

- Any ENGL course(s) with Perspectives (P) attribute

AND

English Elective 400-Level

**Complete ALL of the following Course Sets:**

- Any 4-level ENGL course(s)

AND

English Electives (6 credits)

**Earn at least 6 credits from the following:**

- Any ENGL course(s)

Generally, non-ENGL courses do not count for certification, exceptions/ equivalents may be some Journalism, Film Studies or Comparative Lit

**Additional Comments:**

### Professional Education - Certification (33 credits)

#### Type

#### Completion Requirement

Foundations Bloc (6 credits)

**Fulfill ALL of the following requirements:**

Foundations of Modern Education (3 credits)

**Complete at least 1 of the following courses:**

- EDFN590 - Social Foundation of Educ
- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education

AND

Psychological Foundations of Teaching (3 credits)

**Complete at least 1 of the following courses:**

- EDFN545 - Advanced Educational Psychology
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

We recommend 590 and 545 for Post-Bacc students. These courses each require 35 hours field placement at an urban school. Offered in the evenings Fall and Spring. Also offered in Summer Session. If enrolling in EDFN211 Foundations Modern Education/EDFN241 Psyc Foundation of Teaching and please register for both

courses in the same block.

### APS - Professional Bloc

**Fulfill ALL of the following requirements:**

Instructional Technology, Design & Assessment (3 credits)

**Complete at least 1 of the following courses:**

- EDFN530 - Instructional Technology, Design and Assessment
- EDFN330 - Instructional Technology, Design & Assessment

AND

Issues in Secondary Education (3 credits)

- OR EDFN211H - H: Foundations Modern Education

— AND —

Psychological Foundations of Teaching (3 credits)

**Complete at least 1 of the following courses:**

- EDFN545 - Advanced Educational Psychology

- EDFN241 - Psychological Foundations of Teaching
- OR EDFN241H - Hon:Psychological Foundations of Teaching

We recommend 590 and 545 for Post-Bacc students. These courses each require 35 hours field placement at an urban school. Offered in the evenings Fall and Spring. Also offered in Summer Session. If enrolling in EDFN211 Foundations Modern Education/EDFN241 Psyc Foundation of Teaching and please register for both courses in the same block.

— AND —

APS - Professional Bloc

**Fulfill ALL of the following requirements:**

Instructional Technology, Design & Assessment (3 credits)

**Complete at least 1 of the following courses:**

- EDFN530 - Instructional Technology, Design and Assessment
- EDFN330 - Instructional Technology, Design & Assessment

— AND —

Issues in Secondary Education (3 credits)

**Complete at least 1 of the following courses:**

- EDSE521 - Issues in Second Education
- EDSE321 - Issues in Secondary Education
- OR EDSE321H - H: Issues in Secondary Education

— AND —

Secondary Students w/Disabilities in Inclusive Settings (3 credits)

**Complete at least 1 of the following courses:**

- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings
- SPED546 - Sec Stdnts w Disab Inclu Sttgs

— AND —

Teaching of Foreign Languages (3 credits)

**Complete ALL of the following Courses:**

- FORL480 - Tchg For Lang in Sec School

Students must meet APS eligibility requirements prior to registering. Course Appropriate PRAXIS II Exam should be taken after Professional Bloc and but prior to Student Teaching.

— AND —

Student Teaching Seminar (3 credits)

**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar

File your Intent to Student Teach Card one year prior to the beginning of the semester in which you wish to Student Teach. [Access the Student teaching Website](#)

— AND —

Student Teaching Semester (9 credits)

**Complete ALL of the following Courses:**

- EDFL461 - Student Teaching Forgn Lang
- EDFL462 - Student Teaching Forgn Lang

Students must meet APS eligibility requirements prior to registering. Submit your Teacher Certification Packet 90 days prior to completion of your certification program. [Access the packet on the Certification Website.](#)

**Additional Comments:**

## English, M.A.

### Overview

The Master of Arts degree program in English is designed to strengthen professional skills for all fields and prepare students for continuing graduate study. The English M.A. enhances the student's intellectual and aesthetic life through the intense study of literature, writing studies, literary theory, film studies and linguistics. The Master of Arts degree program may be completed fully face-to-face, fully online, or a

combination of both face-to-face and online.

Earning a Master of Arts degree in English at Millersville University can hone your writing skills, strengthen your analytic abilities and sharpen your investigation skills. Earning a Master of Arts degree can help you change careers or enhance your current career. The English M.A. cultivates curiosity, openness and creativity as mindset approaches to support you as you develop skills and content knowledge. These mindset values, along with the skills obtained throughout a master's degree, strengthen your impact in the workplace.

## Admission Requirements

Admission to the program is open to those applicants who possess a baccalaureate degree from an accredited college with an undergraduate major in English, or by special permission. Applicants must submit supporting documents as required for general admission to a graduate program (see *Admission Requirements* section). Applicants must submit a sample of scholarly work (an 8-15-page critical or research paper recently prepared).

An admissions decision is based upon an evaluation of all application documents by the graduate program coordinator. If probational admission is granted, the graduate program coordinator will stipulate the conditions to be met by the applicant before full admission is granted (e.g., satisfactory completion of prescribed undergraduate courses or completion of a certain number of graduate English courses with a satisfactory GPA).

## Degree Candidacy

Admission to degree candidacy requires successful completion of 9-18 s.h. of departmentally approved graduate coursework with an overall B average and satisfaction of the foreign language requirement. This coursework should include at least 9 s.h. at Millersville University. Students need to complete both ENGL 614, The Profession of English Studies and ENGL 651, Literary Criticism, to achieve degree candidacy. A student who accumulates a maximum of 21 s.h. of graduate coursework and whose grade average falls below a B will be dropped from the degree program.

Upon completion of 18 s.h. of graduate coursework, a student must apply and be admitted to degree candidacy, after which he/she should, in consultation with the graduate program coordinator, develop a program which lists the requirements needed to complete the degree program. Once a student has completed 18 credits of graduate coursework, they may not proceed with their program until they have been approved by

the department for degree candidacy.

Curriculum

Simple Requisites

Major in English, MA

Type

Completion Requirement

Graduate Core

Fulfill ALL of the following requirements:

The Profession of English Studies (3 credits)

Complete ALL of the following Courses:

- ENGL614 - The Profession of English Studies

AND

Required Courses (3 credits)

Complete ALL of the following Courses:

- ENGL651 - Literary Criticism

AND

Seminar: Rhetoric/Composition (3 credits)

Complete ALL of the following Courses:

- WRIT672 - Sem: Rhetoric/Composition

AND

Literature Course (3 credits)

Complete ALL of the following Course Sets:

- Any ENGL 601-645 course(s)

Note: This requirement may not be satisfied with ENGL614 The Profession of Engl Studies.

AND

Writing Course

Complete at least 1 of the following:

Option 1

Complete at least 1 courses in the following course sets:

- Any WRIT 670-675 course(s)
- Any WRIT 692-695 course(s)

OR

Option 2

Complete ALL of the following Courses:

- WRIT682 - Genres in Nonfiction Writing

English Focus (12 credits)

Earn at least 6 credits from the following:

- Any 5-level ENGL course(s)
- Any 6-level ENGL course(s)
- Any 5-level WRIT course(s)
- Any 6-level WRIT course(s)

Capstone Project

Complete at least 1 of the following:

Option 1. Thesis Option

Complete ALL of the following Courses:

- ENGL699 - Thesis:

OR

Option 2. Curriculum Option

Complete ALL of the following Courses:

- ENGL691 - Independent Studies

OR

Option 3. ENGL 680

Earn a minimum grade of C- in the following:

- ENGL680 - Digital Portfolio Workshop

Upon completion of the capstone project, the student will meet with a committee for an oral exam of the project. Options include: Traditional or Creative Thesis, Curriculum Artifact, or successful completion (B or better) of ENGL680 Digital Portfolio Workshop.

Additional Comments:

# English, M.Ed.

## Overview

The Master of Education degree in English is designed to prepare students for continuing graduate study in English or related fields and to develop in students a substantial understanding of the subject matter of English (language, literature and composition) and related educational theory (philosophy, psychology and research). These understandings are intended to lead toward increased competence in teaching and curriculum development.

## Admission Requirements

Admission to the program is open to those applicants who possess a baccalaureate degree from an accredited college with an undergrad major in English, or by special permission. Applicants must submit a sample of scholarly work (an 8-15-page critical or research paper recently prepared).

After reviewing all application documents, the graduate program coordinator may recommend unqualified admission or probational admission. If the department recommends probational admission, the conditions shall be clearly stipulated (e.g., the successful completion of a designated course (or courses) either at the graduate or undergraduate level).

Students applying for admission to the M.Ed. degree must be aware that the M.Ed. degree does not confer teaching certification. Hence, students who do not already have English certification when they apply to this program may have to complete various undergraduate courses if they wish to receive that certification. Students with this degree are qualified to teach English at community colleges. The M.Ed. serves as a complement to secondary English teachers' professional development.

## Degree Candidacy

Admission to degree candidacy requires successful completion of 12-15 s.h. of departmentally approved graduate coursework with an overall B average. This coursework should include at least 9 s.h. at Millersville University. Students need to complete ENGL614 The Profession of English Studies, The Professon of English Studies and the M.Ed. professional core in order to achieve degree candidacy. A student who accumulates a maximum of 21 s.h. of graduate coursework and whose grade average falls below a B will be dropped from the degree program.

Upon completion of 18 s.h. of graduate coursework, a student must apply and be admitted to degree candidacy, after which

he/she should, in consultation with the graduate program coordinator, develop a program which lists the requirements needed to complete the degree program.

Students must take at least six courses that are offered either as graduate only or graduate mostly course level.

## Graduate Writing Certificate

### Overview

This is an 18-credit program of study designed for postgraduate students or community members seeking advanced coursework to better conceptualize and effectively compose diverse genres of writing, with particular attention to *professional writing*—business and technical communication, digital communication, grant writing, writing for publication in various venues, including portfolio preparation—and *creative writing*, or producing poetry, memoirs, various kinds of fiction, drama and screenplays. In addition, committed to the professionalization of writing pedagogy, this graduate certificate will offer advanced coursework in the *teaching of writing*. The Graduate Certificate in Writing can be completed as a stand-alone program for any interested student with a bachelor’s degree from an accredited four-year college or university. The degree need *not* be in English. This certificate program can also provide a specialization for Millersville University graduate students seeking an M.A. or M.Ed. in English; its requirements complement the demands of both degrees.

### Curriculum

#### Simple Requisites

Capstone Course (3 credits)

**Earn at least 3 credits from the following:**

- ENGL300 - English Internship
- ENGL499 - Departmental Honors

**Additional Comments:**

## American Literature Minor

### Overview

A minor in American Literature gives you the opportunity to explore early, modern and contemporary American literature, the American Renaissance, realism, naturalism, American authors and more. While studying literature, you will also be introduced to literary theories and the development of languages. This minor is housed within the English and World Languages department, and is available to both English and non-English majors.

### Curriculum

#### Simple Requisites

## English as a Second Language/Linguistics Minor

### Overview

English as a Second Language/Linguistics minors experience the breadth of the English field while dedicating themselves to the specific study of ESL and/or Linguistics. ESL/Linguistics courses at Millersville University include Introduction to Language Study, Introduction to Linguistic Analysis, Modern Syntax, Applied Linguistics, Teaching English as a Second Language, Teaching ESL Listening and Speaking, and History of the English Language.

## Curriculum

### Simple Requisites

#### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

### Minor in ESL/Linguistics (18 credits)

#### Type

#### Completion Requirement

#### Requirements

#### **Fulfill ALL of the following requirements:**

##### Required Courses (6 credits)

#### **Complete ALL of the following Courses:**

- ENGL220 - Introduction to Language Study
- ENGL221 - Intro to Linguistic Analysis  
OR ENGL221H - Hon: Intro to Linguistic Analysis

AND

OR ENGL363H - H:Applied Linguistics
- ENGL364 - Teaching English as a Second Language
- ENGL465 - Special Topics in Lang: Sem

#### Additional Comments:

## Film Studies Minor

### Overview

A minor in Film Studies will expand students' knowledge of films, give them an understanding of film history and culture, and help them discuss films using appropriate technical vocabulary. This minor is housed within the English department, and is available to both English majors and non-English majors. In addition to courses available within the English department, students are encouraged to take film courses offered in other disciplines like Philosophy and Anthropology.

## Curriculum

## Science Writing

### Overview

The multidisciplinary minor in Science Writing is grounded in the complexities of effective communication and thorough scientific understanding.

You will split your studies between Foundations in Writing and Foundations in Science. Foundations in Writing classes refine writing skills for various public audiences through the study of rhetoric and scientific communication. Foundations in Science classes explore your chosen focus of biology, physics, chemistry or earth sciences.

- WRIT342 - Reading/Writing for Civic Chng
- WRIT466 - Special Topics in Writing
- WRIT471 - Creative Writing

Two of the elective courses must be taken in the English Department.

**Additional Comments:**

## English, B.A.

### Overview

Our liberal arts-based English program, with its humanistic focus, is designed to give B.A. students a background in literature, language, writing, and related fields of study, as well as knowledge of themselves. Students are exposed to both the rich cultural heritage of the past and the most promising creative work of the present. One of the major aims of the program is to assist students in communicating effectively and logically in any choice of profession or vocation. Upon completion of this course of study, English majors from Millersville should be qualified for admission to graduate schools and other professional training programs, and they should be well prepared for careers that require writing and research skills.

Additional Comments:

Accelerated English BA MA

Overview

The Accelerated Bachelor’s Master’s allows English BA undergraduate students the opportunity to pursue graduate studies in English beginning in their Junior year as undergraduates. This program allows students the opportunity for early acceptance into the MA English. Accepted students may complete up to 12 credits or 4 courses

of Literature, Rhetoric, and Creative Writing graduate course work during their undergraduate program, and extends through the Master of Arts in English.

Students accepted into the Accelerated English program will be billed for undergraduate tuition for the 12 credits of graduate work that meet both degree requirements. Students in the accelerated program must adhere to Graduate Academic Standing policy available in the Graduate Catalog for all graduate coursework completed.

AND

### ACT 126 - Educator Ethics Training

You must submit your Educator Ethics Training.

AND

### APS Status

Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

### Additional Comments:

## English, B.S.Ed.

### Overview

Students whose goal is to become a teacher have a program of coursework that has been nationally recognized by the National Council of Teachers of English (NCTE) and the National Association of Professional Development Schools (NAPDS). Students take courses both in the College of Arts, Humanities and Social Sciences and in the College of Education and Human Services.

To stay on schedule, English B.S.Ed. students should take their "foundations block," EDFN 211 Foundations Modern Education and EDFN 241 Psychological Foundations of Teaching, in their sophomore year. Registering for these classes requires students to process and submit background checks and clearances. Transfer students should plan ahead for these courses.

B.S.Ed. students should apply for admission to Advanced Professional Studies (APS) in their junior year, in preparation for Professional Development School. APS requirements are listed on students' degree audits; students should strive to maintain a 3.0 cumulative GPA for admission into APS.

Millersville's Professional Development School (PDS) is a full-year internship experience that immerses future teachers in a school setting. This senior-year apprenticeship with a master

teacher allows English B.S.Ed. students to shift their focus from simply learning about teaching to implementing their learning in the classroom.

## Curriculum

### Simple Requisites

#### Major in English, BSE

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Linguistic Foundations (6 credits)

##### Complete ALL of the following Courses:

- ENGL220 - Introduction to Language Study
- ENGL321 - Modern Syntax

AND

##### Literature Surveys

##### Fulfill ALL of the following requirements:

Early Lit Survey (3 credits)

## English, B.S.Ed. - Film Studies Option

### Overview

The film studies option enables English B.A. or B.S.Ed. majors to develop skills and proficiency in the discipline of film studies, including its history, aesthetics, terminology, methods of analysis, theoretical frameworks and interrelationships with society/culture. B.S.Ed. students may want to take this option to teach film studies in high school.

### Curriculum

#### Simple Requisites

**Major in English, BSE (60 credits)**

**Type**

Completion Requirement

**Requirements**

**Fulfill ALL of the following requirements:**

Option in Film Studies

See separate block

AND

Linguistic Foundations (6 credits)

**Complete ALL of the following Courses:**

- ENGL220 - Introduction to Language Study
- ENGL321 - Modern Syntax

## Rhetoric and Digital Writing Certificate

### Overview

This online certificate program allows students to gain critical advanced skills in the area of digital writing. The courses in the online certificate program build a foundation in rhetorical theory, then include courses in digital writing. Courses emphasize current digital writing spaces like social media, blogs, websites, and more to prepare students for digital writing in workplaces, nonprofits, schools, and more. The foundation in rhetorical theory helps students develop skills that will adapt to technological changes and advances in the decades to come.

## ENGL233 - Early British Literature

### Course Information

#### Course Title

Early British Literature

#### Subject code

ENGL

#### Course Number

233

#### Academic Level

Undergraduate

### Course Description

Survey of British literature from Anglo-Saxon times to 1800. Texts studied span early tales like Beowulf and King Arthur legends through Shakespeares plays up to the rise of the novel in the 18th century. Students will examine historical context and thematic connections as they observe authors wrestling with social problems and larger questions about the nature of faith and heroism, love and life, the monstrous and magical. Readings selected to include works by women writers, writers of color, and writers speaking from the margins of British society.

### General Education Labels

G1

## ENGL234 - Later British Literature

### Course Information

#### Course Title

Later British Literature

Subject code	Course Number	Academic Level
ENGL	234	Undergraduate

### Course Description

Survey of British literature including works from the early Romantic period through the early 21st century. Explores historical context and thematic connections as students examine how authors such as Jane Austen, Charles Dickens, Virginia Woolf, and Zadie Smith respond and contribute to the vast social changes attending a period that spans the industrial revolution, two world wars, the expansion of civil liberties, and the rise of postmodernism. Readings selected to include works by women writers, writers of color, and writers speaking from the margins of British society. ENGL 233 is not a prerequisite.

### Course Information

#### Course Title

Victorian Literature: Madwomen & Decadent Men

Subject code	Course Number	Academic Level
ENGL	412	Undergraduate

#### Course Description

Literary figures and their works against social and political backgrounds from the start of Victorias reign through the start of World War I, a period marked by rapid social change impelled by industrialism and imperial expansion. Examines canonical authors (e.g. the Brontës, Charles Darwin, Christina Rossetti, and Oscar Wilde) as well as lesser-known writers (e.g. the early feminist new women and writers who documented the consequences of colonialism). Explores how authors negotiate nineteenth-century anxieties regarding class conflict and the industrial condition of England; shifting conceptions of gender and sexuality; tensions between science and religion; the ethics of imperialism; and evolving theories of the modern arts. Prereq ENGL 110.

Genres in Poetry Writing

Subject code	Course Number	Academic Level
ENGL	581	Graduate

### Course Description

An immersion in poetry writing, often in workshop format, with special attention to the theories and practices of poetry's construction, for example how and why verse is generated in distinctive ways. Instructors will choose the genre that will be the focus of each section.

## ENGL586 - Special Topics in English

### Course Information

#### Course Title

Special Topics in English

Subject code	Course Number	Academic Level
ENGL	586	Graduate

#### Course Description

In-depth investigation and development of one or more topics of current interest not normally covered in regular courses. Special topics to be covered and methods to be used will vary according to the needs of the students and faculty involved. Offered periodically.

## ENGL587 - Special Topics in English

### Course Information

#### Course Title

Special Topics in English

Subject code	Course Number	Academic Level
ENGL	587	Graduate

#### Course Description

In-depth investigation and development of one or more topics of current interest not normally covered in regular courses. Special topics to be covered and methods to be used will vary according to the needs of the students and faculty involved. Offered periodically.

## ENGL588 - Special Topics in English

### Course Information

#### Course Title

Special Topics in English

Subject code	Course Number	Academic Level
ENGL	588	Graduate

### Course Description

In-depth investigation and development of one or more topics of current interest not normally covered in regular courses. Special topics to be covered and methods to be used will vary according to the needs of the students and faculty involved. Offered periodically.

## ENGL589 - Special Topics in English

### Course Information

#### Course Title

Special Topics in English

Subject code	Course Number	Academic Level
ENGL	589	Graduate

#### Course Description

In-depth investigation and development of one or more topics of current interest not normally covered in regular courses. Special topics to be covered and methods to be used will vary according to the needs of the students and faculty involved. Offered periodically.

## ENGL601 - Old English Language and Lit

### Course Information

#### Course Title

Old English Language and Lit

Subject code	Course Number	Academic Level
ENGL	601	Graduate

#### Course Description

An introduction to the structure of Old English and reading in Old English prose and poetry. Offered periodically.

## ENGL602 - Middle English

### Course Information

#### Course Title

Middle English

Subject code	Course Number	Academic Level
ENGL	602	Graduate

#### Course Description

Language and literature of England from 1100 to 1500, exclusive of Chaucer, with attention to changes in the language, literature and culture, especially between 1066 and 1509. Offered periodically.

### Course Information

#### Course Title

Chaucer

Subject code	Course Number	Academic Level
ENGL	603	Graduate

#### Course Description

Important works by Chaucer, with attention to the religious, philosophical, political and literary characteristics of his time; study of the language, pronunciation and versification; and important criticism. Offered annually.

## ENGL604 - Renaissance in English

### Course Information

#### Course Title

Renaissance in English

Subject code	Course Number	Academic Level
ENGL	604	Graduate

#### Course Description

Renaissance spirit in England, demonstrated by nondramatic literature. Offered biennially.

## ENGL605 - Shakespeare

### Course Information

#### Course Title

Shakespeare

Subject code	Course Number	Academic Level
ENGL	605	Graduate

#### Course Description

Critical and historical examination of Shakespeares plays and poetry, and introduction to major critics and sources. Offered every semester.

## ENGL606 - Eng Lit in the Early 17th Cent

### Course Information

#### Course Title

Eng Lit in the Early 17th Cent

Subject code	Course Number	Academic Level
ENGL	606	Graduate

#### Course Description

Major English works, with attention to prose style, forms and style in verse; political events and developments in religious thought; intellectual climate of period 1600-1660. Offered biennially.

## ENGL607 - Milton

### Course Information

#### Course Title

Milton

Subject code	Course Number	Academic Level
ENGL	607	Graduate

#### Course Description

Miltons poetry and prose, in relation to religious, philosophical and critical tendencies of the Puritan period. Offered annually.

## ENGL609 - English Novel of the 18th Cent

### Course Information

#### Course Title

English Novel of the 18th Cent

Subject code	Course Number	Academic Level
ENGL	609	Graduate

#### Course Description

Emphasis on the rise of the English novel as an art form. Reading list varies. Offered periodically.

## ENGL610 - British Novel of the 19th Cent

### Course Information

#### Course Title

British Novel of the 19th Cent

Subject code	Course Number	Academic Level
ENGL	610	Graduate

#### Course Description

Study of the Victorian novel as an art form and as expression of the general culture of a period. Reading list varies. Offered periodically.

## ENGL611 - Romantic Movement in England

### Course Information

#### Course Title

Romantic Movement in England

Subject code	Course Number	Academic Level
ENGL	611	Graduate

#### Course Description

Main currents in the literature of the Romantic Age. Emphasis on Wordsworth, Coleridge, Byron, Shelley and Keats. Attention paid to Burns, Blake and major prose writers of the period. Offered periodically.

## ENGL612 - Literature of Victorian Englnd

### Course Information

#### Course Title

Literature of Victorian Englnd

Subject code	Course Number	Academic Level
ENGL	612	Graduate

#### Course Description

Victorian culture as interpreted by leading poets and prose writers who came to prominence between 1830 and 1900. Emphasis will be placed on such figures as Carlyle, Mill, Newman, Tennyson, Browning, Arnold, Ruskin, the Rossettis, Swinburne, Carroll, Hopkins, Hardy and Wilde. Offered periodically.

## ENGL613 - Modern British Fiction

### Course Information

#### Course Title

Modern British Fiction

Subject code	Course Number	Academic Level
ENGL	613	Graduate

#### Course Description

Examination of the novel and story since 1900. Focus on experimental narrative techniques in the fiction of Conrad, Joyce, Lawrence, Forster, Woolf and Ford. Offered periodically.

## ENGL614 - The Profession of English Studies

### Course Information

#### Course Title

The Profession of English Studies

Subject code	Course Number	Academic Level
ENGL	614	Graduate

#### Course Description

English studies represents a wide range of scholarly and pedagogical interests and practices. This course will focus on the history and present state of English studies as an academic discipline or field.

## ENGL615 - Sem Sel Brit Writ:

### Course Information

#### Course Title

Sem Sel Brit Writ:

Subject code	Course Number	Academic Level
ENGL	615	Graduate

#### Course Description

Intensive study of selected figures; investigation of primary and secondary sources; special problems in scholarly research. Writers studied will vary. Offered periodically.

## ENGL616 - The Documentary

### Course Information

#### Course Title

The Documentary

Subject code	Course Number	Academic Level
ENGL	616	Graduate

#### Course Description

This course examines the art of interpreting, understanding, appreciating, and analyzing nonfiction film. It examines both rhetorical and narrative devices in nonfiction film as well as ethical considerations and ways to interpret a range of nonfiction cinematic genres. Auteur studies as well as film theories contribute to participants' understanding of this important medium.

## ENGL621 - Early American Lit to 1830

### Course Information

#### Course Title

Early American Lit to 1830

Subject code	Course Number	Academic Level
ENGL	621	Graduate

#### Course Description

Examination of Colonial and Federal literature, with some discussion of the beginnings of Romanticism. Special attention to Bradstreet, Taylor, Edwards, Franklin, Wheatley, Brockden, Brown, Irving and Cooper. Offered annually.

## ENGL622 - The Amer Renaissance: 1830-85

### Course Information

#### Course Title

The Amer Renaissance: 1830-85

Subject code	Course Number	Academic Level
ENGL	622	Graduate

#### Course Description

Focus on Transcendentalism and such figures as Hawthorne, Poe, Thoreau, Melville, Emerson, Whitman and Dickinson. Offered annually.

## ENGL623 - Dev of the Amer Novel: 19th C

### Course Information

#### Course Title

Dev of the Amer Novel: 19th C

Subject code	Course Number	Academic Level
ENGL	623	Graduate

#### Course Description

Narrative fiction from early and middle parts of 19th century to fin de sicle; emphasis on the Romance, the Gothic tale, and the rise of the novel. Offered periodically.

## ENGL624 - Realism and Naturalism to 1920

### Course Information

#### Course Title

Realism and Naturalism to 1920

Subject code	Course Number	Academic Level
ENGL	624	Graduate

#### Course Description

A study of stylistic, thematic and philosophic issues relating to literary realism and naturalism. Selections from writers such as Twain, Howells, Wharton, James, Crane, Norris, London and Dreiser. Offered periodically.

## ENGL625 - Modern Amer Fiction, 1920-1945

### Course Information

#### Course Title

Modern Amer Fiction, 1920-1945

Subject code	Course Number	Academic Level
ENGL	625	Graduate

#### Course Description

Important American fiction writers of the 20th century, with emphasis on major developments in ideas and techniques. Special attention to Anderson, Cather, Wright, Hurston, Fitzgerald, Hemingway, Faulkner, Steinbeck and others. Offered annually.

## ENGL626 - Modern American Drama

### Course Information

#### Course Title

Modern American Drama

Subject code	Course Number	Academic Level
ENGL	626	Graduate

#### Course Description

American drama from World War I to the present, with emphasis on significant developments in the styles and techniques explored by such dramatists as O'Neill, Hellman, Williams, Miller, Albee, Hansberry and others. Offered annually.

## ENGL627 - Modern American Poetry

### Course Information

#### Course Title

Modern American Poetry

Subject code	Course Number	Academic Level
ENGL	627	Graduate

#### Course Description

In-depth study of several major American poets, including Eliot, Pound, Millay, Moore, Hughes, Frost, Stevens, Williams and others. Offered periodically.

## ENGL628 - Contemporary Amer Lit: 1945-Pr

### Course Information

#### Course Title

Contemporary Amer Lit: 1945-Pr

Subject code	Course Number	Academic Level
ENGL	628	Graduate

### Course Description

Major trends in poetry, fiction and drama since World War II, with emphasis on such prominent figures as Barth, Bellow, Mailer, Oates, Updike, Plath, Olson, Shepard, Mamet and others. Offered annually.

## ENGL629 - Smnr Sel Am Auth:

### Course Information

#### Course Title

Smnr Sel Am Auth:

Subject code	Course Number	Academic Level
ENGL	629	Graduate

#### Course Description

Intensive study of the works of selected American authors. May be taken more than once for credit. Offered periodically.

## ENGL630 - American Ethnic Literature

### Course Information

#### Course Title

American Ethnic Literature

Subject code	Course Number	Academic Level
ENGL	630	Graduate

#### Course Description

A study of the representative literary works of various ethnic groups in contemporary America. Designed to develop an appreciation for and a critical understanding of multiculturalism, the course will examine the cultural plurality and social tension reflected in contemporary ethnic literature and discuss complex issues, such as race, ethnicity, power, gender, and identity that are involved in the process of Americanization.

## ENGL631 - Comparative Literature 1

### Course Information

#### Course Title

Comparative Literature 1

Subject code	Course Number	Academic Level
ENGL	631	Graduate

#### Course Description

Foundations of modernism in world literature. Symbolism, Aestheticism, Decadence. Comparative approach to the study of literature, from Poe to Baudelaire to Pater, Sartre, Tolstoy, T.S. Eliot, Lorca, Unamuno and others. Offered periodically.

## ENGL641 - Poetry

### Course Information

#### Course Title

Poetry

Subject code	Course Number	Academic Level
ENGL	641	Graduate

#### Course Description

The nature of poetry as genre: content as an extension of form; form as an extension of content. Approached through creative writing processes and practices. Offered periodically.

## ENGL642 - Drama

### Course Information

#### Course Title

Drama

Subject code	Course Number	Academic Level
ENGL	642	Graduate

#### Course Description

Drama as a literary genre; detailed study of specimens of drama of all types and periods. Approached through creative writing processes and practices. Offered periodically.

## ENGL643 - Fiction

### Course Information

#### Course Title

Fiction

Subject code	Course Number	Academic Level
ENGL	643	Graduate

#### Course Description

Fiction as a literary genre; in-depth study of specific works of various types and periods; emphasis on specimens of fiction from around the world. Approached through creative writing processes and practices. Offered periodically.

## ENGL644 - Modern British Poetry

### Course Information

#### Course Title

Modern British Poetry

Subject code	Course Number	Academic Level
ENGL	644	Graduate

Course Description

Forms, techniques and schools of 20th-century British poetry. Emphasis on the major poets and representative contemporary poets. Offered periodically.

ENGL645 - The Short Story

Course Information

Course Title

The Short Story

Subject code	Course Number	Academic Level
ENGL	645	Graduate

Course Description

The rise and development of the short story as a literary genre. Approached through creative writing processes and practices. Offered periodically.

ENGL651 - Literary Criticism

Course Information

Course Title

Literary Criticism

Subject code	Course Number	Academic Level
ENGL	651	Graduate

Course Description

Origin and development of literary criticism; the splintering of critical approaches and methodologies (e.g., psychological, sociological, linguistic, archetypal and mythopoeic approaches); current developments such as phenomenology and structuralism; deconstruction; feminist criticism, etc. Offered annually.

ENGL660 - Tchg ESL Listening and Speakng

Course Information

Course Title

Tchg ESL Listening and Speakng

Subject code	Course Number	Academic Level
ENGL	660	Graduate

Course Description

Gain a deeper understanding of the nature of spoken English and investigate current approaches to the teaching of ESL listening and speaking skills. Learn effective techniques and teaching ideas for ESL listening and speaking. Also learn the integration of listening and speaking with other language skills in ESL teaching. Note: This course counts toward the

M.A. or M.Ed. degree in English, but not toward the ESL certification or the BSE Chapter 49-2 ESL requirement. Prereq: ENGL 110. Offered annually.

Simple Requisites

Course Prerequisites

Type

Prerequisite

ENGL 110 or ENGL 110H

Complete ANY of the following Courses:

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

Additional Comments:

ENGL661 - Semnr in Transformational Ling

Course Information

Course Title

Semnr in Transformational Ling

Subject code	Course Number	Academic Level
ENGL	661	Graduate

Course Description

An introduction to the transformational-generative approach to language analysis. The primary focus of the course is syntax, although the semantic and phonological components of grammar are also examined. Offered periodically.

ENGL662 - Dialects of American English

Course Information

Course Title

Dialects of American English

Subject code	Course Number	Academic Level
ENGL	662	Graduate

Course Description

An investigation of the nature of dialectal and stylistic variation in American English, focusing on selected problems and issues of recent research in linguistic geography and sociolinguistics. Offered periodically.

## ENGL663 - Applied Linguistics

### Course Information

#### Course Title

Applied Linguistics

Subject code	Course Number	Academic Level
ENGL	663	Graduate

#### Course Description

Applications of current linguistic theory to the study and teaching of a variety of language-related subject matters, including grammar, composition, spelling, second language acquisition, reading and literature. Offered periodically.

## ENGL664 - Teaching of Eng as Sec Lang

### Course Information

#### Course Title

Teaching of Eng as Sec Lang

Subject code	Course Number	Academic Level
ENGL	664	Graduate

#### Course Description

Examination of leading theoretical approaches to second language learning. Methods and techniques useful in developing listening, speaking, reading and writing skills. Opportunities for peer teaching and related application projects. Offered periodically.

## ENGL666 - Semnr in Tchng Lit to Adolesc

### Course Information

#### Course Title

Semnr in Tchng Lit to Adolesc

Subject code	Course Number	Academic Level
ENGL	666	Graduate

#### Course Description

Study of a considerable body of literature suitable for adolescents of varying abilities and backgrounds, and of techniques useful in improving reading skills and developing positive attitudes toward reading. For M.Ed. majors. Offered annually.

## ENGL667 - Seminar in Eng Curriculum

### Course Information

#### Course Title

Seminar in Eng Curriculum

Subject code	Course Number	Academic Level
ENGL	667	Graduate

#### Course Description

Principles and processes of curriculum development and a study of exemplary curricula for English in the middle and secondary schools. For M.Ed. majors. Offered periodically.

## ENGL668 - Sem Eng Ed:

### Course Information

#### Course Title

Sem Eng Ed:

Subject code	Course Number	Academic Level
ENGL	668	Graduate

#### Course Description

Recent research and new directions in English education. Individualized research and study. Seminar presentation of independent investigation. For M.Ed. majors. Offered periodically.

## ENGL670 - Film and Media in Sec Classrm

### Course Information

#### Course Title

Film and Media in Sec Classrm

Subject code	Course Number	Academic Level
ENGL	670	Graduate

#### Course Description

Examination of structures, genres and purposes of both fiction and nonfiction film, television and advertising in the context of the secondary classroom and the ways viewers should read and interpret those media. Students will learn how the effective understanding and analysis of these forms can assist them in a deeper comprehension and construction of print texts. Emphasis will be placed on interpreting these texts as a means of developing 21st-century literacies. Offered in summer.

## ENGL677 - Writing Pedagogy

### Course Information

#### Course Title

Writing Pedagogy

Subject code	Course Number	Academic Level
ENGL	677	Graduate

Course Description

Participants learn about writing instruction by engaging in a writers' workshop, via discussions, by studying adolescent writers, by exploring new teaching processes in a case study, and by reading about writing instruction. The purpose is to provide the opportunity for students to become thoughtful and effective teachers of writing, whether in a secondary context, a college or university context or an adult education context. Students work toward this goal by situating themselves in a flexible vantage point: that of the teacher-writer-researcher.

ENGL678 - The Teacher as Writer

Course Information

Course Title

The Teacher as Writer

Subject code	Course Number	Academic Level
ENGL	678	Graduate

Course Description

This course is designed for teachers K-12 who would like to grow as writers. It consists of structured participation in an on-going writing workshop where participants become increasingly sophisticated in their use of writing process strategies, conference and response skills, various genres and styles. The course includes mini-workshops from local writers and is a place where we form a community of writers as we share, listen and grow. Participants experiment with new genres and submit at least one of their pieces for publication.

ENGL679 - Experimental

## HUMN110 - French Fairy Tales

### Course Information

#### Course Title

French Fairy Tales

Subject code	Course Number	Academic Level
HUMN	110	Undergraduate

#### Course Description

An exploration of a major literary and cultural tradition still greatly influential in modern literature and films. Class will focus on Charles Perrault, the seventeenth century recorder of a number of well-known fairy tales such as Little Riding Hood, Cinderella, and Sleeping Beauty; Madame d'Aulnoy, one of the most prolific French fairy-tale writers of the seventeenth century; and Madame le prince de Beaumont, author of the Beauty and the Beast. Modern adaptations of Perrault's fairy tales in films, literature, music and/or art will be discussed. Finally students will be asked to read articles chosen to represent a wide variety of critical approaches to fairy tales. Class will consist of lectures and interactive activities.

Course Information

Course Title

Latino Issues of Identity

Subject code	Course Number	Academic Level
HUMN	380	Undergraduate

Course Description

Critically examines a variety of poetry, fiction, short stories and essays produced by U.S. Latino/a writers and artists. Analysis of films and newspaper clippings related to the Latino experience will be discussed. Texts examined will be approached not as isolated words on a page, but as part of a living culture with a rich historical context. Interdisciplinary in nature, combining literature with history and cultural studies, but also comparative, since the diversity of cultures will be explored under the rubric of Latino, which includes Chicanos, Puerto Ricans, Cubans and Dominicans, among others. Knowledge of Spanish not necessary. Offered periodically. Prereq: COMM 100, ENGL 110, junior status.

## LANC490 - Sr Seminar: Lang & Cult Study

### Course Information

#### Course Title

Sr Seminar: Lang & Cult Study

Subject code	Course Number	Academic Level
LANC	490	Undergraduate

Course Description

The Language and Culture Studies Senior Seminar gives senior French, German, and Spanish majors with the Culture Studies option the opportunity to compare and contrast various cultural topics from multiple interdisciplinary perspectives. Students from the various majors will research, discuss, and compare specific cultural topics germane to one or more of the countries in which their target language is spoken. The course will be taught in English and at the end of the course each student will submit a research paper and present their findings orally to a general audience. Prerequisite is 24 credits in the major. For FORL majors only.

#### Additional Comments:

## SPAN303 - Spanish for Heritage Speakers

### Course Information

#### Course Title

Spanish for Heritage Speakers

Subject code	Course Number	Academic Level
SPAN	303	Undergraduate

#### Course Description

This course is for students who were raised speaking Spanish, but who have not studied Spanish formally and are unsure of grammar and spelling, but would like to perfect their command of the language. The course will prepare the students to be able to continue successfully their Spanish studies at the 300-level and so more easily get a minor or major in Spanish, or simply to be ready to use Spanish on the job or in any formal context. It is different from courses like SPAN 101-202 where much of the focus is on building basic vocabulary for non-Spanish speakers and on encouraging students to speak, as well as teaching correct pronunciation. Students in SPAN 203 already know how to speak and pronounce Spanish; this course concentrates on grammar, writing, stylistics, and reading, as well as advanced vocabulary building. This will be done through reading, writing, and discussing such topics as customs peculiar to Spanish-speaking countries, the experiences of Hispanic immigrants to the United States, traditional and modern art and architecture in Spain and Latin American countries, global warming and conservation, and coming-of-age experiences. Focus is on being able to describe places, people and events, narrating a past event, stating an opinion and defending it. In larger terms, the class will: 1. examine, analyze, and critically evaluate the Spanish spoken by each member of the class and the heritage that that Spanish reflects and 2. compare and contrast it with what is considered "standard" Spanish; 3. express orally and in

writing the differences and similarities between formal and informal speech and among Latin American, Latino, Spanish, and Anglo-American speech and customs; 4. increase critical thinking, oral and written communication skills; 5. describe orally and in writing the content of Spanish newspaper articles, short stories, films and a novel; 6. express orally and in writing opinions about the content of Spanish newspaper articles, short stories, films and a novel.

## SPAN509 - Applied Linguistics

### Course Information

Course Title

Applied Linguistics

Subject code	Course Number	Academic Level
SPAN	509	Graduate

### Course Description

Analysis of the language as behavior and emphasis on the priority of the spoken language in a systematic study of its structure. Comparison with English to explain and avoid errors of pronunciation and syntax resulting from intrusion of ones native language. Required for degree.

## SPAN512 - Introductory Phonetics

### Course Information

Course Title

Introductory Phonetics

Subject code	Course Number	Academic Level
SPAN	512	Graduate

### Course Description

A combination of theoretical lessons with practical exercises aimed at imparting native or near-native accents. Includes study of diction and intonation. Students are required to give readings and dramatic presentations in class and before the student body. Required for M.A.degree.

## SPAN522 - Composition

### Course Information

Course Title

Composition

Subject code	Course Number	Academic Level
SPAN	522	Graduate

### Course Description

Systematic practice in the language designed to hone students grammar and written skills to a level of proficiency that enables students to write with accuracy and fluency.

## SPAN523 - Composition and Stylistics

### Course Information

Course Title

Composition and Stylistics

Subject code	Course Number	Academic Level
SPAN	523	Graduate

#### Course Description

Designed to give students a feeling for Spanish style in writing, a sense of shades of meaning, and a mastery of certain difficulties of Spanish grammar and syntax. Writing of original compositions, precise writing and translation from English to Spanish. Required for degree.

## SPAN524 - Translation and Interpretation

### Course Information

#### Course Title

Translation and Interpretation

Subject code	Course Number	Academic Level
SPAN	524	Graduate

#### Course Description

Intended for students who already have a firm oral and written command of Spanish, but need expert guidance in learning to avoid the pitfalls inherent in transposing thought from one language to another. Emphasis on the importance of style, exactness of expression and use of the dictionary. Practical exercises in technical, scientific, commercial, journalistic and political language.

## SPAN525 - Advanced Oral Practice

### Course Information

#### Course Title

Advanced Oral Practice

Subject code	Course Number	Academic Level
SPAN	525	Graduate

#### Course Description

For advanced students who already possess fluency, but need practice in acquiring the habit-forming processes and spontaneous assimilation of spoken-language patterns necessary for mature self-expression. Oral reports and guided discussion. Students in the course will be expected to assume leadership roles in activities of the school, such as public speaking, dramatics, newspaper, etc.

## SPAN530 - Spanish Linguistics

### Course Information

#### Course Title

Spanish Linguistics

Subject code	Course Number	Academic Level
SPAN	530	Graduate

#### Course Description

An introduction to basic concepts and major divisions of modern linguistics as it pertains to the description of modern Spanish, including phonetics, phonology, morphology, syntax and semantics.

## SPAN531 - Evolution of Spanish Language

### Course Information

#### Course Title

Evolution of Spanish Language

Subject code	Course Number	Academic Level
SPAN	531	Graduate

#### Course Description

Historical survey of the development of the Spanish language from its Latin beginnings and its later influences to the languages of today. Particularly recommended for students within a summer or two of their comprehensive examinations.

## SPAN532 - Spanish Pragmatics

### Course Information

#### Course Title

Spanish Pragmatics

Subject code	Course Number	Academic Level
SPAN	532	Graduate

#### Course Description

Application of philosophical, sociological, and linguistic theory to the use of language in the professional workplace. Interdisciplinary analyses of how and why Spanish speakers choose to use particular language forms that convey different linguistic possibilities and different meanings in different cultural contexts.

## SPAN541 - History Spanish Civilization 1

## WRIT319 - Science Writing

### Course Information

#### Course Title

Science Writing

Subject code	Course Number	Academic Level
WRIT	319	Undergraduate

#### Course Description

This course will teach aspiring science writers and/ or scientists to effectively write about research for audiences both inside and outside of the sciences. The course will establish the premise that science is a social enterprise that, in addition to research acumen, requires rhetorical skill. Focusing on rhetorical skill, this class will analyze the communication strategies scientists and science writers use to argue for research findings, advocate public policy positions, and communicate risk. Students will consider how scientific texts address audiences, use key terms, and argue for their validity with quantitative and visual evidence. Students will also investigate how such specialized knowledge can be effectively and ethically accommodated for non-specialist audiences. Students will be encouraged to bring their own research interests into class projects to draw from and develop their voice as an expert. Students will engage these topical interests in assignments in which they write for disciplinary and interdisciplinary audiences as well as for non-academic audiences. Each context will require careful analysis and strategy to effectively meet audience expectations, which this course will cultivate through readings, sample analyses, and Writing exercises. In this class, students will develop a rhetorical approach to planning and producing scientific writing. This means that students will learn to analyze an audience, the purpose of the document, and the context of the document. Students will use those insights to plan, create, and revise documents that effectively communicate a message. This course will emphasize precision of language necessary to effectively communicate science from the sentence-level up to the whole document. Students will develop skills in inventing ideas, drafting, revising and in peer review. Peer review will be an especially important skill in this class as it models the professional behavior of scientists. Prereq: ENGL 110 and 60 credit hours (Jr Status)

WRIT	673	Graduate

#### Course Description

Focus upon the rhetoric(s) of professional communication within the contexts of students' own on-the-job writing: how to thoughtfully select language, visual and audial texts, and deliberately designed formats to accommodate writers' intentions as creative problem-solvers and to meet the needs of diverse audiences. This course is designed for both practicing professionals and working people aspiring to new professional positions. In a workshop format and, at times, working in teams, students will compose modes of discourse typical of professional writing, including but not limited to electronic and/or print ad copy, web content, brochures, non-profit pamphlets, letters, informal reports, formal reports, promotional campaigns, and/or recommendations; social media writing for websites, wikis and blogs; students' own websites, wikis, and blogs.

## WRIT674 - New Media Rhetoric

### Course Information

#### Course Title

New Media Rhetoric

Subject code	Course Number	Academic Level
WRIT	674	Graduate

#### Course Description

Gain a rhetorical and theoretical understanding of how texts operate in our increasingly sophisticated online media culture. Examine these new media texts as they appear on the Internet with a particular emphasis on social media as well as old media that is being transformed by/in/to the digital. Learn to follow these processes of text (re)mediation as they take place through perceptual and temporal processes, movement, and memory.

## WRIT675 - Community Writing

### Course Information

#### Course Title

Community Writing

## Entrepreneurship Department

Millersville University's interdisciplinary minor in entrepreneurship is the only truly interdisciplinary minor of its kind throughout the entire Pennsylvania State System of Higher Education. This minor allows students in any major to bring an entrepreneurial perspective to their specific area of study.

FACULTY LIST
Dain Estes, Coordinator, Economics Minor

## Programs

### Entrepreneurship Minor

#### Overview

The minor in entrepreneurship is a dynamic interdisciplinary program that provides opportunities to Millersville students from different disciplines to interact and learn about entrepreneurship—the process of creating value through recognizing and developing opportunities. It serves to complement the student's major area of study by providing the knowledge and skills needed so that students can create or start their own ventures, work for start-up companies or a family business, or pursue traditional jobs that may involve launching new business units or joint ventures. The goal of the entrepreneurship minor is to learn to think entrepreneurially, identify resources and tools, formulate business plans, and devise clear and compelling value propositions as well as ethical practices.

Subject code	Course Number	Academic Level
WRIT	675	Graduate

#### Course Description

Focuses on the theory and practice of community literacy and citizen engagement in the community. Emphasizes research on community literacy and action-oriented projects meeting community literacy needs.

## WRIT682 - Genres in Nonfiction Writing

### Course Information

#### Course Title

Genres in Nonfiction Writing

Subject code	Course Number	Academic Level
WRIT	682	Graduate

#### Course Description

Exploration of theories and practices of creative non-fiction, including but not limited to memoirs, profiles, histories, biographies, travel literature, blogging, and nature writing in diverse modes (print, digital,& visual) for diverse audiences and purposes.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken

Pass-Fail.

6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

### Minor in Entrepreneurship (18 credits)

Course Description

The development and exchange of scholarly information and the scope of the work shall include the exploration of current topics in entrepreneurship, which will require course registrants to engage in research and scholarly exchanges through class discussion, projects, reports, and/or papers.

Environmental Sciences Department

Five multidisciplinary minors are available that have been designed for students with an environmental interest. A full major in a discipline is an important foundation on which to build expertise in a specific environmental area, and the minors are designed to complement majors in the sciences, technology and social sciences. Increasingly, environmental problems are addressed by multidisciplinary teams, so the minors prepare students to operate in this multidisciplinary setting.

The environmental minors are coordinated by the Millersville University Center for Environmental Sciences (MUCES), and the director of MUCES is the primary contact for the minors.

For information on environmental studies and for course prerequisites, also see the Biology, Chemistry, Earth Sciences and Geography sections.

For information on environmental options within majors, also see the Biology, Chemistry, Earth Sciences and Geography sections.

# Programs

## The Exploratory Program

### Overview

The Exploratory Program, housed in the Department of Academic Advisement & Student Development, is intended for students who are unsure which major they want to pursue or may have narrowed down their options to a few possibilities but have not yet decided on a major.

Our mission here at Millersville is to encourage you to graduate on time while giving you the opportunity to explore a variety of interests to match your passion and skills with a major. We have the resources to help you do just that; they

keep you on track and keep you motivated while satisfying your curiosity. Even though you may start as a first-year student unsure of what direction you may want to go, you will still be working toward your degree requirements while exploring your options.

The program gives you flexibility to change direction if necessary. Entering college in the Exploratory Program doesn't mean you'll be here longer; it just means your path to graduation may be a little different, but just as fulfilling!

### Course Information

#### Course Title

First-Year Experience: To Infinity and Beyond

Subject code	Course Number	Academic Level
FYEX	100A	Undergraduate

#### Course Description

Each First Year Seminar (FYEX) section features an academic centerpiece (a question, topic, or theme) that will ground the process of intellectual inquiry through a free exchange of

ideas during and outside of class. FYEX instructors mentor and assist students in developing meaningful and purposeful goals.

#### Simple Requisites

**There are no pre-requisite courses for FYEX 100.**

#### Type

Prerequisite

#### Additional Comments:

# Geography Department

Geography is the study of how people relate to their natural and human surroundings. Geography is a bridge discipline, an environmental science which brings together principles of physical sciences and other social sciences; a social science which examines the spatial characteristics of culture, history, politics, economies and business decisions; and a liberal arts discipline which provides background for study in art, languages, literature, music, education and many other subjects. Geographers can bring to analyses of current issues an understanding of global interrelationships and specialized geospatial technology skills. Many geographers develop professional skills in map interpretation, cartography, geographic information systems (GIS), and remote sensing. Geographic understanding and skills create the potential for employment in such diverse areas as planning and other government agencies, environmental and cartographic service companies, and the business community. Contact the department chairperson for more detailed information on career opportunities.

The Bachelor of Arts program in Geography offers major concentrations in environmental studies, geospatial applications, global studies, and sustainability studies. The major program requires 42 credit hours of study and a minor program of study outside the department.

The Bachelor of Science program in Environmental and Spatial Sciences provides advanced training in geospatial technologies, including: geographic information science (GIS), global positioning system (GPS) technology, remote sensing, data management, and cartography. Graduates of the program are well-positioned for careers in environmental analysis and mitigation of environmental problems. The program prepares students to assess environmental and human-environment systems, identify and evaluate environmental problems, and design innovative and sustainable solutions.

The Bachelor of Science in Education (B.S.Ed.) program in secondary education, providing certification for social studies teaching with a geography emphasis, serves students who are interested in a robust and well-rounded social studies preparation for their future teaching careers.

Minor programs of study in environmental geography, geospatial applications, global geography, sustainability studies, and general geography each require 18 credits and may be studied by those students in major programs other than the B.A. Geography.

FACULTY LIST
<b>Cuthbert, Angela</b> ; Professor College of Science and Technology B.E.S., University of Waterloo (Canada), 1995; M.E.S., Ibid., 1996; Ph.D., McMaster University (Canada), 2001
<b>Frost, Ethan</b> ; Assistant Professor College of Science and Technology B.A., Clark University, 2002; M.S., University of Delaware, 2006; Ph.D., Ibid., 2011
<b>Geiger, Charles</b> ; Associate Professor College of Science and Technology B.S., Edinboro University, 1976; M.A., Kent State University, 1978; Ph.D., University of Toronto (Ontario), 1984
<b>Kelly, Jessica</b> ; Associate Professor College of Science and Technology B.A., Boston University, 2003; M.A., Ibid., 2003; Ph.D., Rutgers University, 2009
<b>Schreiber, Kathleen</b> ; Professor College of Science and Technology B.A., University of Delaware, 1983; M.S., Ibid., 1990; Ph.D., Ibid., 1996

## Programs

### Environmental Geography Minor

#### Overview

A minor in environmental geography emphasizes a study of physical and human geography and traditional resource-based issues of air, water, energy and land resources. The minor complements most majors in the social and natural sciences. 18 credits required.

#### Curriculum

##### Simple Requisites

Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.

2. Only one course which counts toward your major may be counted toward your minor.

3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.

4. At least two courses should be at the upper-division level (300-400). Exceptions may be

requested upon evidence of program depth.

5. No course needed for the minor may be taken Pass-Fail.

6. One-half or more of the work required for the minor must be completed at Millersville University.

7. No student may minor in his or her major.

Minor in Environmental Geography (18 credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Required Courses (6 credits)

Complete ALL of the following Courses:

• GEOG101 - The Global Environment

• GEOG202 - Environmental Sustainability

AND

Physical Geography or Geomorphology (3 credits)

**Complete at least 1 of the following courses:**

- GEOG230 - Physical Geography
- ESCI225 - Geomorphology

AND

Physical Geography or Geomorphology (3 credits)

**Complete at least 1 of the following courses:**

- GEOG281 - Maps and GIS

AND

Geography Electives at the 300-400 Level (6 credits)

**Complete at least 2 courses in the following course sets:**

- Any 3-level GEOG course(s)
- Any 4-level GEOG course(s)

**Additional Comments:**

requested upon evidence of program depth.

5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

## Minor in Geospatial Applications (18 credits)

### Type

### Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

Intro Level GEOG Course (3 credits)

**Complete at least 1 of the following courses:**

- GEOG101 - The Global Environment
- GEOG120 - Human Geography
- GEOG130 - Intro to Environmental Science  
OR GEOG130H - Hon: Intro to Environmental Science (Inactive)
- GEOG230 - Physical Geography

AND

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- GEOG281 - Maps and GIS

AND

GIS:Vector Data Analysis (3 credits)

**Complete ALL of the following Courses:**

- GEOG295 - GIS I: Vector Data Analysis

AND

GIS:Raster Data Analysis or Field and Research Methods (3 credits)

**Complete at least 1 of the following courses:**

- GEOG296 - GIS II: Raster Data Analysis  
OR GEOG296H - H: GIS II: Raster Data Analysis (Inactive)

## Geospatial Applications Minor

### Overview

A minor in geospatial applications emphasizes methods in geographic information systems (GIS), map use and interpretation, and cartography. The minor complements most business, social sciences, and natural sciences majors. 18 credits required.

### Curriculum

#### Simple Requisites

#### Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be

- GEOG289 - Field and Research Methods in Geography

AND

GEOG 38@ or 39@ Elective (3 credits)

**Complete at least 1 courses in the following course sets:**

- Any 38-level GEOG course(s)
- Any 39-level GEOG course(s)

AND

Upper Level Geography Elective (3 credits)

**Complete at least 1 courses in the following course sets:**

- Any 3-level GEOG course(s)
- Any 4-level GEOG course(s)

**Additional Comments:**

## General Geography Minor

### Overview

A minor in general geography complements most majors in the social and physical sciences. The general geography minor is customizable to student interests and career goals. The minor complements most majors offered by Millersville University.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be

requested upon evidence of program depth.

5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

### Minor in Geography (18 credits)

#### Type

#### Completion Requirement

##### Requirements

**Fulfill ALL of the following requirements:**

Minimum GPA

**Earn a minimum GPA of 2.0**

AND

##### Requirements

- Credits Required for minor
- Minimum Residency 50% of minor credits
- 2 Courses Must be Upper-Division

AND

##### Required Courses (6 credits)

**Complete ALL of the following Courses:**

- GEOG101 - The Global Environment
- GEOG281 - Maps and GIS

AND

##### Geography Electives at the 300-400 level (6 credits)

**Complete at least 2 courses in the following course sets:**

- Any 3-level GEOG course(s)
- Any 4-level GEOG course(s)

AND

##### Geography Electives (6 credits)

**Complete at least 2 courses in the following course**

**sets:**

- Any 1-level GEOG course(s)
- Any 2-level GEOG course(s)
- Any 3-level GEOG course(s)
- Any 4-level GEOG course(s)

Electives must be determined with approval of the Chairperson of the Geography Department.

**Additional Comments:**

## Global Geography Minor

### Overview

A minor in global geography emphasizes international and regional geographic issues, including people, communities and culture. The minor complements most humanities and social sciences majors. 18 credits required.

### Curriculum

#### Simple Requisites

*Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.

**Fulfill ALL of the following requirements:**

**Required Courses (3 credits)**

**Complete ALL of the following Courses:**

- GEOG101 - The Global Environment

AND

**Map Interpretation & Analysis (3 credits)**

**Complete ALL of the following Courses:**

- GEOG281 - Maps and GIS

AND

**Regional Geography Course (300-400 level) (3 credits)**

**Complete at least 1 courses in the following course sets:**

- Any 34-level GEOG course(s)
- Any 44-level GEOG course(s)

AND

**Systematic Geography Course (300-400 level) (3 credits)**

**Complete at least 1 of the following:**

**Option 1**

**Complete at least 1 courses in the following course sets:**

- Any 22-level GEOG course(s)
- Any 32-level GEOG course(s)

OR

**Option 2**

**Complete at least 1 of the following courses:**

- GEOG307 - US Environmental Policy
- GEOG407 - Gbl Envrnmtl Policy/ Negotiatn

AND

Geography Electives (6 credits)

Complete at least 2 courses in the following course sets:

- Any GEOG course(s)

Additional Comments:

Fulfill ALL of the following requirements:

Human Geography or World Regional Geography (3 credits)

Complete at least 1 of the following courses:

- GEOG120 - Human Geography
- GEOG141 - World Regional Geography

AND

Required Courses (6 credits)

Complete ALL of the following Courses:

- GEOG202 - Environmental Sustainability
- GEOG408 - Sustainable Development

AND

Climate and Society or US Environmental Policy (3 credits)

Complete at least 1 of the following courses:

- GEOG336 - Climate And Society
- GEOG307 - US Environmental Policy

AND

Sustainability Elective

Complete at least 1 of the following:

Option 1. Sustainability Elective

Complete at least 1 courses in the following course sets:

- Any 30-level GEOG course(s)
- Any 33-level GEOG course(s)
- Any 40-level GEOG course(s)

OR

Option 2. Sustainability Elective

Complete ALL of the following Courses:

- GEOG372 - Urban and Regional Planning

AND

## Sustainability Studies Minor

### Overview

A minor in sustainability studies is an interdisciplinary examination of themes in sustainable development, environmental studies, public policy, city and regional planning, economics, and social well-being. A sustainability minor complements most major programs of study in business, social sciences, natural sciences, and human services.

### Curriculum

#### Simple Requisites

Geography B.A., - Environmental Studies Option

Overview

Millersville University's Environmental Studies concentration offers a comprehensive program of study that encourages students to pursue study in traditional resource-based issues of air, water, energy and land resources. Emphasizing physical geography and environmental topics, this concentration bridges the social and natural sciences in order to study complex environmental problems. Graduates of this program have the foundation for further academic study in disciplines addressing geographic and environmental areas of study, or for immediate employment in the public and private sector, including areas of environmental planning, public policy, and natural resource management.

Environmental Studies is a concentration within the Geography major. 42 credits and a minor program of study required.

Additional Comments:

Geography, B.A. - Geospatial Applications Option

Overview

Millersville University's Geospatial Applications concentration offers a comprehensive program of study that emphasizes the acquisition of skills in geographic information systems (GIS), remotes sensing, map use and interpretation, cartography, spatial analytical skills, and advanced geospatial applications. Graduates of this program have the foundation for further academic study in disciplines addressing geographic and environmental issues in the social and natural sciences, or for immediate employment in public and private sectors in environmental and urban planning and management where GIS and geospatial analysis skills are highly desirable.

Geospatial Applications is available as concentration within the Geography major. 42 credits and a minor program of study required.

## Geography, B.A. - Sustainability Studies Option

### Overview

Millersville University's Sustainability Studies provides students with knowledge, skills, and ways of thinking needed to promote economic and social well-being while protecting the integrity of earth's living systems. Sustainability Studies is an interdisciplinary field, engaging sustainable development, environmental studies, public and environmental policy, city and regional planning, economics, social well-being, and global and local understanding. Spatial tools and skills enhance advanced issue analysis. The program is well-balanced between the integral social, policy, environmental, global, economic, and communication components of sustainability. Graduates of this program have the foundation for further academic study in disciplines addressing geographic and sustainability issues, or for immediate employment in the public or private sectors in sustainability and environmental management.

Sustainability Studies is a concentration in the B.A. program in Geography. 42 credits and a minor program of study required.

## Social Studies, B.S.Ed. - Geography Advised

### Overview

The Social Studies Secondary Education program at Millersville University incorporates core social studies courses with diverse education requirements. Core social studies courses explore the global environment, economics, government, history and more. In consultation with an academic adviser, you can concentrate in geography. All MU education programs include a Foundations Block which explores modern teaching and the psychology of teaching, Professional Blocks which focus on instructional technology and positive learning environments, and a semester of student teaching.

### Curriculum

#### Simple Requisites

#### Major in Social Studies Geography, BSE (45 credits)

##### Type

##### Completion Requirement

##### Major Required Core Foundation

##### Fulfill ALL of the following requirements:

#### Required Courses (36 credits)

##### Complete ALL of the following Courses:

- ECON100 - Introductory Economics
- ECON203 - Introduction to World Economy
- GEOG120 - Human Geography
- GEOG281 - Maps and GIS
- GOVT111 - Introduction to American Government
- GOVT221 - Introduction to Comparative Political Systems
- GOVT251 - Introduction to Global Politics
- HIST105 - History Matters
- HIST106 - Contours of US History
- HIST205 - The Art & Craft of History
- PSYC100 - General Psychology  
OR PSYC100H - Hnrs:General Psychology
- SOCY210 - Sociology of the Family

AND

#### Geography Course (3 credits)

##### Complete at least 1 of the following courses:

- GEOG141 - World Regional Geography
- GEOG226 - Political Geography  
OR GEOG226H - Hnrs:Political Geography (Inactive)
- GEOG248 - Geography of Africa  
OR GEOG248H - Hon: Geography of Africa (Inactive)
- GEOG342 - Europe
- GEOG343 - Latin America & the Caribbean
- GEOG344 - North America

AND

#### History Electives (6 credits)

##### Complete at least 2 of the following courses:

- HIST101 - Europe and the World 1350-1789
- HIST102 - Europe and the World 1789-Present
- HIST206 - World Culture & Religion to 1500
- HIST280 - Pre-Colonial Africa

#### Additional Comments:

## Professional Education (33 credits)

### Type

### Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

##### Educational Foundations (6 credits)

#### Complete ALL of the following Courses:

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

##### Required Education Courses (9 credits)

#### Complete ALL of the following Courses:

- EDSE321 - Issues in Secondary Education  
OR EDSE321H - H: Issues in Secondary Education
- EDFN330 - Instructional Technology, Design & Assessment
- EDSE433 - Teaching of Secondary Social Studies

AND

##### Accommodations and Adaptations (6 credits)

#### Complete ALL of the following Courses:

- EDSE340 - Content Area Literacy for Diverse Classrooms
- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings

AND

##### Student Teaching (12 credits)

#### Complete ALL of the following Courses:

- EDSE471 - Student Teaching Seminar
- EDSS461 - Student Teaching in Soc Sci

### Additional Comments:

## Advanced Professional Studies, BSE

### Type

### Completion Requirement

#### APS Requirements

#### Fulfill ALL of the following requirements:

##### English Composition (3 credits)

#### Complete at least 1 of the following courses:

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

AND

##### English Literature (3 credits)

#### Complete at least 1 of the following courses:

- ENGL230 - Introduction to Literature
- ENGL231 - World Literature 1
- ENGL232 - World Literature 2  
OR ENGL232H - Hnrs: World Literature 2
- ENGL233 - Early British Literature
- ENGL234 - Later British Literature
- ENGL235 - American Literary Tradition I
- ENGL236 - American Literary Tradition II
- ENGL241H - H:Explorations in World Lit
- ENGL242 - Reading Our World:  
OR ENGL242H - Hnrs: Reading Our World:
- ENGL292 - Science Fiction  
OR ENGL292H - Hon: Science Fiction
- ENGL333 - African-American Literature 1
- ENGL333H - Hnrs:African-American Literature 1
- ENGL334 - African American Literature 2
- ENGL334H - Hnrs:African American Literature 2
- ENGL336 - New Dimensions to World Lit
- ENGL338 - Folklore and Literature  
OR ENGL338H - H:Folklore and Literature
- ENGL401 - Old Eng Lang and Literature
- ENGL402 - Middle Eng Lang and Literature

AND

## Mathematics

Two Mathematics courses are required for BSE students. It is preferable to take two courses designated as G2. [Search for MATH courses on the current web schedule.](#)

[BIOL375 Biometry](#) will fulfill one Mathematics course for BSE BIOL students.

AND

## Required Courses (6 credits)

### Complete ALL of the following Courses:

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

## ACT 126 - Educator Ethics Training

You must submit your Educator Ethics Training.

AND

## APS Status

Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

## Additional Comments:

# Environmental & Spatial Sciences, B.S.

## Overview

Millersville University's Bachelor of Science program in Environmental and Spatial Sciences prepares students as environmental scientists with advanced training in geospatial technologies, including: geographic information science (GIS), global positioning system (GPS) technology, remote sensing, data management, and cartography. Graduates of the program are well-positioned for careers in environmental analysis and mitigation of environmental problems. Through

coursework in the program, students assess environmental and human-environment systems, identify and evaluate environmental problems, and design innovative and sustainable solutions.

The program is housed in the Department of Geography. 60 credits required in addition to required related courses applied to the general education program.

## Curriculum

### Simple Requisites

## Major in Environmental & Spatial Sciences (43-45 credits) Type

### Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

#### Required Core Geography (18 credits)

#### Fulfill ALL of the following requirements:

#### Required Courses (15 credits)

#### Complete ALL of the following Courses:

- GEOG130 - Intro to Environmental Science  
OR GEOG130H - Hon: Intro to Environmental Science (Inactive)
- GEOG120 - Human Geography
- GEOG289 - Field and Research Methods in Geography
- GEOG408 - Sustainable Development

AND

#### Physical Geography or Geomorphology (3 credits)

#### Complete at least 1 of the following courses:

- GEOG230 - Physical Geography
- ESCI225 - Geomorphology

AND

#### Required Spatial Science (12 credits)

#### Complete at least 1 of the following courses:

- GEOG281 - Maps and GIS
- GEOG292 - Quantitative and Spatial

#### Analysis

- GEOG295 - GIS I: Vector Data Analysis
- GEOG296 - GIS II: Raster Data Analysis  
**OR** GEOG296H - H: GIS II: Raster Data Analysis (Inactive)

— AND —

#### Spatial Science Electives (6 credits)

##### Complete at least 2 of the following courses:

- GEOG395 - GIS for Web Development
- GEOG384 - Cartography
- GEOG396 - GIS Modeling
- GEOG397 - GIS Data Management

— AND —

#### Environmental Studies Electives (9 credits)

##### Complete at least 3 of the following courses:

- GEOG304 - Water Resources Management
- GEOG305 - Energy Sustainability  
**OR** GEOG305H - Hon: Energy Sustainability (Inactive)
- GEOG306 - Environmental Impact Assessment
- GEOG307 - US Environmental Policy
- GEOG333 - Biogeography
- GEOG336 - Climate And Society
- GEOG407 - Gbl Envrmntl Policy/Negotiatn

— AND —

#### Required Capstone (1-3 credits)

##### Complete at least 1 of the following courses:

- GEOG300 - Co-Op Ed Experience in Geog
- GEOG488 - Senior Thesis
- GEOG489 - Honors Thesis

#### Additional Comments:

#### Req Related for Environmental & Spatial Sciences (33-34 credits)

##### Type

Completion Requirement

#### Requirements

##### Fulfill ALL of the following requirements:

Required Related Environmental Science (27-28 credits)

##### Fulfill ALL of the following requirements:

Required Courses (15 credits)

##### Complete ALL of the following Courses:

- BIOL100 - General Biology
- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- MATH161 - Calculus 1

— AND —

Physical Geology or Intro to Oceanography (8 credits)

##### Complete at least 1 of the following courses:

- ESCI221 - Physical Geology  
**OR** ESCI221H - Hnrs:Physical Geology
- ESCI261 - Introduction to Oceanography

— AND —

Physics I with Algebra or with Calculus (4-5 credits)

##### Complete at least 1 of the following courses:

- PHYS131 - Physics 1 with Algebra
- PHYS231 - Physics 1 with Calculus

— AND —

Environmental Science Req Related Electives (6 credits)

##### Earn at least 6 credits from the following:

- BIOL211 - Concepts of Zoology
- BIOL221 - Concepts of Botany
- BIOL340 - Prspctv in Environm Awareness  
**OR** BIOL340H - HNRS:Prspctv in Environm Awareness
- BIOL343 - Principles of Ecology & Evolution  
**OR** BIOL343H - Hon: Principles of Ecology & Evolution
- CHEM235 - Organic Chemistry

- CHEM265 - Quantitative Analysis
- CHEM375 - Environmental Chemistry
- CHEM476 - Environmental Chemistry 2
- ESCI226 - Geology of Earth and Energy Resources
- ESCI241 - Meteorology
- ESCI245 - Environmental Meteorology
- ESCI322 - Environmental Hydrology
- ESCI326 - Sedimentation and Stratigraphy
- ESCI329 - Aqueous Geochemistry
- ESCI366 - Marine Resources and Policy  
OR ESCI366H - Hon: Marine Resources and Policy
- ESCI385 - Global Climate Change: Sci & Policy  
OR ESCI385H - H: Global Climate Change: Sci & Policy
- ESCI422 - Geological Field Mapping
- ESCI426 - Groundwater Resources and

#### Contamination

- ESCI266 - Environmental Oceanography
- OSEH435 - Environmental Health
- PHYS132 - Physics 2 with Algebra
- PHYS232 - Physics 2 with Calculus

A minor program of study is highly recommended. Examples include Biology, Chemistry, Computer Science, Earth Sciences, Environmental Chemistry, Environmental Hazards and Emergency Management, Environmental Policy & Regulation, General Economics, Geology, Government and Political Affairs, Hydrology, Industrial and Environmental Health, Land Use, Mathematics, Meteorology, Occupational Safety & Environmental Health, Oceanography, Physics, Quantitative Methods in Environmental Science, Science Writing, Social Justice, Sustainability Studies, Water Resources.

#### Additional Comments:

## Courses

### GEOG101 - The Global Environment

#### Course Information

##### Course Title

The Global Environment

Subject code	Course Number	Academic Level
GEOG	101	Undergraduate

##### Course Description

Global survey of human environment interactions focusing on peoples use of natural resources and major related issues, including scarcity and environmental impacts. Comparisons between developing and developed countries and across cultures.

##### General Education Labels

G3

### GEOG120 - Human Geography

#### Course Information

##### Course Title

Human Geography

Subject code	Course Number	Academic Level
GEOG	120	Undergraduate

#### Course Description

Cultural geography of race, ethnicity, gender and political systems. Emphasis on processes that create and maintain cultures and the geographies that these processes produce. Offered in spring.

##### General Education Labels

Diversity (D), G3

### GEOG123 - Place and Identity

#### Course Information

##### Course Title

Place and Identity

Subject code	Course Number	Academic Level
GEOG	123	Undergraduate

##### Course Description

Introduction to humanistic geography through an examination of the foundational geographical concepts of place and human identity. Place, and its close corollary identity, are explored chronologically beginning with the philosopher-geographers of ancient Greece and Rome, through to modern social and political philosophies of the

19th and 20th centuries. Cross cultural examples are used to illustrate the nature of place as a fundamental element of everyday human experience of the world.

#### General Education Labels

G1

## GEOG130 - Intro to Environmental Science

### Course Information

#### Course Title

Intro to Environmental Science

Subject code	Course Number	Academic Level
GEOG	130	Undergraduate

#### Course Description

Introduction to the scientific concepts, principles, and methodologies that underlie environmental change and environmental sustainability. Emphasis on the spatial scale and interconnection of multiple environmental processes, the effects of human activities on environmental processes, and the technical and scientific methods for their assessment and analysis.

#### General Education Labels

G2

## GEOG141 - World Regional Geography

### Course Information

#### Course Title

World Regional Geography

Subject code	Course Number	Academic Level
GEOG	141	Undergraduate

#### Course Description

Spatial patterns of environmental, cultural, social, economic and political developments in selected regions of the world. Emphasis on developed and less developed parts of the world.

#### General Education Labels

G3

## GEOG202 - Environmental Sustainability

### Course Information

#### Course Title

Environmental Sustainability

Subject code	Course Number	Academic Level
GEOG	202	Undergraduate

### Course Description

Investigation of problems that have arisen through human use of earth's resources, and the technical, economic, policy, and social options available to us. Offered in fall, spring.

#### General Education Labels

G3

## GEOG222 - Economic Geography

### Course Information

#### Course Title

Economic Geography

Subject code	Course Number	Academic Level
GEOG	222	Undergraduate

#### Course Description

Location of economic activities in different environmental settings. The growth of global economic interdependence. Economic growth and development strategies in a regional framework. Economic versus environmental trade-offs. Offered in summer.

#### General Education Labels

G3

## GEOG223 - Health, Gender, Race & Class

### Course Information

#### Course Title

Health, Gender, Race & Class

Subject code	Course Number	Academic Level
GEOG	223	Undergraduate

#### Course Description

Introduction to the geographical distribution of select contemporary diseases and their relationships to other health care issues. Distribution of, and access to, scarce health care resources along with impacts of gender, race, and class on human life chances at global (especially developed versus developing countries), regional and local (such as urban versus rural) scales are evaluated.

#### General Education Labels

G3

## GEOG226 - Political Geography

### Course Information

#### Course Title

Political Geography

Subject code	Course Number	Academic Level
GEOG	226	Undergraduate

### Course Description

Political boundaries of the world map. Covers violent conflicts from which countries were formed. Colonization (1400-1900), decolonization (1800- 1970) and the Cold War are discussed. Offered in fall, spring. Prereq: ENGL 110.

### General Education Labels

Diversity (D), G3, Writing (W)

### Simple Requisites

#### Course Prerequisites

#### Type

Prerequisite

ENGL 110 or ENGL 110H

#### Complete ANY of the following Courses:

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

#### Additional Comments:

## GEOG227 - Cities

### Course Information

#### Course Title

Cities

Subject code	Course Number	Academic Level
GEOG	227	Undergraduate

### Course Description

City development is described and explained in a global context. The US city system is explained and compared to European, Asian and African urban systems. Contemporary city problems (gentrification, urban decline, segregation, etc.) are discussed.

### General Education Labels

G3

## GEOG228 - Geography of Sport

### Course Information

#### Course Title

Geography of Sport

Subject code	Course Number	Academic Level
GEOG	228	Undergraduate

### Course Description

Using a geographical basis, the course will examine a variety of topics, including landscapes of modern sport; place and space in sport; institutions and spatial organization of sport; and sport, politics and development. Offered periodically.

### General Education Labels

G3

## GEOG229 - Sustainable Tourism

### Course Information

#### Course Title

Sustainable Tourism

Subject code	Course Number	Academic Level
GEOG	229	Undergraduate

### Course Description

An investigation of the areal distribution of recreation and tourist activities and their positive and negative impacts; emphasis on environmental and economic aspects of leisure within a locational framework. Planning methodology to alleviate problems and create higher-quality recreational experiences. Offered infrequently.

### General Education Labels

G3

## GEOG230 - Physical Geography

### Course Information

#### Course Title

Physical Geography

Subject code	Course Number	Academic Level
GEOG	230	Undergraduate

### Course Description

Study of the Earths physical environment, including atmosphere, hydrosphere, lithosphere and biosphere. Viewing the Earth as an integrated system, global patterns and processes are analyzed. Offered annually.

### General Education Labels

G2

## GEOG242 - London

### Course Information

#### Course Title

London

Subject code	Course Number	Academic Level
GEOG	242	Undergraduate

#### Course Description

Using London as the core of the class, students will be introduced to basic geographic concepts and methods of analysis. Despite the focus on one city, London, the course will take a thematic approach towards geographical inquiry (map interpretation, urban planning, migration, segregation, industrial development, political geography and empire building) London's twentieth century industrial decline will be used to illustrate broader themes of global economic competition.

#### General Education Labels

G3

## GEOG245 - Geography of Pennsylvania

### Course Information

#### Course Title

Geography of Pennsylvania

Subject code	Course Number	Academic Level
GEOG	245	Undergraduate

#### Course Description

Introduction to the geography of Pennsylvania, using the tools and concepts of regional geography. Physical, cultural and economic landscapes and resulting social and environmental issues are examined.

#### General Education Labels

G3

## GEOG248 - Geography of Africa

### Course Information

#### Course Title

Geography of Africa

Subject code	Course Number	Academic Level
GEOG	248	Undergraduate

#### Course Description

The course uses a thematic approach to examine many of the subfields of geography as they pertain to Africa. Topics include the physical landscape, climate, vegetation, environmental issues, precolonial and colonial history, politics, culture, population, urbanization, agricultural and economic development, and medical gender issues. Offered periodically.

#### General Education Labels

Diversity (D), G3

## GEOG278 - Transportation Geography

### Course Information

#### Course Title

Transportation Geography

Subject code	Course Number	Academic Level
GEOG	278	Undergraduate

#### Course Description

Transportation is defined as the movement of goods and people from place to place. This course introduces the principles underlying these movements, with discussion of the economic, social and environmental impacts. Offered periodically.

#### General Education Labels

G3

## GEOG279 - Experimental

### Course Information

#### Course Title

Experimental

Subject code	Course Number	Academic Level
GEOG	279	Undergraduate

#### Course Description

Experimental Course in Geography

## GEOG281 - Maps and GIS

### Course Information

#### Course Title

Maps and GIS

Subject code	Course Number	Academic Level
GEOG	281	Undergraduate

#### Course Description

Thorough examination of maps as tools for representing Earth dimensions, depicting landscapes and displaying data. Use Geographic Information Systems (GIS) mapping software to make a variety of effective maps.

#### General Education Labels

G3

# GEOG289 - Field and Research Methods in Geography

## Course Information

Course Title

Field and Research Methods in Geography

Subject code	Course Number	Academic Level
GEOG	289	Undergraduate

Course Description

Introduction to the theory, process, and methodology used to collect and analyze data, and conduct and communicate research within the multidisciplinary context of geographic inquiry.

General Education Labels

Writing (W)

GEOG295 or ESCI281

**Complete ANY of the following Courses:**

- GEOG295 - GIS I: Vector Data Analysis
- ESCI281 - GIS Applications for Earth Sci

**Additional Comments:**

GEOG300 - Co-Op Ed Experience in Geog

Course Information

**Course Title**  
Co-Op Ed Experience in Geog

Subject code	Course Number	Academic Level
GEOG	300	Undergraduate

**Course Description**  
Assignment with a public agency or private organization. Requirements include design of an approved job description relevant to employers functions and students program, and a planned program of contact with the faculty supervisor. Performance evaluation by sponsor used in assigning satisfactory/unsatisfactory grade.

GEOG302 - Food System Sustainability

Course Information

**Course Title**  
Food System Sustainability

Subject code	Course Number	Academic Level
GEOG	302	Undergraduate

**Course Description**  
Examines the attendant economic, social and environmental impacts of our food system. Key areas of policy influence on our food system and sustainable interventions for transforming our food system will also be addressed. Offered periodically. Prereq: ENGL 110; GEOG 101 or GEOG 130 or GEOG 202 or permission of instructor.

**General Education Labels**  
G3, Writing (W)

#### Additional Comments:

## GEOG343 - Latin America & the Caribbean

### Course Information

#### Course Title

Latin America & the Caribbean

Subject code	Course Number	Academic Level
GEOG	343	Undergraduate

#### Course Description

A thematic study of the physiographic and cultural regions of Latin America and the Caribbean. Historical, economic, political, social, and environmental geography approaches to studying regional characteristics. Select topics include population change, land use change, urban development, economic development, environmental sustainability, and human rights. Offered periodically. Prereq: COMM100; ENGL110; and junior or senior status.

### General Education Labels

Perspectives (P)

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ENGL 110 or ENGL 110H or COMM100 or COMM100H

#### Complete ANY of the following Course Sets:

- ENGL 110 and COMM 100

Credit Hours Completion (Junior or Senior Class Standing)

Earn at least 60 credits

#### Additional Comments:

## GEOG342 - Europe

### Course Information

#### Course Title

Europe

Subject code	Course Number	Academic Level
GEOG	342	Undergraduate

#### Course Description

Introduction to Western Europe as a region. Emphasis on its delimitation and cultural, economic and political spatial patterns relating to the desire to form a European community. Europe within a global framework also considered. Offered in winter, spring, summer. Prereq: ENGL 110.

### General Education Labels

G3, Writing (W)

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

ENGL 110 or ENGL 110H

#### Complete ANY of the following Courses:

## GEOG344 - North America

### Course Information

Course Title

North America

Subject code	Course Number	Academic Level
GEOG	344	Undergraduate

#### Course Description

Geography of the U.S. and Canada using the tools and concepts of regional geography. Physical, population and economic patterns are merged in developing an understanding of regional characteristics and issues.

#### General Education Labels

G3

## GEOG350 - Global Issues

### Course Information

Course Title

Global Issues

Subject code	Course Number	Academic Level
GEOG	350	Undergraduate

#### Course Description

Issues related to urban, cultural and resource problems are analyzed globally. Emphasis on spatial nature of these problems and emerging global interdependence. Focus on a single current issue, which will be identified in advertised course title. Offered periodically.

#### General Education Labels

G3

## GEOG372 - Urban and Regional Planning

### Course Information

Course Title

Urban and Regional Planning

Subject code	Course Number	Academic Level
GEOG	372	Undergraduate

#### Course Description

Introduction to land use and other types of planning in urban and rural areas. Assessment of development suitability and environmental impact. Techniques for implementing different types of plans. Offered annually.

#### General Education Labels

G3

## GEOG379 - Experimental

### Course Information

## GEOG384 - Cartography

### Course Information

Course Title

Cartography

Subject code	Course Number	Academic Level
GEOG	384	Undergraduate

#### Course Description

Introduction to concepts and techniques of mapmaking. Skill developed in computer-based compilation, layout and lettering of maps. Offered periodically. Prereq: GEOG 281, 295.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

GEOG 281 and GEOG 295

#### Complete ALL of the following Courses:

- GEOG281 - Maps and GIS
- GEOG295 - GIS I: Vector Data Analysis

Additional Comments:

## GEOG395 - GIS for Web Development

### Course Information

Course Title

GIS for Web Development

Subject code	Course Number	Academic Level
GEOG	395	Undergraduate

#### Course Description

Integrate GIS and Web development technologies. Implement data compilation and map design decisions to support an organization's internal and public information flows.

Incorporate interactive maps and information retrieval to enhance Web content. Prerequisites: GEOG 295 or ESCI 281, and DESN 247 or CSCI 121.

#### Simple Requisites

##### Course Prerequisites

##### Type

##### Prerequisite

GEOG295 or ESCI281 and DESN247 or CSCI121

##### Complete ANY of the following Courses:

- GEOG295 - GIS I: Vector Data Analysis  
OR ESCI281 - GIS Applications for Earth Sci
- DESN247 - Intro to Web, Experience and Interaction Design  
OR CSCI121 - Intro to Web Programming

##### Additional Comments:

## GEOG396 - GIS Modeling

### Course Information

#### Course Title

GIS Modeling

Subject code	Course Number	Academic Level
GEOG	396	Undergraduate

#### Course Description

Analyze and construct GIS-based models of various geographical scenarios. Strategize spatial and temporal problem solving in environmental, transportation, emergency management and other contexts. Adapt some models to computer algorithms used within GIS software. Prerequisites: GEOG 295 or ESCI 281, and GEOG 296, and CSCI 161 or ESCI 282, or permission. Offered fall of even-numbered years.

#### Simple Requisites

##### Course Prerequisites

##### Type

##### Prerequisite

GEOG295 or ESCI281 or GEOG296 or GEOG296H and CSCI161 or ESCI282

##### Complete ALL of the following Courses:

- GEOG295 - GIS I: Vector Data Analysis  
OR ESCI281 - GIS Applications for Earth Sci
- GEOG296 - GIS II: Raster Data Analysis

OR GEOG296H - H: GIS II: Raster Data Analysis (Inactive)

- CSCI161 - Introduction to Programming 1  
OR ESCI282 - FORTRAN Programming for Earth Sciences Applications

Or by permission.

##### Additional Comments:

## GEOG397 - GIS Data Management

### Course Information

#### Course Title

GIS Data Management

Subject code	Course Number	Academic Level
GEOG	397	Undergraduate

#### Course Description

Fully explore the GIS geodatabase model and related data structures, and how they encapsulate all data types, characteristics and capabilities. Assess data quality and long-term data management issues.

#### Simple Requisites

##### Course Prerequisites

##### Type

##### Prerequisite

GEOG295 or ESCI281 and GEOG296 or GEOG296H

##### Complete ALL of the following Courses:

- GEOG295 - GIS I: Vector Data Analysis  
OR ESCI281 - GIS Applications for Earth Sci
- GEOG296 - GIS II: Raster Data Analysis  
OR GEOG296H - H: GIS II: Raster Data Analysis (Inactive)

##### Additional Comments:

## GEOG400 - Co-Op Ed Experience in Geog

### Course Information

#### Course Title

Co-Op Ed Experience in Geog

Subject code	Course Number	Academic Level
GEOG	400	Undergraduate

Course Description

Assignment with a public agency or private organization. Requirements include design of an approved job description relevant to employers functions and students program, and a planned program of contact with the faculty supervisor. Performance evaluation by sponsor used in assigning satisfactory/unsatisfactory grade.

GEOG407 - Gbl Envrnmtl Policy/Negotiatn

Course Information

Course Title

Gbl Envrnmtl Policy/Negotiatn

Subject code	Course Number	Academic Level
GEOG	407	Undergraduate

Course Description

Global political and economic forces and environmental change. Emphasis on spatial patterns and processes of transboundary environmental problems, the major pieces of international environmental policy, the negotiations process between states and nonstate actors in policy formation and implementation, and the dynamics of North-South relations on the changing physical landscape. Offered in spring of even years. Prereq: junior or senior status; ENGL 110, GEOG 307 or permission of instructor.

Government, Policy, and Law Department

The study of government and politics is integral to understanding people’s rights and responsibilities as a citizen and acquiring an understanding of domestic and international affairs.

The Department of Government, Policy, and Law offers three major programs: (1) a Bachelor of Arts (B.A.) in Government, Policy, and Law; (2) a Bachelor of Arts (B.A.) in Government, Policy, and Law with a concentration in Pre-Law; and (3) a Bachelor of Science in education (B.S.E.) in secondary education (which provides a teaching certification in the social sciences). The department also offers two minor programs: Government, Policy, and Law; and Government, Policy, and Law: Pre-Law.

Admission Requirements

New students (first year students and transfers) may be admitted to the government, policy and law major by the Office of Admissions upon admission to the University. Admission from other majors at the University is dependent upon approval of the Department of Government, Policy and Law. Such students must have a cumulative GPA of 2.0 or higher to be admitted into the major.

Admission to the Pre-Law concentration is upon approval of the Department of Government, Policy, and Law. Students wishing to declare the concentration after their first semester at Millersville University must have a cumulative GPA of 2.5 or higher to be admitted.

FACULTY LIST
<b>Bagchi, Nivedita;</b> Professor College of Arts, Humanities and Social Sciences B.A., Converse College, 2001; M.A., University of Virginia, 2003; Ph.D., Ibid., 2009
<b>Bookmiller, Robert;</b> Professor College of Arts, Humanities and Social Sciences B.A., Indiana University of Pennsylvania, 1985; M.A., University of Virginia, 1989; Ph.D., Ibid., 1992
<b>Bookmiller, Kirsten;</b> Professor College of Arts, Humanities and Social Sciences B.A., The Pennsylvania State University, 1986; M.A., University of Virginia, 1988; Ph.D., Ibid., 1992
<b>Glenn, Richard;</b> Professor College of Arts, Humanities and Social Sciences B.A., Carson-Newman College, 1990; M.A., University of Tennessee, 1991; Ph.D., Ibid., 1995
<b>Lawrence, Adam;</b> Associate Professor College of Arts, Humanities and Social Sciences B.A., Virginia Polytechnic Institute and State University, 1995; M.A., University of Akron, 1997; Ph.D., University of Pittsburgh, 2004
<b>Owen, David;</b> Associate Professor College of Arts, Humanities and Social Sciences B.S., University of Maryland, 1997; M.S., Troy University, 1998; M.S., Ibid., 2005; Ph.D., Southern Illinois University, 2011

## Programs

### Government, Policy, and Law Minor

#### Overview

A minor in Government, Policy, and Law is intended to provide students with a basic understanding of politics and how it affects their lives. The curriculum includes subject matter related to American and international governments and politics.

#### Curriculum

##### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.

6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

#### Minor in Government, Policy, and Law (18 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### American Politics (3 credits)

##### Complete at least 1 of the following courses:

- GOVT111 - Introduction to American Government
- GOVT112 - Introduction to State and Local Government
- GOVT312 - American Political Parties  
OR GOVT312H - Honors: American Political Parties
- GOVT333 - American Political Thought

AND

### International or Comparative Politics (3 credits)

#### Complete at least 1 of the following courses:

- GOVT221 - Introduction to Comparative Political Systems
- GOVT251 - Introduction to Global Politics
- GOVT351 - International Law  
OR GOVT351H - Honors: International Law
- GOVT352 - International Organizations

AND

### Government & Political Affairs Electives (12 credits)

Choose 12 credits of Govt & Political Affairs electives in consultation with your adviser.

#### Additional Comments:

## International Studies Minor

### Overview

International studies offers students a valuable perspective and useful skills for careers in government, international relations, foreign service, law, business, teaching, journalism, communications or for proceeding to higher degrees. For students working toward other degrees, including degrees in the sciences, mathematics or the technical disciplines, a minor or a second major in international studies will provide a global frame of reference and preparation for future work with international colleagues.

International studies prepares students for success in a world made smaller by the steady increase of international contact in society, politics and business. The international studies major and minor emphasize comparative social, cultural, economic, environmental, historical and political systems worldwide. Comparative studies of music, literature, religion and education also are offered. Through these studies, students acquire knowledge and tools that enable them to analyze and understand the complex world in which we live.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours

with a minimum Millersville QPA of 2.0.

2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.

7. No student may minor in his or her major.

### Minor in International Studies (18 credits)

#### Type

#### Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

#### Required Courses (3 credits)

#### Complete ALL of the following Courses:

- INTL201 - Intro to International Studies  
OR INTL201H - Hnrs: Intro to International Studies

AND

#### Senior Seminar (3 credits)

#### Complete ALL of the following Courses:

- INTL488 - Senior Seminar  
OR INTL488H - H:Senior Seminar

INTL 488 Senior Seminar requires 75 credits and at least 9 credits in International Studies completed.

AND

#### Area Studies (12 credits)

#### Complete at least 2 of the following:

Option 1. Comparative Societies (6 credits)

#### Complete ALL of the following Courses:

- ANTH121 - Cultural Anthropology
- ANTH325 - Medical Anthropology
- ANTH326 - Anthropology of Religion
- ANTH327 - Urban Anthropology
- ANTH336 - Language & Communication
- ANTH344 - Gender, Race, and Class
- COMM230 - International Broadcasting
- COMM317 - Intercultural Communication
- **OR COMM317H - Hon: Intercultural Communication**
- EDFN511 - Comparative Education
- ENGL232 - World Literature 2
- **OR ENGL232H - Hnrs: World Literature 2**
- ENGL431 - Comparative Literature
- **OR ENGL431H - Hnrs: Comparative Literature**
- GEOG120 - Human Geography
- GEOG141 - World Regional Geography
- GEOG227 - Cities
- AENG301 - Technology and Humans
- **OR AENG301H - Hnrs: Technology and Humans**
- MATH102 - Math in Non-European Cultures
- MUSI368 - International Music and Arts
- PHIL313 - World Religions
- SOCY310 - Sociology of Religion
- SOCY319 - Social Stratification

To meet the requirement for Option 1. Comparative Societies, classes must include at least 1 of: ANTH 121, ANTH 325, ANTH 326, ANTH 327, ANTH 336, ANTH 344, GEOG 120, GEOG 141, or GEOG 227.

**OR**

Option 2. Economic Interdependence (6 credits)

**Complete ALL of the following Courses:**

- INTB321A - Intro to International Business
- INTB321B - Intro to International Business
- FIN344 - International Finance
- MGMT357 - International Management
- MKTG435 - International Marketing
- ECON203 - Introduction to World Economy

- ECON225 - Comparative Economic Systems
- ECON325 - International Economics
- **OR ECON325H - Hon: International Economics**
- ECON326 - Economic Growth and Development
- ECON327 - Women and Global Economic Development
- GEOG222 - Economic Geography

To meet the requirement for Option 2. Economic Interdependence, classes must include at least 1 of: ECON 203, ECON 225, ECON 325, ECON 326, or ECON 327.

**OR**

Option 3. Global Environmental Issues (6 credits)

**Complete ALL of the following Courses:**

- BIOL340 - Prspctv in Environm Awareness
- **OR BIOL340H - HNRs:Prspctv in Environm Awareness**
- ESCI104 - The World Ocean
- **OR ESCI104H - Hnrs:The World Ocean (Inactive)**
- ESCI245 - Environmental Meteorology
- ESCI350 - History of Meteorology
- **OR ESCI350H - H:History of Meteorology**
- GEOG229 - Sustainable Tourism

- GOVT228 - Democracy and Its Challenges
- GOVT456 - Global Humanitarianism
- HIST102 - Europe and the World 1789-Present
- HIST276 - Modern United States Foreign Relations

To meet the requirement for Option 4. International Relations, classes must include at least 1 of: GOVT 221, GOVT 228, GOVT 251, GOVT 252, GOVT 351, GOVT 352, GOVT 355, GOVT 356, or GOVT 456.

**Additional Comments:**

## Pre-Law Minor

### Overview

The pre-law minor in the Department of Government, Policy, and Law (GOVT) is intended for students who are interested in

1. The formal study of law
2. How law intersects with politics
3. Attending law school or a law-related graduate program.
4. Or pursuing a career in law or a law-related field.

The core skills, knowledge and experience acquirable in the pre-law minor will provide a sound foundation for law school,

law-related careers and a variety of other professions.

## Curriculum

### Simple Requisites

*Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

### Minor in Pre-Law

#### Type

#### Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

#### Required Courses (18 credits)

**Complete ALL of the following Courses:**

- GOVT111 - Introduction to American Government
- GOVT252 - Global Crime and Justice
- GOVT314 - American Judiciary
- GOVT351 - International Law  
**OR** GOVT351H - Honors: International Law
- GOVT411 - Constitutional Law: Federalism and Separation of Powers  
**OR** GOVT411H - Honors: Constitutional Law: Federalism and Separation of Powers
- GOVT412 - Constitutional Law: Civil Rights and Civil Liberties  
**OR** GOVT412H - Honors: Constitutional Law: Civil Rights and Civil Liberties

AND

Introduction to the US Constitution (3 credits)

**Complete ALL of the following Courses:**

- GOVT211 - Introduction to the U.S. Constitution

**Additional Comments:**

## Government, Policy, and Law, B.A.

### Overview

Courses consist of American political institutions; comparative politics; political theory; global politics; and American and international law. Students will be introduced to political concepts, political behaviour, policy issues, and structures of government within societies and among nations.

A degree in Government, Policy, and Law allows students to prepare for active citizenship, careers and advanced training in politics, law and related fields on both a national and international stage. Students should expect to gain a perspective on the many facets of government and politics in the United States and abroad, as well as the relationships among those governments.

### Curriculum

#### Simple Requisites

**Major in Government, Policy, and Law, BA (42 credits)**

**Type**

**Completion Requirement**

**Requirements**

**Fulfill ALL of the following requirements:**

**Core Courses (12 credits)**

**Earn a minimum grade of C- in the following:**

- GOVT111 - Introduction to American Government
- GOVT221 - Introduction to Comparative Political Systems
- GOVT231 - Introduction to Political Theory  
**OR** GOVT231H - Honors: Introduction to Political Theory

- GOVT251 - Introduction to Global Politics

AND

**Advanced Electives (15 credits)**

**Complete ALL of the following Course Sets:**

- Any 3-level GOVT course(s)
- Any 4-level GOVT course(s)

AND

**Other Electives (9 credits)**

**Complete ALL of the following Course Sets:**

- Any 1-level GOVT course(s)
- Any 2-level GOVT course(s)
- Any 3-level GOVT course(s)
- Any 4-level GOVT course(s)

Note: This requirement may not be satisfied with GOVT111 Intro to American Government, GOVT221 Intro to Cmprtv Politcl Systms, GOVT231 Intro to Political Theory, or GOVT251 Intro to Global Politics.

AND

**Capstone Courses (6 credits)**

Majors must complete 6 credits of GOVT capstone experience, earning a C- or better in each of the two courses. A capstone experience is a GOVT course that carries a 400-level designation, except for GOVT 408 or internship. Transfer electives also will not count as capstone credit. Majors must have completed 75 total credits and 27 GOVT credits prior to enrolling in a capstone course. 400-level GOVT courses taken prior to completing 75 total credits and 27 GOVT credits will count as Advanced or Other Electives, not as a capstone.

**Additional Comments:**

## Government, Policy, and Law: Pre-Law

### Overview

This program is intended for students who are interested in the formal study of law and how it intersects with politics;

attending law school or a law-related graduate program; or pursuing a career in law or a law related field. Field. Within the forty-two credits required for a B.A. in Government, Policy, and Law, students seeking a pre-law concentration must take courses on the U.S. Constitution; global crime and justice; the American judiciary; international law; and (two-semester(s) of constitutional law.

International Studies, B.A.

Overview

International studies offers students a valuable perspective and useful skills for careers in government, international relations, foreign service, law, business, teaching, journalism, communications or for proceeding to higher degrees. For students working toward other degrees, including degrees in the sciences, mathematics or the technical disciplines, a minor or a second major in international studies will provide a global frame of reference and preparation for future work with international colleagues.

International studies prepares students for success in a world made smaller by the steady increase of international contact in society, politics and business. The international studies major and minor emphasize comparative social, cultural, economic, environmental, historical and political systems worldwide. Comparative studies of music, literature, religion and education also are offered. Through these studies, students acquire knowledge and tools that enable them to analyze and understand the complex world in which we live.

Curriculum

Simple Requisites

**Major in International Studies**

Type

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Required International Studies Courses

**Fulfill ALL of the following requirements:**

Required Courses (3 credits)

**Earn a minimum grade of C- in the following:**

- INTL201 - Intro to International Studies
- OR INTL201H - Hnrs:Intro to International Studies

AND

Additional Required Courses (3 credits)

**Complete ALL of the following Courses:**

- INTL488 - Senior Seminar
- OR INTL488H - H:Senior Seminar

AND

Required Foreign Language Course

**Complete at least 1 courses in the following course sets:**

- Any SPAN course(s)
- Any FORL course(s)

AND

Required Foreign Language Course, 200-Level or Higher

**Complete at least 1 courses in the following course sets:**

- Any 2-level SPAN course(s)
- Any 3-level SPAN course(s)
- Any 4-level SPAN course(s)
- Any 5-level SPAN course(s)
- Any 2-level FORL course(s)
- Any 3-level FORL course(s)
- Any 4-level FORL course(s)
- Any 5-level FORL course(s)

AND

Required Core Courses (9 credits)

**Fulfill ALL of the following requirements:**

Required Courses (6 credits)

**Complete ALL of the following Courses:**

- ANTH121 - Cultural Anthropology
- GOVT251 - Introduction to Global Politics

AND

Introduction to World Economy or Comparative Economic Systems (3 credits)

**Complete at least 1 of the following courses:**

- ECON203 - Introduction to World Economy
- ECON225 - Comparative Economic Systems

AND

International Studies Electives (12 credits)

**Complete at least 2 of the following:**

Option 1. Comparative Studies (6 credits)

**Complete at least 2 of the following courses:**

- ANTH325 - Medical Anthropology
- ANTH326 - Anthropology of Religion
- ANTH327 - Urban Anthropology
- ANTH336 - Language & Communication
- ANTH344 - Gender, Race, and Class
- COMM230 - International Broadcasting
- COMM317 - Intercultural Communication  
OR COMM317H - Hon: Intercultural Communication
- EDFN511 - Comparative Education
- ENGL232 - World Literature 2  
OR ENGL232H - Hnrs: World Literature 2
- ENGL431 - Comparative Literature  
OR ENGL431H - Hnrs: Comparative Literature
- GEOG120 - Human Geography
- GEOG141 - World Regional Geography

- GEOG227 - Cities
- AENG301 - Technology and Humans  
OR AENG301H - Hnrs: Technology and Humans
- MATH102 - Math in Non-European Cultures
- MUSI368 - International Music and Arts
- PHIL313 - World Religions
- SOCY319 - Social Stratification

To meet the requirement for Comparative Studies, classes must include at least 1 of: ANTH325 Medical Anthropology, ANTH326 Anthropology of Religion, ANTH327 Urban Anthropology, ANTH336 Language & Communication, ANTH344 Gender, Race, and Class, GEOG141 World Regional Geography, GEOG227 Cities, AENG301 Technology and Humans.

OR

Option 2. Economic Interdependence (6 credits)

**Complete at least 2 of the following courses:**

- INTB321A - Intro to International Business
- INTB321B - Intro to International Business
- FIN344 - International Finance
- MGMT357 - International Management
- MKTG435 - International Marketing
- ECON225 - Comparative Economic Systems
- ECON325 - International Economics  
OR ECON325H - Hon: International Economics
- ECON326 - Economic Growth and Development
- ECON327 - Women and Global Economic Development
- GEOG222 - Economic Geography

To meet the requirement for Economic Interdependence, classes must include at least 1 of: ECON225 Comparative Economic Systems, ECON325 International Economics, ECON326 Economic Growth and Development or ECON327 Women and Global Economic Development.

OR

Option 3. Global Environmental Issues (6 credits)

**Complete at least 2 of the following courses:**

- BIOL340 - Prspctv in Environm Awareness  
OR BIOL340H - HNRS:Prspctv in Environm Awareness
- ESCI104 - The World Ocean  
OR ESCI104H - Hnrs:The World Ocean (Inactive)
- ESCI245 - Environmental Meteorology
- ESCI350 - History of Meteorology  
OR ESCI350H - H:History of Meteorology
- GEOG229 - Sustainable Tourism
- GEOG230 - Physical Geography
- GEOG305 - Energy Sustainability  
OR GEOG305H - Hon: Energy Sustainability (Inactive)
- GEOG407 - Gbl Envrnmtl Policy/Negotiatn
- SOCY216 - Human Population

To meet the requirement for Global Environmental Issues, classes must include at least 1 of: [BIOL340 Prspctv in Environm Awareness](#), [BIOL340 Prspctv in Environm Awareness](#), [ESCI104 The World Ocean](#), [ESCI245 Environmental Meteorology](#), or [GEOG230 Physical Geography](#).

OR

Option 4. International Relations (6 credits)

**Complete at least 2 of the following courses:**

- GEOG226 - Political Geography  
OR GEOG226H - Hnrs:Political Geography (Inactive)
- GOVT221 - Introduction to Comparative Political Systems
- GOVT252 - Global Crime and Justice
- GOVT351 - International Law  
OR GOVT351H - Honors: International Law
- GOVT352 - International Organizations
- GOVT355 - American Foreign Policy  
OR GOVT355H - Honors: American Foreign Policy
- GOVT356 - Disasters and Our World

- GOVT228 - Democracy and Its Challenges
- GOVT456 - Global Humanitarianism
- HIST276 - Modern United States Foreign Relations
- GOVT379 - Experimental  
OR GOVT379H - Honors: Experimental

To meet the requirement for International Relations, classes must include at least 1 of: [ESCI104 The World Ocean](#), [ESCI245 Environmental Meteorology](#), [ESCI350 History of Meteorology](#), [GEOG229 Sustainable Tourism](#), [GEOG230 Physical Geography](#), [GEOG305 Energy Sustainability](#), [GEOG407 Gbl Envrnmtl Policy/Negotiatn](#), or [SOCY216 Human Population](#).

Take six (6) credit hours from two (2) areas: Comparative Studies, Economic Interdependence, Global Environmental Issues, International Relations.

AND

Area Studies Electives (9 credits)

**Complete at least 2 of the following:**

Requirements

**Fulfill ALL of the following requirements:**

Option 1. African Area Studies (9 credits)

**Complete at least 3 of the following courses:**

- GEOG248 - Geography of Africa  
OR GEOG248H - Hon: Geography of Africa (Inactive)
- HIST281 - African History
- HIST285 - Decolonization EU Emp in Africa
- HIST388 - Twentieth-Century Africa
- MUSI369 - Intro to West African Music and Dance

OR

Option 2. The Americas Area Studies (9 credits)

**Complete at least 3 of the following courses:**

- ANTH222 - American Indian
- GEOG343 - Latin America & the Caribbean
- GOVT327 - Canadian Government and Politics
- OR GOVT327H - Honors: Canadian Government and Politics
- HIST283 - Colonial Latin America
- HIST284 - Modern Latin America
- HUMN380 - Latino Issues of Identity
- LATS201 - Introduction to Latino Studies
- LATS340 - U.S. - Mexico Border Issues
- SPAN313 - Survey of Span American Lit 1
- SPAN333 - Spanish Am Civilization 1

OR

- HIST224 - Modern Germany

- HIST242 - Soviet Union
- HIST340 - Twentieth Century Europe
- HIST342 - Hitler and Nazism
- HIST360 - The Second World War
- HUMN210 - French Literature in English
- HUMN220 - German Literature in Transltn
- HUMN280 - Spanish Literature in English

Choose one of the following Geographical Areas and take three (3) courses from that area. No more than two (2) courses may be taken from any one department.

AND

#### INTL Electives

INTL courses not used to fulfill a requirement in the INTL major will count in major GPA. Given the interdisciplinary nature of the International Studies major, courses from other departments that are not needed to fill a major requirement will be released to fulfill other degree requirements.

#### Additional Comments:

## Social Studies, B.S.Ed. - Government Advised

### Overview

The Social Studies Secondary Education program at Millersville University incorporates core social studies courses with diverse education requirements. Core social studies courses explore the global environment, economics, government, history and more. In consultation with an academic adviser, you can concentrate in government. All MU education programs include a Foundations Block which explores modern teaching and the psychology of teaching, Professional Blocks which focus on instructional technology and positive learning environments, and a semester of student teaching.

GOVT431 - Literature and Politics

Course Information

Course Title		
Literature and Politics		
Subject code	Course Number	Academic Level
GOVT	431	Undergraduate

Course Description

This course will take one work of fiction, a particular author/ writer, or a number of different works of fiction which are thematically connected, and examine the political, social, and cultural questions and issues embedded in these works. Political philosophy asks central questions about human life- what makes us human; what, if anything, makes the best state; how can humans live together while being individuals in their own right, etc. Well crafted works of political fiction are often the best gateway to politics since they use a fictional reality to develop abstract concepts. In fact, some of the best works of political philosophy is fiction. Instructors will choose works of fiction which, juxtaposed with political writings, speeches, articles, and texts, enable students to identify and answer the great political questions of generations. Prereq: C- or higher GOVT 111 and GOVT 231

General Education Labels

Writing (W)

**OR** GOVT231H - Honors: Introduction to Political Theory

**Additional Comments:**

GOVT455 - US-Middle East Foreign Relations

Course Information

<b>Course Title</b> US-Middle East Foreign Relations		
<b>Subject code</b> GOVT	<b>Course Number</b> 455	<b>Academic Level</b> Undergraduate

**Course Description**  
An institutional, historical and contemporary overview of American foreign policy in the Middle East. While key events and political processes equated with the post-World War II period will be examined, the focus of GOVT 455 will be on current US interests and polices within the region. Past events will be utilized to underscore their contemporary political relevance to US policymakers. Specifically, American policy vis-a-vis Israel, the Palestinian national movement, Egypt, Iran, Iraq, Saudi Arabia, Turkey, and Syria will be explored in detail.

# History Department

The Department of History offers courses in U.S. and world history and major degrees in both the liberal arts and secondary education. A history minor is also available to nonhistory majors. The department's program in secondary education provides teaching certification. Academic counseling is available for students choosing careers in history.

A degree in history may be an end in itself. It is, however, an excellent choice for anyone who wishes to pursue entry into a wide variety of careers. Many recent graduates have gone on to graduate study in history, law, archaeology, museum studies, library studies, and other fields. The BA degree in History requires 120 credits, with 42 of those in History. Required courses include surveys of US and World History, four skills courses, and electives in four geographical categories (European, US, Asian/African/Latin American, and Transnational) and two chronological categories (pre-1815 and post-1815). At least three courses must be 300-level or higher.

FACULTY LIST
<b>Davis, Robyn;</b> Associate Professor College of Arts, Humanities and Social Sciences B.A., Columbia University, 1993; M.A., University of Oklahoma, 2001; Ph.D., Ibid., 2009

**Additional Comments:**

### Professional Education - Certification (33 credits)

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Foundations Bloc

**Fulfill ALL of the following requirements:**

Foundations of Modern Education (3 credits)

**Complete at least 1 of the following courses:**

- EDFN590 - Social Foundation of Educ

- EDFN211 - Foundations Modern Education  
**OR** EDFN211H - H: Foundations Modern Education

AND

Psychological Foundations of Teaching (3 credits)

**Complete at least 1 of the following courses:**

- EDFN545 - Advanced Educational Psychology
- EDFN241 - Psychological Foundations of Teaching  
**OR** EDFN241H - Hon:Psychological Foundations of Teaching

We recommend 590 and 545 for Post-Bacc students. These courses each require 35 hours field placement at an urban school. Offered in the evenings Fall and Spring. Also offered in Summer Session. If enrolling in [EDFN211 Foundations Modern Education/EDFN241 Psyc Foundation of Teaching](#) and please register for both courses in the same block.

AND

APS - Professional Bloc

**Fulfill ALL of the following requirements:**

Instructional Technology, Design & Assessment (3 credits)

**Complete at least 1 of the following courses:**

- EDFN530 - Instructional Technology, Design and Assessment
- EDFN330 - Instructional Technology, Design & Assessment

AND

Issues in Secondary Education (3 credits)

**Complete at least 1 of the following courses:**

- EDSE521 - Issues in Second Education
- EDSE321 - Issues in Secondary Education  
**OR** EDSE321H - H: Issues in Secondary

Education

AND

Content Area Literacy for Diverse Classrooms (3 credits)

**Complete at least 1 of the following courses:**

- EDSE340 - Content Area Literacy for Diverse Classrooms
- EDSE540 - Cntnt Area Litrcy Divers Class

AND

Secondary Students w/Disabilities in Inclusive Settings (3 credits)

**Complete at least 1 of the following courses:**

- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings
- SPED546 - Sec Stdnts w Disab Inclu Sttgs

AND

Teaching of Secondary Social Studies (3 credits)

**Complete ALL of the following Courses:**

- FORL480 - Tchg For Lang in Sec School

Students must meet APS eligibility requirements prior to registering. Course Appropriate PRAXIS II Exam should be taken after Professional Bloc and but prior to Student Teaching.

AND

Student Teaching Seminar (3 credits)

**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar

File your Intent to Student Teach Card one year prior to the beginning of the semester in which you wish to Student Teach. [Access the Student teaching Website](#)

AND

### Student Teaching Semester (9 credits)

#### Complete ALL of the following Courses:

- EDSS461 - Student Teaching in Soc Sci
- EDSS462 - Student Teaching in Soc Sci

Students must meet APS eligibility requirements prior to registering. Submit your Teacher Certification Packet 90 days prior to completion of your certification program. [Access the packet on the Certification Website.](#)

#### Additional Comments:

## History, M.A.

### Overview

The Master of Arts degree in History at Millersville University offers advanced training in American, European and world history. Helping you achieve your goals is central to all of Millersville's graduate programs. The M.A. in history is no exception – flexibility is key, and you have the option to tailor the program to encompass all of your interests. Courses are offered in the evening during the regular school year, and during the day in the summer. The program is designed to appeal to both teaching professionals who want advanced study in the teaching of history and students who wish to prepare for continuing graduate study in history.

## Admission Requirements

The Master of Arts in history is available to all qualified candidates. Applicants should have a 3.0 GPA in history and an overall GPA of 2.8. Applicants must submit a writing sample of between five and 10 pages, preferably showing use of primary and secondary sources and a grasp of historical thinking. Applicants without academic training in history may be admitted probationally and may be asked to complete the sequence of introductory surveys in U.S. and European history. The Graduate Record Exam is required for applicants whose undergraduate CGPA is below 2.8. For additional admission information, refer to the *Admission Requirements* section.

## Degree Requirements

The Department of History requires that all students enrolled in the M.A. program maintain the level of academic progress described in the *Academic Policies* section. In addition to University requirements, any student entering the history

graduate program who receives a second C in his/her degree program is automatically suspended from the program. A student suspended on this basis must petition the department's chairperson and graduate faculty for reinstatement.

## Curriculum

- HIST691 - Independent Study
- HIST699 - Thesis:

**Additional Comments:**

## History Minor

### Overview

Students who choose a minor in history are required to take a minimum of 18 semester hours of history courses distributed according to departmental guidelines. All history courses except applied history will count toward a minor.

### Curriculum

#### Simple Requisites

*Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

#### Minor in History (18 credits)

## Military Science Minor

### Overview

Minor in Military Sciences offers coursework from a number of departments including the Departments of Military Science, History, Government and Geography. This path allows the student to pursue a diverse program that incorporates military history, ethics, public administration and the use of the military as an instrument of educational enhancement. While the Military Science classes are taught through a military lens, the components of adaptability, teamwork, comprehensive fitness, leadership and critical thinking are interdisciplinary and applicable regardless of a student's chosen future career paths.

## Curriculum

### Simple Requisites

#### Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

### Minor in Military Science (18 credits)

#### Type

#### Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

#### Military Science Core Required Courses (6 credits)

#### Complete ALL of the following Courses:

## HIST225 - Germany, 1945-Present

### Course Information

#### Course Title

Germany, 1945-Present

Subject code	Course Number	Academic Level
HIST	225	Undergraduate

#### Course Description

This course examines the transformation of Germany from 1945, when, at the end of World War II, there were four occupational zones and no German state, through the era of two German states, East and West, from 1949 to 1990, to the present post-reunification Germany. The events of the Third Reich, World War II, and the Holocaust will form a backdrop to much of this history, and we will quickly review them. Then, the course focuses on the activities of the four occupying powers (the United States, the Soviet Union, Great Britain, and France) in the post-war years, the emerging Cold War, the formation of East and West Germany, developments from the 1950s to the 1980s, the collapse of East Germany and reunification, and post-reunification developments.  
Prerequisites: ENGL 110 or ENGL 110H

#### General Education Labels

G3, Writing (W)

## HIST282 - Transatlantic Slave Trade

### Course Information

#### Course Title

Transatlantic Slave Trade

Subject code	Course Number	Academic Level
HIST	282	Undergraduate

Course Description

This course examines the Transatlantic slave trade as a transcontinental episode that was responsible for the forced migration of millions of Africans to the Americas and Europe. It critically analyzes the various dimensions of the global forces that created the Atlantic World, experienced by tens of millions of enslaved African people. It illuminates the origins and continuing legacy of inequality based in European expansion, enslavement and economic supremacy. As an exploration of human history in the Atlantic World, this course discusses indepth the historiography of the slave trade and slavery in contemporary political, economic and social interactions of Africa, Americas and Europe.

HIST285 - Decolonization EU Emp in Africa

Course Information

Course Title  
Decolonization EU Emp in Africa

Subject code	Course Number	Academic Level
HIST	285	Undergraduate

Course Description  
This course examines the process of the fall and dissolution of European Empires in the decades following the ending of the Second World War. It discusses the historiographical debate of factors that precipitated decolonization in the international, metropolitan, and national arenas. The course explores colonial insurgency and counterinsurgency programs as well as negotiated, non-violent struggles that culminated in the transfer of power to African nationalists.

# International Studies Department

Millersville University offers a major and minor in international studies. Many faculty from various disciplines teach in the program.

Living in the 21st century shows us that interdisciplinary and cross-cultural studies contain extreme importance in our global system. Our lives increasingly entwine with lives and events with people halfway around the globe. National and international organizations, governments, and businesses, in both the public and private sectors, have increased their demand for students who have an understanding of the complex international community.

The B.A. Degree in International Studies provides students with a valuable global perspective and the skills needed to pursue a future career and/or higher degrees in the areas of:

- Government
- Teaching
- Communication
- Non-Profit
- Law
- Journalism
- Business
- Various others

FACULTY LIST		
Assoc. Professor N. Bagchi, coordinator		

## Latino/a Studies Department

Latino studies is an 18-credit interdisciplinary minor that consists of courses from a wide variety of academic disciplines, including anthropology, sociology, education, geography, history, humanities, mathematics, music, philosophy and Spanish, as well as an introductory and senior-level course in Latino studies. The Latino studies minor will allow students to become conversant with the language, roots, culture, history and socioeconomic perspectives of the rapidly growing Latino population in the United States. Because the program is both multicultural and multidisciplinary, it promotes the holistic liberal arts approach to learning. Courses in the minor will emphasize Latino perspectives, the development of critical thinking as well as written and oral communication skills within this field of study and across other disciplines.

This program will be particularly effective when combined with majors that offer an organic relationship to Latino issues (such as business administration, government and political affairs, history, sociology, social work or education, to name a few). Successful completion of the Latino studies minor will enable graduates to become effective employees, as they take their place in an increasingly diverse workplace.

FACULTY LIST		
Professor Kimberly Mahaffy, coordinator		

## Programs

### Latino/a Studies Minor

#### Overview

The purpose of the Latina/o Studies Minor is to teach undergraduate students about Latina/o experiences, cultures, and contributions to the United States. The 18 credit minor offers courses from a variety of disciplines. Spanish fluency is not required.

#### Curriculum

##### Simple Requisites

<i>Regulations Governing Minor Course Work</i>
1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also

eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

<b>Minor in Latino Studies (18 credits)</b>
<b>Type</b>
Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Required Courses (3 credits)

Complete ALL of the following Courses:

LATS201 - Introduction to Latino Studies

AND

Internship or Senior Seminar or Independent Study (3 credits)

Complete at least 1 of the following courses:

LATS300 - Co-Op Ed Experience in LATS

LATS488 - Latina/o Studies Senior Seminar

LATS498 - Ind Stdy:

AND

Race, Culture and Ethnicity Courses (9 credits)

Complete at least 3 of the following courses:

ANTH336 - Language & Communication

ANTH344 - Gender, Race, and Class

GEOG343 - Latin America & the Caribbean

GOVT361 - Politics of Race and Ethnicity

HUMN380 - Latino Issues of Identity

LATS325 - Afro-Latino Cultural Experiences

LATS340 - U.S. - Mexico Border Issues

LATS491 - Topics in Latina/o Studies

Course Description

Allows students to volunteer or work at a Latino/a serving organization.

LATS325 - Afro-Latino Cultural Experiences

Course Information

Course Title

Afro-Latino Cultural Experiences

Subject code	Course Number	Academic Level
LATS	325	Undergraduate

Course Description

Critical examination of the complex diversity of experiences among U.S. Latinos, with a specific emphasis on Afro-Latino experiences. Afro-Latinos are Latinos with strong African phenotypic features and whose experiences as both "Black" and "Latino" mark them as distinct from both the larger African American and broader Latino communities, even though Afro-Latinos hold certain connections to both groups. Primary focus will be places on Afro-Latino historical and contemporary experiences, efforts to establish local, national, and transnational recognition, and Afro-Latino struggles against racism within the broader American society and from the larger Latino community.

## Management & Marketing Department

The Management & Marketing Department is one of the largest at MU, with over 400 students enrolled in our core programs including Marketing, Management and Information Technology. We also have fully online degree programs and online degree completion programs, concentrations in Human Resources Management and Cybersecurity, and a certificate in marketing. We offer skills that are sought after by businesses large and small in both the for profit and non-profit sectors. We offer a wide array of courses in the business core curriculum as well as a number of elective courses for business majors, minors and students seeking general electives, or simply greater business knowledge.

Our eight faculty and numerous adjuncts are experts in their field. You will find them to be accessible, helpful and supportive on your journey toward graduation. We are also accommodating and flexible with our course offerings, by actively offering a variety of courses in the summer and winter terms, and many of our classes are also available online.

## Programs

### Cybersecurity Minor

#### Overview

The Cybersecurity minor provides students with the necessary and durable skills needed to effectively protect personal and organizational information systems and tomorrow's technological threats and risks in the cyber world.

The Cybersecurity minor in the information technology program provides coursework that helps students develop technical skills to identify threats and recognize system vulnerabilities to mitigate cybersecurity risks and respond to cyberattacks. This minor teaches students the risk-management strategies, and how to identify security risks. Students will also learn how to develop communication plans for interacting with businesses and their users when it comes to integrating Cybersecurity plans.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the

minor must be completed at Millersville University.

7. No student may minor in his or her major.

### Minor in Cybersecurity (19-20 credits)

#### Type

#### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### Required Courses (12 credits)

##### Complete ALL of the following Courses:

- INTE120 - Integrated Information Technology Application Projects
- INTE350 - Cybersecurity
- INTE360 - IT Risk Management and Security

AND

Network Concepts, Security and Administration or Computer Networks (4 credits)

##### Complete at least 1 of the following courses:

- INTE230 - Network Concepts, Security and Administration
- CSCI395 - Computer Networks

AND

##### Cybersecurity Elective (3-4 credits)

##### Complete at least 1 of the following courses:

- INTE435 - IT Security, Privacy & Ethics
- INTE465 - Data Analytics in Health Care
- INTE466 - Ethical Hacking and Penetration Testing
- CSCI415 - Computer and Network Security

#### Additional Comments:

This minor requires Computer Science courses (CSCI [CSCI151 Intro Prog for Data Science I](#) or [CSCI161 Introduction to Programming 1](#)) that and with appropriate advising and can be incorporated into the General Education program requirements.

**Note:** Only 1 CSCI course can be used in fulfillment of the cybersecurity minor.

## Information Technology Minor

### Overview

Information Technology is the application of technology to solve organizational problems and increase business operation efficiency. Information Technology incorporates the selection, creation, application, communication technologies, integration, and administration of computing devices to meet the organizational needs, individual user demands, and society at large. This program addresses the importance of applied skills and practical experiences in Information Technology by allowing students to gain hands on experiences with fundamental Information Technology topics and get prepared for emerging careers in Information Technology.

## Information Technology, B.S. - Cybersecurity

### Overview

The Cybersecurity Concentration adds to the fundamental topics in Information Technology that INTE students learn through the program's core requirements, providing students with the necessary and durable skills needed to effectively protect personal and organizational information systems and tomorrow's technological threats and risks in the cyber world.

There is a huge demand in Cybersecurity experts in industry including non-tech companies. Cybersecurity training is the practice of implementing policies, processes, and technologies to protect organizations and their critical information systems and sensitive data from digital attacks.

The Cybersecurity concentration in INTE program provides training that helps students develop technical skills to identify threats and recognize system vulnerabilities to mitigate cybersecurity risks and respond to cyberattacks. This concentration teaches students the risk-management strategies, and how to identify security risks. Students will also learn how to develop communication plans for interacting with businesses and their users when it comes to integrating Cybersecurity plans. Students will practice methods on how to align Cybersecurity strategies with business operations by the benefit of communication management. As part of risk assessment strategies, the program teaches students how to make prediction of potential problems before they turn into genuine threats.

Management, B.S.

Overview

The Management program at Millersville University equips students for a variety of roles and allows them to enter the business field at a high-level position upon graduation. A BS in Management helps students earn a leadership role in a business or non-profit firm. All organizations require leaders, and our management program teaches the fundamentals of managing resources, hiring, training, and developing teams, as well as creating effective organizational structures. Our management program exposes students to all major

functional areas of a business but also will allow you to focus on courses in human resources, entrepreneurship, operations, or leadership based on your individual career goals.

Curriculum

Simple Requisites

Major in Management (63 credits)  
Type  
Completion Requirement

Requirements  
**Fulfill ALL of the following requirements:**

Business Foundations Block (9 credits)  
**Earn a minimum grade of C- in the following:**

- BUAD161 - Intro to Financial Accounting
- BUAD162 - Intro to Managerial Accounting
- BUAD202 - Legal Environment of Business

AND

Required Business Courses (24 credits)  
**Complete ALL of the following Courses:**

- BUAD206 - Business Research Methods
- BUAD231 - Principles of Marketing  
OR BUAD231H - H:Principles of Marketing
- BUAD251 - Principles of Management  
OR BUAD251H - Hnrs:Principles of Management

**Additional Comments:**

## Management, B.S. - Human Resources Management

### Overview

The Human Resource Management (HRM) concentration is designed for students who are pursuing a Management Degree from the Lombardo College of Business. The concentration will prepare them for general management and human resource management careers. In general, positions in the HRM include but are not limited to the employee relations specialists, HR staff, HR directors, staffing managers, compensation and benefits managers, corporate recruiters, and training managers. Students are encouraged to become involved in the Society for Human Resource Management (SHRM) and take SHRM exam for acquiring HR certificate after completing the program and internships. Management majors who seek the concentration will take HRM specific courses instead of general management or business electives, thus keeping the total credit hours required to achieve the Bachelor's of Science in Management the whether students pursue this concentration or not.

### Curriculum

Simple Requisites

**Major in Management (48 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Business Foundations Block (9 credits)

**Earn a minimum grade of C- in the following:**

- BUAD161 - Intro to Financial Accounting
- BUAD162 - Intro to Managerial Accounting
- BUAD202 - Legal Environment of Business

AND

Required Business Courses (24 credits)

**Complete ALL of the following Courses:**

- BUAD206 - Business Research Methods
- BUAD231 - Principles of Marketing  
OR BUAD231H - H:Principles of Marketing

## Marketing, B.S.

### Overview

Millersville University's Marketing program produces creative professionals who are well versed in interacting with customers and researching market trends. The marketing program helps students understand how to effectively develop attractive products and services, how to price offerings competitively, and how to stand out from other firms by using cutting edge advertising strategies. Through our courses in consumers behavior, marketing research, marketing strategy and our multiple marketing elective courses, students develop strong communication skills, consumer research ability, and strategic business acumen.

## Curriculum

Courses

BUAD101B - Introduction to Business

Course Information

Course Title

Introduction to Business

Subject code	Course Number	Academic Level
BUAD	101B	Undergraduate

Course Description

Introduction of basic business concepts such as institutional setting, organizational structures, decision making, accounting, finance, labor relations, management, marketing and government-business relations. No credit for BUAD majors, except as departmental elective if taken before becoming a BUAD major. Offered in spring, fall.

General Education Labels

G3

BUAD206 - Business Research Methods

Course Information

Course Title

Business Research Methods

Subject code	Course Number	Academic Level
BUAD	206	Undergraduate

Course Description

The theory and practice of a number of widely used research techniques as an aid to decision making. Business application will be emphasized with cases and problems from the areas of management, marketing, finance and accounting. Uses computer programs for data analysis, interpretation and presentation of research results. Prereq: MATH 235.

INTE120 - Integrated Information Technology Application Projects

Course Information

Course Title
Integrated Information Technology Application Projects

Subject code	Course Number	Academic Level
INTE	120	Undergraduate

Course Description  
Introduction to the use of information technology to retrieve, filter, process, classify, sort, and evaluate data and information in a business environment. Developing word processing, spreadsheets, database, scripting, and presentation skills to create integrated projects for business and workplace environments.

INTE130 - Fundamentals of Information Technology

Course Information

Course Title
Fundamentals of Information Technology

Subject code	Course Number	Academic Level
INTE	130	Undergraduate

Course Description  
This course provides students with a working knowledge of the terminology, processes, and components associated with information technology. Students will be introduced to the creation, organization, analysis, storage, retrieval, representation, and transmission of data and information as well as work force considerations, and related societal and ethical issues with respect to IT.

INTE230 - Network Concepts, Security and Administration

Course Information

Course Title
Network Concepts, Security and Administration

Subject code	Course Number	Academic Level
INTE	230	Undergraduate

### Course Description

An introduction to computer network concepts that includes fundamental protocols and administration. Computer network communications will be discussed including LAN and WAN topologies, protocols and services, such as TCP/IP, and Ethernet, within the context of the OSI Reference Model, multimedia, and content distribution networks. Topics in network management will also be covered, including users/groups, file permissions, system maintenance, and trouble shooting. Network management, packet analyzer, and network simulation tools may be used.

### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

INTE130 and CSCI161

#### Complete ALL of the following Courses:

- INTE130 - Fundamentals of Information Technology
- CSCI161 - Introduction to Programming 1

#### Additional Comments:

## INTE240 - The Fundamentals of Web Technology

### Course Information

#### Course Title

The Fundamentals of Web Technology

Subject code	Course Number	Academic Level
INTE	240	Undergraduate

#### Course Description

Introduction to web-based information systems that includes the principles and practices of website development process, website project implementation, and evaluation of web-based applications including related software, databases, programming interfaces, and platforms. Security and privacy issues related to web-based information systems are explored. Applications of architectural principles of scalability, reliability, and redundancy in website development are discussed.

### Simple Requisites

- CSCI161 - Introduction to Programming 1
- INTE130 - Fundamentals of Information Technology

#### Additional Comments:

## INTE335 - Advanced Computer Networking

### Course Information

#### Course Title

Advanced Computer Networking

Subject code	Course Number	Academic Level
INTE	335	Undergraduate

#### Course Description

This is an advanced-level course on computer networks. This course is the continuation discussion on INTE 230 Network Concepts. The course has a comprehensive overview on advanced topics in network protocols, and networked systems. This course starts with a brief overview of TCP/IP protocol suite and reference model. The main discussions are fundamentals of network technology, Routing Algorithms, Routing Among the ISPs, Software Defined Networking (SDN), Network Management and SNMP, Error-Detection and Correction Techniques in Link Layer, Link-Layer Addressing and ARP, Virtual Local Area Networks (VLANs), Data Center Networking, Wireless and Mobile Networks, Mobility Management, and Security in Computer Networks. Some Network security topics are discussed such as: Principles of Cryptography, Digital Signatures, End-Point Authentication, Securing E-Mail, Transport Layer Security (TLS), Virtual Private Networks (VPNs), and Firewalls. Prerequisites: INTE 230

### Simple Requisites

**Additional Comments:**

## INTE365 - Health Care Information Management

### Course Information

**Course Title**

Health Care Information Management

Subject code	Course Number	Academic Level
INTE	365	Undergraduate

#### Course Description

Students will apply fundamental skills in information technology to database design, data structures, software applications, and their management functions in health services organizations. Techniques in database design and management in the health care system will be discussed.

#### Simple Requisites

#### Course Prerequisites

**Type**

Prerequisite

CSCI366 and NURS310 and NURS312

#### Complete ALL of the following Courses:

- CSCI366 - Database Systems
- NURS310 - Health Issues from a Population Health Perspective
- NURS312 - Value-Based Care

**Additional Comments:**

## INTE360 - IT Risk Management and Security

### Course Information

**Course Title**

IT Risk Management and Security

Subject code	Course Number	Academic Level
INTE	360	Undergraduate

#### Course Description

Explores Networking Security from the perspective of risk management to develop strategies to mitigate and manage risks. Focuses on assessment strategies for effective mitigation measures and risk management practices in terms of cybersecurity. Risk Management Fundamentals and

## INTE410 - IT Project Management

### Course Information

#### Course Title

IT Project Management

Subject code	Course Number	Academic Level
INTE	410	Undergraduate

#### Course Description

This course covers technical and behavioral aspects of the successful management of information systems developments. Topics include needs identification, system project manager and team, system project organizations, project communications, system project planning, scheduling, control, associated costs, and using project management software tools. Examples of IT project management process will be explored for different industry lines with respect to system development activities and System Development Life Cycle. INTE 360 is recommended.

#### Simple Requisites

##### Additional Comments:

## INTE420 - Fundamentals of Operating Systems Management

### Course Information

#### Course Title

Fundamentals of Operating Systems Management

Subject code	Course Number	Academic Level
INTE	420	Undergraduate

#### Course Description

This is an introduction to the foundational principles of operating systems. Topics include system management in memory, processor, process and thread mechanics, devices, network, file and directory, graphical and command line user interfaces. Essentials for effective administration and maintenance of an operating system and its services will be discussed. In addition, students will learn to install, manage, and secure an operating system.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

CSCI162 and INTE230

##### Complete ALL of the following Courses:

- CSCI162 - Introduction to Programming 2
- INTE230 - Network Concepts, Security and Administration

##### Additional Comments:

## INTE425 - Data Explor and Visualization

### Course Information

#### Course Title

Data Explor and Visualization

Subject code	Course Number	Academic Level
INTE	425	Undergraduate

#### Course Description

Students will learn dataset elements, data collection, representation and querying techniques, visual variables and statistical tools for graphing, and preparation of data for further analysis, with emphasis on issues related to healthcare. Students will also be introduced to data science tools and related coding techniques.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

CSCI366

##### Complete ALL of the following Courses:

- CSCI362 - Data Structures

Additional Comments:

INTE466 - Ethical Hacking and Penetration Testing

Course Information

Course Title  
Ethical Hacking and Penetration Testing

Subject code	Course Number	Academic Level
INTE	466	Undergraduate

Course Description

Discussion of advanced topics in Cybersecurity, such as security testing, system defense, and countermeasures. The implications of information security vulnerabilities in systems, networks, and applications are explored. Students will be able to identify solutions before adversaries exploit the flaws. In this course, students discover techniques that attackers use to compromise network and systems security. Demonstrating how an adversary could hack into systems by simulate a hack of systems to uncover and exploit vulnerabilities in an isolated penetration test computer laboratory. The course offers learning on how to protect network and systems through hands-on lab activities utilizing the tools and methods that intruders use. Methods of security assessments for the strength of the organizational cybersecurity posture are discussed. Additional topics include firewall and intrusion detection system exploration, denial of service attack issues, Internet security mechanisms, spoofing, session hijacking, and sniffers.

## MGMT381 - Data & Information Management

### Course Information

Course Title

Data & Information Management

Subject code	Course Number	Academic Level
MGMT	381	Undergraduate

#### Course Description

Builds on the core concepts of data and information management. It is centered around the core skills of identifying organizational information requirements, modeling them using conceptual data modeling techniques, converting the conceptual data models into relational data models and verifying its structural characteristics with normalization techniques, and implementing and utilizing a relational database using an industrial-strength database management system. Includes coverage of basic database administration tasks. In addition to developing database applications, the course helps the students understand how large-scale packaged systems are highly dependent on the use of DBMSs. Building on the transactional database understanding, the course also provides an introduction to

data and information management technologies that provide decision support capabilities under the broad business intelligence umbrella. Prereq: BUAD 307

#### Simple Requisites

## MGMT452 - Operations and Supply Chain Management

### Course Information

#### Course Title

Operations and Supply Chain Management

Subject code	Course Number	Academic Level
MGMT	452	Undergraduate

#### Course Description

Survey of basic principles, concepts and techniques of operations management applicable to manufacturing as well as service organizations. Examines positioning, design and operating decisions and their interrelationships in the context of the overall competitive strategy of the firm. Explores current trends and innovations in operations management theory and practice. Topics include operations strategy, quality control/TQM, product/service design, capacity planning, process design, facility layout, design of work

systems, location planning, supply chain management, inventory control, MRP/ERP, just-in-time systems, scheduling and project management. Prereq: MATH 130 or 235 and C- or higher in BUAD 251.

#### Simple Requisites

Operations Management

Subject code	Course Number	Academic Level
MGMT	653	Graduate

#### Course Description

Examines positioning, design and operating decisions and their interrelationships in the context of the overall competitive strategy of the firm. The international dimensions of operations management, as well as the relationships of operations management to other functional areas are stressed. Topics include operations strategy, quality management, product and service design, process design, capacity planning, facilities layout, design of work systems, location planning, total quality control, aggregate planning, independent demand inventory system, push and pull systems, enterprise resources planning, supply chain management, and scheduling.

## MGMT670 - Strategy and Policy

### Course Information

#### Course Title

Strategy and Policy

Subject code	Course Number	Academic Level
MGMT	670	Graduate

#### Course Description

Capstone seminar in the formulation and administration of organizational planning and policy. The student is expected to utilize integrate, and apply the theories, concepts, principles and techniques relevant to business problems and situations. Uses case studies, course projects, library research, field research, group decision making, role-playing, simulations and other strategic planning and management process exercises. Emphasizes the global nature of business and utilizes technology to coordinate the activities of the group efforts. Prereq: Demonstrated proficiency in general business concepts at the introductory level through job experiences or coursework.

## Mathematics Department

The Department of Mathematics offers three baccalaureate-degree programs with a major in mathematics. It also offers minors in mathematics and statistics.

The recommended course sequences in the three mathematics programs are virtually identical through the first two years. The Bachelor of Arts (B.A.) degree program in mathematics is a flexible curriculum designed to accommodate the widest possible range of career objectives. It is structured according to the traditional liberal arts approach to college education. The second semester of a foreign language is required in the B.A. program. The Bachelor of Science (B.S.) degree program is more specifically applications oriented. With more required courses in mathematical analysis and science, it is somewhat less flexible than the B.A. program. The Bachelor of Science in Education (B.S.Ed.) degree program is the degree and certification degree program for prospective secondary teachers of mathematics. In addition to having mathematics course requirements comparable to those of the two other programs, the B.S.Ed. requires appropriate educational methods courses.

Mathematics majors may elect an option in actuarial science, applied mathematics or statistics designed to prepare students for careers in these applied fields.

For admission as a major in mathematics, a student is expected to have a sound preparation in high school academic mathematics: algebra I and II, plane geometry and precalculus (trigonometry and analytic geometry). Such students normally begin their mathematics sequence with Calculus I. Students who have completed a calculus course in high school are encouraged to take the College Board Advanced Placement Exam and have their score sent to Millersville University for evaluation. University credit for first year-level mathematics courses may be offered to students with scores of 3 or higher. For further information, see Advanced Placement Examinations in the Admissions section.

In an effort to ensure that each student is properly placed, the department administers mathematics placement assessments. For more information, see the Academic Requirements: Proficiency Requirements section.

The cooperative education program allows students valuable experience in a full-time or part-time professional position related to their career goals, adding practical relevance to their program of study as well as significant financial remuneration. This often leads to full-time employment after graduation. Students may elect one or more cooperative education experiences.

FACULTY LIST
<p><b>Buchanan, J;</b> Professor College of Science and Technology B.S., Davidson College, 1983; M.S., North Carolina State University, 1985; Ph.D., Ibid., 1993</p>

## Mathematics Post-Baccalaureate Certificate

### Overview

For post-baccalaureate information please see the "Certification" section of the Graduate Course Catalog.

### Curriculum

Simple Requisites

Advanced Professional Studies - Post-Bacc Cert (6 credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Course Requirements for APS: Foundations Courses (6 credits)

Complete at least 1 of the following:

Option 1. Foundations Graduate Level (6 credits)

Complete ALL of the following Courses:

- EDFN590 - Social Foundation of Educ
- EDFN545 - Advanced Educational Psychology

OR

Option 2. Foundations Undergraduate Level (6 credits)

Complete ALL of the following Courses:

- EDFN211 - Foundations Modern Education
- OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching
- OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

APS Status

Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

Additional Comments:

Major in Mathematics, Post-Baccalaureate Cert (41-44)

Type

Completion Requirement

Requirements

Credits Required for Major

Minimum GPA

Earn a minimum GPA of 2.0

Required Mathematics Courses

Fulfill ALL of the following requirements:

Required Courses (12 credits)

Earn a minimum grade of C- in the following:

- MATH161 - Calculus 1
- MATH211 - Calculus 2
- MATH311 - Calculus 3

AND

History of Mathematics (3 credits)

Complete at least 1 of the following:

Option 1

Earn a minimum grade of C- in the following:

- MATH301 - History of Mathematics

OR

985 / 1368

Option 2

**Earn a minimum grade of C- in the following:**

- MATH603 - History of Mathematics

AND

Intro Math Proof (3 credits)

**Complete at least 1 of the following:**

Option 1

**Earn a minimum grade of C- in the following:**

- MATH310 - Intro to Mathematical Proof

OR

Option 2

**Earn a minimum grade of C- in the following:**

- MATH520 - Logic and Foundations of Math

AND

Linear Algebra 1 (4 credits)

**Complete at least 1 of the following:**

Option 1

**Earn a minimum grade of C- in the following:**

- MATH322 - Linear Algebra 1

OR

Option 2

**Earn a minimum grade of C- in the following:**

- MATH502 - Linear Algebra

AND

Abstract Algebra 1 (3 credits)

**Complete at least 1 of the following:**

Option 1

**Earn a minimum grade of C- in the following:**

- MATH345 - Abstract Algebra 1

OR

Option 2

**Earn a minimum grade of C- in the following:**

- MATH504 - Modern Algebra for Teachers

AND

Survey of Geometry or Transfrmtnl Geometry (3-4 credits)

**Complete at least 1 of the following:**

Option 1

**Earn a minimum grade of C- in the following:**

- MATH353 - Survey of Geometry

OR

Option 2

**Earn a minimum grade of C- in the following:**

- MATH355 - Transformational Geometry

OR

Option 3

**Earn a minimum grade of C- in the following:**

- MATH505 - Classical & Modern Geometry

OR

Option 4

**Earn a minimum grade of C- in the following:**

- MATH650 - Topics in Geometry

AND

Real Analysis I (3 credits)

**Complete at least 1 of the following:**

Option 1

**Complete ALL of the following Courses:**

- MATH464 - Real Analysis 1

OR

Option 2

**Earn a minimum grade of C- in the following:**

- MATH506 - Modern Analysis for Teachers

Required Options Courses

**Fulfill ALL of the following requirements:**

Statistics Requirement

**Fulfill ALL of the following requirements:**

Option 1. Intro to Probability and Statistics

**Complete at least 1 of the following courses:**

- MATH333 - Probability and Statistics
- MATH503 - Probability and Statistics for Teachers

AND

Option 2. Math Statistics I and Statistics II

**Complete at least 2 of the following courses:**

- MATH335 - Mathematical Statistics 1
- MATH435 - Mathematical Statistics 2
- MATH535 - Statistical Methods 1

AND

Mathematics Electives (6 credits)

**Earn at least 6 credits from the following:**

- MATH333 - Probability and Statistics
- MATH335 - Mathematical Statistics 1
- MATH353 - Survey of Geometry
- MATH355 - Transformational Geometry

- MATH365 - Ordinary Differential Equations
- MATH370 - Operations Research
- MATH375 - Numerical Analysis
- MATH393 - Number Theory
- MATH395 - Introduction Combinatorics
- MATH408 - Topics in Mathematics
- MATH418 - Topics in Math Education
- MATH422 - Linear Algebra 2
- MATH435 - Mathematical Statistics 2
- MATH438 - Topics in Statistics
- MATH445 - Abstract Algebra 2
- MATH457 - Elementary Differential Geometry
- MATH465 - Real Analysis 2
- MATH467 - Partial Differential Equations
- MATH471 - Mathematical Modeling
- MATH472 - Financial Mathematics II
- MATH478 - Topics in Applied Mathematics
- MATH483 - Point-Set Topology
- MATH498 - Independent Study
- MATH503 - Probability and Statistics for Teachers
- MATH535 - Statistical Methods 1
- MATH536 - Statistical Methods 2
- MATH566 - Complex Variables
- MATH577 - Problems in Applied Math
- MATH592 - Graph Theory

Or choose from Any 600-level MATH course(s)

**Additional Comments:**

**Req Related for Mathematics, Post-Bacc Cert (8 credits)  
Type**

Completion Requirement

Required Related Courses

**Fulfill ALL of the following requirements:**

Intro. to Computing I (4 credits)

**Complete ALL of the following Courses:**

- CSCI161 - Introduction to Programming 1

AND

Required Courses (4 credits)

**Complete ALL of the following Courses:**

- CSCI140 - Discrete Structures

**Additional Comments:**

**Professional Education - Certification (30 credits)**

**Type**

**Completion Requirement**

**Requirements**

**Fulfill ALL of the following requirements:**

**Foundations Bloc**

**Fulfill ALL of the following requirements:**

**Foundations of Modern Education (3 credits)**

**Complete at least 1 of the following courses:**

- EDFN590 - Social Foundation of Educ
- EDFN211 - Foundations Modern Education  
**OR** EDFN211H - H: Foundations Modern Education

**AND**

**Psychological Foundations of Teaching (3 credits)**

**Complete at least 1 of the following courses:**

- EDFN545 - Advanced Educational Psychology
- EDFN241 - Psychological Foundations of Teaching  
**OR** EDFN241H - Hon:Psychological Foundations of Teaching

We recommend 590 and 545 for Post-Bacc students. These courses each require 35 hours field placement at an urban school. Offered in the evenings Fall and Spring. Also offered in Summer Session. If enrolling in [EDFN211 Foundations Modern Education/EDFN241 Psyc Foundation of Teaching](#) and please register for both courses in the same block.

**AND**

**APS - Professional Bloc**

**Fulfill ALL of the following requirements:**

**Issues in Secondary Education (3 credits)**

**Complete at least 1 of the following courses:**

- EDSE521 - Issues in Second Education
- EDSE321 - Issues in Secondary Education  
**OR** EDSE321H - H: Issues in Secondary Education

**AND**

**Content Area Literacy for Diverse Classrooms (3 credits)**

**Complete at least 1 of the following courses:**

- EDSE340 - Content Area Literacy for Diverse Classrooms
- EDSE540 - Cntnt Area Litrcy Divers Class

**AND**

**Secondary Students w/Disabilities in Inclusive Settings (3 credits)**

**Complete at least 1 of the following courses:**

- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings
- SPED546 - Sec Stdnts w Disab Inclu Sttgs

**AND**

**Required Courses (3 credits)**

**Complete ALL of the following Courses:**

- MATH405 - Teaching Math in Secondary Schools 2

Students must meet APS eligibility requirements prior to registering. Course Appropriate PRAXIS II Exam should be taken after Professional Bloc and but prior to Student Teaching.

**AND**

**Student Teaching Seminar (3 credits)**

**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar

File your Intent to Student Teach Card one year prior to the beginning of the semester in which you wish to Student Teach. [Access the Student teaching Website](#)

AND

Student Teaching Semester (9 credits)

**Complete ALL of the following Courses:**

- EDMA461 - Student Teaching in Math
- EDMA462 - Student Teaching in Math

Students must meet APS eligibility requirements prior to registering. Submit your Teacher Certification Packet 90 days prior to completion of your certification program. [Access the packet on the Certification Website.](#)

**Additional Comments:**

## Mathematics Minor

### Overview

A minor in Mathematics will be beneficial for developing strong critical thinking skills and understanding abstract concepts. Study in Mathematics supports careers in business, science, agriculture, and engineering. The mathematics minor may be a complement one's primary major.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the

minor must be completed at Millersville University.

7. No student may minor in his or her major.

### Minor in Mathematics (22-25 credits)

#### Type

#### Completion Requirement

##### Requirements

**Fulfill ALL of the following requirements:**

Calculus I (4-5 credits)

**Complete at least 1 of the following courses:**

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Required Courses (12 credits)

**Complete ALL of the following Courses:**

- MATH211 - Calculus 2
- MATH311 - Calculus 3
- MATH322 - Linear Algebra 1

AND

Mathematics Electives (6-8 credits)

**Complete at least 2 of the following:**

##### Course Options

**Complete ANY of the following Courses:**

- MATH503 - Probability and Statistics for Teachers
- MATH535 - Statistical Methods 1
- MATH566 - Complex Variables
- MATH592 - Graph Theory

OR

##### Additional Course Options

**Complete ANY of the following Course Sets:**

- Any 3-level MATH course(s)
- Any 4-level MATH course(s)

Choose any 2 courses from the listed options.

**Note:** This requirement may not be satisfied with MATH 301, MATH 304, MATH 405, or MATH 418.

Additional Comments:

Statistics Minor

Overview

A minor in Statistics focuses on the quantitative aspects of research and includes Calculus and Statistics courses. This minor can be beneficial for agriculture, business, education, sciences, and sports management. Students may apply this knowledge in industry and government. The Statistics minor may complement one’s primary major.

Curriculum

Simple Requisites

Regulations Governing Minor Course Work

- 1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
- 2. Only one course which counts toward your major may be counted toward your minor.
- 3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
- 4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
- 5. No course needed for the minor may be taken Pass-Fail.
- 6. One-half or more of the work required for the minor must be completed at Millersville University.
- 7. No student may minor in his or her major.

Minor in Statistics

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Calculus I or Honors Calculus I (4-5 credits)

Complete at least 1 of the following courses:

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Required Courses (12 credits)

Complete ALL of the following Courses:

- MATH211 - Calculus 2
- MATH311 - Calculus 3
- MATH535 - Statistical Methods 1
- MATH537 - Statistical Problem Solving Seminar

AND

Probability and Statistics or Mathematical Statistics (4-6 credits)

Complete at least 1 of the following:

Option 1. Probability and Statistics

Complete ALL of the following Courses:

- MATH333 - Probability and Statistics

OR

Option 2. Mathematical Statistics I and II

Complete ALL of the following Courses:

- MATH335 - Mathematical Statistics 1
- MATH435 - Mathematical Statistics 2

AND

Topics in Statistics or Statistical Methods II

Complete at least 1 of the following courses:

- MATH438 - Topics in Statistics
- MATH536 - Statistical Methods 2

Additional Comments:

Mathematics, B.A.

Overview

The B.A. degree program in mathematics is a flexible curriculum designed to accommodate the widest possible range of career objectives. It is structured according to the traditional liberal arts approach to college education. The second semester of a foreign language is required.

Curriculum

Simple Requisites

Major in Mathematics, BA (43-44 credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Requirements

- Credits Required for Major
- Minimum Residency 50% of Major credits

AND

Minimum GPA for Major

Earn a minimum GPA of 2.0

AND

Required Mathematics Courses

Fulfill ALL of the following requirements:

Calculus I (4-5 credits)

Complete at least 1 of the following courses:

- MATH161 - Calculus 1
- MATH163H - Honors Calculus 1

AND

Required Courses (21 credits)

Complete ALL of the following Courses:

- MATH211 - Calculus 2
- MATH310 - Intro to Mathematical Proof
- MATH311 - Calculus 3
- MATH322 - Linear Algebra 1
- MATH345 - Abstract Algebra 1
- MATH464 - Real Analysis 1

AND

Required Courses if No Option Declared

Fulfill ALL of the following requirements:

Mathematic Stats I or Differential Equations (3 credits)

Complete at least 1 of the following courses:

- MATH335 - Mathematical Statistics 1
- MATH365 - Ordinary Differential Equations

AND

Additional Required Mathematics Course (3 credits)

Complete at least 1 of the following courses:

- MATH422 - Linear Algebra 2
- MATH435 - Mathematical Statistics 2
- MATH445 - Abstract Algebra 2
- MATH467 - Partial Differential Equations

AND

Elective Mathematics Courses (12 credits)

Complete at least 4 of the following:

Course Options

Earn at least 12 credits from the following:

- MATH335 - Mathematical Statistics 1
- MATH354 - Classical and Transformational Geometry
- MATH365 - Ordinary Differential Equations
- MATH370 - Operations Research
- MATH372 - Financial Mathematics I
- MATH375 - Numerical Analysis
- MATH393 - Number Theory
- MATH395 - Introduction Combinatorics
- MATH422 - Linear Algebra 2
- MATH435 - Mathematical Statistics 2
- MATH445 - Abstract Algebra 2
- MATH457 - Elementary Differential

Geometry

- MATH465 - Real Analysis 2
- MATH467 - Partial Differential Equations
- MATH471 - Mathematical Modeling
- MATH472 - Financial Mathematics II
- MATH483 - Point-Set Topology
- MATH498 - Independent Study
- MATH535 - Statistical Methods 1
- MATH536 - Statistical Methods 2
- MATH566 - Complex Variables
- MATH592 - Graph Theory

OR

Additional Course Options

**Complete ANY of the following Course Sets:**

- Any 4@8 MATH course

To satisfy this requirement, a minimum of 12 credit hours must be taken.

**Additional Comments:**

**Req Related for Mathematics, BA**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Intro. to Computing I (4 credits)

**Complete ALL of the following Courses:**

- CSCI161 - Introduction to Programming 1

AND

Additional Required Related Courses

**Complete at least 1 of the following:**

Option 1. College of Science and Technology Courses (6 credits)

**Fulfill ANY of the following requirements:**

Course Options

**Complete ANY of the following Course Sets:**

- Any BIOL course(s)
- Any CHEM course(s)
- Any CSCI course(s)
- Any ESCI course(s)
- Any PHYS course(s)

OR

Additional Course Options

**Complete ANY of the following Courses:**

- PHIL312 - Mathematical Logic

OR

Option 2. Three courses from a SINGLE department

If you select Option 2. Three courses from a SINGLE department, your advisor must email a list of courses to degreeaudit@millersville.edu for them to fulfill this requirement.

Note: This requirement may not be satisfied with BIOL 100, BIOL 108H, BIOL 204, BIOL 205, BIOL 207, BIOL 208, BIOL 247, BIOL 257, any CHEM 101-104 course(s), CHEM 110, CHEM 188, CHEM 235, CSCI 101, CSCI 111, CSCI 121, ESCI 101, ESCI 102, ESCI 104, ESCI 105, ESCI 107, ESCI 110, PHYS 103, PHYS 117, PHYS 131, PHYS 132, PHYS 198, or PHYS 205.

AND

Foreign Language Competency

Language competency through the elementary level (102 or higher) is required. FORL 101 is needed only if necessary to progress to 102.

**Additional Comments:**

# Mathematics, B.A. – Actuarial Sciences Option

## Overview

The Actuarial Science option will prepare you to combine mathematics and statistics to assess risk in insurance, finance, and other industries. Students successfully completing the option will be prepared to take the first two examinations administered by the Society of Actuaries.

## Curriculum

### Simple Requisites

Major in Mathematics, BA (25-26 credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Requirements

- Credits Required for Major
- Minimum Residency 50% of Major credits

AND

Minimum GPA for Major

Earn a minimum GPA of 2.0

AND

OR

Option 2. Three courses from a SINGLE department

If you select Option 2. Three courses from a SINGLE department, your advisor must email a list of courses to degreeaudit@millersville.edu for them to fulfill this requirement.

Note: This requirement may not be satisfied with BIOL 100, BIOL 108H, BIOL 204, BIOL 205, BIOL 207, BIOL 208, BIOL 247, BIOL 257, any CHEM

101-104 course(s), CHEM 110, CHEM 188, CHEM 235, CSCI 101, CSCI 111, CSCI 121, ESCI 101, ESCI 102, ESCI 104, ESCI 105, ESCI 107, ESCI 110, PHYS 103, PHYS 117, PHYS 131, PHYS 132, PHYS 198, or PHYS 205.

AND

Foreign Language Competency

Language competency through the elementary level (102 or higher) is required. FORL 101 is needed only if necessary to progress to 102.

**Additional Comments:**

## Mathematics, B.A. – Statistics Option

### Overview

Studying Statistics at Millersville University will prepare students to develop and apply mathematical and statistical theory and methods to collect, organize, interpret, and summarize numerical data. Students who complete the Statistics Option find that it prepares them well for graduate school or careers in agriculture, business, education, government, industry, social or applied sciences.

### Curriculum

#### Simple Requisites

**Major in Mathematics, BA (25-26 credits)**

**Type**

Completion Requirement

AND

#### Foreign Language Competency

Language competency through the elementary level (102 or higher) is required. FORL 101 is needed only if necessary to progress to 102.

**Additional Comments:**

## Mathematics, B.S.Ed.

### Overview

The Bachelor of Science in Education for Mathematics Majors provides training in Secondary Mathematics Education and is the degree program for prospective teachers of mathematics in secondary schools. Students receive thorough mathematical content knowledge and pedagogical training to prepare them to teach. In order to graduate in 4 years, students in the B.S.E. program must complete all their academic coursework in 7 semesters, as their final semester is spent in a full-time student teaching field placement. Successful graduates will be certified to teach mathematics in grades 7 through 12 in Pennsylvania and can easily transfer this certification to any state.

### Curriculum

#### Simple Requisites

#### Major in Mathematics, BSE (47-50 credits)

##### Type

Completion Requirement

Minimum GPA

**Earn a minimum GPA of 2.0**

##### Requirements

- Credits Required for Major
- Minimum Residency 50% of Major credits

##### Requirements

**Fulfill ALL of the following requirements:**

Calculus I (4-5 credits)

**Earn a minimum grade of C- in the following:**

- MATH161 - Calculus 1  
OR MATH163H - Honors Calculus 1

AND

Required Courses (33 credits)

**Earn a minimum grade of C- in the following:**

- MATH211 - Calculus 2
- MATH301 - History of Mathematics
- MATH305 - Teaching Math in Secondary Schools 1
- MATH310 - Intro to Mathematical Proof
- MATH311 - Calculus 3
- MATH322 - Linear Algebra 1
- MATH325 - Mathematical Connections
- MATH345 - Abstract Algebra 1
- MATH354 - Classical and Transformational Geometry
- MATH405 - Teaching Math in Secondary Schools 2

AND

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- MATH464 - Real Analysis 1

AND

Requirements for No Option Declared

**Fulfill ALL of the following requirements:**

Statistics Requirement (4-6 credits)

**Complete at least 1 of the following:**

Option 1. Intro to Probability and Statistics (4 credits)

**Complete ALL of the following Courses:**

- MATH333 - Probability and Statistics

OR

Option 2. Math Statistics I and Statistics II (6 credits)

**Earn a minimum grade of C- in the following:**

- MATH335 - Mathematical Statistics 1
- MATH435 - Mathematical Statistics 2

AND

Mathematics Electives (3 credits)

**Fulfill ANY of the following requirements:**

Option 1

**Earn a minimum grade of C- in the following:**

- MATH365 - Ordinary Differential Equations  
OR MATH370 - Operations Research  
OR MATH372 - Financial Mathematics I  
OR MATH375 - Numerical Analysis  
OR MATH393 - Number Theory  
OR MATH395 - Introduction Combinatorics  
OR MATH422 - Linear Algebra 2  
OR MATH445 - Abstract Algebra 2  
OR MATH457 - Elementary Differential Geometry  
OR MATH465 - Real Analysis 2  
OR MATH467 - Partial Differential Equations  
OR MATH471 - Mathematical Modeling  
OR MATH472 - Financial Mathematics II  
OR MATH483 - Point-Set Topology  
OR MATH498 - Independent Study  
OR MATH535 - Statistical Methods 1  
OR MATH536 - Statistical Methods 2  
OR MATH566 - Complex Variables  
OR MATH577 - Problems in Applied Math  
OR MATH592 - Graph Theory

OR

Option 2

**Earn a minimum grade of C- in the following:**

- Any 4@8 MATH course

**Additional Comments:**

**Professional Education (27 credits)**

**Type**

**Completion Requirement**

**Requirements**

**Fulfill ALL of the following requirements:**

Educational Foundations (6 credits)

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

Required Education Courses (3 credits)

**Complete ALL of the following Courses:**

- EDSE321 - Issues in Secondary Education  
OR EDSE321H - H: Issues in Secondary Education

AND

Accommodations & Adaptations (6 credits)

**Complete ALL of the following Courses:**

- EDSE340 - Content Area Literacy for Diverse Classrooms
- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings

AND

Student Teaching (12 credits)

**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar
- EDMA461 - Student Teaching in Math

**Additional Comments:**

## Req Related for Mathematics, BSE (8 credits)

### Type

Completion Requirement

#### Requirements

**Fulfill ALL of the following requirements:**

Required Related Courses (8 credits)

**Complete ALL of the following Courses:**

- CSCI161 - Introduction to Programming 1
- CSCI140 - Discrete Structures

**Additional Comments:**

## Advanced Professional Studies, BSE

### Type

Completion Requirement

#### APS Requirements

**Fulfill ALL of the following requirements:**

English Composition (3 credits)

**Complete at least 1 of the following courses:**

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College Writing

AND

English Literature (3 credits)

**Complete at least 1 of the following courses:**

- ENGL230 - Introduction to Literature
- ENGL231 - World Literature 1
- ENGL232 - World Literature 2
- OR ENGL232H - Hnrs: World Literature 2
- ENGL233 - Early British Literature
- ENGL234 - Later British Literature
- ENGL235 - American Literary Tradition I
- ENGL236 - American Literary Tradition II
- ENGL241H - H:Explorations in World Lit
- ENGL242 - Reading Our World:
- OR ENGL242H - Hnrs: Reading Our World:
- ENGL292 - Science Fiction
- OR ENGL292H - Hon: Science Fiction
- ENGL333 - African-American Literature 1
- ENGL333H - Hnrs:African-American

Literature 1

- ENGL334 - African American Literature 2
- ENGL334H - Hnrs:African American Literature 2
- ENGL336 - New Dimensions to World Lit
- ENGL338 - Folklore and Literature
- OR ENGL338H - H:Folklore and Literature
- ENGL401 - Old Eng Lang and Literature
- ENGL402 - Middle Eng Lang and Literature

AND

#### Mathematics

Two Mathematics courses are required for BSE students. It is preferable to take two courses designated as G2. [Search for MATH courses on the current web schedule.](#)

[BIOL375 Biometry](#) will fulfill one Mathematics course for BSE BIOL students.

AND

Required Courses (6 credits)

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education
- OR EDFN211H - H: Foundations Modern Education
- OR EDFN241 - Psychological Foundations of Teaching
- OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

ACT 126 - Educator Ethics Training

You must submit your Educator Ethics Training.

AND

APS Status

Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

Additional Comments:

Mathematics, B.S.Ed. - Actuarial Science Option

Overview

The Actuarial Science option will prepare you to combine mathematics and statistics to assess risk in insurance, finance, and other industries. Students successfully completing the option will be prepared to take the first two examinations administered by the Society of Actuaries.

## Mathematics, B.S.Ed. - Statistics Option

### Overview

Studying Statistics at Millersville University will prepare students to develop and apply mathematical and statistical theory and methods to collect, organize, interpret, and summarize numerical data. Students who complete the Statistics Option find that it prepares them well for graduate school or careers in agriculture, business, education, government, industry, social or applied sciences.

## Mathematics, B.S.

### Overview

The B.S. degree program in mathematics is more specifically application-oriented than the B.A. degree program in mathematics, requiring a greater concentration in mathematical analysis and science. The program is designed to position its graduates for a career in business, industry, or research in mathematics.

### Curriculum

#### Simple Requisites

Major in Mathematics, BS (43-44 credits)

Type

Completion Requirement

Minimum GPA

Earn a minimum GPA of 2.0

Requirements

- Credits Required for Major
- Minimum Residency 50% of Major Courses

Requirements

Fulfill ALL of the following requirements:

Required Mathematics Courses (34-35 credits)

Fulfill ALL of the following requirements:

Calculus I (4-5 credits)

Earn a minimum grade of C- in the following:

- MATH161 - Calculus 1
- OR MATH163H - Honors Calculus 1

AND

Required Courses (30 credits)

Complete ALL of the following Courses:

- MATH211 - Calculus 2
- MATH310 - Intro to Mathematical Proof
- MATH311 - Calculus 3
- MATH322 - Linear Algebra 1
- MATH335 - Mathematical Statistics 1
- MATH345 - Abstract Algebra 1
- MATH365 - Ordinary Differential Equations
- MATH375 - Numerical Analysis
- MATH464 - Real Analysis 1

AND

Requirements for No Declared Option (9 credits)

Fulfill ALL of the following requirements:

Additional Mathematics Course (3 credits)

Complete at least 1 of the following courses:

- MATH422 - Linear Algebra 2
- MATH435 - Mathematical Statistics 2
- MATH467 - Partial Differential Equations
- MATH472 - Financial Mathematics II

AND

Elective Mathematics Courses (6 credits)

Complete at least 2 of the following:

Course Options

Complete ANY of the following Courses:

- MATH354 - Classical and Transformational Geometry
- MATH370 - Operations Research
- MATH372 - Financial Mathematics I
- MATH393 - Number Theory
- MATH395 - Introduction

Combinatorics

- MATH422 - Linear Algebra 2
- MATH435 - Mathematical Statistics 2
- MATH445 - Abstract Algebra 2
- MATH457 - Elementary Differential Geometry
- MATH465 - Real Analysis 2
- MATH467 - Partial Differential Equations
- MATH471 - Mathematical Modeling
- MATH472 - Financial Mathematics II
- MATH483 - Point-Set Topology
- MATH535 - Statistical Methods 1
- MATH536 - Statistical Methods 2
- MATH566 - Complex Variables
- MATH592 - Graph Theory

OR

Additional Course Options

**Complete ANY of the following Course Sets:**

- Any 4@8 MATH course

**Note:** 6 credits minimum

**Additional Comments:**

**Req Related for Mathematics, BS**

**Type**

**Completion Requirement**

Requirements

**Fulfill ALL of the following requirements:**

Required Related - Statistics or No Option (4-5 credits)

**Fulfill ALL of the following requirements:**

Intro. to Computing I (4 credits)

**Complete ALL of the following Courses:**

- CSCI161 - Introduction to Programming 1

AND

General Physics I (5 credits)

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus

Additional Required Related

**Complete at least 1 of the following:**

Option 1

**Complete at least 1 of the following:**

Elective Required Related Science (5 credits)

**Complete at least 2 courses in the following course sets:**

- Any BIOL course(s)
- Any CHEM course(s)
- Any CSCI course(s)
- Any ESCI course(s)
- Any PHYS course(s)

May also take [PHIL312 Mathematical Logic](#).

**Note:** This requirement may not be satisfied with [BIOL100 General Biology](#), [BIOL108H Hnrs:Freshman Biology Seminar](#), [BIOL204 Human Biology](#), [BIOL205 Heredity and Human Affairs](#), [BIOL207 Human Sexuality](#), [BIOL208 Plants and People](#), [BIOL 247](#), [BIOL257 Intro Allied Health](#), any [CHEM101 Chem!Better Things/Better Lving-104](#) course(s), [CHEM110 Fundamentals of Chemistry](#), [CHEM188 Freshman Seminar in Chemistry](#), [CHEM235 Organic Chemistry](#), [CSCI101 Problem Solving with Computers](#), [CSCI 111](#), [CSCI121 Intro to Web Programming](#), [ESCI101 Earth Systms and Naturl Hazrds](#), [ESCI102 Origin and Evoltn of the Earth](#), [ESCI104 The World Ocean](#), [ESCI105 World Ocean Laboratory](#), [ESCI107 The Atmosphere](#), [ESCI 110](#), [PHYS103 Elements of Physics](#), [PHYS117 General Astronomy](#), [PHYS131 Physics 1 with Algebra](#), [PHYS132 Physics 2 with Algebra](#), [PHYS198 Seminar In Physics](#) or [PHYS205 Musical Acoustics](#).

OR

Directed Required Related Science (3-5 credits)

**Complete at least 1 of the following courses:**

- BIOL375 - Biometry  
OR BIOL375H - Hon: Biometry
- CSCI162 - Introduction to Programming 2
- ESCI340 - Cloud Physics & Precip Process  
OR ESCI340H - H:Cloud Physics & Precip Process
- ESCI341 - Atmospheric Thermodynamics
- ESCI342 - Atmospheric Dynamics 1
- PHYS232 - Physics 2 with Calculus

OR

**Option 2. Courses From a Single Department**  
**Fulfill ALL of the following requirements:**

Four courses from a SINGLE department  
If you select Option B. Four courses from a SINGLE department, your advisor must email a list of courses to [degreeaudit@millersville.edu](mailto:degreeaudit@millersville.edu) for them to fulfill this requirement.

- PHYS232 - Physics 2 with Calculus

OR

**Option 2. Courses From a Single Department**

**Fulfill ALL of the following requirements:**

Four courses from a SINGLE department

If you select Option B. Four courses from a SINGLE department, your advisor must email a list of courses to [degreeaudit@millersville.edu](mailto:degreeaudit@millersville.edu) for them to fulfill this requirement.

**Additional Comments:**

## Mathematics, B.S. - Applied Mathematics Option

### Overview

The Applied Mathematics option is specifically intended to focus on applying mathematical knowledge in fields including (but not limited to): fluid and solid mechanics, physics, chemistry, engineering, biological sciences, economics, finance, and medical science. The program is designed to prepare students for careers or graduate school. Students enrolled in the B.S. program may complete the Applied Mathematics option.

### Curriculum

#### Simple Requisites

**Major in Mathematics, BS (34-35 credits)**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Minimum GPA

**Earn a minimum GPA of 2.0**

— AND —

**Requirements**

- Credits Required for Major
- Minimum Residency 50% of Major Courses

— AND —

**Required Mathematics Courses (34-35 credits)**

**Fulfill ALL of the following requirements:**

Calculus I (4-5 credits)

**Earn a minimum grade of C- in the following:**

- MATH161 - Calculus 1
- OR MATH163H - Honors Calculus 1

— AND —

**Required Courses (30 credits)**

**Complete ALL of the following Courses:**

- MATH211 - Calculus 2
- MATH310 - Intro to Mathematical Proof
- MATH311 - Calculus 3
- MATH322 - Linear Algebra 1
- MATH335 - Mathematical Statistics 1
- MATH345 - Abstract Algebra 1
- MATH365 - Ordinary Differential Equations
- MATH375 - Numerical Analysis
- MATH464 - Real Analysis 1

— AND —

**Applied Math Option Requirements**

See separate block

**Additional Comments:**

**Concentration in Applied Mathematics (7-9 credits)**

**Type**

Completion Requirement

**Requirements**

**Fulfill ALL of the following requirements:**

**Required Courses (3 credits)**

**Complete ALL of the following Courses:**

- MATH467 - Partial Differential Equations

— AND —

**Mathematics Electives (4-6 credits)**

**Complete at least 2 of the following courses:**

- MATH370 - Operations Research
- MATH372 - Financial Mathematics I
- MATH471 - Mathematical Modeling
- MATH472 - Financial Mathematics II
- MATH478 - Topics in Applied Mathematics

**Additional Comments:**

**Req Related for Mathematics, BS**

**Type**

Completion Requirement

**Required Related - Applied Math**

**Fulfill ALL of the following requirements:**

Intro to Computing (4 credits)

**Complete ALL of the following Courses:**

- CSCI161 - Introduction to Programming 1

— AND —

**General Physics I (5 credits)**

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus

— AND —

**Required Science Course (3-5 credits)**

**Complete at least 1 of the following courses:**

- ESCI341 - Atmospheric Thermodynamics
- ESCI342 - Atmospheric Dynamics 1
- PHYS232 - Physics 2 with Calculus

AND

Science Elective

Complete at least 2 courses in the following course sets:

- Any BIOL course(s)
- Any CHEM course(s)
- Any CSCI course(s)
- Any ESCI course(s)
- Any PHYS course(s)

May also take [PHIL312 Mathematical Logic](#).

**Recommend:** [PHYS311 Mechanics 1](#) and [PHYS312 Mechanics 2](#) and [CSCI406 Topics in Computer Science](#))

**Note:** This requirement may not be satisfied with [BIOL100 General Biology](#), [BIOL108H Hnrs:Freshman Biology Seminar](#), [BIOL204 Human Biology](#), [BIOL205 Heredity and Human Affairs](#), [BIOL207 Human Sexuality](#), [BIOL208 Plants and People](#), [BIOL 247](#), [BIOL257 Intro Allied Health](#), any [CHEM101 Chem!Better Things/Better Lvng- 104 course\(s\)](#), [CHEM110 Fundamentals of Chemistry](#), [CHEM188 Freshman Seminar in Chemistry](#), [CHEM235 Organic Chemistry](#), [CSCI101 Problem Solving with Computers](#), [CSCI 111](#), [CSCI121 Intro to Web Programming](#), [ESCI101 Earth Systms and Naturl Hazrds](#), [ESCI102 Origin and Evoltn of the Earth](#), [ESCI104 The World Ocean](#), [ESCI105 World Ocean Laboratory](#), [ESCI107 The Atmosphere](#), [ESCI 110](#), [PHYS103 Elements of Physics](#), [PHYS117 General Astronomy](#), [PHYS131 Physics 1 with Algebra](#), [PHYS132 Physics 2 with Algebra](#), [PHYS198 Seminar In Physics](#) or [PHYS205 Musical Acoustics](#).

Additional Comments:

school or careers in agriculture, business, education, government, industry, social or applied sciences.

## MATH070 - Essential Mathematics

### Course Information

**Course Title**

Essential Mathematics

Subject code	Course Number	Academic Level
MATH	70	Undergraduate

#### Course Description

This course focuses on computational and problem-solving skills that students need to prepare them for the mathematical prerequisites in their chosen fields of study. Additionally the course is designed to build financial skills required for life success (e.g. financial management, budgeting, and so forth). The individual mathematical topics will be covered as needed by individual students in the class based on his/her current abilities. Potential topics of study will include addition, subtraction, multiplication, and division of whole numbers, rational numbers; study and application of ratio, proportion, and percent; applied topics dealing with measurement, areas and perimeters of geometric figures, and basic descriptive statistics. This course is taught in a hybrid learning environment including (but not limited to) face-to-face instruction/lecture, online video instruction, individual one-on-one coaching/tutoring, and adaptive learning computer technology. MATH 070 course credit cannot be counted towards fulfillment of a baccalaureate or associate degree.

## MATH079 - Experimental/Developmental

### Course Information

**Course Title**

Experimental/Developmental

Subject code	Course Number	Academic Level
MATH	79	Undergraduate

#### Course Description

Experimental Course for Pre-College Level study in Mathematics. Does not count toward 120 credits for degree completion.

## MATH090 - Basic Mathematics

### Course Information

**Course Title**

Basic Mathematics

Subject code	Course Number	Academic Level
MATH	90	Undergraduate

#### Course Description

For students who need additional preparation before taking a college mathematics course. Remedial in nature and not applicable toward the science/math requirement. After successfully completing MATH 090, students are prepared to take courses that fulfill this requirement. Students who must take MATH 090 earn course credits, and the grade is counted in the cumulative grade point average, but MATH 090 course credit cannot be counted towards fulfillment of the baccalaureate or associate degree.

## MATH094 - Math 104 Supplemental

### Course Information

**Course Title**

Math 104 Supplemental

Subject code	Course Number	Academic Level
MATH	94	Undergraduate

#### Course Description

Mathematics content that elementary and special education teachers of mathematics at any level need to know and understand before beginning to teach. Includes number systems, structure of algorithms, number theory, properties of integers, rational and real numbers, and beginning geometry and measurement. Emphasis on problem solving and reasoning within each topic.

## MATH100 - Survey of Mathematical Ideas

### Course Information

**Course Title**

Survey of Mathematical Ideas

Subject code	Course Number	Academic Level
MATH	100	Undergraduate

Course Description

A liberal arts course for students who will not be scheduling a technical/professional math course. A survey of mathematics important to the history of Western civilization and to the modern world. Introductory modules covered usually include number theory, geometry, topology, probability, statistics, graph theory, consumer mathematics and set theory. No credit in math/science block for math and science majors. Prereq: MATH 090 with a grade of C- or higher or math placement testing/evaluation before registration. Only one of MATH 100, 102, 107, and 108 may be taken for general education credit.

General Education Labels

MATH101 - College Algebra

Course Information

Course Title

College Algebra

Subject code	Course Number	Academic Level
MATH	101	Undergraduate

Course Description

For students who need to improve their algebraic skills before taking a higher-level course such as MATH 151, 160 or 161; focuses on algebraic topics needed for success in college mathematics and its applications. Includes the real number system, linear equations and inequalities, word problems, polynomials and factoring, rational algebraic expressions, exponents and radicals, quadratic equations, irrational

equations, graphs of equations, systems of equations and logarithmic and exponential functions. Prereq: high school algebra I, II and geometry; math placement testing/ evaluation before registration.

MATH102 - Math in Non-European Cultures

Course Information

Course Title

Math in Non-European Cultures

Subject code	Course Number	Academic Level
MATH	102	Undergraduate

Course Description

A survey of mathematical ideas developed by non-European cultures, including, but not limited to, those of Africans, Asians and native North, Central and South Americans. Includes culture and specific examples from the following areas of mathematics: number theory, topology, probability, group theory and logic. No credit under block G2 for math or science majors. Prereq: MATH 090 with a grade of C- or higher, math placement testing/ evaluation before registration. Only one of MATH 100, 102, 107, and 108 may be taken for general education credit.

General Education Labels

Diversity (D), G2

### Course Information

#### Course Title

Math Survey: Art & Music

Subject code	Course Number	Academic Level
MATH	108	Undergraduate

#### Course Description

A liberal arts course for students who will not be scheduling a technical/professional mathematics course. Explores topics in mathematics through the lens of the fine arts, which may include (but is not limited to) architecture, visual arts, music, and dance. Mathematical content covered may include geometry, transformations, patterns, algebra, sequences and series, permutations, number theory, and fractals. No credit under G2 block for math or science majors. Only one of MATH 100, 102, 107, and 108 may be taken for general education credit. Prereq: MATH 090 with a grade of C-minus or higher or MPT 100.

## MATH110 - Trigonometry

### Course Information

#### Course Title

Trigonometry

Subject code	Course Number	Academic Level
MATH	110	Undergraduate

#### Course Description

For students preparing to take calculus who need additional background in trigonometry. Beginning with angles, numerical trigonometry and triangle solving, it develops the concepts and analytical skills required in calculus: identities, inverse functions, trigonometric equations, graphs and applications. Prereq: MATH 101 or math placement testing/evaluation before registration and high school algebra I, II and geometry.

## Simple Requisites

### Course Prerequisites

#### Type

Prerequisite

MATH 101

**Complete ALL of the following Courses:**

- MATH101 - College Algebra

Or Math placement testing/evaluation before registration and high school algebra I, II and geometry or MPT 160 or higher.

**Additional Comments:**

## MATH120 - Logic for Information Technology

### Course Information

#### Course Title

Logic for Information Technology

Subject code	Course Number	Academic Level
MATH	120	Undergraduate

Course Description

Discrete mathematics and its applications to technology including formal mathematical notation, propositional logic, predicate logic, set theory, relations, functions, and matrices. No credit toward a math or four-year computer science major. Prereq: C- or higher in MATH 101.

General Education Labels

MATH151 - Calculus for Management

Course Information

Course Title

Calculus for Management

Subject code	Course Number	Academic Level
MATH	151	Undergraduate

Course Description

Elementary calculus and its applications in business, economics, life and social sciences. Functions, limits and continuity. The derivative, applications in marginal analysis, optimization, differentials and error estimation. Antiderivatives, area under a curve and definite integrals; integration by parts. Exponential and logarithm functions; applications to growth and decay problems. Improper integrals. No credit toward a major or minor in mathematics. Prereq: MATH 101 or equivalent with a grade of C- or higher, or math placement testing/evaluation before registration. Credit will not be granted for more than one course from MATH 151, 161 or 163H. These courses are considered equivalent and will be processed as repeat credit.

# MATH160 - Precalculus

## Course Information

Course Title

Precalculus

Subject code	Course Number	Academic Level
MATH	160	Undergraduate

### Course Description

For students preparing to take Calculus I (MATH 161) who need additional background. Covers topics in which beginning calculus students are often deficient: elementary functions, curve sketching, theory of equations, inequalities, trigonometry and analytic geometry. No credit toward a math major. Prereq: two years of high school algebra, one year of high school geometry and trigonometry, and math placement testing/evaluation before registration; or MATH 101.

# MATH161 - Calculus 1

## Course Information

Course Title

Calculus 1

Subject code	Course Number	Academic Level
MATH	161	Undergraduate

### Course Description

Introduces concepts and techniques of calculus, beginning with limits. Major emphasis is on the theory and applications of limits, continuity, derivatives, antiderivatives and the definite integral. Includes introductory calculus of trigonometric, inverse trigonometric, exponential and

logarithmic functions. Prereq: C- or higher in MATH 160 or math placement testing/evaluation before registration. Credit will not be granted for more than one course from MATH 151, 161 or 163H. These courses are considered equivalent and will be processed as repeat credit.

## Course Information

Course Title

Honors Calculus 1

Subject code	Course Number	Academic Level
MATH	163H	Undergraduate

### Course Description

The progression of mathematical concepts, in the context of the thought and civilization of the time, from the Babylonians to the 20th century. Focus on the contributions of the Hellenic and Alexandrian Greeks as a point of departure for the evolution of geometry, number theory, analysis and logic. Proofs of some of the great theorems. Offered in fall, spring and periodically in summer. Credit will not be granted for more than one course from MATH 151, 161 or 163H. These courses are considered equivalent and will be processed as repeat credit.

# MATH204 - Algebraic Foundations for Mid-Level Teacher

## Course Information

Course Title

Algebraic Foundations for Mid-Level Teacher

Subject code	Course Number	Academic Level
MATH	204	Undergraduate

### Course Description

Designed for middle-level (4-8) teacher candidates. It contains a concrete study of algebraic structures encountered in the middle-level school mathematics curriculum. Content includes sequential patterns and examples and properties of rings and integral domains such as the integers, integers mod n, polynomials and matrices. Prereq: passing score on BST, and grade of C or better in MATH 104 or department permission. For middle level education majors only.

### General Education Labels

# MATH205 - Geometry for the Middle-Level Teacher

## Course Information

Course Title

Geometry for the Middle-Level Teacher

Subject code	Course Number	Academic Level
MATH	205	Undergraduate

### Course Description

Designed to equip middle-level (4-8) teacher candidates with sufficient knowledge and mathematical experiences for teaching geometry and measurement effectively. Includes the study of two-dimensional and three-dimensional figures, geometric constructions, congruence, similarity, angle measure, distance, area and volume. Connections between geometry and other mathematics topics; nature and art are addressed. Prereq: passing score on BST, and C or better in MATH 104 or department permission. For middle-level education majors only. MATH 105 is an equivalent course, credit will not be given for MATH 105 and 205

MATH	230	Undergraduate

### Course Description

Designed for middle-level (4-8) teaching candidates as an introduction to probability and statistics. Course will cover the following topics at an appropriate level: descriptive statistics, counting and basic probability, concept of random sampling, random variables and probability distributions, and statistical inference involving confidence intervals and hypothesis testing. Prereq: passing score on BST and C or better in MATH 104 or department permission. For middle-level education majors only. MATH 105 is an equivalent course, credit will not be given for MATH 105 and 230.

General Education Labels  
G2

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

MATH 104

**Earn a minimum grade of C in the following:**

- MATH104 - Fundamentals of Math 1

Or must have permission of the department.

Passing BST Score

**Must have a passing score on BST.**

**Additional Comments:**

**Degree/Major/Field of Study Restrictions**  
**Type**  
Prerequisite

Middle-Level Educators Majors Only

**Restricted to middle level education majors only.**

**Additional Comments:**

MATH234 - Statistics for Health Sciences

Course Information

Course Title  
Statistics for Health Sciences

Subject code	Course Number	Academic Level
MATH	234	Undergraduate

**Course Description**  
For nursing program and other health science students. Descriptive statistics, odds ratios, counting, basic probability, concept of random sampling, random variables, probability distributions, and statistical inference including confidence interval estimation and hypothesis testing for one and two sample problems involving means and proportions, chi-squared tests, one way ANOVA, simple linear regression, and correlation will be covered at an appropriate level. Prereq: Math Placement or a 100 level MATH course. MATH 130 and MATH 235 are equivalent courses, credit will not be given for MATH 130, 234 and/or 235.

General Education Labels  
G2

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

Any 100-Level MATH Course

**Complete ALL of the following Course Sets:**

- Any 1-level MATH course(s)

Or MPT 130 or higher.

**Additional Comments:**

MATH235 - Survey of Statistics

Course Information

Course Title  
Survey of Statistics

Subject code	Course Number	Academic Level
MATH	235	Undergraduate

**Course Description**  
A survey of elementary probability theory, estimation, hypothesis testing and simple regression and correlation. Interpretation of statistical inference in the analysis of data. Emphasis on applications in both behavioral and physical sciences. Prereq: MATH 101 or MATH 151 or higher, or math placement of MATH 151 or higher. MATH 130 and MATH 234 are equivalent courses, credit will not be given for MATH 130, 234 and/or 235.

General Education Labels  
G2

Simple Requisites

**Course Prerequisites: Complete 1 of the following**  
**Type**  
Prerequisite

MATH 101

**Complete ALL of the following Courses:**

- MATH101 - College Algebra

MATH 151 or Higher

**Complete ANY of the following Course Sets:**

- Any MATH 151 or higher course(s)

Other Requirement

Math placement of MATH 151 or higher.

Additional Comments:

MATH236 - Elements of Statistics 2

Course Information

Course Title

Elements of Statistics 2

Subject code	Course Number	Academic Level
MATH	236	Undergraduate

Course Description

An extension of MATH 130 or MATH 235. Includes estimation, hypothesis testing, design of experiments with analysis of variance, regression analysis, covariance analysis and nonparametric approaches. Includes experiences using a variety of computing devices. A substantial methods course for any major who needs to use statistical techniques. No credit toward math major. Offered in spring. Prereq: MATH 130 or MATH 235.

General Education Labels

G2

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 130 or MATH 235

Complete ANY of the following Courses:

- MATH130 - Elements of Statistics 1
- MATH235 - Survey of Statistics

Additional Comments:

MATH255 - Intro to Data Analytics

Course Information

Course Title

Intro to Data Analytics

Subject code	Course Number	Academic Level
MATH	255	Undergraduate

Course Description

Introduction to data analysis techniques and programming that enables real-time decision making in IT organizations. Includes skills and applications in pre-processing, preparing, and reporting data for further analysis. (Cross-listed with INTE 255, credit may not be received for both courses.)

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH130 or MATH234 or MATH235

Earn a minimum grade of C- in the following:

- MATH130 - Elements of Statistics 1
- OR MATH234 - Statistics for Health Sciences
- OR MATH235 - Survey of Statistics

Additional Comments:

MATH256 - Data Visualization and Communication

Course Information

Course Title

Data Visualization and Communication

Subject code	Course Number	Academic Level
MATH	256	Undergraduate

Course Description

This course is the continued exploration and application of data analysis techniques and programming that allows for the cleanup, analysis, interpretation, and presentation of business-related data. Includes skills and applications in pre-processing, preparing, reporting, and presenting data for further analysis. Students will be exposed to datasets created and managed by business organizations, and learn to ask salient strategic and operational questions based on the information contained within the datasets. Students will analyze statistical relations between variables, create visual depictions of the relations inherent in the data, and communicate their findings to broad audiences in oral and written formats.

MATH304 - Matrix Algebra & Applications

Course Information

Course Title

Matrix Algebra & Applications

Subject code	Course Number	Academic Level
MATH	304	Undergraduate

Course Description

An introduction to matrix algebra with emphasis on applications: systems of linear equations, matrix algebra, determinants, Euclidean and gen- eral vector spaces, inner product spaces, eigenvalues and eigenvectors, matrix transformations, numerical methods for matrices, selected appli- cations such as Markov chains, strategy games, cryptography, bar codes, Hadamard matrices, error- correcting codes, graph theory, computer graphics and internet search engines. Credit will not be granted for both MATH 304 and 322. Prereq: C- or better in MATH 161/163H.

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 161 or MATH 163H

Earn a minimum grade of C- in the following:

OR MATH163H - Honors Calculus 1

Additional Comments:

MATH305 - Teaching Math in Secondary Schools 1

Course Information

Course Title

Teaching Math in Secondary Schools 1

Subject code	Course Number	Academic Level
MATH	305	Undergraduate

Course Description

The first of two secondary mathematics methods courses, participants will investigate mathematics teaching and learning from both teacher and student perspectives. Course participants will engage in mathematical problem solving and in the study of mathematics as the foundation for understanding current curriculum and standards. Lesson planning follows from the consideration of different types of mathematical content, including skills and concepts. Looking specifically at the learning of mathematics and questioning to promote higher-level thinking, this course prepares students for field experiences in subsequent semesters. Recommended: take concurrently with EDFN 211 and EDFN 241. Pre/Coreq: C- or higher in MATH 211.

Simple Requisites

Course Prerequisite or Corequisite

Type

Prerequisite

MATH211

Earn a minimum grade of C- in the following:

- MATH211 - Calculus 2

Additional Comments:

MATH310 - Intro to Mathematical Proof

Course Information

Course Title

Intro to Mathematical Proof

Subject code	Course Number	Academic Level
MATH	310	Undergraduate

Course Description

Emphasizes mathematical reasoning and communication of mathematical ideas both orally and in writing. Symbolic logic. Techniques of mathematical proof. Algebra of sets, binary relations and functions. Infinite sets, both countable and uncountable. Prereq: ENGL 110 and C- or higher in MATH 211.

General Education Labels

Writing (W)

MATH312 - Software for Multivariable Calculus

Course Information

Course Title

Software for Multivariable Calculus

Subject code	Course Number	Academic Level
MATH	312	Undergraduate

Course Description

This course will introduce students to a computer algebra system and programming language of use in understanding multivariable calculus. Assuming no prior experience with this software, the students will learn how to evaluate algebraic expressions, plot functions and perform many operations common in calculus, such as integration and differentiation. Students will develop skills with this software that are useful for the visualization and manipulation of multivariable and vector-valued functions. Offered infrequently. Coreq: C- or higher in MATH 311.

**Additional Comments:**

MATH319 - Calculus and Actuarial Problem Solving

Course Information

Course Title Calculus and Actuarial Problem Solving		
Subject code	Course Number	Academic Level
MATH	319	Undergraduate

Course Description

An extension and synthesis of the calculus sequence that provides students with the problem-solving skills emphasized in such examinations as the Society of Actuaries Exam 1. Does not count as an upper-division elective for the mathematics major or minor. Offered in spring. Prereq: C- or higher in MATH 311.

Simple Requisites

**Course Prerequisite or Corequisite**

**Type**  
Prerequisite

MATH 311

**Earn a minimum grade of C- in the following:**

- MATH311 - Calculus 3

**Additional Comments:**

MATH322 - Linear Algebra 1

Course Information

Course Title Linear Algebra 1		
Subject code	Course Number	Academic Level
MATH	322	Undergraduate

Course Description

A rigorous introduction to linear algebra. Includes systems of linear equations, matrix algebra, determinants, vector spaces, inner product spaces geometry in  $R^n$ , linear transformations, orthogonal transformations, eigentheory and diagonalization. Prereq or coreq: C- or higher in MATH 311; MATH 310 recommended. Credit will not be given for this course and MATH 304. MATH 322 is intended for mathematics majors and is more theory and proof-based. MATH 304 is more application oriented and intended for computer science or data science majors

MATH325 - Mathematical Connections

Course Information

Course Title Mathematical Connections		
Subject code	Course Number	Academic Level
MATH	325	Undergraduate

Course Description

Mathematical Connections is a 3-credit required course for BSE mathematics majors. Pre-service secondary mathematics teachers (middle and high school) will explore the nature of the mathematics that they will teach through the lens of the undergraduate mathematics courses that they have taken as part of their required program. Mathematical topics will include number systems, functions, number theory, trigonometry, geometry (Euclidean and non-Euclidean), calculus, and statistics. The course will include an examination of concept analysis, problem analysis and mathematical connections between standard secondary mathematics content and post-secondary mathematics coursework. The course will actively involve pre-service teachers in a productive dialogue about and rigorous investigation into the mathematics that they will teach. Restricted to BSE majors. Pre/Coreq: C- or higher in MATH 333, and MATH 345, and MATH 354 or permission of instructor.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 333 and MATH 345

**Earn a minimum grade of C- in the following:**

- MATH333 - Probablity and Statistics

**OR** MATH345 - Abstract Algebra 1

MATH 354

**Earn a minimum grade of C- in the following:**

- MATH354 - Classical and Transformational Geometry

Or must have permission of instructor.

**Additional Comments:**

MATH333 - Probablity and Statistics

Course Information

Course Title

Probablity and Statistics

Subject code	Course Number	Academic Level
MATH	333	Undergraduate

Course Description

Designed for mathematics education majors. A rigorous study of probability, distribution theory and the basics of statistical inference. Includes probability, expectation, discrete and continuous distributions, descriptive statistics and both estimation and hypothesis testing for one- and twosample problems. Credit will not be granted for both MATH 333 and MATH 335. Prereq: C- or higher in MATH 311.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 311

**Earn a minimum grade of C- in the following:**

- MATH311 - Calculus 3

**Additional Comments:**

MATH335 - Mathematical Statistics 1

Course Information

Course Title

Mathematical Statistics 1

Subject code	Course Number	Academic Level
MATH	335	Undergraduate

Course Description

Probability, random variables and probability distributions, mathematical expectation, special probability distributions and probability densities. MATH 335 may be considered as an introductory course in probability theory. Offered in fall. Credit will not be granted for both MATH 333 and MATH 335. Prereq: C- or higher in MATH 311.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 311

**Earn a minimum grade of C- in the following:**

- MATH311 - Calculus 3

**Additional Comments:**

# MATH345 - Abstract Algebra 1

## Course Information

Course Title

Abstract Algebra 1

Subject code	Course Number	Academic Level
MATH	345	Undergraduate

### Course Description

Groups, rings, fields, integral domains. Emphasis on structure of algebra. Prereq: C- or higher in MATH 310 and 322.

### Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 310 and MATH 322

Earn a minimum grade of C- in the following:

- MATH310 - Intro to Mathematical Proof
- MATH322 - Linear Algebra 1

Additional Comments:

# MATH353 - Survey of Geometry

## Course Information

Course Title

Survey of Geometry

Subject code	Course Number	Academic Level
MATH	353	Undergraduate

### Course Description

Various examples of axiom systems, axiomatic development of Neutral Geometry followed by Euclidean and Hyperbolic Geometry. Models for Euclidean and Hyperbolic Geometry. Emphasis on proving geometric theorems, both orally and in writing. Offered in fall. Prereq: C- or higher in MATH 310 and 322 or permission of instructor.

### Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 310 and MATH 322

Earn a minimum grade of C- in the following:

- MATH310 - Intro to Mathematical Proof
- MATH322 - Linear Algebra 1

Or must have permission of instructor.

Additional Comments:

# MATH354 - Classical and Transformational Geometry

## Course Information

Course Title

Classical and Transformational Geometry

Subject code	Course Number	Academic Level
MATH	354	Undergraduate

### Course Description

Geometry from both classical and transformational points of view. The classical part of the course will focus on the axiomatic development of neutral geometry followed by Euclidean and hyperbolic geometry. The transformational part of the course will begin with the study of two families of transformations: isometries and similarities, followed by the investigation of various geometric theorems in terms of these two families of transformations. Emphasis on proving geometric theorems using both classical and transformational approaches. Prereq: C- or better: MATH 310 and MATH 322.

### Simple Requisites

**Course Prerequisites**

Type

Prerequisite

Earn a minimum grade of C- in the following:

- MATH310 - Intro to Mathematical Proof
- MATH322 - Linear Algebra 1

Additional Comments:

# MATH355 - Transformational Geometry

## Course Information

Course Title

Transformational Geometry

Subject code	Course Number	Academic Level
MATH	355	Undergraduate

Course Description

The study of geometry from a transformational point of view. The group of affine transformations, with the subgroups of similarities and motions, is studied with investigation of invariant properties. Some exposure to transformations in the complex plane. Offered in spring and periodically in summer. Prereq: C- or higher in MATH 310 and 322 or permission of instructor.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 310 and MATH 322

**Earn a minimum grade of C- in the following:**

- MATH310 - Intro to Mathematical Proof
- MATH322 - Linear Algebra 1

Or permission of instructor.

**Additional Comments:**

MATH355H - H: Transformational Geometry

Course Information

Course Title		
H: Transformational Geometry		
Subject code	Course Number	Academic Level
MATH	355H	Undergraduate

Type

Prerequisite

MATH 310 and MATH 322

**Earn a minimum grade of C- in the following:**

- MATH310 - Intro to Mathematical Proof
- MATH322 - Linear Algebra 1

Or permission of instructor.

**Additional Comments:**

MATH365 - Ordinary Differential Equations

Course Information

Course Title		
Ordinary Differential Equations		
Subject code	Course Number	Academic Level
MATH	365	Undergraduate

Course Description

First-order differential equations; linear first- and second-order initial-value problems; power series solutions; applications. Also includes at least one of the following topics: special functions of mathematical physics, Laplace transforms, systems of first-order equations. Offered in fall, spring. Prereq: C- or higher in MATH 311.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 311

**Earn a minimum grade of C- in the following:**

- MATH311 - Calculus 3

**Additional Comments:**

MATH370 - Operations Research

Course Information

Course Title		
Operations Research		
Subject code	Course Number	Academic Level
MATH	370	Undergraduate

Course Description

Principles of model building; examples from linear optimization, network analysis, dynamic programming, probabilistic decision theory, Markov chains, queuing theory, simulation and inventory models. Applications and theory will be examined. Offered periodically. Prereq: C- or higher in MATH 322 and one of MATH 235, 333 or 335 or permission of instructor.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 322

Earn a minimum grade of C- in the following:

- MATH322 - Linear Algebra 1

MATH 235 or MATH 333 or MATH 335

Earn a minimum grade of C- in the following:

- MATH235 - Survey of Statistics
- OR MATH333 - Probablity and Statistics
- OR MATH335 - Mathematical Statistics 1

Or must have permission of instructor.

Additional Comments:

MATH372 - Financial Mathematics I

Course Information

Course Title

Financial Mathematics I

Subject code	Course Number	Academic Level
MATH	372	Undergraduate

Course Description

Provides an understanding of the fundamental concepts of financial mathematics, and how those concepts are applied in calculating present and accumulated values for various streams of cash flows as a basis for future use in: reserving, valuation, pricing, asset/liability management, investment income, capital budgeting, and valuing contingent cash flows. Prereq: C- or better in MATH 211

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 211

Earn a minimum grade of C- in the following:

- MATH211 - Calculus 2

Additional Comments:

MATH375 - Numerical Analysis

Course Information

Course Title

Numerical Analysis

Subject code	Course Number	Academic Level
MATH	375	Undergraduate

Course Description

Numerical methods for solving systems of linear equations, solving nonlinear equations, integration, interpolation, approximation and least squares curve fitting. Error theory. Offered in spring. Prereq: C- or higher in CSCI 161, MATH 311 and 322.

Simple Requisites

Course Prerequisites

Type

Prerequisite

CSCI 161 and MATH 311 and MATH 322

Earn a minimum grade of C- in the following:

- CSCI161 - Introduction to Programming 1
- MATH311 - Calculus 3
- MATH322 - Linear Algebra 1

Additional Comments:

MATH405 - Teaching Math in Secondary Schools 2

Course Information

Course Title

Teaching Math in Secondary Schools 2

Subject code	Course Number	Academic Level
MATH	405	Undergraduate

Course Description

The second of two secondary mathematics methods courses, participants will focus on: lesson planning, unit development, and implementation; assessment and evaluation; classroom management and organization within school communities; and continued professional growth as reflective practitioners.

A considerable portion of class time will be devoted to teaching mathematics to secondary school students. Must be taken simultaneously with EDSE 321, EDSE 340, SPED 346. Offered fall. Prereq/Co-requisite: C- or higher in MATH 305. Prereq: C- or higher in MATH 325, MATH 333 (or 335/435), MATH 345, and MATH 354.

##### Additional Comments:

## MATH422 - Linear Algebra 2

### Course Information

#### Course Title

Linear Algebra 2

Subject code	Course Number	Academic Level
MATH	422	Undergraduate

Course Description

A continuation of MATH 322. Topics include further theory of linear transformations and their matrix representations: invariant subspaces, equivalent and similar matrices, canonical forms. The vector space  $L(V, W)$ . Orthogonal transformations and isometries; analysis of Euclidean motions in  $R^3$ . Least squares approximation and theory of generalized inverses. Bilinear and quadratic forms and their matrix representations; applications to conic sections in  $R^2$  and quadric surfaces in  $R^3$ . Complex vector spaces. Offered periodically. Prereq: MATH 310 and C- or higher in MATH 322.

MATH	435	Undergraduate

Course Description

A continuation of MATH 335. Functions of random variables, sampling distributions, point estimation, interval estimation, hypotheses-testing theory and applications. Offered in spring. Prereq: C- or higher in MATH 335.

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH438 - Topics in Statistics

Course Information

Course Title		
Topics in Statistics		
Subject code	Course Number	Academic Level
MATH	438	Undergraduate

Course Description

Topics in Statistics. Topics courses are scheduled by arrangement with the instructor; semester hours of credit and meeting times for those courses are set by agreement.

MATH445 - Abstract Algebra 2

Course Information

Course Title		
Abstract Algebra 2		

Subject code	Course Number	Academic Level
MATH	445	Undergraduate

Course Description

Continuation of MATH 345. Introduction to field theory, rings of polynomials, introduction to Galois theory. Offered periodically. Prereq: C- or higher in MATH 345.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 345

**Earn a minimum grade of C- in the following:**

- MATH345 - Abstract Algebra 1

**Additional Comments:**

MATH457 - Elementary Differential Geometry

Course Information

Course Title  
Elementary Differential Geometry

Subject code	Course Number	Academic Level
MATH	457	Undergraduate

Course Description

Frenet frames; curvature and torsion of curves in 3-space. Calculus of vector fields; geodesics and curvature of surfaces in 3-space. Surface area and volume. The Euler characteristic of a surface and the Gauss-Bonnet theorem. Rigid motions and isometries. Riemannian metrics, parallelism, non-Euclidean geometries and applications. Offered periodically. Prereq: C- or higher in MATH 310, 311, 322.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 310 and MATH 311 and MATH 322

**Earn a minimum grade of C- in the following:**

- MATH310 - Intro to Mathematical Proof
- MATH311 - Calculus 3
- MATH322 - Linear Algebra 1

Additional Comments:

MATH464 - Real Analysis 1

Course Information

Course Title  
Real Analysis 1

Subject code	Course Number	Academic Level
MATH	464	Undergraduate

Course Description

Rigorous development of the concepts and methods of calculus. The real number system and its topology; theory of limits and continuity; differentiable functions and their properties, the Reimann integral. Prereq: C- or higher in MATH 311 and MATH 345 or department permission.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 311

**Earn a minimum grade of C- in the following:**

- MATH311 - Calculus 3

MATH 345

**Earn a minimum grade of C- in the following:**

- MATH345 - Abstract Algebra 1

Or must have permission of department.

**Additional Comments:**

MATH464H - Hnrs: Real Analysis 1

Course Information

Course Title  
Hnrs: Real Analysis 1

Subject code	Course Number	Academic Level
MATH	464H	Undergraduate

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 311

Earn a minimum grade of C- in the following:

- MATH311 - Calculus 3

MATH 345

Earn a minimum grade of C- in the following:

- MATH345 - Abstract Algebra 1

Or must have permission of department.

Additional Comments:

MATH465 - Real Analysis 2

Course Information

Course Title  
Real Analysis 2

Subject code	Course Number	Academic Level
MATH	465	Undergraduate

Course Description  
Continuation of MATH 464. Topics chosen from the following: convergence and uniform convergence of infinite sequences and series of functions; topology of Euclidean n-space  $R_n$ ; differential calculus of functions  $R_n R$  and  $R_n R_m$ ; extreme values; implicit and inverse function theorems; Riemann integration in  $R_n$ ; metric spaces; function spaces; Riemann-Stieltjes integration. Offered infrequently. Prereq: C- or higher in MATH 464.

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 464

Earn a minimum grade of C- in the following:

- MATH464 - Real Analysis 1

Additional Comments:

MATH467 - Partial Differential Equations

Course Information

Course Title  
Partial Differential Equations

Subject code	Course Number	Academic Level
MATH	467	Undergraduate

Course Description  
Fourier series and the method of separation of variables; the wave equation, heat equation and Laplaces equation; dAlemberts formula. Maximum principles, energy integrals and uniqueness. Sturm-Liouville problems and eigenfunction expansions. Offered in fall. Prereq: C- or higher in MATH 365.

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 365

Earn a minimum grade of C- in the following:

- MATH365 - Ordinary Differential Equations

Additional Comments:

MATH471 - Mathematical Modeling

Course Information

Course Title  
Mathematical Modeling

Subject code	Course Number	Academic Level
MATH	471	Undergraduate

Course Description  
Applications of mathematics to real-world problems drawn from industry, research laboratories, the physical sciences, and engineering and the scientific literature. May include parameter estimation, curve fitting, elementary probability, optimization, computer programming, and ordinary and partial differential equations. Offered periodically. Prereq: C- or higher in MATH 365.

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 365

Earn a minimum grade of C- in the following:

- MATH365 - Ordinary Differential Equations

Additional Comments:

MATH472 - Financial Mathematics II

Course Information

Course Title

Financial Mathematics II

Subject code	Course Number	Academic Level
MATH	472	Undergraduate

Course Description

Develops knowledge of the theoretical basis of actuarial models and the application of those models to insurance and other financial risks. Pricing formulas for forwards, futures, and options are developed and used in financial strategies designed to reduce risk. Prereq: C- or better in MATH 335 or MATH 333 and C- or better in MATH 372.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 335 or MATH 333 and MATH 372

**Earn a minimum grade of C- in the following:**

- MATH335 - Mathematical Statistics 1
- OR MATH333 - Probablty and Statistics
- MATH372 - Financial Mathematics I

**Additional Comments:**

MATH478 - Topics in Applied Mathematics

Course Information

Course Title

Topics in Applied Mathematics

Subject code	Course Number	Academic Level
MATH	478	Undergraduate

Course Description

Topics in Applied Mathematics. Topics courses are scheduled by arrangement with the instructor; semester hours of credit and meeting times for those courses are set by agreement.

MATH479 - Experimental

Course Information

Course Title

Experimental

Subject code	Course Number	Academic Level
MATH	479	Undergraduate

Course Description

Experimental

MATH483 - Point-Set Topology

Course Information

Course Title

Point-Set Topology

Subject code	Course Number	Academic Level
MATH	483	Undergraduate

Course Description

Foundation course for extensive study in modern higher analysis, topology and related areas. Infinite set theory, metric spaces, topological spaces, separation properties, continuous mappings, homeomorphisms, convergence theory, product spaces, quotient spaces, connectedness, compactness, function spaces, applications. Offered infrequently. Prereq: C- or higher in MATH 464 or permission of instructor.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 464

**Earn a minimum grade of C- in the following:**

- MATH464 - Real Analysis 1

Or must have permission of instructor.

**Additional Comments:**

MATH489 - Honors Course

Course Information

Course Title

Honors Course

Subject code	Course Number	Academic Level
MATH	489	Undergraduate

Course Description

For the definition of honors course/thesis and eligibility, refer to the Special Academic Opportunities section of this catalog.

## MATH498 - Independent Study

### Course Information

Course Title

Independent Study

Subject code	Course Number	Academic Level
MATH	498	Undergraduate

Course Description

For further information on independent study, see the Special Academic Opportunities section.

## MATH499 - Departmental Honors

### Course Information

Course Title

Departmental Honors

Subject code	Course Number	Academic Level
MATH	499	Undergraduate

Course Description

For the definition of honors course/thesis and eligibility, refer to the Special Academic Opportunities section of this catalog.

General Education Labels

Advanced Writing (AW)

## MATH500 - Co-Op Ed Experience in Math

### Course Information

Course Title

Co-Op Ed Experience in Math

Subject code	Course Number	Academic Level
MATH	500	Graduate

Course Description

Co-Op Ed Experience in Math

## MATH502 - Linear Algebra

### Course Information

Course Title

Linear Algebra

Subject code	Course Number	Academic Level
MATH	502	Graduate

Course Description

Systems of linear equations, matrix algebra and determinants; real vector spaces, linear independence, basis and dimension; real inner product spaces, Gram-Schmidt orthogonalization;

eigen theory and diagonalization; linear transformations and matrix representation. Prereq or Coreq: MATH 311; MATH 310/520 recommended.

Simple Requisites

Course Prerequisites or Corequisites

Type

Prerequisite

MATH 311

Complete ALL of the following Courses:

- MATH311 - Calculus 3

MATH 310/520 recommended.

Additional Comments:

## MATH503 - Probability and Statistics for Teachers

### Course Information

Course Title

Probability and Statistics for Teachers

Subject code	Course Number	Academic Level
MATH	503	Graduate

Course Description

A rigorous one-semester study of probability, distribution theory and the basics of statistical inference. Topics include probability, expectation, discrete and continuous distributions, descriptive statistics and both estimation and hypothesis testing for one- and two-sample problems. Prereq: MATH 311.

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 311

Complete ALL of the following Courses:

- MATH311 - Calculus 3

Additional Comments:

MATH504 - Modern Algebra for Teachers

Course Information

Course Title

Modern Algebra for Teachers

Subject code	Course Number	Academic Level
MATH	504	Graduate

Course Description

Algebraic properties of complex number systems, set theory, groups, rings, integral domains and fields. MATH 310/520 and MATH 322/502.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 310 or MATH 310H or MATH 520 and MATH 322 or MATH 502

**Earn a minimum grade of C- in the following:**

- MATH310 - Intro to Mathematical Proof  
OR MATH310H - Hon: Intro to Mathematical Proof  
OR MATH520 - Logic and Foundations of Math
- MATH322 - Linear Algebra 1  
OR MATH502 - Linear Algebra

**Additional Comments:**

MATH505 - Classical & Modern Geometry

Course Information

Course Title

Classical & Modern Geometry

Subject code	Course Number	Academic Level
MATH	505	Graduate

Course Description

Study of geometry from both classical and transformational points of view. The classical part will focus on the axiomatic development of various forms of geometry; the transformational part will focus on the study of geometry in terms of two families of transformations: isometries and similarities. Emphasis on investigating geometry using both classical and transformational approaches and their interactions.

MATH506 - Modern Analysis for Teachers

Course Information

Course Title

Modern Analysis for Teachers

Subject code	Course Number	Academic Level
MATH	506	Graduate

Course Description

Real number system, limits of sequences and functions, theory of differentiation, Reimann integration, infinite series. Prereq: MATH 310/520, 311, 322/502. MATH 345/504 recommended.

Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 310 or MATH 310H or MATH 520 and MATH 322 or MATH 502

**Earn a minimum grade of C- in the following:**

- MATH310 - Intro to Mathematical Proof  
OR MATH310H - Hon: Intro to Mathematical Proof  
OR MATH520 - Logic and Foundations of Math
- MATH322 - Linear Algebra 1  
OR MATH502 - Linear Algebra

MATH 345 or MATH 504 recommended.

**Additional Comments:**

MATH520 - Logic and Foundations of Math

Course Information

Course Title

Logic and Foundations of Math

Subject code	Course Number	Academic Level
MATH	520	Graduate

Course Description

Theory of inference, symbolic logic, nature of axiom systems, validity of proofs, consistency, independence, completeness, theory of sets and cardinal numbers.

# MATH535 - Statistical Methods 1

## Course Information

Course Title

Statistical Methods 1

Subject code	Course Number	Academic Level
MATH	535	Graduate

### Course Description

Survey of statistical methods used in research, education, behavioral science and biomedical applications. Experimental designs discussed regarding advantages, disadvantages, sampling problems and analysis. Regression and analysis of variance. Prereq: An elementary probability or statistics course. Offered in fall and periodically in summer.

### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

MATH503 or MATH130 or MATH235

**Earn a minimum grade of C- in the following:**

- MATH503 - Probability and Statistics for Teachers
- OR MATH130 - Elements of Statistics 1
- OR MATH235 - Survey of Statistics

**Additional Comments:**

MATH 535

**Complete ALL of the following Courses:**

- MATH535 - Statistical Methods 1

Or must have permission of instructor.

**Additional Comments:**

# MATH536H - Hon: Statistical Methods 2

## Course Information

Course Title

Hon: Statistical Methods 2

Subject code	Course Number	Academic Level
MATH	536H	Graduate

### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

MATH 535

**Complete ALL of the following Courses:**

- MATH535 - Statistical Methods 1

Or must have permission of instructor.

**Additional Comments:**

# MATH536 - Statistical Methods 2

## Course Information

Course Title

Statistical Methods 2

Subject code	Course Number	Academic Level
MATH	536	Graduate

### Course Description

Continuation and extension of statistical methods introduced in Statistical Methods I (Math 535). Advanced topics in analysis of variance, randomized block designs and experimental designs. Prereq: Math 535 or permission of instructor. Offered in spring.

### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

# MATH537 - Statistical Problem Solving Seminar

## Course Information

Course Title

Statistical Problem Solving Seminar

Subject code	Course Number	Academic Level
MATH	537	Graduate

### Course Description

Capstone course designed to serve as outcome assessment for math majors enrolled in statistics option. Course involves problem solving, data analysis and statistical consulting. Materials drawn from real-world problems. Prereq: Math 535. Coreq: Math 536. Offered in spring.

### Simple Requisites

**Course Prerequisites**

Type

Prerequisite

MATH 535

Complete ALL of the following Courses:

MATH535 - Statistical Methods 1

Additional Comments:

Course Corequisite

MATH536 - Statistical Methods 2

Additional Comments:

MATH566 - Complex Variables

Course Information

Course Title  
Complex Variables

Subject code	Course Number	Academic Level
MATH	566	Graduate

Course Description  
Complex number system, analytic functions, elementary functions, contour integration, residues and poles, conformal mapping. Prereq: MATH 506 or equivalent. Offered infrequently.

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 506 or equivalent

Complete ANY of the following Courses:

MATH506 - Modern Analysis for Teachers

Additional Comments:

MATH577 - Problems in Applied Math

Course Information

Course Title  
Problems in Applied Math

Subject code	Course Number	Academic Level
MATH	577	Graduate

Course Description  
An investigation of one or more topics of current interest in applied mathematics. Specific topics to be covered vary but are announced each time the course is offered. Offered infrequently.

MATH592 - Graph Theory

Course Information

Course Title  
Graph Theory

Subject code	Course Number	Academic Level
MATH	592	Graduate

Course Description  
Finite graphs, multigraphs, digraphs and networks from theoretical, practical and historical perspectives. Specific topics include isomorphisms, graph variants, planarity and nonplanarity, traversability, colorings, flows, matchings and optimization algorithms. Prereq: MATH 502 or equivalent. Offered periodically.

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 502 or equivalent

Complete ANY of the following Courses:

MATH502 - Linear Algebra

Prerequisite

MATH 502 or equivalent

Complete ANY of the following Courses:

- MATH502 - Linear Algebra

Additional Comments:

MATH602 - Equity Issues in Math Ed

Course Information

Course Title

Equity Issues in Math Ed

Subject code	Course Number	Academic Level
MATH	602	Graduate

Course Description

Designed for graduate level students with an interest in equity issues in mathematics education. In this course, we examine issues of equity in mathematics education from various theoretical and practical perspectives and long lines of race, gender, culture and socioeconomic status. It is a reading-intensive course that spans such topics as the achievement gap, tracking, culturally-relevant pedagogy, multiculturalism, the nature of mathematics and mathematics for democracy and social justice. Course assignments will be differentiated to ensure they are relevant to the concerns of both practicing teachers as well as students without a teaching background that intend to pursue further graduate study.

MATH603 - History of Mathematics

Course Information

Course Title

History of Mathematics

Subject code	Course Number	Academic Level
MATH	603	Graduate

Course Description

Evolution of mathematical concepts from antiquity to the present century. Emphasis on eras of great mathematical activity.

MATH604 - Ethnomathematics

Course Information

Course Title

Ethnomathematics

Subject code	Course Number	Academic Level
MATH	604	Graduate

Course Description

This course aims to introduce Ethnomathematics as a field by examining mathematics across and within cultures. In addition, the course is designed to strengthen and expand students' understanding of mathematical topics (e.g., number systems, geometry, combinatorics, group theory) through study of the mathematics of world cultures. Furthermore, students will discuss ways in what is done in the course may be used to refresh or augment 7-12 school mathematics courses and develop school materials in Ethnomathematics.

MATH606 - Noyce - Transitioning

Course Information

Course Title

Noyce - Transitioning

Subject code	Course Number	Academic Level
MATH	606	Graduate

Course Description

Intended to address topics and concerns relevant to recently-certified NOYCE secondary mathematics teachers as they transition to their first year of teaching in a high-needs school district. Through readings, class discussions, individual presentations, and written assignments, participants reflect on their student teaching experiences, further explore challenges of working with diverse groups of students, and develop strategies to increase their effectiveness as a teacher in the context of a high-needs district. Instructor Permission required.

MATH607 - Noyce - Moving to Tenure

Course Information

Course Title

Noyce - Moving to Tenure

Subject code	Course Number	Academic Level
MATH	607	Graduate

Course Description

Intended as an extension to MATH 606 and meant to address topics and concerns relevant to recently-certified NOYCE secondary mathematics teachers as they complete their first year of teaching in a high-needs school district. Through readings, class discussions, individual presentations, and written assignments, participants reflect on their experiences during the first year of teaching, further explore challenges of working with diverse groups of students, and develop strategies to increase their effectiveness as a teacher in the context of a high-needs district. Instructor Permission required.

Simple Requisites

Course Prerequisites

Type

Prerequisite

Instructor Permission

Must have permission of instructor.

Additional Comments:

MATH610 - Problem Solving Seminar

Course Information

Course Title

Problem Solving Seminar

Subject code	Course Number	Academic Level
MATH	610	Graduate

Course Description

Develops students problem-solving abilities in mathematics and teaching of problem solving to high school students. Includes discussion of solutions to problems and the theories of problem solving. For both teachers and nonteachers. Offered periodically.

MATH611 - Learning Mathematics

Course Information

Course Title

Learning Mathematics

Subject code	Course Number	Academic Level
MATH	611	Graduate

Course Description

Investigation of the learning theory of constructivism and its application to the learning of mathematics. Emphasis on higher-order concept acquisition and schema development, and their relationship to mathematical instruction and teacher decision making. Individual differences in learning styles are also discussed. Prereq: teaching experience or permission of the instructor. Offered periodically.

Simple Requisites

Course Prerequisites

Type

Prerequisite

Teaching Experience or Instructor Permission

Must have teaching experience or permission of instructor.

Additional Comments:

MATH613 - Elem/Sec Math Connections

Course Information

Course Title

Elem/Sec Math Connections

Subject code	Course Number	Academic Level
MATH	613	Graduate

Course Description

This course is designed for graduate level students and will be of particular interest to practicing mathematics teachers of grades 7-12. In this course, we will explore the foundational concepts of the K-6 mathematics curriculum in significant depth while reflecting on ways to build strong connections between this elementary content and the content in the 7-12 curriculum. The goal is for students to see where their own teaching fits in the broader scheme of K-12 mathematics education so that they can design instruction that builds on their own students' prior understanding and contributes to a more holistic development for mid-level, middle, and high school mathematics learners. Course assignments may involve presentations, discussions, reading, written exams, papers, problem solving, problem posing, and instructional design.

# MATH614 - Current Issues in Middle School

## Course Information

Course Title

Current Issues in Middle School

Subject code	Course Number	Academic Level
MATH	614	Graduate

### Course Description

Current issues relating to middle school mathematics instruction, including issues associated with teaching strategies as well as curricular issues. Central to this discussion will be the NCTMs Principles and Standards for School Mathematics and the PA Academic Standards for Mathematics. Prereq: teaching experience or permission of the instructor. Offered periodically.

### Simple Requisites

**Course Prerequisites**

Type  
Prerequisite

Teaching Experience or Instructor Permission  
**Must have teaching experience or permission of instructor.**

Additional Comments:

# MATH615 - Current Issues in Secondary School

## Course Information

Course Title

Current Issues in Secondary School

Subject code	Course Number	Academic Level
MATH	615	Graduate

### Course Description

Current issues relating to secondary school mathematics instruction, including issues associated with teaching strategies as well as curricular issues. Central to this discussion will be the NCTMs Principles and Standards for School Mathematics and the PA Academic Standards for Mathematics. Prereq: teaching experience or permission of the instructor. Offered periodically.

### Simple Requisites

**Course Prerequisites**

Type  
Prerequisite

Teaching Experience or Instructor Permission  
**Must have teaching experience or permission of instructor.**

Additional Comments:

# MATH617 - Middle/Secondary School Innovations

## Course Information

Course Title

Middle/Secondary School Innovations

Subject code	Course Number	Academic Level
MATH	617	Graduate

### Course Description

Current curricular issues and teaching strategies associated with educational innovations that are invariant with respect to the middle school-secondary school boundary. Central to this discussion will be the NCTMs Principles and Standards for School Mathematics and the PA Academic Standards for Mathematics. Prereq: teaching experience or permission of the instructor. Offered periodically

### Simple Requisites

**Course Prerequisites**

Type  
Prerequisite

Teaching Experience or Instructor Permission  
**Must have teaching experience or permission of instructor.**

Additional Comments:

# MATH618 - 7-12 Assessment

## Course Information

Course Title

7-12 Assessment

Subject code	Course Number	Academic Level
MATH	618	Graduate

### Course Description

Course for secondary mathematics teachers who wish to explore the nature of the mathematics assessment from a variety of perspectives. The course will examine traditional and non-traditional forms to assessment as well as the purpose of formative and summative assessments - allowing for discussion of the pros and cons to each. The course will also examine the impact of assessment tools on individual classroom instruction as well as within local departments, schools, districts, states and national education issues. The course will seek to actively involve teachers in a productive dialogue about the mathematics that they teach and explore a variety of levels at which the mathematics can be assessed. In order to do this, it will be necessary at times to expand and explore K-16 mathematics assessment at some length.

## MATH619 - Advanced Perspectives

### Course Information

#### Course Title

Advanced Perspectives

Subject code	Course Number	Academic Level
MATH	619	Graduate

#### Course Description

Course is for secondary mathematics teachers at the middle or high school level who wish to explore the nature of the mathematics that they teach from a different viewpoint. The course will look at typical secondary mathematics topics including the real number system, polynomials, number theory, trigonometry and Euclidean geometry while examining concept analysis, problem analysis and mathematical connections. The course will actively involve in-service and pre-service teachers in a productive dialogue about the mathematics that they teach, and potential developmental or extensions that could be put into practice at each level. The class will also explore a variety of levels at which it may be appropriate to address these issues with their own students.

## MATH622 - 21st Century Math

### Course Information

#### Course Title

21st Century Math

Subject code	Course Number	Academic Level
MATH	622	Graduate

### Course Description

The intent of the course, Teaching Mathematics in The 21st Century, is to examine, study, and analyze teaching techniques and alternate approaches to teaching and learning mathematics in the 21st century. Students will experiment with a variety of pedagogies that are more in-line with the way in which 21st century students live rather than how they are often taught. Comparisons of multiple pedagogies (current, past and potential future) will be frequently made and discussed.

## MATH642 - Linear Algebra

### Course Information

#### Course Title

Linear Algebra

Subject code	Course Number	Academic Level
MATH	642	Graduate

#### Course Description

Vector spaces, linear transformations, matrices, systems of equations, determinants. Prereq: MATH 502 or equivalent. Offered infrequently.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

MATH 502 or equivalent

#### Complete ANY of the following Courses:

- MATH502 - Linear Algebra

#### Additional Comments:

## MATH650 - Topics in Geometry

### Course Information

#### Course Title

Topics in Geometry

Subject code	Course Number	Academic Level
MATH	650	Graduate

#### Course Description

Topics selected from the parallel postulate and models for Euclidean and non-Euclidean geometries; projective geometry; local geometry of smooth space curves; geometry of smooth surfaces in space; geometry of space-time; finite

geometries; representation of a geometry as a group of transformations acting on a set. Prereq: teaching experience or permission of instructor. Offered infrequently.

Simple Requisites

Course Prerequisites

Type

Prerequisite

Teaching Experience or Instructor Permission

Must have teaching experience or permission of instructor.

Additional Comments:

MATH670 - Operations Research

Course Information

Course Title

Operations Research

Subject code	Course Number	Academic Level
MATH	670	Graduate

Course Description

Principles of model building; examples from linear optimization, network analysis, dynamic programming, probabilistic decision theory, Markov chains, queuing theory, simulation and inventory models. Applications and theory. Prereq: MATH 642 or equivalent, and a statistics course or equivalent. Offered periodically.

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 642 or equivalent

Complete ANY of the following Courses:

- MATH642 - Linear Algebra

Statistics Course

Must complete a statistics course or equivalent.

Additional Comments:

MATH672 - Math Modeling in Secondary School

Course Information

Course Title

Math Modeling in Secondary School

Subject code	Course Number	Academic Level
MATH	672	Graduate

Course Description

Investigation of the process of mathematical modeling. Creative and empirical model construction, model analysis and model research. Problems taken from a variety of disciplines. Some problems suitable for algebra and geometry students; others require some knowledge of calculus and statistics. Prereq: MATH 502 or its equivalent. Offered periodically.

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 502 or equivalent

Complete ANY of the following Courses:

- MATH502 - Linear Algebra

Additional Comments:

MATH675 - Numerical Analysis

Course Information

Course Title

Numerical Analysis

Subject code	Course Number	Academic Level
MATH	675	Graduate

Course Description

Numerical treatment of equations, matrices and systems of equations; interpolation and approximation by polynomials; numerical integration; method of least squares. Prereq: MATH 502 and MATH 506, or equivalent. Offered in fall.

Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 502 and MATH 506 or equivalent

Complete ALL of the following Courses:

- MATH502 - Linear Algebra
- MATH506 - Modern Analysis for Teachers

Additional Comments:

## MATH679 - Technology in Secondary School Math

### Course Information

Course Title

Technology in Secondary School Math

Subject code	Course Number	Academic Level
MATH	679	Graduate

#### Course Description

Introduction to technologies currently available for teaching secondary mathematics. Emphasis on the use of modern graphics calculators, although computer software is also presented. Capabilities of the technologies examined in depth, but emphasis will be on the use of this technology in the classroom. Mathematical topics selected from elementary algebra, geometry, algebra II, precalculus and calculus. Prereq: secondary teaching experience. Offered periodically.

#### Simple Requisites

Course Prerequisites

Type

Prerequisite

Secondary Teaching Experience

Must have secondary teaching experience.

Additional Comments:

## MATH683 - General Topology

### Course Information

Course Title

General Topology

Subject code	Course Number	Academic Level
MATH	683	Graduate

#### Course Description

Set theory, metric and topological spaces, cluster points, closure, interior and boundary, continuity, homeomorphisms, product and quotient spaces, separation, compactness, connectedness, completeness. Prereq: MATH 502, 504 and 506.

#### Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 502 and MATH 504 and MATH 506

Complete ALL of the following Courses:

- MATH502 - Linear Algebra
- MATH504 - Modern Algebra for Teachers
- MATH506 - Modern Analysis for Teachers

Additional Comments:

## MATH691 - Combinatorics

### Course Information

Course Title

Combinatorics

Subject code	Course Number	Academic Level
MATH	691	Graduate

#### Course Description

Counting techniques including the multiplication principle, the addition principle, the pigeon-hole principle, permutations, combinations, the principle of inclusion-exclusion, recurrence relations, generating functions and Polyas Theory of Enumeration. Prereq: MATH 502 or equivalent. Offered periodically.

#### Simple Requisites

Course Prerequisites

Type

Prerequisite

MATH 502 or equivalent

Complete ANY of the following Courses:

- MATH502 - Linear Algebra

Additional Comments:

## MATH693 - Number Theory

### Course Information

Course Title

Number Theory

Subject code	Course Number	Academic Level
MATH	693	Graduate

#### Course Description

The classic higher arithmetic of integers: mathematical induction, divisibility, congruences, prime numbers, diophantine equations. Euler-Fermat Theorem and quadratic reciprocity. Offered periodically.

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

MATH520

**Complete ALL of the following Courses:**

- MATH520 - Logic and Foundations of Math

**Additional Comments:**

#### Course Description

Selected topics. Prereq: permission of chairperson. Offered infrequently.

#### Simple Requisites

# Military Science Department

Military Sciences offers coursework from a number of departments including the Departments of Military Science, History, Government and Geography. This path allows the student to pursue a diverse program that incorporates military history, ethics, public administration and the use of the military as an instrument of educational enhancement. While the Military Science classes are taught through a military lens, the components of adaptability, teamwork, comprehensive fitness, leadership and critical thinking are interdisciplinary and applicable regardless of a student's chosen future career paths.

## FACULTY LIST

**Frankum, Ronald;** Professor

College of Arts, Humanities and Social Sciences

B.A., Syracuse University, 1988, M.A., University of Kentucky, 1991; Ph.D., Syracuse University, 1997

## Courses

### MILS101 - Intro to Military Science 1

#### Course Information

##### Course Title

Intro to Military Science 1

Subject code	Course Number	Academic Level
MILS	101	Undergraduate

##### Course Description

An introduction to the fundamental components of service as an officer in the United States Army. Initial lessons form the building blocks of progressive lessons in values, fitness, leadership and officership. By means of both written and oral presentations regarding the history of military art, battle history, technical studies and the relationship of the armed forces with society, students will be encouraged to develop a habit of critical reflection. In addition to developing a foundation of military officership and leadership, students will receive practical instruction in the application of military art and basic soldier skills. Meets one hour per week plus a weekly 90-minute leadership lab. MILS 101 in fall and MILS 102 in spring.

### MILS102 - Intro to Military Science 2

#### Course Information

##### Course Title

Intro to Military Science 2

Subject code	Course Number	Academic Level
MILS	102	Undergraduate

##### Course Description

Experimental

### MILS210 - Self and Team Development

#### Course Information

##### Course Title

Self and Team Development

Subject code	Course Number	Academic Level
MILS	210	Undergraduate

##### Course Description

A continuation of the fundamentals introduced the previous year by focusing on leadership theory and decision making. Life skills lessons during this year include problem solving, critical thinking, leadership theory, followership, group interaction, goal setting and feedback mechanisms. The use of practical exercise is significantly increased over previous semesters, as cadets are increasingly required to apply

communication and leadership concepts. Meets two hours per week plus a weekly 90-minute leadership lab. MILS 210 in fall and MILS 211 in spring.

## MILS301 - Management and Leadership

### Course Information

#### Course Title

Management and Leadership

Subject code	Course Number	Academic Level
MILS	301	Undergraduate

#### Course Description

Advanced instruction in topics introduced during the basic course. Emphasis on leadership. Situations require direct interaction with other cadets and test the students ability to achieve set goals and to get others to do the same. Students master basic tactical skills of the small unit leader. Principles and techniques of effective leadership, methods of developing and improving managerial abilities and leadership qualities, and a basic understanding of interpersonal interactions. Use is made of recent developments in the administrative and behavioral sciences to analyze the vidual, group and situational aspects of leadership and the management of resources. Participation in operations and basic tactics to demonstrate leadership problem solving and to develop leadership skills. Meets two hours per week plus a weekly 90-minute leadership lab. Prereq: Open only to advanced-course cadets. MILS 301 in fall and MILS 302 in spring.

# Multidisciplinary Studies Department

Multidisciplinary Studies (MDST) is a flexible program of study that builds on the University's existing strengths in the liberal arts and sciences.

With careful advisement, students are provided an opportunity to tailor studies to better meet their academic strengths and career goals. You will find the [necessary forms](#), news bulletins and contact information to get started on this website.

**Students in need of a signature, should submit the appropriate form using the electronic student forms, found here: <https://www.millersville.edu/forms/index.php>**

### RELATED ELECTIVES (B.A. AND B.S. OPTIONS)

The Multidisciplinary Studies major provides two degree pathways for students. Each degree option provides opportunities for interdisciplinary learning, practical experience, and industry readiness.

Students (and faculty advisors) should consult with the appropriate MDST Faculty Advisor *PRIOR* to switching majors, registering for classes, and/or drafting new MDST proposals.

For more information visit: <https://www.millersville.edu/mdst/index.php>

#### FACULTY LIST

**Scott R. Anderson**, Associate Professor

University College

B.S. Operations Management, Indiana University 1992; MLS, Ibid, 1995; MBA Pennsylvania State University, 1998

## Programs

### Multidisciplinary Studies, B.A., Applied Disability Studies Option

#### Overview

The framework for a Concentration in Applied Disability Studies combines courses in educational foundations with courses in social sciences and prepares students to work in

the rapidly expanding area of disability services, education support and advocacy organizations. Employment opportunities exist in the government, business, and non-profit sectors. Regarding services for people with disabilities, for example, current Pennsylvania labor data reveals a need for middle level professionals with competencies in leadership, management and supports for people with

disabilities.

## Careers Opportunities

Students are prepared to play leadership roles in the field of disability. Future careers include program director and policy positions in community service agencies, advocacy organizations, independent living centers, parent centers, planning councils, and government agencies.

- Protection and advocacy agencies
- Parent training and information centers
- State agencies for Intellectual/developmental disabilities
- Self-advocacy associations
- Community and family support agencies
- University or college offices for students with disabilities
- Independent living centers
- Inclusive Post-Secondary Education programs
- Human service organizations

Applied Disability Studies also prepare graduates to consult organizations on disability issues and pursue graduate degrees in Disability Studies, a multidisciplinary field of inquiry that draws on the experiences and perspectives of people with disabilities to address discrimination. Disability Studies scholarship explores the dynamic interplays between disability, culture, and society. Applied Disability Studies combines critical inquiry and political advocacy and enables students to apply scholarly approaches from the humanities, social sciences, and the arts to evaluate and address disability issues and support inclusion ([http://en.wikipedia.org/wiki/Disability\\_studies](http://en.wikipedia.org/wiki/Disability_studies)).

This curriculum combines specific vocational competencies with skills and practice in critical thinking and allows highly individualized career planning.

## Program Goals

These goals are conceptualized as the ultimate "ends" we hope to achieve in educating students and trainees in disability studies.

- Promote full social integration by providing knowledge, awareness, and experience of inclusion and integration of people with disabilities as a foundational ethical principle of disability studies.
- Position disability as a social justice issue by exposing students to historical and contemporary disability issues and providing learning opportunities to identify, articulate, and address inequities and injustices affecting the lives of people with disabilities.

- Position disability as diversity by providing theoretical and practical contexts for thinking about disability as a component of human diversity, and providing students with tools to critically examine social and cultural constructions of disability.
- Create circumstances for the analysis and knowledge of the human services system and it's role in shaping the life experiences (segregated & integrated) of people with disability.
- To provide an understanding of the social, economic, historical, political, cultural, and legal forces that shape policy and practices in the field of disabilities

## Program Advisors

Dr. Emily Baldys, Associate Professor (English)

Dr. Jessica Hughes, Associate Professor (Communications)

Whose School Is it?, Women & Ed, or Urban Immers (3 credits)

**Complete at least 1 of the following courses:**

- EDFN376 - Whose School Is It?
- OR** EDFN376H - Hnrs:Whose School Is It?
- EDFN312 - Women in Education
- OR** EDFN312H - Women in Education
- EDFN398 - Urban Immersion Seminar

**AND**

Issues Sec Ed, Sec Prog & Trans Plan, or Living Online (3 credits)

**Complete at least 1 of the following courses:**

- EDSE321 - Issues in Secondary Education
- OR** EDSE321H - H: Issues in Secondary Education
- EDSE521 - Issues in Second Education
- SPED444 - Transition Planning and Secondary Programming for Individuals with Disabilities
- EDFN355 - Living Online

**AND**

APDS - Disability Rights, History and Social Policy

**Fulfill ALL of the following requirements:**

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- SOWK350 - Encounters in Human Diversity
- OR** SOWK350H - H:Encounters in

Human Diversity

**AND**

Social Work & Health Care or SOWK & Mental Health (3 credits)

**Complete at least 1 of the following courses:**

- SOWK307 - Social Work and Health Care
- SOWK309 - SOWK Behavior & Emotion Health

**AND**

Social Work & Women or Family Violence (3 credits)

**Complete at least 1 of the following courses:**

- SOWK312 - SOWK & Wmn: Strgth, Need & Opp
- SOWK313 - Family Violence
- OR** SOWK313H - H: Family Violence

**AND**

Nightmare Years, US Social History and Hitler & Nazism

Select 2 classes from HIST342 Hitler and Nazism, HIST 365 and HIST 458. However, HIST 365 and HIST 458 have been discontinued. Please work with your advisor to select alternate courses to substitute for this requirement.

**AND**

History of Medicine, African American History I or II (3 credits)

**Complete at least 1 of the following courses:**

- HIST480 - History of Medicine
- HIST272 - Afro-American History 1
- HIST273 - Afro-American History 2

**AND**

## APDS - Required Capstone Experience

### Complete at least 1 of the following:

#### Course Options

#### Complete ANY of the following Course Sets:

- Any 3-level course(s)
- Any 4-level course(s)

OR

#### Additional Course Options

#### Complete ANY of the following Courses:

- EDFN498 - Independent Study

A 2.0 GPA must be maintained in the overall major block and in each of the two Core areas, 'Practicing within Social Institutions' and 'Disability Rights, History and Social Policy'

### Additional Comments:

## Req Related for Multidisciplinary Studies - Educ Type

### Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

Recommended Electives for Applied Disability Studies

#### Complete ALL of the following Courses:

- ECON101 - Principles of Macroeconomics
- ECON102 - Principles of Microeconomics
- BUAD251 - Principles of Management

These courses are not required but are recommended and will fulfill the Social Sciences (G3) requirement for General Education.

### Additional Comments:

## Multidisciplinary Studies, B.A., Educational Studies Option

### Overview

The Educational Studies (MDST ES) concentration prepares Millersville students for work in the field of education, outside

of public schooling. This unique concentration recognizes the important educational opportunities provided by social service agencies, museums, private schools, for-profit organizations, government agencies, new education start-ups, and so on. Students who enroll in the MDST ES concentration will take classes that will prepare them to think about teaching and learning in diverse settings and will match them with valuable field experiences and internships according to their interests.

Students are strongly encouraged to consult with their advisor to select an academic minor to support their specific career aspirations. Suggested minors include: Language Studies, Culture Studies, Social Justice, Sociology, Anthropology, Criminology, History, Psychology, Latino Studies, African American Studies, Women's Studies, Athletic Coaching, Environmental Issues, International Studies, Theatre, Art, Music, or Government & Political Affairs.

#### Additional Comments:

## Multidisciplinary Studies, B.A., Pre-Occupational Therapy Option

### Overview

The MDST concentration in Pre-Occupational Therapy, is an applied program of study that builds on students' interest and skill in working with individuals experiencing short-term or life-long physical, mental, and emotional challenges. Coursework includes interdisciplinary study in psychology, the biological and sports sciences, as well as complementary study in the social sciences.

\*Students should review all course prerequisites/ corequisites/ recommendations with an advisor. Be sure you have a thorough understanding of the concentration expectations prior to registration and/or switching majors.

## Multidisciplinary Studies, B.A., Latinx and Latin-American Studies Option

### Overview

Multidisciplinary Studies with Concentration in Latinx and Latin-American Studies will provide students an avenue to better understand the origins, cultural heritage, and contributions of Latinx people to the United States. The service component to the courses will increase student appreciation for the various lived experiences within the Latino/a community. The MDST concentration in Latinx & Latin-American studies will provide exposure to the largest ethnic minority group in the United States and provide students opportunities to equitably apply their understanding in service to the Latino/a population. This major provides a rigorous academic grounding and a high-impact practice.

### Program Advisors

## Multidisciplinary Studies, B.S., Business Analytics Option

### Overview

Business Analytics is an area that is interdisciplinary in nature, bringing together competencies across the social sciences and natural sciences. Data acquisition, data analysis, strategic planning, and communication are essential skills that are common to several disciplines and form the core of any business analytics program. Students who enroll in the MDST Business Analytics concentration will gain the abilities and experience to analyze information and make data-driven recommendations that can help clients, workers, companies, and society as they lead business organizations into the future.

## Multidisciplinary Studies, B.S., Entrepreneurship Option

### Overview

The Entrepreneurship program is interdisciplinary, bringing together competencies and viewpoints in ingenious ways to help individuals create their own visions, strategic and operational plans, and ultimately start their own

businesses. Creativity, data acquisition and analysis, financial acumen, strategic planning, and communication are essential skills that are common to several disciplines and form the core of our entrepreneurship program. Our program integrates courses in management and marketing, accounting and finance, communications, applied engineering, and other disciplines to give our graduates the skills, abilities, experiences, and perspectives to start their own business and add value to an organization.

Another distinctive element of this program, critical for both workforce development and community relations, is the hands-on component. Students majoring in Entrepreneurship will need to complete two three-credit internships for a total of 6 credits. Students with the business, creativity, and communications skills gained in this program will be in high demand. Moreover, the second internship will take place during a student's senior year, and will directly link them with a small business, startup, or non-profit organization in or around the City of Lancaster. This allows our students to use their skills and perspectives to directly help local businesses grow and thrive, while giving them hands-on experiences that will aid them as they begin their own careers.

# Multidisciplinary Studies, B.S., Data Science Option

## Overview

Millersville University's new MDST concentration, Data Science, is a program of study that provides students with a solid foundation of skills in data science by combining knowledge and methodology from computer science, mathematics, and design. In addition, students are required to complete a minor of their choosing to acquire an area of domain knowledge to which they can apply their data science skills. Data Scientists finds success in a wide variety of industries due to their astute problem-solving skills. From engineering, aeronautics, and finance to criminal justice and information technology, the demand for data scientists continues to grow.

# Music Department

The Tell School of Music offers three degree programs leading to the baccalaureate degree with a major in music.

The department is cognizant of the desires of many students from all segments of the University to participate in music. Accordingly, both beginning and advanced courses are available to students enrolled in any curriculum. The Tell School of Music also provides the opportunity for student performance and participation in a variety of vocal and instrumental organizations ensembles. Some of these large ensembles include University Choir, Orchestra, Concert Band, Wind Ensemble, Marching Band, Chorale, Glee Club, Women's Choir, Chamber Orchestra, West African Drum and Dance Ensemble, Jazz Ensembles, Commercial Ensemble, and Gospel Choir. Students can also participate in a variety of small ensembles and various other ensembles. A description of these organizations is included in the student handbook.

The Tell School of Music music department also offers a music minor and a dual B.A. degree in music and music education, as well as a dual B.A. degree in music and music industry.

Millersville University is accredited by the National Association of Schools of Music.

## Programs

### Music Education Post-Baccalaureate Certification

#### Overview

The Music unit offers a professional baccalaureate degree – the Bachelor of Science in Education, Music Education – which leads to licensure in Pennsylvania for teaching K-12

instrumental and vocal music.

This degree program offers one of the nation's most comprehensive and integrated Music Education programs of study. With the field of music education changing so rapidly, our world-class faculty, creative environment, future-forward curriculum, and state-of-the-art facilities allow for a truly

unique education. Students are given the opportunity to gain real-world experience through professional venues, field experiences, and internship opportunities, including Music for Everyone and Lancaster International Piano Festival. With two Visual & Performing Arts Centers, three performance halls, a professional recording studio, and a one-of-a-kind Yamaha Digital Piano Lab that hosts the latest music technology software, including ProTools and Logic, the options are truly endless. Graduates receive a Bachelor of Science in Music Education.

Students in the Music Education program are expected to complete a range of courses, including musical analysis, class piano, music history, conducting, and a range of strings, voice, woodwinds, percussion, and brass music classes. These project-based classes blend standard learning with hands-on experiences in and out of the classroom and focus on commercial music and arts administration studies. Students are given the opportunity to pass out of classes coinciding with their vocal/instrumental major, decreasing the required number of program credits. In addition, individuals are also expected to complete seven semesters of ensembles of their choice.

- EDMU462 - Musi Stu Teaching

Students must meet APS eligibility requirements prior to registering. Submit your Teacher Certification Packet 90 days prior to completion of your certification program. [Access the packet on the Certification Website.](#)

**Additional Comments:**

## Music Minor

### Overview

The music unit offers a minor in music to students with a major outside of music. The music minor is designed for non-music major students interested in further developing

performance skills on an instrument or voice. Courses, in addition to private lessons and performing in an ensemble, are designed to reinforce the broad musical background of the student. Admission to the program is by audition for students who elect major performance and ensemble participation. Students who do not select major performance and only wish for concentrated liberal art minor in music may apply to the program through the music unit chair and secretary.

## Curriculum

### Simple Requisites

#### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

————— **AND** —————

Music Performance

**OPTIONAL:** 3 credits Major Performance (audition required) with requirement to take 3 semesters of ensemble concurrently.

**Additional Comments:**

## Music, B.A.

### Overview

The B.A. in music consists of a liberal arts curriculum designed to provide students with a broad coverage of courses in music. The B.A. degree with a concentration in performance develops a student's ability to perform repertoire with technical and artistic understanding.

The Bachelor of Arts degree in music provides a strong education in the liberal arts. The major in music offers a broad knowledge of music theory and the history and development of music. Students can audition to select a performance concentration. This degree serves individuals who seek a broad overview of music combined with general education. Students who complete the B.A. and/or the B.A. concentration in performance pursue graduate work in music performance,

music education, music business, and music therapy. Students also pursue careers in private teaching, working with Arts and Educational organizations, or become involved with rather than intense specialization in the undergraduate years.

## Curriculum

### Simple Requisites

#### Major in Music, BA

#### Type

#### Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

#### Basic Musicianship (18 credits)

#### Complete ALL of the following Courses:

- MUSI104 - Language of Music 2
- MUSI112 - Kodaly Solfege, Harmony and Analysis 1
- MUSI131 - Class Piano 1
- MUSI212 - Kodaly Solfege, Harmony and Analysis 2
- MUSI231 - Class Piano 2
- MUSI362 - Music History and Literature 1  
**OR** MUSI362H - H:Music History and Literature 1
- MUSI381 - Conducting 1

#### Performance

#### Fulfill ALL of the following requirements:

#### BA Music Performance Requirement (6 credits)

#### Earn at least 6 credits from the following:

- MUSI154 - Major Performance 1:
- MUSI155 - Major Performance 2:
- MUSI254 - Major Performance 3:
- MUSI255 - Major Performance 4:
- MUSI354 - Major Performance 5:
- MUSI355 - Major Performance 6:
- MUSI454 - Major Performance 7:  
**OR** MUSI454H - H: Major Performance 7:
- MUSI455 - Major Performance 8:

————— **AND** —————

Applied Musicianship, Ensembles (2 credits)

**Earn at least 2 credits from the following:**

- Any 12-level MUSI course(s)
- Any 22-level MUSI course(s)
- Any 32-level MUSI course(s)
- Any 42-level MUSI course(s)

Note: This requirement may not be satisfied with MUSI 128, MUSI 228, MUSI 328, or MUSI 428.

AND

Applied Musicianship, Ensembles

**Complete at least 8 courses in the following course sets:**

- Any 12-level MUSI course(s)
- Any 22-level MUSI course(s)
- Any 32-level MUSI course(s)
- Any 42-level MUSI course(s)

Note: This requirement may not be satisfied with MUSI 128, MUSI 228, MUSI 328, or MUSI 428.

Students interested in Kodaly Certification must complete 3 semesters of Chorale, in addition to their degree ensemble requirements.

AND

Senior Project and Studio Performance Evaluations

**Fulfill ALL of the following requirements:**

Senior Project Required

All students must pass their Senior Project for the BA in Music.

AND

Studio Performance Evaluation Needed

BA Music Performance Students must pass Studio Performance Evaluations with a Level 4 in Studio Performance. BA Music Students must pass Studio Performance Evaluations with a Level 2 in Studio Performance.

AND

Required Music Electives (3 credits)

**Earn at least 3 credits from the following:**

- MUSI312 - Kodaly Solfege, Harmony and Analysis 3
- MUSI313 - Sem in Jazz Thry & Improv
- MUSI331 - Class Piano 3
- MUSI412 - Kodaly Solfege, Harmony and Analysis 4
- OR MUSI412H - H: Kodaly Solfege, Harmony and Analysis 4
- MUSI481 - Conducting 2

AND

Music Electives (9 credits)

**Earn at least 9 credits from the following:**

- MUSI140 - Singing Voice in Musical Theatre
- MUSI202 - American Broadway Musicals
- MUSI207 - Love Songs Through the Ages
- MUSI263 - Popular Music
- MUSI280 - Technology in the Music Classroom
- MUSI312 - Kodaly Solfege, Harmony and Analysis 3
- MUSI313 - Sem in Jazz Thry & Improv
- MUSI331 - Class Piano 3
- MUSI347 - The Art of Teaching Choral Techniques
- OR MUSI347H - Hon: The Art of Teaching Choral Techniques
- MUSI369 - Intro to West African Music and Dance
- MUSI371 - Foreign Language Diction
- MUSI371H - Hnrs: Foreign Language Diction
- MUSI373 - The Art of Teaching Instrumental Music Techniques
- MUSI388 - Guided Study Abroad in Music
- MUSI412 - Kodaly Solfege, Harmony and Analysis 4
- OR MUSI412H - H: Kodaly Solfege, Harmony and Analysis 4
- MUSI481 - Conducting 2

BA MUSI (no Performance option) - A combination of electives should be taken from the Required and Additional elective options to total 12 credits, for 38 total credits in the MUSI major

## Music Industry, B.S. – Live Audio

### Overview

The primary goal of the Live Audio concentration is to provide students with a solid foundation in live audio technology, music business, and music performance. This concentration will allow them to increase their specificity in live audio technology, thus resulting in students who will be more prepared for the job market and more competitive with graduates from private institutions. In addition, this concentration will explore the technology and techniques necessary to produce concerts in various venues, including those on and off campus. Students will participate in all facets of music-related concert production, including equipment

options, signal flow, signal processing, mixing live shows, and live recording techniques.

**Music Industry, B.S. - Music Management Overview**

The primary goal of this new liberal arts degree's curriculum is to provide students with a solid foundation in music technology, music business, and music performance while increasing their level of specificity through track options. Thus, students will be more prepared for the job market and more competitive with graduates from private institutions from other programs.

Curriculum

Simple Requisites

Major in Music Industry

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Basic Musicianship (13 credits)

Complete ALL of the following Courses:

- MUSI104 - Language of Music 2
- MUSI112 - Kodaly Solfege, Harmony and Analysis 1
- MUSI131 - Class Piano 1
- MUSI212 - Kodaly Solfege, Harmony and Analysis 2
- MUSI231 - Class Piano 2

AND

Performance

Fulfill ALL of the following requirements:

1083 / 1368

### Music Industry Major Performance (6 credits)

#### Earn at least 6 credits from the following:

- MUSI154 - Major Performance 1:
- MUSI155 - Major Performance 2:
- MUSI254 - Major Performance 3:
- MUSI255 - Major Performance 4:
- MUSI354 - Major Performance 5:
- MUSI355 - Major Performance 6:
- MUSI454 - Major Performance 7:  
OR MUSI454H - H: Major Performance 7:
- MUSI455 - Major Performance 8:

AND

### Major Ensemble Commercial Music or Other Ensemble

#### Fulfill ALL of the following requirements:

Major Ensemble 6 courses minimum

You must complete 6 CLASSES and a minimum of 2 CREDITS of Ensemble (Applied Music).

AND

Major Ensemble 2 credits minimum (2 credits)

You must complete a minimum of 2 CREDITS of Ensemble (Applied Music).

AND

### Music Industry Core

#### Fulfill ALL of the following requirements:

Required Courses (24 credits)

#### Complete ALL of the following Courses:

- MUSI190 - Music Industry 1
- MUSI193 - Computer Applications in Music Production 1
- MUSI290 - Music Industry 2
- MUSI294 - Live Audio 1  
OR MUSI294H - Hon: Live Audio 1
- MUSI295 - Studio Recording I
- MUSI380 - History of the Recording

### Industry

OR MUSI380H - Hon:History of the Recording Industry

- MUSI390 - Marketing and Promotion in the Music Industry  
OR MUSI390H - Hon: Marketing and Promotion in the Music Industry
- MUSI397 - International Music Business  
OR MUSI397H - Hon: International Music Business

AND

### Co-op in Music (5 credits)

A 5 credit internship/co-op must be completed. See your faculty advisor and the Office of Experiential Learning and Career Management for registration details.

AND

### Senior Project and Studio Performance Evaluation

#### Fulfill ALL of the following requirements:

Senior Project Required

All students must pass their Senior Project for Music Industry.

AND

Studio Performance Evaluation Needed

Music Industry Students must pass Studio Performance Evaluations with a Level 2 in Studio Performance.

AND

Music Management Option

See separate block

### Additional Comments:

### Concentration in Music Management (15 credits)

Type

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Required Courses (6 credits)

**Complete ALL of the following Courses:**

- BUAD231 - Principles of Marketing  
OR BUAD231H - H:Principles of Marketing
- MUSI304 - Artist Management

AND

Senior Capstone (Fall and Spring) (6 credits)

**Earn at least 6 credits from the following:**

- MUSI490 - Music Management

AND

Elective (3 credits)

**Earn at least 3 credits from the following:**

- Any ACCT course(s)
- Any BUAD course(s)
- Any ECON course(s)
- Any ENTR course(s)
- Any MGMT course(s)

**Additional Comments:**

**Req Related for Music Industry, BS (3 credits)**

Type

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Required Courses (12 credits)

**Complete ALL of the following Courses:**

- ECON100 - Introductory Economics

# Certificate in Music Management

## Overview

The primary goal of this certificate program's curriculum is to provide students with a solid foundation in the music industry that can be used alongside their major field of study to pursue a career in the music industry.

## Curriculum

### Simple Requisites

#### Music Management- Certificate

Type

Completion Requirement

Required

Required courses:

MUSI 190 Music Industry 1

MUSI 290 Music Industry 2

MUSI 304 Artist Management

**Complete ALL of the following Courses:**

- MUSI190 - Music Industry 1
- MUSI290 - Music Industry 2
- MUSI304 - Artist Management

**Additional Comments:**

#### Music Management-Certificate

Type

Completion Requirement

Elective Credit

Take three (3) credits of one of the following:

MUSI 490 Music Management (with permission of instructor)

ENTR 201 Art of Entrepreneurship

BUAD 231 Principles of Marketing

**Complete ANY of the following Courses:**

- ENTR201 - The Art of Entrepreneurship
- MUSI490 - Music Management
- BUAD231 - Principles of Marketing

**Additional Comments:**

## Certificate in Modern Band Applications

### Overview

The Modern Band Applications Certificate Program is unique to the Tell School of Music, and is an incredible way to add this skillset to one of our existing music degrees or as a stand alone certificate. Students in the program will strengthen both their teaching and performance skills in the realm of popular music making and will offer our graduates with an employment advantage in public schools, and in the music education workforce. The Certificate is an additional credential to the a students' transcript showing additional, specialized study in Modern Band Applications.

### Curriculum

#### Simple Requisites

#### Certificate in Modern Band Applications (10 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### Required Courses (3 credits)

##### Earn a minimum grade of C- in the following:

- MUSI350 - The Art of Teaching Modern Band

AND

##### Live Audio Production (3 credits)

##### Earn a minimum grade of C- in the following:

- MUSI294 - Live Audio 1  
OR MUSI294H - Hon: Live Audio 1

AND

##### Songwriting and Composition (3 credits)

##### Earn a minimum grade of C- in the following:

- MUSI398 - Songwriting

AND

##### Commercial Lab Ensemble or Commercial Ensemble (1 credit)

##### Earn a minimum grade of C- in the following:

- MUSI124 - Commercial Music Lab Band  
OR MUSI324 - Commercial Music Ensemble

##### Additional Comments:

## Certificate in Music Technology in Music Education

### Overview

Tell School of Music students are the only undergraduate students in Pennsylvania to have the unique opportunity to integrate a study of technology with music education. Starting in the Fall 2020 semester, Music Education students now have the option of obtaining a new Certificate in Technology in Music Education at the Tell School. The Certificate is an additional credential to the Music Education students' transcript showing additional, specialized study in technology. In the 21st century, this is an especially attractive course of study for music educators. Students who elect Technology studies will not only be prepared to help in live sound productions in their schools but also will be prepared to teach 21st century classes in Recording, Live Audio, Modern Band, or other technology-based classes.

### Curriculum

#### Simple Requisites

#### Certificate in Music Technology in Music Education (12 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### Required Courses (9 credits)

##### Earn a minimum grade of B- in the following:

- MUSI280 - Technology in the Music Classroom
- MUSI193 - Computer Applications in Music Production 1
- MUSI295 - Studio Recording I

AND

Live Audio Production (3 credits)

Earn a minimum grade of B- in the following:

MUSI294 - Live Audio 1

OR MUSI294H - Hon: Live Audio 1

Additional Comments:

Certificate in Kodaly

Overview

Tell School of Music students to have the unique opportunity to study with two internationally renowned scholars in the Kodály Concept of music education - [Dr. Philip Tacka](#) and [Dr. Micheal Houlahan](#) and obtain a **Certificate in Kodály Teaching** at the Tell School. The Kodály Concept of teaching allows students to have the opportunity to enhance further their pedagogical skills that promote musicianship skills through experiential learning in singing, playing instruments, conducting, learning global repertoires, and understanding how to teach music from a sound to symbol perspective. In addition, students can observe and work with Kodály teachers in public school settings. The Certificate is an additional credential to the Music Education students' transcript showing additional, specialized study in the Kodály Concept of teaching - an attractive credential for music teachers!

## MUSI190 - Music Industry 1

### Course Information

Course Title

Music Industry 1

Subject code	Course Number	Academic Level
MUSI	190	Undergraduate

### Course Description

Music Industry 1 is the introductory music business course for all music industry majors. Students learn basic terminology used in the field and are introduced to fundamentals of the music industry, copyright, royalties, contracts and networking as well as guest lecturers.

## MUSI193 - Computer Applications in Music Production 1

### Course Information

Course Title

Computer Applications in Music Production 1

Subject code	Course Number	Academic Level
MUSI	193	Undergraduate

Course Description

This introductory course is designed to develop an understanding of MIDI, sequencing, and digital audio through the integration of in-class demonstrations, lectures, and hands-on projects and activities. This course covers topics such as creating, recording, and editing MIDI sequences and digital audio data. The course will also address topics such as programming, arranging, composing, and mixing in the MIDI environment.

## MUSI202 - American Broadway Musicals

### Course Information

Course Title

American Broadway Musicals

Subject code	Course Number	Academic Level
MUSI	202	Undergraduate

Course Description

Examines the history, philosophy, music-theatre, and significance of the American Broadway musical. Will give students several opportunities to observe, discuss and report on American Broadway musical productions.

General Education Labels

G1

## MUSI207 - Love Songs Through the Ages

### Course Information

Course Title

Love Songs Through the Ages

Subject code	Course Number	Academic Level
MUSI	207	Undergraduate

### Course Description

Exploration of sex positive themes in vocal music. This course addresses diversity through a discussion of sex positivity and how this idea relates to feminism and topics within the Lesbian, Gay, Bisexual, Transgender, and Questioning (LGBTQ) community; and with other related topics such as marriage, monogamy, courtship rituals, and the like. While this is a music course and thus provides specific information about how music achieves its expressive ends, it also provides a broad perspective on relevant human issues and how music not only reflects but also helps to transmit and to shape human values. The course will examine the historical and environmental factors that underlie differences in sexual mores; examine the potential global, regional, and/or local factors that underlie these differences; engage students in articulating their personal worldview through oral and written communication; foster information literacy as it relates to diversity; and provide an academic structure for students to engage with peoples of diverse sexual practices and beliefs. The culture of embracing (or at least accepting) alternative sexual mores is a worldview that reflects beliefs, customs, values, politics, and experiences as shaped by age, economics, education, gender, geography, language, nationality, occupation, physical ability, race and ethnicity, religious affiliation, and/or sexual orientation among other factors.

## MUSI280 - Technology in the Music Classroom

### Course Information

Course Title

Technology in the Music Classroom

Subject code	Course Number	Academic Level
MUSI	280	Undergraduate

Course Description

Students explore the uses of technology and its application As instructional resources and content delivery devices in the modern K-12 music classroom. Topics include applications software, cloud-based software, music hardware and software evaluation, music notation software, sequencing software, MIDI interface devices and technology, recording techniques, and multimedia presentation systems. Students are provided hands-on experiences with hardware and software to develop the skills and competencies required of the professional music educator.

## MUSI290 - Music Industry 2

### Course Information

Course Title

Music Industry 2

Subject code	Course Number	Academic Level
MUSI	290	Undergraduate

Course Description

Music Industry 2 provides a comprehensive overview of the mainstream music industry and the for-profit world in of the music business. Students learn advanced copyright issues, the economics of the music industry, digital distribution, music publishing, entrepreneurship, and current business trends in the music industry. Offered every spring. Prereq: MUSI 190.

## MUSI301 - Music in Early Childhood

### Course Information

#### Course Title

Music in Early Childhood

Subject code	Course Number	Academic Level
MUSI	301	Undergraduate

Course Description

Music in Early Childhood (Pre Kindergarten and Kindergarten) examines music through the lens of the culture(s) of young children, which (though they intersect with adult cultures) are unique, different from adult experiences, and particular to them. The course highlights the musical content of children's songs as well as the music they hear, and the kinds of musical engagements that are particular to young children. The uses, functions, and meanings of music for young children are emphasized. Musical materials to be studied will include selected multicultural folk music, as well as art and commercial music examples. The culture of childhood and the music in the culture of young children is one of the primary focuses of this course.

MUSI304 - Artist Management

Course Information

Course Title

Artist Management

Subject code	Course Number	Academic Level
MUSI	304	Undergraduate

Course Description

Artist Management is a focused examination, observation and participation class drawing on all of the facets of creating and operating an artist business model. The class will analyze the many facets of the modern music business and how it can be incorporated into practice. Students will be witness to the day to day operations of artists who record, tour, negotiate, survive and thrive. Students will participate in the discussions and decisions of the day to day operations of artists who are making recordings, marketing them either independently or in conjunction with a record label, touring, licensing music to film/TV, and all the functions of a recording and performance

artist's career. Music Industry is a pre-req for this course as students need to have a basic understanding of the business to get the most of this advanced course.

**Additional Comments:**

### Course Description

This is an advanced course in modern studio recording techniques. Students will learn how to record and mix synthesizers, piano, drum set, percussion, and other acoustic instruments. Students will be required to complete numerous technical and creative projects, including recording Millersville University music ensembles and taking part in every facet of the recording process from booking the studio through mastering the final product.

**Simple Requisites**

#### Course Prerequisites

**Type**

Prerequisite

MUSI295

**Complete ALL of the following Courses:**

- MUSI295 - Studio Recording I

**Additional Comments:**

## MUSI396 - Synthesis and Sampling

### Course Information

**Course Title**

Synthesis and Sampling

Subject code	Course Number	Academic Level
MUSI	396	Undergraduate

### Course Description

This is an advanced course focusing on the theory and operation of hardware & virtual synthesizers and digital audio samplers. Students learn how to identify and manipulate the various parameters of synthesis and sampling devices for compositions and live performances. In addition, advanced topics in sequencing and digital editing will be addressed.

**Simple Requisites**

MUSI490 - Music Management

Course Information

Course Title

Music Management

Subject code	Course Number	Academic Level
MUSI	490	Undergraduate

Course Description

The capstone course spans the course of two-terms and is designed to apply core concepts in the music industry through an entrepreneurial approach by developing a business plan and launching a project into the real-world. The initial term begins with the study of the processes and procedures involved in launching entrepreneurial enterprises that monetize music industry-related intellectual property, products and services. The development of opportunity recognition, commercialization of intellectual property, use of distribution models and other resources to pursue

entrepreneurial opportunities will be explored during this course. Also, capitalization structures for new ventures within the music industry will be pursued through the development of a business plan. During the second term, students will select a project to launch into the real world. Students will work in teams and collaborate to execute the successful launch of a project and analyze the successes and failures experienced during the term.

#### Simple Requisites

## MUSI495 - Audio & Music for Video

### Course Information

Course Title

Audio & Music for Video

Subject code	Course Number	Academic Level
MUSI	495	Undergraduate

#### Course Description

This course addresses the world of audio and music for video, including film, television and gaming. The course will cover topics such as the science and psychology of sound, editing sound, creating sound effects, recording voice-overs, and synchronizing music to picture.

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

MUSI290 and MUSI395

###### Complete ALL of the following Courses:

- MUSI290 - Music Industry 2
- MUSI395 - Studio Recording II

Additional Comments:

## MUSI497 - Live Audio 3

### Course Information

Course Title

Live Audio 3

Subject code	Course Number	Academic Level
MUSI	497	Undergraduate

#### Course Description

The objective of this course is for the students to be able to configure, assemble and optimize medium and large concert audio systems and peripheral equipment. This will include knowledge of signal flow, stage patching, protocols and cabling used for the interconnection of equipment and trouble shooting. They will apply basic principles of audio wave propagation for the purpose of optimization of a sound system. They will have basic knowledge to configure a digital mixing console for FOH and monitors as well as operating knowledge of each. They will understand the terms and definitions used in the live audio industry.

#### Simple Requisites

Course Description

Provides an in-depth coverage of the structures and aesthetics of common-practice harmony with particular emphasis on the Baroque and Classical period. This course

## MUSI517 - The Art of Teaching Elementary Music According to the Kodaly Concept

### Course Information

Course Title

The Art of Teaching Elementary Music According to the Kodaly Concept

Subject code	Course Number	Academic Level
MUSI	517	Graduate

Course Description

Designed as the study of music and the learning process at the elementary level, this course helps prepare students for a career in music education with a focus on the young learner. The class has both a practical and philosophical basis. We will continue to examine the major paradigms and processes of music education and learn different methods and approaches to teaching music literacy as well as suitable music materials for the young learner. We will discuss current methodologies associated with teaching and the psychology of music; we will practice teaching techniques associated with Kodaly and Orff.

Students will learn how to play and teach the soprano recorder and will complete an entrepreneurship plan to advance music education. Our focus will be on educating for the multiple dimensions of musicianship: Students as Performers, Students as Stewards of their Cultural Heritage, Students as Critical Thinkers, Students as Creative Human Beings and Students as Active Listeners. The course requires field observation and some teaching experiences in elementary schools.

MUSI550 - AoT Modern Band

Course Information

Course Title

AoT Modern Band

Subject code	Course Number	Academic Level
MUSI	550	Graduate

Course Description

Students explore in-depth applications of Modern Band pedagogy and curriculum in the music classroom. Key topics include Modern band instrument practical education, teaching application, composition, improvisation, approximation, scaffolding, and safe space. This series of experiences will be demonstrated through interactive lecture, performance, and group interaction on guitar, bass, drums, keyboards, technology, and vocals. Materials from this course will cover the Little Kids Rock teacher manual and songbooks. In addition, the class will cover basics of different rock instruments, with guitars, keyboards, a bass, and a drum set being provided for class study.

Simple Requisites

**Course Prerequisites**

**Type**

Prerequisite

MUSI193 or MUSI280

**Complete ANY of the following Courses:**

- MUSI193 - Computer Applications in Music Production 1
- MUSI280 - Technology in the Music Classroom

**Additional Comments:**

MUSI554 - Major Performance Piano Instruction with Emphasis in Curriculum Supervision, Assessment, & Design 1

Course Information

Course Title

Major Performance Piano Instruction with Emphasis in Curriculum Supervision, Assessment, & Design 1

Subject code	Course Number	Academic Level
MUSI	554	Graduate

Course Description

As a performance study designed for the Post Baccalaureate or M.Ed. Music Leadership major to support piano, voice, and instrumental majors, this course covers a broader spectrum of performance including advanced knowledge of the Baroque performance practices, composers, techniques, and styles. Students also learn approaches for developing a vision for creating a school community that supports music performance and programming as a necessary condition of a learning community be it local, regional, national, or international. Students gain skills in designing curriculum for musical study at the beginning, intermediate, and advanced level. "Leadership" is the major component of this degree. Beyond teaching piano, graduate piano majors must develop proper curriculum, establish programs, engage in fund raising activities and become entrepreneurial in their thinking and actions. Along with the pedagogical elements included in this course, weekly assignments also include technical studies (scales, arpeggios, etc.) and the development of repertoire, as well as functional playing, which includes sightreading, improvisation, accompanying, and ensemble playing. Students are REQUIRED to attend and perform in master classes, student recitals, and juries. Some lessons, master classes and practice sessions will be recorded. Students are expected to review the recordings and evaluate their performances regarding specific criteria. This piano performance course is designed for the Post Baccalaureate or M.Ed. Music Leadership major to enhance the skills of high level performing, teaching, conducting research, writing critical papers, and giving oral presentations. Topics will vary each semester.

## MUSI555 - Major Performance Piano Instruction with Emphasis in Curriculum Supervision, Assessment, & Design 2

### Course Information

#### Course Title

Major Performance Piano Instruction with Emphasis in Curriculum Supervision, Assessment, & Design 2

Subject code	Course Number	Academic Level
MUSI	555	Graduate

#### Course Description

As a performance study designed for the Post Baccalaureate or M.Ed. Music Leadership major to support piano, voice, and instrumental majors, this course covers a broader spectrum of performance including advanced knowledge of the Classic style performance practices, composers, techniques, and styles. Students also learn approaches for developing a vision for creating a school community that supports music performance and programming as a necessary condition of a learning community be it local, regional, national, or international. Students gain skills in designing curriculum for musical study at the beginning, intermediate, and advanced level. "Leadership" is the major component of this degree. Music Leadership major to enhance the skills of high level performing, teaching, conducting research, writing critical papers, and giving oral presentations. Topics will vary each semester.

## MUSI572 - The Art of Teaching Middle Level According to the Kodaly Concept

### Course Information

#### Course Title

The Art of Teaching Middle Level According to the Kodaly Concept

Subject code	Course Number	Academic Level
MUSI	572	Graduate

#### Course Description

Designed as the study of music and the learning process at the middle level (Grades 4-8), this graduate course helps prepare students for a career in music education with a focus on middle level learners. Emphasis will be placed on basic teaching and performing skills related to classroom teaching using the Kodály Methodology, related instrumental techniques, designing professional development, observing teaching in a supervisory role, and designing curriculum which integrates the choral and instrumental classroom. The class has both a practical and philosophical basis. We will examine the major paradigms and processes of music education and learn the Kodály approach to teaching music literacy as well as discover suitable music materials for middle level learners. We will discuss current methodologies associated with teaching and the psychology of music; we will practice teaching techniques associated with Kodály for the middle level classroom and choir. Students will be enhancing their skills on guitar and in addition to identifying websites or apps which can enhance instruction at the middle school level. Our focus will be on educating for the multiple dimensions of musicianship: Students as Performers, Students as Stewards of their Cultural Heritage, Students as Critical Thinkers, Students as Creative Human Beings and Students as Active Listeners. The course requires field observation and teaching experiences in upper elementary and middle school.

## Nursing Department

The Wehrheim School of Nursing offers an accredited upper-division program in nursing leading to a Bachelor of Science in Nursing (B.S.N.) degree. This program is designed for registered nurses who are graduates of accredited diploma or associate-degree nursing programs with a GPA of 2.0.

The goals of the nursing program are to provide an atmosphere and opportunities that develop intellectual curiosity, critical thinking, and sound reasoning and judgment; provide knowledge from the humanities and the physical, biological, psychological and social sciences to complement nursing theory and practice; provide a theoretical and clinical foundation in nursing to prepare a professional nurse who provides rational evidence-based and humanistic healthcare within institutional and community settings; and provide a basis for graduate education in nursing.

Online courses are offered on a rotating basis to accommodate student scheduling.

The Millersville University RN-BSN, MSN, post-MSN FNP certificate, and DNP programs are accredited by the National League for Nursing Commission for Nursing Education Accreditation (NLN CNEA) located at 2600 Virginia Avenue, NW, Washington, DC 20037. 202-909-2487.

## Programs

### School Nursing, Post-Baccalaureate Certification

#### Overview

##### Admission Requirements

Applicants for the Master of Science in Nursing in School Nursing program are referred to the *Admission Requirements* section for general criteria and guidelines for admission to the University.

Specific criteria required by the Wehrheim School of Nursing include:

1. Baccalaureate degree in nursing from an accredited

(ACEN, CNEA, or CCNE) school of nursing.

2. Undergraduate grade-point average of at least 3.0 on a 4.0 scale. When GPA is below this, probational acceptance may be considered if the candidate demonstrates graduate study potential by other means.
3. Satisfactory completion of an undergraduate statistics course (equivalent to MATH 130 Elements of Statistics 1), physical assessment course, and a research course in nursing.
4. Computer literacy and access to a computer and internet service.
5. Three current academic and/or professional

references.

- 6. Licensure as a registered nurse in Pennsylvania or in the state where clinical practice or internship is to be arranged.
- 7. Successful completion of a personal interview with the Nursing Admissions Committee.
- 8. Current résumé and statement of intent.
- 9. Verified academic transcripts.

Clearances are required for practicum courses NURS 610 and NURS 611 only:

- ACT 34 - PA State Police Criminal Background Check
- ACT 114 - FBI Fingerprint Clearance (Federal Criminal History Background Check)
- ACT 151 - PA Child Abuse History Certification
- Negative TB Test or Chest X-Ray

You must submit your Criminal Record Check

AND

ACT 151 - Child Abuse Clearance Needed

You must submit your Child Abuse Clearance

AND

Negative TB Test or Chest X-ray Needed

You must submit your Negative TB Test or Chest X-ray

Additional Comments:

## Nursing, D.N.P.

### Overview

The purpose of the Doctor of Nursing Practice program is to further educate clinical experts with the knowledge and skills in systems analysis and evidence-based integration and evaluation. It prepares individuals to design improved methodologies to promote safe, timely, effective, equitable and patient-centered care.

The DNP program is tailored to the needs of certified, advanced practice nurses, including nurse practitioners, clinical nurse specialists, certified nurse midwives and certified registered nurse anesthetists. The 36-credit program provides the advanced practice registered nurse with tools to engage in evidence-based, scholarly clinical practice. The two-year program uses a blended format to offer courses, with each course meeting on campus once per semester, with the remaining work conducted online. A minimum of 330 clinical hours are required and must be approved and academically supervised by a faculty member and/or preceptor. A scholarly project is required and will focus on utilizing evidence-based practice research to improve healthcare safety, quality and/or outcomes for individuals, groups or populations. The finished product will be a publishable manuscript.

The admission criteria requires a bachelor's degree in nursing and a master's degree in nursing or closely related field (i.e., MPH) with a minimum GPA of 3.5 in the master's degree. Applicants must have a valid RN nursing license. This is in addition to recommendations, curriculum vitae and a written statement outlining the goal of the DNP project.

The program is designed as a cohort model, beginning during the summer session each year. Courses are offered year-round, allowing for completion in a two-year time frame. Each student is assigned a faculty advisor based on his/her clinical interests.

### Learning Outcomes and Assessment

The Doctor of Nursing Practice program outcomes integrate nursing science with advanced levels of system thinking and professional accountability to design, deliver and evaluate evidence-based practice to improve healthcare quality, safety and outcomes. These learning outcomes are:

- Initiate and participate in collaborative efforts with other disciplines to influence healthcare outcomes.
- Advocate for and provide leadership to develop policy that helps to share healthcare financing, regulation, access and delivery.

- Employ effective communication and collaborative skills in the development and implementation of practice models, peer review, practice guide-lines, health policy, standards of care and/or other scholarly products.
- Use information technology and research methods to design, direct and evaluate quality improvement methodologies to promote safe, timely, effective, efficient, equitable and patient-centered care.

## Nursing, M.S.N. - Family Nurse Practitioner

### Overview

Millersville University offers a Master of Science in Nursing (MSN) degree Family/individual across the lifespan nurse practitioner (FNP).

All class sessions are offered during weekday evenings in three-hour blocks of time face to face and/or in a distance learning format. Clinical courses for the FNP student require a minimum of 750 total clinical hours to successfully complete the program.

Individuals completing the MSN with family/individual across the lifespan nurse practitioner option are prepared to function as family nurse practitioners in a variety of settings, including clinics and primary-care settings.

The program (MSN) is accredited by the National League for Nursing (NLN) Commission of Nursing Education Accreditation (CNEA).

### Admission Requirements

Applicants for the Master of Science in Nursing Family/individual across the lifespan family nurse practitioner program are referred to the *Admission Requirements* section for general criteria and guidelines for admission to the University.

Specific criteria required by the Wehrheim School of Nursing include:

1. Baccalaureate degree in nursing from an accredited (ACEN, CNEA or CCNE) school of nursing.
2. Undergraduate grade-point average of at least 3.0 on a 4.0 scale. When GPA is below this, probational acceptance may be considered if the candidate demonstrates graduate study potential by other means.
3. Satisfactory completion of an undergraduate statistics course (equivalent to MATH 130, Elements

of Statistics 1), physical assessment course, and a research course in nursing.

4. Computer literacy and access to a computer and internet service.
5. Two current academic and/or professional references.
6. Licensure as a registered nurse in Pennsylvania or in the state where clinical practice or internship is to be arranged.
7. Minimum of two years of clinical experience in nursing, three to five years is preferred.
8. Successful completion of a personal interview with the Nursing Admissions Committee.
9. Current résumé and statement of intent.
10. Verification of completion of statistics, research and physical courses.

Graduates are eligible to submit an application to the Pennsylvania State Board of Nursing (SBN) for designation as a Certified Registered Nurse Practitioner (CRNP) upon satisfactory completion of requirements and passing a national certification examination administered by either the American Nurses Credentialing Center (ANCC) or the American Academy of Nurse Practitioners (AANP).

*A graduate of a nurse practitioner program may not practice as a CRNP unless authorized to do so by the Board. Board authorization is equivalent to receipt of a CRNP number. While the CRNP application is pending, the applicant may not be employed as a CRNP. (Refer to Pennsylvania CRNP Rules and Regulations Section 21:261 (b).)*

## Nursing, M.S.N. - School Nursing

### Overview

The School Nurse Program is designed for the student who desires a PA Department of Education K4-12 School Nurse Certification. This program is offered as a stand-alone post-baccalaureate School Nurse Certification or as part of the MSN-School Nurse curriculum. In order to achieve certification, students progress through courses that incorporate online instruction and experiential learning activities in a public school setting. All course content and time offerings are designed to meet the needs of the student as well as Pennsylvania standards for School Nurse Certification. For students who do not reside in Pennsylvania, it is possible to complete the MSN in school nursing degree, but only students completing the 100 practicum hours in a Pennsylvania K-12 school district will be eligible for the PDE PK-12 certification.

Clearances are required for practicum courses NURS 610 and NURS 611 only:

- ACT 34 - PA State Police Criminal Background Check
- ACT 114 - FBI Fingerprint Clearance (Federal Criminal History Background Check)
- ACT 151 - PA Child Abuse History Certification
- Negative TB Test or Chest X-Ray

## Nursing, Post-Master's Certificate, Nursing Education

### Overview

Play a vital role in preparing the next generation of nurses with the curriculum and evaluation strategies gained through the online Graduate Certificate in Nursing Education. Featuring 100% online coursework taken directly from our CNEA-accredited MSN – Nursing Education program, this post-master's certificate furthers your knowledge of education theories and methods.

Learn to design and develop effective educational programs for both traditional and tech-based learning environments. The small cohort sizes at Millersville ensure personalized attention from faculty, and all practicum experiences are tailored to meet your unique learning goals. Upon completion of this career-advancing Grad Cert – Nursing Education program, you will be prepared to sit for multiple NLN exams, including the Certified Nurse Educator (CNE®) and the Academic Clinical Nurse Educator Certification (CNE®cl) exams.

## Nursing, B.S.N.

### Overview

The RN to BSN program at Millersville University is designed for those who have obtained their associate degree in nursing or diploma and RN license. This program is offered in a completely online format. The online program allows registered nurses to work toward a Bachelor of Science in Nursing degree at their own pace and while continuing to work as an RN. Faculty advisers provide individualized analysis of your previous credits to ensure the most efficient path to your degree.

Graduates receive a Bachelor of Science in Nursing (BSN) degree.

Designed for the busy, working RN, the RN to BSN program is a fully asynchronous online program. There are 31 credits of required nursing courses focused on the core program outcomes of exploration, professionalism, advocacy and action, embracing diversity, and leadership.

## Certificate in Telehealth

### Overview

Wehrheim School of Nursing Telehealth certificate is 100% online and open to all majors and guest students!

There is a growing demand for telehealth as a modality to improve patient outcomes in professions such as social work, nursing, counseling, providers, pharmacy, physical therapy, occupational therapy, and respiratory therapy, and more!

Remote healthcare has exploded since the start of the pandemic in 2020. The expansion of telehealth and other remote healthcare options is only expected to increase in the future years and become a "normal" part of healthcare delivery, enabling specialists and providers to reach patients in remote areas and eliminating barriers to receive safe, efficient healthcare.

### Program Benefits

- 100% Online
- 3 Courses (10 credits)
- Learn to facilitate healthcare via telehealth/telephonic/telemedicine/virtual and remote care

Subject code	Course Number	Academic Level
NURS	150	Undergraduate

### Course Description

Addresses safe nursing care for the adult patient. Provides theoretical knowledge and clinical skills needed to organize and provide safe nursing care for diverse individuals. Transfer equivalency course only; available only for students currently enrolled in or have completed the HACC RN ADN program.

### Simple Requisites

#### Degree/Major/Field of Study Restrictions

##### Type

Prerequisite

HACC/MU Concurrent Education Program or HACC ADN Program

**Must be in the HACC/MU Concurrent Education Program or have completed the HACC ADN program.**

**Additional Comments:**

## NURS151 - Holistic Health Concepts for Nursing Practice II

### Course Information

#### Course Title

Holistic Health Concepts for Nursing Practice II

Subject code	Course Number	Academic Level
NURS	151	Undergraduate

### Course Description

Addresses safe nursing care for the adult patient and their families. Special consideration is placed upon events that are common in the normal life cycle. Focus on meeting basic human needs for diverse individuals and families. Transfer equivalency course only; available only for students currently enrolled in or have completed the HACC RN ADN program.

### Simple Requisites

#### Degree/Major/Field of Study Restrictions

##### Type

Prerequisite

HACC/MU Concurrent Education Program or HACC ADN Program

**Must be in the HACC/MU Concurrent Education Program or have completed the HACC ADN program.**

**Additional Comments:**

## NURS179 - Experimental

### Course Information

#### Course Title

Experimental

Subject code	Course Number	Academic Level
NURS	179	Undergraduate

### Course Description

Experimental

## NURS240 - Adult Health Concepts for Nursing Practice I

### Course Information

#### Course Title

Adult Health Concepts for Nursing Practice I

Subject code	Course Number	Academic Level
NURS	240	Undergraduate

### Course Description

Addresses safe nursing care and the needs of patients with cancer and other cellular alterations. Transfer equivalency course only; available only for students currently enrolled in or have completed the HACC RN ADN program.

### Simple Requisites

#### Degree/Major/Field of Study Restrictions Type

Prerequisite

HACC/MU Concurrent Education Program or HACC ADN Program

**Must be in the HACC/MU Concurrent Education Program or have completed the HACC ADN program.**

Additional Comments:

## NURS241 - Adult Health Concepts for Nursing Practice II

### Course Information

#### Course Title

Adult Health Concepts for Nursing Practice II

Subject code	Course Number	Academic Level
NURS	241	Undergraduate

### Course Description

Addresses safe nursing care for patients with complex physiological needs. Transfer equivalency course only; available only for students currently enrolled in or have completed the HACC RN ADN program.

### Simple Requisites

#### Degree/Major/Field of Study Restrictions Type

Prerequisite

HACC/MU Concurrent Education Program or HACC ADN Program

**Must be in the HACC/MU Concurrent Education Program or have completed the HACC ADN program.**

Additional Comments:

## NURS242 - Family Health Concepts for Nursing Practice I

### Course Information

#### Course Title

Family Health Concepts for Nursing Practice I

Subject code	Course Number	Academic Level
NURS	242	Undergraduate

### Course Description

Covers the safe nursing care of women, newborns, and childbearing families. Transfer equivalency course only; available only for students currently enrolled in or have completed the HACC RN ADN program.

### Simple Requisites

#### Degree/Major/Field of Study Restrictions Type

Prerequisite

HACC/MU Concurrent Education Program or HACC ADN Program

**Must be in the HACC/MU Concurrent Education Program or have completed the HACC ADN program.**

Additional Comments:

## NURS243 - Family Health Concepts for Nursing Practice II

### Course Information

#### Course Title

Family Health Concepts for Nursing Practice II

Subject code	Course Number	Academic Level
NURS	243	Undergraduate

### Course Description

Addresses safe family-centered nursing care to children. Focuses on ability to adapt care to a child's development level. Transfer equivalency course only; available only for students currently enrolled in or have completed the HACC RN ADN program.

### Simple Requisites

#### Degree/Major/Field of Study Restrictions Type

Prerequisite

HACC/MU Concurrent Education Program or HACC ADN Program

**Must be in the HACC/MU Concurrent Education Program or have completed the HACC ADN program.**

**Additional Comments:**

## NURS244 - Advanced Behavioral Health Concepts for Nursing Practice

### Course Information

**Course Title**

Advanced Behavioral Health Concepts for Nursing Practice

<b>Subject code</b>	<b>Course Number</b>	<b>Academic Level</b>
NURS	244	Undergraduate

### Course Description

Addresses safe nursing care of patients, families, and groups with complex behavioral health needs. Transfer equivalency course only; available only for students currently enrolled in or have completed the HACC RN ADN program.

### Simple Requisites

**Degree/Major/Field of Study Restrictions**

**Type**

Prerequisite

HACC/MU Concurrent Education Program or HACC ADN Program

**Must be in the HACC/MU Concurrent Education Program or have completed the HACC ADN program.**

**Additional Comments:**

## NURS250 - Complex Health Concepts for Nursing Practice

### Course Information

**Course Title**

Complex Health Concepts for Nursing Practice

<b>Subject code</b>	<b>Course Number</b>	<b>Academic Level</b>
NURS	250	Undergraduate

### Course Description

Covers safe nursing care for adult patients from socially, economically and culturally diverse backgrounds. Transfer equivalency course only; available only for students currently enrolled in or have completed the HACC RN ADN program.

### Simple Requisites

**Degree/Major/Field of Study Restrictions**

**Type**

Prerequisite

HACC/MU Concurrent Education Program or HACC ADN Program

**Must be in the HACC/MU Concurrent Education Program or have completed the HACC ADN program.**

**Additional Comments:**

## NURS251 - Leadership and Management Concepts for Nursing Practice

### Course Information

**Course Title**

Leadership and Management Concepts for Nursing Practice

<b>Subject code</b>	<b>Course Number</b>	<b>Academic Level</b>
NURS	251	Undergraduate

### Course Description

Enhances the professional role of the student as the focus on safe nursing care for adult patients continues. In addition, this course focuses on transitioning the student to the graduate nursing role as they further develop a clinician's role. Transfer equivalency course only; available only for students currently enrolled in or have completed the HACC RN ADN program.

### Simple Requisites

**Degree/Major/Field of Study Restrictions**

**Type**

Prerequisite

HACC/MU Concurrent Education Program or HACC ADN Program

**Must be in the HACC/MU Concurrent Education Program or have completed the HACC ADN program.**

NURS310 - Health Issues from a Population Health Perspective

Course Information

Course Title  
Health Issues from a Population Health Perspective

Subject code	Course Number	Academic Level
NURS	310	Undergraduate

Course Description  
The essentials of population health practices will be discussed along with how they are used by different groups to assess health outcomes and make recommendations to improve access to care and quality of care while reducing the cost of care.

Simple Requisites

Course Prerequisites

Type  
Prerequisite

ENGL 110 or ENGL 110H

Complete ANY of the following Courses:

- ENGL110 - Introduction to College Writing
- ENGL110H - Hnrs:Introduction to College

Writing

Additional Comments:

NURS312 - Value-Based Care

Course Information

Course Title  
Value-Based Care

Subject code	Course Number	Academic Level
NURS	312	Undergraduate

Course Description  
The healthcare industry is shifting to value-based and risk-based reimbursement and it is a monumental change that is impacting every component of healthcare. Healthcare is focused on high-value, cost-effective, and evidence-based measures that incorporate innovation, resource stewardship, and systems thinking. Under new payment models, reimbursement is tied directly to clinical, organizational, and consumer outcomes. It is, therefore, critical that all involved in healthcare are aware and can apply the principles associated with value-based care to their respective roles.

NURS315 - Scientific Advances in Healthcare

Course Information

Course Title  
Scientific Advances in Healthcare

Subject code	Course Number	Academic Level
NURS	315	Undergraduate

Course Description  
Major contemporary health trends and issues will be presented. Discussion will identify the integration of certain biological, psychosocial, educational and healthcare components as they impact on the individual/family unit. Open to all majors. Prereq: ENGL 110, COMM 100 and junior status. Does not satisfy nursing electives for B.S.N. majors.

## NURS320 - Basis of Professional Practice

### Course Information

**Course Title**

Basis of Professional Practice

Subject code	Course Number	Academic Level
NURS	320	Undergraduate

**Course Description**

Historical and theoretical aspects of nursing are discussed in addition to concepts and issues related to professional nursing practice. Emphasis on communication, standards, collaboration, and advocacy. 3 hrs. lec. Nursing majors only. Offered annually.

**Simple Requisites**

**Degree/Major/Field of Study Restrictions**

**Type**

Prerequisite

Nursing Majors Only

Restricted to nursing majors.

**Additional Comments:**

## NURS322 - Health Assessment of Adult

### Course Information

**Course Title**

Health Assessment of Adult

Subject code	Course Number	Academic Level
NURS	322	Undergraduate

**Course Description**

The holistic assessment process of the adult client utilizing physical assessment skills such as the techniques of inspection, palpation, percussion and auscultation are

presented and practiced. Each system includes the normal finding and the pathophysiological mechanisms that alter hemodynamics. 3 hrs. lec., 2 hrs. lab. Nursing majors only.

## NURS330 - Ethics and Person-Centered Care

### Course Information

**Course Title**

Ethics and Person-Centered Care

Subject code	Course Number	Academic Level
NURS	330	Undergraduate

**Course Description**

Focuses on the interplay of ethical practice and diverse populations in healthcare. Emphasis on the use of ethical theories, principles, and frameworks to strengthen moral reasoning and improve the provision of socially responsible, person-centered healthcare to diverse populations. Models of ethical decision-making are explored and applied. Role of the ANA Code of Ethics within the profession is examined. Encourages a greater awareness of cultural differences and health disparities and the importance of social justice and mutual respect in care delivery.

**General Education Labels**

Diversity (D)

## NURS340 - Environmental Factors Affecting Health

### Course Information

**Course Title**

Environmental Factors Affecting Health

Subject code	Course Number	Academic Level
NURS	340	Undergraduate

**Course Description**

Discussion of environmental health and factors that influence the holistic persons health. Emphasis on the importance of environmental health assessment and the health effects of air, water and soil pollution; environmental safety hazards and nursing responsibilities for intervention in a personal, community and political realm. Effects of pollution and safety hazards discussed from a nursing perspective.

## NURS360 - Assessment and Diversity in Nursing Practice

### Course Information

#### Course Title

Assessment and Diversity in Nursing Practice

Subject code	Course Number	Academic Level
NURS	360	Undergraduate

#### Course Description

Integration of physical assessment has a positive effect on patient care delivery. An important component of health assessment of the diverse client is a contextual (cultural) review. Cultural assessment is crucial to providing cultural care, which enables providers to deliver services that are respectful of and responsive to the health beliefs, practices and cultural and linguistic needs of diverse patients. Cultural competency is critical to reducing health disparities and is responsive to the needs of diverse patients resulting in improved patient outcomes.

#### General Education Labels

Diversity (D)

## NURS370 - Telehealth Foundations

### Course Information

#### Course Title

Telehealth Foundations

Subject code	Course Number	Academic Level
NURS	370	Undergraduate

#### Course Description

An introduction to telehealth theory, clinical usage, historical perspectives, and future strategies that provide clinicians, healthcare team members, administrators, and community members a broad-based overview of the use of technology in healthcare.

## NURS379 - Experimental

### Course Information

#### Course Title

Experimental

Subject code	Course Number	Academic Level
NURS	379	Undergraduate

#### Course Description

Experimental

## NURS421 - Population-based Nursing

### Course Information

#### Course Title

Population-based Nursing

Subject code	Course Number	Academic Level
NURS	421	Undergraduate

#### Course Description

The nurse's role in promotion of health of aggregates in the community is explored, with an emphasis on vulnerable populations. Public health concepts, using a population-based focus are directed toward health promotion and levels of prevention with evidence-based care to create healthier communities and populations.

#### General Education Labels

Writing (W)

## NURS428 - Nursing Research & Evidence-Based Practice

### Course Information

#### Course Title

Nursing Research & Evidence-Based Practice

Subject code	Course Number	Academic Level
NURS	428	Undergraduate

#### Course Description

Explores the research process used to generate evidence and the process of evidenced-based practice (EBP), which incorporates the available evidence to implement strategies that improve nursing practice. Students will follow the steps of the EBP process to synthesize the best available evidence related to a nursing problem within an area of professional practice. Prerequisite: MATH 130 or MATH 234, ENGL 110, and Senior Level.

#### General Education Labels

Writing (W)

#### Simple Requisites

Additional Comments:

## NURS460 - Telehealth Policy, Advocacy, and Clinical Application

### Course Information

Course Title

Telehealth Policy, Advocacy, and Clinical Application

Subject code	Course Number	Academic Level
NURS	460	Undergraduate

Course Description

This course will review the roles of policy, advocacy, and clinical application of telehealth. Using spirit of inquiry principles, the impact of virtual care, artificial intelligence, and remote patient monitoring on patient care, quality and safety and process improvement will be investigated. Prereq: NURS 370

Simple Requisites

Prerequisite

NURS 370

Complete ALL of the following Courses:

- NURS370 - Telehealth Foundations

Additional Comments:

## NURS461 - Advanced Telehealth

### Course Information

Course Title

Advanced Telehealth

Subject code	Course Number	Academic Level
NURS	461	Undergraduate

Course Description

This advanced telehealth course will develop telehealth project management skills and clinical presence using technology as a methodology of providing healthcare in a variety of settings across the continuum. Prereq: NURS 370 and 460.

Simple Requisites

#### Course Prerequisites

Type

Prerequisite

## NURS435 - Topics in Nursing

### Course Information

Course Title

Topics in Nursing

Subject code	Course Number	Academic Level
NURS	435	Undergraduate

Course Description

In-depth investigation of topics of current interest in the nursing field. Topics to be announced when course is offered. Offered periodically.

## NURS438 - Health Policy and Nursing Issues

### Course Information

Course Title

Health Policy and Nursing Issues

Subject code	Course Number	Academic Level
NURS	438	Undergraduate

Course Description

Discussion of the political, economic, legal, ethical and related societal issues which influence nursing practice and education. Professional nursing roles and responsibilities are emphasized. 3 hrs. lec. Nursing majors only.

Simple Requisites

#### Degree/Major/Field of Study Restrictions

Type

Prerequisite

Nursing Majors Only

Restricted to nursing majors.

- NURS460 - Telehealth Policy, Advocacy, and Clinical Application

**Additional Comments:**

NURS478 - Transforming Health Care

Course Information

Course Title

Transforming Health Care

Subject code	Course Number	Academic Level
NURS	478	Undergraduate

Course Description

This senior-level capstone course builds and expands upon work completed to date in the B.S.N. program and is designed to prepare students for leadership roles. Concepts of leadership and management will be described and ultimately applied to seminar topics and clinical experiences. Emphasis is also placed on the interdependence between the nursing profession and various levels of issues as they pertain to real-life world events. Seminar topics include fiscal management, case management and public-policy issues, among others. Clinical experiences will allow the student to practice with a nurse leader in the community. Prereq: ENGL 110, NURS 320, 428. 28 clinical hours total.

## NURS501 - Role Development and Theoretical Foundations of Advanced Practice

### Course Information

Course Title

Role Development and Theoretical Foundations of Advanced Practice

Subject code	Course Number	Academic Level
NURS	501	Graduate

Course Description

Serves as the introductory course for the Master's of Science in Nursing degree. It is designed to provide a foundation to advance practice nursing. In this course, students will explore nursing concepts and theory. Emphasis is placed on bridging the theory-practice gap. Students will apply this theoretical basis in exploring advanced practice role development. Advanced practice core competencies will be introduced and analyzed.

## NURS502 - Research and Evidence-Based Practice Methodology

### Course Information

Course Title

Research and Evidence-Based Practice Methodology

Subject code	Course Number	Academic Level
NURS	502	Graduate

Course Description

Advanced research in nursing builds on previous knowledge of research and statistics to develop an evidenced-based approach to practice. The learner will analyze methods and techniques of research and interpret their usefulness for application in practice. Theory and practice will be used in defining nursing problems and in development of a literature review. 3 hrs. theory. Prereq/Coreq: NURS 501

### Simple Requisites

Course Prerequisite or Corequisite

Type

Prerequisite

NURS501

Complete ALL of the following Courses:

- NURS501 - Role Development and Theoretical Foundations of Advanced Practice

Additional Comments:

## NURS503 - Issues and Roles in Advanced Nursing Practice

### Course Information

Course Title

Issues and Roles in Advanced Nursing Practice

Subject code	Course Number	Academic Level
NURS	503	Graduate

Course Description

In-depth study of the issues of advanced nursing practice, focusing on the historical, social and political forces which impact advanced nursing practice. Advanced practice roles in nursing are explored and analyzed. 3 hrs. theory. Offered in fall.

### Simple Requisites

Course Prerequisites

Type

Prerequisite

NURS501

Complete ALL of the following Courses:

- NURS501 - Role Development and Theoretical Foundations of Advanced Practice

Additional Comments:

## NURS504 - Technology, Informatics & Professional Nursing Practice

### Course Information

Course Title

Technology, Informatics & Professional Nursing Practice

Subject code	Course Number	Academic Level
NURS	504	Graduate

#### Course Description

Discussion of the ways in which information and technology influence practice and decision making in various aspects of nursing practice, such as clinical, education, leadership and research, is the major focus of the course. Advances in technology that support and enhance the delivery of care and interdisciplinary communication are addressed. The legal, ethical, cultural, economic and social factors affecting healthcare information technology are also explored.

## NURS506 - Sustainable Health

### Course Information

#### Course Title

Sustainable Health

Subject code	Course Number	Academic Level
NURS	506	Graduate

#### Course Description

Discussion of advanced concepts regarding environmental health and evidence-based nursing in the context of sustainable development and global well-being. Using the 17 UN Sustainable Development Goals as a comprehensive framework for understanding health, the environment, and human interaction, as well as how to promote public, international, and planetary health including multinational, interdisciplinary systems supporting all of humanity. Explores and underscores the important role nurses fulfill in promoting local and global health within the framework of sustainability.

#### Simple Requisites

#### Course Prerequisites

##### Prerequisite

NURS320

#### Complete ALL of the following Courses:

- NURS320 - Basis of Professional Practice

#### Additional Comments:

## NURS508 - Advanced Clinical Knowledge

### Course Information

#### Course Title

Advanced Clinical Knowledge

Subject code	Course Number	Academic Level
NURS	508	Graduate

#### Course Description

Builds upon previous knowledge in physical assessment, pathophysiology, and pharmacology. Using a systems approach, examines principles of select well and disease states. Provides the opportunity to assess, analyze, and explore the findings, treatment, and evaluation of common health issues. Analyzes the relationships between assessment findings, physiologic changes, and pharmaceutical treatments.

## NURS511 - Pathophysiology for Advanced Practice

### Course Information

#### Course Title

Pathophysiology for Advanced Practice

Subject code	Course Number	Academic Level
NURS	511	Graduate

#### Course Description

Advanced physiology and pathophysiology at the cellular, organic and systemic level. Interdependence of organ systems in health and disease is emphasized as a basis for clinical assessment and management. 3 hrs. theory. Offered in spring.

## NURS512 - Health Assessment and Diagnostics Evaluation for Advanced Practice

### Course Information

#### Course Title

Health Assessment and Diagnostics Evaluation for Advanced Practice

Subject code	Course Number	Academic Level
NURS	512	Graduate

#### Course Description

Clinical course. Provides framework for diagnosis and clinical decision making for the advanced practice nurse. Assessment skills and procedures for individuals across the life cycle will be developed. Information gathered in the assessment process will provide a basis for the evaluation of the health status of individuals. An analysis of an individuals response to wellness and illness will include examination of concepts of cultural influences, health-seeking behaviors, and stress and adaptation. 2 hrs. theory, 3 hrs. lab. Prereq: NURS 501, 502, 503 and 511. Offered in fall.

## Simple Requisites

## NURS523 - Family Nurse Practitioner Internship

### Course Information

#### Course Title

Family Nurse Practitioner Internship

Subject code	Course Number	Academic Level
NURS	523	Graduate

#### Course Description

This course provides an opportunity to integrate theory and practice through an intensive internship experience. Focus is on the domains and competencies of the nurse practitioner as direct provider of primary healthcare. Biweekly seminars will be conducted to discuss current topics. The student will be

- Foundations of Advanced Practice
- NURS503 - Issues and Roles in Advanced Nursing Practice
  - NURS511 - Pathophysiology for Advanced Practice
  - NURS512 - Health Assessment and Diagnostics Evaluation for Advanced Practice
  - NURS513 - Pharmacology & Alternative Therapeutics in Nursing Practice

Additional Comments:

- NURS513 - Pharmacology & Alternative Therapeutics in Nursing Practice

Additional Comments:

NURS533 - Clinical Management of the Adult Population

Course Information

Course Title  
Clinical Management of the Adult Population

Subject code	Course Number	Academic Level
NURS	533	Graduate

Course Description  
Provides the family nurse practitioner student with the necessary knowledge and clinical experience to assist adults with health promotion and chronic and acute health problems. The unique biophysical, cognitive, and psychosocial needs of adults are explored. The role of the family nurse practitioner in caring for adults is identified.

NURS 501 and NURS 503 and NURS 511 and NURS 512 and NURS 513

Complete ALL of the following Courses:

- NURS501 - Role Development and Theoretical Foundations of Advanced Practice
- NURS503 - Issues and Roles in Advanced Nursing Practice
- NURS511 - Pathophysiology for Advanced Practice
- NURS512 - Health Assessment and Diagnostics Evaluation for Advanced Practice
- NURS513 - Pharmacology & Alternative Therapeutics in Nursing Practice

Additional Comments:

NURS532 - Clinical Management of the Female Patient

Course Information

Course Title  
Clinical Management of the Female Patient

Subject code	Course Number	Academic Level
NURS	532	Graduate

Course Description  
Course Description: This course provides the family nurse practitioner student with the necessary knowledge and clinical experience to assist the female patient with health promotion, chronic conditions, and acute health problems. The unique biophysical, cognitive, and psychosocial needs of women are explored. The role of the family nurse practitioner in caring for women is identified. (Prerequisites: NURS 501, 503, 511, 512, 513).

Simple Requisites

Completed Course Prerequisites

Type  
Prerequisite

NURS 501 and NURS 503 and NURS 511 and NURS 512 and NURS 513

Complete ALL of the following Courses:

- NURS501 - Role Development and Theoretical Foundations of Advanced Practice
- NURS503 - Issues and Roles in Advanced Nursing Practice
- NURS511 - Pathophysiology for Advanced Practice
- NURS512 - Health Assessment and Diagnostics Evaluation for Advanced Practice

## NURS534 - Clinical Management of the Geriatric Population

### Course Information

#### Course Title

Clinical Management of the Geriatric Population

Subject code	Course Number	Academic Level
NURS	534	Graduate

#### Course Description

Provides the family nurse practitioner student with the necessary knowledge and clinical experience to assist the geriatric client with health promotion and chronic and acute health problems. The unique biophysical, cognitive, and psychosocial needs of the geriatric population are explored. The role of the family nurse practitioner in caring for the geriatric population is identified.

#### Free Form Requirements

NURS 501, 503, 511, 512, 513

## NURS535 - Clinical Management of Vulnerable Populations

### Course Information

#### Course Title

Clinical Management of Vulnerable Populations

Subject code	Course Number	Academic Level
NURS	535	Graduate

#### Course Description

Provides the family nurse practitioner student with the necessary knowledge and clinical experience to assist vulnerable populations with health promotion and chronic and acute health problems. The unique biophysical, cognitive, and psychosocial needs of various unique populations are explored. A special focus on population level health is included. (Prerequisites: NURS 511, 512, 513, 531, 532, 533, 534).

#### Simple Requisites

#### Completed Course Prerequisites

##### Type

Prerequisite

NURS 501 and NURS 503 and NURS 511 and NURS 512 and NURS 513 and NURS 531 and NURS 532 and NURS 533 and NURS 534

**Complete ALL of the following Courses:**

- NURS501 - Role Development and Theoretical Foundations of Advanced Practice
- NURS503 - Issues and Roles in Advanced Nursing Practice
- NURS511 - Pathophysiology for Advanced Practice
- NURS512 - Health Assessment and Diagnostics Evaluation for Advanced Practice
- NURS513 - Pharmacology & Alternative Therapeutics in Nursing Practice
- NURS531 - Clinical Management of the Pediatric Population
- NURS532 - Clinical Management of the Female Patient
- NURS533 - Clinical Management of the Adult Population
- NURS534 - Clinical Management of the Geriatric Population

#### Additional Comments:

## NURS536 - Transition to APRN Practice

### Course Information

#### Course Title

Transition to APRN Practice

Subject code	Course Number	Academic Level
NURS	536	Graduate

#### Course Description

This course provides an opportunity to integrate theory and practice through an intensive internship experience. Focus is on the domains and competencies of the nurse practitioner as direct provider of primary health care. Weekly seminars will be conducted to discuss current topics. The students will be guided in the practicum by nurse practitioner and physician preceptors in a variety of clinical settings. Prerequisites: NURS 501, 503, 511, 512, 513, 531, 532, 533, 534

#### Simple Requisites

#### Completed Course Prerequisites

##### Type

Prerequisite

NURS 501 and NURS 503 and NURS 511 and NURS 512 and NURS 513 and NURS 531 and NURS 532 and NURS 533 and NURS 534

**Complete ALL of the following Courses:**

- NURS501 - Role Development and Theoretical Foundations of Advanced Practice
- NURS503 - Issues and Roles in Advanced Nursing Practice
- NURS511 - Pathophysiology for Advanced Practice
- NURS512 - Health Assessment and Diagnostics Evaluation for Advanced Practice
- NURS513 - Pharmacology & Alternative Therapeutics in Nursing Practice
- NURS531 - Clinical Management of the Pediatric Population
- NURS532 - Clinical Management of the Female Patient
- NURS533 - Clinical Management of the Adult Population
- NURS534 - Clinical Management of the Geriatric Population

**Additional Comments:**

## NURS550 - School Nursing and Diverse Learners

### Course Information

**Course Title**

School Nursing and Diverse Learners

<b>Subject code</b>	<b>Course Number</b>	<b>Academic Level</b>
NURS	550	Graduate

**Course Description**

Focus on the specialty practice area of school nursing, examining the role of the school nurse with emphasis on the special health needs of children in the school setting. Management and evaluation of the special health care needs of diverse learners are discussed with an understanding of the need for outcome criteria. Emphasis is placed on identifying accommodations and adaptations for diverse learners. An overview of common physiological and psychological diagnoses of the school age population are discussed as well as the legal responsibilities of the school nurse when caring for this diverse population.

## NURS560 - School Nursing Clinical Practicum

### Course Information

**Course Title**

School Nursing Clinical Practicum

<b>Subject code</b>	<b>Course Number</b>	<b>Academic Level</b>
NURS	560	Graduate

**Course Description**

Focus on the specialty practice area of school nursing. Laws pertaining to school nursing practice and legal considerations for school nurses are explored. Individualized health plans that address the special health needs of children in the school setting are developed. Management and evaluation of the comprehensive school health program are discussed with an understanding for the need of outcome criteria. Clinical experiences provide the student an opportunity to apply concepts learned in the various school nursing program courses in school health settings at both elementary and secondary levels. Prereq: Undergraduate: faculty permission; Graduate: Baccalaureate degree

**Simple Requisites**

**Course Prerequisites for Undergraduates**

**Type**

Prerequisite

Faculty Permission

**Must have permission of faculty.**

**Additional Comments:**

**Course Prerequisites for Graduates**

**Type**

Prerequisite

Baccalaureate Degree

**Must have a Baccalaureate degree.**

**Additional Comments:**

## NURS579 - Experimental Course

### Course Information

**Course Title**

Experimental Course

Subject code	Course Number	Academic Level
NURS	579	Graduate

#### Course Description

Experimental Course Number for Nursing

## NURS586 - Topics in Nursing

### Course Information

#### Course Title

Topics in Nursing

Subject code	Course Number	Academic Level
NURS	586	Graduate

#### Course Description

In-depth investigation and development of one or more topics of current interest in nursing that are not normally covered in regular courses. Topics/methods will vary according to the needs of students and faculty.

## NURS587 - Topics in Nursing

### Course Information

#### Course Title

Topics in Nursing

Subject code	Course Number	Academic Level
NURS	587	Graduate

#### Course Description

In-depth investigation and development of one or more topics of current interest in nursing that are not normally covered in regular courses. Topics/methods will vary according to the needs of students and faculty.

## NURS588 - Topics in Nursing

### Course Information

#### Course Title

Topics in Nursing

Subject code	Course Number	Academic Level
NURS	588	Graduate

#### Course Description

In-depth investigation and development of one or more topics of current interest in nursing that are not normally covered in regular courses. Topics/methods will vary according to the needs of students and faculty.

## NURS610 - School Nursing: Grades PK-4 Practicum

### Course Information

#### Course Title

School Nursing: Grades PK-4 Practicum

Subject code	Course Number	Academic Level
NURS	610	Graduate

#### Course Description

In this course, the focus is on the role of the school nurse in caring for students in grades PK-4. There is an emphasis on the nursing process as it is applied to the school age population while considering acute, chronic, and episodic illness and the overall healthcare needs of the PK-4 grade school population including those with special health needs, disabilities, diverse cultures, and English Language Learners. The physical, emotional, psychosocial, and developmental needs of the PK-4 grade population are explored. Interprofessional collaboration within the school nurse role in the elementary school setting is examined. This course provides 50 of the required 100 hours of practicum experience focusing on the PK-4 grade population under the guidance of a certified school nurse. Prereq: Current unencumbered RN License

#### Simple Requisites

#### Course Prerequisites

#### Type

Prerequisite

Current Unencumbered RN License

**Must have a current, unencumbered RN License.**

Additional Comments:

## NURS611 - School Nursing: Grades 5-12 Practicum

### Course Information

#### Course Title

School Nursing: Grades 5-12 Practicum

Subject code	Course Number	Academic Level
NURS	611	Graduate

#### Course Description

In this course, the focus is on the role of the school nurse in caring for students in grades 5-12. There is an emphasis on the nursing process as it is applied to the school age

population while considering acute, chronic, and episodic illness and the overall healthcare needs of the 5-12 grade school population including those with special health needs, disabilities, diverse cultures, and English Language Learners. The physical, emotional, psychosocial, and developmental needs of the 5-12 grade age population are explored. Interprofessional collaboration within the school nurse role in the middle and high school setting is examined. This course provides 50 of the required 100 hours of practicum experience focusing on the 5-12 grade population under the guidance of a certified school nurse. Prereq: Current unencumbered RN License

Simple Requisites

Course Prerequisites

Type

Prerequisite

Current Unencumbered RN License

Must have a current, unencumbered RN License.

Additional Comments:

NURS612 - School Nursing: Health Promotion and Disease Prevention

Course Information

Course Title		
School Nursing: Health Promotion and Disease Prevention		
Subject code	Course Number	Academic Level
NURS	612	Graduate

**Course Description**  
This course focuses on the school nurse's role in promotion of health in individuals and the school community with an emphasis on vulnerable populations. The integration of evidence-based practice and epidemiological approaches to promote consistent and equitable care for individuals and diverse populations in school communities is explored.

NURS613 - School Nursing: Considerations for the Needs of Diverse Learners and English Language Learners

Course Information

Course Title		
School Nursing: Considerations for the Needs of Diverse Learners and English Language Learners		

Subject code	Course Number	Academic Level
NURS	613	Graduate

**Course Description**  
This course focuses on the legal mandates of school nursing and how these laws affect the certified school nurse. There is an emphasis on the special health needs of children in the school setting and the nurse's role in identifying health and health education related accommodations and adaptations for diverse learners in order to support student health and promote optimal learning.

NURS630 - Effective Teaching: Theories and Methods in Nurse Ed

Course Information

Course Title		
Effective Teaching: Theories and Methods in Nurse Ed		
Subject code	Course Number	Academic Level
NURS	630	Graduate

**Course Description**  
Educational theories and methods are explored in this course. The advantages and challenges of technology-based teaching and learning are presented. Past and future trends in education are discussed. Theory and research findings about the learning process, the nature of the learner and the goals of instruction are discussed.

NURS631 - Measurement and Evaluation in Nurse Education

Course Information

Course Title		
Measurement and Evaluation in Nurse Education		
Subject code	Course Number	Academic Level
NURS	631	Graduate

**Course Description**  
This course introduces the student to the concepts of measurement and evaluation. Techniques in designing instructional objectives and test items are developed. Grading methods and test analysis are explored. The purpose of program evaluation is emphasized.

## NURS632 - Nursing Curriculum and Program Design

### Course Information

#### Course Title

Nursing Curriculum and Program Design

Subject code	Course Number	Academic Level
NURS	632	Graduate

#### Course Description

This course focuses on curriculum foundations, principles and issues. Through investigation and discussion, students learn about curriculum threads and designing effective programs. The importance of organizational mission and priority in relation to program development is emphasized.

## NURS633 - Nursing Education Practicum I

### Course Information

#### Course Title

Nursing Education Practicum I

Subject code	Course Number	Academic Level
NURS	633	Graduate

#### Course Description

This course provides an opportunity to integrate theory and practice through a practicum experience in nursing academic education. Focus is on the role of the nurse educator and the learning environment. Seminars will be conducted to discuss current topics related to nursing academic education. The students will be guided in the practicum by preceptors who are nurse educators in academia. (Prereq: N630; N631, N632)

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

NURS 630 and NURS 631 and NURS 632

#### Complete ALL of the following Courses:

- NURS630 - Effective Teaching: Theories and Methods in Nurse Ed
- NURS631 - Measurement and Evaluation in Nurse Education
- NURS632 - Nursing Curriculum and Program Design

#### Additional Comments:

## NURS634 - Nursing Education Practicum II

### Course Information

#### Course Title

Nursing Education Practicum II

Subject code	Course Number	Academic Level
NURS	634	Graduate

#### Course Description

This course provides an opportunity to integrate theory and practice through a practicum experience in nursing professional development. Focus is on the role of the nurse educator and the learning environment. Seminars will be conducted to discuss current topics related to nursing professional development. The students will be guided in the practicum by preceptors who are nurse educators in a professional development role. (Prereq: N630; N631, N632)

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

NURS 630 and NURS 631 and NURS 632

#### Complete ALL of the following Courses:

- NURS630 - Effective Teaching: Theories and Methods in Nurse Ed
- NURS631 - Measurement and Evaluation in Nurse Education
- NURS632 - Nursing Curriculum and Program Design

#### Additional Comments:

## NURS641 - Advanced Nursing Informatics

### Course Information

#### Course Title

Advanced Nursing Informatics

Subject code	Course Number	Academic Level
NURS	641	Graduate

#### Course Description

Advanced discussion the role and impact of the nursing informatics specialist. Analysis of the impact on health and safety (QSEN) outcomes, as well as the impact of the human-technology interaction is included. Additional focus on the

impact of technological and societal trends on patients and patient outcomes, as well as compliance and regulatory mandates.

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

NURS504

**Complete ALL of the following Courses:**

- NURS504 - Technology, Informatics & Professional Nursing Practice

**Additional Comments:**

NURS642 - Healthcare Informatics Systems Analysis and Design

Course Information

Course Title Healthcare Informatics Systems Analysis and Design		
Subject code	Course Number	Academic Level
NURS	642	Graduate

**Course Description**  
Focused on the impacts of knowledge discovery and meta-analysis of data trends to impact healthcare outcomes. Understanding workflow processes, informatics solutions and their interplay are core concepts address. Methods to synthesize knowledge, use decision support and outcomes management to support reimbursement and advanced nursing science are addressed.

NURS643 - Healthcare Project Management

Course Information

Course Title Healthcare Project Management		
Subject code	Course Number	Academic Level
NURS	643	Graduate

**Course Description**  
Examination of the role of design thinking and project management on operational architecture and information management. Consideration of the system life cycle to manage information exchange and accomplish key clinical operations.

NURS644 - Healthcare Data Science and Data Analytics

Course Information

Course Title Healthcare Data Science and Data Analytics		
Subject code	Course Number	Academic Level
NURS	644	Graduate

**Course Description**  
Introduction the principles of data science and data analytics in context of healthcare. Focus on use of data, data visualization, and data analysis to impact and improve patient care outcomes and healthcare workflow processes. Examination spans generation of quality data using common languages through analysis, application, and evaluation.

NURS645 - Practicum in Nursing Informatics

Course Information

Course Title Practicum in Nursing Informatics		
Subject code	Course Number	Academic Level
NURS	645	Graduate

**Course Description**  
This course provides an opportunity to integrate theory and practice through an intensive practicum experience. The practicum provides the opportunity for the nursing informatics student to develop advanced clinical experience within a selected population and/or setting (112 hours of practicum required).

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

NURS641 and NURS642 and NURS643 and NURS644

**Complete ALL of the following Courses:**

- NURS641 - Advanced Nursing Informatics
- NURS642 - Healthcare Informatics Systems Analysis and Design
- NURS643 - Healthcare Project Management
- NURS644 - Healthcare Data Science and Data Analytics

**Additional Comments:**

## NURS650 - Nursing Leadership and Administration

### Course Information

**Course Title**

Nursing Leadership and Administration

Subject code	Course Number	Academic Level
NURS	650	Graduate

**Course Description**

Focused on the integration of the conceptual and theoretical frameworks of leadership into the role of the nurse leader. The role of the nurse leader to support the full spectrum of healthcare is addressed and analyzed. Additional focus on the role of change theory, organizational development, and complex healthcare systems.

## NURS651 - Leading Quality and Safety

### Course Information

**Course Title**

Leading Quality and Safety

Subject code	Course Number	Academic Level
NURS	651	Graduate

**Course Description**

Focused on the role of the nurse leader in advancing the quality of patient care within complex healthcare systems. Investigates the impact of performance and quality improvement on patient safety. Using the guidelines developed by the Quality and Safety Education for Nurses (QSEN), methods to positively impact patient safety and care quality are discussed.

## NURS652 - Healthcare Financing and Value-Based Care

### Course Information

**Course Title**

Healthcare Financing and Value-Based Care

Subject code	Course Number	Academic Level
NURS	652	Graduate

**Course Description**

Focus on the healthcare industry's shift to value-based and risk-based reimbursement. Analysis of the impact of the change on every component of healthcare. Focused on high-value, cost-effective, and evidence-based measures that incorporate innovation, resource stewardship, and systems thinking. Examines new payment models, where reimbursement is tied directly to clinical, organizational, and consumer outcomes.

## NURS653 - Leading Others and Organizations

### Course Information

**Course Title**

Leading Others and Organizations

Subject code	Course Number	Academic Level
NURS	653	Graduate

**Course Description**

Focus on the essential competencies of the nurse leader in relation to communication, conflict management, employee development, and building relationships. Developing a business acumen through use of change management, decision-making strategies, and systems thinking. Additional emphasis on strategic planning, project management, and policy development.

## NURS654 - Nursing Leadership Practicum

### Course Information

**Course Title**

Nursing Leadership Practicum

Subject code	Course Number	Academic Level
NURS	654	Graduate

### Course Description

Provides an opportunity to integrate theory and practice through an intensive practicum experience. The practicum provides the opportunity for the nursing leadership students to engage in an advanced leadership experience within a selected setting (112 practicum hours required)

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

NURS650 and NURS651 and NURS652 and NURS653

#### Complete ALL of the following Courses:

- NURS650 - Nursing Leadership and Administration
- NURS651 - Leading Quality and Safety
- NURS652 - Healthcare Financing and Value-Based Care
- NURS653 - Leading Others and Organizations

#### Additional Comments:

## NURS686 - Topics in Nursing

### Course Information

#### Course Title

Topics in Nursing

Subject code	Course Number	Academic Level
NURS	686	Graduate

#### Course Description

In-depth investigation and development of one or more topics of current interest in nursing that are not normally covered in regular courses. Topics/methods will vary according to the needs of students and faculty.

## NURS687 - Topics in Nursing

### Course Information

#### Course Title

Topics in Nursing

Subject code	Course Number	Academic Level
NURS	687	Graduate

### Course Description

In-depth investigation and development of one or more topics of current interest in nursing that are not normally covered in regular courses. Topics/methods will vary according to the needs of students and faculty.

## NURS688 - Topics in Nursing

### Course Information

#### Course Title

Topics in Nursing

Subject code	Course Number	Academic Level
NURS	688	Graduate

#### Course Description

In-depth investigation and development of one or more topics of current interest in nursing that are not normally covered in regular courses. Topics/methods will vary according to the needs of students and faculty.

## NURS691 - Ind Stdy Adv Nursing Practice

### Course Information

#### Course Title

Ind Stdy Adv Nursing Practice

Subject code	Course Number	Academic Level
NURS	691	Graduate

#### Course Description

In-depth approach to an individually structured problem. Focus will vary according to the needs of students and faculty involved.

## NURS698 - Capstone Project

### Course Information

#### Course Title

Capstone Project

Subject code	Course Number	Academic Level
NURS	698	Graduate

#### Course Description

Capstone project is intended to be innovative, scholarly, and relevant to advanced nursing practice. It is completed under the supervision of an individual faculty member. Taken during last year of MSN curriculum courses.

### Simple Requisites

#### Course Prerequisites

**Type**

**Prerequisite**

NURS502 and NURS521 and NURS522

**Complete ALL of the following Courses:**

- NURS502 - Research and Evidence-Based Practice Methodology
- NURS521 - Clinical Management of the Young Family
- NURS522 - Clinical Management of the Mature Aging Family

**Additional Comments:**

## NURS699 - Foundations of Nursing Doctoral Study

### Course Information

**Course Title**

Foundations of Nursing Doctoral Study

Subject code	Course Number	Academic Level
NURS	699	Graduate

**Course Description**

Prepares students to be disciplined thinkers and effective communicators in order to develop the skills and competencies necessary for success in the DNP role. Emphasize on self-assessment of leadership strengths and emotional intelligence. Specific attention to the important of well-being and self-care for self and others. Guides development of a conceptual framework for the DNP role with a focus on identifying actionable problems in the healthcare setting.

## NURS700 - Transformational Leadership for DNPs

### Course Information

**Course Title**

Transformational Leadership for DNPs

Subject code	Course Number	Academic Level
NURS	700	Graduate

**Course Description**

Emphasizes the roles of the advanced practice nurse as a clinical scholar, clinical expert and as a leader in evidence-based practice and transformation of health care. Theories of leadership, change, transformation, and innovation diffusion

are examined. Systems theory, organizational and other mid-level theories are addressed. The interface between ethical and regulatory/legal obligations will be examined.

## NURS701 - Health Policy & Healthcare Economics

### Course Information

**Course Title**

Health Policy & Healthcare Economics

Subject code	Course Number	Academic Level
NURS	701	Graduate

**Course Description**

Emphasizes the roles of the advanced practice nurse as a clinical scholar, clinical expert and as a leader in evidence-based practice and transformation of health care. Evolution and need for doctoral education in nursing is considered. Theories of leadership change and transformation, and innovation diffusion are introduced. Systems theory, organizational and other mid-level theories are addressed. The interface between ethical and regulatory/legal obligations will be examined.

## NURS702 - Applied Research

### Course Information

**Course Title**

Applied Research

Subject code	Course Number	Academic Level
NURS	702	Graduate

**Course Description**

The relationships among basic and applied research, translational science, and evidence-based practice in healthcare settings are examined through this course. Research elements and methods are analyzed with an emphasis on research ethics and reading, interpreting, and evaluating quantitative and qualitative research studies that can be used to inform nursing practice.

**Simple Requisites**

**Course Prerequisites**

**Type**

**Prerequisite**

NURS700 and NURS701

**Complete ALL of the following Courses:**

- NURS700 - Transformational Leadership for DNP's
- NURS701 - Health Policy & Healthcare Economics

**Additional Comments:**

## NURS703 - Epidemiology and Health Promotion

### Course Information

**Course Title**

Epidemiology and Health Promotion

<b>Subject code</b>	<b>Course Number</b>	<b>Academic Level</b>
NURS	703	Graduate

**Course Description**

Focus on the integration of evidence-based practice and epidemiological approaches to promote consistent and equitable care for diverse populations. Data will be critically analyzed to identify barriers to equitable quality healthcare. Analyze epidemiological, biostatistical, occupational, and environmental data in the development, implementation, and evaluation of clinical prevention and population health. Additional focus will be placed on underserved populations, social determinants of health, and environmental health concerns.

## NURS704 - Complex Health Care Systems

### Course Information

**Course Title**

Complex Health Care Systems

<b>Subject code</b>	<b>Course Number</b>	<b>Academic Level</b>
NURS	704	Graduate

**Course Description**

Focus on the major theories and approaches to sustainable healthcare business practices. Key areas of interest include application of organizational theory and consideration of organizational culture. Focus on quality improvement and ensuring patient safety, with an emphasis on outcome indicators and the relationship among processes, outcomes and costs.

## NURS705 - Evidence-Based Practice Process

### Course Information

**Course Title**

Evidence-Based Practice Process

<b>Subject code</b>	<b>Course Number</b>	<b>Academic Level</b>
NURS	705	Graduate

**Course Description**

Focuses on developing the necessary skills needed for applying EBP processes within the context of a practice setting, health care organization, or community. Provides the foundation for the DNP Capstone experience. Emphasis on the scholarly, systematic evidenced-based practice approach to problem-solving. The relationship between nursing interventions and patient outcomes is examined and opportunities for improvement are sought.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

NURS 702

**Complete ALL of the following Courses:**

- NURS702 - Applied Research

**Additional Comments:**

## NURS706 - Statistical Methods

### Course Information

**Course Title**

Statistical Methods

<b>Subject code</b>	<b>Course Number</b>	<b>Academic Level</b>
NURS	706	Graduate

**Course Description**

Exploration of statistical methods commonly used by advanced practice nurses to understand human health patterns. Descriptive and inferential statistics are applied through the use of statistical software packages and manipulation of datasets. Appraisal of appropriateness of research methods and techniques is included.

## NURS707 - Scholarly Project Design Seminar

### Course Information

#### Course Title

Scholarly Project Design Seminar

Subject code	Course Number	Academic Level
NURS	707	Graduate

#### Course Description

Focus is on the design and defense of the student's proposed capstone project. Integration of foundational courses to develop, design and successfully defend the proposed capstone project. Seminar style allows for increased interaction with faculty advisors and course peers. 3 cr; 1 cr lecture 2 cr (110 hours) clinical.

of specified outcome measures. Students will engage in their select area of practice to enact the previously approved scholarly project. Taught via independent instruction with the assigned project advisor.

#### Simple Requisites

#### Course Prerequisites

#### Type

Prerequisite

NURS 705

#### Complete ALL of the following Courses:

- NURS705 - Evidence-Based Practice Process

#### Additional Comments:

## NURS708 - Informatics and Data Management

### Course Information

#### Course Title

Informatics and Data Management

Subject code	Course Number	Academic Level
NURS	708	Graduate

#### Course Description

Design, select, and use information systems/technology to evaluate programs of care, outcomes of care, and care systems. Examine how information systems/technology provide a mechanism to apply budget and productivity tools, practice information systems and decision supports, and web-based learning or intervention tools to support and improve patient care.

## NURS710 - Transforming Healthcare

### Course Information

#### Course Title

Transforming Healthcare

Subject code	Course Number	Academic Level
NURS	710	Graduate

#### Course Description

This culminating course reflects the student's ability to assume a leadership role, employ effective communication and collaboration skills, evaluate practice, and successfully negotiate transformational change in the healthcare setting. Special attention is paid to the theoretical underpinnings and the broader implications of the capstone projects.

## NURS711 - Scholarly Evidence-Based Practice Evaluation and Dissemination

### Course Information

#### Course Title

Scholarly Evidence-Based Practice Evaluation and Dissemination

Subject code	Course Number	Academic Level
NURS	711	Graduate

#### Course Description

Focus is on the evaluation and completion of the student's scholarly project, including statistical analysis of the specified outcome measures. Analysis and application of the findings in the context of the greater healthcare system is essential.

## NURS709 - Scholarly Project Design and Implementation

### Course Information

#### Course Title

Scholarly Project Design and Implementation

Subject code	Course Number	Academic Level
NURS	709	Graduate

#### Course Description

Focus is on the design, defense, and implementation of the student's scholarly project. Integration of foundational courses to develop, design and successfully defend the proposed scholarly project. Students also engage in implementation of the scholarly project, as well as collection

Emphasis on dissemination of results and sustainability of project. Taught via independent instruction with the assigned project advisor.

#### Simple Requisites

##### Course Prerequisites

##### Type

##### Prerequisite

NURS 709

##### Complete ALL of the following Courses:

- NURS709 - Scholarly Project Design and Implementation

##### Additional Comments:

## NURS712 - Foundation of Nursing Education

### Course Information

#### Course Title

Foundation of Nursing Education

Subject code	Course Number	Academic Level
NURS	712	Graduate

#### Course Description

Focus on developing and refining knowledge and skills associated with teaching at a college or university. Focus on the purpose and structure of higher education, process of preparing and managing a course, the teaching strategies to achieve student learning outcomes, methods for assessing student learning outcomes, and the work of a faculty member beyond teaching responsibilities (teaching, scholarship, and service).

## NURS786 - Topics: Clin Adv Doct Nsg Prac

### Course Information

#### Course Title

Topics: Clin Adv Doct Nsg Prac

Subject code	Course Number	Academic Level
NURS	786	Graduate

#### Course Description

In-depth clinical practice in the current interest or need in advanced nursing which are not normally covered in regular courses. This clinical topics course will vary according to the needs of students and faculty involved.

## NURS787 - Topic Adv Doct Nsg Pract

### Course Information

#### Course Title

Topic Adv Doct Nsg Pract

Subject code	Course Number	Academic Level
NURS	787	Graduate

#### Course Description

In depth investigation and development of one or more topics of current interest in advanced nursing which are not normally covered in current courses. Special topics to be covered and methods used will vary according to the needs of students and faculty involved.

## NURS791 - Ind Stdy: Doct Nurs Practice

### Course Information

#### Course Title

Ind Stdy: Doct Nurs Practice

Subject code	Course Number	Academic Level
NURS	791	Graduate

#### Course Description

In-depth approach to an individually structured problem. Focus will vary according to the needs of students and faculty involved.

## NURS799 - Appl Supervsn:Schl Hlth Srvcs

### Course Information

#### Course Title

Appl Supervsn:Schl Hlth Srvcs

Subject code	Course Number	Academic Level
NURS	799	Graduate

#### Course Description

Provides field experiences in a school setting, with emphasis on the comprehensive role of school health services supervision, methods for personnel evaluation, observing and supervising school health personnel budget, staff in-service development, health curriculum evaluation, and school health program assessment/revision and community relations. Prereq: EDSU 700, 701 and 703.

#### Simple Requisites

##### Type

##### Prerequisite

EDSU 700 and EDSU 701 and EDSU 703

**Complete ALL of the following Courses:**

- EDSU700 - Functions Supervision

- EDSU701 - Administrative Supervision
- EDSU703 - Curriculum and Supervision

**Additional Comments:**

## Philosophy Department

Philosophical study presents an occasion to develop critical life skills that prepare students for a wide horizon of career choices and professional opportunities as they learn to address and think through a complex world of both longstanding and emergent issues. Our programs are designed to acquaint and familiarize students with a pluralistic range of ideas, problems, and thinkers. Course offerings include Dr. Chuck Ward's "Knowledge, Reality and Science Fiction," Dr. Jen Miller's "Love & Sexuality," and Dr. Kaiser Ortiz's "Global Ethics & Social Justice." The formal study of philosophy through any one of our four programs provides students with experiences, skills, and resources that become pathways to competitive law school admissions, graduate schools, and other areas of study and practice after college. Philosophy courses are open to all students.

### FACULTY LIST

**Kaiser Ortiz, John;** Associate Professor

College of Arts, Humanities and Social Sciences

B.A., University of Texas-Pan American, 1999; M.A., University of Oregon, 2005; Ph.D., Ibid., 2007

**Miller, Jennifer;** Assistant Professor

College of Arts, Humanities and Social Sciences

B.S., Portland State University, 1986; Ph.D., University of Oregon, 1994

**Ward, Charles;** Professor

College of Arts, Humanities and Social Sciences

B.S., California State University at Long Beach, 1985; M.A., Ibid., 1989; M.A., Johns Hopkins University, 1992; Ph.D., Ibid., 2001

## Programs

### Ethics and Society Minor

#### Overview

The Minor in Ethics and Society focuses on a range of topics and problems, including Biomedical Ethics, Business and Professional Ethics, Environmental Ethics, Food Ethics, Global Justice, Human Rights, and others. Today's rapidly changing social and technological circumstances generate increased need for citizens and professionals to better understand the principles and applications of ethics, and to be able to critically analyze the implications of these rapid developments. The purpose of the program is to provide students and community professionals with the opportunity to supplement their disciplinary and technical training by advancing their moral reasoning skills.

#### Curriculum

##### Simple Requisites

*Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours

with a minimum Millersville QPA of 2.0.

2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

#### Minor in Ethics and Society (18 credits)

Choose 6.0 credit hours of philosophy electives in consultation with your adviser.

**Additional Comments:**

## Philosophy, B.A.

### Overview

A Philosophy degree from Millersville University will provide students with a strong grounding in the history of philosophy as well as training in philosophical analysis and writing. Such training is one of the best ways to develop critical thinking and communicative skills applicable to many professional fields. While some philosophy majors go on to graduate studies in philosophy itself, the major is also excellent preparation for a wide variety of life and career paths, including law, theology, business, cognitive science, literary professions, politics and public advocacy.

### Curriculum

- PHIL381 - Global Ethics & Social Justice
- PHIL460 - Philosophy of Law & Human Rights

AND

Nature, Society & Global Thought (6 credits)

**Earn at least 6 credits from the following:**

- PHIL201 - Philosophical Psychology
- PHIL291 - Black, Latin & Native Am Phil.
- PHIL313 - World Religions
- PHIL314 - Philosophy of Science
- PHIL322 - Modern Philosophy
- PHIL345 - Humanity and Environment
- PHIL361 - Asian Philosophy
- PHIL373 - Knowledge, Reality & Sci Fict
- PHIL391 - Gender, Utopia, Human Nature
- PHIL401 - Philosophy and Neuroscience
- PHIL407 - Political and Social Philosophy
- PHIL347 - Phil of City, Tech & Public Health

AND

Electives (9 credits)

Choose 9 credits of Philosophy electives in consultation with your adviser. Any course offered by the department, included courses listed in the categories above not used to satisfy those requirements, can be applied here. [Search the schedule by subject](#) to find available PHIL courses.

A minimum of 15 credits in the major must be taken at the 300 or 400 level.

Additional Comments:

Certificate in Ethics and Society

Overview

The Ethics and Society Certificate program will provide students with the opportunity to engage in critical study of the philosophical underpinnings of various ethical theories and the application of those principles to a range of contexts. The curriculum for the program includes, along with a general introductory course, classes in Biomedical Ethics, Business and Professional Ethics, Environmental Philosophy/Ethics, Food Ethics, Global Ethics and Social Justice, and others. Through such courses students will develop expertise and skills in critical ethical reasoning in application to diverse contexts. Think about it and you will see the value for yourself: Employers nowadays both want and need to hire college students who have taken courses in philosophy and ethics. The work of professionals today demands it.

Subject code	Course Number	Academic Level
PHIL	471	Undergraduate

#### Course Description

Explores the core philosophical issues concerning theories of truth, knowledge and objective values. Emphasizes the development of the skills of critical reading and writing as well as performing philosophical research. May be taken any number of times for credit. Offered annually. Prereq: ENGL 110 and 3 credits in PHIL at the 200 level or higher or permission of instructor.

## Physics Department

The Department of Physics offers several programs leading to the baccalaureate degree with a major in physics. The course structure recommended by the department is essentially identical during the first two years of all programs so that a revision in a student's plan need not involve any loss of time.

The Bachelor of Science degree in physics involves the greatest depth in physics and mathematics. This program prepares the student for employment in a technical position upon graduation and also provides a solid foundation for entrance into a graduate program in physics or other technical field.

The B.S. Ed. program in secondary education prepares students for careers in precollege teaching, providing certification in physics.

Outstanding students majoring in physics may pursue departmental honors during their senior year. Participation in the departmental honors program is highly selective and offers students in each of our major programs an opportunity to strengthen their background in physics and to work closely with a faculty mentor on an extended research project. General information on departmental honors is found in the Special Academic Opportunities section of this catalog. Specific requirements for honors in each of our major programs are available from the department chairperson.

Two minor programs are also available for students who do not elect to major in physics. The physics minor offers students an exposure to physics through the intermediate level of our major program. In addition, there is also available an interdisciplinary minor in physics and earth sciences.

The department has prepared a student handbook which provides more detailed information on our programs, faculty and resources. This handbook, as well as additional information on any of the above programs, is available from the physics department.

FACULTY LIST
<b>Dushkina, Natalia;</b> Professor College of Science and Technology B.S., University of Sofia (Bulgaria), 1984; M.S., Ibid., 1984; Ph.D., Bulgarian Academy of Sciences, 1993
<b>Gilani, Tariq;</b> Professor College of Science and Technology B.Sc., University of the Punjab (Pakistan), 1986; M.Sc., Ibid., 1989; M.S., Quaid-i-Azam University (Pakistan), 1991; Ph.D., Kyoto University (Japan), 1997
<b>Goksu, Mehmet;</b> Professor College of Science and Technology B.S., Istanbul Technical University (Turkey), 1991; Ph.D., Case Western Reserve University, 2002
<b>Hendrick, Sean;</b> Associate Professor College of Science and Technology B.A., University of Virginia, 1994; Ph.D., North Carolina State University, 2003
<b>Li, Xin;</b> Associate Professor College of Science and Technology B.Sc., Beijing Institute of Tech., 2006; M.S., Ibid., 2008; M.S., Mississippi State University, 2008; M.S., Ibid., 2011; Ph.D., Ibid., 2010
<b>Uy, Zenaida;</b> Professor College of Science and Technology B.S., University of the Philippines, 1964; M.A., State University of New York at Stony Brook, 1969; Ph.D., Ibid., 1972

## Programs

### Physics Post-Baccalaureate Certification

#### Overview

For post-baccalaureate information please see the "Certification" section of the Graduate Course Catalog.

### Curriculum

#### Simple Requisites

**Major in Physics, Post-Bacc Certification (39 credits)**  
**Type**  
 Completion Requirement

### Requirements

#### Fulfill ALL of the following requirements:

Requirements

Credits Required for Major

AND

Minimum GPA

Earn a minimum GPA of 2.0

AND

Required Physics Courses (39 credits)

#### Fulfill ALL of the following requirements:

Required Courses (39 credits)

##### Complete ALL of the following Courses:

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus
- PHYS233 - Wave-Particle Theory
- PHYS266 - Electronics
- PHYS311 - Mechanics 1
- PHYS321 - Electromagnetic Fields 1
- PHYS331 - Fundamentals of Optics
- PHYS334 - Macroscopic Physics
- PHYS351 - Intermediate Physics Lab 1
- PHYS352 - Intermediate Physics Lab 2
- PHYS395 - Techniques of Mathematical Physics
- PHYS451 - Advanced Physics Lab 1
- PHYS471 - Quantum Mechanics
- PHYS492 - Physics Research and Seminar
- PHYS498 - Independent Study/Research

#### Additional Comments:

Req Related for Physics, Post-Bacc Certification (30 credits)

Type

Completion Requirement

Requirements

#### Fulfill ALL of the following requirements:

Mathematics (15 credits)

#### Fulfill ALL of the following requirements:

Calculus I or Calculus Honors (4 credits)

##### Earn a minimum grade of C- in the following:

- MATH161 - Calculus 1

AND

Required Courses (8 credits)

##### Complete ALL of the following Courses:

- MATH211 - Calculus 2
- MATH311 - Calculus 3

AND

Ord Diff Equations (3 credits)

##### Complete ALL of the following Courses:

- MATH365 - Ordinary Differential Equations

AND

Chemistry (8 credits)

##### Complete ALL of the following Courses:

- CHEM111 - Introductory Chemistry 1
- CHEM112 - Introductory Chemistry 2
- OR CSCI151 - Intro to Programming for Data Science I

AND

Earth Science or Physics Elective (7 credits)

#### Fulfill ALL of the following requirements:

Intro to Astronomy & Astrophysics (3 credits)

##### Complete ALL of the following Courses:

- PHYS317 - Introduction to Astronomy

AND

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- ESCI241 - Meteorology

**Additional Comments:**

**Professional Education - Certification (33 credits)**

**Type**

**Completion Requirement**

**Requirements**

**Fulfill ALL of the following requirements:**

Foundations Bloc (6 credits)

**Fulfill ALL of the following requirements:**

Foundations of Modern Education (3 credits)

**Complete at least 1 of the following courses:**

- EDFN590 - Social Foundation of Educ
- EDFN211 - Foundations Modern Education  
**OR** EDFN211H - H: Foundations Modern Education

**AND**

Psychological Foundations of Teaching (3 credits)

**Complete at least 1 of the following courses:**

- EDFN545 - Advanced Educational Psychology
- EDFN241 - Psychological Foundations of Teaching  
**OR** EDFN241H - Hon:Psychological Foundations of Teaching

We recommend 590 and 545 for Post-Bacc students. These courses each require 35 hours field placement at an urban school. Offered in the evenings Fall and Spring. Also offered in Summer Session. If enrolling in EDFN211 Foundations Modern Education/241 and please register for both courses in the same block.

**AND**

Professional Bloc (15 credits)

**Fulfill ALL of the following requirements:**

Instructional Technology, Design & Assessment (3 credits)

**Complete at least 1 of the following courses:**

- EDFN530 - Instructional Technology, Design and Assessment
- EDFN330 - Instructional Technology, Design & Assessment

**AND**

Issues in Secondary Education (3 credits)

**Complete at least 1 of the following courses:**

- EDSE521 - Issues in Second Education
- EDSE321 - Issues in Secondary Education  
**OR** EDSE321H - H: Issues in Secondary Education

**AND**

Content Area Literacy for Diverse Classrooms (3 credits)

**Complete at least 1 of the following courses:**

- EDSE340 - Content Area Literacy for Diverse Classrooms
- EDSE540 - Cntnt Area Litrcy Divers Class

**AND**

Secondary Students w/Disabilities in Inclusive Settings (3 credits)

**Complete at least 1 of the following courses:**

- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings
- SPED546 - Sec Stdnts w Disab Inclu Sttgs

**AND**

Required Courses (3 credits)

**Complete ALL of the following Courses:**

- EDSE435 - Teaching of Science in Secondary Schools

Students must meet APS eligibility requirements prior to registering. Course Appropriate PRAXIS II Exam should be taken after Professional Bloc, but prior to Student Teaching.

AND

Student Teaching Seminar (3 credits)

**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar

File your Intent to Student Teach Card one year prior to the beginning of the semester in which you wish to Student Teach. [View the Student Teaching Website.](#)

AND

Student Teaching Semester (9 credits)

**Complete ALL of the following Courses:**

- EDSC461 - Student Teaching in Science
- EDSC462 - Student Teaching in Science

Students must meet APS eligibility requirements prior to registering. Submit your Teacher Certification Packet 90 days prior to completion of your certification program. [Access the packet on the Certification Website.](#)

**Additional Comments:**

### Advanced Professional Studies - Post-Bacc Cert (6 credits)

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Course Requirements for APS: Foundations Courses (6 credits)

**Complete at least 1 of the following:**

Option 1. Foundations Graduate Level

**Complete ALL of the following Courses:**

- EDFN590 - Social Foundation of Educ
- EDFN545 - Advanced Educational

Psychology

OR

Option 2. Foundations Undergraduate Level

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

APS Status

Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

**Additional Comments:**

## Physics Minor

### Overview

A minor in physics is a great option for students in any STEM field that is interested a deeper understanding of the physical principles that form the basis of chemistry, biology, astronomy, and earth sciences. It is also a good choice for students interested in pursuing advanced degrees in any of those fields.

### Curriculum

#### Simple Requisites

#### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current

University-wide General Education requirements subject to normal distribution requirements.

- At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
- No course needed for the minor may be taken Pass-Fail.
- One-half or more of the work required for the minor must be completed at Millersville University.
- No student may minor in his or her major.

**Requirements**

**Type**

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Calculus Sequence Requirement

Completion of the Calculus sequence (MATH161 Calculus 1, MATH211 Calculus 2, MATH311 Calculus 3) is a prerequisite for the minor in Physics.

AND

Required Courses

**Complete ALL of the following Courses:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus
- PHYS233 - Wave-Particle Theory
- PHYS334 - Macroscopic Physics

AND

Physics Elective Course

**Complete at least 1 of the following courses:**

- PHYS311 - Mechanics 1
- PHYS317 - Introduction to Astronomy
- PHYS321 - Electromagnetic Fields 1
- PHYS331 - Fundamentals of Optics
- PHYS395 - Techniques of Mathematical Physics
- PHYS431 - Solid State Physics
- PHYS435 - Statistical Mechanics
- PHYS471 - Quantum Mechanics

**Additional Comments:**

Physics, B.S.Ed.

Overview

This program is for students who wish to become certified public-school teachers for grades 7-12. The course requirements in Physics and Education are designed to meet the standards set by the Pennsylvania Department of Education for teachers.

Curriculum

Simple Requisites

**Major in Physics, BSE (32-33 credits)**

**Type**

Completion Requirement

Minimum GPA

**Earn a minimum GPA of 2.0**

Requirements

- Credits Required for Major
- Minimum Residency 50% of Major credits

Requirements

**Fulfill ALL of the following requirements:**

Required Physics Courses

**Fulfill ALL of the following requirements:**

Required Physics Courses (10 credits)

**Earn a minimum grade of C- in the following:**

- PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

AND

Required Physics Courses (19 credits)

**Complete ALL of the following Courses:**

- PHYS233 - Wave-Particle Theory
- PHYS266 - Electronics
- PHYS311 - Mechanics 1
- PHYS321 - Electromagnetic Fields 1
- PHYS334 - Macroscopic Physics

- PHYS351 - Intermediate Physics Lab 1
- PHYS352 - Intermediate Physics Lab 2
- PHYS492 - Physics Research and Seminar
- PHYS498 - Independent Study/Research

AND

Physics Required Elective: Meteorology or Intro to Astronomy (3-4 credits)

**Complete at least 1 of the following courses:**

- ESCI241 - Meteorology
- PHYS317 - Introduction to Astronomy

**Additional Comments:**

### Professional Education (33 credits)

Type

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Educational Foundations (6 credits)

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

Required Education Courses (9 credits)

**Complete ALL of the following Courses:**

- EDSE321 - Issues in Secondary Education  
OR EDSE321H - H: Issues in Secondary Education
- EDFN330 - Instructional Technology, Design & Assessment
- EDSE435 - Teaching of Science in Secondary Schools

AND

Accommodations and Adaptations (6 credits)

**Complete ALL of the following Courses:**

- EDSE340 - Content Area Literacy for Diverse Classrooms
- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings

AND

Student Teaching (12 credits)

**Complete ALL of the following Courses:**

- EDSE471 - Student Teaching Seminar
- EDSC461 - Student Teaching in Science

**Additional Comments:**

### Req Related for Physics, BSE (23-24 credits)

Completion Requirement

Requirements

**Fulfill ALL of the following requirements:**

Chemistry and Computer Science

**Fulfill ALL of the following requirements:**

Required Courses (4 credits)

**Complete ALL of the following Courses:**

- CHEM111 - Introductory Chemistry 1

AND

Introductory Chemistry II or Intro to Prog Data Science (4 credits)

**Complete at least 1 of the following courses:**

- CHEM112 - Introductory Chemistry 2
- CSCI151 - Intro to Programming for Data Science I

AND

## Mathematics

### Fulfill ALL of the following requirements:

Calculus I or Calculus Honors (4-5 credits)

### Complete at least 1 of the following:

Calculus I (4 credits)

### Earn a minimum grade of C- in the following:

- MATH161 - Calculus 1

OR

Calculus Honors (5 credits)

### Complete ALL of the following Courses:

- MATH163H - Honors Calculus 1

AND

Required Courses (4 credits)

### Earn a minimum grade of C- in the following:

- MATH211 - Calculus 2

AND

Required Courses (7 credits)

### Complete ALL of the following Courses:

- MATH311 - Calculus 3
- MATH365 - Ordinary Differential Equations

### Additional Comments:

## Advanced Professional Studies, BSE

### Type

### Completion Requirement

### Requirements

### Fulfill ALL of the following requirements:

English Composition (3 credits)

### Complete at least 1 of the following courses:

- ENGL110 - Introduction to College Writing

- ENGL110H - Hnrs:Introduction to College Writing

AND

English Literature (3 credits)

### Complete at least 1 of the following courses:

- ENGL230 - Introduction to Literature
- ENGL231 - World Literature 1
- ENGL232 - World Literature 2
- OR ENGL232H - Hnrs: World Literature 2
- ENGL233 - Early British Literature
- ENGL234 - Later British Literature
- ENGL235 - American Literary Tradition I
- ENGL236 - American Literary Tradition II
- ENGL241H - H:Explorations in World Lit
- ENGL242 - Reading Our World:
- OR ENGL242H - Hnrs: Reading Our World:
- ENGL292 - Science Fiction
- OR ENGL292H - Hon: Science Fiction
- ENGL333 - African-American Literature 1
- ENGL333H - Hnrs:African-American Literature 1
- ENGL334 - African American Literature 2
- ENGL334H - Hnrs:African American Literature 2
- ENGL336 - New Dimensions to World Lit
- ENGL338 - Folklore and Literature
- OR ENGL338H - H:Folklore and Literature
- ENGL401 - Old Eng Lang and Literature
- ENGL402 - Middle Eng Lang and Literature

AND

## Mathematics

Two Mathematics courses are required for BSE students. It is preferable to take two courses designated as G2. [Search for MATH courses on the current web schedule.](#)

[BIOL375 Biometry](#) will fulfill one Mathematics course for BSE BIOL students.

AND

Required Courses (6 credits)

**Complete ALL of the following Courses:**

- EDFN211 - Foundations Modern Education  
OR EDFN211H - H: Foundations Modern Education
- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

AND

ACT 126 - Educator Ethics Training  
You must submit your Educator Ethics Training.

AND

APS Status  
Must have APS (Advanced Professional Studies) status. [View information on applying for APS Status.](#)

Additional Comments:

Physics, B.S.

Overview

The B.S. (Bachelor of Science) degree in physics demands the most intense concentration of physics and mathematics. Most Physics majors also complete a Minor in Mathematics. Upper-level Physics courses include Electromagnetic Fields, Mechanics, Thermodynamics, Electronics, and Quantum Physics. Students balance lecture courses with extensive laboratory courses that lead to our capstone experience of a two-semester Senior Research project which often results in presentations of their work at local, regional, and national conferences.

Students graduating with the B.S. in Physics go on to graduate school in physics, engineering, and other related fields, while many go directly into the technical workplace.

Curriculum

Simple Requisites

Major in Physics, BS (28-30 credits)

Type

Courses

PHYS101 - Survey of Physics

Course Information

Course Title  
Survey of Physics

Subject code	Course Number	Academic Level
PHYS	101	Undergraduate
<b>Course Description</b>		
An elementary treatment of fundamental concepts of classical and modern physics. Selected examples from classical mechanics, electromagnetism, thermodynamics, relativity and		

quantum mechanics. The solving of numerical problems is de-emphasized. 3 hr. lec. and discussion. No credit in block G2 for majors in the School of Science and Mathematics. Credit will be granted for only one of the courses: PHYS 101, 103 or 104. Offered in spring. Prereq: MATH placement at the 100 level or above.

## PHYS103 - Elements of Physics

### Course Information

#### Course Title

Elements of Physics

Subject code	Course Number	Academic Level
PHYS	103	Undergraduate

#### Course Description

An elementary treatment of fundamental concepts of classical and modern physics. Selected examples from classical mechanics, electromagnetism, thermodynamics, relativity and quantum mechanics. The solving of numerical problems is de-emphasized. 3 hrs. lec., 2 hrs. lab. No credit in block G2 for majors in the following departments: Biology, Chemistry, Computer Science, Earth Science, Math or Physics. Credit will be granted for only one of the courses: PHYS 101, 103 or 104. Offered in fall, periodically in spring.

#### General Education Labels

G2, Lab (L)

## PHYS103H - Hnrs:Elements of Physics

**Additional Comments:**

## PHYS117 - General Astronomy

### Course Information

#### Course Title

General Astronomy

Subject code	Course Number	Academic Level
PHYS	117	Undergraduate

### Course Description

Astronomy for a general audience; emphasis on the physical nature of the universe. Terrestrial astronomy, light, telescopes, spectra, stars, stellar evolution, galaxies, cosmology, the solar system. 3 hrs. lec. and discussion. No credit in block G2 for majors in the School of Science and Mathematics. Offered in fall, spring.

### General Education Labels

G2

## PHYS131 - Physics 1 with Algebra

### Course Information

#### Course Title

Physics 1 with Algebra

Subject code	Course Number	Academic Level
PHYS	131	Undergraduate

### Course Description

An introductory algebra-based course. Fundamental laws and properties of matter, mechanics and heat. Problems dealing with these laws. 3 hrs. lec., 1 hr. recitation and 2 hrs. lab. Prereq: MATH 101 or MPT score sufficient for the student to enroll in MATH courses above MATH 110. Offered fall, summer.

### General Education Labels

G2, Lab (L)

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

MATH 101

#### Complete ALL of the following Courses:

- MATH101 - College Algebra

Or MPT score sufficient for the student to enroll in MATH courses above MATH 110.

#### Additional Comments:

Experimental

## PHYS198 - Seminar In Physics

### Course Information

#### Course Title

Seminar In Physics

Subject code	Course Number	Academic Level
PHYS	198	Undergraduate

### Course Description

An overview of the history, practice, philosophy and unity of physics and its application to other disciplines, orienting beginning physics majors to the study of physics. Mandatory for, and only open to, physics majors in their freshman year. 1 hr. discussion. Offered in fall.

## PHYS132 - Physics 2 with Algebra

### Course Information

#### Course Title

Physics 2 with Algebra

## PHYS205 - Musical Acoustics

### Course Information

Course Title

Musical Acoustics

Subject code	Course Number	Academic Level
PHYS	205	Undergraduate

#### Course Description

Intended for musicians dealing with the physical nature of sound and sound sources, and the relation of these to music and musical instruments. The use of mathematics is kept to a minimum. 2 hrs. lec., recitation, 2 hrs. lab. Offered in spring. Prereq: MUSI 112.

#### General Education Labels

G2, Lab (L)

#### Simple Requisites

##### Course Prerequisites

###### Type

Prerequisite

MUSI 112

###### Complete ALL of the following Courses:

- MUSI112 - Kodaly Solfege, Harmony and Analysis 1

MATH 161

###### Earn a minimum grade of C- in the following:

- MATH161 - Calculus 1

##### Additional Comments:

## PHYS230H - Hnrs:General Physics Seminar

### Course Information

Course Title

Hnrs:General Physics Seminar

Subject code	Course Number	Academic Level
PHYS	230H	Undergraduate

#### Course Description

The ideas of introductory physics in extended depth, in the language of calculus, using problems, laboratory exercises, readings and discussion. Grades of B- or higher in both PHYS 231 and PHYS 230H will result in honors designation for the pair. The pair of courses counts as one entry in the science component of the curriculum record form and results in six hours of general education credit. Coreq: Concurrent registration in PHYS 231 required and either good standing in the Honors College or a 3.35 GPA or permission of instructor.

## PHYS232 - Physics 2 with Calculus

### Course Information

Course Title

Physics 2 with Calculus

Subject code	Course Number	Academic Level
PHYS	232	Undergraduate

#### Course Description

Continuation of PHYS 231. An introductory course in classical physics dealing with electricity, magnetism and optics. 3 hrs. lec., 1 hr. recitation, one 3-hr. lab. Offered in fall, spring, summer. Prereq: C- or higher in PHYS 231. Coreq: MATH 211.

#### General Education Labels

G2, Lab (L)

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

PHYS 231

**Earn a minimum grade of C- in the following:**

- PHYS231 - Physics 1 with Calculus

**Additional Comments:**

**Course Corequisites**  
**Type**  
Corequisite

MATH 211

**Enroll in the following Courses:**

- MATH211 - Calculus 2

**Additional Comments:**

## PHYS232H - Hon: Physics 2 with Calculus

### Course Information

Course Title

Hon: Physics 2 with Calculus

Subject code	Course Number	Academic Level
PHYS	232H	Undergraduate

#### General Education Labels

G2, Lab (L)

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

PHYS 231

**Earn a minimum grade of C- in the following:**

- PHYS231 - Physics 1 with Calculus

**Additional Comments:**

**Course Corequisites**  
**Type**  
Corequisite

MATH 211

**Enroll in the following Courses:**

- MATH211 - Calculus 2

**Additional Comments:**

## PHYS233 - Wave-Particle Theory

### Course Information

Course Title

Wave-Particle Theory

Subject code	Course Number	Academic Level
PHYS	233	Undergraduate

#### Course Description

Selected topics from the areas of waves and optics, special relativity, an introduction to the concepts and development of modern physics and single-particle quantum mechanics. 3 hrs. lec. Offered in spring. Prereq: C- or higher in PHYS 232. Coreq: MATH 311.

#### Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

PHYS 232

**Earn a minimum grade of C- in the following:**

- PHYS232 - Physics 2 with Calculus

**Additional Comments:**

### Course Corequisites

#### Type

Corequisite

MATH 311

#### Enroll in the following Courses:

- MATH311 - Calculus 3

Additional Comments:

## PHYS266 - Electronics

### Course Information

Course Title

Electronics

Subject code	Course Number	Academic Level
PHYS	266	Undergraduate

#### Course Description

The fundamentals of analog devices and their application to electronic circuits. Operational amplifiers, power supplies, semi-conductor devices, oscillators, and an introduction to integrated circuits. One 4-hour Lecture and Lab per week. Prereq: PHYS 132 or 232. Coreq: MATH 161. Offered in spring.

#### Simple Requisites

### Course Prerequisites

#### Type

Prerequisite

PHYS 132 or PHYS 232

#### Complete ANY of the following Courses:

- PHYS132 - Physics 2 with Algebra
- PHYS232 - Physics 2 with Calculus

Additional Comments:

### Course Corequisites

#### Type

Corequisite

MATH 161

#### Enroll in the following Courses:

- MATH161 - Calculus 1

Additional Comments:

## PHYS279 - Experimental

### Course Information

Course Title

Experimental

Subject code	Course Number	Academic Level
PHYS	279	Undergraduate

#### Course Description

Experimental

## PHYS279H - Experimental

### Course Information

Course Title

Experimental

Subject code	Course Number	Academic Level
PHYS	279H	Undergraduate

Experimental Course for Honors Credit

## PHYS300 - Co-Op Ed Experience in Physics

### Course Information

Course Title

Co-Op Ed Experience in Physics

Subject code	Course Number	Academic Level
PHYS	300	Undergraduate

#### Course Description

Co-Op Ed Experience in Physics

## PHYS302 - Physics and Evolution of Western Civilization

### Course Information

Course Title

Physics and Evolution of Western Civilization

Subject code	Course Number	Academic Level
PHYS	302	Undergraduate

#### Course Description

The history of the mechanization of the world picture. A study of physics in the evolution of Western civilization and thought relating the impact of the Newtonian revolution on technology, society and thought. 3 hrs. lec. and discussion. Offered periodically. Prereq: a physical science course, COMM 100, ENGL 110 and junior status.

General Education Labels

Perspectives (P)

Simple Requisites

**Course Prerequisites**  
**Type**  
Prerequisite

ENGL 110 or ENGL 110H and COMM 100 or COMM 100H

**Complete ALL of the following Course Sets:**

- ENGL 110 and COMM 100

Credit Hours Completion (Junior or Senior Class Standing)

**Earn at least 60 credits**

Physical Science Course

**Must have taken a physical science course.**

**Additional Comments:**

PHYS302H - H:Physics and Evolution of Western Civilization

Course Information

Course Title  
H:Physics and Evolution of Western Civilization

Subject code	Course Number	Academic Level

**Earn at least 60 credits**

Physical Science Course

**Must have taken a physical science course.**

**Additional Comments:**

PHYS311 - Mechanics 1

Course Information

Course Title  
Mechanics 1

Subject code	Course Number	Academic Level
PHYS	311	Undergraduate

**Course Description**  
Lectures, problems and demonstrations developing the fundamental principles and concepts of classical mechanics, including Newtons laws of motion in three dimensions, conservation laws, linear and nonlinear oscillating systems, gravitation and central force problems. 3 hrs. lec. Offered in fall. Prereq: C- or higher in PHYS 232. Coreq: MATH 365.

**Simple Requisites**

**Course Prerequisites**  
**Type**  
Prerequisite

PHYS 232

**Earn a minimum grade of C- in the following:**

- PHYS232 - Physics 2 with Calculus

**Additional Comments:**

**Course Corequisites**  
**Type**  
Corequisite

MATH 365

**Enroll in the following Courses:**

- MATH365 - Ordinary Differential Equations

**Additional Comments:**

# PHYS312 - Mechanics 2

## Course Information

Course Title

Mechanics 2

Subject code	Course Number	Academic Level
PHYS	312	Undergraduate

### Course Description

A continuation of PHYS 311. Includes classical analysis of rigid body motion, noninertial frames of reference, Lagrangian and Hamiltonian dynamics, systems of coupled oscillators, plus special topics. 3 hrs. lec. Offered in spring. Prereq: PHYS 311.

### Simple Requisites

**Course Prerequisites**

Type  
Prerequisite

PHYS 311

**Complete ALL of the following Courses:**

- PHYS311 - Mechanics 1

**Additional Comments:**

# PHYS317 - Introduction to Astronomy

## Course Information

Course Title

Introduction to Astronomy

Subject code	Course Number	Academic Level
PHYS	317	Undergraduate

### Course Description

An overview of astronomy and astrophysics for students majoring in the sciences or mathematics, emphasizing selected areas such as terrestrial astronomy, celestial mechanics, stellar evolution, cosmology and the solar system. 3 hrs. lec. Offered in fall of odd years. Prereq: a year of collegelevel physics and calculus.

### Simple Requisites

**Course Prerequisites**

Type  
Prerequisite

MATH161 and MATH211 and PHYS131 and PHYS132 or PHYS231 and PHYS232

### Complete ALL of the following Courses:

- MATH161 - Calculus 1
- MATH211 - Calculus 2
- PHYS131 - Physics 1 with Algebra
- PHYS132 - Physics 2 with Algebra  
OR PHYS231 - Physics 1 with Calculus
- PHYS232 - Physics 2 with Calculus

Year of College-Level Physics and Calculus

**Must have one year of college-level Physics and Calculus**

**Additional Comments:**

# PHYS321 - Electromagnetic Fields 1

## Course Information

Course Title

Electromagnetic Fields 1

Subject code	Course Number	Academic Level
PHYS	321	Undergraduate

### Course Description

Electrostatic and magnetic fields in vacuum and in dielectric and magnetic materials. Maxwells equations are developed. 3 hrs. lec. Prereq: PHYS 232. Coreq: MATH 365.

### Simple Requisites

**Course Prerequisites**

Type  
Prerequisite

PHYS 232

**Complete ALL of the following Courses:**

- PHYS232 - Physics 2 with Calculus

**Additional Comments:**

### Course Corequisites

Type

Corequisite

MATH 365

### Enroll in the following Courses:

- MATH365 - Ordinary Differential Equations

**Additional Comments:**

## PHYS322 - Electromagnetic Fields 2

### Course Information

**Course Title**

Electromagnetic Fields 2

Subject code	Course Number	Academic Level
PHYS	322	Undergraduate

#### Course Description

Consequences of Maxwells equations. Solutions to Laplaces equation, electromagnetic radiation and relativistic electrodynamics are discussed. 3 hrs. lec. Offered in fall. Prereq: PHYS 321. Coreq: PHYS 335.

#### Simple Requisites

##### Course Prerequisites

**Type**

Prerequisite

PHYS 321

**Complete ALL of the following Courses:**

- PHYS321 - Electromagnetic Fields 1

**Additional Comments:**

##### Course Corequisites

**Type**

Corequisite

PHYS 335

**Enroll in the following Courses:**

- PHYS335 - Quantum Systems

**Additional Comments:**

## PHYS331 - Fundamentals of Optics

### Course Information

**Course Title**

Fundamentals of Optics

Subject code	Course Number	Academic Level
PHYS	331	Undergraduate

### Course Description

Lab-based course in physical optics, including applications of geometrical optics such as image formation by mirrors and lenses, microscopy, reflection, refraction, and basic phenomena in wave and quantum optics such as interference, diffraction, color mixing and filtration, polarization, birefringence, absorption, dispersion, scattering, laser properties and laser application. 1 hr. lec., 3 hrs. lab. Offered in fall. Prereq: PHYS 232 or PHYS 132 and MATH 211.

#### Simple Requisites

##### Course Prerequisites

**Type**

Prerequisite

PHYS 232 or PHYS 132 and MATH 211

**Complete ALL of the following Courses:**

- PHYS232 - Physics 2 with Calculus  
OR PHYS132 - Physics 2 with Algebra
- MATH211 - Calculus 2

**Additional Comments:**

## PHYS334 - Macroscopic Physics

### Course Information

**Course Title**

Macroscopic Physics

Subject code	Course Number	Academic Level
PHYS	334	Undergraduate

#### Course Description

Lectures, problems and demonstrations which develop the basic ideas of classical continuum physics and the macroscopic behavior of solids, liquids and gases, including an introduction to fluid dynamics, stress-strain relationships in solids, electric and magnetic properties of materials, phase transitions, superconductivity and the classical laws of thermodynamics. 3 hrs. lec. and discussion. Offered in spring. Prereq: C- or higher in PHYS 232. Coreq: MATH 311.

#### Simple Requisites

##### Course Prerequisites

**Type**

Prerequisite

PHYS 232

**Earn a minimum grade of C- in the following:**

- PHYS232 - Physics 2 with Calculus

**Additional Comments:**

#### Course Corequisite

##### Type

Corequisite

MATH 311

##### Enroll in the following Courses:

- MATH311 - Calculus 3

**Additional Comments:**

## PHYS335 - Quantum Systems

### Course Information

#### Course Title

Quantum Systems

Subject code	Course Number	Academic Level
PHYS	335	Undergraduate

#### Course Description

Multi-electron atoms, statistical mechanics of classical and quantum systems and introduction to nuclear physics. Principles are applied to selected examples. 3 hrs. lec. Offered in fall. Prereq: PHYS 233, 334.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

PHYS 233 and PHYS 334

##### Complete ALL of the following Courses:

- PHYS233 - Wave-Particle Theory
- PHYS334 - Macroscopic Physics

**Additional Comments:**

Subject code	Course Number	Academic Level
PHYS	345	Undergraduate

#### Course Description

Symbolic computational methods involving procedural, functional, rule-based programming and pattern matching using the graphical and numerical capabilities of Mathematica or other integrated mathematical software systems, with applications to a broad range of computationally challenging problems in physics. Offered in fall of odd years. Prereq: PHYS 233. Coreq: PHYS 311 and MATH 365.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

PHYS 233

##### Complete ALL of the following Courses:

- PHYS233 - Wave-Particle Theory

**Additional Comments:**

#### Course Corequisites

##### Type

Corequisite

PHYS 311 and MATH 365

##### Enroll in the following Courses:

- PHYS311 - Mechanics 1
- MATH365 - Ordinary Differential Equations

**Additional Comments:**

## PHYS351 - Intermediate Physics Lab 1

### Course Information

#### Course Title

Intermediate Physics Lab 1

Subject code	Course Number	Academic Level
PHYS	351	Undergraduate

#### Course Description

Selected Experiments in classical and modern physics introducing a variety of experimental techniques. 3 hours lab. Prereq: PHYS 232 and either PHYS 266 or CSCI 370. Offered in fall.

## PHYS345 - Symbolic Computational Methods

### Course Information

#### Course Title

Symbolic Computational Methods

Simple Requisites

Course Prerequisites

Type

Prerequisite

PHYS 232 and PHYS 266 or CSCI 370

Complete ALL of the following Courses:

- PHYS232 - Physics 2 with Calculus
- PHYS266 - Electronics

OR CSCI370 - Computer Architecture

Additional Comments:

PHYS351H - H:Intermediate Physics Lab 1

- PHYS266 - Electronics

OR CSCI370 - Computer Architecture

Additional Comments:

PHYS352 - Intermediate Physics Lab 2

Course Information

Course Title		
Intermediate Physics Lab 2		
Subject code	Course Number	Academic Level
PHYS	352	Undergraduate

Course Description

Continuation of PHYS 351. 3 hrs. lab. Offered in spring.  
Prereq: PHYS 351.

Simple Requisites

Course Prerequisites

Type

Prerequisite

PHYS 351

Complete ALL of the following Courses:

- PHYS351 - Intermediate Physics Lab 1

Additional Comments:

PHYS360 - Circuit Analysis

Course Information

Course Title		
Circuit Analysis		
Subject code	Course Number	Academic Level
PHYS	360	Undergraduate

Course Description

Mathematical analysis of linear circuits in the complex domain. Differential equations, operators, transfer functions, Laplace transforms and computer simulation with SPICE. 4 hrs. lec. Offered infrequently. Prereq: PHYS 266 and MATH 365.

Simple Requisites

Course Prerequisites

Type

Prerequisite

PHYS 266 and MATH 365

Complete ALL of the following Courses:

- PHYS266 - Electronics
- MATH365 - Ordinary Differential Equations

Additional Comments:

PHYS365 - Digital Electronics

Course Information

Course Title		
Digital Electronics		
Subject code	Course Number	Academic Level
PHYS	365	Undergraduate

## Course Description

Introduction to digital electronics and microprocessors. Design and analysis of combinatorial and sequential digital circuits, microcomputer interfacing and assembly programming. Two 3-hr. labs. Offered infrequently. Prereq: CSCI 140 or permission of instructor.

## Simple Requisites

### Course Prerequisites

#### Type

Prerequisite

CSCI 140

#### Complete ALL of the following Courses:

- CSCI140 - Discrete Structures

Or must have permission of instructor.

### Additional Comments:

## PHYS366 - Analog Electronic Circuits

### Course Information

#### Course Title

Analog Electronic Circuits

Subject code	Course Number	Academic Level
PHYS	366	Undergraduate

#### Course Description

Continuation of PHYS 266. Analysis and design of microelectronic circuits. Analytical treatment of discrete and integrated analog and digital circuits. 3 hrs. lec. Offered infrequently. Prereq: PHYS 266, 360 or permission of instructor.

## Simple Requisites

### Course Prerequisites

#### Type

Prerequisite

PHYS 266 and PHYS 360 or permission of instructor

#### Complete ALL of the following Courses:

- PHYS266 - Electronics
- PHYS360 - Circuit Analysis

### Additional Comments:

## PHYS379 - Experimental

### Course Information

#### Course Title

Experimental

Subject code	Course Number	Academic Level
PHYS	379	Undergraduate

#### Course Description

Experimental

## PHYS395 - Techniques of Mathematical Physics

### Course Information

#### Course Title

Techniques of Mathematical Physics

Subject code	Course Number	Academic Level
PHYS	395	Undergraduate

#### Course Description

Treatment of advanced mathematical techniques such as complex analysis, matrices, Fourier series, calculus of variations, special functions and integral transforms applied to selected areas of physics. Offered in spring. Prereq: PHYS 233, MATH 365.

## Simple Requisites

### Course Prerequisites

#### Type

Prerequisite

PHYS 233 and MATH 365

#### Complete ALL of the following Courses:

- PHYS233 - Wave-Particle Theory
- MATH365 - Ordinary Differential Equations

### Additional Comments:

## PHYS395H - Hon: Techniques of Mathematical Physics

### Course Information

#### Course Title

Hon: Techniques of Mathematical Physics

Subject code	Course Number	Academic Level
PHYS	395H	Undergraduate

Simple Requisites

**Course Prerequisites**  
Type  
Prerequisite

PHYS 233 and MATH 365

**Complete ALL of the following Courses:**

- PHYS233 - Wave-Particle Theory
- MATH365 - Ordinary Differential Equations

**Additional Comments:**

PHYS400 - Co-Op Ed Experience in Physics

Course Information

Course Title  
Co-Op Ed Experience in Physics

Subject code	Course Number	Academic Level

**Course Description**  
Co-Op Ed Experience in Physics

PHYS431 - Solid State Physics

Course Information

Course Title  
Solid State Physics

Subject code	Course Number	Academic Level
PHYS	431	Undergraduate

**Course Description**  
Classical and quantum analyses of solid matter. Topics include crystal structure, the reciprocal lattice and X-ray diffraction; mechanical propertiesphonons; semiclassical analysis of electrical and magnetic properties of insulators and metals; electron band theory of metals, insulators and semiconductors. 3 hrs. lec. Offered in spring of odd years. Prereq: PHYS 335.

Simple Requisites

**Course Prerequisites**  
Type  
Prerequisite

PHYS 335

**Complete ALL of the following Courses:**

- PHYS335 - Quantum Systems

**Additional Comments:**

PHYS435 - Statistical Mechanics

Course Information

Course Title  
Statistical Mechanics

Subject code	Course Number	Academic Level
PHYS	435	Undergraduate

**Course Description**  
Lectures, problems, and computer simulations developing the fundamental principles of classical and quantum statistical mechanics. Subjects include probability theory, the foundations of ensemble development, and their application to classical, Fermi, and Bose systems. Of special interest is the phenomenology of phase transitions and the modern development of the renormalization group. Prereq: PHYS 334.

Simple Requisites

**Course Prerequisites**  
Type  
Prerequisite

PHYS 334

**Complete ALL of the following Courses:**

- PHYS334 - Macroscopic Physics

**Additional Comments:**

PHYS451 - Advanced Physics Lab 1

Course Information

Course Title  
Advanced Physics Lab 1

Subject code	Course Number	Academic Level
PHYS	451	Undergraduate

**Course Description**  
Selected experiments in classical and modern physics, with opportunities to apply sophisticated techniques to extended experimental problems. Prereq: PHYS 352.

## Simple Requisites

### Course Prerequisites

#### Type

Prerequisite

PHYS 352

#### Complete ALL of the following Courses:

- PHYS352 - Intermediate Physics Lab 2

Additional Comments:

## PHYS452 - Advanced Physics Lab 2

### Course Information

Course Title

Advanced Physics Lab 2

Subject code	Course Number	Academic Level
PHYS	452	Undergraduate

#### Course Description

Continuation of PHYS 451. 3 hrs. lab. Offered in spring.

Prereq: PHYS 451.

## Simple Requisites

### Course Prerequisites

#### Type

Prerequisite

PHYS 451

#### Complete ALL of the following Courses:

- PHYS451 - Advanced Physics Lab 1

Additional Comments:

## PHYS462 - Advanced Electronics

### Course Information

Course Title

Advanced Electronics

Subject code	Course Number	Academic Level
PHYS	462	Undergraduate

## Course Description

Microprocessor applications and interfacing, real-time programming. Topics are selected from computer design, control loops, phase-locked loops and communications. Two 3-hr. labs. Offered infrequently. Prereq: PHYS 266, 365 or permission of instructor.

## Simple Requisites

### Course Prerequisites

#### Type

Prerequisite

PHYS 266 and PHYS 365 or permission of instructor

#### Complete ALL of the following Courses:

- PHYS266 - Electronics
- PHYS365 - Digital Electronics

Additional Comments:

## PHYS471 - Quantum Mechanics

### Course Information

Course Title

Quantum Mechanics

Subject code	Course Number	Academic Level
PHYS	471	Undergraduate

#### Course Description

An introduction to formal quantum theory in terms of operators in Hilbert space and Dirac notations which will be used in finding the solutions of eigenvalue problems of several potentials, addition of angular momenta, dynamics of spin 1/2 particle, and introduction to perturbation theory. Prereq: PHYS 233, MATH 322, and MATH 365 or permission of instructor. Offered fall of even year.

## Simple Requisites

### Course Prerequisites

#### Type

Prerequisite

PHYS 233 and MATH 322 and MATH 365 or permission of instructor

#### Complete ALL of the following Courses:

- PHYS233 - Wave-Particle Theory
- MATH322 - Linear Algebra 1
- MATH365 - Ordinary Differential Equations

Additional Comments:

## PHYS479 - Experimental

Course Description  
Honors Course

## PHYS492 - Physics Research and Seminar

### Course Information

Course Title  
Physics Research and Seminar

Subject code	Course Number	Academic Level
PHYS	492	Undergraduate

Course Description  
The first semester of an independent research experience supervised by a faculty mentor. Attendance at weekly seminars is also required. Offered in fall. Prereq: PHYS 335 and 351.

#### Simple Requisites

Course Prerequisites

Type

Prerequisite

PHYS 335 and PHYS 351

Complete ALL of the following Courses:

- PHYS335 - Quantum Systems
- PHYS351 - Intermediate Physics Lab 1

Additional Comments:

## PHYS495 - Topics in PHYS

### Course Information

Course Title  
Topics in PHYS

Subject code	Course Number	Academic Level
PHYS	495	Undergraduate

Course Description  
Selected topics chosen from the areas across physics including astronomy and astrophysics, classical physics, theoretical physics, applied physics, and modern physics. Permission of instructor. Offered infrequently.

#### Simple Requisites

Course Prerequisites

Type

Prerequisite

PHYS233 and MATH365

Complete ALL of the following Courses:

- PHYS233 - Wave-Particle Theory
- MATH365 - Ordinary Differential Equations

Instructor Permission

Must have permission of instructor.

Additional Comments:

## PHYS495H - H: Topics in PHYS

Co-Op Ed Experience in Physics

Subject code	Course Number	Academic Level
PHYS	500	Graduate

#### Course Description

Co-Op Ed Experience in Physics

## Psychology Department

The Department of Psychology offers a B.A. degree in psychology, double majors with sociology and philosophy, a departmental honors program and a selection of elective courses for all Millersville University students. Psychology majors, through departmental advisement, usually plan a program that leads to one of three goals:

1. graduate with a bachelor's degree and enter the human service field;
2. graduate with a bachelor's degree and enter the business/industrial field; or
3. graduate with a bachelor's degree and enter graduate school for advanced study in psychology or related fields.

A minor in psychology is also available to undergraduate students. It provides a general survey of the field and training in psychological research methods.

Some undergraduate psychology courses are open to liberal arts and teacher education students. However, some laboratory, specialized and upper-level courses are open only to psychology majors and minors.

The cooperative education program in psychology is an optional arrangement whereby students combine practical on-the-job experience with their formal classroom instruction. The co-op program is available to all psychology majors who satisfy the departmental admissions requirements. For further information, see Cooperative Education in the Special Academic Opportunities section of this catalog.

## Departmental Policies

The Admission to the Major Policy and the Retention in the Major Policy apply to all majors enrolled in the psychology B.A. program.

### Admission to the Major Policy

Current students at Millersville University will be permitted to declare psychology as a major only if they have a CGPA of 2.25 or higher, based on at least 15 credit hours, including PSYC 100 General Psychology, and if space is available. Decisions to accept new majors are based in part on space available and hence are competitive based upon previous academic performance, both in psychology courses and overall, and on math preparation. Readmitted students must have a 2.25 or higher CGPA at Millersville University in order to be admitted to the psychology major.

### Retention in the Major Policy

At the end of each semester, the psychology department will review the academic performance of its majors. If any student with zero to 59.5 earned credits has a CGPA below 2.0, he/she will be notified by the department that he/she has been placed on probation in the major status for the semester in which notification is made. The department will specify minimal achievement during the probationary semester to continue in the major. If the student is not successful in meeting the requirements during the probationary semester, he/she will be removed from the major.

Students must successfully complete PSYC 100 General Psychology, PSYC 211 Principles of Statistics and Experimental Design 1 and two core electives prior to completing 90 credit hours.

### Completion of the Major Policy

Students must earn a C- or higher in all required psychology courses as defined in the catalog and curriculum (blue) sheet. The policy currently applies to the 15 credits of coursework required in the major (PSYC 100 General Psychology, PSYC 211 Principles of Statistics and Experimental Design 1, PSYC 212 Principles of Statistics and Experimental Design 2 and an Advanced Lab—currently one of PSYC 314 Adv. Lab Cognitive Psychology, PSYC 315 Adv Lab Sensation & Perception, PSYC 316 Adv Lab Learn Beh Analysis, PSYC 327 Adv Lab in Developmental Science) but not to elective courses (core or general) taken to complete their psychology requirements.

Students must complete at least three capstone credits. To be eligible for capstone credits, psychology majors must have earned at least 75 credits and have completed or be enrolled in their advanced laboratory course. The following can be taken for capstone credit:

### Course List

Code Title Hours

PSYC 454 History and Systems of Psych 3

PSYC 455 Seminar in Psychology 1-3

PSYC 495 Directed Projects in Psych 1-6

PSYC 489 Honors Course 1-4

PSYC 490 Honors Seminar 1

PSYC 499 Departmental Honors 1-4

PSYC 498 Independent Study in Psych 1-4

COOP 300

### Policy Regarding Advanced Placement (AP) Credit in Psychology

Entering students who receive a score of 3 on the Advanced Placement (AP) Examination in Psychology shall be awarded three credits for an elective course designated as a 100-level PSYC course. Entering students who receive a score of 4 or 5 on the AP examination shall be awarded three credits for PSYC 100 General Psychology.

### Pass/Fail Restriction on Courses for Psychology Majors and Minors

Psychology majors may not take any psychology courses or any required related courses on a pass/fail basis. Psychology minors may not take any psychology courses on a pass/fail basis.

### **Policy on Credit Restriction for Developmental Psychology Courses**

The psychology department offers three undergraduate developmental psychology courses: PSYC 227 Development of the Child and Adolescent, PSYC 228 Life Span Human Development and PSYC 229 Psychology of Aging. Credit is awarded for any one of the individual courses. Credit is also awarded for the combination of PSYC 227 Development of the Child and Adolescent and PSYC 229 Psychology of Aging, but not for any other combination of developmental psychology courses.

### **Policy Regarding Cooperative Education and Directed Projects in Psychology**

A limit of six s.h. of cooperative education (PSYC 300 Co-Op Ed Experience in Psyc, PSYC 400 Co-Op Ed Experience in Psyc or PSYC 495 Directed Projects in Psych) or any combination of the two may be taken by a student and counted in the psychology major. In unusual circumstances, and with written permission of the student's faculty advisor, the directed projects instructor and the department of psychology's cooperative education advisor, up to six additional s.h. may be taken; however, these credits may not be counted toward the psychology major.

Programs

School Psychology, Ed.S.

Overview

The education specialist degree program in school psychology is a 64-credit graduate course of study, leading to certification in school psychology in the Commonwealth of Pennsylvania. The program is fully approved by the National Association of School Psychology. Upon completion of a specified 30 credit hours of coursework, a Master of Science (M.S.) in Psychology, School Psychology, is awarded. Following successful completion of the program, which includes a 1200-hour internship, the candidate is recommended for certification as a school psychologist to the Pennsylvania Department of Education. Students may also transfer graduate coursework or a master’s degree in psychology or a related area into the program. When that is the case, a review of previous work will be conducted to determine which competencies have been met and the remaining program requirements.

Curriculum

Simple Requisites

**Major in School Psychology**

Type

Completion Requirement

School Psychology Master's Competencies

**Fulfill ALL of the following requirements:**

Core Competency Examination

Must pass the Core Competency Exam for the School Psychology Program.

AND

Admission to degree candidacy

Students must meet the following requirements for degree candidacy: Pass all core with B- or higher; Pass the Core Competency Exam and Receive a satisfactory evaluation from the psychology department graduate committee.

AND

Required Courses (30 credits)

**Complete ALL of the following Courses:**

- PSYC530 - Child Development within the Family System
- PSYC612 - Research Design & Statistical Analysis
- PSYC600 - Professional Seminar
- PSYC631 - Psychotherapy and Intervention Skills
- PSYC536 - Applications of Biopsychology
- PSYC547 - Applied Social Psychology
- PSYC540 - Applied Behavior Analysis in a MTSS
- SPED600 - Introduction to Exceptional Education
- RDED621 - Foundations of Reading and Writing
- EDUC671 - Curriculum Development in the School

Educational Specialist Coursework

**Fulfill ALL of the following requirements:**

Required Courses (22 credits)

**Complete ALL of the following Courses:**

- PSYC671 - Cognitive Achve & Adapt Assess
- PSYC672 - Academic Assess & Intervention in MTSS
- PSYC674 - Assessment of English Language Learners
- PSYC675 - Behavioral Assessment Child/ Adolescent
- PSYC646 - Consultation
- PSYC634 - Child Psychopathology and Intervention
- PSYC685 - Practicum and Seminar in School

Psychology

AND

Elective (3 credits)

**Complete at least 1 of the following courses:**

- GFED670 - Psychology of the Gifted
- ECHD611 - Affective and Psychmtr Emphasis
- EDUC561 - Second Language Acquisition: Theory, Programs & Assessment
- EDFN545 - Advanced Educational Psychology
- EDFN590 - Social Foundation of Educ
- EDFN604 - Education and Public Policy
- PSYC517 - Tests and Measurements
- PSYC527 - Childhood Disorders
- PSYC537 - Ethics and Professional Practice
- PSYC630 - Group Work: Theory & Intervention
- PSYC633 - Systems of Psychotherapy
- PSYC635 - Psychopathology
- PSYC637 - Theories of Family Dynamics
- PSYC638 - Cognitive Behavioral Therapies
- PSYC699 - Thesis:
- SCCN630 - Multicultural Counseling
- SCCN657 - Brief Counseling
- SPED680 - Diagnostic and Assessment Strategies for Students with Disabilities

AND

Internship and Seminar in School Psychology (9 credits)

**Earn at least 9 credits from the following:**

- PSYC686 - Internship and Seminar in School Psychology

**Additional Comments:**

the student is awarded a Master of Education degree in school counseling. Following successful completion of the remaining coursework and fieldwork, the student is certified as a preK-12 school counselor in the Commonwealth of Pennsylvania.

In order to be considered for an interview, applicants are required to have a minimum of six semester hours in undergraduate or graduate psychology. Applicants must also be computer literate.

Prerequisite courses in psychology may be in process during the semester in which application to the program is submitted. In this case, evidence that the coursework is currently being taken (either in the form of a mid-semester grade report or a letter from the instructor) must be submitted with the program application. In addition, experience with children in applied settings is preferred.

## Master of Education in School Counseling

1. Provisional acceptance
2. All coursework completed and School Counseling Competency Project passed
3. Pre-internship portfolio completed
4. Recommendation of graduate faculty
5. Admission to degree candidacy

## Psychology/Clinical Psychology, M.S

### Overview

The clinical program is designed for students who wish to pursue a career in mental health, functioning as counselors and clinicians. It also prepares students for further graduate study. It emphasizes the development of assessment and psychotherapeutic skills through coursework and supervised experience with clients in the department's training clinic, and through internships in local mental-health agencies and hospitals. Students wishing to pursue licensure as a professional counselor after graduation are advised to complete the clinical program with the following courses, which may be helpful when taking the National Counselor Exam (NCE): [SCCN630 Multicultural Counseling](#) Multicultural Counseling; [SCCN645 Career Development](#) Career Development; and [PSYC537 Ethics & Professional Practice](#) Ethics and Professional Practice. Students are advised to obtain 60 graduate credits in order to meet educational requirements for licensure.

## Psychology/School Psychology, M.S.

### Overview

The Master's Degree in Psychology program (M.S.) is a 30-credit graduate course of study, which is required for admission into the Education Specialist (Ed.S.) Program in School Psychology. The M.S. program will provide the foundational theories, knowledge, and research methods of psychology, which will serve as a base for the Ed.S. in School Psychology. The program is fully approved by the National Association of School Psychology. Upon completion of the specified 30 credit hours of coursework, a M.S. in Psychology, School Psychology, is awarded. This M.S. degree in Psychology, School, does not certify the candidate for practice as a school psychologist in public schools. Following successful completion of the M.S. program, candidates continue to earn 34 additional credits, which includes a 1200-hour internship. The candidate then earns an Ed.S. in School Psychology and is recommended for certification as a school psychologist to the Pennsylvania Department of Education. Students may also transfer graduate coursework or a master's degree in psychology or a related area into the program. When that is the case, a review of previous work will be conducted to determine which competencies have been met and the remaining program requirements.

**Additional Comments:**

## Behavioral Health and Counseling Graduate Certificate

### Overview

The certificate provides a clear pathway for post-baccalaureate students to navigate foundational coursework necessary for the development of counseling skills in behavioral health and school settings. The selected courses in the certificate program represent an array of topics including observation and measurement of behaviors, growth and development over the lifespan, the assessment, treatment, and prevention of maladaptive behaviors, and the process and practice of counseling.

## Psychology Minor

### Overview

A minor in psychology provides students with an introduction to the foundational principles of human behavior and research methods in psychology. Students who are interested in the minor should know that some courses require successful completion of prerequisites (i.e., PSYC and MATH courses) and to consult with their advisor before applying to the minor.

## Curriculum

### Simple Requisites

#### Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

#### Minor in Psychology

AND

##### Psychology Electives (12 credits)

Choose a minimum of 4 courses/12 credits of Psychology electives in consultation with your Psychology minor advisor. At least two courses must be on the 300-400 level. [Search the web schedule for current courses](#). PSYC 1XX from AP credit may not be counted as it is considered a lower-level duplicate of PSYC 100 which is required.

#### Additional Comments:

## Behavioral and Human Services, B.A.

### Overview

The Behavioral and Human Services (BA) is designed for students who desire to improve the quality of life for others in applied settings, such as nonprofits, community programs, behavioral health and healthcare systems, educational support services, counseling and social services, and other client-focused agencies and government settings. The degree prepares graduates for a breadth of human services occupations. The program provides an interdisciplinary curriculum with a strong behavioral foundation grounded in psychological principles and theory. The degree requires 40 credit hours of interdisciplinary coursework including a capstone field experience and 9 credit hours (total) in required related courses in anthropology, communications and sociology.

## Psychology, B.A.

### Overview

Millersville University's Psychology BA prepares students to be well versed in many aspects of psychology, qualifying them for graduate school or a job in an incredibly diversified field. The program exposes students to both the humanistic and the more traditional experimental approaches to the study of behavior. Curriculum flexibility allows psychology majors to prepare for graduate training in psychology and related fields, or for employment in a variety of human service or business and industrial areas. Through learning experiences in and out of the classroom, our undergraduate program prepares students who are well-versed in psychological theories and scientific methodologies and who demonstrate cultural sensitivity and embrace a variety of points of view.

- You must successfully complete two required courses and two core electives prior to completing 90 credits hours to be retained in the PSYC major

Minimum GPA

**Earn a minimum GPA of 2.0**

Requirements

**Fulfill ALL of the following requirements:**

Overview of Psychology (3 credits)

**Earn a minimum grade of C- in the following:**

- PSYC100 - General Psychology  
OR PSYC100H - Hnrs:General Psychology

AND

Methods in Psychology (8 credits)

**Complete ALL of the following Courses:**

- PSYC211 - Principles of Statistics and Experimental Design 1
- PSYC212 - Principles of Statistics and Experimental Design 2

PSYC211 Statistics and Exper Design 1 must be successfully completed prior to completing 90 credits hours to be retained in the PSYC Major.

— AND —

**Advanced Laboratory Course (4 credits)**

**Earn a minimum grade of C- in the following:**

- PSYC314 - Adv. Lab Cognitive Psychology
- PSYC315 - Adv Lab Sensation & Perception
- PSYC316 - Adv Lab Learn Beh Analysis
- PSYC327 - Adv Lab in Developmental Science

— AND —

**Psychology Core Electives (9-15 credits)**

**Complete at least 4 of the following courses:**

- PSYC215 - Intro to Physiological Psychology
- PSYC216 - Intro Learn Beh Analysis
- PSYC227 - Development of the Child and Adolescent  
OR PSYC227H - Hnrs:Development of the Child and Adolescent
- PSYC228 - Life Span Human Development
- PSYC229 - Psychology of Aging
- PSYC314 - Adv. Lab Cognitive Psychology
- PSYC315 - Adv Lab Sensation & Perception
- PSYC316 - Adv Lab Learn Beh Analysis
- PSYC317 - Social Psychology  
OR PSYC317H - HNRS: Social Psychology
- PSYC327 - Adv Lab in Developmental Science
- PSYC329 - Industrial Psychology  
OR PSYC329H - Hon: Industrial Psychology
- PSYC335 - Personality Theory  
OR PSYC335H - H:Personality Theory
- PSYC337 - Abnormal Psychology  
OR PSYC337H - H:Abnormal Psychology
- PSYC356 - Health Psychology

- PSYC417 - Tests and Measurements
- PSYC454 - History and Systems of Psych

PSYC227 Developmnt Child and Adolescent and PSYC229 Psychology of Aging may both be taken for credit and however and both are equivalent to PSYC228 Life Span Human Development and so credit will not be given for either of these courses in combination with PSYC228 Life Span Human Development. Only one of these courses may count as a Core Elective.

— AND —

**Psychology General Electives (6 credits)**

**Earn at least 6 credits from the following:**

- PSYC205 - Psychology Misconceptions
- PSYC234 - Human Relations
- PSYC246 - Evolutionary Psychology
- PSYC256 - Psychology Human Adjustment  
OR PSYC256H - Hon: Psychology Human Adjustment
- PSYC311 - Psychology of Drug Addiction  
OR PSYC311H - H:Psychology of Drug Addiction
- PSYC318 - Psychology of Racism  
OR PSYC318H - H:Psychology of Racism
- PSYC326 - Human-Animal Bond
- PSYC328 - Psycholgy and Religion
- PSYC346 - Applied Behavior Analysis  
OR PSYC346H - H: Applied Behavior Analysis
- PSYC350 - Cognitive Science  
OR PSYC350H - H: Cognitive Science
- PSYC357 - Neuropsychology  
OR PSYC357H - Hon: Neuropsychology
- PSYC365 - Human Memory

OR PSYC462H - Hon: Art, Music and Written Word

- PSYC489 - Honors Course
- PSYC490 - Honors Seminar
- PSYC495 - Directed Projects in Psych
- PSYC496 - Topics In Psychology
- PSYC498 - Independent Study in Psych
- PSYC499 - Departmental Honors
- PSYC300 - Co-Op Ed Experience in Psyc
- PSYC400 - Co-Op Ed Experience in Psyc

Credit may only be received for one of the three courses: PSYC314 Adv. Lab Cognitive Psychology, PSYC350 Cognitive Science or CSCI350 Cognitive Science. A maximum of 6 credits in PSYC 495 and/or Cooperative Education may be taken and counted toward Psychology major requirements.

AND

Psychology Capstone Course (3 credits)

**Earn at least 3 credits from the following:**

- PSYC454 - History and Systems of Psych
- PSYC455 - Seminar in Psychology
- PSYC495 - Directed Projects in Psych
- PSYC489 - Honors Course
- PSYC490 - Honors Seminar
- PSYC498 - Independent Study in Psych
- PSYC499 - Departmental Honors
- PSYC300 - Co-Op Ed Experience in Psyc

Majors must complete 3 credits of PSYC capstone credits. Majors must have completed 75 total credits and have completed or be enrolled in their Psychology Advanced Lab course prior to enrolling in a capstone course. Listed capstone courses taken prior to completing 75 total credits and the Psychology Advanced Lab will count as Core or General Electives (as applicable), not as a capstone.

Experimental

## PSYC205 - Psychology Misconceptions

### Course Information

Course Title

Psychology Misconceptions

Subject code	Course Number	Academic Level
PSYC	205	Undergraduate

### Course Description

This course will provide an introduction to the some of the most popular and persistent misconceptions in Psychology. These misconceptions will cut across sub-disciplines within Psychology, to include clinical, cognitive, and social psychology, as a few examples. The origin as of these myths will be explored, as well as how they are seen today in the popular media, in practice, in education, and in research domains. The implications of the myths will also be considered. The course will also address how to effectively combat these myths. Prerequisites: PSYC 100 and ENGL 110

## General Education Labels

G3, Writing (W)

### Simple Requisites

#### Course Prerequisites

#### Type

Prerequisite

ENGL 110 or ENGL 110H and PSYC100 or PSYC100H

#### Complete ALL of the following Courses:

## PSYC234 - Human Relations

### Course Information

#### Course Title

Human Relations

Subject code	Course Number	Academic Level
PSYC	234	Undergraduate

#### Course Description

An examination of human interactions, both historically and currently, in diverse structures (e.g., family, social, educational, political, economic, etc.). Course content targets increased awareness and understanding of values, traditions and rites of dominant and minority groups and their effect upon interpersonal and intergroup relations. Offered periodically.

#### General Education Labels

G3

## PSYC229 - Psychology of Aging

### Course Information

#### Course Title

Psychology of Aging

Subject code	Course Number	Academic Level
PSYC	229	Undergraduate

#### Course Description

An examination of the years of advanced age, beginning with the typical retirement age. Focuses on physical, cognitive and social-emotional development. Offered periodically. Prereq:

## PSYC246 - Evolutionary Psychology

### Course Information

#### Course Title

Evolutionary Psychology

Subject code	Course Number	Academic Level
PSYC	246	Undergraduate

### Course Description

Reviews evolutionary theory, surveys research and, most importantly, explains how evolutionary psychology can be applied to disciplines with and beyond the field of psychology. Offered periodically. Prereq: BPE 100 or BIOL 100 or 101 and PSYC 211.

### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

BIOL 100 or BIOL 101 and PSYC 211

#### Complete ALL of the following Courses:

- BIOL100 - General Biology  
OR BIOL101 - Foundations of Biology
- PSYC211 - Principles of Statistics and Experimental Design 1

Additional Comments:

## PSYC256 - Psychology Human Adjustment

### Course Information

#### Course Title

Psychology Human Adjustment

Subject code	Course Number	Academic Level
PSYC	256	Undergraduate

#### Course Description

An examination of factors that shape personal and social behavior, with a focus on basic issues, problems and therapies as they relate to personal adjustment. Offered in fall, spring. Prereq: ENGL 110 and PSYC 100.

#### General Education Labels

Diversity (D), G3

PSYC403 - Family Systems

Course Information

Course Title

Family Systems

Subject code	Course Number	Academic Level
PSYC	403	Undergraduate

Course Description

An investigation of the impact of the multigenerational family system on the individual. Assessment of functional and dysfunctional family systems. Emphasis upon theorists and their orientations and intervention strategies. Offered periodically. Prereq: PSYC 100 and junior or senior standing.

Simple Requisites

**Course Prerequisites**

**Type**

Prerequisite

PSYC 100 or PSYC 100H

**Complete ANY of the following Courses:**

- PSYC100 - General Psychology
- PSYC100H - Hnrs:General Psychology

Credit Hours Completion (Junior or Senior Class Standing)

**Earn at least 60 credits**

**Additional Comments:**

## PSYC415 - Advanced Physiological Psych

### Course Information

**Course Title**

Advanced Physiological Psych

Subject code	Course Number	Academic Level
PSYC	415	Undergraduate

**Course Description**

A systematic examination of the nervous and sensory systems and their regulation of human behavior. May not be used in place of PSYC 314, 315 or 316 to fulfill the advanced laboratory requirement. Offered Periodically. Prereq: PSYC 100 and one course in biology. Chemistry helpful. Junior or senior standing.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

PSYC 100 or PSYC 100H

**Complete ANY of the following Courses:**

- PSYC100 - General Psychology
- PSYC100H - Hnrs:General Psychology

Biology Course

**Must have completed one course in biology.**

Credit Hours Completion (Junior or Senior Class Standing)

**Earn at least 60 credits**

**Additional Comments:**

## PSYC417 - Tests and Measurements

### Course Information

**Course Title**

Tests and Measurements

Subject code	Course Number	Academic Level
PSYC	417	Undergraduate

**Course Description**

An introduction to the basic principles of psychological testing and measurement. Focus is upon issues in test construction and design, evaluations of psychometric properties and applications of tests in various fields of psychology. Offered in fall or spring. Prereq: PSYC 211 or permission of instructor.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

PSYC 211

**Complete ALL of the following Courses:**

- PSYC211 - Principles of Statistics and Experimental Design 1

Or must have permission of instructor.

**Additional Comments:**

## PSYC427 - Childhood Disorders

### Course Information

**Course Title**

Childhood Disorders

Subject code	Course Number	Academic Level
PSYC	427	Undergraduate

**Course Description**

An in-depth look at major childhood psychological disorders. Diagnostic criteria, etiology and developmental progression presented. Introduction to diagnostic assessment techniques and commonly used interventions. Offered annually. Prereq: PSYC 100 and PSYC 227 or 228, junior/senior status.

**Simple Requisites**

**Course Prerequisites**

**Type**

Prerequisite

PSYC 100 or PSYC 100H and PSYC 227 or PSYC 227H or PSYC 228

Complete ALL of the following Courses:

- PSYC100 - General Psychology  
OR PSYC100H - Hnrs:General Psychology
- PSYC227 - Development of the Child and Adolescent  
OR PSYC227H - Hnrs:Development of the Child and Adolescent  
OR PSYC228 - Life Span Human Development

Credit Hours Completion (Junior or Senior Class Standing)

Earn at least 60 credits

## PSYC505 - Recent Developments in Psych

### Course Information

#### Course Title

Recent Developments in Psych

Subject code	Course Number	Academic Level
PSYC	505	Graduate

#### Course Description

Contemporary issues in psychology examined through a critical review of current research, theory and practice. Designed to provide students with opportunities for independent study in areas where basic competencies are weak, or in areas of special interest. Offered periodically.

## PSYC511 - Substance-Related Disorders

### Course Information

#### Course Title

Substance-Related Disorders

Subject code	Course Number	Academic Level
PSYC	511	Graduate

#### Course Description

Focus on current treatment approaches to substance-related disorders. Following a review of specific psychoactive drugs and their impact on physical and psychological function, theoretical orientations and their application to clinical scenarios will be discussed. Diagnostic issues, assessment techniques and currently accepted intervention techniques will be covered. Special populations involving gender, ethnicity, sexual orientation and comorbidity will be highlighted. Offered periodically.

## PSYC515 - Physiological Psychology

### Course Information

#### Course Title

Physiological Psychology

Subject code	Course Number	Academic Level
PSYC	515	Graduate

#### Course Description

A systematic examination of the nervous and sensory systems and their regulation of human behavior. Basic knowledge of biology and chemistry is essential. Offered annually.

## PSYC517 - Tests and Measurements

### Course Information

#### Course Title

Tests and Measurements

Subject code	Course Number	Academic Level
PSYC	517	Graduate

### Course Description

Introduction to basic principles of psychological testing and measurements. Issues in test construction and design, evaluation of psychometric properties, and applications of tests in various fields of psychology. Offered annually.

## PSYC525 - Advanced Child Psychology

### Course Information

#### Course Title

Advanced Child Psychology

Subject code	Course Number	Academic Level
PSYC	525	Graduate

#### Course Description

In-depth examination of human development, with emphasis on birth through adolescence. Presentation of current accounts characterizing development in various domains (physical, cognitive, social, moral, psychosexual) and critical reviews of theoretical attempts to explain the process of development. Offered annually.

## PSYC526 - Advanced Adolescent Psychology

### Course Information

#### Course Title

Advanced Adolescent Psychology

Subject code	Course Number	Academic Level
PSYC	526	Graduate

#### Course Description

Personal and environmental forces that are dynamic in the behavior of adolescents. Emphasis is given to the family, school and community aspects of adolescent behavior. Recent developments in adolescent psychology and adolescent development are emphasized. Offered annually.

## PSYC527 - Childhood Disorders

### Course Information

#### Course Title

Childhood Disorders

Subject code	Course Number	Academic Level
PSYC	527	Graduate

#### Course Description

Childhood Disorders provides an in-depth look at psychological disorders that occur in childhood. Students will learn the diagnostic criteria, etiology and developmental

progression of childhood disorders. Students will also be exposed to assessment techniques that can be used to diagnose the disorders such as observation and data collection systems. An overview of interventions used in childhood will also be presented and students will learn how to identify empirically based interventions.

## PSYC530 - Child Development within the Family System

### Course Information

#### Course Title

Child Development within the Family System

Subject code	Course Number	Academic Level
PSYC	530	Graduate

#### Course Description

Theory and research on the development of cognitive, emotional, linguistic, psychosexual and moral systems in the child. Emphasis on the impact of family structure and dynamics on the developing child.

## PSYC536 - Applications of Biopsychology

### Course Information

#### Course Title

Applications of Biopsychology

Subject code	Course Number	Academic Level
PSYC	536	Graduate

#### Course Description

Survey of current topics. Includes psychotropic drugs, neuropsychological assessment and treatment. Emphasis on clinical applications and knowledge base to enable referrals/coordination with related psychiatry/neurology professionals.. Offered annually.

## PSYC537 - Ethics and Professional Practice

### Course Information

#### Course Title

Ethics and Professional Practice

Subject code	Course Number	Academic Level
PSYC	537	Graduate

#### Course Description

This course combines ethics education with an introduction to clinical psychology and counseling. Ethical standards of psychologists and counselors and an ethical decision-making model will be applied to moral ethical and legal dilemmas in

clinical practice. The historical development of clinical psychology, its major theoretical perspectives and empirically supported treatments will be reviewed. Offered annually.

## PSYC540 - Applied Behavior Analysis in a MTSS

### Course Information

#### Course Title

Applied Behavior Analysis in a MTSS

Subject code	Course Number	Academic Level
PSYC	540	Graduate

#### Course Description

Student behavior, both behavioral and academic, is a function of school, classroom, and individual factors. This course will focus on the impact of behavioral interventions delivered using multi-tiered system of supports (MTSS) and positive behavioral interventions and supports (PBIS) frameworks. Applied behavioral analysis will be thoroughly covered. Students will conduct single subject design research to determine the effectiveness of empirically based interventions on a child's behavior. School-wide behavior supports, as well as classroom management strategies, which impact on student discipline, will also be reviewed. Classroom behaviors will be examined within the context of the culture of the school and the community in which the school resides. This course is geared towards educators who consult with school personnel to solve educational problems, e.g., school psychologists and school counselors. The content will be useful, however, for professionals who work to increase functional behaviors in their clients. Offered in fall.

## PSYC546 - Learning Theory

### Course Information

#### Course Title

Learning Theory

Subject code	Course Number	Academic Level
PSYC	546	Graduate

#### Course Description

Review of behavioral approaches to learning such as operant and classical conditioning, and observational learning. Cognitive and ethological challenges to behavioral theories will be considered. Includes information-processing models of learning.

## PSYC547 - Applied Social Psychology

### Course Information

#### Course Title

Applied Social Psychology

Subject code	Course Number	Academic Level
PSYC	547	Graduate

#### Course Description

Examines the effects of social psychological factors on various clinical issues, including racial-ethnic and cultural issues, the development and maintenance of maladaptive behaviors, clinical judgment, relationship between clinician/school psychologist and client, and the outcome of intervention. Offered in fall.

## PSYC586 - Topics in Psychology

### Course Information

#### Course Title

Topics in Psychology

Subject code	Course Number	Academic Level
PSYC	586	Graduate

#### Course Description

Investigate and develop one or more topics of current interest not normally covered in regular psychology courses. Special topics and methods used to investigate the topics will vary according to the needs of psychology students and faculty. Offered periodically.

## PSYC587 - Topics in Psychology

### Course Information

#### Course Title

Topics in Psychology

Subject code	Course Number	Academic Level
PSYC	587	Graduate

#### Course Description

Investigate and develop one or more topics of current interest not normally covered in regular psychology courses. Special topics and methods used to investigate the topics will vary according to the needs of psychology students and faculty. Offered periodically.

## PSYC588 - Topics in Psychology

### Course Information

#### Course Title

Topics in Psychology

Subject code	Course Number	Academic Level
PSYC	588	Graduate

#### Course Description

Investigate and develop one or more topics of current interest not normally covered in regular psychology courses. Special topics and methods used to investigate the topics will vary according to the needs of psychology students and faculty. Offered periodically.

## PSYC589 - Topics in Psychology

### Course Information

#### Course Title

Topics in Psychology

Subject code	Course Number	Academic Level
PSYC	589	Graduate

#### Course Description

Investigate and develop one or more topics of current interest not normally covered in regular psychology courses. Special topics and methods used to investigate the topics will vary according to the needs of psychology students and faculty. Offered periodically.

## PSYC600 - Professional Seminar

### Course Information

#### Course Title

Professional Seminar

Subject code	Course Number	Academic Level
PSYC	600	Graduate

#### Course Description

The philosophy, administrative arrangements, responsibilities and general functions of a school psychologist. Emphasis on research information relating to skills and techniques used by psychologists in the prevention and remediation process as they apply to schoolchildren. Firsthand experience in the functions of a school psychologist through field visitations and planned seminars. Schedule near the beginning of the program. Offered annually.

## PSYC612 - Research Design & Statistical Analysis

### Course Information

#### Course Title

Research Design & Statistical Analysis

Subject code	Course Number	Academic Level
PSYC	612	Graduate

#### Course Description

This course is designed to develop and extend skills in the interpretation of psychological research. Understanding the relationships between research methods, statistical procedures and interpretation is emphasized. Offered in fall and spring.

## PSYC625 - Human Growth and Development

### Course Information

#### Course Title

Human Growth and Development

Subject code	Course Number	Academic Level
PSYC	625	Graduate

#### Course Description

A comprehensive study of growth and development with a life-span perspective. Physical growth and maturation, social development, emotional and personal development, and cognitive development. Special projects in the field of students interest. Offered annually.

## PSYC626 - Trauma Treatment

### Course Information

#### Course Title

Trauma Treatment

Subject code	Course Number	Academic Level
PSYC	626	Graduate

#### Course Description

Provides an overview of the conceptual and empirical foundations of post-traumatic stress disorder (PTSD), the neurobiology of stress and an overview evidence-based trauma treatments. Protocols for trauma assessment, cognitive-behavioral and contextual case formulation and treatment methods will be reviewed. Strategies for psychoeducation, treatment engagement, emotional regulation, exposure and relapse prevention will be emphasized.

## PSYC630 - Group Work: Theory & Intervention

### Course Information

#### Course Title

Group Work: Theory & Intervention

Subject code	Course Number	Academic Level
PSYC	630	Graduate

#### Course Description

Reviews major theories of group therapy and concepts related to group formation and dynamics. Develops skills through role playing interventions from diverse schools of group therapy. Reviews current research on the effectiveness of support, counseling and therapy group treatment for various mental health and/or substance use disorders. (Offered fall and spring)

## PSYC631 - Psychotherapy and Intervention Skills

### Course Information

#### Course Title

Psychotherapy and Intervention Skills

Subject code	Course Number	Academic Level
PSYC	631	Graduate

#### Course Description

Intensive supervised training in effective helping skills, including listening and responding skills, relationship enhancement, interview skills and active interventions. Students receive supervision of videotaped counseling with clients.

## PSYC632 - Group Cnslng and Psychotherapy

### Course Information

#### Course Title

Group Cnslng and Psychotherapy

Subject code	Course Number	Academic Level
PSYC	632	Graduate

#### Course Description

Development of skills and awareness necessary for successful functioning as a facilitator of groups or as a group leader. Methods include participation in an encounter group, role playing, analyses of nonverbal communication, and reflective listening. Offered annually.

### Simple Requisites

#### Course Prerequisites

##### Type

##### Prerequisite

PSYC631

#### Complete ALL of the following Courses:

- PSYC631 - Psychotherapy and Intervention Skills

#### Additional Comments:

## PSYC633 - Systems of Psychotherapy

### Course Information

#### Course Title

Systems of Psychotherapy

Subject code	Course Number	Academic Level
PSYC	633	Graduate

#### Course Description

Reviews the major paradigms in psychotherapy using a trans-theoretical model. Major paradigms include: psychoanalytic/psychodynamic; person-centered/existential; behavioral; cognitive; cognitive-behavioral; systems; gender sensitive, multicultural and third wave therapies. Application of theories through self-analysis and case studies will be emphasized along with the stages of change model and current research on the efficacy of these therapies.

## PSYC634 - Child Psychopathology and Intervention

### Course Information

#### Course Title

Child Psychopathology and Intervention

Subject code	Course Number	Academic Level
PSYC	634	Graduate

#### Course Description

Introduces students to child and adolescent psychopathology and therapeutic interventions used with children and adolescents. Play therapy techniques with clinical child populations, process groups with adolescents and preadolescents, behavioral group therapy, adjunct parent counseling and cognitive-behavioral procedures are emphasized. Offered in summer.

## PSYC635 - Psychopathology

### Course Information

#### Course Title

Psychopathology

Subject code	Course Number	Academic Level
PSYC	635	Graduate

#### Course Description

Develops the ability to diagnose in traditional nosological fashion and to be able to discriminate from one another the various mental disorders contained in the DSM-IV. In addition to requiring the ability to diagnose the mental disorders, students will also be required to write diagnostic reports using DSM-IV multiaxial system. Offered annually.

## PSYC636 - Cognitive Therapy

### Course Information

#### Course Title

Cognitive Therapy

Subject code	Course Number	Academic Level
PSYC	636	Graduate

#### Course Description

Basic principles and clinical applications of cognitive therapy. Use of role play, audiotapes and videotapes to help others identify and restructure thinking patterns and beliefs that contribute to personal and interpersonal conflicts and psychological disturbances. Offered annually.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

PSYC631

##### Complete ALL of the following Courses:

- PSYC631 - Psychotherapy and Intervention Skills

##### Additional Comments:

## PSYC637 - Theories of Family Dynamics

### Course Information

#### Course Title

Theories of Family Dynamics

Subject code	Course Number	Academic Level
PSYC	637	Graduate

#### Course Description

Reviews major systems of family therapy including structural, strategic, systems-based and other approaches and their application to a range of clinical and family development issues. Normal and dysfunctional family development, structure, roles, boundaries and functioning will also be reviewed. Prereq: Graduate program admission. Offered in summer.

#### Simple Requisites

##### Degree/Major/Field of Study Restrictions

##### Type

Prerequisite

Graduate Program Admission

**Must be admitted into the graduate program.**

##### Additional Comments:

## PSYC638 - Cognitive Behavioral Therapies

### Course Information

#### Course Title

Cognitive Behavioral Therapies

Subject code	Course Number	Academic Level
PSYC	638	Graduate

#### Course Description

Review models of common clinical problems and specific cognitive, behavioral and integrative techniques. Role play, videotape, in-class demonstrations and case materials will be used to provide hands-on experience. Students will incorporate cognitive-behavioral perspectives and interventions with clients. Offered annually.

#### Simple Requisites

##### Course Prerequisites

##### Type

Prerequisite

PSYC631

##### Complete ALL of the following Courses:

- PSYC631 - Psychotherapy and Intervention Skills

##### Additional Comments:

## PSYC639 - Selected Therapies: Existential and Humanistic Therapies

### Course Information

#### Course Title

Selected Therapies: Existential and Humanistic Therapies

Subject code	Course Number	Academic Level
PSYC	639	Graduate

#### Course Description

Surveys conceptual foundations and methods of classic and contemporary humanistic and existential psychotherapies and their practical application and implementation with a variety of clinical populations and presenting issues/needs. Students will employ this knowledge/perspective in case conceptualization and treatment planning, engage in case discussions and skills practice, explore supporting research and practical considerations, and critically examine implications for effective, sustainable, and contextually- and culturally-sensitive therapeutic practice. Prereq: Passed CCEs, PSYC 631 (for Clinical Psychology students) or instructor permission (for Social Work graduate students).

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

CCEs

**Must have passed CCEs (Core Competency Exams).**

**Additional Comments:**

#### Course Prerequisites for Clinical Psychology Students

##### Type

Prerequisite

PSYC 631

**Complete ANY of the following Courses:**

- PSYC631 - Psychotherapy and Intervention Skills

**Additional Comments:**

#### Course Prerequisites for Social Work Graduate Students

##### Type

Prerequisite

Instructor Permission

**Must have permission of instructor.**

**Additional Comments:**

## PSYC646 - Consultation

### Course Information

#### Course Title

Consultation

Subject code	Course Number	Academic Level
PSYC	646	Graduate

#### Course Description

Explores the theoretically and practically applied aspects of consultation. School, instructional, behavioral, conjoint-behavioral, mental-health/consultee-centered, multicultural, and organizational models of consultation and coaching, as well as teleconsultation strategies, will be covered. Students will develop and implement individual consultation projects. Offered in fall.

## PSYC670 - Clinical Interviewing and Appraisal Skills

### Course Information

#### Course Title

Clinical Interviewing and Appraisal Skills

Subject code	Course Number	Academic Level
PSYC	670	Graduate

#### Course Description

Development of competencies in evidence-based interviewing and observation skills and in administration, scoring, interpretation, and application of diagnostic measures, mental status exams, and risk assessments. Students also are introduced to selected cognitive, personality, and behavioral assessment instruments. Students receive supervision of recorded sessions with clients and report writing. Insurance required and must pass CCE to enroll.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

Passed CCEs and Insurance Required

**Must have passed CCEs (Core Competency Exams) and have insurance to enroll.**

**Additional Comments:**

PSYC671 - Cognitive Achve & Adapt Assess

Course Information

Course Title

Cognitive Achve & Adapt Assess

Subject code	Course Number	Academic Level
PSYC	671	Graduate

Course Description

Introductory course in individual psychological evaluation, stressing practical experience in administering and interpreting individual psychological test batteries. Standardized intelligence tests are emphasized. Introduces special-purpose tests such as adaptive behavior assessment and brief achievement tests. Students administer tests and write reports under supervision. Prereq: Pass Core Competency Exams (CCE) and Insurance required. Offered in fall and spring.

Simple Requisites

**Course Prerequisites**

**Type**

Prerequisite

PSYC530 and PSYC612

**Complete ALL of the following Courses:**

- PSYC530 - Child Development within the Family System
- PSYC612 - Research Design & Statistical Analysis

Passed CCEs and Insurance Required

**Must have passed CCEs (Core Competency Exams) and have insurance.**

**Additional Comments:**

PSYC672 - Academic Assess & Intervention in MTSS

Course Information

Course Title

Academic Assess & Intervention in MTSS

Subject code	Course Number	Academic Level
PSYC	672	Graduate

Course Description

Prepare students to assist schools in the provision of appropriate academic programming for children within the context of current federal and state regulations. A multi-tiered system of academic service delivery will be used as a framework for developing appropriate assessments. Students will learn to conduct assessments that answer academic referral questions, inform intervention design, and measure intervention integrity and effectiveness. Ecological and direct assessments will be discussed in depth. Solution-focused report writing skills utilizing an RTI/MTSS approach will be introduced and developed. Offered annually.

PSYC673 - Personality Assessment

Course Information

Course Title

Personality Assessment

Subject code	Course Number	Academic Level
PSYC	673	Graduate

Course Description

An introduction to the administration, scoring, interpretation and application of personality-assessment instruments. Introduces objective tests, projective tests and behavioral assessment.

PSYC674 - Assessment of English Language Learners

Course Information

Course Title

Assessment of English Language Learners

Subject code	Course Number	Academic Level
PSYC	674	Graduate

Course Description

A multicultural-issues class with focus on assessment and classification of culturally and linguistically diverse children. Prepares school psychologists and practitioners in the mental-health field to work with English language learners, make

educational recommendations and help determine the extent to which child learning difficulties are related to limited English proficiency, cultural/ecological factors or learning disabilities. Learn assessment techniques, skills and strategies to be used with English language learners.

#### Simple Requisites

##### Course Prerequisites

##### Type

##### Prerequisite

PSYC671

##### Complete ALL of the following Courses:

- PSYC671 - Cognitive Achve & Adapt Assess

##### Additional Comments:

## PSYC675 - Behavioral Assessment Child/Adolescent

### Course Information

#### Course Title

Behavioral Assessment Child/Adolescent

Subject code	Course Number	Academic Level
PSYC	675	Graduate

#### Course Description

This course is designed to develop skills in conducting assessments and developing treatment recommendations for students referred for behavioral/emotional difficulties. The purpose of this course is to provide training in the techniques of behavioral assessment including direct observation, interviews, checklists, rating scales, self-monitoring and other methods of assessment. A tiered model of service delivery will be used as a larger context for discussing assessment methods that may be used for universal screening and more individualized assessments.

#### Simple Requisites

##### Course Prerequisites

##### Type

##### Prerequisite

PSYC671 and PSYC540

SCCN	691	Graduate

#### Course Description

An in-depth approach to an individually structured problem. By permission.

#### Simple Requisites

**Course Prerequisites**

# Social Work Department

The social work program at Millersville University leads to a Bachelor of Arts degree in social work. Millersville's social work baccalaureate program is professionally accredited by the Council on Social Work Education. Based on the general education curriculum, the social work curriculum is designed to prepare students for beginning professional practice in social agencies and other settings where social workers are employed. The program educates the general practitioner; therefore, it is built on basic required courses. However, it also allows students to explore areas of interest through elective courses and field instruction assignments.

Affirming the mission of Millersville University, a public, liberal arts institution situated in South Central Pennsylvania, the baccalaureate social work program educates students to be competent, evidence-informed social work professionals who embrace core social work values; enhance human and community well-being; promote social, economic and environmental justice; and advance human rights through generalist social work practice. The University and the program provide a learning environment that prepares students to work in an increasingly diverse society and to meet contemporary social, cultural, economic, political and global challenges.

## Social Work Program Goals

To meet the purpose of the social work profession and the mission of Millersville University and the social work baccalaureate program, faculty seek to prepare students/graduates to:

- Goal 1: Strengthen human connections and relationships
- Goal 2: Practice effectively and ethically
- Goal 3: Engage to promote justice and human rights
- Goal 4: Think globally; act locally

The curriculum is designed to help students integrate knowledge and theories from many academic disciplines with social work concepts, values and practice skills. Courses in the social work program attempt to develop an understanding of the human condition and human diversity. The social work major needs to understand biological, psychological and sociocultural aspects of human development; characteristics of human interaction with the social environment; the role, structure and function of social welfare policies and programs; social work intervention methods; and social work research findings and methods.

In addition to theoretical instruction, students are given ample opportunity for practical experience. The experiential requirements begin in the introductory courses and carry through to formal work in advanced courses. The culmination is 450 hours practicum during spring semester, wherein the student can integrate knowledge and skills in a social agency or other social service setting in the community.

A formal Professional Readiness Assessment process takes place for each student prior to placement in a social service setting for field instruction. Qualifications are based on academic performance, oral and written communication skills, and demonstrated ethical behavior, values and commitment to social work as a career. The social work faculty has the right to dismiss from the program, at any time, students found not qualified for social work practice.

Upon completion of the undergraduate social work degree, graduates will be able to:

1. Demonstrate ethical and professional behavior.
2. Engage diversity and difference in practice.
3. Advance human rights and social, economic and environmental justice.
4. Engage in practice-informed research and research-informed practice.
5. Engage in policy practice.
6. Engage with individuals, families, groups, organizations and communities.
7. Assess individuals, families, groups, organizations and communities.
8. Intervene with individuals, families, groups, organizations and communities.
9. Evaluate practice with individuals, families, groups, organizations and communities.

FACULTY LIST
<p><u>Bethel, Joyous C., Assistant Professor of Social Work &amp; Gerontology Minor Coordinator</u> (At MU since 2011). B.A., Social Work, University of Oklahoma, 1981; M.S.W., University of Oklahoma, 1982; Ph.D., Barry University, 1997. <b>Interest Areas:</b> practice, HBSE, diversity, practicum internship instruction, spirituality; complicated mourning; <b>Major Teaching Areas:</b> Gerontology, Social Work and Aging, Encounters in Human Diversity, Human Behavior in the Social Environment, Practicum internship Instruction. <a href="mailto:Joyous.Bethel@millersville.edu">Joyous.Bethel@millersville.edu</a></p>

## Programs

### Social Work, D.S.W.

#### Overview

The Kutztown University-Millersville University (KU-MU) collaborative Doctor of Social Work focusing on leadership and education prepares graduates for innovation and leadership in social work theory, practice and education.

The program is ideal for social workers currently employed in professional positions. It is a part-time, online program with an intensive weekend residency once each semester.

#### Mission

The KU-MU DSW program will provide advanced preparation for practice and teaching. Graduates will create, implement and evaluate social work interventions as well as teach.

### Electives

2 Electives should be selected and taken during Year III. Please work with your advisor to select appropriate electives.

### Additional Comments:

## Social Work, M.S.W.

### Overview

Millersville and Shippensburg universities are jointly offering a Master of Social Work (MSW) degree program. It is designed for students who want to either further their education in social work or join the social work profession. The program was developed to support both the full-time student and the working professional. State-of-the-art technology permits students to acquire social work knowledge, skills, and values through multiple educational methods, teleconferencing, and web-based activities. Because this is a joint program, students benefit from the quality faculty and resources of both universities.

The MSW permits graduates to work in a variety of human service programs and agencies in an advanced clinical and/or administrative capacity. The flexibility of the social work degree provides graduates with many options as they pursue their careers in the helping fields.

The MSW program is available in-person and online. We offer full-time and part-time options. Online students complete their practicum requirements in their local geographic area.

## Dual Degrees

### MSW + MSEM

A dual-degree option is available for students in the MSW program who wish to also obtain a Master of Social Work and Master of Science in Emergency Management. Students seeking a dual degree in MSW/MSEM will need to complete the full curriculum in the MSW program (which is 36 or 60 credits).

This joint program allows students in the MSW and MSEM programs to pursue a joint graduate degree. Students will need to apply and be admitted to both programs in order to pursue this joint degree. It is not required that the student be admitted to both programs at the same time.

## Benefits of the Joint Program

Social work offers research informed practice interventions in relation to emergency management planning, prevention and response, specifically in the fields of mental health and trauma, as well as trauma informed interventions.

Social work research in emergency management includes findings on: traumatic stress, vicarious trauma and burnout, disaster volunteers, vulnerable populations, organizations and interorganizational networks, environmental disasters, as well as human made disasters, and cross-cultural and interactional issues in disasters, and improved measurement and theory.

Emerging trends in social work research and practice point to this need as a result of the impact of traumatic events such as the COVID 19 Epidemic, earthquakes, mass shootings, hurricanes and war.

## MSW + MEd in Sports Management

A dual-degree option in MSW/M.Ed. in sport management will need to complete the full curriculum in the MSW program (which is 36 or 60 credits).

This degree program will provide an understanding of the need of social workers in athletic settings, give students knowledge of the social factors affecting athletes of all levels, develop skills to administer and develop athletic programs or facilities and discuss current perceptions of student athletes. Graduates will also gain an increased awareness of the issues regarding athletes and sport management, provide an awareness of opportunities for policy adjustments and applications of research findings, and will highlight social work values and ethics in examining the issues of professional and amateur athletes as they relate to race, ethnicity, national origin, class, gender, physical or mental disability, mental illness, and age.

Students will learn emerging trends in working with athletes of all levels, in clinical and counseling settings and will gain knowledge and skills related to athletic programs, and/or venue management. Students will also have the opportunity to develop methodologies for working with athletes in a number of areas, such as career counseling, life skills development, substance abuse prevention, advocacy, recruitment and transitioning to a post athletic career.

Students will understand the emerging trends in social work and sports management that point to this need to include mental health awareness in athletics. Students will conduct and become aware of research related to the issues athletes

face on and off the playing field, specifically in the fields of mental health and trauma. A program combined with Social Work and Sports Management will allow students to obtain a firm grounding in both disciplines, along with the ability to secure practicums or internships in either profession.

## Certificates

### MSW + School Social Worker certification

The School Social Work certification is designed to prepare social work students with the required knowledge, skills, and expertise to “support the academic, career and personal-social development needs” of diverse, vulnerable, and at-risk PreK-12 students and their families. In the Commonwealth of Pennsylvania, the School Social Work certification is required by school districts.

### MSW + Home and School Visitor

The Home and School Visitor Certification is designed to provide students with the required knowledge and skills to work collaboratively in a school setting at all systems levels.

### MSW + Expressive Arts

The Expressive Arts certificate will provide students with the required knowledge and skills around the use of the arts (e.g., music, theater, art, dance/movement, storytelling) to apply to their practice with various groups and at all levels of practice. Additionally, upon completion of the certificate and then a subsequent 200-hour internship, students will be eligible to apply as a Registered Expressive Arts Therapist.

### MSW + Advanced Children, Youth, and Families

The Advanced Children, Youth, and Families Certificate is for students enrolled in or who have completed a master’s degree in Social Work to provide culturally competent services to vulnerable children and families through a range of public and private agencies at various levels of practice. The focused curriculum includes coursework on clinical skills to work effectively with children and their families to promote positive outcomes, and macro skills and strategies to develop productive change in service delivery systems.

## Mission

The mission of the Millersville University and Shippensburg University Collaborative MSW Program is to promote human and community well-being by providing an advanced generalist social work education that prepares students to be contemporary practitioners and advocates for individuals, families, groups, communities, and organizations utilizing the person in environment perspective. We prepare students to be competent, globally responsive evidence-informed

practitioners, committed to social, racial, economic, and environmental justice and human rights, which are rooted in the values of the social work profession.

## Program Goals

The MU-SU program seeks to:

1. Prepare graduates for competent advanced generalist practice through the acquisition and demonstration of social work competencies and values consistent with Council on Social Work Education (CSWE) educational policy and accreditation standards and Pennsylvania State System of Higher Education.
2. Provide graduates with the advanced generalist knowledge values and skills for social work practice across micro, mezzo and macro systems to assess, plan and facilitate change with attention to the profession's commitment to interprofessional collaboration.
3. Develop graduates' commitment to continued evidence-informed professional development and prepare graduates to practice human rights-based social work that promotes social, racial, economic, and environmental justice.

## Accreditation

The Millersville-Shippensburg MSW program is accredited by the Council on Social Work Education (CSWE). The program has continuously been accredited since its inception in 2006. The accreditation validates that the program meets national standards for social work education as determined by experts in the field. Practitioners must have graduated from a CSWE-accredited social work MSW program to be eligible to apply for licensure in Pennsylvania.

## Admission Classifications

The program is designed both for students who have no previous social work education and for those who want to build upon their baccalaureate social work education. Students will be admitted full- or part-time. Students have the option to attend in-person or online.

Applicants may apply for regular-standing admission or for advanced-standing admission. Regular-standing admission is for students who completed a baccalaureate degree with a major from other than a CSWE-accredited social work, and for students who graduated from a CSWE-accredited social work program but do not meet the requirements for advanced standing. Applicants may apply for advanced standing

admission if they have graduated from a CSWE-accredited social work program within the past 8 years and meet the requirements as described in the admission guidelines.

## Admission Guidelines

Candidates may choose to apply through either Millersville or Shippensburg University. Applicants for regular-standing admission must have a minimum cumulative grade-point average of 2.8 on a 4.0 scale from a regionally accredited undergraduate institution. In exceptional cases, applicants who lack the required grade-point average should contact the MSW Program Director to discuss their options.

Applicants for advanced-standing admission must have earned a baccalaureate degree within the last eight years from a CSWE-accredited social work program with an overall GPA of 2.8 and a major GPA of 3.25 or higher on a 4.0 scale.

Students who graduated with a baccalaureate degree from a CSWE-accredited social work program who are not eligible for advanced standing may be eligible for exemptions from first-year generalist courses in which they have earned a grade of B or higher within the past eight years. Exemptions will reduce the total number of credits a student must earn to graduate. The Admissions Committee will send a letter notifying the applicant of the exemptions.

Students who do not otherwise qualify for advanced-standing status may be exempted from certain generalist courses under strict guidelines as outlined in this section. Students may not be exempt from practice or field placement coursework. With the exception of practice and field instruction courses, students who earned a grade of B or higher within the past eight years in courses that were part of a CSWE-accredited social work program are eligible for exemptions from first-year generalist courses with similar content.

Applicants must evidence a combination of professional and personal experiences, qualities and values that are considered essential for the practice of social work. A current résumé is required. Three professional references are required, preferable with a minimum of one from a faculty member and one from a current or recent agency employer or supervisor. Applicants for advanced standing are required to submit an additional reference from the department chair of their undergraduate program. Applicants will complete a written personal statement. Application forms are available on the graduate studies website, [www.millersville.edu/apply/graduate](http://www.millersville.edu/apply/graduate). The program may request a personal interview or additional information about an applicant when necessary to

make a fully informed admissions decision.

Persons who have some criminal records may not be eligible to work in some human service fields. Applicants with criminal records should contact the MSW program director for additional information.

Students may receive or transfer credit for up to nine credit hours earned at other regionally accredited institutions prior to admission. Graduate credits earned more than five years prior to admission do not qualify for transfer. Students may only transfer credits if they are in good standing in those schools. Courses must be listed on an official transcript with a B or higher. Condensed one-week graduate courses do not qualify for transfer.

With advance permission of the faculty advisor, program director and Dean of Graduate Studies and Adult Learning, and as part of a planned program, a student may transfer credits from other graduate programs at Millersville University or Shippensburg University. Forms for the approval process of transfer of credits are available at [www.millersville.edu/gps/studentlife](http://www.millersville.edu/gps/studentlife). The program does not grant academic credit for life or work experience.

## Degree Requirements

Students with regular-standing admission must complete 60 credits of graduate study, including 39 credit hours of required coursework, 12 credit hours of field practicum and 9 credit hours of electives. BSW graduates with regular admission status may receive exemption for some coursework, as per admission guidelines.

Students with advanced-standing admission must complete 36 credits of graduate study, including 18 credit hours of required coursework, including a “bridge” course, 6 credit hours of field practicum and 12 credit hours of electives.

All required courses must be taken in sequence. The 60-credit in-person program can be completed in two years full-time (four courses a semester) or four years part-time (two courses a semester) or in 3 years with either Generalization or Specialization Year completed on a full-time basis. The online 60-credit program can be completed in two, three or four years. The 36-credit in-person program can be completed in one year full-time or two years part-time. The online 36-credit program, can be completed in one or two years. Both programs are year-round, with each new cohort starting in the summer term.

## Degree Candidacy

A formal admission to the degree candidacy process takes place after a minimum of 12 credits have been completed. Millersville-Shippensburg MSW faculty members evaluate students to determine if they have the potential for completing the requirements of the social work program. Qualifications are based on academic performance in line with University standards and demonstrated ethical behavior, values and commitment to social work as a career. The social work faculty has the right to dismiss from the program at any time students found not qualified for social work practice.

## Certificate in Trauma-Informed Behavior Health

### Overview

The TIBH Certificate responds to the need for innovative practices in behavioral health services. Qualified students will have a master's degree or be enrolled in a master's degree program in one of the following disciplines: Social Work, Psychology (all concentrations), Educational Psychology, Counseling, Marriage and Family Therapy, Fine Arts, or a related mental health discipline. Students enrolled in the certificate program will have previously completed coursework in psychopathology, ethics/professional practice, theory, and child and adult development, with knowledge gained as a result of the master's program in which they are enrolled.

The TIBH Certificate comprises two tracks. The first track is the Expressive Arts (EA), which provides students with the required knowledge and skills to use arts (e.g., music, theater, art, dance/movement, storytelling) to apply to their practice with various groups and at all levels (micro, mezzo, macro) of practice. Students will complete coursework and 250 hours of applied learning in a practicum coordinated by our Practicum Coordinator and Certificate Coordinator.

The second track is Equine-Assisted Therapeutic and Educational Learning (EATL), which provides students with the required knowledge and skills to partner with horses (and other animals) and use nature-based strategies to apply their therapeutic and/or education practice with diverse populations across all levels of intervention. Students will complete practicum hours in an Equine-Assisted Therapy & Learning internship at at programs or facilities approved by our Practicum Coordinator and Certificate Coordinator.

## Home and School Visitor Post-Baccalaureate Certificate

### Overview

In the Commonwealth of Pennsylvania, the Home and School Visitor is recognized and required by school districts. The School of Social Work at Millersville University is approved by the Pennsylvania Department of Education (PDE) to offer the Home School Visitor Certification. The Home and School Visitor certification is designed to provide students with the required knowledge and skills to work collaboratively with interdisciplinary client systems to meet the needs of K12 students to foster academic success.

Upon completion of the required coursework, the Certification Office at Millersville University will assist eligible candidates with the Pennsylvania certification process and provide recommendations for Home and School visitor certification.

### Admissions

Prospective students seeking the HSV Certification may start at any time. Student must first submit a formal application to the Office of Graduate Studies and Adult Learning at [www.millersville.edu/admissions/graduate/admissions/apply/post-baccalaureate-certification.php](http://www.millersville.edu/admissions/graduate/admissions/apply/post-baccalaureate-certification.php).

The HSV Certification program requires field placement/practicum experiences in a school setting. As the Pennsylvania Department of Education (PDE) requires current clearances before starting field experience, students must also apply for three clearances: Pennsylvania Child Abuse History Clearance, Criminal Records Check (FBI Fingerprint background check), and Federal Criminal History Record Information (CHRI).

### Flexible Program Options

Applicants can earn their HSV Certification while enrolled in the MSW program, part or full time. Applicants who hold an MSW are able to apply to have prior credits counted toward the HSV Certification. Non-MSW applicants are able to apply

to earn HSV Certification.

## School Social Work Post-Master's Certification

### Overview

The School of Social Work at Millersville University is approved by the Pennsylvania Department of Education (PDE) to offer the Post-Master's School Social Work certification. The School Social Work certification is designed to prepare social work students with the required knowledge, skills, and expertise to "support the academic, career and personal-social development needs" of diverse, vulnerable, and at-risk PreK-12 students and their families.

In the Commonwealth of Pennsylvania, the School Social Work certification is required by school districts. In accordance with PDE Chapter 49, the MU school social curriculum includes the content and ethical requirements unique to the role of school social workers in promoting students academic, social, career, and socio-emotional development.

Upon completion of the required coursework, the Certification Office at Millersville University will assist eligible candidates with the Pennsylvania certification process and provide recommendations for the Post Master's School Social Work certification.

## School Social Work Certification

Curriculum includes successful completion of: • MSW plus required program courses, including practicum experiences in a school setting that prepare candidates to be certified as a School Social Worker Educational Specialist • Pennsylvania certification process and recommendations for School Social Work through the MU Certification Office at <https://www.millersville.edu/cert/index.php>

## Flexible Program Options

Applicants can earn their School Social Work certification while enrolled in the MSW program, part-time or full-time. Those applicants who hold a MSW from a CSWE accredited program may apply. Admissions Prospective student must submit a formal application to the Office of Graduate Studies and Adult Learning at [www.millersville.edu/admissions/graduate/admissions/apply/post-baccalaureatecertification.php](http://www.millersville.edu/admissions/graduate/admissions/apply/post-baccalaureatecertification.php). At time of application, students must include a resume detailing relevant experiences in a school setting, a well-written and focused goal statement, and ensure that references provide sufficient information about their relationship with the applicant, and evaluation of your experiences related to school social work practice.

## Gerontology Minor

### Overview

Millersville University has an interdisciplinary minor in gerontology. The program's objectives include increasing knowledge, examining values and improving skills to help students with their own aging, to live with aging people and to prepare them for careers helping the elderly. The program is also designed to improve the understanding and competence of students already working within this specialized area. Students must complete 18 credits to complete the minor.

## Curriculum

### Simple Requisites

#### Regulations Governing Minor Course Work

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

#### Minor in Gerontology (18 credits)

## Type

### Completion Requirement

#### Requirements

#### Fulfill ALL of the following requirements:

##### Required Courses (15 credits)

#### Complete ALL of the following Courses:

- GERT100 - Introduction to Gerontology
- SOWK306 - Social Work and Aging
- SOWK315 - Grief and Bereavement
- SOWK307 - Social Work and Health Care
- SOCY210 - Sociology of the Family

AND

##### Electives (3 credits)

#### Complete at least 1 of the following courses:

- NURS316 - Women, Health, and Health Care  
OR NURS316H - H: Women, Health, and Health Care
- PSYC229 - Psychology of Aging
- WSSD395 - Senior Living and Active Aging
- PHIL280 - Thanatopsis: Viewing Death

A topics course approved by the Program Coordinator may be used as an elective.

#### Additional Comments:

## Social Justice Minor

### Overview

Social justice is the core for all social work practice. The primary goals for the minor in social justice are to enhance sensitivity to vulnerable and at-risk populations, provide opportunity for critical review of social policies and the allocation of societal resources, and stimulate interest in advocacy and planned social change. This minor is intended to provide students with the knowledge and skills necessary to advocate from a social, economic and environmental justice framework.

## Curriculum

- SOWK475 - Special Topics in Social Work

**Additional Comments:**

## Social Work, B.A.

### Overview

The social work program at Millersville University leads to a Bachelor of Arts degree in social work. Millersville's social work baccalaureate program is professionally accredited by the Council on Social Work Education. Based on the general education curriculum, the social work curriculum is designed to prepare students for beginning professional practice in social agencies and other settings where social workers are employed. The program educates the general practitioner; therefore, it is built on basic required courses. However, it also allows students to explore areas of interest through elective courses and practicum instruction assignments.

### Social Work Program Mission

The mission of the Millersville University Baccalaureate Social Work Program is to promote human and community well-being by providing a generalist social work education rooted in the values of the social work profession. This education prepares students to be competent social workers who advocate and practice with individuals, families, groups, communities, and organizations utilizing the person-in-environment framework. Our graduates will be contemporary social workers committed to social, racial, economic, and environmental justice, human rights, the elimination of poverty, and globally responsive scientific inquiry.

### Social Work Program Goals

To meet the purpose of the social work profession and the mission of Millersville University and the Social Work Baccalaureate Program, faculty seek to prepare students/graduates to:

Goal 1: Promote human and community well-being

Goal 2: Advance justice and human rights

Goal 3: Think globally; act locally

The curriculum is designed to help students integrate knowledge and theories from many academic disciplines with social work concepts, values and practice skills. Courses in the social work program attempt to develop an understanding of the human condition and human diversity. The social work major needs to understand biological, psychological and sociocultural aspects of human development; characteristics of human interaction with the social environment; the role, structure and function of social welfare policies and programs; social work intervention methods; and social work research findings and methods.

In addition to theoretical instruction, students are given ample opportunity for practical experience. The experiential requirements begin in the introductory courses and carry through to formal work in advanced courses. The culmination is 400 hours of supervised practicum during the student's final semester, wherein the student can integrate knowledge and skills in a social agency or other social service setting in the community.

A formal Professional Readiness Assessment process takes place for each student prior to placement in a social service setting for field instruction. Qualifications are based on academic performance, oral and written communication skills, and demonstrated ethical behavior, values and commitment to social work as a career. The social work faculty has the right to dismiss from the program, at any time, students found not qualified for social work practice. Overall, the purpose of the Professional Readiness process is to enhance the growth and development of students, to assist them in self-evaluation and correction, and to prepare them for practice in professional social work settings. In the event that a student's professional performance warrants a formal review and the potential outcome of termination from the major, the College of Education and Human Services Professionalism Policy and Process will be followed.

## Curriculum

### Simple Requisites

#### Major in Social Work (BA) (54 credits)

##### Type

##### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

##### Required Social Work Courses (24 credits)

### FYEX100N - Be the Change! Exploring Social Justice in the US

#### Course Information

##### Course Title

Be the Change! Exploring Social Justice in the US

Subject code	Course Number	Academic Level
FYEX	100N	Undergraduate

##### Course Description

Each First Year Seminar (FYEX) section features an academic centerpiece (a question, topic, or theme) that will ground the process of intellectual inquiry through a free exchange of ideas during and outside of class. FYEX instructors mentor and assist students in developing meaningful and purposeful goals.

Specific to this FYEX 100 Course Description:

Do you want to be the change you wish to see in the world? Your journey of exploring social justice and finding inspiration to make positive social change starts here! Utilizing a social justice perspective and a human rights framework, we will explore social problems, social justice heroes of the past, and current ways to make the world a better place. In this class, you will learn about campus resources –both academic and social –to help you thrive. This course will culminate with your production of a scholarly electronic research poster delineating a social justice warrior of pure inspiration.

In this course, students will begin to explore the topic of social justice as a motivating influence to inspire social change. Utilizing a social justice perspective and a human rights framework, this course will explore a variety of social problems, social justice heroes of the past, and current ways to make the world a better place for everyone. This course will

culminate with your production of a scholarly electronic research poster delineating a social justice warrior of inspiration. As a FYEX 100 course, students will be provided with an open and supportive atmosphere to engage as budding scholars. Additional resources relating to orientation to campus and the academic environment will be provided. As we explore social justice, we will be examining the construct of self-sufficiency and how this relates to living on one's own for the first time.

## GERT100 - Introduction to Gerontology

### Course Information

SOWK304 - Sowk, Corrections & Alt Trmnt

Course Information

Course Title

Sowk, Corrections & Alt Trmnt

Subject code	Course Number	Academic Level
SOWK	304	Undergraduate

Course Description

A general introduction to the study of the juvenile correctional system in the United States and assessment and treatment of youth who may be at risk for interacting with the system. A historical perspective of juvenile, as well as adult, corrections will be offered, along with discussions and examinations of the etiology and extent of juvenile crime as well as antecedents of violence, environmental and ecological factors for the causes of criminality, along with assessment of at risk youth and their families. A historical perspective, rehabilitation approaches, de-institutionalization, community based programs and alternatives to incarceration will be reviewed.

## SOWK317 - Perspectives on Poverty in the United States

### Course Information

**Course Title**

Perspectives on Poverty in the United States

<b>Subject code</b>	<b>Course Number</b>	<b>Academic Level</b>
SOWK	317	Undergraduate

#### Course Description

Perspectives on Poverty in the United States will provide students with an opportunity to explore the dynamics of and cultural attitudes surrounding poverty in the United States. This course will provide an atmosphere conducive to critical thinking, personal reflection, and social action. The essential inquiry of the course is to task students with critical interrogation of the question "what is poverty all about?" using multiple perspectives and diverse frameworks. To do this, students will explore diverse disciplinary viewpoints,

including those of sociology, social work, economics, history, and media. This course will use an historical lens to investigate cultural constructions of the problem of poverty from colonial times to present. Modern conceptualizations of poverty from the perspective of popular culture and our own families and experiences will likewise be interrogated. The primary lens of the course will be the use of personal narratives that people in poverty have written about their own experience to help students develop social empathy. Additionally, the course will task students to also explore both cultural and personal assumptions associated with poverty, a pedagogical strategy that will help poise them to begin a journey as community leaders in advancing social justice. Throughout this critical inquiry, students from all disciplines will explore the complexities of poverty and economic vulnerability, developing empathy, knowledge, and skills that will help them to become thoughtful and productive citizens in any field.

## SOWK521 - Macro Social Work Practice

### Course Information

#### Course Title

Macro Social Work Practice

Subject code	Course Number	Academic Level
SOWK	521	Graduate

#### Course Description

Conceptualizes macro social work as the profession that brings about social change. The course extends from understanding theories about communities and organizations to assessment and practice. Students will focus on analysis of the community as a social system, common strategies for producing change in community work, the nature of formal organizations as environments through which social services are provided in the community, and the knowledge and skills necessary to effect change within organizations. Students will examine the role of a macro social worker as program developer, program administrator and organization developer. This course may be offered in multiple modalities. Prereq: SWK/SOWK 520; Coreq: SOWK 531.

## SOWK608 - Administration and Supervision

### Course Information

**Course Title**

Administration and Supervision

Subject code	Course Number	Academic Level
SOWK	608	Graduate

### Course Description

This course is designed to expand students knowledge of and skills in effective program management of human services organizations and to provide approaches for managing service programs effectively. Organizational and management theories and principles are applied to a range of human services. This course will provide students with an introduction to the knowledge and skills necessary to perform managerial and supervisory functions in public and private human service organizations, including those that have historically served populations at risk. It will examine the structure and processes of human service organizations, the process of management, and organization building. The course will also cover different supervisory approaches and techniques and consider supervisory challenges that arise in various practice settings. During this course, students will be provided with opportunities to build competencies.

## SOWK609 - Introduction to Art Therapy

### Course Information

**Course Title**

Introduction to Art Therapy

Subject code	Course Number	Academic Level
SOWK	609	Graduate

### Course Description

This advanced elective course explores the principles and the techniques of art therapy and considers the usefulness of art therapy in providing alternatives and supplements to the customary verbal methods of intervention. Ways of working with clients at various stages of the life cycle, childhood through later adulthood, and with clients who are on different levels of psychosocial functioning are examined. Issues in art therapy are explored both cognitively and experientially. Previous training in the visual arts and artistic ability are not required. This course will meet 2/3 online and 1/3 in the classroom. Offered periodically. Prereq or Coreq: SOWK 601 or SOWK 531.

### Simple Requisites

## SOWK610 - Advanced Human Behavior in the Social Environment

### Course Information

**Course Title**

Advanced Human Behavior in the Social Environment

Subject code	Course Number	Academic Level
SOWK	610	Graduate

### Course Description

This advanced practice course, with heavy focus on clinical assessment, provides students with a conceptual framework for clinical social work practice with individuals. The course will emphasize assessing clients systems at the micro level, with a particular focus on diagnoses, assessment and

treatment of individuals. The course maintains a multicultural, strengths perspective and a focus on diversity, rural populations, and social and economic justice. This course may be offered in multiple modalities. Prerequisite(s): SWK/SOWK 531 or SWK/SOWK 601 (the latter may be taken concurrently).

#### Simple Requisites

## SOWK611 - Children and Youth At-Risk

### Course Information

#### Course Title

Children and Youth At-Risk

Subject code	Course Number	Academic Level
SOWK	611	Graduate

#### Course Description

This course is an in-depth study of the concepts, policies, practices and research in the field of child services, including school social work and child welfare. In addition, this course will provide a detailed exploration and understanding of a range of at-risk children and youth populations and their families. This comprehensive understanding will assist practitioners to effectively conduct an assessment and develop a treatment plan listing evidence-based intervention strategies and/or prevention programs that will effectively meet the complex needs of at-risk populations and their families. The challenges and ethical dilemmas confronting social work practitioners working with at-risk populations and their families will also be addressed. Prereq or Coreq: SOWK 521 or 601. Offered in summer.

## SOWK617 - Addictions in Field of SOWK

### Course Information

#### Course Title

Addictions in Field of SOWK

Subject code	Course Number	Academic Level
SOWK	617	Graduate

#### Course Description

This course will focus on the topic of addictions, preparing students to recognize and intervene when clients and their families demonstrate addictions problems in a wide range of social service agencies and host settings, such as child welfare, mental health, aging, schools, health care, corrections, and drug and alcohol programs. The course will examine the evolving models of alcohol and chemical dependency to the present day understanding of the disease model, including an examination of the neurobiology of addiction and basic pharmacology including medication assisted therapies. The concept of harm reduction is introduced. Using a case studies approach, students will develop assessment and intervention skills. The course will address professional issues including credentialing, confidentiality and ethics.

## SOWK616 - Leadership Dynamics in SW Prac

### Course Information

#### Course Title

Leadership Dynamics in SW Prac

Subject code	Course Number	Academic Level
SOWK	616	Graduate

#### Course Description

Leadership theories and practices that are relevant to professional social work. The course prepares students for effective leadership practice in both formal leadership positions (i.e. administrative positions) and informal leadership (i.e. amongst colleagues). Students will be able to apply the course concepts to their work as advanced generalist practitioners at micro, mezzo and macro levels. Leadership issues and challenges within a multicultural context and variety of settings including nonprofit, public, for-profit, community-based, political, national and international organizations will be explored. Students will assess their own and others' leadership styles in order to build competence as leaders. Students will create an individual leadership development plan based on key leadership theories and models. Special emphasis will be placed on the need for evidence-based leadership practice and leadership for social and economic justice.

**Additional Comments:**  
**SOWK619 - Global Perspectives in SOWK**

## Course Information

### Course Title

Global Perspectives in SOWK

Subject code	Course Number	Academic Level
SOWK	619	Graduate

### Course Description

Students will be exposed to global issues and understand how the institution of social welfare has developed in different regions of the world. The course examines globalization and its effect on social welfare and human need. As a way of understanding how different regions and countries have responded to human need, the course explores the specific areas of women in developing countries, street children and child labor, HIV in the developing world, and the plight of refugees. The role of international organizations, such as the World Bank, the International Monetary Fund, the agencies of the United Nations, and nongovernmental organizations (NGOs) in shaping international welfare policy and services will be examined.

SOWK622 - Military Social Work Practice

Course Information

Course Title  
Military Social Work Practice

Subject code	Course Number	Academic Level
SOWK	622	Graduate

**Course Description**  
This elective course provides students with specialized knowledge of working with military personnel, veterans and their families. Military social work is a unique service and intervention focus designed to help social workers enhance their overall knowledge and skill set in support of service women and men as well as their family and supportive care givers. Students will have opportunities to learn the history, theoretical underpinnings, and foundation and practical applications to specific client populations.

SOWK623 - Narrative Therapy

Course Information

Course Title  
Narrative Therapy

Subject code	Course Number	Academic Level
SOWK	623	Graduate

**Course Description**  
This elective course provides students with specialized knowledge of narrative therapy in clinical social work practice. Narrative therapy is a unique intervention designed to help clients express and re-author their life stories. This course focuses on narrative therapeutic techniques applied to working with individuals, families, and groups. Students will have opportunities to learn the history, theoretical underpinnings, and foundations of narrative therapy as well as the clinical applications to specific client populations. Through interactive practice activities, including the use of case studies, film, and roleplays, students will develop an understanding of narrative therapy as an empowering approach in working with diverse populations.

SOWK624 - From Hobohemia to Housing First: A Critical Reflection of Homelessness in the United States

Course Information

Course Title  
From Hobohemia to Housing First: A Critical Reflection of Homelessness in the United States

Subject code	Course Number	Academic Level
SOWK	624	Graduate

**Course Description**  
Provides students with an historical overview of homelessness as a social problem in the United States. Students will examine the disparate conceptualizations of homelessness over time and the individual, community, and policy approaches intended to address it. Emphasis will be placed on contemporary issues in homelessness service delivery. This course may be offered in face/face, blended, or

100% online formats (with asynchronous and/or synchronous components). Prereq: SOWK/SWK 601or SOWK/SWK 531. Offered periodically.

## SOWK627 - SOWK, Sport & Mental Health

### Course Information

Course Title

SOWK, Sport & Mental Health

Subject code	Course Number	Academic Level
SOWK	627	Graduate

#### Course Description

Explore the connection between mental health and sport, as well as the role of social workers in intervening with athletes of all levels to address mental health issues clients may encounter or have developed as a result of athletic participation. Additionally, the course will review, critique and address current interventions with athletes, and will seek to focus on new and emergent evidence-based modalities of treatment for athletes. Prereq: MSW program admission and SOWK 501 or permission of instructor.

**Additional Comments:**

## SOWK700 - Social Work Leadership I

### Course Information

**Course Title**

Social Work Leadership I

Subject code	Course Number	Academic Level
SOWK	700	Graduate

**Course Description**

This is the first of a sequence of two courses on advanced leadership and management for Doctor of Social Work students. Students will glean a theoretical orientation to the study of organizations and leadership within organizations. This examination of theories will reflect the values of the social work profession and their application to social service systems, structures, and processes. Also explored will be theories of organizational change, organizational challenges, and organizational effectiveness. Within the context of social service organizations, leadership approaches and theories are also examined.

## SOWK701 - Social Work Leadership II

### Course Information

**Course Title**

Social Work Leadership II

Subject code	Course Number	Academic Level
SOWK	701	Graduate

**Course Description**

This is the second course in the advanced leadership and management sequence. The focus of this course is on development of knowledge and skills for social work managers within the public and private social service sector. Additional attention will be given to leading in times of fiscal constraint, political changes, and workforce challenges.

**Additional Comments:**

## SOWK704 - Social Work Teacher-Scholar I

### Course Information

#### Course Title

Social Work Teacher-Scholar I

Subject code	Course Number	Academic Level
SOWK	704	Graduate

#### Course Description

This is the first of a sequence of two courses on social work teaching and scholarship for Doctor of Social Work students. The course will enable the students to critically examine seminal and contemporary works in pedagogy. The connection of these theories to social work teaching and learning will be a central component of this course, including particular emphasis on the historical evolution of social work education. The course provides students with an opportunity to explore seminal works from a historical perspective and critically evaluate contemporary theories of teaching and learning in social work. It is required preparation for the second course in the sequence in which students develop a unique and personal conceptual framework for their own teaching.

## SOWK705 - Social Work Teacher-Scholar II

### Course Information

#### Course Title

Social Work Teacher-Scholar II

Subject code	Course Number	Academic Level
SOWK	705	Graduate

#### Course Description

This is the second in a sequence of two courses about social work teaching and scholarship for Doctor of Social Work students. The course provides students with an opportunity to critically evaluate theories of teaching and learning, particularly in contemporary settings in social work. Students will craft a conceptual framework to guide their own career as instructors in a variety of social work settings, including undergraduate and graduate professional social work education. They will practice course planning and delivery along with program development and student/course/program assessment with attention to accreditation requirements. In addition, they will develop understanding of the roles of the social work teacher-scholar in academe and other settings.

### Course Information

#### Course Title

Comprehensive Seminar

Subject code	Course Number	Academic Level
SOWK	774	Graduate

#### Course Description

Students will engage in a collaborative learning experience in which they assess whether as doctoral students they have acquired the knowledge and skills necessary for proceeding with the development of a Doctoral Dissertation. Utilizing a phenomenon of interest, students will demonstrate their ability to conceptualize a clear and compelling research topic by organizing, presenting, and critiquing both theoretical and empirical knowledge related to the phenomenon. Further, students will identify areas needing further exploration as well as possible research methods to conduct the proposed research. The Preliminary Paper must demonstrate that the student has acquired a sufficiently broad understanding of the phenomenon of interest and indicate that the student is prepared to add to knowledge in the field through an independent in-depth study of a topic relevant to best practices in social work related to leadership, teaching, or both. Students will orally defend their comprehensive paper at Residency. The defense will include an overview of the phenomenon as well as a summary of the research question that could be employed should students continue with the same topic for their dissertation.

#### Simple Requisites

##### Course Prerequisites

##### Type

SOWK	775	Graduate

#### Course Description

Students will engage in a collaborative learning experience in which they explore different ways of knowing in social sciences. They will become familiar with a variety of theoretical perspectives and will practice integrating those theories with their professional social work practice as they work toward formulating a research question and identifying a relevant theoretical perspective from which to examine it in the upcoming dissertation. Ethical considerations in research will be examined, and students will become familiar with their institution's IRB process. Students will consider deeply the relationship between their education and their future roles as leaders and educators.

Special Education Department

Millersville University's PK-12 Special Education is taught by knowledgeable faculty with extensive expertise in the range of exceptionalities and ages.

PK-12 schools nationwide experience an ongoing need for qualified special educators. Students enrolled in Millersville University's PK-12 Special Education program will acquire the skills to fulfill and thoroughly address the needs of students with disabilities in multiple settings.

This program also offers unique educational experiences beyond the classroom including internships with local organizations and extensive and diverse field study opportunities.

Graduates receive their Bachelor of Science in Education (B.S.E.) and are eligible for Pennsylvania teaching certification in Special Education, Grades PK-12.

Millersville University is accredited by the Middle States Association of Colleges and Schools and approved by the American Association of University Women. The Elementary and Early Childhood programs have been accredited by the Council for the Accreditation of educator Preparation (CAEP).

What Will You Learn?

Millersville University's experienced professors create an inclusive learning environment that models best practices for teaching through respect, collaboration, mutuality and the realization of each individual gift.

The PK-12 Special Education Certification program will equip you with the knowledge and skills to support students with varying strengths, needs, and disabilities from Pre-K to 12th grade.

All MU education programs involve a Foundations Block which explores the structure and function of contemporary public schools and recent and historical themes in the psychology of teaching and learning. Professional Blocks which focus on instructional technology and positive learning environments, and a semester of student teaching.

As a special education major, you will progress through Professional Blocks in Early Childhood or Secondary Education in addition to Professional Blocks in Special Education. You will also participate in two student teaching experiences at the elementary and secondary levels to direct your career aspirations after graduation.

Career Opportunities:

- Special Education Teacher
- Special Education Advocate
- Special Education Consultant
- Establish a foundation for focused Masters studies in related areas
- Early Childhood Education Teacher
- Secondary Education Teacher

Course Description

This introductory course is designed to prepare future special educators with the knowledge base for the identification, placement and instruction of learners with disabilities who are eligible to receive special education services across the continuum of educational environments. Included are historical considerations, educational and developmental needs of individuals with disabilities, special education programs, services, resources, and materials. In addition, practical exposure to individuals with disabilities will be emphasized.

SPED237 - Applied Foundations of Contemporary Special Education

Course Information

Course Title

Applied Foundations of Contemporary Special Education

Subject code	Course Number	Academic Level
SPED	237	Undergraduate

1306 / 1368

Course Description

This course identifies the complex sociocultural history that has brought us to where we are in special education practice today. It presents the contemporary and historical influences of the American school system and how special education is integrated into the modern classroom. The overrepresentation of economically disadvantaged, and culturally and linguistically diverse populations in special education is explored through careful consideration of cultural collaboration, current sociological variables and analysis of causes and prevention strategies. Individual learning differences and the development of academic and functional performance needs of students with disabilities are considered historically, legally, educationally, culturally and socially. Prereq: requires submission of satisfactory FBI, Act 34/151 clearances. Offered in fall, spring. Coreq: must be taken simultaneously with EDFN 211, 241, ERCH 225.

SPED311 - Assessment for Designing & Implementing Instruction

Course Information

Course Title  
Assessment for Designing & Implementing Instruction

Subject code	Course Number	Academic Level
SPED	311	Undergraduate

Course Description  
This course enables teacher candidates to develop competencies for assessing students in an inclusive classroom setting, design instruction and make instructional decisions to enhance students learning. Teacher candidates learn how to assess, analyze and interpret data from formal (standardized) and informal (traditional and alternative) testing sources and measurement. Teacher candidates learn how to interpret reports as relevant to students from diverse learning backgrounds and use these interpretive results along with behavioral observation, task analysis and other types of measurement to design instruction. Offered in fall, spring, summer. Prereq: Act 34, 151, 114 clearances, ENGL 110, SPED 101, and Foundation Block.

### Course Information

#### Course Title

Serving Individuals in Inclusive Settings

Subject code	Course Number	Academic Level
SPED	321	Undergraduate

#### Course Description

This course prepares teacher candidates to effectively teach students with severe and multiple disabilities within an inclusive educational system. By incorporating theory with aspects for identification, specialized support services, instruction and relevant special education law, teacher candidates become knowledgeable of their responsibilities as teachers of students with severe and multiple disabilities. Teacher candidates learn to differentiate and individualize instruction for the developmental and chronological requirements of their students. Teacher candidates become practiced in referencing alternate learning standards and general education curricula to facilitate the achievement of their students with severe and multiple disabilities in a variety of learning environments. Offered in spring. Prereq: ENGL 110; Act 34, 151, 114 clearances and admission to Advanced Professional Studies (APS). Coreq: ERCH 421, SPED 341.

SPED330 - Discrimination and Oppression of People with Disabilities

Course Information

Course Title

Discrimination and Oppression of People with Disabilities

Subject code

Course Number

Academic Level

SPED

330

Undergraduate

Course Description

Examines social discrimination through consideration of the policies and practices of societies. Creates an understanding of the social, political and cultural, rather than the physical or psychological, determinants of the experience of disability. Disentangles impairments from the myths, ideology and stigma that influence social interaction and social policy. Through course content and activities, students will challenge the idea that the economic and social statuses and the assigned roles of people with disabilities are the inevitable outcomes of their condition. Offered in fall, spring, summer. Prereq: COMM 100, ENGL 110 and junior status.

## SPED341 - Early Intervention to Kindergarten

### Course Information

#### Course Title

Early Intervention to Kindergarten

Subject code	Course Number	Academic Level
SPED	341	Undergraduate

#### Course Description

This course examines the implications of federal mandates for providing educational and supportive services for infants/toddlers/preschoolers with disabilities and their families. The teacher candidates gain knowledge in interpreting data from formal and informal sources to be utilized in developing Individualized Family Service Plans (IFSP). The teacher candidates use case study and field experience data to recommend appropriate school-based programs for young children with disabilities. They also implement effective teaching strategies to meet the family, academic, social, emotional and behavioral needs of young children with disabilities in inclusionary environments. These strategies will be applied in field placements during the semester. Offered in spring. Prereq: EDFN 211, 241, ERCH 225 or EDUC 220; SPED 237; Act 34, 151, 114 clearances and admission to Advanced Professional Studies (APS). Coreq: ERCH 421, SPED 321.

SPED361 - Formal Assessment for Students with Disabilities

Course Information

Course Title

Formal Assessment for Students with Disabilities

Subject code	Course Number	Academic Level
SPED	361	Undergraduate

Course Description

Designed to prepare Special Education teacher candidates to effectively develop competencies for assessing PK-12 students with disabilities according to IDEA (Individuals with Disabilities Education Act). Teacher candidates will acquire knowledge for administration, scoring, and interpretation of formal assessment devices typically used in educational evaluations. Furthermore, teacher candidates will learn how to properly select formal assessment tools in terms of reliability, validity and norm populations and learn about integrated systems of assessment and data collection for identification of students struggling to meet academic and behavioral expectations. Teacher candidates will learn the role of educational evaluations in developing Individual Education Programs (IEP) for students in need of support in the general

Education. Teacher candidates will learn professional ways to collaborate with parents and include them as equal partners in the assessment process.

SPED443 - Reflective Practices

Course Information

Course Title

Reflective Practices

Subject code	Course Number	Academic Level
SPED	443	Undergraduate

Course Description

This course prepares teacher candidates with the necessary skills to develop cultural sensitivity to work effectively with diverse families and their students with disabilities (mild/moderate disabilities). Teacher candidates explore culture and diversity as they apply to families, educators, and influences on daily activities, identity development, and systems of power and privilege in the educational system. Teacher candidates develop their ability to be culturally responsive, open, and respectful educators. Teacher candidates develop their professional dispositions consistent with family and student centered educational planning, program

implementation and community collaboration centered on students with disabilities (mild/moderate; severe/multiple disabilities) and their diverse families.

## SPED444 - Transition Planning and Secondary Programming for Individuals with Disabilities

### Course Information

**Course Title**

Transition Planning and Secondary Programming for Individuals with Disabilities

Subject code	Course Number	Academic Level
SPED	444	Undergraduate

**Course Description**

This course is intended to develop competencies for individual program planning and instructional management. It prepares students to develop strategies to deliver curriculum in inclusive environments through the Individualized Education Program (IEP). The transition components of the IEP will be emphasized to prepare secondary teachers to understand their role in developing goals, planning and selecting options for postsecondary education, employment, and independent living goals for youth with disabilities.

## SPED445 - Individualized Educational Planning

### Course Information

**Course Title**

Individualized Educational Planning

Subject code	Course Number	Academic Level
SPED	445	Undergraduate

**Course Description**

This course prepares teacher candidates will identify students strengths, needs, preferences, and interests to incorporate into Individualized Education Programs. Teacher candidates will compile the necessary data with the intent of facilitating success in current and future experiences, planning instruction, and implementing supports focused on an inclusive lifespan perspective of students with disabilities. Teacher candidates will learn to develop effective strategies for grade to grade transition practices to support services in the least restrictive environment. Teacher candidates will develop their knowledge of the variety of appropriate K-12 educational environments and supports for students and plan for these based upon current special education laws and regulations and the most effective research-based practices. This course must be taken as a co-requisite with other Professional Bloc II courses. Prerequisite: Admission to Advanced Professional Studies Status, successful completion of Professional Block I.

Course Description

This seminar, taken in conjunction with Student Teaching, is for all teacher candidates in the PK-12 Special Education Certification program. This seminar provides teacher candidates the opportunity to refine their knowledge of evidence-based practices in literacy, mathematics, and the core content areas for students with exceptionalities in grades PK-12 (for example peer-assisted learning strategies, self-regulated strategy instruction, etc.). Teacher candidates will select, implement, and evaluate the success of evidence-based practices through the collection and analysis of student data.

SPED546 - Sec Stdnts w Disab Inclu Sttgs

Course Information

Course Title

Sec Stdnts w Disab Inclu Sttgs

Subject code	Course Number	Academic Level
SPED	546	Graduate

Course Description

This course is designed to prepare secondary education majors to effectively teach students with disabilities in inclusive classrooms. Participants will learn legal mandates, secondary general educators role in the special education process, and the academic and social implications of inclusion. Participants also will learn to facilitate academic achievement for students with mild and moderate disabilities in inclusive secondary education by planning, adapting, and implementing effective instruction. Cross-listed with SPED 346, credit may not be received for both.

- EDFN241 - Psychological Foundations of Teaching  
OR EDFN241H - Hon:Psychological Foundations of Teaching

**Additional Comments:**

SPED578 - Special Education Law

Course Information

Course Title

Special Education Law

Subject code	Course Number	Academic Level
SPED	578	Graduate

Course Description

The purpose of the course is to learn about the legal background of special education from its historical experience through its rapid development in the 1970s and 1980s to its

current and future impact. Students will become familiar and conversant in the Pennsylvania and Federal Regulations and Standards, appropriate case law, and how Section 504 of the Rehabilitation Act of 1973 impacts and interacts with special education law and the due process hearing system. Federal statutes governing special education will be reviewed. Offered periodically.

SPED586 - Topics in Special Education

Course Information

Course Title

Topics in Special Education

Subject code	Course Number	Academic Level
SPED	586	Graduate

Course Description

Specific topics are chosen that may serve as a change agent for special education programs in which students with disabilities are the prime responsibility.

SPED600 - Introduction to Exceptional Education

Course Information

Course Title

Introduction to Exceptional Education

Subject code	Course Number	Academic Level
SPED	600	Graduate

Course Description

The Introduction to Exceptional Education course is designed to provide an historical and contemporary overview of the special education process while focusing on various types of learners with special needs including students with disabilities, twice exceptional learners, and children at risk. Topics include legal requirements and laws, partnering with parents/families, categories of exceptionality, identification and intervention, collaboration, and research-based best practices, including Response to Intervention (RTI) and Universal Design for Learning (UDL).

SPED601 - Psyc of Stdnts w/ Disabilities

Course Information

Course Title

Psyc of Stdnts w/ Disabilities

Subject code	Course Number	Academic Level
SPED	601	Graduate

### Course Description

A survey course of physical, psychological and social aspects of individuals with disabilities. Special attention is paid to disability as a socially constructed experience for people with disabilities as it pertains to learning processes, educational systems and social roles. The historical development of education and human service programs for individuals with disabilities is given consideration. Current terminologies and trends are emphasized. Multicultural aspects are included as they pertain to special education.

## SPED611 - Seminar in Learning Disabled

### Course Information

#### Course Title

Seminar in Learning Disabled

Subject code	Course Number	Academic Level
SPED	611	Graduate

#### Course Description

Advanced study and research concerning the mind, mental processes, feelings, desires, actions, traits, attitudes and thoughts of children with neurological impairments and/or learning disabilities, as well as an investigation of major educational theories and approaches. The student will investigate the consistencies of the basic premises and issues of the field as well as establish the current state of the art. Emphasis will be on definition, identification, characteristics, education and research of students with learning disabilities. Offered in summer.

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

SPED580 and SPED600 and SPED601

#### Complete ALL of the following Courses:

- SPED680 - Diagnostic and Assessment Strategies for Students with Disabilities
- SPED600 - Introduction to Exceptional Education
- SPED601 - Psyc of Stdnts w/ Disabilities

#### Additional Comments:

## SPED618 - Advanced Topics in Early Intervention

### Course Information

#### Course Title

Advanced Topics in Early Intervention

Subject code	Course Number	Academic Level
SPED	618	Graduate

#### Course Description

For practicing teachers or master-level students who will be called upon to develop, implement and evaluate early-intervention programs for students with developmental delays and students who are at risk for school delays. Includes examination of areas that interfere with normal development, assessment of the needs of young children and the design of programs to facilitate growth. Includes the importance of family involvement and evaluates instructional strategies intended to enhance the child's success. Covers skills in accordance with family-centered services and participation in interagency, collaborative efforts. - Course focuses on the role of the reading specialist as a literacy leader. Topics will include theoretical orientations, the observation and supervision of reading, principles of staff development, principles of coaching and leadership practices.

#### Simple Requisites

#### Additional Comments:

## SPED621 - Multicultural Aspects

### Course Information

#### Course Title

Multicultural Aspects

Subject code	Course Number	Academic Level
SPED	621	Graduate

Course Description

Covers desirable changes in attitudes, perceptions, understandings and practices when working with children and youth who are educationally disadvantaged and whose disadvantage is caused by lower socioeconomic status or other demographic considerations, including race and ethnicity. Multicultural groups may include African Americans, Native Americans, Latin Americans and Appalachians. Remedial programs are evaluated and recommendations are made. Offered in spring.

**Additional Comments:**

SPED651 - Advocacy and Leadership in Special Education

Course Information

Course Title

Advocacy and Leadership in Special Education

Subject code	Course Number	Academic Level
SPED	651	Graduate

Course Description

This course orientates the student with advanced opportunities, roles, and skills available to the educator. Students will learn how to be effective advocates for students and their families, as well as how to develop leadership skills in the special education classroom and beyond. Emphasis will be placed on relevant professional organizations and careers that highlight special education advocacy and leadership. Regular access to a special education classroom is highly recommended.

SPED652 - Issues of Diversity in Special Education

Course Information

Course Title

Issues of Diversity in Special Education

Subject code	Course Number	Academic Level
SPED	652	Graduate

Course Description

Allows the student to examine and reflect upon a variety of social constructs, intercultural issues, and curriculum development through the lenses of special education history, disability studies and social justice. The implications for future research and practice will be explored in respect to the development of local, national and international policies for diverse children, adults and families impacted by disabilities.

This course requires both in-class instruction and out of class application. Regula access to a special education classroom is highly recommended.

SPED653 - Consultation & Collaboration

Course Information

Course Title

Consultation & Collaboration

Subject code	Course Number	Academic Level
SPED	653	Graduate

Course Description

Designed to prepare educators to effectively collaborate and problem-solve with students, families, and other professionals. A major emphasis in this course will include co-planning, co-instruction, and co-reflection through demonstration lessons. Additional content in this course will address the legal requirements associated with referral and procedural safeguards for parents and youth with disabilities. Emphasis will be placed on consultation and communication strategies to facilitate collaboration within schools and the surrounding community. (3 credits) . Regular access to a special education classroom is highly recommended.

SPED654 - Advance Pedagogy in Special Education

Course Information

Course Title

Advance Pedagogy in Special Education

Subject code	Course Number	Academic Level
SPED	654	Graduate

Course Description

Familiarizes experienced educators with an in-depth examination of research based pedagogical methods used to improve academic, social, behavioral, and transitional outcomes for Pre K-12 students with disabilities. Current instructional and assistive technologies will be explored. Specific topics and strategies explored in course will be aligned to the strengths and preferences of each student. Selection, implementation, and assessment of appropriate teaching strategies with an authentic audience or through case studies will be expected. out of class application. Regular access to a special education classroom is highly recommended.

SPED665 - Transition and Supportive Employment for Adults with Disabilities

Course Information

Course Title

Transition and Supportive Employment for Adults with Disabilities

Subject code	Course Number	Academic Level
SPED	665	Graduate

Course Description

Transition planning for secondary students with disabilities, with specific emphasis on making appropriate job-placement decisions. Job categories will also be examined to assist in making meaningful matches between the worker and job. Programs that facilitate development of a congruence between job and employee are included, as well as agencies and other resources that might assist in job placement. Offered infrequently.

SPED695 - Accomplished SPED Capstone

Course Information

Course Title  
Accomplished SPED Capstone

Subject code	Course Number	Academic Level
SPED	695	Graduate

Course Description  
This course enables the student to put theory into practice as it pertains to the professional contributions of an accomplished special education teacher. In accordance with the ongoing consultation of the instructor, the student will design, implement, and reflect upon a major capstone project aligned with the objectives of the program. Capstone examples include, but are not limited to (a.) action research, (b) creation/presentation of professional development, (c.) creation/presentation of original scholarship at a professional conference, (d.) mentorship of a pre-service or new special

education teacher, (e.) grant writing. The course is 3 hours (pass/fail). However, if the student is unable to complete all requirements of the course during a single semester, they may re-enroll for 1 credit up to 2 additional, consecutive semesters for a total of 5 credits.This course requires both in-class instruction and out of class application. Regular access to a special education classroom is highly recommended. Pre-requisites: Completion of all SpEd MEd coursework. Up to 6 credits (not from the Knowledge Core) may be taken concurrently.

SPED799 - Appl Supervsn: Sped

Course Information

Course Title

Appl Supervsn: Sped

Subject code	Course Number	Academic Level
SPED	799	Graduate

Course Description

Provides prospective supervisors with field experience and problems encountered in the schools. Emphasis on defining and identifying pupils in all areas of disability, planning and operating a comprehensive special education program, and emphasis on techniques in assisting teachers in evaluating and improving their curricula and their teaching techniques.

Technology and Innovation Department

The Master of Science in Technology & Innovation is a unique program designed to complement and enhance your undergraduate degree with new ways of thinking about the world. Discovering and mastering the use of valuable thinking skills such as creativity, problem solving, critical thinking, decision making, design, and innovation are focuses of the program.

This program is ideal for: Teachers with a range of backgrounds in education, content areas and grade levels who are interested in further developing and strengthening their teaching abilities; and. Entrepreneurs, scientists, engineers, and other professionals seeking career advancement and psychological insight as to how people think and grow.

Programs

Technology Education Post-Baccalaureate Certification

**Overview**

The Department of Applied Engineering, Safety & Technology offers a certification program for individuals seeking to become technology education teachers, but do not need to complete a second four-year degree. People with existing undergraduate degrees may elect to seek certification on either a graduate or undergraduate level.

## Requirements

### Fulfill ALL of the following requirements:

#### Foundations Bloc

### Fulfill ALL of the following requirements:

#### Foundations of Modern Education (3 credits)

### Complete at least 1 of the following courses:

- EDFN590 - Social Foundation of Educ
- EDFN211 - Foundations Modern Education
- OR EDFN211H - H: Foundations Modern Education

AND

#### Psychological Foundations of Teaching (3 credits)

### Complete at least 1 of the following courses:

- EDFN545 - Advanced Educational Psychology
- EDFN241 - Psychological Foundations of Teaching
- OR EDFN241H - Hon:Psychological Foundations of Teaching

We recommend 590 and 545 for Post-Bacc students. These courses each require 35 hours field placement at an urban school. Offered in the evenings Fall and Spring. Also offered in Summer Session. If enrolling in EDFN211 Foundations Modern Education/EDFN241 Psyc Foundation of Teaching and please register for both courses in the same block.

AND

#### APS - Professional Bloc

### Fulfill ALL of the following requirements:

#### Content Area Literacy for Diverse Classrooms (3 credits)

### Complete at least 1 of the following courses:

- EDSE340 - Content Area Literacy for Diverse Classrooms
- EDSE540 - Cntnt Area Litrcy Divers Class

AND

#### Secondary Students w/Disabilities in Inclusive Settings (3 credits)

### Complete at least 1 of the following courses:

- SPED346 - Secondary Students w/ Disabilities in Inclusive Settings
- SPED546 - Sec Stdnts w Disab Inclu Sttgs

AND

#### Foundations of Technology Education (3 credits)

### Complete ALL of the following Courses:

- EDTE291 - Foundations of Technology & Engineering Ed

AND

#### Curriculum/Instruction in Technology Education (3 credits)

### Complete ALL of the following Courses:

- EDTE391 - Curr & Inst in Tech & Eng Ed

AND

#### Innovation and Design Methods (2-6 credits)

### Complete at least 1 of the following courses:

- EDTE496 - Innovatn/Design Methodologies
- EDTE698 - Research and Development Technical Project

Students must meet APS eligibility requirements prior to registering. Course Appropriate PRAXIS II Exam should be taken after Professional Bloc, but prior to Student Teaching.

AND

#### Student Teaching Seminar (4 credits)

### Fulfill ALL of the following requirements:

#### Required Courses (3 credits)

### Complete ALL of the following Courses:

- EDSE471 - Student Teaching Seminar

— AND —

Seminar in Technology Education (1 credit)

**Complete ALL of the following Courses:**

- EDTE491 - Seminar in Techn & Engring Ed

File your Intent to Student Teach Card one year prior to the beginning of the semester in which you wish to Student Teach. [Access the Student teaching Website](#)

— AND —

Student Teaching Semester (9 credits)

**Complete at least 1 of the following courses:**

- EDSC461 - Student Teaching in Science
- EDSC462 - Student Teaching in Science

Students must meet APS eligibility requirements prior to registering. Submit your Teacher Certification Packet 90 days prior to completion of your certification program. [Access the packet on the Certification Website.](#)

**Additional Comments:**

## Technology and Innovation, M.S., Education Concentration

### Overview

The Master of Science in Technology and Innovation degree program has been created for students from a variety of backgrounds, including education; business and industry; science and technology; and entrepreneurship. The program has two concentrations from which to choose— education and enterprise. The courses in the program are designed to develop and engage students in creativity, design thinking, innovation, ingenuity, problem solving, critical thinking, decision making, research, curiosity, scholarship, leadership, and professionalism. The thinking processes of professionals such as designers, engineers and entrepreneurs are the foundation of the Technology and Innovation core courses. These thinking processes are universal and enduring concepts and are widely considered important tools for success in a world submerged in technology. Experiences in this program provide students with insight as to how their own thinking processes affect them in both their personal and professional

lives, and how those thinking processes can be modified to meet the circumstances. Teachers, employees and business leaders alike will learn to think about their own thinking. The Technology and Innovation program is structured to be flexible enough to allow students to customize their graduate studies to a significant degree. This flexibility enables students in the program to make choices, including which option works best to complete the program, the topic to explore through a thesis or research and development technical project, or the variety of courses from which to choose to address one's areas of interest or professional development needs.

## Admission Requirements

Applicants must possess a baccalaureate degree. Students holding a variety of baccalaureate degrees can benefit from the completion of the Master of Science in Technology and Innovation. Admission to the program is granted after a favorable review of application materials. A minimum undergraduate cumulative average of 3.0 is required. Applicants with less than a 3.0 GPA are required to submit test scores from either the Miller Analogies Test (MAT) or the Graduate Record Examination (GRE) that are determined to be acceptable by the department. Probationary admission may be granted at the discretion of the department. See the *Admission Requirements* section for additional application information. Selected graduate courses may be credited toward both graduate-level certificates or teaching endorsements and the master's degree in technology and innovation. See the department chairperson or graduate program coordinator for further information.

## Degree Requirements

Each student is required to complete all four courses in the technology and innovation core and either the education core or the enterprise core (depending on the degree concentration selected), and the identified expectations of one of the three degree-completion options.

1. Option 1 - the Thesis Option. A thesis [EDTE699 Thesis](#);) must be satisfactorily completed as part of a minimum of 30 s.h. of approved graduate study.
2. Option 2 - the Applied Research Option. Requires satisfactory completion of [EDTE698 Rsrch & Dev Technical Project](#) Research and Development Technical Project as part of 33 s.h. of approved graduate study.
3. Option 3 involves the completion of 36 s.h. of graduate study by taking five approved elective courses which have been selected based on their fit to the professional development needs of the student.

Technology and innovation and other approved courses in related disciplines are elected to complete the semester-hour requirements. The graduate program coordinator serves as the advisor for all graduate students pursuing a master's degree. Master's degree candidates who elect the thesis option will select, in consultation with the graduate coordinator, a thesis advisor from the Department of Applied Engineering, Safety and Technology. The thesis advisor will work with at least two other members of a student's thesis committee. These other committee members must consist of at least one other graduate-level faculty member of the Department of Applied Engineering, Safety and Technology. The third member must come from outside of the department and can be a recognized expert in a given field.

## Degree Candidacy

The student will apply for admission to degree candidacy after completing six to 15 s.h. of graduate-degree credits. Graduate faculty will evaluate the student's performance and provide a written recommendation regarding the individual as a degree candidate. At the time of admission to degree candidacy, the student will consult with the graduate program coordinator to review and update his or her program of studies for completing the degree requirements.

## Curriculum

### Simple Requisites

#### Major in Technology and Innovation - MS Type

#### Completion Requirement

##### Requirements

##### Fulfill ALL of the following requirements:

Technology & Innovation Program Common Core (12 credits)

##### Complete ALL of the following Courses:

- EDTE603 - Fostering Creativity by Design
- EDTE604 - Engineering Principles and Concepts for the Non-Engineer
- EDTE605 - Applying Critical Thinking and Decision Making
- EDTE646 - Writing the Professional Paper

AND

#### Degree Completion Options (9-15 credits)

##### Complete at least 1 of the following:

##### Option 1. Thesis Option (9 credits)

##### Fulfill ALL of the following requirements:

Technology & Innovation Thesis (6 credits)

##### Complete ALL of the following Courses:

- EDTE699 - Thesis:

## Technology and Innovation, M.S., Enterprise Concentration

### Overview

The Master of Science in Technology and Innovation degree program has been created for students from a variety of backgrounds, including education; business and industry; science and technology; and entrepreneurship. The program has two concentrations from which to choose— education and enterprise. The courses in the program are designed to develop and engage students in creativity, design thinking, innovation, ingenuity, problem solving, critical thinking, decision making, research, curiosity, scholarship, leadership, and professionalism. The thinking processes of professionals such as designers, engineers and entrepreneurs are the foundation of the Technology and Innovation core courses. These thinking processes are universal and enduring concepts and are widely considered important tools for success in a world submerged in technology. Experiences in this program provide students with insight as to how their own thinking

processes affect them in both their personal and professional lives, and how those thinking processes can be modified to meet the circumstances. Teachers, employees and business leaders alike will learn to think about their own thinking. The Technology and Innovation program is structured to be flexible enough to allow students to customize their graduate studies to a significant degree. This flexibility enables students in the program to make choices, including which option works best to complete the program, the topic to explore through a thesis or research and development technical project, or the variety of courses from which to choose to address one's areas of interest or professional development needs.

## Admission Requirements

Applicants must possess a baccalaureate degree. Students holding a variety of baccalaureate degrees can benefit from the completion of the Master of Science in Technology and Innovation. Admission to the program is granted after a favorable review of application materials. A minimum undergraduate cumulative average of 3.0 is required. Applicants with less than a 3.0 GPA are required to submit test scores from either the Miller Analogies Test (MAT) or the Graduate Record Examination (GRE) that are determined to be acceptable by the department. Probationary admission may be granted at the discretion of the department. See the *Admission Requirements* section for additional application information. Selected graduate courses may be credited toward both graduate-level certificates or teaching endorsements and the master's degree in technology and innovation. See the department chairperson or graduate program coordinator for further information.

## Degree Requirements

Each student is required to complete all four courses in the technology and innovation core and either the education core or the enterprise core (depending on the degree concentration selected), and the identified expectations of one of the three degree-completion options.

1. Option 1 - the Thesis Option. A thesis ([EDTE699 Thesis](#); Thesis:) must be satisfactorily completed as part of a minimum of 30 s.h. of approved graduate study.
2. Option 2 - the Applied Research Option. Requires satisfactory completion of [EDTE698 Rsrch & Dev Technical Project](#) Research and Development Technical Project as part of 33 s.h. of approved graduate study.
3. Option 3 involves the completion of 36 s.h. of graduate study by taking five approved elective courses which have been selected based on their fit to the professional development needs of the

student.

Technology and innovation and other approved courses in related disciplines are elected to complete the semester-hour requirements. The graduate program coordinator serves as the advisor for all graduate students pursuing a master's degree. Master's degree candidates who elect the thesis option will select, in consultation with the graduate coordinator, a thesis advisor from the Department of Applied Engineering, Safety and Technology. The thesis advisor will work with at least two other members of a student's thesis committee. These other committee members must consist of at least one other graduate-level faculty member of the Department of Applied Engineering, Safety and Technology. The third member must come from outside of the department and can be someone who is a recognized expert in a given field.

## Degree Candidacy

The student will apply for admission to degree candidacy after completing six to 15 s.h. of graduate-degree credits. Graduate faculty will evaluate the student's performance and provide a written recommendation regarding the individual as a degree candidate. At the time of admission to degree candidacy, the student will consult with the graduate program coordinator to review and update his or her program of studies for completing the degree requirements.

Practicum Experience in Technology & Innovation

Students in the Enterprise Concentration must complete a Practicum Experience. Please consult your program coordinator for options.

AND

Culminating Experience in Technology & Innovation

Culminating Experiences include but are not limited to published articles, curriculum artifacts and professional presentations.

**Additional Comments:**

## Wellness & Sport Sciences Department

The Wellness and Sport Sciences Department (WSSD) will inspire students to engage in Millersville University's EPPIIC values and make a difference in the communities where they will live and work.

The mission of WSSD is that we are dedicated to high-quality wellness instruction for all undergraduate students and the delivery of excellent academic programs for undergraduate and graduate students in the sport-related careers of Sport Administration and Management, Sports Medicine, Pre-Athletic Training, and Athletic Coaching.

The WSSD offers one degree with two options leading to the Sport Administration baccalaureate degree.

- Sport Administration with Sport Business concentration
- Sport Administration with any minor or 2nd major

The department also teaches courses for the wellness requirement, which is required for graduation of all Millersville University students. In addition, the department collaborates with other departments within the University to offer several different majors:

- [Multidisciplinary Studies, B.A., Pre-Occupational Therapy Option](#)
- [Allied Health Technology, B.S. - Sports Medicine](#)
- [Allied Health Technology, B.S. - Pre-Athletic Training Dual-Degree Option](#)
- [Communication, B.S. - Journalism Concentration](#)

Moreover, the department offers a minor in athletic coaching for those wishing to develop the knowledge and skills necessary to safely coach athletes; and a minor in sport studies giving students opportunity to examine the role that sport plays in shaping culture and in preparing for sport-related careers in humanities, social and environmental sciences. Students are eligible to receive certification in the American Sport Education Program. Furthermore, the department offers an elective course which grants national certification in first aid. The department also offers a graduate program with a master's degree in sport management, with a concentration in athletic management and athletic coaching.

Students are required to pass three credits in wellness to qualify for degrees. Only [WELL175 Wellness](#) or [WELL240 Health, Safety, Nutr for Child](#) may be used to satisfy the general education, connections and exploration requirement.

## Programs

### Sports Management, M.Ed. - Athletic Coaching Concentration

#### Overview

The Department of Wellness and Sport Sciences offers the M.Ed. in Sport Management, with specialty concentrations in athletic coaching and athletic management. The degree program is designed to meet the needs of full-time students as well as working professionals, including athletic directors, coaches, athletic trainers and sport industry professionals. The program will appeal to individuals involved in the management of professional sport industries, school-based athletics, commercial and community recreation, sport facilities, fitness clubs, and related private-sector enterprises. Studies leading to this M.Ed. are interdisciplinary, drawing on expertise in sport science, educational theory, and research. A thesis option is available.

### Admission Requirements

In addition to meeting regular University admission criteria, applicants for admission to the master's degree program in sport management should have an undergraduate GPA of 2.75 or higher. Applicants with a cumulative GPA between 2.75 and 2.99 will choose to either take the Graduate Record Exam (GRE), Miller Analogies Test (MAT), Graduate Management Admissions Test (GMAT) or complete a face-to-face interview with a short writing assignment on a topic appropriate to the sport management program. Applicants with a cumulative GPA above 3.0 are only required to submit a complete application. Applicants with a cumulative GPA below 2.75 may submit an application for consideration. These students will also need to comply with admission requirements for applicants with a cumulative GPA between 2.75 and 2.99 as previously stated above.

## Athletic Coaching Minor

### Overview

A minor in Athletic Coaching equips students with the principles of coaching, behavior, teaching, physical training and management, which are the essentials to becoming a successful coach. The goal of this program is to train students to be effective teachers and trainers while simultaneously enhancing communication and motivational skills and improving team dynamics and risk management skills.

### Curriculum

#### Simple Requisites

##### *Regulations Governing Minor Course Work*

1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.
2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.

6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.

**Additional Comments:**

## Sport Studies Minor

### Overview

The minor in Sport Studies gives students the opportunity to examine the role that sport plays in shaping culture and provides information needed for sport-related careers in the humanities and the social and environmental sciences.

With the new major in Journalism, a minor in Sport Studies is necessary for the University to continue to offer students the opportunity to prepare for careers in Sport Journalism. In addition, students who graduate in a major related to a sport field of study may look to advance their degree status with entry into a respective graduate program. The Sport Studies minor would provide the background necessary to enhance acceptance into one of these graduate programs.

### Curriculum

## Sport Administration, B.S. - Sport Business Option

## Overview

Millersville University's Sport Administration program prepares students to enter the sport industry's complex business background. The sport administration major equips students to interact with sport industries and various business departments within sport organizations. The B.S. in Sport

Administration has two options for students to choose from based on their career goals:

1. A concentration in Sport Business or
2. No concentration combined with another university major or minor, like marketing or athletic coaching.

This page is for the major with the Sport Business option.

Students admitted to the accelerated BS to MED program will use the required courses for that program to fulfill the Wellness and Sport Science courses here.

**Additional Comments:**

Courses

WELL175 - Wellness

Course Information

Course Title

Wellness

Subject code	Course Number	Academic Level
WELL	175	Undergraduate

Course Description

This course offers a comprehensive discussion of the dimensions of wellness including such topics as physical fitness, nutrition, psychological well-being, time- and stress-management, STI prevention, sexual violence risk reduction, active bystander interventions, addictive behaviors related to alcohol and other drugs, cultural responsiveness, as well as chronic diseases. The course includes useful and practical advice for adopting a wellness lifestyle that considers individual interests, goals, and life situations.

WELL240 - Health, Safety, Nutr for Child

Course Information

Course Title

Health, Safety, Nutr for Child

Subject code	Course Number	Academic Level
WELL	240	Undergraduate

Course Description

This course is specifically designed to address the essential components of children’s health and wellness. The course will present culturally relevant and sustaining educational methods to teach and promote children’s health through awareness, effective and diverse practices, and knowledge of health and wellness issues; address the creation and maintenance of safe environments for young children both inside and outside of the classroom environment; and meet children’s nutritional needs through culturally relevant education and planning. The course includes useful and practical advice for adopting a wellness lifestyle that considers individual interests, goals, and life situations. Emphasis will be placed on preventive, inclusive, health practices, the promotion of lifelong physical activity that is diverse in its options, and on the collaborative effort of families, communities, and teachers in the promotion of these wellness issues in the face of current health and wellness issues for children, especially mental and physical health.

WSSD103 - Foundations for Success

Course Information

Course Title

Foundations for Success

Subject code	Course Number	Academic Level
WSSD	103	Undergraduate

Course Description

Obstacles dont have to stop you. If you run into a wall, dont turn around and give up. Figure out how to climb it, go through it, or work around it. This mantra by Michael Jordan, Hall of Fame professional basketball player, serves as a foundation for success. This course explores the power of caring mentors to shape an individuals future. In this course we explore how education improves humanity. Amazing people dont just happen! Students will learn how to develop a growth mindset and through a process called critical inquiry, reflect on themselves and learn how to secure good mentors in their lives to partner in their future success. Using teaching and coaching as a framework, students will also recognize the pedagogical techniques used in their classes and how all students can best respond to those techniques to be successful in college. The course is open to all students and not intended as an introduction to a major course.

WSSD110 - Medical Terminology

Course Information

Course Title

Medical Terminology

Subject code	Course Number	Academic Level
WSSD	110	Undergraduate

Course Description

The study of medical terminology introduces students to the language of medicine. Students will gain an understanding of basic elements, rules of building and analyzing medical words, and medical terms associated with the body as a whole.

WSSD	300	Undergraduate

Course Description

Co-Op Ed Experience in Wssd

WSSD310 - PE for Elementary Schools

Course Information

Course Title

PE for Elementary Schools

Subject code	Course Number	Academic Level
WSSD	310	Undergraduate

Course Description

Methods, materials, facilities and equipment for programs of health and physical education in elementary schools. Opportunities for observation of children at play, making equipment, program planning and teaching. Offered in fall, spring.

WSSD311 - Resp to Emergen: First Aid CPR

Course Information

Course Title

Resp to Emergen: First Aid CPR

Subject code	Course Number	Academic Level
WSSD	311	Undergraduate

### Course Description

Preparation of students to develop skill and knowledge enabling them to administer first aid in the case of an accident or sudden illness. Certification in CPR and standard first aid according to American Red Cross standards.

## WSSD350 - Sport in North America

### Course Information

#### Course Title

Sport in North America

Subject code	Course Number	Academic Level
WSSD	350	Undergraduate

#### Course Description

Examines major issues in North America sport both in the past and at the present. It emphasizes developing a historical and environmental perspective of the evolution in modern North America sports. Students will study various social and cultural issues that have significantly influenced the development of sport - race and ethnicity, nationality, occupation, gender and sexual orientation, religion, economics, education, social class, and politics. It explores the implications of the continuous evolution of sports in North American society.

WSSD454 - Leadership Development in Sports

Course Information

Course Title

Leadership Development in Sports

Subject code	Course Number	Academic Level
WSSD	454	Undergraduate

Course Description

This course is designed for students involved in the athletic coaching minor program as well as any student who wants to learn more about leadership in sports. To be a successful coach, it is essential to understand key leadership concepts such as motivation, integrity, team building and influencing people. The program content of this class will reflect these key leadership issues as well as other areas like vision, problem solving, building effective relationships, group dynamics and diversity. In addition, all participants will complete a Leadership Project. The Leadership Project will be a well-conceived vision and plan for action for the participants to implement upon completion of the class.

## WSSD480 - Theory & Tech of Coach & Sprt

### Course Information

Course Title  
Theory & Tech of Coach & Sprt

Subject code	Course Number	Academic Level
WSSD	480	Undergraduate

Course Description  
Theory and techniques of the function, organization and administration of athletics in the total education program. Certification in Coaching Principles and Sport First Aid is available through the American Sport Education Program. Offered anually.

## WSSD482 - Coaching Effectiveness

### Course Information

Course Title  
Coaching Effectiveness

Subject code	Course Number	Academic Level
WSSD	482	Undergraduate

Course Description  
Course introduces students to the fundamental principles and basic techniques used by athletic coaches. Topics include skill acquisition, competitive sport strategies, practice planning and game tactics to assist athletic coaches in designing successful athletic programs.

## WSSD483 - Legal Aspects of Sport

### Course Information

Course Title  
Legal Aspects of Sport

Subject code	Course Number	Academic Level
WSSD	483	Undergraduate

### Course Description

The primary purpose of WSSD 483 (Legal Aspects of Sport) is to investigate legal issues in sport that are commonly associated with the careers of athletic coaches, athletic trainers, athletic directors, sport journalists, and sport business personnel. This course also addresses the development of safety and risk management actions to reduce injury and liability in sport settings. This course is not intended to substitute for the advice of an attorney nor can it necessarily forestall lawsuits as no course or text can make such claims. It is also important that students realize that the interpretation of what action a "reasonably prudent" coach, sport manager, etc., would take is a dynamic rather than static interpretation. Thus, throughout their professionals working in these fields must remain abreast of current practices, professional standards of care, law revision and court interpretation, as well as new laws and legal precedent regarding issues introduced in this course.

## WSSD484 - Psyc-Soc Foundation Coaching

### Course Information

Course Title  
Psyc-Soc Foundation Coaching

Subject code	Course Number	Academic Level
WSSD	484	Undergraduate

Course Description  
The psychosocial factors affecting human behavior in modern society as applied to coaching situations and the historical development of sports programs. Offered periodically.

## WSSD485 - Perf Enhance:Mntl Trng in Sprt

### Course Information

Course Title  
Perf Enhance:Mntl Trng in Sprt

Subject code	Course Number	Academic Level
WSSD	485	Undergraduate

Course Description  
This course will help students understand how psychological factors affect an individuals physical performance and understand how participation in sport and exercise affects a persons psychological development, health and well-being. By the end of this course, students will view sport and physical activity as agents for personal and social change. Offered periodically. Prereq: PSYC 100 for the B.S. BIOL/PATHL; WSSD 480 for athletic coaching minor.

## Simple Requisites

## WSSD525 - Growth, Maturation, and Physical Activity

### Course Information

Course Title

Growth, Maturation, and Physical Activity

Subject code	Course Number	Academic Level
WSSD	525	Graduate

### Course Description

Existing Description:

Introduction to the anatomical, physiological and psychosocial issues related to exercise and physical activity in children and adolescents such as effects of maturation, growth and puberty on physical performance.

Revised Description:

This course introduces students to the anatomical, physiological, psychological, and sociological issues related to exercise and physical activity in children and adolescents such as effects of maturation, growth and puberty on physical performance. Children and adolescents do not physiologically respond to exercise and training in the same manner as adults. Therefore, exercise training programs must be tailored to meet the developmental needs of children and adolescents. Professionals, such as sport coaches, who work with these populations should understand the physiological and psychological responses and demands that are unique to the child and adolescent populations. In addition, students will explore how to coach individuals with clinical pediatric health issues (e.g. asthma, diabetes) and how to adapt appropriate and safe physical activity and exercise programs.

## WSSD551 - Coaching of Sport

### Course Information

Course Title

Coaching of Sport

Subject code	Course Number	Academic Level
WSSD	551	Graduate

**Course Description**

Designed to develop the major area of knowledge pertinent to the profession of coaching. The American Sport Education Program (ASEP), dealing with sport philosophy, sport psychology, sport pedagogy, sport physiology, sport first aid and sport management, will be presented. Students may take the certification exam. Offered periodically.

## WSSD581 - Performance In Sport

### Course Information

Course Title

Performance In Sport

Subject code	Course Number	Academic Level
WSSD	581	Graduate

### Course Description

Provides a clear understanding of factors to be considered when analyzing human movement pertaining to sport and athletic competition. Offered periodically.

## WSSD582 - Sport Psychology

### Course Information

#### Course Title

Sport Psychology

Subject code	Course Number	Academic Level
WSSD	582	Graduate

#### Course Description

Focuses on the latest psychological skills training techniques for both coaches and athletes. The latest techniques in neurolinguistic programming and its implications for coaches and athletes will be utilized. Students will be introduced to and learn the latest mental-training techniques of Olympic and professional athletes. Offered periodically.

## WSSD590 - Drug and Alcohol Symposium

### Course Information

#### Course Title

Drug and Alcohol Symposium

Subject code	Course Number	Academic Level
WSSD	590	Graduate

#### Course Description

CR. Drug and Alcohol Symposium

## WSSD601 - Organization and Administration of Sport Programs

### Course Information

#### Course Title

Organization and Administration of Sport Programs

Subject code	Course Number	Academic Level
WSSD	601	Graduate

#### Course Description

Includes regulations of sport-governing bodies, federal law, academic integrity, institutional control, financial effectiveness and welfare of sport personnel and participants. Offered periodically.

## WSSD602 - Sport in American Culture

### Course Information

#### Course Title

Sport in American Culture

Subject code	Course Number	Academic Level
WSSD	602	Graduate

#### Course Description

An examination of 20th-century American culture and the role played in it by sports. Areas which will come under scrutiny include, but are not limited to, the family, labor, industry, schools, churches, race relations and democracy as they relate to sport in American culture. Offered periodically.

## WSSD603 - Moral and Ethical Issues in Sports

### Course Information

#### Course Title

Moral and Ethical Issues in Sports

Subject code	Course Number	Academic Level
WSSD	603	Graduate

#### Course Description

An inquiry into ethics and morality as these apply to sport management. Competition, violence, rules, drugs and athletic scholarships are some of the concepts examined. Various ethical approaches are considered. Offered periodically.

## WSSD604 - Event Management

### Course Information

#### Course Title

Event Management

Subject code	Course Number	Academic Level
WSSD	604	Graduate

#### Course Description

Principles of financing, operating and managing public-assembly facilities. Emphasis on event management in arenas. Lectures, projects, papers and practical experience emphasized. Offered periodically.

## WSSD605 - Sport and the Law

### Course Information

#### Course Title

Sport and the Law

Subject code	Course Number	Academic Level
WSSD	605	Graduate

#### Course Description

U.S. legal system; negligence law; intentional torts and criminal acts, including assault and battery, hazing, and violence in sport; and risk identification and management. Constitutional law issues, including state action, due process, equal protection, search and seizure/privacy issues and drug testing. Federal statutes, including Title IX, Title VII of the Civil Rights Act of 1964, Title I of the Americans with Disabilities Act, and contract law. Offered periodically.

## WSSD610 - Women in Sport

### Course Information

#### Course Title

Women in Sport

Subject code	Course Number	Academic Level
WSSD	610	Graduate

#### Course Description

Examines the history of female participation, womens relationships to changing female roles and ideals, and the attitudes of society toward competition for women. Includes an overview of womens sport organizations, federal laws and the motivations of female athletes. Offered periodically.

## WSSD612 - Research Methods in Sport

### Course Information

#### Course Title

Research Methods in Sport

Subject code	Course Number	Academic Level
WSSD	612	Graduate

#### Course Description

Overview of the nature of research in sport sciences. Topics include different types of research methods in sport, research design, skills in data collection and assessment, and application of research to the management of sport.

## WSSD615 - Campus Recreation Program

### Course Information

#### Course Title

Campus Recreation Program

Subject code	Course Number	Academic Level
WSSD	615	Graduate

#### Course Description

Overview includes budgets, personnel, facilities, legal concerns, gender issues, planning and evaluation, publicity and evaluation. Programming areas include intramurals, extramurals, informal sports, club sports and outdoor pursuits. Offered periodically.

## WSSD616 - Internship for Athletic Management

### Course Information

#### Course Title

Internship for Athletic Management

Subject code	Course Number	Academic Level
WSSD	616	Graduate

#### Course Description

Practical experience related to athletic management. Students will coordinate their course work with specific field experience. Program supervised by a member of the Department of Wellness and Sport Sciences. Students must contact the graduate coordinator of sport management one semester prior to enrolling to complete the Internship Application packet. Prereq: WSSD 601, 602, 603, 604 and 605

#### Simple Requisites

#### Course Prerequisites

##### Type

Prerequisite

WSSD 601 and WSSD 602 and WSSD 603 and WSSD 604 and WSSD 605

#### Complete ALL of the following Courses:

- WSSD601 - Organization and Administration of Sport Programs
- WSSD602 - Sport in American Culture
- WSSD603 - Moral and Ethical Issues in Sports
- WSSD604 - Event Management
- WSSD605 - Sport and the Law

#### Additional Comments:

## WSSD617 - Sport Conditioning

### Course Information

#### Course Title

Sport Conditioning

Subject code	Course Number	Academic Level
WSSD	617	Graduate

Course Description

The physiological principles underlying the process of physical conditioning. The student will also learn how to apply these principles to individuals training for sport and physical fitness. Offered periodically.

WSSD618 - Athletic Injuries

Course Information

Course Title  
Athletic Injuries

Subject code	Course Number	Academic Level
WSSD	618	Graduate

Course Description

The basic principles of sports medicine. Emphasis on injury prevention, management and rehabilitation. Current topics and methods in athletic training are also discussed. Offered periodically.

WSSD619 - Internship for Athletic Coaching

Course Information

Course Title  
Internship for Athletic Coaching

Subject code	Course Number	Academic Level
WSSD	619	Graduate

Course Description

Practical experience related to athletic coaching. Students will coordinate their coursework with specific field experience. Program supervised by a member of the Department of Wellness and Sport Sciences. Students must contact the graduate coordinator of sport management one semester prior to enrolling to complete the Internship Application packet. Prereq: WSSD 601, 602, 603, 604 and 605.

Additional Comments:

# Women, Gender and Sexuality Studies Department

The Women's, Gender, and Sexuality Studies (WGSS) minor will help you explore new perspectives that you'll use in every relationship, every job, and every circumstance. When you minor in Women's, Gender, & Sexuality Studies, you study varied disciplines like communication, psychology, theory, math & science, literature, history, sociology, art, and politics, all with a gendered lens. While WGSS is not connected to a specific career like accounting or computer science, the perspectives you acquire do open up more employment opportunities since jobs often require evidence of credentials in diversity, equity, and inclusion. The Women's, Gender and Sexuality Studies minor provides a thoughtful choice for careers in medicine, business, teaching, politics, social work, government, law, non-profits, and other endeavors where equity and social sensitivity are expected.

Women's, Gender, and Sexuality Studies is *not* just about women. Gender and sexuality exist along a spectrum and are affected by many intersecting factors. This minor makes you think about layers of identity and explore how oppressions like racism, sexism, transphobia, classism and ableism are comparable and intertwined. Students examine how social, historical, and psychological forces, organized by gender, shape individuals, communities, and societies. Minor in Women's, Gender, and Sexuality Studies allows you to challenge these intersecting oppressions and address the systemic problems that create them. When you choose this minor, you become an agent — not a bystander — in the process of bringing humanity one step closer to equality.

Many students identify courses in the Women's, Gender and Sexuality Studies Program as among the most exciting and enlightening they take at Millersville. The students who enroll in our classes each semester find their background in Women's, Gender and Sexuality Studies to be a valuable resource for their professional development and lifelong intellectual growth. Through their developed competencies in cultural and gender dynamics, graduates have found themselves well prepared to pursue advanced degrees and training in the professions, to gain employment in community service agencies, to engage in artistic expression in the creative arts, and to assume leadership roles and positions in both business and government.

FACULTY LIST
Dr. Jill Craven, coordinator

## Programs

### Women's, Gender and Sexuality Studies Minor

#### Overview

The program in Women's, Gender, and Sexuality Studies at Millersville University incorporates new and current scholarship on women, gender, and sexuality into the university curriculum. In classes, in labs, and in archives, students explore how social, economic, legal, historical, and psychological forces shape individuals, communities, and societies.

As more career opportunities require credentials in diversity and inclusion, Women's, Gender, and Sexuality Studies provides a thoughtful choice as a minor for careers in medicine, business, teaching, education, sports management, social work, government, law, and other endeavors where equity, social sensitivity, and cultural knowledge are expected.

WGSS interdisciplinary scholars reach across divisions of historical, political, economic, legal, representational, technological, and scientific analysis; they offer students innovative methods and theories to expand the breadth of their studies as well as their everyday lives.

Students who enroll in WGSS classes find their background in *Women's, Gender, and Sexuality Studies* to be not only a valuable resource for their professional development, but also for their lifelong intellectual and personal growth. Many students identify courses in the *Women's, Gender, and Sexuality Studies* program as among the most exciting and enlightening they take at Millersville.

Through their understanding of complex, intersectional identities, WGSS minors have found themselves well prepared to pursue advanced degrees and training in the professions, to gain employment in community service agencies, to engage in artistic expression in the creative arts, and to assume leadership roles and positions in both business and law/government. Their increased sensitivity to diversity and inclusion makes them sought-after employees.

## Curriculum

### Simple Requisites

- Regulations Governing Minor Course Work
1. There shall be a minimum of 18.0 credit hours with a minimum Millersville QPA of 2.0.

2. Only one course which counts toward your major may be counted toward your minor.
3. Courses that count toward a minor are also eligible to be used to satisfy the current University-wide General Education requirements subject to normal distribution requirements.
4. At least two courses should be at the upper-division level (300-400). Exceptions may be requested upon evidence of program depth.
5. No course needed for the minor may be taken Pass-Fail.
6. One-half or more of the work required for the minor must be completed at Millersville University.
7. No student may minor in his or her major.
