The Millersville University Community Emergency Response Team (CERT) training program educates volunteers on disaster preparedness based on the FEMA CERT course. Volunteers are trained in basic disaster response skills, such as fire safety, light search and rescue, team organization, disaster psychology, and disaster medical operations. CERT offers a consistent, nationwide approach to volunteer training. Through CERT, the capabilities to prepare for, respond to and recover from disasters is built and enhanced. CERT is open to all students, staff, faculty, and community members and is sponsored by Blue Rock Fire Rescue.

Location: South Village Great Room
