

Fall 2021 Seminar Speakers

Date	Speaker	Topic
August 30 th	Elliott Newman <i>Murley Fellowship</i>	New Green Chemistry Catalysts for Transfer Hydrogenation Reactions
September 13 th	Betel Erkalo <i>Murley Fellowship</i>	Monitoring transcription factor IclR-effector binding by intrinsic fluorescence
	Josh Rushlow <i>Murley Fellowship</i>	Green Chemistry: Rhodium and Iridium Catalysts
September 20 th	Dr. Chengpeng Chen <i>University of Maryland Baltimore County</i>	Quantitative 3D Cell Models and the Metabolism-modulatory Roles of ECMs
September 27 th	Dr. Yan Kung <i>Bryn Mawr</i>	Structural insight into conformational changes and cofactor specificity of bacterial HMG-CoA reductase
October 4 th	Dr. Sarah Wengryniuk <i>Temple University</i>	Organic Chemistry/Synthesis
October 25 th	Dr. Emil Hernández-Pagán <i>University of Delaware</i>	Inorganic/Materials Chemistry
November 8 th	Dr. Jillian Weissenrieder, MU Class of 2015 <i>University of Pennsylvania School of Medicine</i>	Going with the Flow: Calcium Flux in Pancreatic Cancer
November 15 th	Dr. Ellen Hondrogiannis <i>Towson University</i>	Forensic Chemistry

Students interested in meeting with a faculty speaker for lunch (12:30-1:30 pm) please email Dr. Mullen Davis
