

CARES Act General Report Update

Student Share

January 10, 2021

The information provided below reflects the only changes made since the most recent filing of the report on September 28, 2020.

OVERVIEW

All details relating to the application process remain unchanged since the previous report filing on September 28, 2020. Eligibility standards remain the same. Millersville University continues to follow documented Department of Education guidelines, including all determinations set forth in the June 17, 2020 final rule, including requiring Title IV eligibility and exclusion of students enrolled in an exclusively online program as of March 13, 2020.

As of Friday, January 8th, 2021, Millersville University has awarded **\$2,768,799.72** to a total of 2,430 students. We have **\$39,858.78** remaining in the fund, which is 1.4% of the student share of the Higher Education Emergency Relief Fund (HEERF). The remaining **98.6%** has been exhausted.

AWARDING

With our remaining funding dwindling, we have largely halted all awarding of HEERF monies. Since our previous report on September 28, 2020, only 5 students have been awarded money from the CARES Relief Fund, all of whom meet all eligibility criteria. The additional awards total **\$12,950**. These students were awarded on a case-by-case basis due to hardship and additional expenses triggered by the COVID-19 pandemic's onset during the Spring 2020 semester.

As of January 8, 2021, the remaining **\$39,858.78** in the HEERF fund is set aside for any emergency situations where an eligible student is in dire need of additional funding. At this time, no further students have been identified as potential candidates for additional funding, based on current eligibility criteria.
