Allergy Injections

Millersville University students undergoing allergen immunotherapy can receive their allergy injections locally at the Allergy and Asthma Center.

The Allergy and Asthma Center will need the following before the first visit:

- Orders and injection schedule
- Ordering provider's information
- Health insurance information

They also require that the following information be on the vials and injection schedules to ensure patient safety:

- Patient's name
- Name of extract
- Concentration
- MRN or DOB
- Expiration date
- Doctor or practice name

Please contact the Allergy and Asthma Center to request an appointment.
