You can now email your timekeepers right from the mobile eTime site. First select the timekeeper you wish to send a message to.

Timesheets

- The top will always contain the **current timesheet**. The number to the right tells you the number of unsigned entries that are waiting to be signed.

If you have time in other pay periods which haven’t been signed, they are showed beneath the current with the number of unsigned entries still needing to be signed.
All past pay periods which you have time entered can be viewed as well.

Timesheets

Timesheets with unsigned time

12/3/2011 - 12/16/2011

12/31/2011 - 1/13/2012

Past timesheets

1/28/2012 - 2/10/2012

- When you click on a timesheet you will be taken to a screen similar to this one. It displays all your time separated by week. When you are ready to sign your time, the simplest method is to click the Select All & Sign button.
As with the regular eTime, they must enter a special code that signifies your signature.

Entering the above code indicates your approval and agreement that the time submitted is correct and true.

To keep things simple and easier to sign only numbers will be required for signing entries. When you click in the box Enter Code, a number pad comes up, and you can easily tap the numbers and then click the Sign button.
Enter the above code indicates your approval and agreement that the submitted time is true.
The entry was signed!

Here is a view of an older timesheet with many entries, some approved, some signed, some neither.
