Music Production

**SCHOLARSHIPS:**  
R. Clinton & Dorothy Hughes & Kathryn Hughes  
Seaber Vocal Scholarship in Honor of Jean Bradel

Glorious Sounds of the Season/  
Rising Artist Scholarship

Jane Rohrer Endowment

### POSITIVE IMPACT OF SCHOLARSHIPS:

"I would not be able to pursue post-secondary education without grants and scholarship aid.

With the help of scholarships that I have received for both my freshman and sophomore years, the funds have allowed me to seize the high-quality education I desire to achieve my goal of music production."

### ACADEMIC EXPERIENCE:

"It is my desire to connect my interest in technology with my love of music, which will aid me in pursuing a career in music production. Music is a great communicator and equalizer. It cuts across backgrounds, economics, religions, race and brings people together... I want to encourage self-love and self-awareness through the music I produce or create. Whether it is for an artist or for myself, I want to create music that will be these things and more to all who listen."

### FUTURE PLANS:

"After successfully completing my bachelor's degree from the Tell School of Music, I hope to secure an internship that will showcase and hone my production and/or sound design/engineering skills. I would like to be working in a studio, assisting production of an artist to find their best voice."
