POSITIVE IMPACT OF SCHOLARSHIPS:

"Through the support of scholarships, I have been given opportunities that I may not have otherwise afforded, including studying abroad in Spain. As a Spanish education major, this opportunity greatly enhanced my educational experience at Millersville by allowing me to be fully immersed in the Spanish language and culture."

GLOBAL EDUCATION EXPERIENCE:

"I study Spanish Education at Millersville University; therefore, during my study abroad experience, it was vital for me to focus on being immersed in the language and practice through real life experiences. I studied Spanish literature, morphology, pragmatics and history of the language. There was no better way to improve my Spanish skills than to live surrounded by the language and culture."

FUTURE PLANS:

"I aspire to teach English in Spain for several years while traveling abroad. In addition to teaching abroad, I would like to offer my future students the opportunity to travel abroad while they attend high school. This would show adolescents that the world goes beyond the high school hallways. Lastly, I plan to earn my Ph.D. in Spanish linguistics."
