IMPORTANCE OF SCHOLARSHIPS:

"Scholarships helped me out when money was something unavailable to me as a resource. I needed a meal plan, I had no car, no license, and walking to and from everywhere was wasting valuable time that I could be spending studying. It helped me eat and afford textbooks when I needed them."

IMPACT OF ACADEMIC MAJOR:

"Many students don't learn through paper and pencil approach, and while they do have a place in schools, that is not the case for everyone and as a teacher we should be adaptable to our methods of teaching, or we're conditioning these children for failure. And I don't want to be a part of that, I want to change that. Children can teach us, as well. It's like a mentor-mentee relationship, we learn from each other."

FUTURE PLANS:

"My ultimate career goal is to become a child psychologist or educational researcher, maybe even staying in education and becoming a professor."
