**POSITIVE IMPACT
OF SCHOLARSHIPS:**

"The support that scholarships provide relieves financial burdens, therefore allowing me to focus my attention on the classroom, volunteering, leadership opportunities and the pool."

ACADEMIC EXPERIENCE:

"I chose to pursue International Business and Marketing because I felt that it encompassed many of my interests all at once, including world perspectives on commerce, art and culture. This past year, I've been able to reap the rewards of an amazing academic advisor, Dr. Blazer, and the assistance of the business department. Moreover, the Honors College creates a collective of students driven to perform their best academically and give back to the community. This support has been key to my positive experience at Millersville University."

FUTURE PLANS:

"Within the next 10 years, I hope to use my learning from Millersville University in the workforce and continue to contribute to my local community through volunteering."
