IMPORTANCE OF SCHOLARSHIPS:

"As a first-generation college student and the oldest of seven siblings, it has not been easy paying for school. I am happy to say that this year is the first year I have been able to attend school for free! It is only with the help of Millersville's generous donors and the athletics program."

MARAUDER ATHLETICS TEAM EXPERIENCE:

"I enjoy the support the most. They are your first friends on campus, and they will have your back. Regardless of how close you are, there is a sense of comradery you get from being a part of a team."

MOST VALUABLE ACADEMIC EXPERIENCE:

"In Global Politics, I was always encouraged to look through a different lens than an American citizen. This helped expand my perspective on many situations and apply to real-life situations."
