POSITIVE IMPACT OF SCHOLARSHIPS:

"My parents immigrated here with my two siblings, who also attended Millersville, and gave us as much support as possible to succeed. However, that support couldn't pay for our tuitions. Instead, my family taught me that if I am truly passionate about what I am doing, then I needed to work hard and do whatever it was to make that possible.... So, when I received my scholarship, my family was not only relieved that I was being supported financially, but it was an enormous comfort for them to know I was taking charge of my future."

ACADEMIC EXPERIENCE:

"The most valuable things I have learned are networking, content creation and marketing, how to market yourself in your career, creating connections, how to run a project or organization and how to speak confidently. Without the advice I have received from my professors or experiences from the clubs I have participated in, I would not be where I am today."

FUTURE PLANS:

"With the career I have laid out, I have so many doors open that I could end up anywhere! Ultimately, my goal is to always create and coordinate content that will inspire others, whether that be through a brand or person. However, I still will always expect the unexpected and can't wait to see what my future brings."
