Dear Marauder Family,

Earlier today, the Millersville University Incident Response Team (IRT) met to discuss the growing concern surrounding the Coronavirus (2019-nCoV). While there have been no reports or evidence of any transmission impacting our campus community, it is critical that we remain informed and assemble the necessary team of professionals to monitor and respond in the event the situation escalates. The IRT is made up of staff from across the campus, including Safety and Environmental Health, Health Services, Campus Police, Housing and Residential Life, Dining, Athletics, Human Resources, and others.

The IRT will meet regularly over the next few weeks to monitor the situation and ensure that our campus has plans and procedures in place should the situation change. While there are no immediate threats or concerns, I believe it is important to be proactive to ensure the safety and security of our campus community.

I will provide an update to campus regarding the Coronavirus in the near future.

Have a good weekend.

Best regards,

Daniel A. Wubah, Ph.D.
President
