WSON Chair Update

Greetings from the Wehrheim School of Nursing (WSON)! In August, I began my 25th year at Millersville University! Through these years, I have served in part-time and full-time adjunct roles, as well as my current tenured position. One thing has been consistent over the years – the commitment of the Nursing faculty to the success of our students and our programs. Over the past year, we have continued to grow our enrollments at all levels, with our MSN programs seeing incredible growth! For the 11th newsletter in a row, I am pleased to report more program additions. In the spring, the PA State Board of Nursing approved the addition of a fully online Family/Individual Across the Lifespan Nurse Practitioner option and we admitted our first cohort of the program this fall. As you will read later in the newsletter, this summer we announced a new level of collaboration with HACC Nursing, allowing HACC RN students the opportunity to accelerate their BSN path. Continuous development of programs and curricula is no easy task and I applaud our dedicated nursing faculty for their willingness to engage in the hard work and enthusiasm required. The Wehrheim faculty are truly exceptional in their willingness to support the ever-changing needs of our students and community! In the past five years, our nursing graduate programs have grown by more than 60%. With the addition of our new HACC collaboration, our RN to BSN program has grown 40% since last fall! Especially notable is the monumental growth in the School Nurse Certificate and MSN programs – over the past year, the school nurse certification program grew by an amazing 182% more than doubling in size!

And it's not all about program growth, we also have great things happening with our faculty! This fall, we are thrilled to congratulate Dr. Susan Moyer on receiving tenure and being promoted to Associate Professor. Further, we welcome Dr. Bryan Weinberg-Wonsidler as our newest full-time faculty member. You'll read more about Dr. W-W later in the newsletter. As I write this newsletter, I'm completing my first on-site visit as a NLN Commission on Nursing Education Accreditation program reviewer.

And if all of that isn't enough – for the 2024 – 2025 academic year, the Wehrheim School of Nursing will distribute more than \$225,000 in scholarships funds to our students. We have been able to provide scholarships to all levels of students, including 26 of our newest MU/HACC Concurrent Education students receiving funds!

We would love to hear from our alumni about the great things you are doing! Have you presented or published? Have you been appointed to a special project? Changed jobs? Take minute to scan the QR code later in this newsletter! Have a great idea but don't know quite how to get started? Please reach out to us – we would love to support and guide you!

Dr. Kelly Kuhns

New BSN Pathway: Through a Concurrent Agreement With HACC

In June 2024, we formally announced our newest collaborative program with our strongest local educational partner – Harrisburg Area Community College. In this innovative program, students who have been admitted to the HACC RN program can be simultaneously admitted to our RN to BSN program. This allows students to take courses at Millersville and HACC at the same time, accelerating the student's path to their BSN!

Another key benefit of this program is helping students to maintain their financial aid eligibility – by adding MU courses to their HACC plan, students are able to maintain a full- or part-time status. After our summer announcement, we have more than 80 students enrolled in the Concurrent Education Program (CEP) this fall, with more than 50 already admitted for the spring term. We have been shocked and delighted at the student enthusiasm for the program, and we are thrilled to be able to so clearly meet the needs of our community!

“We are delighted to continue our long-standing partnership with HACC,” said Dr. Daniel A. Wubah, president of Millersville University. “This is a great example of our EPPIIC value regarding Public Mission. We are responding to the work force needs of our communities while offering our students quality programs.”

For more information on this exciting opportunity, please email
CEPNursing@millersville.edu

Academic Calendar Fall 2024

Friday November 1: Deadline for making up a Summer & Spring 2024 incomplete grade for an undergraduate course; Last day to withdraw from a course and receive a W grade (withdrawal form must be submitted online by 11:59 pm)

Tuesday November 5: Graduate degree-seeking registration for Spring 2025 term

Wednesday November 6: Graduate non-degree seeking registration for Spring 2025 term

Thursday - Friday November 7-15: Spring 2025 undergraduate registration. See Registration Guide and Appointment Schedule on the Registration Information page for details.

Tuesday November 26: Thanksgiving recess begins after last class

Monday December 2: Thanksgiving recess ends at 7am, classes resume

Monday December 9: Last day to change a pass/fail grade to a regular grade; Last day for graduate students to make up a Spring or Summer 2024 incomplete grade for a graduate course; Deadline for submitting graduate theses and grades for research reports to Graduate Studies & Adult Learning

Tuesday-Friday December 10-13: Evaluation period -- Special class schedule; Classes will meet during this period for regular instruction or for examinations

Saturday December 14: Fall Commencement; end of fall term. More information on the commencement website.

Meet Our 2024-2025 Graduate Assistants

My name is Krystle Hosler. I am an FNP student and Graduate Assistant at the Wehrheim School of Nursing at Millersville University. This is my second year, and I am set to graduate with my FNP in May 2025. I have been an acute care nurse for 12 years, most recently working in a Neurological Step-down unit. I have been married to my best friend, Nathan, for 10 years in November, and we have a daughter, Lorelei, who is 6 years old. We also have a German shepherd, Copper, who is 10; a Siamese cat, Luna, who is nearly 1; and a 13-year-old Chinchilla named Gizmo. I enjoy spending quality time with my family on woodworking projects, getting outdoors as much as possible, hiking, and traveling. My husband and I went to Gatlinburg, TN, this summer and hope to return soon and take our daughter with us to explore hiking together as a family. Once I graduate in May, we are hoping for a big vacation to Alaska to celebrate! Throughout this journey as a student and future nurse practitioner, I have found myself intrigued by clinical psychiatry and would like to pursue my future NP education in that direction.

My name is Desiree Goodrich. I am an FNP student and Graduate Assistant at the Wehrheim School of Nursing at Millersville University. I am currently in my second year and will graduate in May 2026. I have a BS in Biochem/Health Sciences from Lock Haven University and a BSN in Nursing from Gwynedd Mercy University. I have worked in several emergency departments in Pennsylvania since 2013. I have worked as a scribe, scribe manager, RN, and RN manager. Currently, I work in the Pre/Post Op and Pacu units at LGH and LOG. I will be married to my husband, Charlie for two years this October. We do not have any children, yet, but we have two dogs (Teddy and Waffles) and three cats (Oliver, Warren, and Daisy). In my spare time, I love to read, run, and lift weights. I direct a race every third Saturday in Akron and absolutely love seeing people crush their goals! I also like to travel with every chance I get. I already have several trips lined up in the future, including a trip to Amsterdam. Through my experiences in healthcare and education, I am interested in learning more about and possibly pursuing sports medicine as a career.

Hello, my name is Fiona Haines Mowbray. I am an MSN graduate student with a focus in nursing education. I am also a graduate assistant for the 2024/2025 school year here at Millersville University, Wehrheim School of Nursing. I have experience working on an observation unit at LGH and an adolescent residential treatment facility through Community Services Group. My passion is mental health and public health nursing. I enjoy hiking, painting and spending time with my family. We have a one year old boxer named Dexter. My career goals are to hopefully experience nursing abroad, participate in research and continue furthering my education.

Hello, my name is Hannah Coldren. I am an MSN graduate student at Millersville University in the Family Nurse Practitioner concentration. I am also a graduate assistant for the Wehrheim School of Nursing as well. I am set to graduate in May of 2026. I have been a registered nurse for 5 years and currently work within the float pool for UPMC Harrisburg Hospital and as an adjunct clinical instructor for HACC in Harrisburg. Prior to working at UPMC in the float pool, I worked at Geisinger Lewistown Hospital in the intermediate care unit. After graduation, I hope to pursue a career within hospice and palliative care. I have been married to my husband, Matthew, for 4 years. He is also a nurse and together we have a 1-year-old daughter named Madeline and a Corgi named Willow. In my free time, I enjoy reading, gardening, cooking/baking, and enjoying time with my family!

Dr. Bryan Weinberg-Wonsidler

WSON's Newest Full Time Faculty Member

Dr. Bryan Weinberg-Wonsidler, DNP, CRNP, AGNP-C

Bryan Weinberg-Wonsidler is an Assistant Professor for the Wehrheim School of Nursing. He previously served as adjunct faculty for 2 years prior to becoming Assistant Professor teaching in the RN to BSN, MSN, and FNP programs. He is an alumnus of Millersville University, completing a Doctor of Nursing Practice in 2021, his Evidenced Based Project titled Improving LGBT+ Healthcare Education and Training for Healthcare Professionals: An Evidenced Based Practice Project. He began his career in nursing as a nursing assistant in 1995 and then went on to become a LPN, graduating from Grand Rapids Community College - Grand Rapids, Michigan in 2001. He graduated with an Associates of Applied Science in Nursing in 2005 and Baccalaureate in Nursing in 2013 from USNY Excelsior College. He then attended Wilkes University, graduating with a Master of Science in Nursing - Adult Geriatric Nurse Practitioner in 2017. He is nationally certified as an Adult Gerontology Nurse Practitioner through the American Association of Nurse Practitioners (AANP) and a licensed Certified Registered Nurse Practitioner. Throughout his career, he has worked in geriatrics, traumatic brain injury, neurorehabilitation and became a Certified Neuroscience Registered Nurse working in Neuroscience ICU, and LTACH before becoming a Nurse Practitioner. His current practices as a Nurse Practitioner in General Surgery and Bariatrics with Jefferson Health/Lehigh Valley Hospital since 2017.

The WSON is happy to welcome Dr. Weinberg-Wonsidler to our team!

Welcome

Dr. Rebecca Cox-Davenport

As Adjunct FNP Faculty

We are so excited to welcome "Dr. Becky" Cox-Davenport to Millersville University's Family Nurse Practitioner Program as adjunct faculty. Dr. Cox-Davenport is 2021 alumni of the FNP program (Post-Master Certificate).

She completed her RN diploma at Lancaster General Hospital School of Nursing in 1996, obtained her BSN from University of Pittsburgh in 1998, her MSN in nursing education from Waynesburg University School of Nursing in 2005, and her PhD from University of Nevada, Las Vegas in 2010.

She currently works as an FNP in a primary care role for Tower Health Reading, in the Center for Public Health where her nursing interests vary depending on the day and where her work takes her.

For fun, she enjoys working with her "Friday night kids." She volunteers for the LGBTQ center of Central PA with a drop-in social group of 12-18-year-olds in Lancaster. Her hobbies also include gardening, and crafts, as well as being a dog mom!

Welcome Dr. Becky!

BREAST-A-VILLE

Wednesday October 2nd, 2024

WSON graduate students and Dr. Chronister teamed up to provide education on breast cancer awareness and screening tips at the 13th annual Breast-A-Ville by sponsoring a table!

The Breast-a-Ville is an event created through the Breast Health Initiative in order to educate students of the importance of breast health and breast cancer awareness and prevention. Students who attend learn how to perform breast self-exams, have an opportunity to visit and talk with local agencies, play games, and much more.

Dr. Jenny Monn has Formally Announced her Retirement

Dr. Jenny Monn has formally announced her retirement following the Spring 2025 semester. Dr. Monn has served as a member of the Nursing faculty, beginning as an adjunct clinical family nurse practitioner supervisor in 2008, to tenure track faculty beginning in 2013, where she attained her tenure as an associate professor and continues to serve the Wehrheim School of Nursing full-time.

Like many of our students, Dr. Monn journeyed into nursing through an alternative pathway, earning a BS in Individual and Family Studies from Penn State in 1987 and then a Diploma in Nursing at St. Joseph's Hospital in Lancaster in 1995. She is a proud Millersville Alumni, where she completed her BSN in 2003, and her MSN and certification as a Family Nurse Practitioner in 2007. She completed her Doctor of Nursing Practice from York College of Pennsylvania in 2015. Throughout her academic career, she attained and maintained board certification with the American Nurses Credentialing Center and even became board-certified through the same agency in College Health Nursing.

At present, Dr. Monn continues to serve in the community as an FNP at Penn Medicine-Lancaster General and enjoys keeping her skills in the urgent care setting. She continues teaching regular courses, including undergraduate courses in Nursing 316: Women's Health and Healthcare, Nursing 340 Environmental Factors, and most of the graduate FNP curriculum. She serves as a regular DNP project advisor. She served as the graduate program coordinator for the FNP program from 2014-2019 and regularly oversaw 125+ students as their primary academic advisor over the years.

A little-known fact about Dr. Monn is she served as the Millersville University Health Center FNP from 2007-2013, where she provided comprehensive primary care to all the college students at MU. Prior to that she also worked as the MU Campus RN from 2000-2007, where she developed lots of new projects and initiatives including coordination of Breast-A-Ville for many years. Prior to College Nursing, she served as a labor and delivery nurse at St. Joseph's Hospital, Lancaster. Over the years, Dr. Monn has worked tirelessly to obtain grants and participate in local and national NP organizations. She also has many publications and presentations under her belt.

During her tenure here at Millersville, she has served a key role in many departmental, and University committees. She has been awarded numerous awards including, the Xi Chi Excellence in Nursing Research Award – Millersville University (2003), the Joan Godfrey Award, Department of Nursing - Millersville University (2003, 2007), Induction into the Sigma Theta Tau National Nursing Honor Society (2003), the Who's Who Among College Graduates (2003), the Mildred E. Souder Service Award, St. Joseph Hospital School of Nursing (1995), and the Association of Operating Room Nurses Perioperative Nursing Award (1995).

Beyond her outstanding accomplishments and dedication to the department, Dr. Monn is considered a genuine friend, colleague, and mentor among all the Wehrheim School of Nursing friends, students, and faculty.

Dr. Monn always has the most creative and unique sayings that kept any faculty meeting lively. For example, "That's the way the pickle squirts," "Oh Mylanta," and "Separating fly poop from pepper" are a few of our collective favorites. Dr. Monn will always have a place at the Wehrheim School of Nursing faculty conference table, and most importantly, her imprint on our lives. We will sincerely miss her as part of the faculty team.

Although her departure paints a gray sky for our faculty and students, the horizon is looking bright for her retirement plans. She plans to continue working clinically as she believes "[she] worked [too] hard for her credentials just to give them up!" She plans to delve into her volunteer work including crocheting prayer shawls for a local church and blankets for a local cat shelter. She also remains fully engaged in the Pennsylvania Coalition of Nurse Practitioners and will continue to volunteer for that organization. Lastly, she hopes to explore and travel a bit locally in her new found free time.

We wish Dr. Monn the best in her retirement and congratulate her on a successful and indelible career.

2024 Scholarship Symposium

On April 26, 2024, the Wehrheim School of Nursing held its 27th Annual Scholarship Symposium featuring the work of our MSN and DNP students. The event was held at the Student Memorial Center on Millersville's campus. This year's event posters and presentations profiled some of the finest scholarship presented by Millersville Nursing students. Five of our DNP students presented their projects. Twelve of our MSN students presented their capstone projects via podium presentation, while fifteen presented posters. Several of our graduate student alumni served as judges for the event. Congratulations to our winners!

DNP Podium Winners

1st Place – Jessica Borthwick - *Critical Incident Stress Debriefing Situational Simulation Training To Prepare Debriefing Leaders*

2nd Place – MiKaila Lugo-Schlegel - *Breaking Mental Health Stigma: Incorporating NAMI's In Our Own Voice into a Family Nurse Practitioner Program*

3rd Place – Susan Brackbill - *Secondary Traumatic Stress And High Turnover In Child Welfare Caseworkers: Mindfulness Techniques To Decrease Frontline Caseworker Perceived Stress*

DNP Winners (Right to Left): Susan, Jess, MiKaila

MSN Poster Winners

1st Place – Emily Huggins - *To Test or Not to Test: Considerations for Pediatric STI Testing in Primary Care*

2nd Place – Emily Warner - *Preventing Self-Harm For Pediatric Patients With Identified Bullying Behaviors: Recommendations For The Family Nurse Practitioner*

3rd Place – Aruna Karki - *The Role of Probiotics in Irritable Bowel Syndrome*

MSN Poster Winners (Right to Left): Emily H, Emily W, Aruna

MSN Podium Winners

1st Place – Sonia Ponessa-Yoder - *Improving Coronary Artery Disease Identification: A Comprehensive Review Of Cardiovascular Event Risk Stratification Tools In Primary Practice*

2nd Place – Ashley Graham - *Guidelines For Screening Pre-Menopausal Women For Urinary Incontinence*

3rd Place – Courtney Willwerth - *Enhancing Throughput in the Emergency Department with Artificial Intelligence*

MSN Podium Winners (Right to Left): Ashley, Sonia, Courtney

***You're
Invited***

The Wehrheim School of Nursing is hosting our annual Scholarship Symposium to showcase hard work of our graduate students and their capstone projects. Every year, our exceptional students demonstrate their talent and skills at this event. Join us in person or remotely via zoom.

Faculty Accomplishments:

Dr. Lambert was invited to be a member of an advisory committee for a project the Center for School Health Innovation and Quality is working on to develop a school nurse educator training for Pennsylvania. This program is being funded by a grant from the Moses Taylor Foundation and will be designed to educate school leaders regarding the role of the school nurse in order to help them better understand the role of the school nurse and learn how to better collaborate with school nurses. This three year project also includes partnering with universities to develop a module that can be used for students studying to be teachers and principals.

Dr. Dawn Lambert (left)
Dr. Linda Lee (right)

Dr. Linda Lee presented *Hospital to Home: Same Day Discharge after Total Joint Arthroplasty* as a podium presentation and *Implementation of a Comfort Menu after Total Knee Arthroplasty* as a poster presentation at the National Association of Orthopaedic Nurses, May 2024, in Louisville, Kentucky.

In June 2024, Dr. Cayleigh Minter presented a quality improvement project at the International WOCNext, the Wound, Ostomy, Continence Society's annual conference. Dr. Minter presented on behalf of her interprofessional team at UPMC in Cleveland, Ohio.

Dr. Dawn Lambert presented at the Pennsylvania Association of School Nurses and Practitioners conference in Hershey, PA in March 2024.

As the Coordinator of the School Nurse Certification Program at Millersville, Dr. Lambert is passionate about supporting the wonderful school nurse preceptors who provide valuable learning experiences and mentorship for our students. One way Dr. Lambert does this is by providing continuing education for Certified School Nurses across Pennsylvania.

Dr. Susan Moyer was the guest speaker for Millersville University's Annual Dress Red event, which was held on February 2, 2024. This event aligns with the National Wear Red initiative of the American Heart Association, which seeks to raise awareness of women and heart disease. Dr. Moyer's presentation was titled, "Using Nature to Nurture the Heart" and she shared current research on the health promoting benefits of nature on heart health and strategies to infuse nature into our work and home environments.

The 2024 Millersville University Fall Wellness Fair

On Wednesday October 23, 2024, the WSON sponsored a table at the Fall Wellness fair, hosted by CHEP and the Employee Wellness Committee. The Elsie S. Shenk Center for Health Education and Promotion provides lifestyle education programs, hosts awareness events, and information tables, and provides educational resources to students on a wide collection of topics including alcohol and other drugs, body image, dating violence, domestic violence, healthy relationships, safer sex, sexual assault, stalking, and stress. Students are trained as peer educators to reach out to the campus community and provide individuals with important information on the benefits of leading a healthy lifestyle, resources and services available at Millersville University, and how to safely make the most out of their college experience.

Our team discussed sodium consumption, blood pressure monitoring, and discussed the importance of preventative care and diet choices for long term health in college students and campus employees.

The Center for Health Education and Promotion is open in-person for business Monday through Friday 8:00 am - 4:30 pm. Please contact staff via phone: 717-871-4141 or email: chep@millersville.edu. Walk-ins are also welcome!

Millersville University
ALUMNI ASSOCIATION

The Millersville Alumni Association is almost as old as the University. Members of Millersville's first graduating class in 1858 vowed to form an alumni association with the classes of 1859 and 1860. In 1860, the three classes united and appointed a committee of three members, one from each class, to write an alumni association constitution. On August 30, 1861, the Millersville Alumni Association met for the first time in the library room of Old Main.

'VILLE ON THE ROAD
Connecting Alumni City To City

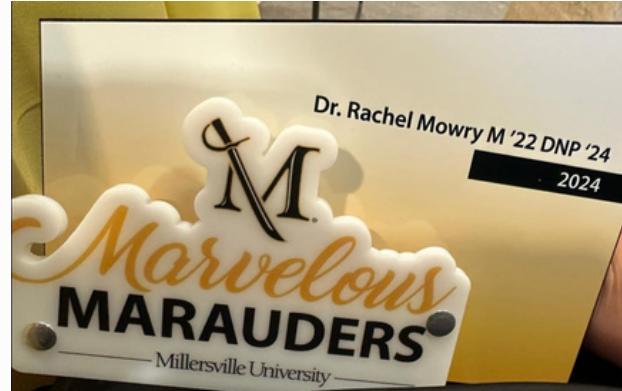

Millersville University

Make sure you monitor your email for regular updates on alumni activities and opportunities.

2024-2025 Marvelous Marauders Honored

Marvelous Marauders honors alumni who have made significant contributions in their professional lives and to the Millersville community.

On September 3, 2024 Dr. Wubah, faculty, staff, students, and alumni gathered at Brossman Atrium at the Winter Visual & Performing Arts Center to celebrate the Marvelous Marauder and Alumni Awards at a Recognition Dinner. This annual event focuses on the University's most distinguished alumni, recognizing their dedication, professional achievements and commitment to staying connected with their alma mater. The WSON is sincerely proud to announce that our very own Dr. Rachel Mowry was awarded!

CONGRATULATIONS to:

Dr. Rachel Mowry '22 MSN, '24 DNP

2024 Marvelous Marauder Award Recipient

"To be eligible for this honor, alumni must have earned an associate, undergraduate, or graduate degree from Millersville University or Millersville State College. Each nominee was carefully evaluated on the impact of their professional or vocational work, as well as their ongoing service and contributions to the Millersville community" (Devin Marino, 2024).

Congrats!

MSN Program Offerings

BSN to MSN Degree Options

Millersville University Wehrheim School of Nursing has several fully online MSN options for nurses who have their BSN (Family Nurse Practitioner Program is also held face to face at the Millersville main campus). We are also proud of offer Post-Master Certificates as well. For more information please reach out to nursing@millersville.edu.

Nursing Informatics MSN Program (Online)

Operate at the forefront of healthcare innovation. Complete your fully accredited online master's degree in nursing informatics and become a highly valued specialist who knows how to strategically leverage data to create efficiencies in healthcare delivery and workflow processes. Serve as a liaison between system developers and clinicians and deepen your knowledge of related regulations and practices. Finish in as few as 14 to 24 months and qualify for in-demand roles in a variety of healthcare settings. With no GMAT or GRE required, this affordable online program prepares you to sit for exams, including the ANCC Informatics Nursing Certification exam and the Certified Associate in Healthcare Information Management Systems (CAHIMS) exam.

Nurse Practitioner MSN FNP Program (Face-to-face)

Nurse Practitioner MSN FNP Program (Online)

The Family/Individual Across the Lifespan Nurse Practitioner Program is designed for the part-time student. Prepare for a rewarding career in preventative outpatient medicine. Deepen your knowledge of diagnosis and clinical decision-making with a focus on the quality and safety of patient care. Explore advanced practice nursing concepts like physiology, pathophysiology and pharmacology as you progress through our flexible, 100% online coursework OR completely face-to-face, classroom based options. Our experienced faculty provide personalized attention that equips you with expertise in the clinical management of healthcare for children, adults, aging adults and vulnerable populations. This CNEA-accredited online MSN – FNP prepares you to sit for multiple certification exams, including the ANCC Family Nurse Practitioner-Board Certified (FNP-BC™) and AANPCB Nurse Practitioner-Certified (NP-C®) exams.

Nursing Education MSN Program (Online)

This Master of Science in Nursing – Nursing Education online program is designed for healthcare professionals passionate about inspiring the next generation of nurses. Prepare for teaching roles in academia, healthcare agencies or professional development programs when you gain advanced nursing expertise while deepening your understanding of the learning process, formative and summative assessment, curriculum design, and pedagogical philosophies. With the support of experienced faculty, you will integrate nurse education theory and practice through 100% online coursework, in-person internships and an evidence-based capstone project. This career-advancing Nursing Education MSN online program also prepares you to sit for NLN certification exams, such as the Academic Nurse Educator Novice (CNE®n), Certified Nurse Educator (CNE®) and Certified Academic Clinical Nurse Educator (CNE®cl).

Nursing Leadership MSN Program (Online)

Improve patient care at the individual and system level. Elevate your understanding of the legal, ethical, cultural and socioeconomic factors that impact modern healthcare administration. Supportive faculty will guide you through 100% online coursework, in-person practicums and exciting enrichment opportunities such as personalized mentoring, publishing research and presenting at symposiums. Combine high-level nursing expertise with strong business acumen when you learn about organizational development, change theory, employee payment models, information technology and finance within complex healthcare systems. This Nursing Leadership MSN online program also prepares you to sit for your ANCC Nurse Executive-Board Certified (NE-BC®), ANCC Nurse Executive Advanced-Board Certified (NEA-BC®) and AONL Certified Nurse Manager and Leader (CNML®) professional certifications.

School Nurse MSN Program (Online)

Manage school-wide health programs in urban and nonurban settings when you earn your Master of Science in Nursing – School Nursing online degree from Millersville University. World-class faculty will enhance your ability to identify accommodations and adaptations for the special health needs of diverse learners, create individualized health plans and specify outcome criteria. This online school nursing master's program also prepares you for the Pennsylvania Department of Education PK-12 School Nurse Certification. With 100% online coursework, in-person practicums, and a comprehensive capstone project, you will gain the advanced educational psychology and nursing expertise necessary to improve student health. Plus, you can complete your clinical requirement at your place of current employment as long as the hours are non-compensated for your student capacity.
