

## Millersville University of Pennsylvania Crime Rates and Statistics

This report, prepared by the Millersville University Police, is published in compliance with Pennsylvania Act 1988-73, the College and Security Information Act. The crime rate is computed as follows: the number of crimes in each category is divided by the gross number of full-time equivalent (FTE) students and employees. For example, in 2007, the University had 7,058 FTE students, employees, and 21 known burglaries. To calculate the crime rate: 21 burglaries for 7,058 FTE= .00273 burglaries per FTE or 6.2 incidents per 10,000 population.

YEAR	2007		2006		2005	
	Offenses Known	Crime Rate	Offenses Known	Crime Rate	Offenses Known	Crime Rate
<u>Criminal Homicide</u>	0		0		0
