

# Astra Upgrade to Version 8.7

# This is a brief review of the recent upgrade for the Astra Scheduling Software

**Astra Schedule 8.7  
represents a complete  
overhaul of the look of the  
application plus the addition  
of enhancements**

**Following are some of the  
enhancements to the Astra  
Scheduling software:**

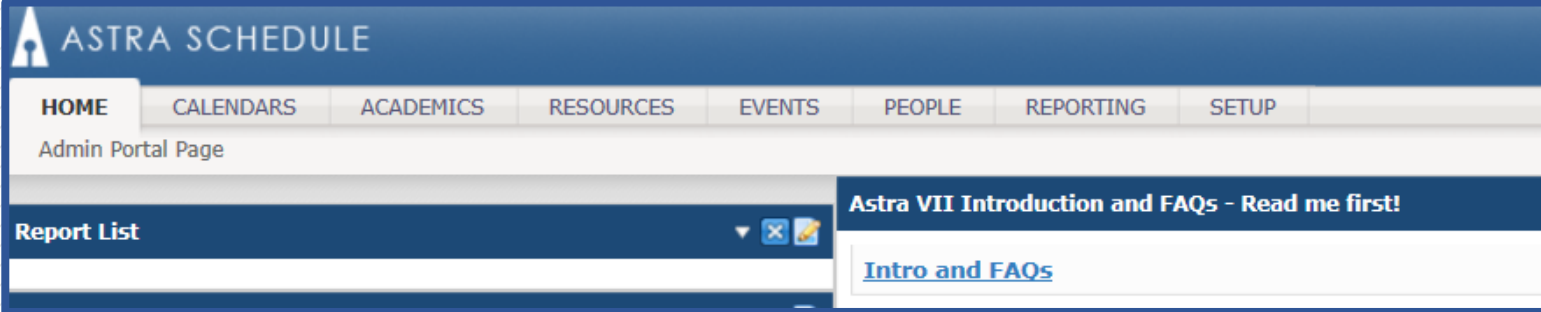

# Index of Key Updates

- Navigation Bar
- Drop Down View
- The Landing Page
- Ten Most Visited Areas
- More to Come

# A new and simplified navigation bar

## Previous Navigation Bar 7.5

## More to Come

Most of the changes to Astra have to do with the ease of use of the software, not the functionality.

Easy-to-use snippets will be forwarded to those that are interested in further details.

Please use the below email address for questions or concerns.
