

GUESS HOW MUCH ENERGY THE LOMBARDO WELCOME CENTER WILL MAKE IN ITS FIRST YEAR

April 30th marks one year of measuring the Lombardo Welcome Center's energy production and the opportunity to apply for zero energy certification. Celebrate by guessing how much energy the building will produce in year 1.

Winner gets

- A \$100 gift card to the University Store courtesy of Student Services Inc.
- Title of Millersville's Guesstimater-in-Chief

How to play

- Visit [Lombardo's zero energy certification page](#). The first chart shows how much energy we've made so far this year (about 195,000 kWh).
- At this time of year, Lombardo generates anywhere between 400 and 1,100 kWh per day.
- There are just a few days left until we reach 1 year's worth of data.
- Visit the [submission form](#) to submit your guess for how much energy Lombardo will make in its first year, May 1 2018 - Apr 30 2019.
- Closest guess without going over wins.
- **Deadline for guessing is midnight Tue Apr 23.**
