

Positive Energy Award Application Period Now Open

The Positive Energy Award raises awareness of the interconnected economic, social and environmental challenges confronting the world and accelerates local solutions to those challenges in Lancaster County by Millersville University faculty, staff and students.

Who can apply?

All Millersville University faculty, staff and students are eligible to apply; however, students must have a faculty mentor.

How much is available?

Applicants can request up to \$2,500 per award.

When is the application deadline?

Monday April 1st, 2019. 11:59pm

What type of projects will be considered?

The Positive Energy Award will be used to support on- or off-campus scholarly, creative, or service-based projects with beneficial environmental or social impacts. Funds can be used for research, creative or service-based projects, or for projects that broaden the awareness of, or engagement in, the Global Goals for Sustainable Development. Examples of fundable projects include research into opportunities to reduce agricultural greenhouse gas emissions in Lancaster County, the creation of art featuring the face of poverty in the City of Lancaster, and service-learning focused on reducing local food insecurity.
